### NOTIFICATION.

GENERAL.

*Fort William, the 10th February 1883.*

It is with feelings of deep regret that the Governor-General in Council announces the death, on the evening of the 8th instant, from Cholera, of His Excellency the Nawab Sir Salar Jung, G.C.S.I., the Regent and Minister of the Hyderabad State.

By this unhappy event, the British Government has lost an enlightened and experienced friend; His Highness the Nizam a wise and faithful servant; and the Indian Community one of its most distinguished representatives.

By order of the Governor-General in Council,

C. GRANT,
*Secretary to the Government of India.*

### GOVERNMENT OF INDIA.

### REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 2nd JANUARY 1883.

GENERAL REMARKS.—During the past week there has been again no rainfall to report from any part of the country, except in five districts of the Madras Presidency, in Saugor in the Central Provinces, and in two of the Central India States. In the Punjab there was a slight fall in the Rawalpindi and Peshawar districts.

Agricultural prospects continue good everywhere. In the North-Western Provinces and Oudh and Punjab, however, rain would prove beneficial to the crops.

The rice harvest in Bengal is expected to give generally fair outturn for the whole Province. In Coorg the rice crop has been good, but the coffee crop has fallen short.

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Jan. 3rd)** | | |
| Bellary . . . . | . . . . | Standing crops generally good; harvest paddy and dry grains, yield average. |
| Kurnool . . . | . . . . | Standing crops in good condition; harvest paddy, outturn below average; cattle disease in parts. |
| Ganjam . . . | . . . . | Standing crops, dry grains and sugarcane thriving; fever and small-pox continue. |
| Kistna . . . . | . . . . | Standing crops generally fair; harvest paddy, outturn below average; fever and cattle disease prevail; small pox in parts; water 2 feet over anicut. |
| Chingleput (Madras) . | ·30 (average of 3 stations.) | Standing crops generally good, except where injured for want of timely rain; harvest paddy, yield below average. |
| Coimbatore . . . | ·23 (average of 3 stations.) | Standing crops in good condition; harvest paddy and dry grains, outturn average; fever, small-pox, cholera, and cattle disease in parts. |
| Tanjore . . . | 4·32 (average of 12 stations.) | Standing crops generally good; harvest paddy and *cholum*, outturn about average; cholera in parts. |
| Madura . . . . | ·80 (average of 7 stations.) | Standing crops generally fair; fever and cholera in parts. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras—*contd*** | | |
| Malabar . . . | . . . . .. | Harvest second crop paddy commenced in two taluks; fever in parts; small-pox slight. |
| Travancore . . . | ·18 | Standing crops, paddy good; harvest paddy, outturn average; fever exists. |
| | | *General Remarks.*—No rain in Ganjam, Kistna, Bellary, Kurnool, and Malabar; general prospects good. |
| **Bombay—(Jan. 3rd).** | | |
| Kurrachee . . . | *Nil* | River at Kotri on 25th, 3 feet 7 inches, 1 inch higher than on same date last year; fever generally prevalent; cattle disease in six talukas; small-pox in Kurrachee city, Kotri, and Sajawal talukas; wheat, red rice, and *bajri* in Kurrachee, 24, 32, and 32 lbs. in Dadu 36, 36, and 50 lbs., in Tatta 24, 34, and 42 lbs., and in Jati 20, 36, and 40 lbs. per rupee respectively. |
| Hyderabad . . . | . . . . . | *Rabi* crops flourishing; fever in eight talukas; small-pox in Hyderabad Bago Tando, Sakrand, Moro, and Nansharo; cattle disease in Badin and Mirpur; wheat 26, *bajri* 40, *jowari* 48, red rice 28, and white rice 22 lbs. per rupee. |
| Ahmedabad . . . | . . . . . | Standing crops healthy; fever in Dholka; small-pox in Dhandhuka, 1 death; wheat 29 and *bajri* 32 lbs. per rupee. |
| Baroda . . . . | . . . . . | Reaping of *kharif* completed, except in the Kari division; standing crops in good condition; *bajri* 31½ and rice 26 lbs. per rupee. |
| Surat . . . | . . . . . | Crops healthy; reaping progressing; *jowari* 39 and *nagli* 56 lbs per rupee. |
| Nasik . . . . | . . . . . | Weather fair; *rabi* crops doing well; wheat 25½, *bajri* 36, and rice 23½ lbs per rupee. |
| Colaba (Bombay) . . | . . . . . | Abnormal temperature 1° warm from 28th to 30th, 2° warm on 27th, 31st and 1st, and 3° warm on 2nd; vapour in air slightly in excess of normal, except on 29th, when it was in defect of normal; wind normal. |
| Poona . . . . | . . . . . | Standing crops good; slight cholera in Baramati petta; *bajri* 44 and *jowari* 56 lbs., in Puna, *bajri* 41 and *jowari* 46 lbs. per rupee. |
| Ahmednagar . . . | . . . . . | *Rabi* crops generally good; *bajri* maximum 66 lbs. per rupee in Karjat, minimum 41 lbs. in Sheogaon; *jowari*, maximum 72 lbs. per rupee in Parner, minimum 50 lbs. in Sheogaon. |
| Sholapore . . . | . . . . . | Reaping of early crops in progress; *rabi* crops promising; *jowari* 70 lbs. 25 tolas and *bajri* 50 lbs. 14 tolas per rupee |
| Dharwar . . . | . . . . . | Weather chilly; harvesting of early crops in progress; exotic cotton suffering from blight in five and wheat in two talukas; other late crops good; 5 deaths from cholera in Gadag; fever in four and cattle disease in three talukas; rice minimum 26 and *jowari* 47 lbs. per rupee. |
| Kanara . . . | . . . . . | Preparing ground and sowing for second crop on coast; threshing paddy above Ghât; harvesting sugarcane on coast; cattle disease in two talukas; fever slight; common rice in Karwar 12⅘ seers per rupee, in district average 15¼ seers per rupee. |
| Rajkot . . . . | . . . . . | General health good; weather cold; cholera continues in Navanagar and its two villages; *bajri* 29 and *jowari* 35 lbs. per rupee. |
| | | *General Remarks.*—*Rabi* crops doing well; slight fever and cattle disease in a few districts. |
| **Bengal—(Jan 2nd)** | | |
| Chittagong . . . | *Nil* | Weather fine and cold; prospects of crops good; harvesting of *amun* still continues; prices steady; public health generally good. |
| Dacca . . . . | *Nil* | Harvesting of *amun* paddy continues, yield average; winter crops doing well; public health good. |
| 24-Pergunnahs (Alipore) | *Nil* | Prospects of late rice fair, yield estimated at about from 12 to 14 annas; *rabi* crops doing well; public health generally good, though fever and cholera somewhat prevalent in some parts of the interior. |
| Moorshedabad . . | *Nil* | State and prospects of crops favourable; harvesting of *amun* still going on; *rabi* crops promising; fever in a mild form prevails here and there. |
| Rajshahye . . . | *Nil* | Prospects of crops favourable; public health fair. |
| Burdwan . . . | *Nil* | Weather seasonable; harvesting of winter rice not quite finished; prospects fair; cholera and fever prevalent in parts of the district. |
| Rungpore . . . | *Nil* | Weather seasonable; prospects of crops favourable; reaping of *amun* still going on; cholera still prevalent in Gaibanda Sub-division. |
| Bhagalpur . . . | *Nil* | Prospects of winter crops good; rice still being harvested, outturn fair; general health good. |
| Purneah . . . | *Nil* | Prospects of crops good; reaping of rice not finished; health improving. |
| Patna . . . . | *Nil* | *Rabi* crops progressing favourably; paddy being reaped; public health good. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| Durbhunga . . . | *Nil* | Rice crop nearly all harvested; *rabi* crops very promising; fever prevailing in south of district; otherwise public health generally good. |
| Hazaribagh . . . | *Nil* | Weather cold and seasonable; prospects of cold-weather crops good; general health good. |
| Cuttack . . . . | *Nil* | Late rice still being reaped; prospects of winter crops good; public health good. |
| | | *General Remarks.*—There has been no rain this week also in any part of the province; most of the *amun* rice has been harvested; and a general fair outturn is expected for the whole province, though in some parts the crop has been much below the average; prospects of *rabi* crops and tobacco reported on very favourably almost everywhere; sugarcane also promising, it is being cut in some districts; fever and cholera, though still prevalent, are said to be abating in several places; cases of small-pox continue to be reported from Sarun, Singbhoom, and Manbhoom. |
| **N.-W. Provinces and Oudh—** | | |
| Benares (Jan. 2nd) | No rain | Prospects favourable; *aghani* rice cut; no sickness; prices steady. |
| Allahabad ( „ 3rd) | No rain | Prices falling slightly; prospects good. |
| Gorakhpur ( „ 2nd) | . . . . | Weather fine; crops promising; work plentiful; prices steady. |
| Jhansi ( „ 1st) | . . . . | *Rabi* germinating well; weather cloudy; rain will be most beneficial; prices almost stationary; small-pox amongst children continues; cattle disease of a mild type prevailing in pargana Jhansi. |
| Agra ( „ 2nd) | . . . . | No rain, but weather cloudy now and then; well irrigation going on; small-pox continues in two parganas; general health good; prices stationary. |
| Bareilly ( „ „ ) | . . . . | Rain wanted; prices unchanged; health good; prospects generally good. |
| Meerut ( „ „ ) | No rain | Rain very much wanted, but prices as yet unaffected; *gur* coming into market in large quantities; small-pox abating. |
| Kumaon ( „ „ ) | No rain | Crops suffering from want of rain; typhus has again broken out in three villages, otherwise health good; cattle disease still prevalent; prices slightly risen. |
| Lucknow ( „ „ ) | . . . . | Rain urgently wanted for the *rabi* crops; prospects fair; general health good, but small-pox and measles continue in the city. |
| Partabgarh ( „ „ ) | . . . . | *Rabi* promising exceedingly well; sugarcane being pressed; no sickness. |
| Sitapur ( „ „ ) | No rain | Rain much wanted; irrigation from wells in progress; small-pox abating in tahsil Sitapur, but reported to have appeared in Biswan; prices still on the whole stationary. |
| Fyzabad ( „ „ ) | No rain | Prospects good; general health good; prices steady. |
| Rae Bareli ( „ 1st) | . . . . | *Rabi* outlook good; rain wanted; no sickness among men and cattle; prices stationary. |
| Cawnpore ( „ 2nd) | No rain | *Kharif* outturn above average; *rabi* crops look promising; health good; prices slightly fallen. |
| Farukhabad ( „ „ ) | . . . . | Prospects fair; prices steady; weather seasonable; rain much needed. |
| | | *General Remarks.*—No rain; prospects continue favourable, though rain would be beneficial all round; typhus has again broken out in three villages of Kumaon; small-pox continues in Lucknow city and in portions of Sitapur, Jhansi, and Agra, otherwise general health good; prices with slight fluctuations remain stationary. |
| **Punjab—(Jan. 3rd)** | | |
| Delhi . . . . | . . . . | Rain wanted; health good; harvest prospects fair; prices fluctuating. |
| Hissar . . . . | . . . . | Rain for *barani rabi* much wanted; small-pox continues in Rohtak; health otherwise good; prices almost stationary. |
| Umballa . . . | . . . . | Rain wanted; health good; prices of food grains stationary, of gram and barley falling. |
| Jullundur . . . | . . . . | Rain wanted; health good; prices falling. |
| Amritsar . . . | . . . . | Rain wanted; health good; *rabi* sowings completed; slight rise in prices. |
| Lahore . . . . | . . . . | Health and harvest prospects good; prices fluctuating. |
| Ferozepore . . . | . . . . | Health and harvest prospects good; slight rise in prices. |
| Sialkot . . . . | . . . . | Rain wanted; health good; prices stationary. |
| Rawalpindi . . . | . . . . | Slight rain; seasonal fever continues in the district generally; *kharif* gathered in and *rabi* sowings completed; cattle disease at Rawalpindi; slight fall in prices. |
| Peshawar . . . | . . . . | Slight rain; *rabi* sowings completed; prices almost stationary. |
| Mooltan . . . | . . . . | Health and harvest prospects good; prices stationary |
| Dera Ismail Khan . . | . . . . | Rain wanted; health fair; harvest prospects fair; prices steady. |
| | | *General Remarks.*—The health of the province and the prospects of the crops are generally good; rain is much wanted in nearly all the districts, Rawalpindi and Peshawar being the only ones in which there has been a slight fall during the week. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Central Provinces—** | | |
| Nagpur (Jan. 3rd) | . . . . | Weather seasonable; prospects of *rabi* crops very good; health good; prices stationary. |
| Jubbulpore ( „ 2nd) | . . . . | Weather clear and cold; *rabi* crops in good condition; prospects and health good; wheat 20 seers per rupee. |
| Saugor ( „ „ ) | ·10 | Crops excellent; health good; prices falling. |
| Seoni ( „ „ ) | . . . . | Weather warm and sometimes cloudy; *rabi* crops most promising; health good; prices stationary. |
| Hoshangabad (Jan. 2nd) | . . . . | Weather clear and cool; *rabi* crops doing well; fever prevalent; wheat 16 seers per rupee. |
| Raipur (Dec. 30th) | . . . . | Weather cool and pleasant; *rabi* crops promise well; health generally good; rice 32 seers per rupee. |
| Sambalpur ( „ 28th) | . . . . | Weather seasonable but a little cloudy; prospects and health good; rice 56 seers per rupee. |
| Khandwa (Jan. 2nd) | . . . . | Weather clear; *rabi* prospects good; small-pox reported; wheat 16 seers per rupee. |
| | | *General Remarks.*—Weather clear and cold; reaping and winnowing of *kharif* crops being rapidly pushed on; *rabi* crops promise well; public health generally good; prices steady. |
| **British Burma—** (Dec. 30th) | | |
| Rangoon . . . | *Nil* | Total rainfall 102·02 inches; one death from cholera, otherwise public health good; crops progressing. |
| Bassein . . . | *Nil* | Total rainfall 125·83 inches; two deaths from cholera in town, otherwise public health good; reaping going on. |
| Prome . . . | *Nil* | Total rainfall 50·21 inches; two deaths from cholera in town, otherwise public health good; reaping nearly finished in several places. |
| Amherst (Moulmein) . | *Nil* | Total rainfall 20·90 inches; public health good both in Moulmein and the district; no cattle disease reported; reaping nearly finished. |
| Toungoo . . . | *Nil* | Total rainfall 91·64 inches; public health good. |
| | | *General Remarks.*—Public health good; crops good; reaping and gathering progressing. |
| **Assam—** | | |
| Gauhati (Jan. 2nd) | *Nil* | Weather seasonable; reaping of *sali* paddy in progress; ploughing land for *aus*; public health good. |
| Sylhet . ( „ 3rd) | *Nil* | Harvesting of *aman* nearly finished; cold-weather crops promising; cholera still reported from sub-divisions, apparently abating; small-pox reported from Karemganj and Sunamganj. |
| Cachar . ( „ „ ) | *Nil* | Weather unchanged; reaping of *sali* crops continue; common rice 21 5/6 seers per rupee; three cases of cholera reported from Sadr station. |
| Dibrugarh ( „ „ ) | *Nil* | Weather very cold; *sali dhan* nearly gathered; few cases of cholera reported from the Sadr sub-division. |
| **Mysore and Coorg—** (Jan. 3rd) | | |
| Bangalore . . . | . . . . | *Kartik* paddy and horse-gram harvested; standing crops in good condition; season prospects favourable; health good. |
| Mercara . . . | . . . . | Rainfall up to date 203·55, being the maximum ever reached; reaping of rice and picking of coffee proceeding, former crop good, latter short; price of food grains falling; public health good, but fever prevalent in Nanjarajapatna taluka. |
| | | *General Remarks.*—General reports from the districts favourable generally in all respects; fever prevalent in parts, but public health good on the whole; harvesting of season crops active; prices continue easy. |
| **Berar and Hyderabad-** (Jan. 3rd) | | |
| Amraoti. . . . | . . . . | Cotton-picking continued; *rabi* crops in good condition; wheat 16 and *juari* 26 seers per rupee. |
| Akola . . . . | . . . . | *Kharif* reaping continued; *rabi* crops progressing favourably. |
| Hyderabad . . . | . . . . | Standing crops prospering; cholera abating; cattle disease in some taluks; prices: wheat 16, course rice 10½, white *juari* 25½, yellow *juari* 34½, and *tur* 29¾ seers per halli sicca rupee. |
| **Central India States—** (Jan. 3rd) | | |
| Indore . . . . | . . . . | No change since last report. |
| Morar (Gwalior) . . | ·05 | Health and prospects good; weather seasonable. |
| Sutna . . . . | . . . . | Health and prospects good. |
| Neemuch . . . | . . . . | Weather cold; *rabi* crops thriving; public health good; prices falling. |
| Goona . . . | ·11 | Crops good; health fair; wheat 23 seers 8 chittacks. |
| Bhopal . . . . | . . . . | Weather cool; crops and public health good. |
| Agar . . . . | . . . . | Health and prospects good. |
| Nowgong . . . . | . . . . | *Rabi* prospects favourable; prices steady; health good. |
| Manpur. . . . | . . . . | Weather clear and cold; prospects of *rabi* crops good; prices stationary. |

GOVERNMENT OF INDIA,

# LEGISLATIVE DEPARTMENT.

## ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Friday, the 22nd December, 1882.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, C.S.I., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Major the Hon'ble E Baring, R.A., C.S.I., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C I.E.
The Hon'ble Mahárájá Sir Jotíndra Mohan Tagore Bahádur, K.C.S.I.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble Rája Siva Prasád, C.S.I.
The Hon'ble W. W. Hunter, LL.D., C.I.E.
The Hon'ble Sayyad Ahmad Khán Bahádur, C.S.I.
The Hon'ble Durgá Charan Láhá.
The Hon'ble H. J. Reynolds.
The Hon'ble H. S. Thomas.
The Hon'ble G. H. P. Evans.
The Hon'ble R. Miller.

## NEW MEMBER.

The Hon'ble R. MILLER took his seat as an Additional Member.

## DEKKHAN AGRICULTURISTS' RELIEF ACT, 1879, AMENDMENT BILL.

The Hon'ble MR. HOPE moved that the Report of the Select Committee on the Bill to amend the Dekkhan Agriculturists' Relief Act, 1879, be taken into consideration. In doing so he said he did not think it was necessary to trouble the Council with any lengthy remarks at present, as he had already on a previous occasion given a somewhat full account of the objects which this Bill proposed to secure, and he had subsequently also explained certain modifications which the Select Committee proposed to make. A complete statement of the modifications they finally recommended would be found in the report of the Select Committee which was last printed, and it was so full that he did not think that any speech which he could make would explain more clearly to the Council than that document did the changes which had been made and the reasons which had rendered those changes necessary. He would only add that the Committee had done their best to give effect to the suggestions made by the Local Government, which, in a purely local Bill of this nature, was the best qualified to decide on matters of detail, and that they had also given their most careful consideration to the whole of the remarks contained in the communications and memorials which had been received from the outside public.

The Motion was put and agreed to.

The Hon'ble MR. GIBBS moved that after section 10 of the Bill the following section be inserted:—

Amendment of section 40. (Power of Conciliator to compel attendance.)

"11. In section forty, for the word 'invite' the word 'direct' shall be substituted; and for the second clause the following shall be substituted, namely:—

"'Any person who, without sufficient excuse, fails to attend or be present as directed under this section shall be deemed to have committed an offence under section 171 of the Indian Penal Code.'"

This clause, he said, had been excluded at the last meeting of the Select Committee, at which he was unable to be present, by the casting vote of the President, and, as it was a matter of considerable importance, it was thought advisable to place the amendment before the Council. On looking at the papers which had been circulated to the members of the Council, it would be seen that the question of compelling the attendance of the opposite party before the arbitrator was regarded as one of considerable importance. The Local Government advised that the power should be granted, and the Special Judge also thought that such a course would be judicious, although he had some doubt as to the best mode of carrying it into effect. Dr Pollen showed that, when both parties appeared, fifty per cent. of the cases were amicably settled, and the Puna Sarvajanik Sabhá had forwarded a memorial, passed by a general meeting of the inhabitants of Puna, in which they accepted the alteration, only they thought the penalty should be made more stringent. He therefore thought the change was a desirable one, and he would propose that it should be adopted.

The Hon'ble MR. HUNTER said:—"My Lord, I should be sorry to impede in any way the passing of the Bill as revised by the Select Committee. But in the Report of that Committee I read the following words:—'We have, after a very full consideration of the arguments adduced on both sides, struck out the 11th section of the Bill as introduced, which would have empowered a Conciliator, whose assistance is invoked by one party to a dispute, to compel the attendance of the opposite party. The majority of us think it safer not to confer such a power at present.' The present amendment seeks to restore the *ipsissima verba* of the section thus rejected. The punitive sanctions which it creates, seem to go beyond the intention of the Legislature in framing the original Act. The question as to whether attendance on Conciliators should be made compulsory was considered when the original Act was under discussion, and it was decided that such attendance should be left optional. The question has again been considered by the Select Committee to which the present Bill was referred, and after a full examination of the arguments on both sides, the proposal to make such attendance compulsory was rejected. I feel sure, my Lord, that reasons must exist for now proposing to grant punitive sanctions which have been thus repeatedly and deliberately refused. But I hope that the Hon'ble Member in charge of the Bill will favour the Council with a statement of those reasons; and that any Member of the Select Committee who may have altered his opinion, since he signed the Report, will acquaint us with the arguments that have led to his doing so."

The Hon'ble MR. CROSTHWAITE said that, as one of the members of the Select Committee, and as being in part responsible for the rejection of this amendment by the Committee, he thought it necessary to state his reasons for his opinion. In the first place, this amendment differed entirely from any of the other amendments which had been made in the Bill. He was quite ready to agree, and he thought the Council ought to agree, to any amendment which might be necessary to make the intention of the original Act clear. But the amendment now before the Council went beyond the intention of the original Act, and authorized a system of conciliation which the Legislative Council in passing it did not intend. The question whether attendance on the Conciliators should be made compulsory was considered by the Bombay Government before

the Act was passed, and it was decided in the negative after careful consideration by the then Government of Bombay. The then Governor wrote that, having carefully considered the question whether the raiyat should be compelled to attend before the Conciliators, he thought that he should not be so compelled.

"If the Conciliation Judge had the power of compelling the attendance of the raiyat to answer the money-lender's claim, he, the Judge, would have a power which would be liable to abuse. Though he would not have the power of deciding, or enforcing his decision if he formed one, still he would, by compelling attendance, be able, if so disposed, to put great pressure on the raiyat to compromise the claim. Such power of applying pressure by an educated man of position upon an uneducated and humble man, or a claim preferred by a man generally of some education and wealth, is a power that ought not to be conferred upon honorary Conciliation Judges in the present state of society in the Dekkhan. I state this with confidence, appealing to the knowledge of those who are acquainted with the Native gentry of the Dekkhan, from among whom the Conciliation Judges would have to be selected."

This view of the matter was accepted by the Legislative Council in 1879, and, if not actually accepted, was acquiesced in by the Hon'ble Member who was the distinguished author of the Act. But what had happened after that with regard to the system of conciliation? It would be in the recollection of the Council that the original Act provided that no police-officer should be appointed a Conciliator. Apparently, that provision was intended to include, or rather to exclude, the village-officers called police-patéls from being Conciliators. Afterwards, in 1881, the Government of Bombay having, MR. CROSTHWAITE supposed, found out that this exclusion was inconvenient, and being unable to find a sufficient number of Conciliators without having recourse to the services of police-patéls, this Council was asked to amend the Act, and then his hon'ble friend Mr. Gibbs asked the Council to say that the words "officer of police" in the original Act should not be deemed to include the village-patél. The village-patél as represented by Sir Richard Temple and the Hon'ble Mr. Hope in 1879 was a person who ought not to be entrusted with the administration of cases between money-lenders and raiyats.

Speaking of the appointment of patéls to be village-munsifs, Sir Richard Temple advocated the measure, and explained that the village-tribunals would have nothing to do with affairs between raiyats and money-lenders—a class of cases, he added, with which they would be utterly unfitted to deal; and the Hon'ble Mr. Hope, speaking in relation to the same matter—the appointment of the headmen to be village-munsifs—said in 1879, "there is this further difficulty in their case, that the bulk of our petty suits are brought by money-lenders with whom the patél would too often be, by want of education or by absolute interest, unqualified to cope."

Accordingly, it was understood at that time that these patéls were not to be Conciliators, but now by the alteration made in the law in 1881 they could be appointed Conciliators, and, MR. CROSTHWAITE supposed, had been so appointed in many instances by the Bombay Government. Therefore, he thought it fair to infer that the class of men who could be appointed Conciliators at present were not a higher class of persons than those in respect of whom the legislation of 1879 was enacted, but that they might absolutely include a class which was declared at that time to be unfitted to deal with cases in which raiyats and money-lenders were concerned. Now, the Council was called upon to go a step further and reverse the decision it had come to in 1879, and to make failure to attend before the Conciliators penal. MR. CROSTHWAITE thought, under these circumstances, they should proceed with great caution. They ought to have before them full information as to the real working of this measure of conciliation, and as to whether the abuses which Sir Richard Temple anticipated had occurred. In a note by the Hon'ble Mr. Hope which had been put before the Council as Paper No. 1 relating to the Bill, and in several other papers connected with this Bill, reference was made to a report of Dr. Pollen, and quotations were made from that report which showed that the system of conciliation had on the whole worked very well. MR. CROSTHWAITE had no fault to find with those quotations, but he thought it necessary, as Dr. Pollen's report had not been placed before the Council, to quote at greater length than the

Hon'ble Mr. Hope had done what Dr. Pollen said on the other side of the question; and if the quotations which were already before the Council were read in connection with the quotations which MR. CROSTHWAITE would make, he thought the Council would then be placed in a position to arrive at a fair understanding of Dr. Pollen's meaning. The Special Judge said:—

"The chief objection I have to the system is that it tends to encourage collusive agreements and to nullify to a great extent one of the principal objects of the Act, namely, the relief from debt of the indebted agriculturists, by the facilities which it affords for evading that searching enquiry into the merits of each transaction which to my mind is the most important means of relief afforded by the Act. There are many conscientious and zealous Conciliators who seek to probe the true merits of each case, and who use all their influence to persuade the parties to come to an equitable compromise. Other Conciliators are more easy-going, and such persons are apt to be made mere registrars for giving legal sanction to the claims presented to them. Large number of conciliation-agreements are little better than mere renewal bonds supplanting old deeds. In former reports I have enlarged upon this subject, and it will here suffice thus briefly to refer to my views. I have only to mention in this connection a new practice which seems to be growing up in some places. When a loan is being negotiated, in order to avoid the trouble and expense of writing out a bond on stamped paper and of having it formally registered by a Village-Registrar, the parties go before a Conciliator. The creditor makes a demand. The debtor admits the debt and promises to pay in certain sums and at certain times as may have been fixed upon. The Conciliator takes down the agreement in writing. It is signed by the parties. It is then sent to Court and takes effect as a decree. The dispute and the pleadings are a kind of legal fiction to give the Conciliator jurisdiction. The lender thus gets what is equivalent not only to a registered bond, but to a registered bond with a decree cut and dry already tacked thereto, and this he gets, without stamped paper, registration or litigation—by the mere collusion or consent of the borrower. In this way the stamp and registration laws are easily evaded. I do not think a state of things like this was ever contemplated. It does not, however, appear illegal."

The Bombay Government, in commenting on Dr. Pollen's report in paragraph 17 of their resolution, wrote as follows:—

"The merits and defects of the system of conciliation are impartially stated at length in paragraph 44 of the report. It is satisfactory to learn that both Mr. Ranadé and Mr. Bhede testify to the usefulness of the system, and that the Special Judge is himself of opinion that, where the Conciliators are efficient, the system may fairly be held to have done much good. But His Excellency in Council considers that it would be still too early to pronounce a definite opinion on the success of this system. The irregular practice referred to at the end of paragraph 44 requires careful watching. The mere fact that it is possible under the existing law to obtain what is equivalent to a registered bond with a decree attached by means of a collusive dispute before a Conciliator, and without registration, stamp or litigation, shows the necessity of careful supervision."

That being the state of the case, the Council should consider to what extent abuses of this kind might possibly extend. It appeared from the returns attached to Dr. Pollen's report that there were something like 70,000 applications made to the Conciliators last year, and in 25,000 of these cases the party invited to attend (who, Mr. CROSTHWAITE presumed, would generally be the raiyat) neglected or refused to appear. Possibly, the effect of the amendment which the Hon'ble Mr. Gibbs had proposed would be that these 25,000 persons might be compelled to attend. But, before they authorized such a measure of compulsion, the Council ought distinctly to know that no such abuses as had been pointed out by Dr. Pollen had taken place, or were likely to take place. And information to that effect was not before the Council. His hon'ble friend Mr. Hope, when the Act was passed, stated his belief that, if the decisions of the Conciliators were just and equitable, the parties would attend. Mr. CROSTHWAITE perfectly agreed in that expression of opinion, and he believed, if time was given, it would be found that confidence would grow up, and that before a just Conciliator the parties would attend, but before an unjust one they would not attend; which was the result they must all wish to see attained. But there had not been sufficient time to ascertain the effect of the Act, as it had been in force a very short time. The report of Dr. Pollen was not before the Council; but it had been seen from the passages now quoted that even he spoke in a dubious manner on the subject, and that the Bombay Government re-echoed his tone.

The Council would no doubt be told that what had been done was exactly in accordance with the French law, from which this system was borrowed

But MR. CROSTHWAITE, on looking into the matter, had found some very material differences between the two laws. He had quoted Dr. Pollen to show the force which a decree given by the Conciliators had: it had the effect of an unappealable decree. A man might go before a Conciliator and mortgage his property on most unconscionable terms, and there was no appeal from the agreement so made. If MR. CROSTHWAITE wanted to upset the Act altogether, this was the very provision which he would introduce. Notwithstanding the clauses forcing the Courts to go behind the bond, the money-lenders were provided with the means of evading those wholesome provisions of the Act. It might be said that the Government could watch the working of this conciliation-system and prevent its abuse. But we had to deal with very clever people, who had their whole attention directed to the matter, and they would soon find out how to evade the law. He was firmly of opinion that the introduction of the proposed clause, together with the extraordinary force given to agreements made before a Conciliator, would virtually upset the intention of the Act if its operation was not very carefully watched. Under the French law, the agreement in a Conciliation Court had no such power as the Act gave to it. It was merely an authenticated private agreement, by which no lien on real property could be created: and if the parties wished to enforce it, they had to go before the Courts. Neither had the Council a precedent in the French law in the matter of the penalty which it was proposed to attach to non-attendance before the Conciliator. The French law merely provided that, if either of the parties did not choose to attend, he was liable to pay a fine of ten francs, and that fine could be imposed only by the Court of first instance before which the case might ultimately come. If the fine was not paid, that Court might refuse to hear the defaulting party's suit if he was a plaintiff, or might give a decree against him without hearing his defence if he was a defendant. This was very different from what was now proposed.

The only other argument likely to be brought in support of the amendment was what he might call the confidence argument. It was said that this Council was now dealing with a local question, and ought to accept the recommendations of the Local Government. MR. CROSTHWAITE was quite prepared to act to a certain extent on that principle, but he thought that in this instance it was carried too far. He thought that their confidence must be tempered with discretion. When, having already confided in the Bombay Government of 1879, which was against the conferment of power to compel attendance before the Conciliators, he was now asked to place confidence in the Bombay Government of 1882, which asked that the power might be conferred, he felt himself very much in the position of the patriarch when he was called upon to give a second blessing. The Council had already given their confidence to the Bombay Government in 1879, and if that Government now wished them to adopt a different course, it should afford the Council very strong reasons for changing their opinion; and that had not been done. He held a strong opinion on this point, and he thought that, before the Council proceeded to make attendance upon Conciliators compulsory, they ought to have greater experience of the working of the Act and a certain assurance that those abuses (which, he must confess, he considered gross abuses) to which Dr. Pollen had referred were not likely to recur.

He would therefore vote against the amendment.

The Hon'ble MR. HOPE said it would be necessary for him to reply to the running fire of objections which had been brought to bear upon him by a somewhat similar series of rather curt replies, because, as regarded some of the points raised, if he were to resort to the means of answering them fully which were at his disposal, it would lead him to draw largely from the bulky volume which was in his hand and from one or two more which he had under the table; and, if he attempted to do so, he would be obliged to trespass very largely upon the time of the Council. As, however, he did not think the Council would consider such a tedious course to be necessary, he should be obliged to give replies which must necessarily appear to be of a somewhat dogmatic character. One of

the objections which had been taken was that the effect of the amendment would be to go beyond the intention of the original Act, and was therefore inadmissible, since it was recognised on all hands that, in the legislation now before the Council, it was not intended to interfere in any degree whatever with the principles of that Act. But he ventured altogether to deny that the amendment went in any way beyond the scope and intention of the Act. The Act might be said to comprise both main principles and detailed provisions by which those principles were to be carried out. Starting with the previous litigation was a very ruinous as well as a very tedious process for all parties. The principle of conciliation was that the two persons at issue, who both, or, at any rate, one of them, were supposed to be more or less wrong-headed, should be brought in the first instance before a person of greater intelligence and better position, and of certainly more calm mind than either,—a person who was able to give them good advice; and that they should then be left to decide whether they would take it or carry on the war to the bitter end. Any measure, therefore, which was calculated to allow that principle full play was within the intention of the original Act. The present proposal was to be looked upon as a mere detail of machinery for carrying out that intention fairly on a point in which that machinery had been found to fail; and he could, with little trouble, point out to the Council various amendments of a similar character which had been made without any objection by the Bill of last year. The point in which the original intention of the Act had failed was simply this, that whereas it was intended that both the parties should appear before an intelligent person, who would, if possible, bring them to terms, it was found in practice that, in a large proportion of the total number of cases, one of the parties did not so come before the Conciliator; and, consequently, the conciliation, which the law intended to take place before litigation was resorted to, had no chance of coming into play.

As to the next objection which was taken to the Bill, it was raised by the Hon'ble Member who spoke first in the debate, and MR. HOPE thought it was also embodied in substance in the remarks which fell from his hon'ble friend Mr. Crosthwaite. It was said that, when the original Act was under consideration, the Government of Bombay was opposed to conferring upon Conciliators the power which the amendment now proposed to give them, and quotations were made in support of that statement from a minute written by Sir Richard Temple, in which he said that he thought the power was liable to abuse, and that the Conciliator might put great pressure on the raiyat in order to induce him to compromise the claim in favour of the money-lender. It was likewise said that the refusal on the part of the Bombay Government to confer upon the Conciliator the power of summoning the defendant had been accepted by the Council as well as by himself. Thirdly, it was pointed out that, as regarded police-patéls, he himself had said, in a certain note which he had written, that he did not think it was desirable to impose upon the police-patéls in the Dekkhan the responsibility of deciding certain cases.

With regard to these three points, which he had briefly, but he hoped not incorrectly, enunciated, he would remark that the Council were now in the year 1882 and not in the year 1879, and that they might therefore at present very well grant a power, though in 1879 they had no sufficient warrant for doing so. Again, without laying too much stress on technicalities, he might say that the only way in which the refusal had been accepted was a demi-official way, in the course of the private consideration given to the subject by the Executive Government. So far as he recollected, the subject never came up before the Legislative Council. As to the particular question of police-patéls, he must point out that his note was on a totally different subject, and what he there said was, that he did not think it was desirable to impose upon the hardworked patéls of the Dekkhan the duty of acting as judges in all civil suits exceeding Rs. 10 in value. He had never said that they might not be trusted to exercise the power of bringing two wrong-headed people together with a view to enter into a compromise, and he objected to that inference being drawn from his note or to its being used for such a purpose.

O

The Hon'ble MR. CROSTHWAITE here observed that he had said that the quotation referred to the different matter of village-munsifs.

MR. HOPE said that this was so, but then what became of the applicability of the quotation? Either it applied to this case, or it did not. If not, then the remarks by his hon'ble friend must be held to come under the stricture of total irrelevance.

However, passing from the observation that the Council were now legislating in the year 1882 and not in 1879, he would proceed to the demand which had been made for fuller information to prove that certain abuses had not occurred. Reference had been made to certain quotations which were given in the note which he had written on Dr. Pollen's report, and it was said that, if they were read with certain other quotations from the latter document which he had not given, a very different view of the question from his would probably be justified. He would here remark that he *did* in that note also say as follows:—

"While thus quoting Dr Pollen against himself, it is only fair to invite perusal of his 43rd and 44th paragraphs, in which he objects to the system that there is not no guarantee against claims purposely enhanced in order to make the remissions nugatory, against collusive agreements, or for that thorough investigation into the true merits of each transaction which could be secured by the application of the law in the Civil Courts."

MR. HOPE did not for a moment suppose that his hon'ble friend meant to imply that Dr. Pollen was not quoted with fairness, but, having supplemented his statement by the words out of his note which MR. HOPE had just read, he would remark that the whole of this matter was outside the present question. The issue which the whole of Dr. Pollen's remarks, taken together, really raised was, whether conciliation, on the whole, was a good thing or not. Dr. Pollen was an able and thoroughly trained judicial officer, and his general opinion was that no authority, except the regular Civil Courts, was fit to investigate matters of this sort; he considered, on the whole, that any procedure by way of conciliation was unsatisfactory, and that the Courts would do the work much better. In carrying out the system of conciliation, his recommendations would be directed towards bringing the Conciliators under the fetters of the law, and attaching to them the restrictions imposed on the Civil Courts. MR. HOPE was not now called upon to defend the principle of conciliation, because it was not proposed to touch it in the present Bill. On the other hand, he thought that the demand to show that abuses had not occurred was an exceedingly fair and reasonable one. In answer to that demand, he could only say, in the first place, that no general complaints had been received from any portion of these districts that the Conciliators had abused the power which had been entrusted to them. No such complaint had been made in any of the memorials which were before the Council, nor had it ever reached him from outside. As to the statement made by Dr. Pollen, that certain objectionable agreements might be made before the Conciliator, and that renewal-bonds might be substituted for the existing ones, all MR. HOPE could at present produce in answer to it were certain statistics which he intended to refer to at a later period of the debate, and in which it was shown that the greater number of bonds were not renewal-bonds but records of original transactions between the parties. He thought, therefore, that there was nothing to show that that particular form of abuse had prevailed to any great extent. Then, another argument which had been brought forward in proof that abuses must exist was this, that he himself had said that, if the Conciliators' Courts were good, the people would themselves resort to them, and that, if they were not, they would stay away; and it was inferred, from the large number of refusals or neglects to attend, that the people were dissatisfied with the system. MR. HOPE found that neither this argument nor the facts would bear that inference. As regarded the people failing to attend before the Conciliator, it was shown in the reports that it was not always the raiyat who stayed away, but the complainant, the saukár himself, who, having brought his complaint before the Conciliator, did not appear to press it, the reason being that he merely sought to use this process as a screw *in terrorem*. But, granting that there was a large proportion of raiyats who did not attend before the Conciliator, there was

another answer, which was that there was no security that the raiyat had ever received the summons to attend. If the argument from Sir Richard Temple which was put forward was held to be good, and if it was to be supposed that the Conciliators would use their powers in favour of the saukárs, then that at once afforded a good reason why the Conciliator and the saukár between them should take uncommon good care that the raiyat heard nothing about the application. The saukár usually did not want conciliation at all. Therefore, nothing could be inferred from the mere absence of the parties. Nor was there any inconsistence between the present motion and the remarks which he had made on a former occasion, and to which reference had this day been made. The most probable reason, if he might venture to suggest one, for the non-attendance of the parties was a combination of all these reasons together. There might be certain cases in which the saukárs succeeded in preventing the attendance of the raiyat; there might be some cases in which the raiyat took no trouble to attend; and there might be others in which he had never heard of the application made to the Conciliator. The objections now made were of exactly the same character as those which were taken to the provision in the Bill of 1879, that the defendant should be obliged to attend; yet they now knew that that provision had produced the very best effect.

He would now pass on to another point, namely, the remarks which had been made with reference to the French system. It was said that the system inaugurated by the Dekkhan Agriculturists' Relief Act differed from the French system, because in France the parties might appear before the Courts to contest an agreement made before a Conciliator, whereas here it had the effect of an unappealable decree. His answer to that was, that here also, before an agreement could take effect, the parties were allowed to appear before the Court, and they received ample notice that they might do so. The Act required the Conciliator to forward the agreement to the Court of the Subordinate Judge, notice was issued to the parties to show cause within one month why the agreement should not take effect as a decree, and rules were framed taking the utmost possible precautions to ensure the notice reaching the parties. It was said that these were "unappealable decrees," but to that statement MR. HOPE begged altogether to demur. These proceedings were entirely open to revision under Chapter VII of the Dekkhan Raiyats' Act. Under that chapter, the special Judge was empowered to transfer applications from one Conciliator to another in cases in which he had reason to believe that injustice was likely to be done, and in every way the proceedings could be rectified, under the revisional power given, if there was anything very gross or wrong in them. Finally, it was said that the fine imposed under the French law was only ten francs, and that that could not be imposed by the Conciliator. To that MR. HOPE would reply that here the fine could not be imposed by the Conciliator either. The amendment merely rendered a person disobeying a summons to attend before a Conciliator liable to the same fine to which every person is liable for not attending on the lawful summons of a Court of Justice. Proceedings would have to be taken before a Magistrate for the adjudication of the fine, and the Conciliator would have nothing to do with its imposition.

He hoped that by these remarks he had succeeded in showing, first, that the amendment was not beyond the original intention of the Act; secondly that the Council were perfectly at liberty now to provide new details of machinery for carrying out that intention, which they did not feel justified in providing in 1879; thirdly, that there was no proof that any abuses had arisen, or were likely to arise, in the working of the Act, or that any of the precautions against abuse which had been provided were insufficient. Also that no extraordinary power was asked for the Conciliators, and no special hardship was likely to occur from the exercise of that which it was proposed to confer on them.

Lastly, he would refer to the "confidence argument" which had been objected to by his friend the Hon'ble Mr. Crosthwaite. It should be remembered that on this question this Legislative Council was, for technical reasons,

obliged to legislate, instead of the discussion and settlement of the matter being left to the local legislature. That being so, he thought that in this matter the Council might place the same confidence in the judgment of the present Local Government as it might be seen from the debates had been placed in the Local Government of 1879; especially might they do so in a matter in regard to which the Government of Bombay was in close communication with the local authorities to whom the duty of administering the law had been entrusted, and had also the advantage of watching closely the comments of the local Press. But there was another form of the confidence argument to which he would refer, and that was, that, at the time the conciliation-system and the village-munsifs were proposed, he had to undergo considerable opposition on the ground that there were no fit men available for the discharge of the duties which it was proposed to impose upon them. The line of argument MR. HOPE then took was more generous and, he was glad to say, had been proved more just, with regard to the integrity and the capacity of the Natives of India. He then said that, to his own personal knowledge, there were a considerable number of Native gentlemen who would be found quite fitted to exercise the small amount of authority proposed to be conferred upon them by the Act. He was glad to say that these anticipations had been fully justified. There were at present upwards of three hundred Conciliators, and, after making due allowance for the incompetence or even for the misconduct of a few, if such really were necessary,—he thought only two or three had been removed from office,—the experience which these gentlemen brought to the performance of their duties, and the general satisfaction in which their proceedings were held, amply justified the confidence which was reposed in them. He, therefore, saw no reason why the Council should hesitate for a moment to confer upon them the small additional power which was now proposed. He did not know how the Natives of India were ever to be educated to self-government or to independence if they were not to be allowed to exercise a certain amount of responsibility. His own opinion was that, if responsibility was put well upon people's shoulders, it would be found that they bore it much better than was expected. There was no ground whatever to cast a slur on a number of gentlemen who had been performing these honorary and delicate services well for the last two years, and to refuse to give them the power of summoning the parties to appear which the amendment proposed.

The Hon'ble SIR STEUART BAYLEY said that he would not take up the time of the Council very long after the thorough and lengthy way in which this question had been threshed out; but as he happened to be one of the unfortunate minority of the Select Committee, and having been called upon as such by his friend the Hon'ble Mr. Hunter to explain the reasons on which he had acted, he wished to say a few words in support of the vote he had given in favour of the amendment before the Council. It was, he would not say unfair, but still not quite correct, to draw an argument in favour of the law as it stood from the fact that the Select Committee in this instance were willing to leave that law on the lines on which the Act had been originally passed; because, if the Hon'ble Member would look into the history of the case, he would find that the present amendment was put into the first draft of the Bill, and it was only at the last stage of the Committee's meetings that it was proposed to abandon it. His friend Mr. Gibbs had not been able to be present on that occasion, and consequently the members were two and two, and therefore the abandonment of the proposed section was carried by the casting vote of the Chairman of the Committee. Had Mr. Gibbs been able to be present, the section would have stood as originally drafted; so that, if any weight was to be attached to that occasion specially, it was fair to say that there were as many on one side as on the other.

But he himself did not attach much weight to that circumstance. The real reason which justified him in voting for the amendment was that the Bombay Government, who were really responsible for the working of the Bill, and who possibly understood better than the members of this Council the character of the amendment, although they rejected it in 1879, had subsequently,

after three years' experience gained, found that this power could safely be given to the Conciliator. It was not a question of giving their confidence to that Government in 1879, and not giving that confidence in 1882. But it seemed to him that that Government spoke in 1879 before gaining experience, and the Government of the present day made their recommendation after having found that experience. Considering the importance of the functions entrusted to Conciliators, it was only reasonable to give the Conciliators this additional power without which those functions were shorn of half their usefulness. His own opinion was that, in the majority of instances, it was not the raiyat but the saukár against whom the exercise of this power would be needed, and that it would be absurd for the Government to appoint Conciliators and to give them all these powers for the express purpose of bringing the two sides together, if, at the end, they were not in a position to do it. The penalty, as it stood in the amendment, was, he believed, only declaratory. He could not pretend to offer a professional opinion on that point, but it appeared to him that, if the word "directed" was used instead of "invited," the penalty would follow as a matter of course under section 174 of the Penal Code. The Conciliators could not act under that section themselves, but would have to go to the local Magistrate to enforce the penalty, and it struck SIR S. BAYLEY that the number of cases in which they would take the trouble to do so would not be very great. If they proceeded against one or two recusant persons, the parties concerned would become aware of the existence of this power, and the result would be that the parties would be brought together and the object of conciliation would be attained. But, without this power of bringing two parties together, it seemed to him that the Conciliators would be placed in a very false position. These were the reasons which induced him to support the amendment.

The Hon'ble MR. ILBERT said that he admitted that the amendment would merely have the effect of restoring to the Bill a section which originally stood in it. He admitted, also, that the omission of that section was due to an accidental circumstance, namely, the unavoidable absence of Mr. Gibbs from the meeting of the Select Committee. Owing to that absence, MR. ILBERT was unfortunately compelled to decide the question by his casting vote. He thought the supporters of the amendment were fully entitled to the benefit of both these admissions. After what had been said by Mr. Crosthwaite, he need not explain at length his reasons for opposing the amendment. They were, first, that the amendment made, not an alteration of detail, but a modification of principle, and, as such, went beyond the proper scope of the Bill; and, secondly, that the evidence before the Council was not sufficient to justify the making of the amendment. He would explain his first point by quoting the concluding remarks of the very able note by his friend Mr. Hope on which this Bill was founded. Speaking of the measure of 1879, Mr. Hope said: —

"In order to succeed in all respects, it needs no modification of principle, no change of method, nothing except the aid of a few legislative amendments to make its original meaning more clear, of vigorous executive action to carry out the provisions fully, and a little patience."

Then, was the effect of this amendment to make the original meaning of the Act more clear? He would answer this question by another quotation from the Hon'ble Member's speech in introducing the Bill in 1879:—

"The proposed Conciliators will so far differ from the French *Juges de Paix* that they will not have, in addition to conciliatory functions, a petty judicial jurisdiction up to 100 francs (— Rs 50), nor will they be able to compel the attendance of the defendant before them; but they will in consequence be unable to exercise undue pressure, which, in India, might perhaps, under some circumstances, be apprehended."

So it was perfectly clear that the Government had in 1879 considered this point, and had, after deliberation, come to the conclusion that it was not wise or safe to confer on the Conciliators the powers which would be given them by the amendment. The principle, as he understood it, of the original Act was, that the plaintiff, before he began his suit, should be required to give the defendant an opportunity of attending before an impartial and reasonable person, and talking the question over, an opportu-

nity of which the defendant might avail himself or not, as he pleased. The proceeding, so far as the defendant was concerned, was to be probably voluntary. If so, was the Council now justified in making so great a departure from this principle? He submitted that they would not be justified in doing so, except upon full and clear evidence that the dangers apprehended in 1879 were found by experience to have no foundation. The Council were told that this was a matter in which they were to be guided by the opinion of the Bombay Government. MR. ILBERT admitted that they ought to attach the greatest possible weight to the opinion of the Bombay Government on such a point, but he did not think that they could altogether disclaim responsibility for this legislation, or refrain from exercising their own judgment as to the effect of the evidence before them. They had before them the very able report which had been drawn up by Mr. Pollen on the working of the Act in 1881. MR. ILBERT had very carefully read that document, particularly paragraphs 43 and 44, from which extracts had been made in previous speeches; and the impression which it left on his mind was that Mr. Pollen was on the whole favourably disposed to the system of conciliation, but that he believed it to be in certain cases liable to serious abuse. "My judgment," says Mr. Pollen, "is still, to a certain degree, in a state of suspense, and I cannot feel sanguine as to the ultimate success of the experiment." Now, what was the fair inference to be drawn from this statement? The inference which he would draw was that the Council would be fully justified in continuing the powers conferred by the existing law on Conciliators, but that they would not be justified, without further evidence, in extending those powers. That was the inference he drew, and he thought the proper course to adopt was to leave the law as it stood,—not to take away one jot or tittle of the powers given by the existing law, but not to increase those powers. Nor did he think that the adoption of such a course would place the Conciliators in a false or undignified position. What was the position which they occupied? It was difficult to conceive a more dignified or responsible position. They occupied the position of arbitrators selected by the State for the purpose of determining disputes between saukárs and raiyats; like other arbitrators, they had no power to compel the attendance of the defendant; but, if he failed, without sufficient reason, to appear, the Court would subsequently draw its own inference from his non-appearance. MR. ILBERT did not wish to make a single remark which might imply the slightest reflection on the integrity or capacity of the gentlemen who had been appointed to perform the responsible functions of Conciliators, but he would prefer to give them the opportunity of justifying that selection. He believed that the parties would appear before those Conciliators in whom they had confidence, and would decline to appear before those in whom they had no confidence.

The Hon'ble MR. GIBBS said in reply that the first practical observation which offered itself to his mind was that he regretted very much that he was unable to attend the last meeting of the Select Committee, because then the Council would probably have been spared this long debate. As had already been explained, so evenly were opinions balanced in the Committee, that, owing to his unavoidable absence, the question now before the Council had to be determined by the casting vote of the Chairman. Under such circumstances, MR. GIBBS did not think any argument or conclusion could be drawn one way or the other from the decision of the Committee. His hon'ble friend Mr. Hope had in his reply almost entirely disposed of all the points at issue. His hon'ble friend Mr. Crosthwaite, in considering the question of police-patéls, had quoted what he, MR. GIBBS, had said when he had charge at Simla of the first amending Bill. He did not think his friend could draw from what was then said any argument against the proposal to confer this power on police-patéls. The police-patéls of the Dekkhan were a very mixed class of people. Some of them were of a highly respectable class, and were the leading men of the village, and were possessed of great local influence, and were merely hereditary police-patéls. The appointment of Conciliators was in the hands of the Local Government, who would make them on the recommendation of the local officers, who were intimately acquainted with all the people of the upper and more respect-

able classes; and every care would be taken to exercise in a proper manner the power which the Act gave for the appointment of Conciliators. It was because it was desirable that the best men available should be appointed Conciliators, that MR. GIBBS had urged the adoption of that amendment. It was not to be supposed that every police-patél would be made a Conciliator, but it was not desirable that Government should be debarred from appointing persons who were in a position of influence in the villages simply because they were hereditary police-patéls.

With regard to the observations which fell from his hon'ble friend Mr. Ilbert, he must say he could not quite understand how the amendment which he proposed was an alteration in the principle of the Bill. It might be so, but he did not see it himself. The principle of the Bill was conciliation, and the principle of conciliation was to bring the parties together before a person who was to act as Conciliator. That being the principle of the Bill, he looked upon this amendment as an additional step taken in furtherance of that principle. It was proposed under the advice of the Government of Bombay, given after an experience of a three years' working of the Act. It was not an "appeal from Philip drunk to Philip sober," as had been suggested, but the opinion of the Bombay Government given in the dark *versus* the Bombay Government given after a great deal of light had been thrown on the subject. He thought that this amendment was not an alteration in principle: it was only an alteration in the procedure by which that principle would be carried out.

As to the fact of there not being evidence sufficient before the Council to prove whether the Conciliators had done well or not, MR. GIBBS admitted that there was not much information on that point in the letters of Dr. Pollen. But the Council must remember that with Dr. Pollen's report came up the reports of two of the Subordinate Judges, one of whom had a longer judicial experience than Dr. Pollen; and he was very strongly in favour of the measure which MR. GIBBS pressed the Council to accept. They must remember also that the Local Government did not form its opinion entirely on Dr. Pollen's report. If it did, this Council would be able to form exactly as good an opinion as the Bombay Government. But the Bombay Government had before them other papers and also the experience of a conference on this very point. At that conference were the Commissioner, the Special Judge and one, if not both, of the Subordinate Judges, together with the Members of Council. And the result of that conference was that the measure as originally laid before the Select Committee was approved, and this contained the clause which formed his (MR. GIBBS') amendment.

He did not think he need take up the time of the Council any longer in regard to this matter. He thought it was a matter in regard to which the Council ought to be guided by the opinion of the Bombay Government, which was, that the want of authority to enforce the attendance of parties seriously impeded the work of conciliation; and, for his own part, he did not think that the grant of such power was likely to be detrimental in any way. The Sarvajanik Sabhá recommended that the Conciliators should have power given to them to summon the defendant to appear, and if he failed to appear the Conciliator should have power to issue a warrant to compel attendance. There might be some doubt as to whether section 173 of the Penal Code did or did not apply to the case of Conciliators—whether they were or were not public servants; and therefore it was thought better to make the matter perfectly clear by a declaration that that section should be applicable to orders made by Conciliators, and this was proposed to be done by the alteration of the word "invite" to the word "direct." MR. GIBBS did not think that any harm was likely to occur to any body from the exercise of this power, and he thought that a provision of this sort was the more necessary, because, from his knowledge of the people of the Dekkhan, derived from an experience of many years, he knew that they were in the habit of disregarding the summonses of the Civil Courts to a very great extent. In three districts it had been found that, out of 80 per cent. of the money-suits, the defendants never appeared in something like 74, preferring that the decree should be passed *ex parte*. Thus, it would be seen that the people of the Dekkhan had got into a sort of chronic habit of not obeying summonses, and that was another reason for the enact-

ment of these provisions; for, unless both the parties appeared before the Conciliators, they would not carry out the work which it was intended they should do; the principle of the original Act being that, by the intervention of Conciliators, resort to the Civil Courts would be rendered unnecessary.

His Excellency THE PRESIDENT said:—

"It is quite evident, from the mere fact that the members of the Executive Government differ in opinion upon this question, that it must be one of considerable difficulty, and, at the same time, also that it is not one of very vital importance, because, if it was not difficult, they would be likely soon to come to an agreement upon it, and, if it had been a matter of very vital importance, they would have been bound to express an united opinion upon it.

"My own view is that, on the whole, it would be better to adopt the amendment of my hon'ble friend Mr. Gibbs, and I am led to that opinion by the fact that the amendment is supported by the two members of this Council representing Bombay, and is consistent with the wishes expressed by the Government of Bombay. The Bill is of a local character, and would not have been brought forward in this Council if it had not been for special reasons, to which I need not advert: ordinarily, it would have been brought in in the Bombay Council, and there discussed with an amount of knowledge of local circumstances which it is impossible to obtain here; but, as that course has not been taken, we ought to look specially to the opinions expressed by the two able gentlemen who represent Bombay here, and to bear in mind that those views are in concurrence with the recommendations of the Bombay Government, who, as Mr. Gibbs has shown, have very carefully considered the various proposals connected with the present Bill. I am also the more confirmed in my opinion—though I do not take a very strong view on the matter one way or the other—that, on the whole, it would be better to accept the amendment of my hon'ble friend, because it appears to me that no objection whatever has been felt to this provision by the gentleman whose name has been frequently referred to in this discussion, and whose opinion on this question is of great importance—I mean Dr. Pollen. My hon'ble friend Mr. Ilbert has quoted Dr. Pollen's report in support of his view, but the most recent paper that I find among these documents emanating from that learned person is a letter or report of his addressed to the Bombay Government, and dated the 14th of last November. In that report Dr. Pollen says—

"'When I was at Mahabaleshvar on the 1st instant, I had an opportunity of reading the Bill, and I then stated my opinion that it was a great improvement on the original draft, and that its provisions seemed adequately to meet all the requirements of the case; but, at the same time, I expressed a wish to have a further opportunity of examining the details of the Bill more deliberately, so as to guard, as far as possible, against the chances of any latent errors which on a cursory perusal might have escaped observation. I have now the honour to submit, in accordance with the instructions of Government, the following remarks on the sections of the Bill which seem to require special notice.'

"Then Dr. Pollen, having prosecuted that further inquiry, proceeded to make comments at considerable length upon the various sections of the Bill, but makes no comment, and takes no objection, to the section now under discussion. Under these circumstances, I am inclined to draw the inference that Dr. Pollen does not think that this section would work unsatisfactorily, and, looking to the weight of local opinion, so far as we have it before us in these papers, I shall give my vote in favour of Mr. Gibbs' amendment."

The question being put, the Council divided—

| *Ayes.* | *Noes.* |
|---|---|
| The Hon'ble R. Miller. | The Hon'ble G. H. P. Evans. |
| The Hon'ble T. C. Hope. | The Hon'ble H. S. Thomas. |
| The Hon'ble Sir S. C. Bayley. | The Hon'ble H. J. Reynolds. |
| Lieutenant-General the Hon'ble T. F. Wilson. | The Hon'ble Durga Charan Láhá. |
| Major the Hon'ble E. Baring. | The Hon'ble Sayyad Ahmad Khán. |
| The Hon'ble J. Gibbs. | The Hon'ble W. W. Hunter. |
| His Honour the Lieutenant-Governor of Bengal. | The Hon'ble Rájá Siva Prasád. |
| His Excellency the President. | The Hon'ble C. H. T. Crosthwaite. |
| | The Hon'ble Mahárájá Sir Jotíndra Mohan Tagore. |
| | The Hon'ble C. P. Ilbert. |

So the Motion was negatived.

The Hon'ble MR. THOMAS moved that after section 16 of the Bill the following section be inserted, namely :—

"16. (*1*) In section fifty-six, after the words 'for which a Village-Registrar has been appointed' the words 'and not being a person exempted from the operation of this section by a written order of the Collector' shall be inserted.

"(*2*) To the same section the following shall be added, namely :—

"The Collector may make an order under this section where, in his opinion, the applicant for exemption is a person of sufficient education to conduct his own business."

He said :—

"I may premise that I make this suggestion not in opposition to the Select Committee, but because through an accident I have not had an opportunity of ventilating it through them.

"My object is to modify in some measure the extreme stringency of section fifty-six, which invalidates instruments executed by agriculturists unless '*written by or under the superintendence of*' a Village-Registrar. I wish to lay stress on the words '*written by or under the superintendence of*'.

"It seems to me a very serious disability to impose on the people, educated and uneducated alike, that no single agriculturist in all the area embraced by the Act shall ever be at liberty to conduct his own monetary business without the intervention of the Village-Registrar.

"My belief is that it is quite as repugnant to Asiatics as it is to Europeans to conduct all their little borrowings in public, and I know the experience of the Presidency in which I have served is, that agriculturists prefer to borrow at considerably higher interest from their own private banker to going before the public official, and that they show their repugnance to publicity and officialdom to be strong by practically having no recourse to them. Why then should we take away their option in the matter, and compel them to submit to the annoyance of opening out their affairs to public canvas at the Village-Registrar's office, where there will always be a goodly knot of people within sight and earshot while the deed is being dictated and written?

"But besides vexatiously disturbing the sensibilities of the people, this requirement about the Village-Registrar seems also to hamper their *business* arrangements; for deeds want drawing with some exactitude of phraseology, and it not unfrequently happens that the force of a certain stipulation is not fully comprehended till it takes shape in writing, and then it is objected to, and has to be discussed, and perhaps modified. Is it to be expected that, with a number of others waiting their turn with the Village-Registrar, the slow-witted will not be hurried, and the timid jostled, into agreeing to terms somewhat different from what they would have consented to if they had had sufficient time to consider them in the undisturbed privacy of their own verandah? And who will be the sufferer from the pressure of the circumstances of publicity and haste? Not the habitual money-lender accustomed to such surroundings, but the less tutored agriculturist. The very man, in short, whom it is intended to protect.

"In the case of such agriculturists as are quite as competent to draw their own instruments as the Village-Registrar is to draw them for them, it is surely an unnecessary interference with the liberty of the subject to compel them, nevertheless, to sit under the Village-Registrar; and it is not well, I think, to legislate with a view to keeping people in leading-strings after they desire to cast them aside: we should aim rather at encouraging a spirit of self-help. I think, therefore, that every one petitioning to be freed from such leading-strings, and known by the Revenue-authorities to be able to read and write, should be exempted by an order published in the District Gazette, or otherwise as may be locally preferred. The effect of such exemption from the requirements of the special Dekkhan Act would be to throw them on the general Indian Registration Act, 1877.

"I believe I am right in saying that the legal measure before us is avowedly for the temporary purpose of spanning the period of growth from what may be called the helpless childhood to the self-protecting manhood of the body of the agriculturists in the Dekkhan. If so, I would suggest that the law should carry in itself both an opening for such growth and an indication of its extent, so that we may know when the transition stage is sufficiently past to point to the withdrawal of special protection; otherwise, if that protection is continued too long, the day will come when the remedy—the very treatment that is being applied to the weakness of the child—may be injurious to the growth of the man. I think that, if we allow such raiyats as wish it and are competent to be exempted in the way I propose, we shall see the number of exempted persons gradually increasing, and have some gauge of their relative numbers to the agriculturists still protected under section 56. We shall have some practical gauge, too, of their preferences, whether they are for protection or for exemption.

"But apart from the agriculturists, just one word may be said about the Village-Registrar. The Act makes him compulsorily legal draughtsman, and sole draughtsman too, to the whole community. Surely, it is only in a very primitive village that he can possibly be equal to the task. With the improvement of agriculture and the increase of the outlay thereon, with the growth of wealth and its accustomed luxuries and sudden calls for aid, the money-transactions may well become so numerous as to swamp the Village-Registrar, and, long before he is so hopelessly swamped as to attract the attention of his superiors, he will probably have gone through the usual course of perfunctorily hurrying through his duties to the injury of the parties, and in nine cases out of ten, to the injury of that party, the agriculturist, whom he is supposed to be protecting. And if he abuses his powers, the raiyat is precluded from engaging any other legal draughtsman.

"In my proposal I have suggested the Collector as the exemptor, because I presume he has in his tahsíldárs or amíldárs and village officials the machinery for feeling into his every village, and I presume also that in such minor matters he can delegate his powers.

"To sum up, my Lord, I submit briefly that to invalidate instruments unless *written by or under the superintendence of* the Village-Registrar is to impose a serious disability on educated and uneducated alike, which may well be repugnant to the feelings of the agriculturists, hampering to their business and injurious to their advancement in self-help; that it may also become impracticable to the Village-Registrar and be abused by him; and that it is better to give the opening for growth and the gauge of growth which I have the honour to propose—such gauge and liberty running consistently with, and not counter to, the protective principle of the Act for such as still need that protection."

His Excellency THE PRESIDENT remarked that he ought to point out to the hon'ble gentleman that he had altered his amendment as it originally stood in the paper, and that, under the rules, it was not open to him to have it considered now without the consent of the Council. His EXCELLENCY thought that, in order to put the discussion on a proper footing, that consent should be obtained.

The Hon'ble MR. HOPE said that, as His Lordship had pointed out, the Council was under some slight disadvantage owing to the wording of this amendment having been altered at the last moment. He would be the last to wish to take any mere technical advantage, but there was a more serious objection to the amendment. It was an amendment which went against the principle of the original Act. A prominent principle of that Act was a system of village-registration of all documents, and it was not within the scope and the object of the present Bill to alter the original Act in any important particular. He therefore submitted that the amendment was inadmissible. But it might perhaps be desirable that he should in a few words mention to the Council that the amendment corresponded in substance with a suggestion

which had been made by the Puna Sarvajanik Sabhá in their memorial on this Bill. The Select Committee had considered that suggestion very carefully, and had unanimously come to the conclusion that it was, for a variety of reasons, inadmissible. He did not know whether he could now effectively state those reasons, because they were so numerous, nor did he know whether he would be in order in speaking in detail against an amendment which was contrary to the principle of the Bill; but he might perhaps be permitted to mention briefly a few of those objections. On what principle was the Collector to exercise this discretion of exempting particular persons? How was he to ascertain that a man could read or write, or was sufficiently educated to dispense with the assistance of the Village-Registrar and to manage his own affairs? Was he to have a particular man brought before him and examine him to ascertain whether he was intelligent, and was a man's right to exemption to depend on the mere chance opinion of some Collector, who possibly could not speak the language well, formed in the course of a conversation of five minutes? MR. HOPE ventured to suggest that it would be impossible to exercise such a discretion in an intelligent and reasonable manner, or, if it was exercised notwithstanding, it might be exercised so as to give rise to favoritism and abuse. Again, suppose the exemption was not to be given to individuals on application, then was there to be a general examination of the whole district? If, on the one hand, the exemption was to be given to individuals,—to the men who went up to the Collector, and not to all,—we should make a distinction between man and man; on the other hand, if the power of exemption was to be exercised with reference to a whole district, the Act would impose an obligation on the Collector which it would be utterly impossible for him to perform. Further, suppose the Collector had given exemption to a particular person, and, when the matter came under litigation, the man who was thus exempted denied that he could read and write, and averred that some other man must have been substituted for him before the Collector. Suppose, again, the man who was exempted was dead. Were his relatives to be called to depose whether he could read and write, or to what extent he could do so? MR. HOPE could enumerate many other practical objections of this kind. But another difficulty was that these exceptions would totally destroy the value of registration. At present, when a person was asked to lend money on the security of land or to take part in any transaction connected with it, he could examine the register and ascertain whether the land was in any way encumbered with previous transactions. But under the proposed amendment the whole of the registers would become unreliable, and a man would have to ascertain not only whether there was any previous recorded transaction connected with the land, but whether any of the various parties who had held it from the time of the last known transaction had been exempted by the Collector or not. Moreover, MR. HOPE would point out that there were a good many other advantages to be secured by this village-registration, besides the mere protection of the actual executants who could not read and write, such as the publicity of the transaction and security against extortionate terms.

He regretted that, for these reasons on the merits, no less than on the technical objection, he must oppose this amendment.

The Hon'ble SIR STEUART BAYLEY said he concurred with his hon'ble friend Mr. Hope in opposing this amendment. Agreeing, as he did, with the admirable principles which the mover of the amendment had laid down for guiding legislation on such subjects generally, still those principles, he regretted to say, were scarcely applicable to a Bill of this nature; this being a Bill to meet a peculiar and exceptional set of circumstances, in regard to which special legislation was undertaken on lines very different from those on which measures of an ordinary kind were based. He would not repeat the practical objections which had been taken by the hon'ble mover of the Bill, but the main objection which he took to the amendment was the period at which it was proposed. The Council could not accept it without knowing whether it was capable of being worked practically, and what its effect would be. The Government of Bombay was most anxious that this Bill should be passed in the course of this month.

But if this measure was taken into consideration and the passing of the Bill deferred in order to ascertain the opinion of the Bombay Government on the proposal, the effect would be to throw back the operation of the measure, and the whole of the cold season, in which the work of inspection and instruction was done, would be lost. He agreed with the hon'ble mover of the Bill that it was rather difficult to consider the amendment, because the exact way in which it was proposed to work it was not made perceptible from the manner in which the amendment was drawn, and the Council could not say how the scheme would work without consulting the Bombay Government.

The Hon'ble MR. ILBERT said he quite sympathised with the desire of the hon'ble mover of the amendment to make the Act more elastic, but he agreed with his hon'ble colleague Sir Steuart Bayley that it was impossible to accept the amendment at this stage of the proceedings.

His Excellency THE PRESIDENT observed that he agreed with the remarks of his hon'ble colleague on his right (Mr. Ilbert). He did not think it would be possible to make the proposed amendment now, as it would undoubtedly necessitate a further reference to the Bombay Government; it was contrary to their feelings and wishes upon the subject; and it was introduced at the eleventh hour. With all due respect, therefore, to the arguments of his hon'ble friend Mr. Thomas in favour of it, he should certainly recommend the Council not to accept the amendment.

The Hon'ble MR. THOMAS said in reply that, while not wishing, after what had been said, to press his amendment at this date, he would like to say just a few words to show that it was not quite so unworkable as the Hon'ble Mover of the Bill seemed to think. He was not proposing anything open to objection as contrary to the principle of the Bill; he was not proposing to do away with village-registration, but only to make individual exemptions. In reply to the objection that the Collector would be unable to cope with the numbers if everybody in a village came up to him for exemption, he would observe that he had already said that he presumed the Collector would delegate the duty to his subordinates. In the Presidency from which MR. THOMAS had come, this work could be done with ease through the taluq and village officials. As regarded the amount of education necessary to qualify for this exemption, he considered that being able to read and write would be sufficient, and he did not understand how exemptions made on this ground could be looked upon in the light of "favoritism." As to the objection that the grant of these exemptions would destroy the completeness of the village-registers, he would reply that the only effect would be to make the sub-registry more perfect, and the village-registers would gradually give way to the registration effected under the general Indian Registration Act, 1877, which registration was presumed to be sufficient; for, if it was not, the Indian Registration Act must be admitted to be defective. Under that Act, it was not required that these documents should *be written by or under the superintendence of* the village-registrar; it was simply required that they should be attested and recorded, and that was all he asked for in favour of the educated.

The Motion was put and negatived.

The Hon'ble MR. HOPE moved that the Bill, as amended, be passed. He said—"My Lord, I regret that I must inflict upon the Council some remarks which, I fear, may be somewhat tedious. I find, however, that certain misapprehensions are so prevalent, and the absence of definite information is so very marked, that it is necessary, in order that the Act should stand fairly in public opinion, to give some explanation regarding its working up to the present time.

"The original Act was passed in October 1879; a small number of village-munsifs, about 138, were appointed between January and August 1880; the new Subordinate Judges' Courts were not constituted till 1st June 1880. No Conciliators were nominated until between the 1st May and 1st August

of that year. Village-Registrars were constituted from March 1st, 1880; but it soon became apparent that the rules and instructions for them had been insufficient and unsuitable, as far as old deeds were concerned; difficulties accumulated in that respect—accumulated till they became insurmountable; the repeal of section 71 of the Act, abandoning in despair the registration of old mortgages, was deferred till October 1881; and the documents in hand have only lately been pretty well cleared off. On the same occasion (by Act XXIII of 1881) some doubts of interpretation were settled, and verbal improvements made.

"Consequently, the year 1881 was the first year throughout which even the machinery of the Act was in tolerably complete order, while some of its most important provisions are not, as the present Bill testifies, in operation up to the present day. What I wish to point out is that, until effect has been given to the whole Act, and the results during at least a year or two have been ascertained, the measure cannot be said to have received even an approach to a fair trial.

"The instructions of the Secretary of State were that the relief of the Dekkhan raiyat should be effected by a 'comprehensive measure,' which should provide Courts more accessible, more absolute, less technical, less dilatory and less expensive than the present ones; and should also mitigate 'the extreme severity of the law on debtors' and extend the powers of the Judges 'to modify the contracts entered into between man and man.' In accordance with these instructions, coupled with some of the recommendations made by the Dekkhan Riots Commission, the Act of 1879 contemplated five main amendments of the existing conditions, namely:—Courts having larger powers over smaller areas than before; improved control over such Courts; improved procedure; absolute relief of insolvents under certain circumstances; and protective measures, such as conciliation between disputants previous to litigation. Under the first of these heads, the Subordinate Judges' Courts in the four districts to which the Act applied were increased from 24 to 36. Six months afterwards, however, the Bombay Government, observing a large falling off in the number of suits filed, took away seven out of the twelve Additional Judges and combined their jurisdictions with the adjacent ones; moreover, some other Subordinate Judges were employed for part of the year out of their proper charges. This has necessarily somewhat interfered with the fulfilment of the intention of the Act, in the matter of bringing the administration of justice nearer to the homes of the people. Moreover, the falling off in the institution of suits proved merely temporary. The result has consequently been that arrears have accumulated, and rose from 1,100 in January 1880 to 3,658 in January 1882. I am glad to say that the Bombay Government have now determined to restore at once five out of the seven Subordinate Judges whom they had withdrawn. Another measure coming under the first head was the establishment of village-munsifs with a jurisdiction in money-suits not exceeding Rs. 10. The fact that these munsifs are chiefly resorted to by the non-agricultural classes need excite no surprise, for it was well known, and was stated in my speech in 1879, that the bulk of the suits disposed of by village-munsifs in Madras are not suits between raiyats. Still, no doubt, a certain number of such suits do come before these Courts. At that time I myself was not in favour of the establishment of village-munsifs, and in my original draft of the Bill I did not provide for them; but Sir Richard Temple considered it very desirable to make an advance in the direction of giving these petty judicial powers, and they were therefore inserted. I did not expect much good, but I feared no harm from them. I am, however, glad, in the present instance, to sit on the stool of repentance, for I find that the institution has had a popularity and success which I never anticipated. Mr. Ranadé, who is one of the Native assistants of the Special Judge, Dr. Pollen, reports that 'there can be no doubt of the popularity of this office, and the inhabitants of several places have applied for the services of such officers.' As regards their efficiency, Dr. Pollen reported last year that 'most of the village-munsifs are respectable and intelligent men, and have done their work and kept the records in a satisfactory manner.' And, again this year, he has given testimony of a similar character. Moreover, the fact speaks for itself, that, although there were only 138 munsifs in 1880 and 136 in 1881, they disposed of 2,866 suits in

the first year and 2,934 in the second. I may also mention, as an indirect proof which the statistics afford of the excellent effect of these new Courts, that the number of suits below Rs. 10 in value filed in the ordinary Subordinate Judges' Courts has fallen to 521, or $\frac{1}{6}$th of the total number, instead of $\frac{1}{6}$th or more at which it used to stand. It is evident, therefore, that these institutions supply a much-felt want in the settlement of disputes. I am glad to say that the Bombay Government intend to take special measures to find out a larger number of gentlemen competent to hold the office of village-munsif than have already come to notice.

"With reference to the second head, namely, improved control over the Courts, it will be remembered that the Act of 1879 substituted for appeal a system of revision by the Special Judge and two Assistant Judges subordinate to him. This reform, which received at the time the approval of Mr. Justice Melvill and four other Judges of the Bombay High Court, has amply justified the expectations which were formed of it. I will not weary the Council by long quotations from Dr. Pollen's reports. Suffice it to say that, during the year, he and his assistants scrutinized 75 per cent. of the cases instead of 30 per cent., which I had considered a sufficient percentage for the exercise of a proper control in lieu of the system of appeal, under which only 3 per cent. used to come to notice. The cases actually taken up for revision amounted to 2 per cent. On this subject Dr. Pollen says:—

"'The people are showing themselves keenly sensitive of the advantages of the revision system, which provides a surer and more constant, as well as a cheaper, safeguard against injustice and error than that afforded by the costlier and more tedious process of appeal which, as a rule, was a luxury which only the rich were able to indulge in.'

"Turning next to the improved procedure provided under the Act, one provision, intended to shorten the duration of suits, relates to their disposal at the first hearing as far as possible. The result has been that the average period has been brought to 3 months and 9 days. But that is still too high an average. I trust that further efforts will be made to reduce the time. Various causes of delay are mentioned, but over-formality and technicality are still the chief. Dr. Pollen states that —

"'It rarely happens, even in the simplest cases, that the personal attendance of the plaintiff is required less than six times in the progress of a suit; and on most of these occasions it is only to perform some purely formal or ministerial duty.'

"That is a burden which, in the absence of the simplified procedure which, I trust, will some day relieve the whole of India, every effort ought to be made to lighten under the special powers of the Act.

"Another important change in procedure was that for suppressing *ex parte* decisions by means of requiring the Court to examine the defendant. The result of this has been a complete success, for whereas under the old law *ex parte* decrees used to be passed in from 54 to 74 per cent. of all suits, and in from 93 to 97 per cent. of money-suits only, the proportion is now only about 6 per cent. On this subject a high authority in England has written to me a few remarks which are so expressive that, with the permission of His Excellency the President, I will read them to the Council—

"'Although considerable improvement in its working is possible, I am sure that the Act has already effected great good. It has, it is quite clear, effected its principal object; it has rendered it possible for the indebted raiyat to get a hearing and fair justice. I see that the result of contested suits was that claims were cut down 25 per cent. It is not the amount of the reduction (although that is not insignificant) which is of importance; it is the fact that for the first time the debtor's case has been gone into. The effect of this on the relations between creditor and debtor must be immense and beneficial.'

"The next question connected with procedure relates to pleaders. As pleaders have been admitted by the Act of 1881 in petty suits, the Government of Bombay now propose to adopt Dr. Pollen's recommendation and appoint Government pleaders experimentally in a certain number of taluqas, so that the raiyats may not be put to expense in consequence of the alteration of the law.

"One of the most important points in which the Act effected an alteration is in respect of the well-known operation called 'going behind the bond.'

The new provisions have been applied in about 25 per cent. of suits, and are estimated to have effected an average abatement of 26 per cent. in claims. Dr. Pollen remarks that—

"'There has been no violent or radical change. Debtors are not unfrequently dissatisfied at the small results in their favour, and creditors on the whole are fairly satisfied. * * * The Subordinate Judges all speak in the highest terms of the general operations of the three sections referred to; and I fully share their opinions, regarding, as I do, these sections as being the most important and successful part of the whole Act.'

"With reference to the provisions in the present Bill regarding management of insolvents' land by the Collector, no remarks in addition to those made on previous occasions are necessary. But I am glad to be able to state that the Government of Bombay have accepted my suggestion to appoint a special officer to go thoroughly into the question, to draw up a set of rules of a really practical character, and to take other measures for ensuring that these provisions shall not be allowed to remain a dead-letter.

"Upon the question of conciliation I have already said so much that I need not trouble the Council with more than two figures, namely, that, in the first year of the operation of the Act, 10,195 disputes, and in the second year 14,146, were settled by the Conciliators without resort to the Civil Courts. I consider this to be a highly satisfactory result, and one which fully justifies the establishment of the institution.

"There is one further point to which I ought to allude, and that is the question of how far the relations between raiyats and saukárs have been affected by the Act, which was regarded by some persons as being such a terrible engine for oppression of the latter. On this point I do not wish to be tedious. I will merely put before the Council what Dr. Pollen and the Inspector-General of Registration have said on the subject. Dr. Pollen says—

"'It does not, therefore, seem to be the case that the saukárs invariably insist upon getting sale-deeds or mortgage-deeds passed to them before making advances. * * * But there has been a considerable decrease in the sale of general stamps, which makes it clear that comparatively few documents were executed in the year under report (1881).'

"Confirmation upon this point is also obtained from the Registrar-General of Assurances, who reports thus of 1880—

"'As far as can be judged from the returns received, the saukárs have proved themselves willing to lend to all those whose credit is good. * * * When questioned, several Natives of different classes told me that it is more difficult for the agricultural classes to get money than formerly, but, when asked to explain, they were generally obliged to agree that this only related to those whose credit was not high at any time; and, even admitting that this Act has made it more difficult than formerly to borrow, may not this very fact be of future benefit to the people, by making them more provident, and careful to spend less on ceremonies and extravagancies, which were recklessly indulged in when money was more plentiful?'

"In short, the Inspector-General held that there was no foundation for the statement which had been made that 'credit has been extinguished and capitalists have closed their business.' I myself always anticipated, and stated in 1879, that possibly a certain amount of pressure might at first be occasioned, but I held that it would be confined to those who were not really entitled to receive credit at all, and that the Act would not bring about any difficulty to obtain money in the case of those who might legitimately borrow. As I said in my first speech in 1879, I have no faith in the virtue of 'unlimited tick.'

"In conclusion, I must remark that the introduction of a measure so new in principle as well as detail has necessarily met with extraordinary difficulties. The interests of money-lenders and pleaders, the prejudices of some judicial officers, the intricacies of legal interpretation, the stupidity or corruption of some of the inferior agents, the ignorance of the people of their own best interests and the clamour of adverse *doctrinaires*—eager to draw conclusions before facts were available—all were against it. But I submit that, in order to succeed in all respects, the Act needs no modification in its general and broad principles and no essential change in the method of procedure; nothing except a few legislative touches to make its meaning more clear or its machinery more

complete, and finally, a little of that virtue which so few seem inclined to exercise in its behalf—the virtue of patience."

The Hon'ble MR. HUNTER said:—

"My Lord,—At the last meeting of this Council it was announced that, among other improvements in procedure, the Reports of the Select Committees would be fuller than heretofore. I am not aware whether the Report now under consideration may be regarded as illustrative of the new rule. But its clear statement of the difficulties with which the Committee have had to contend, and of the reasons which guided them to their conclusions, are very welcome to one who, like myself, questions some of the principles involved. I understand from the Select Committee's Report, and from the speeches of the Hon'ble Member in charge of the Bill, that, in voting for the particular amendments now proposed, we do not express any opinion either as to the soundness of the general principles involved, or as to the adequacy of the original Act to cope with the evils which it was intended to cure. In 1879, the Government decided that the Dekkhan peasantry had sunk into such a depth of distress as to demand legislation of an exceptional character. The Dekkhan Agriculturists Relief Act was accordingly passed to free the cultivators, under certain conditions, from their burden of debt to the money-lenders. It was a novel device in Indian legislation, and its supporters claim—and justly claim—that all reasonable facilities shall be given for the proper working of the measure. Obscurities of interpretation, and imperfections in mechanism, are inevitable incidents of so complicated a legislative experiment. I think, therefore, that those who, like myself, entertain doubts as to the adequacy of the original Act, should support the technical amendments now declared necessary for its effective operation. For it will be impossible to call in question the adequacy of the original Act until it has had a fair trial.

"But, my Lord, I do not think that even the present amendments will give the Act a fair trial. From the papers before the Council, those amendments seem to have been suggested by the Report for the year 1881, of Dr. Pollen, the chief Special Judge entrusted with the administration of the Act. The amendments now before the Council, however, deal with only a small part of the evils which the Special Judge brings to light, and which the Relief Act is intended to remedy. The difficulty which the Special Judge and his subordinates have to encounter in their efforts to bring substantial relief to the cultivators, is not merely a technical difficulty, nor can it be removed by technical amendments, however skilfully contrived. Permit me to explain my meaning by quoting a paragraph from the chief Special Judge's report:—

"'The inquiries made by the Subordinate Judges while on circuit, concerning the condition of the agriculturists in a few selected villages, have led to the accumulation of a mass of valuable information which I have not yet had leisure properly to digest. The general conclusions, however, to which the information points, seem to be (1) that the ryots are overburdened with an intolerable load of paper-debt outstanding against them; and (2) that in average years, the ordinary Dekkhan ryot does not gain enough from the produce of his fields to pay the Government assessment, and to support himself and his family throughout the year; so that really no margin is left for the payment of his debts.'

"The fundamental difficulty of bringing relief to the Dekkhan peasantry, as stated by the chief Special Judge entrusted with the task, is, therefore, that the Government assessment does not leave enough food to the cultivator 'to support himself and his family throughout the year.' Be it remembered that this is the state of the peasantry, not in time of famine, but in ordinary seasons. In another paragraph, he thus describes the state of the tenant under one of his Subordinate Judges:—

"'During the last two years, although the crops have been in most parts fairly good, the very low prices that prevail leave no margin of profit to the cultivator. He can, perhaps, pay the Government assessment and support his family for a portion of the year.'

"'For a portion of the year,' my Lord. If the Government assessment reduces the cultivator to this condition after a 'fairly good' harvest, what must be his misery in the seasons of distress which afflict the Dekkhan every few years?

The Special Judge is the chief officer responsible for bringing relief under the Act to these unhappy people. The measures of relief which he suggests consist partly of technical amendments in the Act, and partly of substantive amendments in the revenue-system. The technical amendments are now before the Council, and I have much pleasure in supporting them, as I would support any proposal necessary to give the Act a fair trial. But the substantial amendments suggested by the chief Special Judge in the same Report have not been circulated to the Council, and, with your Lordship's permission, I shall read a single paragraph containing the most important of them :—

"'Much may be done for the insolvent raiyat of the Dekkhan by modifications in the present rigorous system of collecting the assessment, by more liberal and elastic rules for the grant and recovery of takkavi advances and, perhaps, by the gradual introduction of agricultural banks. When prices are very low, the fixed cash assessment presses on the people with undue severity; when prices are high, they hardly feel the pressure. When crops fail, and at the same time prices are low, they find it as hard to pay Government as to pay their saukárs. The adoption of a sliding scale of charges would be productive, I think, of much good. I feel convinced, from the experience I have gained in these districts during the last two years, that a rigid revenue-system is not suited to a deeply-indebted and practically insolvent peasantry, which lives truly from hand to mouth.'

"It may be argued that, although the system is rigid, it is nevertheless based on a fair average of good years with bad. But it is precisely this system of fixing a hard-and-fast line, based on a general average, which the Special Judge declares to be unsuited to the Dekkhan. A witness before the Dekkhan Riots' Commission illustrated the case by a short Native story. A man, he said, once wished to ford a river, and set to work to ask the passers-by as to the depth of the stream at various spots in its course. He found from one, that it was ten feet deep at a certain place; from a second, three feet at another place, and so on. Having thus collected a large body of statistics, he struck an average, and finding the mean depth was only four feet, he boldly jumped into the river. But unfortunately, the channel happened to be seven feet deep at that particular spot, and he was drowned.

"My Lord, on the one hand, we are told that the Dekkhan peasantry are so hopelessly plunged in misery and debt, that a special insolvent law is necessary to free them from their private creditors—the money-lenders. On the other hand, we find that the Revenue-officers have, during the past ten years, greatly enhanced the land-assessment in these afflicted districts. The Government has sent forth one set of officers to absolve the cultivators from the loans which they have borrowed from private individuals; and, almost with the same breath, it launches another set of officers to collect a largely-enhanced rental from the cultivators. I do not wish to open the question of the Bombay revenue-system or its enhancements at present. The Dekkhan Riots' Commission Report is now several years old. It is absolutely necessary, in order to arrive at a just view of the case, to know how far the Government has adopted the measures recommended by the Commission, and what steps it has taken to carry them out. For, when we are asked to vote for certain technical amendments suggested by the Chief Judge's Report, we cannot shut our eyes to the painful substantive facts also disclosed in that Report. It may be that a perfectly good defence is forthcoming for the enhancements. But I do earnestly press on your Lordship's Government the necessity of a full and fair enquiry into this matter. I had hoped that a promise of such an enquiry would have been contained in the speech of the Hon'ble Member in charge of the Bill. I shall rejoice if, before the debate closes, some member of your Lordship's Government will give such a pledge. For I feel convinced that this Bill, with its technical amendment, only skims the surface of the evil; and that substantial relief will not reach the Dekkhan peasant under this or any other Act until an impartial enquiry is granted, not only into his obligations to his private creditors, but into the burdens imposed upon him by the State.

"There are other reasons which render such an enquiry desirable. The peasantry of the Dekkhan, and, indeed, the Mahrattas of all classes in the Dekkhan, have been suffering from economic causes sufficient to break the spirits and to ruin the fortunes of any race. Seventy-four years ago, when the Mahrattas

O

and the peasantry of the Dekkhan passed under our Government, they had five great sources of livelihood. The economic and political changes brought about by British Rule have deprived them of four of these sources and left them only one. In the first place, the Mahratta race had, during nearly two centuries, derived a large, although a fluctuating, income from war. Its pillaging invasions of wealthier provinces were reduced to a system of strictly mercantile adventure, which enriched alike the fort of the chief and the cottage of the peasant. For the Dekkhan hordes were not the accidental product of any single leader, but the natural result of an overflowing peasant population under the guidance of a hereditary administrative caste. The secret of the Mahratta Power was a great standing army of cultivators, who fed themselves off their own fields in intervals of peace, and plundered their commissariat from the enemy in time of war. Their second source of income was Administration. Throughout the greater part of India the Mahrattas made a fixed demand of one-fourth, or *chauth*, on the provincial revenues; and organised this annual process of plunder into an administrative system. The peasant spearman of the Dekkhan was followed by the Mahratta scribe; ample employment existed for both; and tributary streams of silver poured into the Puna treasury from many distant provinces. A century ago, the Mahrattas were draining India of its wealth from Delhi to Haidarábad, and from the delta of Orissa to the Gulf of Cambay. Their third source of income was a great carrying trade by pack-bullocks, partly from north to south, but chiefly down the Ghâts from the Dekkhan to the coast. The railway has destroyed this trade as completely as British rule has put a stop to internal wars and the Mahratta *chauth*. Their fourth source of income consisted of domestic and local manufactures—hereditary handloom industries, now borne down by Manchester competition, as the old pack-bullock has disappeared before the railway. Their fifth source of income was the tillage of their own fields. Seventy-four years of British Rule have stripped the Dekkhan Mahrattas and the Dekkhan peasantry of the first four means of livelihood, and crowded the whole population into the last. For a time, the land responded to the extra labour given to it, and Settlement-officers rejoiced in the statistics of increased cultivation. But they forgot that extended cultivation, without capital, means a falling back upon inferior soils and a harder struggle for life. Sir George Wingate, the most illustrious of the Bombay Survey Settlement-officers, thus wrote in 1841—

"'There can be little doubt that the over-estimate of the capabilities of the Dekkhan, formed and acted upon by our early Collectors, drained the country of its agricultural capital, and accounts in a great measure for the poverty and distress in which the cultivating population has ever since been plunged.'

"These words, written by the highest official authority on the subject, describes the condition of the Dekkhan peasantry forty years ago when the process of decay was only half accomplished. Permit me to quote the statement of the great Dekkhan Association ('the Sarvajanik Sabhá'), issued last July, now that the decay is more complete:—'Confining our remarks for the present to the Kopergaum taluqa, the first point we wish to press upon the notice of Government relates to the fact that, as in 1876-77, with the failure of the rabi crops last year, nearly half the inhabitants of the taluqa found it necessary to leave the villages. In the 27 villages visited by the Agent, out of a normal population of 19,850 souls, it was found that there were 9,450 villagers left in the villages, while the rest had gone into the Nizám's territory and Khandesh to earn their livelihood. In the same manner, in these 27 villages, the number of agricultural cattle was 6,830, out of which number about 2,000 cattle alone were left in the villages in March last, while the others had to be driven away for want of fodder into the Nizám's territory. The 27 villages visited by the Agent represent one-fourth of the whole taluqa in area and revenue. It follows, therefore, that, with the first sign of distress, more than half the people and three-quarters of the cattle have no stock to fall back upon;' that half the inhabitants of the tract under report have to leave their villages, and that two-thirds of the cattle must be driven away to the foreign territory of the Nizám.

"My Lord, I do not offer this description of the tract reported on as a picture of the entire Dekkhan. I sincerely hope that it is not a true picture of

the entire Dekkhan. Nor do I blame the Bombay Revenue authorities for this intense destitution of the people, or in any way prejudge the difficult questions as to the assessment. For I have shown that economic causes are at work, which would have stripped the Dekkhan cultivators of their former prosperity, quite independently of the Revenue authorities or of the rates of assessment. But there is abundant evidence in the report of the Dekkhan Riots' Commission, in the debates upon the Relief Act of 1879, and in the very Report of the special Judge on which the present amendments are based, to prove that misery and destitution are widely spread throughout the Dekkhan. There is proof that, while the State has stepped in to annul the debts of the cultivator to his private creditors, it has greatly enhanced its own demands for rent upon his fields. There is proof to show that, in the opinion of the people, of their representative Association, and of distinguished officers, this increase of the Government demand is the last straw that has broken the cultivator's back. Whether this statement be true or not, there is abundant ground for a searching enquiry into the economic and fiscal condition of the Dekkhan peasant—an enquiry not postponed to some indefinite date, but conducted concurrently with the operations of the amended Relief Act, which will, I trust, be passed to-day. It is not possible to solve a great political question of this sort by shelving it. I have lately had an opportunity of conversing with several of the Judges engaged in the administration of the Act, and with many other persons, both official and non-official, in the Dekkhan. I feel certain that nothing short of a full and complete enquiry will satisfy either the necessities of the case or the just claims of the people."

The Hon'ble Mahárájá SIR JOTÍNDRA MOHAN TAGORE said:—

"Not having any personal knowledge of the peculiar circumstances of the province, I confess I do not feel myself in a position to speak with any degree of assurance on the questions now before the Council. I deem it due, however, to submit that there is certainly a very widespread impression abroad that, notwithstanding the laudable efforts of the Government to ameliorate the condition of the raiyats of the Dekkhan, their exertions have not met with sufficient success, inasmuch as the root of the evil lies not so much in the extortion of the mahájans as in the pressure of the over-assessment of the Government demand on the raiyats—a fact which has been so ably stated by my hon'ble friend the last speaker. Besides, fear is entertained that the additional protection intended to be extended to the raiyats may throw additional difficulties in his way in raising money when in need; for naturally the mahájans will fight shy of all loan-transactions, having to work under such risks and rigid restrictions as the Act will impose. I would, therefore, give my humble support to the proposal for a full enquiry into the state of the raiyats of the Dekkhan, with special reference to the assessment and realisation of the Government revenue, as has been suggested by my hon'ble friend Dr. Hunter."

The Hon'ble MR. CROSTHWAITE had a few words to say on the amendments which this Bill proposed to make in the original Act. He referred chiefly to those contained in sections 7, 9 and 10 of the Bill before the Council. These amendments were in principle merely verbal, and affected sections 19, 22 and 29 of the original Act. Section 19 gave power to the Court to direct that insolvency-proceedings should be taken with reference to an indebted raiyat in cases which came before it. Section 22 gave a Court, when passing a decree against an agriculturist or at any subsequent time, power to direct the Collector to take possession of the debtor's land, and manage the same for the benefit of the creditor for seven years; and section 29 gave the Court similar powers in the case of an insolvent. The Select Committee had agreed to amendments which inserted words making it more clear that the Court had the power in its discretion, and without being moved by a party to the case, of directing these proceedings to be taken. He had no objection to these amendments, and he should have had nothing more to say if it had not been for some remarks which his hon'ble friend Mr. Hope had made in the course of his

speech and in a note which he had written, which was to be found printed as Paper No. 1 relating to the Bill. It was evident from the expressions used in this note, and also from the speech which he made in connection with the original Act in 1879, that the Hon'ble Mr. Hope laid great stress on the clauses to which MR. CROSTHWAITE had referred, and that he considered them the key-stone of the Bill. He said in his note :—

"In short, what the Act contemplates is a compensatory system. If the creditor was, on the one hand, to have his bonds questioned, his accounts discredited and his power of imprisonment taken away, he was, on the other, to receive the benefit for seven years of all that could be got out of the land by efficient Collector's management, the debtor being declared an insolvent if necessary."

These sections were, in fact, the gilding of the pill, the jam to induce the creditor to swallow the dose, and they had failed to effect the purpose intended. They had not in fact "worked at all—well or ill," as was shown in Dr. Pollen's report. The Hon'ble Mr. Hope attributed this failure to the supine attitude of the judges—to that taint of original sin, that infection of nature, which doth remain even in judges regenerated by a contemplation of the provisions of the Dekkhan Relief Act. Accordingly, it was not only with the object of making their powers clear to them, but of pressing or forcing them to use those powers, that these amendments had been advocated by the Hon'ble Member. It appeared from his hon'ble friend's note that that might be presumed to be his purpose, and that he intended that the Courts should resort very largely to the use of the discretionary power which the legislature had given them. This would appear from paragraphs 29 and 30 of the Hon'ble Member's note. He wrote—

"If the Courts had vigorously used their powers to require management by the Collector, the rules would soon have been forced into existence"—

referring to the rules which the Local Government was empowered to make for working these provisions through the Revenue-officers. Again, he wrote, with reference to a remark made by Dr. Pollen in his report—

"The Court *is* empowered already, but its powers must be expressed more fully, and the duty of using them must be explicitly laid upon it."

In fact, the failure which had occurred in the working of this part of the Act was attributed to the supineness of the Courts. Now, MR. CROSTHWAITE wished to guard against the supposition that, for his own part, in acceding to these amendments, he in any way acquiesced in his hon'ble friend's view of the case as expounded in this note. He thought the use of these sections should be left entirely to the discretion of the Courts, and that there was no reason to believe that, in the restricted effect hitherto given to them, the Courts were actuated otherwise than by a wise discretion. The reasons for the failure of these well-intentioned measures laid, in his opinion, much deeper. He would not dwell on the danger of pressing the Courts to take action and force debtors who were naturally unwilling, and who were not pressed to take this step by their creditors, to pass through the Insolvency Courts. He was more concerned with the point that, if these sections were to be worked in the way it was proposed, some steps should be taken to see that the working of them should not put any undue stress either on the Revenue-officers or on the raiyats of the Dekkhan. The law empowered the Court to direct the Collector to manage the debtor's land for seven years. In the ordinary sense of management, it would be impossible to apply these sections to thousands of raiyats whose holdings averaged about 20 acres. But, as was evident from his speech on introducing the Dekkhan Relief Bill in 1879, the interpretation which his hon'ble friend Mr. Hope put on the term "management" was something very different. His intention was that the Collector should leave the raiyat in possession of the land, and should impose on him a rack-rent, and collect it by all the powers, short of selling the land, which the revenue procedure gave to the Collector for the purpose of getting in the Government revenue. Now, it was impossible to weigh the effect of such a measure apart from the consideration of the amount of the nett produce enjoyed by an average raiyat in the Dekkhan. Unless the Council was prepared to say that, in the

majority of cases, there was a surplus left to the raiyat over and above what was necessary for the maintenance of his family, which the law obliged the Collector to set aside, and over and above the Government revenue, which was a first charge on the land,—unless there was a steady surplus left after meeting these two charges,—it would certainly cause serious difficulties if these sections were used in an indiscriminate manner. And, therefore, MR. CROSTHWAITE thought it right to say that, when this matter was before the Select Committee, as far as he was concerned, these verbal alterations were merely made to show that the Courts had a discretion under the law.

With reference to the question whether or not the raiyats had a surplus after meeting the two charges to which he had referred, he was entitled to call attention to a paper which was presented to the Council yesterday, and which purported to show the position of the people in the Dekkhan districts. He had looked through the reports of Government and other papers to see what represented the sum left to the Collector to meet the raiyat's debts after providing for the maintenance of his family and paying the Government revenue, but he had been saved from further trouble by this paper which bore the well-known name of Mr. Lee-Warner. It appeared from this that, on the average, the Government assessment was "less than half the nett produce,—more perhaps in very bad lands,—but far less in better lands even where the cultivation is poor." With these data to go upon, and knowing, as they were told before by the Hon'ble Mover in his speech in this Council on the 17th July 1879, that the average Government assessment on poor land was 7 annas, while on good land it was 12 annas, MR. CROSTHWAITE arrived at the result that the average nett produce on bad land was not more than 14 annas or 1 rupee, and on good land about 24 annas, or say even 2 rupees. If the average holding of a raiyat in the Dekkhan was, as he believed it was, about twenty acres, and the Government assessment was about half the nett produce, it seemed probable that the whole surplus left to the average cultivator in an ordinary year would not be more than Rs. 15 or Rs. 20. So that, although it might be true—and he was quite ready to accept the assurances of the Bombay Revenue-officers that it was true—that the revenue was light, still it was plain that, owing to the poverty of the soil and smallness of the holdings, the margin left to come and go on, to meet fluctuations of price and production, was very small. Under those circumstances, MR. CROSTHWAITE thought that nothing ought to be left unsaid to guard against the supposition that it was desired that the Courts should act in an indiscriminating manner in the application of these sections. He now wished to recall to the recollection of the Council the speeches which were made in 1879 in reference to the revenue-system as affecting the Dekkhan and in connection with this Bill. He would confine himself to a quotation from the speech made by the Hon'ble Mr. Hope himself, who said—

"To our revenue-system must in candour be ascribed some share in the indebtedness of the raiyat . . . It seems likely that indebtedness arising mainly from other causes . . . has been aggravated by our rigid system. If any considerable increase at a revision were gradually worked up to in the course of two to five years, the raiyat would have time to re-adjust his expenses to his means, instead of being taken by surprise and perhaps driven to the money-lender. Again, if the recovery of instalments were more coincident with the time when the raiyat realizes on his produce, instead of falling sometimes too early and sometimes too late, and so the land-revenue were more in practice (what it is in law) a first charge on the latter, much temporary borrowing, fraud in crediting produce, and eventual Government process for recovery might be avoided . . . Moreover, though the system of taking revenue in kind, besides involving the injustice of assessment on the gross produce, instead of the nett, is so open to fraud when adopted on a large scale as to be impracticable, its object might be attained, in localities subject to drought, by such suspension of the revenue-demand as to spread over three or four years according to the seasons, the aggregate amount to be recovered in that period. Finally, in times of famine, suspension of demand might be systematically granted, as of late it has been by Sir Richard Temple, and even total remission, which is not inconsistent with the Bombay settlements."

There was no need to detain the Council by further quotations from the speeches made in 1879. MR. CROSTHWAITE thought that the passage he had read admitted in the clearest manner that the revenue-system was partly to blame, and that, in the opinion of the Hon'ble Mr. Hope, which they all must allow was entitled to very great weight, there were certain faults in the reve-

nue-system of Bombay which required amendment and alteration. He had taken some trouble to find out what had been done since 1879 by the Bombay Government to amend those faults, and he found it a matter of great difficulty to ascertain what had actually been done. He had, however, succeeded in obtaining a volume published by the Bombay Government so lately as October last, which purported to contain "all the rules, orders and official correspondence on the system of revenue-survey assessment and its administration." And he could find nothing bearing on the matter now in hand in that compilation. This volume, however, did not appear to deal with the system of collection. On that point he had consulted the valuable work of Mr. Nairn, which contained all the standing orders on the subject. He could not, however, find any general order passed since 1879 correcting the faults with which his Hon'ble friend Mr. Hope had charged the Bombay revenue-system. The prevalent tone of these orders was certainly against remissions or suspensions of revenue; and the latest order, which was dated March 1878, was to the effect that no remission of revenue should be made without the sanction of Government. He could find no orders that put the matter on a sound and defined basis by ascertaining the tracts of country subject to great seasonal changes, and by giving Commissioners or Collectors power to suspend collections of revenue when harvests failed, and to deal promptly when occasion required. He was aware that, in particular districts, remissions and suspensions of revenue had been made; but that was not sufficient. In order substantially to improve the raiyat's credit, the matter must be put on a sound basis and definite rules laid down by measures similar to those lately promulgated by His Excellency's Government for the benefit of Northern India. He believed that the Dekkhan Raiyats' Act had done good, and he believed it would in the future do more good, although not perhaps exactly in the way which was intended by its accomplished author. It would prevent creditors from harassing the raiyats; it would enable the Courts to exercise their discretion in bringing debtors and creditors to terms; but, speaking from his own experience as a Revenue-officer, he did not believe that, without a proper revenue-system,—by which he meant a system that would ensure discretion and moderation not only in the assessment but in the collection of the revenue,—the conditions, being so bad as they had been described to be, could be materially improved. He believed that, when widespread indebtedness of this sort was found among the agricultural classes of a large tract of country, a prudent Government would look to its revenue-system to see if it was well-suited to the conditions of the country. As regarded the present case, he had the very best authority, namely, that of his Hon'ble friend Mr. Hope, for attributing some part of the indebtedness of the raiyats to defects in the revenue-system. He wished to speak in terms of the greatest respect of the Bombay Survey and Revenue Departments, and of the Revenue-officers and of the many great men who had served in that Presidency; but he did wish to see this question dealt with in a more liberal spirit than that in which it had hitherto been met. If he was wrong in supposing that nothing had been done by the Government of Bombay, and if the Government of India had at its disposal information which was not before the Council, he hoped the opportunity would be taken of informing the Council what had been done in this matter.

The Hon'ble Sir STEUART BAYLEY said that, in the course of this debate, questions had been asked to which he should have been glad to give more complete answers, but to which he thought it right that he should give such answers as the information at his disposal enabled him to do. Although he could not go into the general question of the Bombay revenue-system,—in fact, he must leave the defence of that system to persons who were abler and more competent than himself to do so,—he should not like it to be supposed that the particular strictures on that system which he neglected to meet were therefore unassailable. It seemed to him, from his small experience of the Bombay revenue-system, the operation of which he had an opportunity of seeing for one year in Birár, where the seasons were less variable than in the Dekkhan, and the produce consequently more even, that that system was very much to be recommended. He saw a system which worked smoothly and harmoniously and as satisfactorily as any system in India. There were as few complaints of pressure and

of inability to meet the assessments as in any other part of India with which he was acquainted. It might be that that system was not equally applicable to all parts of the Presidency. He presumed the attack which had been made was not on the raiyatwárí system, but on the incidents of that system and the mode of collection. [MR. CROSTHWAITE said he had no objection to take to the Bombay raiyatwárí system.] But he was merely saying that in Birár the system, as a whole, worked satisfactorily. The parts of the system to which objection had been taken were no doubt less favourable in their operation in the Dekkhan districts than in Birár: those districts were specially notorious for the uncertainty of the rainfall and, in consequence, great variation in the quantity of produce. The hon'ble gentleman opposite (Sir Jotíndra Mohán Tagore), speaking of the assessments generally, referred to the exceptional weight of the assessment, and in some other expressions which were used the weight of the assessment was the burden of the complaint. But the Government of Bombay had always maintained that their assessments were not heavy; and the speaker thought that, on an average of years, they had shown good grounds for saying so. A quotation on this point had been made from a note by Mr. Lee-Warner, but only a small portion of what that gentleman said on the subject was quoted. His opinion was, on the whole, very much against the hon'ble gentleman who quoted him. He compared the assessments in the British villages of Satára and Puna with those in some of the Native States adjoining. He fixed the value of land in the Bhore (Native) State and in the British villages adjoining, and he found that the assessment fell just twice as heavily in the Native State of Bhore as in the British adjoining district of Satára. But however that might be, the objection taken was to a system of assessment on an average of years. One hon'ble gentleman quoted from the Dekkhan Riots Commission the story there given of a gentleman who attempted to cross a stream on the system of striking a general average of the depths at various parts of the stream, the result being that the place at which the gentleman crossed was beyond his depth and he was drowned; and the analogy drawn from that was, that the assessment might be fair on an average of years, but was oppressive in an unfavourable year. [The Hon'ble MR. HUNTER said the analogy was the speaker's; he did not draw it.] He was about to question the entire relevancy of the apologue; but, whether the criticism was just or unjust, there could be no doubt that, in a district exceptionally liable to variation in the productiveness of the soil, the margin which the assessment left to the cultivator must be similarly liable to variation, and the opinion that this margin was dangerously narrow and required to be tempered by special elasticity of procedure was maintained by many authorities. This opinion, reiterated as it was by the newspaper Press, renewed and repeated by officials of weight and position, and pressed upon this Council not only when the Bill was brought in but on the present occasion, was not to be overlooked by the Government of India, nor was that Government likely to discredit the importance of such criticism or to pass it by unnoticed.

The two main points to which criticism had been directed were the rigidity of the system of collection and the suddenness of enhancements. These were the points of attack in the speeches made in 1879 to which his hon'ble friend Mr. Crosthwaite had referred, and they were the main points now. And, though he might not altogether be able to satisfy the anxiety of the critics or of enquirers generally, he might be able to show that the Government of India had not altogether lost sight of the question nor been indifferent to it. In the first place, the attention of the Government of Bombay had been called to the speeches which were made in this Council when the Dekkhan Raiyats' Act was originally passed, and he would now read to the Council a portion of the letter on the subject:—

"There is one point, however, which, although it may possibly not involve legislation, appears to the Governor General in Council to demand further consideration from the Bombay Government, namely, the possibility of adapting the assessment of the land-revenue to the variations in the season. This question is discussed in paragraph 10 of the Bombay Government letter of the 6th April, 1877. The Governor General in Council fully agrees in the view that, in ordinary cases and where the land-revenue is moderate, it would not be good, either for the raiyats or for the public treasury, that the land-revenue demand should fluctuate. But the

O

system which is best for districts enjoying an ordinarily regular rainfall may not be the best for the arid tract of the Central Dekkhan, where (it is said that) a good rainfall comes only once in three years In view of the very great fall of prices and the vicissitudes of season in the Dekkhan during the last few years, it would be desirable that the present Government of Bombay should consider whether the recent (1873-75) revisions of the revenue have given sufficient relief from an assessment which was based, in part, on an unduly high estimate of the normal value of field-produce in the Dekkhan ; and, further, the Governor General in Council would wish the Government of Bombay to consider whether, in these four districts or in parts of them, it would not be wise to have a varying scale of revenue-demand, to be applied in unfavourable seasons, whereby the nominal assessment might be reduced by a certain percentage over an entire district or division of a district in the event of failure of rain or other serious damage to the crops."

The Government of Bombay at first postponed their answer to this question, and it was finally merged in the answer they sent on the recommendations of the Dekkhan Riots Commission. The point mainly alluded to was the possibility of having fluctuating assessments. On this point they said :—

'Before further discussing this important question, the Governor in Council desired to have before him the opinions of the most experienced Revenue-officers of this Presidency ; and the Commissioners of Divisions, the Commissioners of Survey and the Collectors were therefore instructed to submit their views on the proposed modification of the system of collecting the land-revenue. Their reports are now before this Government ; and I am to say that they are unanimously opposed to any departure from the principle of fixity of demand. Among the reasons given for this conclusion are, that the assessments have been fixed with due regard to the occurrence of bad and indifferent seasons, that uncertainty of demand is unfavourable to habits of thrift, that the necessity for annual inspections will open the way to frauds, and that the remissions will be unequal—in some cases sacrificing revenue which might be collected, and in others giving insufficient relief to real distress.

"His Excellency the Governor in Council concurs generally in the opinion of the Revenue-officers that the objections to a varying scale of revenue-demand are of a very serious kind, and at the same time desires me to say that this Government found other means in the recent years of scarcity to afford a timely relief to the raiyats from the rigidity of the revenue-demand, by suspending or deferring the exaction of the revenue-instalments. While, therefore, he feels grave reasons to doubt the urgency or advantage of a radical change in the method of collection, His Excellency in Council anticipates no difficulty in adopting, whenever abnormal circumstances may recur, such temporary expedients as may relax the stringency, without departing from the principle, of the land-revenue system of the Presidency."

They then went on to explain the reasons why they thought the recommendations of the Dekkhan Riots Commission would be very difficult to work in practice. And they said :—

"On the other hand, I am to submit to the consideration of the Government of India that the expedient of allowing payment of revenue to be deferred, which has been adopted by this Government in the late abnormal seasons, is at once effectual for its purpose and free from all the objections which are fatal to the alternative suggestions. The Bombay raiyat is not permitted by the theory of his contract to claim a remission of his very moderate assessment. It may, no doubt, be imperative to depart, to some extent, from this principle in a year of famine such as 1876-77 ; but seasons of total failure have not been of such frequent occurrence as seems to be supposed ; and it can be shown that the system of fixed demand and realization has been worked with great success in many of the worst districts of the Dekkhan during a long series of years. For fifteen, twenty or even a greater number of years in succession the returns show that the revenue was realized without remissions and without outstandings, and with an annual increase from the extended occupation of land. During seasons of this character it has been found possible to maintain the principle of the survey-settlement without any noticeable pressure. The system, however, is not so inelastic as to be unable to bend to the stress of abnormal circumstances. The Revenue-officers have at their command accurate information as to every field and holding. When careful inquiries have assured the Collector that certain of the raiyats of his district are, from total failure of their crops, unable to meet their liabilities, an instalment of the whole year's demand is allowed to stand over until a better season furnishes the means of payment. Strict orders have been issued by the Government that the raiyats are not to be so pressed for recovery of land-revenue as in any way to impair their efficiency as tillers of the soil. I am to submit for consideration that the suspension of the assessment, not without hope of its ultimate collection, does not detract from the certainty of the tenure, does not discourage thrift, does not demoralize the raiyat by the expectation of constant remissions, offers no inducement to the bribing of officials, occasions the smallest financial loss, and at the same time secures the desired advantage of recovering the dues of the State from the tenant at the time when he has resources wherewith to pay, and of thus adjusting the demand

to the circumstances of the season. I am to say that the Governor in Council has reason to believe that the postponement of payment has, by aid of the intimate knowledge of the people and the land possessed by the Revenue-officers, been worked with precision and has afforded the required relief.

"In conclusion, I am to say that His Excellency in Council trusts that the above considerations will satisfy the Government of India that there are the very gravest objections to importing a varying scale of revenue-demand into the land-revenue system of this Presidency, and that the expedient of suspending or postponing or ultimately remitting the payment of the assessment, to which Government now resorts in abnormal seasons, affords the necessary relaxation of pressure without deranging the most important principles of the survey-settlement. On the other hand, the proposed remedial measures would be only applicable to years of rare and exceptional occurrence, and would be positively detrimental and demoralizing under all ordinary circumstances and in the general run of years."

At the time that reply was received by the Government of India, the same question of a variable system of assessments was under the consideration of the Famine Commission, and their view of the question was given in page 127, Part II of their report; and, although it was too long to quote, SIR STEUART BAYLEY might briefly be permitted to state their conclusions. They were not prepared to advocate the adoption, as a normal rule, of any of the proposals for making collections vary with the ordinary variations of the season; it should only be in exceptional cases of calamity that any such concessions should be made. They laid down the principle that, in such times of calamity, no cultivator should be made to pay the revenue by borrowing money when the yield of the crops was such as to leave no surplus above the amount needed for the support of himself and his family. They wished to make the degree of remission uniform over a considerable tract of country, so as to avoid the danger of corruption, and to make suspensions of revenue dependent on suspensions of rent; and they insisted on the necessity of relief being given early and promptly and regulated systematically. They also proposed that, in tracts where not only the outturn but the amount of cultivation was precarious, there should be an exceptional procedure, namely, a collection of a fixed average rate, but only upon the land actually brought under cultivation each year. These views, SIR STEUART BAYLEY thought it would be admitted, did not differ very materially from the policy which the Government of Bombay laid down for itself and accepted as part of the revenue-system. They agreed in the main points of preferring moderate fixed assessments to fluctuating assessments, the necessity of suspensions and remissions in bad years, and making such suspensions uniform over considerable tracts of country; and the points on which the Bombay system differed were in matters of administrative detail, such as systematic rules for procuring prompt and spontaneous action on the part of the Revenue-authorities.

To show what the Bombay system was in regard to suspensions and remissions, he might be permitted to refer to the same authority from which his hon'ble friend Mr. Crosthwaite had already quoted. The general order of 1867 laid down the general principle:—

"Permanent and entire remissions should only be granted in cases of complete failure of crops, and in villages which have been subject to a succession of bad seasons. In other cases, partial remissions, coupled with a postponement of the remaining Government demand or part of it, may be sanctioned. Individual enquiries should, as far as possible, be avoided, and measures of relief, as a rule, applied to entire villages. In talukas where the assessment is very light, the raiyats ought to be able to meet deficiencies in occasional bad years.—*G.R. No. 181, Jan. 15, 1867.*"

And in the order of October 1847, repeated in 1874, they said:—

"When a group of villages has suffered from an exceptionally bad season, an average reduction of assessment all round will be made, if necessary. When this is done, there will remain certain individuals unable from poverty to pay up their quota, even after the proportional abatement from the full demand had been made. These cases will require to be particularly enquired into, and the unrealized balances due written off at the close of the collecting season.—*G. R. No. 3899, October 5, 1847, and No. 1290, March 7, 1874.*"

Those were the general orders which existed long before the debate which took place in this Council in 1879. Then he had been asked what had been

done since. He could not refer to any general orders, but could show what practical action had been taken. He had in his hand two orders passed in 1882; one in which directions were given to the Collector of Ahmadnagar in the following terms: —

"(1) In villages where there has been a total failure of crops, the Collector may exercise his discretion in granting remissions of the current year's revenue.

"(2) In villages where the failure has not been so complete, he may remit the increase imposed at the revised settlement, and postpone the collection of the remainder for the current season, or for a longer period if necessary.

"(3) In villages where the failure of crops has only been partial, the Collector may remit a fraction of the revenue in proportion to the estimated failure.

"Before, however, granting any remissions, the Collector should cause a careful enquiry to be made into the circumstances of each case. * * *. No revenue should be collected by distraint and sale of the defaulter's property without the clearest evidence of contumacy."

These were directions given to a particular Collector in a particular district, and it was uncertain how far they might be known and acted upon generally, but the principle was distinctly laid down in the Resolution of February, 1882, in which it was said: —

"It must, however, be clearly understood that Government do not desire that in any case the payment of the assessment should be rigorously enforced when such payment will cripple the cultivator and reduce him to a state of insolvency. Government do not desire that remission should be granted lightly or for insufficient reasons, but they do desire that the payment of the full assessment should not be exacted when such a measure would prove the financial ruin of the ryat and be the means of preventing him from properly cultivating his land."

He thought he had now shown that the policy of the Bombay Government and the principles it had adopted for its guidance in revenue-matters in years of scarcity were identical, or nearly identical, with the recommendations of the Famine Commission. The recommendations of that Commission had been taken up and thoroughly considered by the Government of India; and, so far as regarded the North-Western Provinces, the result had been the publication of a Resolution in October of this year. The effect of that Resolution was that, after a careful classification of protected and unprotected areas, it would become the duty of each Local Government to lay down a scale in accordance with which, and in proportion to the severity of the calamity, suspensions of revenue would be made. These would afterwards be turned into remissions where that course was found necessary.

The main point insisted upon was the necessity of providing for the prompt and spontaneous action, on a pre-arranged system, by the local authorities, as soon as their enquiries showed them the real nature of the calamity with which they had to deal. The Resolution also followed the lines laid down by the Famine Commission for those precarious tracts in which the cultivation fluctuated from year to year. This Resolution was, in the first instance, promulgated only for Northern India. It was not thought expedient to extend it to Bombay, because the principles underlying it were already accepted by the Bombay Government, and also because the Government of India did not know, without further enquiry, how far the scope of the scheme would have to be altered to make it suitable to the special revenue-procedure of Bombay. It was, however, still a matter for consideration whether the principles which the Bombay Government had accepted might not be further systematised and formulated so as to give Collectors some knowledge as to what their action should be on the occurrence of a calamity, and some power to deal with it, without having to refer each case separately for the orders of the Central Government.

With regard to the other point, namely, the suddenness of enhancements, he could only say that the Government of India had watched the action of the Bombay Government with much interest and not without some anxiety. But they had not felt called upon to interfere in any direct way with the discretion of the Government of Bombay. The Government of Bombay was in this matter in direct communication with the Secretary of State.

it sent him its settlement-proceedings direct, and he reviewed and assented to them, or modified them, as he thought fit. In one case, when the Government of India, after failing to persuade the Government of Bombay to adopt its views on a question of enhancement, thought it necessary to indicate to the Secretary of State that they viewed with apprehension the extent to which, in one instance, enhancements had been made, the Secretary of State pointed out in reply the unquestionable fact that the Government of Bombay had at its disposal much more complete and accurate means of information than the Government of India, and the interference of the Government of India was distinctly and decidedly deprecated. The Secretary of State had, however, himself dealt directly with this question of enhancement. In some of the distressed districts of the Dekkhan he did not sanction the enhancements originally proposed; that was to say, he laid down the principle that enhancements above 20 per cent. should not be carried out in those districts for a term of five years, in order to allow time for them to recover from the effects of the famine. This term was afterwards, on the application of the Government of Bombay, reduced to three years, and the Government of Bombay had, on its own motion, suspended the introduction altogether of the enhanced revenue in several of these taluqas. It was not intended to deny that the Government of India had a distinct responsibility in the matter, but, under existing arrangements, they could only exercise it with advantage through the Secretary of State. Where the Government of Bombay corresponded directly with the Secretary of State, there was always a possibility of divergent orders being given by two supervising authorities, and the inconvenience thus caused would be very great. The result was that, though the Government of India watched this question earnestly and anxiously, they considered any direct interference in the matter inexpedient, but, should occasion arise, they would not fail to express their opinion after full inquiry and in the way most likely to be useful.

The Hon'ble MR. ILBERT said he should have been glad to have had the opportunity of commenting on some of the criticisms offered on the Bill since its first publication—criticisms some of which were extremely useful. Amongst other things, he should have liked to explain and to support, as he was fully prepared to do, the proposed amendments of the law relating to mortgages. But the debate upon the Bill had been protracted to an unusually late hour, and, under the circumstances, he thought the best course he could adopt—and it would certainly be the course most acceptable to the Council—would be to leave unsaid what he had intended to say.

The Hon'ble MR. GIBBS said he had not anticipated such a protracted debate on the revenue-system of Bombay. He had some doubt whether the criticisms which they had heard were technically within the purview of the Council, but, as far as he was concerned, he was certainly taken by surprise, so that he was not in a position fully to defend that which had been attacked. As it was, he would only make three brief observations. He was a member of the Bombay Government from 1874 to 1879. When he went into that Council, he had not had any large official experience of the matters under debate; but from enquiries which he had made outside, and from what had come before him from time to time, he had arrived at the conclusion that the revenue-assessments in Bombay were high. But, having subsequently, as a member of Government, to go into the matter at considerable detail, he might say that he left the local Council with the impression full on his mind that the assessments were not high. While he was in Council there, before the famine took place, during the administration of Sir Philip Wodehouse, the question of the revision of the settlements in some of the Dekkhan districts came up for the first time, and the question whether any limit should be put to the amount by which the assessments should be enhanced was discussed, and a resolution was passed limiting the increase to certain fixed percentages on districts, villages, and on individual holdings. He could not then exactly remember the figures, but he recollected that the resolution was not passed without the opposition of some of the members of the Bombay Government; and the only thanks they got in the matter was a despatch from the Secretary of State stating that they had gone

further than they should have done. Again, when the famine took place, the Bombay Government recommended to the Supreme Government that certain remissions of revenue should be granted in the territory subject to the distress; but the order which came back was that they should not make remissions, only suspensions of revenue. These were the only facts which then occurred to him in defence of the action of the Bombay Government.

The Hon'ble MR. HOPE said it might perhaps be expected that, as a member of the Bombay Civil Service, and one having protracted experience in revenue-matters, he should enter upon an elaborate reply to the attacks on the revenue-system of that presidency which had been made on the present occasion. He had, however, no intention either of satisfying the curiosity, or, it might be, of trying the patience, of the Council on this subject. His reasons for adopting this course were two: first, he considered that the revenue-system of the Bombay Presidency, whether good or bad, was not the question at present immediately before the Council. The Hon'ble Member who led off the discussion complained that, although the amendments which the Bill proposed would do good in their way, they would not do everything wanted to remove the evils which the Relief Act was intended to remedy. To this MR. HOPE would reply that the Relief Act was not intended to remedy any evils connected with the revenue-system, and it therefore contained no provisions on the subject. At the same time, he would take in a friendly spirit, in consideration of the desire to allow all subjects to be ventilated which ought to distinguish a Government, the remarks which had been made on this side issue. And he did so the more, because the remarks which he had himself made in introducing the Bill in 1879, and which had now been quoted, were of a somewhat similarly irrelevant character. His second reason for not attempting to offer any reply to what had been said regarding the revenue-system was, that he did not feel himself at liberty in any way to commit the Government of India, of which he was a member: anything which he or any other member of the Government of India might say to-day was merely said in their capacity as individual members of this Council. In that capacity he need not say more than this, that a great deal had since been done, as his hon'ble colleague Sir Steuart Bayley had shown, to meet the strictures contained in his speech of 1879, and that those strictures were coupled with the emphatic statement that the assessment was "low in itself, very low for *a landlord* to take, far lower than that prevailing in 'alienated' British villages, and adjacent foreign states." He could only recommend his hon'ble friends who still found fault with the Bombay revenue-stem to recollect the caution which, as Sir Steuart Bayley had mentioned, reve- veyed by the Secretary of State as to the difficulty of criticising the

With this of other provinces in remote parts of India.

measure which was he would ask the Council no longer to postpone a raiyats, including many to afford considerable relief to a large body of

His Excellency THE PRESIDENT ere now pending.

"I have not the least intention of detain
any discussion of this measure itself. Indeed, the
brought to a close has turned on a question which, though by entering into
subject of the Bill, is distinct from it,—namely, the question debate now
revenue-system generally. Not unnaturally my hon'ble friends Mr. , the
Mr. Hope have intimated some doubt as to the regularity of that discus
I myself entertained for a few moments some hesitation on the point, but did not
think it advisable to put a stop, by the exercise of the powers of the Chair, to a
continuance of that discussion; because it partly arose out of a circumstance
which is of itself an anomaly,—namely, that a Bill of this purely local character
affecting Bombay, and indeed applying only to a limited portion of that Presi-
dency, should have been brought in and passed, and subsequently dealt with, by
the Governor General's Council. The discussion here in this Legislative
Council in Calcutta of the local affairs of Bombay would have been altogether

out of order if it had not arisen upon a measure in which those affairs are directly dealt with; but, as that is the case, a latitude of debate may fairly be allowed which would have otherwise been inadmissible.

"But even if this had not been so, I should have been quite unable to interfere after the circulation of the paper written by an able and very intelligent Bombay officer, my friend Mr. Lee-Warner, which relates to the question of the Bombay revenue-system and to nothing else. Of course, after that paper had been circulated to members of this Council by the hon'ble member in charge of the Bill, with special reference to this discussion, it would have been quite impossible for me to raise any objection to observations being made by members of this Council which naturally arose out of a paper already in their possession; and, under those circumstances, I thought it advisable—being always anxious to determine any doubtful point in favour of freedom of debate—that I should not attempt to place any restriction upon the discussion which has just taken place. But I must, at the same time, say that I think it exceedingly inconvenient that we should attempt to discuss in this Council the strictly local affairs of the minor Presidencies, and that such a proceeding is, generally speaking, much to be deprecated, and might easily lead to serious difficulties. As regards the general question of the Bombay revenue-system, I wish to reserve entirely my own opinion. My hon'ble friend Sir Steuart Bayley has explained the course hitherto taken with regard to that question, and has shown how revenue-questions relating not only to Bombay, but to Madras also, fall in a special manner under the cognisance of the Secretary of State; so that any premature declaration of the policy of this Government would be clearly out of place. My own views on the question of suspensions and remissions of revenue are embodied in the recent Resolution of the Government of India on that subject; and, as regards the question of enhancement, I cordially concur with the views expressed by the Secretary of State, that, even when an enhancement may be reasonable in itself, it is not desirable that, if it is heavy in amount, it should be made at once, but that it should be introduced gradually, so as not suddenly to raise very largely the payments which the raiyats have previously been accustomed to make.

"I do not think that I need detain the Council with any further observations. I merely wished in the present instance to make something of protest against a course of proceeding which I think should be avoided as much as possible, and also to explain my reasons for not entering now upon the general question that has been raised, and reserving my opinion respecting it."

The Motion was put and agreed to.

## BURMA LABOUR LAW REPEAL BILL.

The Hon'ble Sir Steuart Bayley introduced the Bill [illegible] British purpose of Burma Labour Law, 1876, and moved that it be circu[illegible] eliciting opinion thereon.

The Motion was put and agreed to [illegible] moved that the Bill and Statement [illegible] in the *Fort St. George Gazette* and the

The Hon'ble Sir Steu[illegible]glish and in such other languages as the Local of Objects and Reasons fit.

## EMIGRATION BILL.

The Hon'ble Mr. Ilbert moved that the Hon'ble Mr. Hunter be added to the Select Committee on the Bill to amend the law relating to the Emigration of Natives of India to the Colonies.

The Motion was put and agreed to.

## CENTRAL PROVINCES TENANCY BILL.

The Hon'ble Mr. Crosthwaite presented the third Report of the Select Committee on the Bill to consolidate and amend the law relating to Agricultural Tenancies in the Central Provinces.

## AGRICULTURAL LOANS BILL.

The Hon'ble MR. CROSTHWAITE moved that the Hon'ble Mr. Hunter and the Hon'ble Sayyad Ahmad Khán be added to the Select Committee on the Bill to consolidate and amend the law relating to loans of money for agricultural improvements.

The Motion was put and agreed to.

## CENTRAL PROVINCES LOCAL SELF-GOVERNMENT BILL.

The Hon'ble MR. CROSTHWAITE also moved that the Hon'ble Rájá Siva Prasád be added to the Select Committee on the Bill to make better provision for Local Self-government in the Central Provinces.

The Motion was put and agreed to.

## SUNDRY BILLS.

The Hon'ble MR. ILBERT moved that the Hon'ble Mr. Miller be added to the Select Committees on the following Bills:—

To amend the law relating to Merchant Shipping.

To give power to arrest persons whose evidence is needed under Act XII of 1859.

The Motion was put and agreed to.

## CHUTIÁ NÁGPUR ENCUMBERED ESTATES ACT, 1876, AMENDMENT BILL.

The Hon'ble Sir STEUART BAYLEY moved for leave to introduce a Bill to amend the Chutiá Nágpur Encumbered Estates Act, 1876, and, in doing so, he said that only a few words were necessary in explanation. It came out, on the examination of the Act for the relief of the Oudh taluqdárs, that there was a mistake in the Act which enabled a proprietor to demand the release of his estate as soon as the scheduled debts were paid off. It did not occur to the drafters of the Act that, when the scheduled debts were paid, there might be a debt due to the Government for money borrowed for the purpose of paying off the scheduled debts, and the owner might demand the release of his land although the debt to Government was unpaid. The defect in the Oudh Act was remedied, and His Honour the Lieutenant-Governor was asked whether a similar correction was needed in the Chutiá Nágpur Act; to which His Honour replied that, although hitherto it had not been found necessary to contract any loan, it might possibly be necessary to do so on some future occasion. He was of opinion, therefore, that it would be desirable to amend the law in the direction indicated, and also to make special provision for loans to be raised by Government on the same lines as the Government which sections 24 and 26 of the Broach Thákurs' Act were framed. Some [illegible] had also been suggested by the Board of Revenue, but, STEUART BAYLEY [illegible] did not support those recommendations, SIR [illegible] Council further with regard to them.

The only other point for [illegible] sight in the amended Act of 1877. [illegible] sioner was required to decide within twelve [illegible] posal to remedy an over- of an estate was to be proceeded with or to be abandoned, the Commis- the manager was empowered to effect a mortgage six months, was brought under the Act. Although in the original Act the two were drawn so as to give the same limit of time in both, yet, when the time came to be altered in the one from six months to twelve, the other section was left unaltered; and the result was that the Commissioner might direct the management of the estate to be abandoned after twelve months, although the manager had effected a mortgage upon it within the period between the six months and the twelve months. It was, therefore, expedient to extend the period for effecting a mortgage under section 18, so as to make the period conform to the period prescribed in section 12 for the continuation of the proceedings or the abandonment of the estate.

The Motion was put and agreed to.

The Council adjourned to Friday, the 5th January, 1883.

POLITICAL.

*The 11th January, 1883.*

**No. 96** *G.*—With reference to Foreign Department Notification, No. 945 G., of the 10th October, 1882, it is notified that the recognition by the Government of India of the appointment of Mr. J. Woodtli as Acting Consul for Holland at Aden, during the absence of Mr. E. Ooms, has been confirmed by Her Majesty's Government.

C. GRANT,

*Secretary to the Government of India.*

## DEPARTMENT OF FINANCE AND COMMERCE.

— — —

### NOTIFICATIONS.

*Fort William, the 12th January 1883.*

**No. 190.**—Whereas, under the terms of Notification in the Department of Finance, No. 3646 dated 13th November 1880, the Karachi Harbour Board have paid Rs. 355 as composition for the stamp duty chargeable on a sum of Rs. 71,000 which has been raised by the issue of the undermentioned debentures, dated the 1st of February 1883, out of the total amount of four lakhs of Rupees which the said Karachi Habour Board were authorized to borrow, *viz.* —

| | | | | R |
|---|---|---|---|---|
| Nos. 199 to 213 | for Rs. | 1,000 | each | 15,000 |
| „ 214 to 245 | „ | 500 | „ | 16,000 |
| „ 246 to 257 | „ | 1,000 | „ | 12,000 |
| „ 258 to 263 | „ | 500 | „ | 3,000 |
| „ 264 to 288 | „ | 1,000 | „ | 25,000 |
| | | | TOTAL | 71,000 |

Therefore, in exercise of the powers conferred by Section 8 of the Indian Stamp Act, 1879, the Governor General in Council has exempted the abovementioned debentures from any stamp duty, with which they might otherwise be chargeable, whether on issue, renewal, or subdivision.

**No. 211.**—Mr. H. G. H. Keene, having been appointed to officiate as Assistant Comptroller British Burma, assumed charge of his office, before noon, on the 3rd January 1883.

**No. 227.**—In accordance with the Resolution of the Government of India in the Financial Department, No. 59, dated 11th January 1882, notice is hereby given that the original Promissory Notes mentioned on the subjoined list (of which duplicates have been applied for on the allegation that the originals have been lost) will be discharged at the General Treasury of Fort William and in the last six cases at Jubbulpore on 1st June 1883, with all interest due upon them, and that upon that date all further interest upon such Notes shall cease:—

SENATE HOUSE,
*The 6th January 1883.*

G. BELLETT,
*Registrar.*

## CHIEF COMMISSIONER OF COORG.

### PROCLAMATIONS.

*Bangalore, the 5th January 1883.*

The lands specified in the undermentioned Schedule having been sold by public auction under Regulation III of 1880, being an Act for the recovery of arrears of revenue in the Province of Coorg, it is hereby declared, under Section 39 of the said Regulation, that all the rights and property of the former land-holders in the said lands are lawfully transferred to the purchasers named in the said Schedule :—

SCHEDULE.

# DEPARTMENT PUBLIC WORKS HALF-YEARLY EXAMINATION.

The half-yearly examination of candidates for promotion and employment in the Public Works Department will be held at the Government Engineering College, Howrah, at 10 o'clock, on Monday, the 5th February 1883, and the following days. Applications, with fees for admission to the examination, are required to be filed before the 15th of January 1883. Candidates for the grade of Accountant who are not in Government service should be under twenty-five years of age, and must prove to the satisfaction of the Principal that they are under that age.

The following are the centres of examination sanctioned by the Government of India as stations where candidates for fourth grade Accountantships are to appear for examination :—

Ajmere, Allahabad, Durbhanga, Ghadechi, Howrah, Indore, Lahore, Lucknow, Mooltan, Mount Aboo, Nagpore, Poona, Rangoon, Rawalpindi, Saidpore, Secunderabad, Shillong, and Simla.

Candidates for the Accountant's examination are therefore requested to select one of the places mentioned above.

J. S. SLATER,
*Offg. Principal, Govt. Engrg. College, Howrah.*
*The 15th December 1882.*

# PUBLIC WORKS WORKSHOPS, MADRAS.

## NOTIFICATION.

*Madras, the 25th October 1882.*

The Government propose to sell or let the whole of the workshop land, buildings, machinery, and plant; and tenders for the purchase or lease of the same will be received by the undersigned up to the 1st February 1883.

A circular giving information on the subject will be supplied on application to the undersigned.

All tenders will be submitted to the Chief Engineer, Public Works Department, who reserves the right of rejecting any or all of the tenders without assigning any reason.

W. L. C. BADDELY, *Lieut., R.E.,*
*Genl. Supdt., P. W. Workshops.*

## GOVERNMENT CINCHONA FEBRIFUGE.

This preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *R4-8*; per eight ounce tin, *R8-8*; per pound tin, *R16-8*. The general public can be supplied by the Superintendent, Botanical Gardens, *for cash only*, at the under-noted rates:—per four ounce tin *R5-8*; per eight ounce tin *R10-8*. per pound tin, *R20*. This medicine is also sold by the principal European and Native druggist in Calcutta. Postage 8 annas per four and eight ounce tins, and 12 annas per pound tin, in addition to the foregoing rates.

HENRY F. BLANFORD,
*Meteorological Reporter to Government of India.*

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

**Terms of subscription, payable annually in advance.**

| | Without Postage. | With Postage. |
|---|---|---|
| For the CALCUTTA SERIES . | R35 | R37-8 |
| „ MADRAS SERIES . | „ 8 | „ 9 |
| „ BOMBAY SERIES . | „ 8 | „ 9 |
| „ ALLAHABAD SERIES . | „ 8 | „ 9 |
| Complete set . . . | „45 | „47-8 |

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

| | |
|---|---|
| For a Part of the CALCUTTA SERIES . | R3 8 |
| „ „ MADRAS SERIES . | „ 1 0 |
| „ „ BOMBAY SERIES . | „ 1 0 |
| „ „ ALLAHABAD SERIES | „ 1 0 |
| Complete set . . . . . | „ 4 0 |

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

*Orders and Subscriptions for 1883 should be at once remitted.*

## THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at R375 a set.

## List of Books for sale at the Library of the Asiatic Society of Bengal,

No. 57, PARK STREET, CALCUTTA,

AND OBTAINABLE FROM THE SOCIETY'S LONDON AGENTS, MESSRS. TRÜBNER & Co., 57 AND 59, LUDGATE HILL, LONDON, E. C.

*An Act to make better provision for local self-government in the Central Provinces.*

Preamble.

WHEREAS provision has been made by the Central Provinces Land-revenue Act, 1881, for the appointment of mukaddams for the several villages in the territories administered by the Chief Commissioner of the Central Provinces; and

XVIII of 1881.

Whereas provision has been made in the settlement-records of the districts in those territories for the levy of rates for the maintenance of roads, schools and the district post, and it is proposed that the Government shall, from time to time, assign certain sums, or the income accruing from certain sources, for expenditure on objects tending to promote the welfare and improvement of the inhabitants of each of those districts;

It is hereby enacted as follows:—

*Preliminary.*

Short title.

**1.** This Act may be called the Central Provinces Local Self-government Act, 1883.

Local extent.

It shall extend only to the territories for the time being administered by the Chief Commissioner of the Central Provinces; and

Commencement.

it shall come into force at once.

Definitions.

**2.** In this Act—

"Assistant Commissioner" includes an Extra Assistant Commissioner in any district where there is no Assistant Commissioner:

"Financial year" means the year commencing on the first day of April:

"Village" includes any tract of land which, at the last settlement of that land, has been recognized as a village, or which the Chief Commissioner may, from time to time, declare to be a village for the purposes of the Central Provinces Land-revenue Act, 1881; and

XVIII of 1881.

"Mukaddam" means the executive headman of a village appointed under that Act.

*Formation of Local Administrative Areas.*

Aggregation of villages in circles and groups for purposes of local self-government.

**3.** (*1*) The Chief Commissioner shall, by order in writing, for the purposes of the local self-government of each district, aggregate the several villages thereof in circles and the circles in groups.

(*2*) There shall be excluded from the circles and groups formed under this section such portions of the district as are for the time being included in the limits of a military cantonment or of a town having a municipal committee.

(*3*) The Chief Commissioner may, from time to time, by order in writing, vary any order made under this section.

*Constitution of Local Administrative Bodies.*

Establishment of local boards for groups and of district councils for districts.

**4.** There shall be established for each group of circles a local board having authority over that group, and for each district a district council having authority over the entire district, except such portions thereof as are for the time being included in the limits of a military cantonment or of a town having a municipal committee.

Constitution of local board.

**5.** The local board for a group of circles shall consist of—

(*a*) representative members, one or more for each circle, being the mukaddam or mukaddams of a village or villages within that circle;

(*b*) representatives, one or more, of mercantile classes or professions, resident within the area comprised in the group, and elected by, or appointed on behalf of, those classes or professions; and

(*c*) such person or persons, if any, not exceeding in number one-third of the board, as the Chief Commissioner may from time to time appoint.

Constitution of district council

**6.** The district council of a district shall consist of—

(*a*) representatives of groups of circles within the district, one or more for each group, being a member or members of, and elected by, the local board for that group;

(*b*) representatives, one or more, of mercantile classes or professions, resident within the district, and elected by, or appointed on behalf of, those classes or professions; and

(*c*) such person or persons, if any, not exceeding in number one-third of the council, as the Chief Commissioner may from time to time appoint.

Power to set aside election or remove member in case of conviction of offence.

**7.** (*1*) If a person convicted by a criminal Court of an offence the commission of which in the opinion of the Chief Commissioner shows him to be unfit to be a member of a local board or district council is elected as such member, the Chief Commissioner may declare his election void.

(*2*) If a member of such a board or council is so convicted of any such offence, the Chief Commissioner may declare his office to be vacant.

Incorporation of district council.

**8.** Every district council shall be a body corporate by the name of the district council of its district,

shall have perpetual succession and a common seal, with power to acquire and hold property, both moveable and immoveable, to transfer any moveable property, and, with the previous approval in writing of the Deputy Commissioner, any immoveable property, held by it, and to contract and to do all other things necessary for the purposes of its constitution, and may sue and be sued in its corporate name.

*Duties of District Councils and Local Boards.*

Matters to be administered by board and council.

**9.** The following matters shall, subject to such exceptions as the Chief Commissioner may, from time to time, by order in writing make, be under the control and administration of the district council and of the local boards within the areas subject respectively to their authority :—

(*a*) The construction, repair and maintenance of roads and other means of communication :

(*b*) The management, maintenance and visiting of schools hospitals, dispensaries, markets, rest-houses, saráis and other public institutions, and the construction and repair of all buildings connected with these institutions :

(*c*) The construction and repair of public wells, tanks and water-works, the supply of water from them and from other sources, and the preservation from pollution of water for drinking and cooking purposes :

(*d*) The planting and preservation of trees on public ground :

(*e*) The establishment and maintenance of relief-works in time of famine or scarcity :

(*f*) The establishment and management of pounds, including, where the Cattle-trespass Act, 1871, is in operation, all the functions of the Local Government and the Magistrate of the District under sections four, five, six, seven, twelve, fourteen and seventeen, and clause (*a*) of section eighteen, of that Act :

1871.

(*g*) The management of such public ferries as may be entrusted to their charge under section 7 A of the Northern India Ferries Act, 1878, as amended by this Act :

I of 1878.

(*h*) Any other local works or measures likely to promote the health, comfort or convenience of the public, and

(*i*) The maintenance of any building, or other property, vested under this Act in the district council.

*Relations of Local Boards to District Councils.*

Duties of local board.

**10.** (*1*) A local board as the agent of, and subject to the control of, the district council, shall, within the area subject to its authority, have the control and administration of, and be responsible for, all the matters specified in section nine except such of those matters as the district council may think fit to take under its direct control and administration, and such as the Chief Commissioner may have excepted by order under section nine.

(*2*) It shall be the duty of the district council to enforce the responsibility imposed on a local board by sub-section (1).

Reports, estimates and accounts to be submitted by board to council.

**11.** Every local board shall submit annually to the district council of its district, on or before such date as the council may appoint in this behalf, a statement of the requirements, and an estimate of the probable expenditure, of the board for the coming financial year, and a report of its proceedings, and an account of its receipts and expenditure for the past financial year, and shall also submit to the council such other reports, if any, as the council may, from time to time, require.

Limits on expenditure of local board.

**12.** A local board shall not incur expenses or undertake liabilities, to any amount exceeding the limit imposed by the district council of its district.

Power for council to reverse or vary resolution of board

**13.** A district council may, by a majority of two-thirds of its whole number, reverse or vary any resolution of a local board for an area within its district.

Power for council to provide for performance of duty in default of board.

**14.** (*1*) If the local board makes default in the performance of any duty imposed on it by or under this Act, the district council may, by order in writing, fix a period for the performance of the duty.

(*2*) If the duty is not performed within that period, the council may appoint some person to perform it, and may provide for the expenses of, and incidental to, its performance out of the funds appropriated to or for the purposes of the local board.

Power to declare local boards independent.

**15.** (*1*) The Chief Commissioner may from time to time, by notification in the official Gazette, declare any local board established under this Act to be an independent board, and may in like manner cancel such notification.

(*2*) A local board so declared shall, while the notification is in force, so far as may be, have within the area subject to its authority, the powers, and perform the duties, of a district council under this Act, and shall cease to be the agent of, and under the control of, the district council.

*School Committees.*

Appointment of school committees.

**16.** (*1*) Every district council, and every local board as the agent of, and subject to the control of, its District Council, may from time to time appoint school committees for the several schools under its control and administration, and shall as far as may be practicable conduct the management of any school for which such a committee has been appointed through that committee.

(2) All school committees existing within the area subject to the authority of any district council or local board at the time that council or board comes into existence shall be deemed to have been appointed under this section.

*Joint Committees.*

Joint committee of two or more local boards.

**17.** (1) A local board may, from time to time, concur with any other local board or boards for an area or areas in the same district, in appointing, out of their respective bodies, joint committees for any purpose in which they are jointly interested, and in delegating to any such committee any power which might be exercised by either or any of the local boards, and in framing and modifying regulations as to the proceedings of any such joint committee.

(2) If any dispute arises between two or more local boards acting under this section, the decision thereon of the district council of their district shall be final.

Joint committee of two or more district councils.

**18.** (1) A district council may, from time to time, concur with any other district council or district councils in appointing, out of their respective bodies, joint committees for any purpose in respect of which they are jointly interested, and in delegating to any such committee any power which might be exercised by any or either of the district councils, and in framing and modifying regulations as to the proceedings of any such joint committee.

(2) If any dispute arises between two or more district councils acting under this section, the decision thereon of the Commissioner, if the councils are in the same division, or, if they are not in the same division, of the Chief Commissioner, shall be final.

*Conduct of Business.*

Chairman.

**19.** (1) Every district council and local board shall, from time to time, elect one of its members to be chairman for one financial year at all meetings at which he is present.

(2) If the chairman so elected dies, resigns or becomes incapable of acting, the council or board shall elect another of its members to be chairman for the period during which the person so dying, resigning or becoming incapable would have been entitled to continue in office, and no longer.

(3) An election under the foregoing provisions of this section shall not be valid until it is approved, in the case of the chairman of a local board, by the Commissioner of the division, and, in the case of the chairman of a district council, by the Chief Commissioner.

(4) If when any meeting is held the office of chairman is vacant or the chairman is absent from the meeting, the members present shall appoint one of their number to be chairman thereat.

Regulations as to meetings and proceedings.

**20.** (1) Every district council and local board may, from time to time, make regulations as to the time and place of its meetings, the conduct of proceedings at meetings, and the appointment, powers and proceedings of committees:

(2) Provided that every regulation made under this section must be consistent with this Act and with any rules made by the Chief Commissioner under this Act.

*Officers and Servants.*

Employment of officers and servants.

**21.** (1) Every district council may employ such officers and servants as may be necessary and proper for the efficient execution of its duties and may assign to them such pay, leave allowances, gratuities and pensions as it thinks fit.

(2) A local board may employ such officers and servants, and may assign to them such pay, leave allowances, gratuities and pensions, as the district council of its district thinks requisite and sufficient.

(3) In the case of an officer lent by the Government, the council or board may contribute to any leave allowance, gratuity, or pension, which he may become entitled to in accordance with the rules for the time being in force.

(4) If, in the opinion of the Commissioner,

(a) the number of persons employed by a council or board under this section, or the pay, allowances, gratuities or pensions assigned by the council or board to those persons, or to any particular person, is or are excessive, or

(b) any such person is unfit for his employment,

the council or board shall, on the requirement of the Commissioner, reduce the number or remuneration, or, as the case may be, dismiss the unfit person.

*Vesting of Property.*

Power to vest property in district council.

**22.** The Chief Commissioner may, from time to time, by notification in the official Gazette, direct that any property, moveable or immoveable, which is vested in Her Majesty and is situate in the Central Provinces, shall vest in any district council; and thereupon that property shall vest in that council for the purposes of this Act, subject to all rights over, and all debts, liabilities and obligations (if any) affecting, that property.

*Finance.*

Constitution, custody and application of district fund.

**23.** (1) There shall be formed for each district a fund to be called the district fund, and there shall be placed to the credit thereof—

(a) the net proceeds (after deducting the expenses of collection) of all rates levied in accordance with settlement-records in that district for the maintenance of roads or schools;

(*b*) such portion (if any) of the surplus of the rates so levied for the maintenance of the district post as the Chief Commissioner may from time to time assign in this behalf;

(*c*) the surplus accruing in that district under section eighteen of the Cattle-trespass Act, 1871;

1871.

(*d*) the proceeds of public ferries payable into the district fund of that district under section 7A of the Northern India Ferries Act, 1878, as amended by this Act;

of 1878.

(*e*) all sums assigned, from time to time, by the Chief Commissioner for expenditure on local works in that district, under section five of the Central Provinces Additional Rates Act, 1878, section seventeen of the Northern India Ferries Act, 1878, or any enactment amending either of those Acts;

1878.
of 1878.

(*f*) all such rents and profits accruing from nazul property in that district as the Chief Commissioner may, from time to time, direct to be paid to the district council;

(*g*) all sums contributed to the fund by the Government, local bodies, or private persons; and

(*h*) all sums received by the district council in the execution of this Act.

(*2*) The district fund shall be vested in the district council, and the balance standing to the credit of the fund shall be kept in the Government treasury of the district.

(*3*) The district fund shall be applicable to the payment, in whole or in part, of the charges and expenses incidental to the several matters specified in sections nine and twenty-one, within the area subject to the authority of the district council, and, with the sanction of the Chief Commissioner, outside of that area, and also to the following purposes:—

(*a*) the payment of school inspectors and normal school teachers appointed and controlled by the Government and employed in the district, and the provision of scholarships and prizes for schools in the district;

(*b*) the payment of subordinate medical officers (including vaccinators) appointed by the Government and employed in the district; and

(*c*) the expenses attending the audit of the accounts of the district council and of the local boards within the district.

**Provided that the amount expended from the district fund in any financial year on primary education shall not be less than the estimated net proceeds for that year of the rates levied in the district in accordance with the settlement-records for the maintenance of schools.**

(*4*) When a local board has been declared independent under section fifteen, such portion of the district fund as the Chief Commissioner may from time to time fix in this behalf shall, during its independence, be annually set apart and placed at its disposal, and shall, for the purposes of this Act, be treated as a separate district fund.

Annual estimates of income and expenditure.

**24.** (*1*) Every district council shall appoint a finance committee consisting of not less than three of its number.

(*2*) Every district council shall, on or before the prescribed day in each year, hold a meeting at which the finance committee shall submit to the council, in such form as the Chief Commissioner may, from time to time, by rule prescribe, an estimate of the income and expenditure of the council for the next financial year.

(*3*) The district council shall consider the estimate, and may provisionally approve of it with or without modification.

(*4*) The district council shall, on or before the prescribed day, cause a copy of the estimate as provisionally approved by it to be sent to the Deputy Commissioner.

(*5*) The Deputy Commissioner may object to the estimate on the ground that any expenditure on salaries, works or otherwise, proposed therein, appears to him to be unnecessary or excessive, or that any particular contained therein appears to him to be erroneous, defective or improper.

(*6*) If the Deputy Commissioner so objects, he shall signify his objections in writing to the district council; if he does not so object, he shall signify his approval in like manner.

(*7*) When the Deputy Commissioner signifies, under sub-section (6), objections to an estimate, the district council shall consider his objections, and either modify the estimate so as to remove them, or refer the estimate with the statement of objections, through the Deputy Commissioner, to the Commissioner, and the Commissioner shall signify to the district council his approval of the estimate, with or without such modifications as may be needed to remove the objections wholly or in part as he thinks fit.

(*8*) When the Deputy Commissioner or Commissioner has signified his approval of an estimate, or the district council has modified an estimate so as to remove the Deputy Commissioner's objections, no expenditure which is not provided for in the estimate as approved or modified shall be incurred during the year to which the estimate relates without the previous sanction of the Commissioner.

(*9*) "Prescribed day," for the purposes of sub-section (2) or sub-section (4) of this section, means such day as the Chief Commissioner may, from time to time, by rule prescribe for the purposes of that sub-section.

(*10*) When the Deputy Commissioner is a member of the district council, the Commissioner shall

take the place of the Deputy Commissioner for the purposes of this section, and the reference under sub-section (7) shall be to the Chief Commissioner.

Annual accounts and audit.

**25.** Accounts of the receipts and expenditure of every district council shall be made up to the last day of every financial year, in such form as the Chief Commissioner, from time to time, prescribes, and shall be examined and audited as soon as may be after the end of each financial year by such persons as the Chief Commissioner, from time to time, appoints in this behalf.

Inspection of estimates and accounts.

**26.** The district council shall cause a copy of every estimate provisionally or finally approved under section twenty-four, and of every account made up under section twenty-five, to be kept at its office; and any person may at all reasonable times inspect any such estimate or account.

Publication of abstract of accounts.

**27.** An abstract of every annual account of a district council, showing the income of the district fund under each head of receipts, the charges for establishment, the works undertaken, the sums expended on each work, and the balance, if any, of the fund remaining unspent, shall be prepared by the district council in such form as the Chief Commissioner from time to time prescribes, and published annually in the English and Vernacular official Gazettes.

*Control.*

Deputy Commissioner's power of supervision.

**28.** (*1*) The Deputy Commissioner of a district shall have power to supervise the proceedings of the district council, and of every local board, joint committee, or school committee in the district, and in exercise of that power may (among other things)—

(*a*) enter on and inspect, or cause to be entered on and inspected, any immoveable property occupied by the council, board or committee, or any work in progress under its direction;

(*b*) call for and inspect any document which may be for the purposes of this Act in the possession or under the control of the council, board or committee; and

(*c*) require the council, board or committee to furnish such statements, accounts and reports as he thinks fit.

(*2*) Where a joint committee is appointed by the district councils of several districts, the Deputy Commissioner of any of those districts may exercise a like power in respect of the proceedings of that committee; but if any difference arises between two or more Deputy Commissioners acting under this sub-section, it shall be referred, when the districts are in the same division, to the Commissioner, and, when the districts are not in the same division, to the Chief Commissioner, whose decision shall be final.

(*3*) The power given under this section to a Deputy Commissioner in respect of a local board or school committee may, with the sanction of the Chief Commissioner, be delegated by him to a subordinate not below the rank of an Extra Assistant Commissioner.

(*4*) When the Deputy Commissioner is a member of the district council, the powers given to him under this section shall, in respect of that council, vest in the Commissioner.

Power to suspend execution of orders, &c.

**29.** (*1*) If, in the opinion of the Deputy Commissioner, the execution of any order or resolution of a district council, local board, joint committee, or school committee, or the doing of any act which is about to be done, or is being done, in pursuance of or under cover of this Act, is likely to cause injury or annoyance to the public, or to any class or body of persons, or to lead to a breach of the peace, he may, by order in writing, suspend the execution or prohibit the doing thereof within his district.

(*2*) When a Deputy Commissioner makes any order under this section he shall forthwith forward to the Commissioner a copy of the order, with a statement of the reasons for making it; and it shall be in the discretion of the Commissioner to rescind the order, or to direct that it continue in force, with or without modification, permanently, or for such period as he thinks fit.

(*3*) The Commissioner shall forthwith submit to the Chief Commissioner a report of every case occurring under this section, and the Chief Commissioner may rescind or modify any order made therein, and make in respect thereof any other order which the Commissioner could have made in respect of the same.

Extraordinary powers of Deputy Commissioner in case of emergency.

**30.** (*1*) In cases of emergency the Deputy Commissioner may provide for the execution of any work, or the doing of any act, which a district council or local board is empowered to execute or do, and the immediate execution or doing of which is in his opinion necessary for the service or safety of the public, and may direct that the expense of executing the work or doing the act, with a reasonable remuneration to the person appointed to execute or do it, shall be forthwith paid by the district council.

(*2*) If the expense and remuneration are not so paid, the Deputy Commissioner may make an order directing the person having the custody of the balance of the district fund to pay the expense and remuneration, or as much thereof as is possible, from that balance.

(*3*) The Deputy Commissioner shall forthwith report to the Commissioner every case in which he uses the powers given to him by this section.

Power to provide for performance of duties in default of district council.

**31.** (*1*) When the Chief Commissioner is informed, on complaint made or otherwise, that a district council has made default in performing any duty imposed on it by or under this Act, the Chief Commissioner, if satisfied after due inquiry that the district council has been guilty of the alleged default, may, by an order in writing, fix a period for the performance of that duty.

(*2*) If that duty is not performed within the period so fixed, the Chief Commissioner may appoint some person to perform it, and may direct that the expense of performing it, with a reasonable remuneration to the person appointed to perform it, shall be forthwith paid by the district council.

(*3*) If the expense and remuneration are not so paid, the Chief Commissioner may make an order directing the person having the custody of the balance of the district fund to pay the expense and remuneration, or as much thereof as is possible, from that balance.

Power to supersede council or board in case of incompetency, default or abuse of powers.

**32.** (*1*) If a district council or local board is not competent to perform, or persistently makes default in the performance of, the duties imposed on it by or under this Act or otherwise by law, or exceeds or abuses its powers, the Chief Commissioner may, with the previous approval of the Governor General in Council, by an order published, with the reasons for making it, in the local official Gazette, declare the council or board to be incompetent or in default, or to have exceeded or abused its powers, as the case may be, and supersede it for a period to be specified in the order.

(*2*) When a district council or local board is so superseded, the following consequences shall ensue:

(*a*) All members of the council or board shall, as from the date of the order, vacate their offices as such members;

(*b*) All powers and duties of the council or board may, during the period of supersession, be exercised and performed by such person or persons as the Chief Commissioner from time to time appoints in that behalf;

(*c*) Where a council is superseded, all property vested in it shall, during the period of supersession, vest in Her Majesty.

(*3*) On the expiration of the period of suspension specified in the order, the council or board shall be re-established by appointment or election, and the persons who vacated their offices under clause (*a*) shall not be deemed disqualified for appointment or election.

Powers of Commissioner.

**33.** In all matters connected with this Act, the Commissioner shall have and exercise the same authority and control over the Deputy Commissioners subordinate to him, as he has and exercises over them in the general and revenue administration.

*Rules.*

Power of Chief Commissioner to make rules as to district councils, local boards and school committees.

**34.** The Chief Commissioner may, from time to time, make rules consistent with this Act and with reference (if necessary) to the varying circumstances of different local areas—

(*a*) as to the qualifications, mode and time of election or appointment, term of office, and remuneration and allowances (if any) of members of district councils and local boards and as to the filling of casual vacancies in such councils and boards, and as to the number of the representative members for each circle or group of circles, and as to the number of the representatives of the mercantile classes or professions, to be elected or appointed to each local board or district council;

(*b*) as to the appointment, powers and duties of school committees, the term of office of members of such committees and the mode of removing them;

(*c*) as to the conduct of proceedings of district councils, local boards and school committees, including the fixing of a quorum, the giving of the casting vote in cases of equal division, the minimum number of meetings to be held and the maximum interval between successive meetings, the formation of committees other than school committees and the delegation of powers to such committees;

(*d*) as to the mode of entering into and executing contracts and transfers of property on behalf of district councils, and the authority on which money may be paid from the district fund;

(*e*) as to the appointment and payment of auditors of the accounts of district councils and local boards;

(*f*) as to the apportionment of the district fund between the general purposes of the district and the purposes of particular parts of the district, and the appropriation of funds raised in a particular area to the purposes of that area; and

(*g*) generally, for the guidance of district councils, local boards, school committees and Government officers, in all matters connected with the administration of this Act and for settling their relations to one another.

Procedure for making rules under section 34.

**35.** The Chief Commissioner shall, before making any rules under section thirty-four, publish in such manner as may in his opinion be sufficient for giving information to persons interested, a draft of the proposed rules together with a notice specifying a date at or after which the draft will be taken into consideration; and shall, before making the rules, receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

*Exceptional Provision.*

**36.** If the circumstances of any district or part of a district are, in the opinion of the Chief Commissioner, such that any of the provisions of this Act are unsuited thereto, he may, by order in writing, except the district or part from the operation of those provisions; and thereupon those provisions shall not apply to the excepted district or part until again applied thereto by a subsequent order of the Chief Commissioner.

Power under special circumstances to except districts from operation of Act.

*Supplemental Provisions.*

**37.** Where any land is required for the purposes of this Act, the Chief Commissioner may, on the request of the district council, proceed to acquire it under the provisions of the Land Acquisition Act, 1870; and, on payment by the district council of the compensation awarded under that Act, the land shall vest in the district council.

Acquisition of land.

1870.

**38.** If any member, officer or servant of a district council, local board, or joint committee appointed under this Act is, otherwise than with the permission in writing of the Commissioner, directly or indirectly interested in any contract made with that council, board or committee, he shall be deemed to have committed an offence under the Indian Penal Code, section 168.

Penalty on member, officer or servant being interested in contracts made with council, board or committee.

of 1860.

**39.** (*1*) All rules and orders made by the Chief Commissioner under this Act shall be published in the official Gazette both in English and in such native languages as the Chief Commissioner may direct.

Publication of rules and orders.

(*2*) The publication in the official Gazette of a rule purporting to be made by the Chief Commissioner under section thirty-four shall be conclusive evidence that it has been made as required by section thirty-five.

**40.** The several district councils and local boards under this Act shall come into existence at such time as the Chief Commissioner, by order, appoints in that behalf.

Time for councils and boards coming into existence.

*Rates payable under Settlement-record.*

**41.** (*1*) All rates for the maintenance of roads, schools or the district post, for the payment of which provision has been made in any settlement-record previous to the passing of this Act, shall be deemed to have been legally imposed, and shall be recoverable as if they were arrears of land-revenue payable directly to Government and due on the land in respect of which they are payable.

Confirmation and recovery of existing rates and accounts of same.

(*2*) An account of the gross receipts and of the charges (if any) of collection of all such rates in each district shall be kept by the Deputy Commissioner of that district, and shall be annually rendered by him to the district council of that district.

**42.** The Chief Commissioner may, from time to time, by notification in the official Gazette,

Powers of Chief Commissioner with respect to rates.

(*a*) prescribe in what instalments, and at what times, the rates referred to in section forty-one shall be payable, and make rules for their collection by village-officers or others; and

(*b*) exempt any land from liability to pay the whole or any part of any such rate, and vary or cancel any such exemption.

*Amendment of the Northern India Ferries Act, 1878.*

**43.** After section seven of the Northern India Ferries Act, 1878, the following shall be inserted, namely:—

New section to follow section 7 of Act XVII of 1878.

XV

"7A. The Chief Commissioner of the Central Provinces may direct that any public ferry wholly or partly within the area subject to the authority of a district council or local board in any district in those provinces, be managed by that council or board, and may further direct that all or any part of the proceeds from such ferry be paid into the district fund of that district;

In Central Provinces management may be vested in district council or local board;

and proceeds paid into district fund.

and thereupon such ferry shall be managed, and such proceeds or part thereof shall be paid, accordingly."

**44.** In section six of the same Act, after the words "section seven," and in section seventeen of the same Act, after the words "section seven," where they first occur, the following shall be inserted, namely:—"and section 7A."

Amendment of sections 6 and 17 of same Act.

## PART V.

## Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

### LEGISLATIVE DEPARTMENT.

[ Second publication ]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th January, 1883, and was referred to a Select Committee :—

### No. 1 OF 1883.

*A Bill to amend the Chutiá Nágpur Encumbered Estates Act, 1876.*

WHEREAS it is expedient to amend the Chutiá Nágpur Encumbered Estates Act, 1876; It is hereby enacted as follows :— (Preamble.) (VI of 1876.)

1. Act XII of 1877 (*an Act to amend the Chutiá Nágpur Encumbered Estates Act, 1876*) is hereby repealed. (Repeal of Act XII of 1877)

2. To section 4 of the Chutiá Nágpur Encumbered Estates Act, 1876, the following shall be added, namely :— (Addition to Act VI of 1876, section 4.)

"and also in or towards the repayment, either before or after the liquidation of such debts and liabilities, of any loan received from the Government by the manager under this Act".

3. (*1*) In section 12 of that Act, for the first clause the following shall be substituted :— (Amendment of section 12 of same Act.)

"When all the debts and liabilities mentioned in the schedule referred to in section eleven, and the amount of any loan received from the Government under section eighteen, together with the interest (if any) due thereon, have been paid and discharged", and

(*2*) in the second clause of the same section, for the word "six" the word "twelve" shall be substituted.

4. (*1*) In section 18 of that Act, after the words "as may appear expedient" the following shall be inserted, namely :— (Amendment of section 18 of same Act.)

"or by borrowing money from the Government at such rate of interest as appears reasonable to the Local Government", and

(*2*) in the last clause of the same section, for the word "six" the word "twelve" shall be substituted.

### STATEMENT OF OBJECTS AND REASONS.

THE Chutiá Nágpur Encumbered Estates Act, 1876, omits to provide for the recovery by the manager, under the scheme for the management of the estate, of a loan made by the Government for the payment of the debts. It consequently would be open to the proprietor, when the scheduled debts had been paid off, to demand, under section 12 of the Act, the release of the estate, although any such loan made by the Government had not been repaid.

2. No such loan has as yet been made by the Government, but as it is possible that such loans may be made, it is proposed to amend the Act so as to secure the detention of the estate under management until the amount of any such loan that may have been made has been paid off with interest. This is provided for by certain amendments made, in sections 4, 12 and 18 of the Act, by sections 2, 3 and 4 of the present Bill.

3. The second sub-section of section 4 of the Bill merely supplies an omission, apparently the result of an oversight, in the amending Act XII of 1877.

Under section 12 of the principal Act, as it originally stood, six months from the publication of the order of management was the period within which the Commissioner was permitted to abandon the management, and as difficulties might arise if the management was abandoned after the manager had exercised his power of mortgaging, the last clause of section 18 provided that the power to mortgage should not be exercisable until after the expiration of the same period. The amending Act of 1877 altered the period fixed by section 12 to twelve months, but left that fixed by section 18 unchanged. The amendment now proposed makes the period in section 18 the same as that in section 12, namely, twelve months.

4. It is proposed, as a matter of convenience, to repeal the amending Act of 1877 and incorporate its single provision in the new one.

*The 22nd December, 1882.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th January, 1883, and was referred to a Select Committee on the 12th January, 1883 :—

## No. 2 OF 1883.

# THE INDIAN EXPLOSIVES BILL, 1883.

## CONTENTS.

PREAMBLE.

CHAPTER I.

PRELIMINARY.

SECTIONS.

1. Short title.
   Local extent.
2. Saving for manufacture, keeping, sale, conveyance or importation by Government.
3. Saving of Indian Arms Act, 1878.
4. Commencement.
5. Repeal of enactments.
6. Limitation of application of Madras and Bombay Municipal Acts.
7. Definitions.

CHAPTER II.

GENERAL LAW AS TO MANUFACTURE AND KEEPING OF EXPLOSIVES.

8. Prohibition of manufacture of explosives except at factory.
9. Prohibition of keeping of explosives except in factory, magazine or registered place.

CHAPTER III.

FACTORIES, MAGAZINES AND REGISTERED PLACES.

(*A*).—*Licensing and Regulation of Factories.*

10. Power of Local Government to make rules as to licensing and regulation of factories.
11. Provision in favour of occupiers of magazines and registered places making cartridges.

SECTIONS.

12. Provision in favour of occupiers of magazines adapting or preparing explosives for use in their own mines or quarries.

(*B*).—*Licensing and Regulation of Magazines.*

13. Power of Local Government to make rules as to licensing and regulation of magazines.

(*C*).—*Registration and Regulation of Registered Places.*

14. Power of Local Government to make rules as to registration and regulation of registered places.

(*D*).—*Supplemental Provisions.*

15. Duty of occupier to make special rules for regulation of workmen in his factory or magazine.

CHAPTER IV.

SALE OF EXPLOSIVES.

16. Sale of explosives on highways or public places prohibited
17. Sale of explosives to children prohibited.
18. Explosives to be sold in cases closed and labelled.

CHAPTER V.

CONVEYANCE OF EXPLOSIVES.

19. Power of Governor General in Council to make rules as to packing of explosives.
20. Power of Local Government to make rules regulating the conveyance, loading, unloading and keeping of explosives in ports.
21. Power on breach of rule to require ship, boat, carriage or explosive to be dealt with in conformity with rule.
22. Duty of railway-administration to make rules regulating the conveyance, loading, unloading and keeping of explosives on its railway.
23. Power of Governor General in Council to make rules for the conveyance, loading, unloading and keeping of explosives in certain cases.
24. Penalties which may be annexed to breach of rules under sections 20, 22 and 23.

Native State, the manager of the railway, and, in the case of a railway worked by a company or private individual, the company or individual:

[38 Vic., c. 17, s. 108.] (13) "wharf" includes any quay, landing-place, siding or other place at which goods are landed, loaded or unloaded:

[ib.] (14) "carriage" includes any carriage, waggon, cart, truck, vehicle or other means of conveying goods or passengers by land, in whatever manner the same may be propelled:

[ib.] (15) "ship" includes every description of vessel used in sea-navigation, whether propelled by oars or otherwise:

[ib.] (16) "boat" means every vessel, not a ship as above defined, which is used in navigation in any inland water or any port, whether propelled by oars or otherwise:

[New.] (17) "import" means to bring into British India by sea or land:

[Cf Act VIII of 1881, s. 3.] (18) "prescribed" means prescribed from time to time by notification of the Governor General in Council:

[38 Vic., c. 17, s. 108.] (19) the expression "safety-cartridges" means cartridges for small arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges:

[New.] (20) "Magistrate" means, in the Presidency-towns, a Presidency Magistrate, and elsewhere, a Magistrate of the first class, and includes also any Magistrate whom the Governor General in Council or the Local Government may, by notification, appoint to discharge in any local area the functions of a Magistrate under this Act.

## CHAPTER II.

### GENERAL LAW AS TO MANUFACTURE AND KEEPING OF EXPLOSIVES.

[38 Vic., c. 17, s. 4.] **8.** The manufacture of an explosive shall not, nor shall any process of that manufacture, be carried on except at a factory for that explosive:

Prohibition of manufacture of explosives except at factory.

Provided that nothing in this section shall apply—

(*a*) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale; or

(*b*) to the making of any part of an explosive where that part is not itself an explosive and no explosive is used in making it.

[38 Vic., c. 17, s. 5.] **9.** An explosive shall not be kept except—

Prohibition of keeping of explosives except in factory, magazine or registered place.

(*a*) in the factory in which it is manufactured, or

(*b*) in a magazine for that explosive, or

(*c*) in a place registered under this Act for keeping that explosive:

Provided that this section shall not apply—

[38 Vic., c. 17, s. 40 (4).] (*a*) to a person keeping for his private use, and not for sale, an explosive to an amount not exceeding in the same place the prescribed amount, or

(*b*) to the keeping of an explosive by a carrier or other person for the purpose of conveyance, when the explosive is being conveyed or kept in accordance with the rules under this Act with respect to the conveyance of explosives.

## CHAPTER III.

### FACTORIES, MAGAZINES AND REGISTERED PLACES.

#### (*A*).—*Licensing and Regulation of Factories.*

**10.** (*1*) The Local Government may make rules as to the licensing and regulation of places as factories for the manufacture of explosives. [Cf. 38 Vic., c. 17, ss. 6 to 10, & ss 12, 13 & 26.]

Power of Local Government to make rules as to licensing and regulation of factories.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(*a*) the authority by which licenses may be granted;

(*b*) the fees to be charged for licenses, and the other sums (if any) to be paid for expenses by applicants for licenses;

(*c*) the manner in which applications for licenses are to be made, and the matters to be specified in such applications;

(*d*) the form in which, and the conditions on and subject to which, licenses are to be granted;

(*e*) the period for which licenses are to remain in force;

(*f*) the renewal of licenses and the fee to be paid for their renewal;

(*g*) the alteration of the terms of licenses by the grant of amending licenses, and the fee to be paid for an amending license;

(*h*) the devolution and determination of licenses;

(*i*) the situation, construction, materials and fittings of factories;

(*j*) the conditions on and subject to which the manufacture, or any process in, or work connected with, the manufacture, of an explosive is to be carried on in any factory;

(*k*) the descriptions of explosives which may be kept in a factory, and the conditions and restrictions subject to which they may be so kept;

(*l*) the manner of carrying out repairs in factories; and

(*m*) the restricting of the employment of persons under the age of sixteen years in factories or in certain parts thereof.

[38 Vic., c. 17, s. 16.]

Provision in favour of occupiers of magazines and registered places making cartridges.

**11.** The occupier of a magazine or registered place shall not be required by this Act or the rules under this Act to take out a factory-license by reason that, in connection with the magazine or place, he fills, for sale or otherwise, any cartridge for small arms with the explosive for the keeping of which the magazine or place is licensed or registered: provided that he observes such rules as the Local Government may make in this behalf.

[38 Vic., c. 17, s. 17.]

Provision in favour of occupiers of magazines adapting or preparing explosives for use in their own mines or quarries.

**12.** The occupier of a magazine shall not be required by this Act or the rules under this Act to take out a factory-license by reason that, in connection with the magazine, he, by filling cartridges, making charges, drying, sifting, fitting or otherwise, adapts or prepares the explosive for the keeping of which the magazine is licensed, for use exclusively in his mine or quarry, or in some excavation or work carried on by him or under his control: provided that he observes such rules as the Local Government may make in this behalf.

### (B).—*Licensing and Regulation of Magazines.*

[38 Vic., c. 17, ss. 15 to 19 relating to forest).]

Power of Local Government to make rules as to licensing and regulation of magazines.

**13.** (*1*). The Local Government may make rules as to the licensing and regulation of places as magazines for the keeping of explosives.

(*2*) Rules under this section may, among other matters, provide for all or any of the matters for which rules under clauses (*a*) to (*i*), both inclusive, and clauses (*k*) to (*m*), both inclusive, of section ten may provide in the case of factories.

### (C).—*Registration and Regulation of Registered Places.*

Cf. 38 Vic., c. 17, ss. 21 and 22.]

Power of Local Government to make rules as to registration and regulation of registered places.

**14.** (*1*) The Local Government may make rules as to the registration and regulation of places for the keeping of explosives.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(*a*) the manner in which places may be registered, the period for which registration is to be valid, and the manner in which registration may be renewed;

(*b*) the fees to be paid for registration and renewal of registration;

(*c*) the situation and nature of places which may be registered, the manner in which an explosive is to be kept in those places, and the maximum amount of an explosive which may be so kept; and

(*d*) the descriptions of explosives which may be kept together in the same registered place, and the conditions and restrictions subject to which they may be so kept.

### (D).—*Supplemental Provisions.*

[38 Vic., c. 17, ss. 11 and 19.]

Duty of occupier to make special rules for regulation of workmen in his factory or magazine.

**15.** (*1*) Every occupier of a factory or magazine shall make special rules for the regulation of the persons managing or employed in or about his factory or magazine, with a view to secure the observance therein of this Act and the rules under this Act, and the safety and proper discipline of those persons and the safety of the public.

(*2*) The occupier may, and, if required by the Local Government, shall, make rules, repealing, altering or adding to any special rules made under this section.

(*3*) Any rule under this section may contain a provision that any person committing a breach of it shall be punished with fine which may extend to twenty rupees.

(*4*) A rule made under this section shall not take effect until it has been confirmed by the Local Government and notified to the persons managing or employed in or about the factory or magazine in such manner as the Local Government from time to time directs.

## CHAPTER IV.

### SALE OF EXPLOSIVES.

[38 Vic., c. 17, s. 30.]

Sale of explosives on highways or public places prohibited.

**16.** An explosive shall not be hawked, sold or exposed for sale on any highway, street, public thoroughfare or other public place.

[38 Vic., c. 17, s. 31.]

Sale of explosives to children prohibited.

**17.** An explosive shall not be sold to any child apparently under the age of thirteen years.

[38 Vic., c. 17, s. 32 and s. 40 (8).]

Explosives to be sold in cases, closed and labelled

**18.** Every explosive, exceeding in amount the prescribed amount, shall, when publicly sold or exposed for sale, be in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosive from escaping, and (except when the explosive is sold to any person employed by or on the property occupied by the vendor for immediate use in the service of the vendor or on that property) the outermost receptacle containing the explosive shall have affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the name of the explosive, with the addition of the word "explosive."

## CHAPTER V.

### CONVEYANCE OF EXPLOSIVES.

[38 Vic., s. 33.] c.

Power of Governor General in Council to make rules as to packing of explosives.

**19.** The Governor General in Council may make rules to regulate the packing of explosives for conveyance, and may by those

rules provide for the nature of the packages, cases, bags, canisters or other receptacles in which an explosive is to be contained.

[38 Vic., c. 17, s. 34.]

Power of Local Government to make rules regulating the conveyance, loading, unloading and keeping of explosives in ports.

**20.** (*1*) The Local Government may make rules to regulate the conveyance, loading, unloading and keeping of explosives within any port.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say :—

[Sub-section 1.] [cf. Act XII of 1875, s. 7 (*o*).] [38 Vic., c. 17, s. 34, sub-section 2.] [Sub-section 3.]

(*a*) the notice to be given in the case of ships and boats having any explosive on board within the port ;

(*b*) the navigation and place of mooring of those ships and boats ;

(*c*) subject to the rules as to packing made under section nineteen, the mode of stowing and keeping an explosive on board any such ship or boat, and of giving notice, by brands, labels or otherwise, of the nature of the package containing the explosive ;

[Sub-section 4.]

(*d*) the description, construction, fitting-up and licensing of the ships, boats or carriages to be used for the conveyance of an explosive, and the licensing and dress of the persons having charge thereof ;

[Sub-section 5.]

(*e*) the prohibition of the conveyance of one explosive with another explosive or any articles or substances, or in passenger-ships, boats, trains or carriages, or the subjection of that conveyance to conditions and restrictions ;

[Sub-section 6.]

(*f*) the prohibition, in cases where the loading or unloading of an explosive within the limits of the port appears to be specially dangerous to the public, of loading or unloading within those limits, and the fixing of the times and places at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded, or conveyed at one time or in one ship, boat or carriage ;

[Sub-section 7.]

(*g*) the mode of, and the precautions to be observed in, conveying an explosive, and in the loading or unloading any ship, boat or carriage conveying an explosive, and the time during which the explosive may be kept during the conveyance, loading or unloading ;

[Cf. Act XII of 1875, s. 7, cl. (*o*), ss. 28, 29, 30, 31 and 33.]

(*h*) the fixing the cases in which an explosive is to be taken out of a ship for the purpose of being deposited, the places in which the explosive so taken out is to be deposited, the appointing of an officer to receive the explosive, and the manner in which, and the conditions on and subject to which, the explosive is to be deposited in and removed from those places

(*i*) the times at which lights or fires are to be allowed or not allowed on board the ships or boats having an explosive on board, or at which a Police-officer or other person authorized in this behalf by the conservator of the port is to be on board them ; [38 Vic., c. 17, s. 34, sub-section 5.]

(*j*) the publication and supply to the public of copies of these rules ; [Sub-section 9.]

(*k*) the enforcing the observance of this Act and the rules under this Act both by the officers of the port and also by other persons when within the limits of the port ; and [Sub-section 10.]

(*l*) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger. [Sub-section 11.]

Power on breach of rule to require ship, boat, carriage or explosive to be dealt with in conformity with rule.

**21.** (*1*) In the event of any breach of a rule under section twenty, in the case of any ship, boat, carriage or explosive, whether there has or has not been any conviction for the breach, the conservator of the port or other officer named in the rules, or any person acting under the orders of the conservator, may cause the ship, boat, carriage or explosive, at the expense of the owner thereof, to be removed to such place or otherwise dealt with in such manner as may be in conformity with the rule.

(*2*) All expenses incurred in the removal may be recovered in like manner as a fine under this Act.

Duty of railway-administration to make rules regulating the conveyance, loading, unloading and keeping of explosives on its railway.

**22.** (*1*) Every railway-administration shall make rules to regulate the conveyance, loading, unloading and keeping of explosives on its railway. [Cf. 38 Vic., c. 17, s. 35.]

(*2*) The railway-administration may, and, if required by the Governor General in Council, shall, make rules repealing, altering or adding to any rules made under this section.

(*3*) Rules under this section may provide for all or any of the following among other matters, that is to say :—

(*a*) the notice to be given of the intention to send an explosive for conveyance on the railway ; [Sub-section 1.]

(*b*) subject to the rules as to packing made under section nineteen, the mode of stowing and keeping an explosive for conveyance, and of giving notice by brand, labels or otherwise of the nature of the package containing the explosive ; [Sub-section 2.]

(*c*) the description and construction of carriages, ships or boats to be used in the conveyance of an explosive ; [Sub-section 3.]

(*d*) the prohibition of the conveyance of one explosive with another explosive or with any articles or substances or in passenger- [Sub-section 4.]

trains, carriages, ships or boats, or the subjection of that conveyance to conditions and restrictions;

Sub-section (e) the places and times at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded or conveyed at one time or in one carriage, ship or boat;

Sub-section (f) the precautions to be observed in conveying an explosive and in loading and unloading the carriages, ships or boats used in the conveyance of an explosive, and the time during which the explosive may be kept during that conveyance, loading and unloading;

Sub-section (g) the enforcing the observance of this Act and the rules under this Act by its servants and agents, and also by other persons when on the railway; and

Sub-section (h) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger.

Cf. 38 Vic., c. 17, s. 37.] **23.** (1) The Governor General in Council may make rules to regulate the conveyance, loading, unloading and keeping of explosives in any case in which rules made under section twenty or section twenty-two do not apply.

Power of Governor General in Council to make rules for the conveyance, loading, unloading and keeping of explosives in certain cases.

(2) Rules under this section may provide for all or any of the following among other matters, that is to say:—

b-section (a) the description and construction of the carriages to be used in the conveyance of an explosive;

b-section (b) the prohibition of the conveyance of one explosive with another explosive or with any articles or substances, or in passenger-carriages, or the subjection of that conveyance to conditions and restrictions;

b-section (c) the places and times at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded, or conveyed at one time and in one carriage;

b-section (d) the precautions to be observed in conveying an explosive and in loading and unloading the carriages used in that conveyance, and the time during which the explosive may be kept during that conveyance, loading and unloading;

b-section (e) the publication and supply to the public of copies of these rules; and

b-section (f) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger.

(3) For the purpose of any mode of conveyance which is not a conveyance by land, this section shall be construed as if ship and boat were included in the term "carriage".

[Cf. 38 Vic., c. 17, ss. 34, 35 & 37.] **24.** The authority making any rule under section twenty, section twenty-two or section twenty-three may annex to any breach or attempt to commit a breach of the rule the following penalties, which may be imposed on such persons and graduated in such manner as may be deemed just, according to the gravity of the offence, and according as it may be a first, second or other subsequent offence, that is to say:—a fine which may extend to two hundred rupees for each breach and to one hundred rupees for each day during which the breach continues, and forfeiture of all or any part of the explosive in respect of which, or being in the carriage, ship or boat, or train of carriages, ships or boats, as the case may be, in respect of which, the breach of the rule has taken place.

Penalties which may be annexed to breach of rules under sections 20, 22 and 23.

## CHAPTER VI.

### IMPORTATION OF EXPLOSIVES.

[38 Vic., c. 17, s. 40 (9).] **25.** Dynamite or gun-cotton or any explosive (other than gunpowder, cartridges made with gunpowder, percussion-caps, fireworks and any prescribed explosive) shall not be imported except under a license, and in the manner and to the extent permitted by that license.

Importation of certain explosives prohibited except under license.

[38 Vic., c. 17, s. 40 (9) (b).] **26.** (1) The Governor General in Council may make rules to regulate the grant of licenses required under section twenty-five.

Power of Governor General in Council to make rules as to such importation.

(2) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(a) the officers by whom, the form in which and the terms and conditions as to the composition and quality of the explosive, the unloading, landing, transhipment, delivery and conveyance thereof, and the protection of the public from danger, on and subject to which licenses may be granted;

(b) the period for which licenses are to continue in force and the persons for whom licenses are to be available; and

(c) the fees to be paid for licenses.

[38 Vic., c. 17, s. 40 (9) (c).] **27.** The officers of sea customs at every port shall have the same power with respect to any explosive to which section twenty-five applies and the ship containing that explosive as they have for the time being with respect to any article on the importation of which restrictions are imposed by the law relating to sea customs and the ship containing the same; and the enactments for the time being in force relating to sea customs or any such article or ship shall apply accordingly.

Powers of Customs officers.

## CHAPTER VII.

### SPECIALLY DANGEROUS EXPLOSIVES.

[38 Vic., c. 17, s. 43: Cf. Act XI of 1878, s. 10.]

Power of Governor General in Council to prohibit the manufacture, keeping, importation, conveyance and sale of specially dangerous explosives.

**28.** (*1*) Notwithstanding anything in this Act or in the rules under this Act, the Governor General in Council may, by notification—

(*a*) regulate or prohibit, either altogether or except under a license, and to the extent and in the manner permitted by that license, the manufacture, keeping, importation, conveyance and sale, or any of them, of any explosive which is of so dangerous a character that, in the opinion of the Governor General in Council, it is expedient for the public safety to issue such a notification; and

(*b*) cancel any notification under this section.

[38 Vic., c. 17, s. 43.] (*2*) The officers of sea customs at every port shall have the same power with respect to any explosive with regard to which a notification has been issued under this section and the ship containing the explosive as they have for the time being with respect to any article the importation of which is prohibited or regulated by the law relating to sea customs and the ship containing the same; and the enactments for the time being in force relating to sea customs or any such article or ship shall apply accordingly.

## CHAPTER VIII.

### GOVERNMENT SUPERVISION.

#### (*A*).—*Inspection.*

[38 Vic., c. 17, s. 53. Cf. Act XV of 1881, s. 3.]

Appointment and duties of Government Inspectors.

**29.** (*1*) The Local Government may, in its discretion, by notification appoint such persons as it thinks fit to be Inspectors for the purposes of this Act, and suspend or remove any person so appointed.

(*2*) The persons so appointed shall, within such local area as the Local Government may from time to time direct, exercise the powers and perform the duties conferred and imposed by this Act and the rules under this Act on an Inspector.

(*3*) Every such Inspector (in this Act referred to as a Government Inspector) shall be deemed a public servant within the meaning of the Indian Penal Code, and shall be officially subordinate to such authority as the Local Government may, from time to time, indicate in this behalf.

XLV of 1860.

(*4*) The Local Government may make rules assigning and regulating the duties of Government Inspectors under this Act.

[38 Vic., c. 17, s. 55.]

Powers of Government Inspectors.

**30.** (*1*) A Government Inspector shall, within the local area for which he is appointed, make such examinations and enquiries as may be necessary to ascertain whether this Act and the rules under this Act are complied with, and may for that purpose—

(*a*) enter, inspect and examine any factory or magazine and every part thereof, at all times by day and night, but so as not to unnecessarily impede or obstruct the work in the factory or magazine, and make enquiries as to the observance of this Act and the rules under this Act, and as to all matters and things relating to the safety of the public or of the persons employed in or about the factory or magazine;

(*b*) enter, inspect and examine any registered place, and every part thereof, in which any explosive is kept or is reasonably supposed by him to be kept, at all reasonable times by day, and

(*c*) require the occupier of any factory, magazine or registered place which he is entitled under this section to enter, or any person employed by the occupier therein, to give him samples of any explosive or ingredients of an explosive therein, or of any substance therein, the keeping of which is restricted or regulated by or under this Act or the rules under this Act, or of any substance therein which he believes to be an explosive, or such ingredients or substance.

(*2*) The occupier of every factory, magazine or registered place referred to in this section, his agents and servants, shall furnish the means required by the Inspector as necessary for any entry, inspection, examination or inquiry under this section.

[38 Vic., c. 17, s. 56.]

Notice by Government Inspector to remedy dangerous practices.

**31.** (*1*) If in any matter (not provided for by any express provision of this Act or of the rules under this Act) a Government Inspector finds that any factory or magazine, or any part thereof, or any thing or practice therein or connected therewith, is unnecessarily dangerous or defective, so as in his opinion to tend to endanger the public safety or the bodily safety of any person, the Inspector may require the occupier of the factory or magazine to remedy the same.

(*2*) Where the occupier objects to comply with a requisition under this section, he may, within one month from the date of the requisition, apply to any Magistrate within the local limits of whose jurisdiction the factory or magazine is, for a decision in the matter; and the decision of the Magistrate shall be final.

(*3*) If the occupier does not apply to a Magistrate as provided by sub-section (2), he shall be bound to comply with the requisition of the Inspector.

(*4*) No person shall be precluded by any contract from doing such acts as may be necessary to comply with a requisition or decision under this section, and no person shall be liable under any

contract to any penalty or forfeiture for doing any such act if he gave notice of the contract to the Inspector at or before the time at which the Inspector made the requisition, or to the Magistrate before his decision was given.

[38 Vic., c. 17, s. 58 (b).]

Inspection in ports and of ships.

**32.** (*1*) The Local Government may, by notification, order any person acting as an Inspector or otherwise for the purpose of the Acts relating to merchant shipping for the time being in force to inquire into the observance of this Act or the rules under this Act in any port or in the case of any ship, and generally to act in that port and with respect to ships as a Government Inspector under this Act.

(*2*) Each person so ordered shall, while the order is in force, have for that purpose the same powers and authorities as he has under the Acts in pursuance of which he was originally appointed Inspector, and also the powers and authorities of a Government Inspector under this Act and the rules for the time being in force under it.

(*3*) The Local Government may revoke any order under this section.

[38 Vic., c. 17, s. 75.]

Inspection of wharf, carriage, ship or boat with explosives in transit.

**33.** Any Government Inspector, or any officer who may by name or in right of his office be authorized by the Local Government in this behalf, may, if he has reasonable cause to suppose an explosive to be for the purpose of or in course of conveyance on or in the wharf, carriage, ship or boat of any carrier, or of the occupier of any factory or magazine or of the importer of any explosive, enter, inspect and examine at any time the wharf, carriage, ship or boat for the purpose of ascertaining whether the provisions of this Act or the rules under this Act with respect to the conveyance, loading, unloading and importation of an explosive are complied with, but so as not to unnecessarily obstruct the work or business of the carrier, occupier or importer.

(*B*).—*Accidents.*

[38 Vic., c. 17, s. 63: Cf. Act IV of 1879, s. 6.]

Notice to be given of accidents.

**34.** Whenever there occurs in or about, or in connection with, any factory, magazine or registered place, or any carriage, ship or boat, either conveying an explosive, or on or from which an explosive is being loaded or unloaded,—

(*a*) any accident by explosion or by fire attended with loss of human life or serious injury to person or property, or

(*b*) any such accident of a description usually attended with such loss or injury, or

(*c*) any accident of any other description which may be prescribed in this behalf,

the occupier of the factory, magazine or registered place, or the master of the ship or boat, or the person in charge of the carriage, as the case may be, shall forthwith give notice thereof to the nearest Magistrate.

[38 Vic., c. 17, s. 66.]

Inquiry into accidents.

**35.** (*1*) If in any such case an inquiry into the cause of the accident appears to the Magistrate to whom notice has been given under section thirty-four to be necessary, the Magistrate may either himself make the inquiry or direct a Government Inspector or a Magistrate subordinate to himself to make the inquiry.

(*2*) Any Magistrate or Government Inspector making an inquiry under this section shall, for the purposes of conducting the inquiry, have all the powers which he would have in holding an inquiry into an offence under the Code of Criminal Procedure. X of 1882.

(*C*).—*Power of Search.*

[38 Vic., c. 17, s. 73.] [Cf. Act I of 1878, s. 14.]

Power of Government Inspector and certain other officers to search for explosives.

**36.** (*1*) Where any Government Inspector, or any officer who may by name or in right of his office be authorized by the Local Government in this behalf, has reasonable cause to believe that any offence has been or is being committed with respect to an explosive in any place (whether a building or not, or a carriage, boat or ship), or that any explosive is in that place in contravention of this Act or of the rules under this Act, or that the provisions of this Act or of those rules are not duly observed in that place, the Inspector or officer may, on producing, if demanded, in the case of an Inspector, a copy of the notification appointing him, and, in the case of any other officer, of the order authorizing him, enter at any time, and, if need be, by force, that place and every part thereof, and examine the place, and search for explosives therein, and take samples of any explosive or ingredient of any explosive therein, or of any substance reasonably supposed to be an explosive or an ingredient of an explosive which may be found therein.

[Cf. Act I of 1878, s. 16.]

(*2*) All searches under this section shall be made in accordance with the provisions of the Code of Criminal Procedure. X of 1882.

[Cf. Act I of 1878, s. 21: 38 Vic., c. 38, s. 73, last para.]

(*3*) When any officer other than a Government Inspector enters and searches as by this section provided, he shall within forty-eight hours make a full report of all the particulars of the entry and search to his immediate official superior.

[38 Vic., c. 17, s. 35, paragraph 3.]

Power of Government Inspector and certain officers to stop, enter, inspect and examine carriages or boats in case of emergency.

**37.** (*1*) If any Government Inspector or any officer of any of the Departments of Excise, Police, Customs, Salt, Opium or Revenue, superior in rank to a peon or constable, has reasonable cause to suppose that any offence against this Act or the rules under this Act is being committed in respect of any carriage (not being on a railway) or any boat conveying, loading or unloading any explosive, and that the case is one of emergency, and that delay will be likely to endanger life, he may stop and enter, inspect and examine the carriage or boat, and by detention or removal thereof or otherwise take such precautions as may be reasonably necessary for removing the danger, in like

manner as if the explosive were liable to forfeiture.

[38 Vic., c. 17, s. 75, para. 4.]

(2) Every such officer shall, for the purposes of this section, have the same powers and be in the same position as if he were an officer authorized by the Local Government under section thirty-six to search for explosives.

*(D).—Power of Seizure and Detention.*

[38 Vic., c. 17, s. 74.]

**38.** Where any Government Inspector, or any officer authorized as provided by section thirty-six, has reasonable cause to believe that any explosive or ingredient of an explosive or substance found by him is liable to be forfeited under this Act or the rules under this Act, he may seize and detain the same until a Magistrate has determined whether the same is or is not liable to be forfeited.

Seizure and detention of explosives liable to forfeiture.

[38 Vic., c. 17, s. 74.]

**39.** The Local Government may make rules to regulate the seizure and detention of any explosive or ingredient of any explosive or substance under section thirty-eight, and may by those rules empower the Government Inspector or officer seizing the explosive or ingredient or substance—

Power of Local Government to make rules to regulate seizure and detention of explosives.

(*a*) to require the occupier of the place in which it was seized (whether a building or not, or a carriage, boat or ship) to detain it in that place or in any place under the control of the occupier; or

(*b*) to remove it in such manner and to such place as will in the opinion of the Government Inspector or officer least endanger the public safety, and there to detain it; or

(*c*) in any case which appears to the Government Inspector or officer to be urgent and fraught with serious public danger, to take a sample of it and cause the rest of it to be destroyed or otherwise rendered harmless.

(1 2).

**40.** The proceedings before a Magistrate for determining whether an explosive or ingredient of an explosive or substance is or is not liable to forfeiture shall be commenced as soon as practicable after the seizure.

Proceedings before Magistrate to be commenced as soon as practicable.

Cl. (3).]

**41.** The receptacles containing an explosive or ingredient of an explosive or substance may be seized, detained and removed in like manner as the contents thereof.

Power to seize receptacles.

Cl. (4).]

**42.** The Government Inspector or officer seizing an explosive or ingredient of an explosive or substance may use for the purposes of the removal and detention thereof any ship, boat or carriage in which it was seized, and any tug, tender, engine, tackle, beasts and accoutrements belonging to, or drawing or provided for drawing, that ship, boat or carriage, and shall pay to the owner a reasonable compensation for the use, to be determined in case of dispute by a Magistrate, and to be recovered in like manner as a fine under this Act.

Power to use ship, boat, carriage, &c., in which explosives are seized.

*(E).—Samples.*

[38 Vic., c. 17, s. 76.]

**43.** When a Government Inspector or other officer in pursuance of this Act or the rules under this Act takes samples of any explosive or ingredient of an explosive or substance, he shall pay for or tender payment for those samples to such amount as he considers to be the market-value thereof; and the occupier of the place in which, or the owner of the bulk from which, the sample was taken may recover any excess of the real value over the money so paid or tendered, and any amount so tendered, from the Inspector or other officer taking the sample, as a debt, in the Small Cause Court, or, if there is no Small Cause Court, in the Civil Court having jurisdiction.

Payment for samples of explosives.

## CHAPTER IX.

### PENALTIES AND LEGAL PROCEEDINGS.

[38 Vic., c. 17, s. 4.]

**44.** If an explosive is manufactured in contravention of section eight, or of a notification under section twenty-eight—

Penalty for illegal manufacture of explosives.

(*a*) the explosive and all the ingredients of the explosive, which may be found either in or about the place at which the explosive is manufactured, or in the possession, or under the control, of any person convicted under this section, shall be liable to be forfeited; and

(*b*) the person manufacturing the explosive shall be punished with fine which may extend to one thousand rupees for each day on which he so manufactures.

[38 Vic., c. 17, s. 5.]

**45.** If any explosive is kept in contravention of section nine, or of a notification under section twenty-eight—

Penalty for illegal keeping of explosives.

(*a*) all the explosives found in the place at which the explosive is kept shall be liable to be forfeited; and

(*b*) the occupier of that place, and also any person guilty of keeping the explosive, shall each be punished with fine which may extend to one rupee for each pound of the explosive so kept.

[38 Vic. c. 17, s. 10; but cf. s. 9 as to amount of penalty.]

**46.** In the event of a breach in any factory of any of the rules under section ten for the regulation of factories—

Penalty for breach of rules for regulation of factories.

(*a*) the explosive or ingredients thereof with respect to which, or being in any building or machine with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend in the case of a first breach to five hundred rupees, and in the case of any subsequent breach to one thousand rupees, and to five hundred rupees in addition for each day during which the breach continues.

[38 Vic., c. 17, s. 17, which relates to stores.]

**47.** In the event of a breach in any magazine of the rules for the regulation of magazines under section thirteen, or of any rules under section eleven or section twelve—

Penalty for breach of rules for regulation of magazines.

(*a*) the explosive with respect to which, or being in the magazine when, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend in the case of a first breach to one hundred rupees, and in the case of any subsequent breach to one hundred rupees in addition for each day during which the breach continues.

[38 Vic., c. 17, s. 22.]

**48.** In the event of a breach in any registered place of the rules for the regulation of registered places under section fourteen, or of any rules under section eleven—

Penalty for breach of rules for regulation of registered places.

(*a*) the explosive with respect to which, or being in any house, building, place, safe or receptacle with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend to one rupee for each pound of the explosive with respect to which, or being at the place in which, the breach was committed.

[38 Vic., c. 17, ss. 30, 32.]

**49.** If any explosive is hawked, sold or exposed for sale in contravention of section sixteen or section eighteen—

Penalty for illegal sale of explosives in public places.

(*a*) the explosive which is so exposed for sale, and any explosive found in the possession of any person convicted under this section, shall be liable to be forfeited; and

(*b*) the person hawking or selling the explosive, or exposing it for sale, shall be punished with fine which may extend to twenty rupees.

[38 Vic., c. 17, s. 31.]

**50.** Whoever sells an explosive in contravention of section seventeen shall be punished with fine which may extend to fifty rupees.

Penalty for selling explosives to children.

[38 Vic., c. 17, s. 40 (8).]

**51.** If the name of the explosive affixed to the outermost receptacle containing an explosive is materially false, the person selling the explosive or exposing it for sale shall be punished with fine which may extend to five hundred rupees.

Penalty for affixing false name to receptacle containing explosives.

[38 Vic., c. 17, s. 33.]

**52.** In the event of a breach of any rules as to the packing of explosives under section nineteen—

Penalty for breach of rules as to packing of explosives.

(*a*) the explosive with respect to which the breach is committed shall be liable to be forfeited; and

(*b*) the person guilty of the breach shall be punished with fine which may extend to two hundred rupees.

[17 & 18 Vic., c. 7, s. 40 (9), (c); Cf. Indian Penal Code, s. 186.]

**53.** Whoever resists the conservator, or other officer named in the rules under section twenty, or any person acting under the orders of the conservator, when causing any ship, boat, carriage or explosive to be removed under section twenty-one, shall be punished with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both.

Penalty for obstructing conservator or other person.

[38 Vic., c. 17, s. 40 (9) (*a*).]

**54.** In the event of a breach of the provisions of section twenty-five with respect to the importation of an explosive, or of the provisions of a license to import an explosive granted under section twenty-six—

Penalty for breach of provisions as to importation of an explosive or of the provisions of an importation-license.

(*a*) the explosive with respect to which, or being in any ship or boat with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the owner and master of the ship or boat, and the licensee or person to whom the explosive is delivered, shall each be liable to a fine which may extend in the case of a first offence to one thousand rupees, and in the case of any subsequent offence to two thousand rupees.

[38 Vic., c. 17, s. 43.]

**55.** If any explosive is imported or sold in contravention of a notification under section twenty-eight—

Penalty for importing or selling specially dangerous explosives in contravention of notification.

(*a*) the explosive shall be liable to be forfeited;

(*b*) the owner and master of the ship in which the explosive is imported shall each be punished with fine which may extend to five rupees for every pound of the explosive brought in the ship; and

(*c*) the person selling and the person buying the explosive shall each be punished with fine which may extend to five rupees for each pound of the explosive sold.

**56.** If any explosive is conveyed in contravention of a notification under section twenty-eight—

Penalty for conveying specially dangerous explosives in contravention of notification.

(*a*) the explosive shall be liable to be forfeited; and

(*b*) the master of the ship or boat or the person in charge of the carriage in which the explosive is conveyed, as the case may be, shall be punished with fine which may extend to five rupees for each pound of the explosive so conveyed.

Cf. Act I of 1878, s. 18.

**57.** Any Government Inspector or officer authorized under section thirty-three or section thirty six, or referred to in section

Penalty for vexatious entries, searches and seizures.

thirty-seven, who—

(*a*) without reasonable ground of suspicion enters or searches, or causes to be entered or searched, any building, carriage, boat or ship, or

(*b*) vexatiously and unnecessarily seizes the property of any person on the pretence of seizing or searching for any explosive or other thing liable to be forfeited under this Act or the rules under this Act,

shall for every such offence be punished with fine which may extend to five hundred rupees.

[38 Vic., c. 17, s. 77.]

Penalty on, and removal of, trespassers.

**58.** Whoever enters without permission or otherwise trespasses on any factory or magazine, or the land immediately adjoining thereto which is occupied by the occupier of that factory or magazine, shall be punished with fine which may extend to fifty rupees, and may be forthwith removed from the factory, magazine or land by any Police-officer, or by the occupier of the factory or magazine, or by any agent or servant of, or other person authorized by, the occupier.

[38 Vic., c. 17, s. 77, para. 2.]

Penalty on persons committing act tending to cause explosion or fire in or about factories or magazines.

**59.** Whoever, other than the occupier of, or a person employed in or about, a factory or magazine is found committing any act which tends to cause explosion or fire in or about a factory or magazine shall be punished with fine which may extend to five hundred rupees.

[38 Vic., c. 17, s. 77, para. 3.]

Occupier to put up notices warning persons of liability under last two sections.

**60.** The occupier of every factory or magazine shall put up in some conspicuous place or places a notice or notices warning all persons of their liability to penalties under the last two foregoing sections; but the absence of a notice or notices shall not exempt a person from punishment under those sections.

[38 Vic., c. 17, s. 97, proviso.]

Penalty for trespass, &c., on Government manufactory or store.

**61.** Whoever enters without permission, or otherwise trespasses on, any place in the occupation of the Government where any explosive is manufactured or stored, or the land immediately adjoining thereto in the occupation of the Government, or of the officer or person in charge of that place, and any person found committing any act tending to cause explosion or fire in or about any such place, shall be liable to the like penalty, and may be removed and arrested in like manner, as if the place were a factory or magazine to which this Act applies.

[38 Vic., c. 17, s. 78.]

Power to arrest without warrant persons committing dangerous offences.

**62.** Whoever is found committing any act for which he is punishable under this Act or the rules under this Act, and which tends to cause explosion or fire in or about any factory, magazine, railway or port, or any carriage, ship or boat, may be apprehended without a warrant by a Police-officer, or by the occupier of, or the agent or servant of, or other person authorized by the occupier of, that factory or magazine, or by any agent or servant of, or other person authorized by, the railway-administration or conservator of the port, and be removed from the place where he is arrested, and conveyed as soon as conveniently may be before a Magistrate.

[38 Vic., c. 17, s. 83.]

Penalty for pulling down, injuring or defacing notices.

**63.** Whoever without due authority pulls down, injures or defaces any notice, copy of rules or document when affixed in pursuance of this Act or of the rules under this Act, shall be punished with fine which may extend to twenty rupees.

[38 Vic., c. 17, s. 87.]

Exemption of occupier, &c., from penalty on proof of offence having been committed by another person.

**64.** (*1*) Where any offence under this Act or the rules under this Act, for which the occupier of any factory, magazine or registered place is liable to a penalty or forfeiture, has in fact been committed by some other person, that other person shall be punished with fine which may extend to two hundred rupees.

(*2*) Where any occupier is liable under this Act or the rules under this Act to a penalty or forfeiture for an offence committed by some other person, the occupier shall be exempt from the penalty or forfeiture on proving that he had supplied proper means and issued proper orders for the observance, and used due diligence to enforce the observance, of this Act and the rules under this Act, and that the offence in question was actually committed by some other person without his connivance, and, if the actual offender is alive, that he has taken all practicable means in his power to prosecute the offender to conviction.

[38 Vic., c. 17, s. 87, para. 4.]

(*3*) The occupier or other accused, when charged in respect of any offence committed by another person, may, if he think fit, be examined as a witness in the case.

[38 Vic., c. 17, s. 87, para. 5.]

(*4*) Where any offence under this Act for which any warehouseman, or carrier, or the owner or master of any ship, boat or carriage is liable to a penalty or forfeiture, has in fact been committed by some other person, this section shall apply in like manner as if the warehouseman, carrier, owner or master were such an occupier as in this section mentioned.

[38 Vic., c. 17, s. 88.]

Exemption of carrier or owner or master of ship where consignor, &c., is in fault.

**65.** Where a carrier, or an owner or master of a ship or boat, is prevented from complying with this Act or the rules under this Act by the wilful act, neglect or default of the consignor or consignee of the explosive, or other person, or by the improper refusal of the consignee or other person to accept delivery of the explosive, the consignor, consignee or other person, who is guilty of that wilful act, neglect, default or refusal shall be liable to the same penalty to which the carrier, owner or master is

liable for a breach of this Act or those rules; and his conviction shall exempt the carrier, owner or master from any penalty or forfeiture under this Act or those rules.

[38 Vic., c. 17, s. 96.]

**Provisions as to forfeiture.**

**66.** (*1*) In any case in which any explosive or ingredient of an explosive or any substance is liable to be forfeited under this Act or the rules under this Act, the convicting Magistrate may direct the whole or any part of the explosive, ingredient or substance, together with the receptacles containing the explosive, ingredient or substance to be forfeited.

[38 Vic., c. 17, s. 89, para. 2.]

(*2*) Where any explosive or ingredient of an explosive or any substance is alleged to be liable under this Act or the rules under this Act to be forfeited, proceedings may be instituted in the Court of any Magistrate, within the local limits of whose jurisdiction the explosive, ingredient or substance is, against the owner of the explosive, ingredient or substance, for the purpose only of enforcing the forfeiture; and, where the owner is unknown or cannot be found, the Magistrate may cause a notice to be published in such manner as he thinks fit stating that, unless cause is shown to the contrary at the time and place named in the notice, the explosive, ingredient or substance will be forfeited; and if cause is not so shown, the Magistrate, after hearing the owner or any person on his behalf (if present), may order all or any part of the explosive, ingredient or substance to be forfeited.

[38 Vic., c. 17, s. 89, para. 1.]

(*3*) Where a Court before whom a person is convicted of an offence against this Act or the rules under this Act has power to order a forfeiture of any explosive or ingredient of an explosive or any substance owned by, or found in the possession or under the control of, that person, the Court may, if it thinks fit, in lieu of ordering a forfeiture of that explosive, ingredient or substance, sentence that person, in addition to any other punishment, to a fine which may extend to such sum as appears to the Court to be the value of the explosive, ingredient or substance.

[38 Vic., c. 17, s. 95.] [Cf. Act XII of 1875, s. 7.]

**Distress of ship or boat.**

**67.** Where the owner or master of a ship or boat is adjudged to pay a fine for an offence committed with or in relation to that ship or boat, the Court may, in addition to any other power it may have for the purpose of compelling payment of the fine, direct it to be levied by distress and sale of the ship or boat, and the tackle, apparel and furniture thereof, or so much thereof as is necessary.

## CHAPTER X.

### SUPPLEMENTAL.

[38 Vic., c. 17, s. 73.]

**Provision of magazine by municipal committee.**

**68.** (*1*) When any municipal committee satisfies the Local Government that the erection of a magazine by the committee either within or without the limits of the municipality would conduce to the safety of the public within the limits of the municipality, and would not be injurious to the public without those limits, the Local Government may grant to that municipal committee a license under this Act for a magazine.

(*2*) The municipal committee may, for the purpose of any license under this section, acquire any land or right over land, or appropriate any land or right belonging to it, and acquire or build a magazine, and may maintain and manage the magazine, and may charge for the use by persons of the magazine such reasonable sums as it may, from time to time, with the approval of the Local Government, fix.

(*3*) The amount of all sums charged, and the amount of all expenditure incurred, for the purposes of this section by any municipal committee shall respectively be credited to, and paid from, the municipal fund. [Cf Act XIII of 1880, s. 23.]

(*4*) When any land is required by a municipal committee for the purposes of this section, if the municipal committee cannot agree with the owner for the purchase thereof, the Local Government may, on the request of the municipal committee, proceed to acquire it under the provisions of the Land Acquisition Act, 1870; and, on payment by the municipal committee of the compensation awarded under that Act, the land shall vest in it for the purposes of this section. [Cf. Act XV of 1879, s. 13: Act XV of 1873, s. 39.] X of 1870

(*5*) In this section "municipal committee" includes a municipal corporation or a body of municipal commissioners constituted by or under the provisions of any enactment for the time being in force. [Cf. Act XI of 1881, s. 2.]

**Provisions in favour of the keeping and conveyance of percussion-caps, safety-fuzes for blasting, fog-signals and prescribed explosives.**

**69.** (*1*) A person shall not be required by this Act or the rules under this Act to take out a license or to register any premises for the keeping of percussion-caps, or safety-fuzes for blasting, or fog-signals kept by any railway-administration for use on the railway of that railway-administration, or any prescribed explosive. [38 Vic., c. 17, s. 50.]

(*2*) It shall not be obligatory on a railway-administration making rules under section twenty-two to make any rules with respect to the conveyance, loading, unloading or keeping of any explosive to which this section applies.

(*3*) The Governor General in Council may, by notification, exempt any explosive to which this section applies, or any description thereof, from any other of the provisions of this Act or from any of the rules under this Act, or may declare that a license shall be required for the keeping of any explosive to which this section applies, or any description thereof, or that rules shall be made with respect to the loading, unloading, conveyance or keeping thereof.

**Exemption of safety-cartridges for private use.**

**70.** Nothing in this Act or in the rules under this Act shall apply to the filling or conveying for private use, and not for sale, of any safety-cartridges to the amount allowed by this Act or those rules to be kept for private use. [38 Vic., c. 17, s. 41.]

[38 Vic., c. 17, s. 100.]

**71.** Nothing in this Act or the rules under this Act shall render liable to any penalty or forfeiture the owner or master of any ship or boat, or any carrier or warehouseman, or the person having charge of any carriage, for any act done in breach of this Act or those rules, if he proves that, by reason of stress of weather, inevitable accident or other emergency, the doing of that act was under the circumstances necessary and proper.

Saving for owner or master of ship, carrier and others in case of emergency.

[38 Vic., c. 17, s. 102.]

**72.** Nothing in this Act or the rules under this Act shall—

Saving as to liability under other law.

(*a*) exempt, save as is in this Act or those rules expressly provided, any person from any suit which might, but for the provisions of this Act or those rules, have been brought against him; or

(*b*) prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act or those rules, or from being liable under that other law to any other or higher punishment or penalty than that provided by this Act or those rules: provided that no person shall be punished twice for the same offence.

[New: Cf. Act VIII of 1878, s. 198: Act XI of 1878, s. 33.]

**73.** No proceeding other than a suit shall be commenced against any person for anything done in pursuance or in alleged pursuance of this Act or of the rules under this Act until at least one month's previous notice in writing of the intended proceeding and of the cause thereof has been given to him, nor after the expiration of three months from the accrual of that cause.

Notice and limitation of proceedings.

[38 Vic., c. 17 s. 104.]

**74.** The Governor General in Council may, by notification, declare that any substance which appears to the Governor General in Council to be specially dangerous to life or property, by reason either of its explosive properties, or of any process in the manufacture thereof being liable to explosion, shall be deemed to be an explosive within the meaning of this Act and of the rules under this Act; and the provisions of this Act and of those rules (subject to such exceptions, limitations and restrictions as may be specified in the notification) shall accordingly extend to that substance in like manner as if it were included in the term "explosive" in this Act.

Extension of definition of "explosive" to other explosive substances.

**75.** (*1*) Every authority having power to make rules under any section of this Act other than section fifteen or section twenty-nine, shall, before making the rules, publish a draft of the proposed rules for the information of persons likely to be affected thereby.

Procedure for making, publication and confirmation of rules.

(*2*) The publication shall be made, in the case of rules made by the Governor General in Council, in such manner as may in his opinion be sufficient for giving information to persons interested, and in the case of rules made by any other authority, in the prescribed manner.

(*3*) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(*4*) The authority shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(*5*) A rule made under this Act by a Local Government or railway-administration shall not take effect until it is confirmed by the Governor General in Council.

(*6*) Every rule made under this Act by a Local Government and confirmed by the Governor General in Council shall be published in the local official Gazette.

(*7*) Every rule made under this Act by a railway-administration and confirmed by the Governor General in Council, and every rule made under this Act by the Governor General in Council, shall be published in the *Gazette of India*.

(*8*) The publication in the local official Gazette, or, as the case may be, in the *Gazette of India*, of a rule purporting to be made under this Act, shall be conclusive evidence that it has been duly made, and, if it requires confirmation, that it has been duly confirmed.

(*9*) All powers to make rules conferred on any authority by this Act may be exercised from time to time as occasion requires.

**76.** (*1*) Save as provided in section four, all powers to issue notifications conferred by this Act on the Governor General in Council or the Local Government may be exercised from time to time as occasion requires.

Issue and publication of notifications.

(*2*) A notification issued by the Governor General in Council or the Local Government under this Act shall not take effect until it has been published in the *Gazette of India* or the local official Gazette, as the case may be.

## THE SCHEDULE.

(*See section 5.*)

ENACTMENTS REPEALED.

(*a*) *Acts of the Governor General in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| XIII of 1856 ... | For regulating the police of the towns of Calcutta, Madras and Bombay. | Sections seventy to seventy-four (both inclusive). |
| XXI of 1857 ... | To make better provision for the order and good government of the station of Howrah. | Sections eighteen and nineteen. |
| XII of 1875 ... | The Indian Ports Act, 1875 ... | Section seven, clause (*o*), and sections twenty-eight to thirty-four (both inclusive). |

(b) *Acts of the Governor of Fort St. George in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| VIII of 1867 ... | To incorporate the police of the town of Madras with the general police of the Madras Presidency, to extend the jurisdiction of the Town Police Magistrates, and to amend and consolidate the provisions of Act XIII of 1856 and of Act XLVIII of 1860. | Sections forty-five to forty-nine (both inclusive). |
| V of 1878 ... | The City of Madras Municipal Act, 1878. | In section three hundred and twenty-two, the words "gunpowder manufactory, manufactory of fire-works," and the words "explosive or." |
| I of 1880 ... | For regulating the storing, sale and packing for conveyance of gunpowder. | The whole Act. |

(c) *Acts of the Governor of Bombay in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| III of 1872 ... | To provide for the management of the municipal affairs of the city of Bombay and to make better provision for the conservancy and improvement of the city and for the levying of rates, taxes and other income therein. | In section two hundred and twenty-five, the words "gunpowder manufactory, manufactory of fireworks," and the words "explosive or." |
| VI of 1873 ... | Bombay District Municipal Act ... | In section sixty-nine, the words "manufactory of gunpowder or fireworks" and the words "explosive substances or." |

(d) *Acts of the Lieutenant-Governor of Bengal in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| II of 1866 ... | To provide for the better regulation of the police within the suburbs of the town of Calcutta. | Sections thirty-four to thirty-eight (both inclusive). |
| IV of 1866 ... | To amend and consolidate the provisions of Act XIII of 1856 and Act XLVIII of 1860. | Sections fifty-seven to sixty-one (both inclusive). |
| V of 1876 ... | Bengal Municipal Act, 1876 ... | In section two hundred and eighty-five, the words "or explosive substance." |
| V of 1879 ... | The Jute Warehouse and Fire-Brigade Act, 1879. | In section twenty-one, the words "or manufacture." |

## STATEMENT OF OBJECTS AND REASONS.

1. The object of this Bill is to provide a comprehensive law regulating the manufacture, keeping, sale, conveyance and importation of explosives throughout British India. The matter was first brought to the notice of the Government in connection with an application made by the agents of Nobel's Explosives Company, Limited, for permission to import dynamite manufactured by the Company. The Government of Bombay, to whom the application was made, referred the question to a Committee, which reported that the expediency of allowing the importation into that Presidency of dynamite and other preparations of nitro-glycerine was doubtful. The Government of Bombay forwarded a copy of this report to the Government of India with a request that the importation of preparations of nitro-glycerine might be prohibited until further notice by a notification under the Sea Customs Act. Before complying with this request the Government of India thought it well to consult the Governments of Madras and Bengal. In reply, both Governments expressed an opinion that the importation of these explosives should not be forbidden. The Government of Bengal further submitted a draft set of rules to regulate the importation, package, transport and storage of dynamite and similar substances, together with a report which had been prepared by a Committee appointed by the Lieutenant-Governor to consider the entire subject. This Committee, while recommending that the draft rules should be published as rules under the Indian Arms Act, 1878, suggested the enactment of a comprehensive Imperial Act of a similar nature to the English Explosives Act, 1875 (38 Vic., c. 17), which would in a convenient and compendious Code deal with the subject of explosives in its entirety and furnish the public, as well as Government officials, with an easy means of ascertaining their duties, responsibilities and powers respecting articles which by their inflammable, explosive or dangerous nature imperil the public safety.

2. It appears to the Government of India that it would be an abuse of the powers conferred by the Indian Arms Act, 1878, to make rules of the nature of those submitted by the Bengal Committee under that Act. There are, no doubt, powers conferred by the Indian Arms Act which might, at first sight, seem to authorise the making of such rules; but the object to which such rules are directed is altogether different from that of the Act. The object of the Arms Act was to enable the Government more effectually to prevent arms and ammunition (which term under section 4 includes gun-cotton, dynamite, lithofracteur and other fulminating substances) from getting into the hands of persons who would make a bad use of them. In other words, the main object of that Act was to *restrict* the possession of arms and ammunition. But the main object of the rules prepared by the Bengal Committee is not restrictive. Their object is to *protect* the public against the dangerous nature of the explosives to which they relate by regulating all dealings with those explosives. If they are restrictive, it is only so far as is necessary to carry out their protective object. Under these circumstances, it appears to the Government that the proposed rules could not properly be published under the Indian Arms Act, 1878.

3. Nor does it appear that there is any other enactment, as the law at present stands, under which rules of the nature of those prepared by the Bengal Committee can be issued. Under he existing law, the only enactments relating to this subject are to be found in various fragmentary provisions, dealing with gunpowder and fireworks only, which are in force in the Presidency-towns and in certain municipalities and ports. It appears to the Government that it is unsatisfactory that the law should be in this state at a time when dynamite and other compounds of nitro-glycerine are rapidly taking the place of gunpowder in all works where blasting in necessary. Already these explosives have been used to a considerable extent in connection with various works undertaken both by the Government and by private enterprize throughout India; and it is only natural to suppose that, as their superiority to gunpowder becomes more widely known, their use will increase.

4. Under these circumstances, the suggestion of the Committee that an Act drawn on the model of the English Explosives Act, 1875, and dealing comprehensively with the whole subject of explosives, should be added to the Indian Statute-book, recommends itself to the Government of India, as being the only satisfactory method of treating the subject. Accordingly the present Bill has been prepared. It embodies such of the provisions of the English Act as are in the opinion of the Government necessary in this country. In addition to the omission from the Bill of certain provisions of the English Act, the Bill further differs from that Act in that, in accordance with the well-recognized principle of Indian legislation, it confers power on the Local Governments to provide by means of rules, adapted to the varying local circumstances of the provinces under their administration, for many points for which there are specific provisions in the body of the English Act.

5. The Bill is divided into ten chapters.

Chapter I (Preliminary) contains the usual preliminary matter. Section 2 saves from the Act the manufacture, packing, sale, conveyance or importation of explosives by the Government, and section 3 saves the provisions of the Indian Arms Act, 1878. Under section 4, the Act will not come into force until after the publication of a notification by the Governor-General in Council; but, in order to prevent the inconvenience which would arise if the Act were brought into force before the notifications, rules, orders and appointments necessary for its efficient working had been made, sub-section (2) gives power to make these at any time after the passing of the Act, though they are not to take effect until the Act comes into force. By section 5 and the schedule are repealed the enactments which at present deal with the subject-matter of

the Bill, with the exception of the Indian Arms Act, 1878, and the provisions to be found in the Andaman and Nicobar Islands Regulation, 1876. The provisions of the former Act relating to explosives have been left unrepealed for the reasons which have led the Government of India to decide that the rules framed by the Bengal Committee cannot be passed under it, namely, because the objects of the Act and of the Bill are different. The provisions of the Andaman and Nicobar Islands Regulation, 1876, have not been repealed because, considering the peculiar nature of that settlement, it seems inconvenient to interfere with any of the rules which are at present contained in that Regulation. Though the proposed Act will extend to the Andamans, its provisions will be practically a dead-letter in those islands.

6. Chapter II lays down the general law as to the manufacture and keeping of explosives prescribing the places at which an explosive may be manufactured or kept. It is to be read subject to certain exceptions in the Supplemental Chapter (X).

7. Chapter III deals with the licensing and regulation of factories and magazines, and the registration and regulation of registered places, and confers power on the Local Government to make rules on all necessary matters. A factory under the Act is a place licensed for the manufacture of an explosive; a magazine is a place licensed for the keeping of an explosive; and a registered place is a place registered for the keeping of an explosive. Magazines differ from registered places in that the former are places devoted exclusively to the keeping of explosives and the receptacles for or tools or implements for work connected with the keeping of explosives, whilst the latter are places, *e g*, general stores or shops, not devoted exclusively to the keeping of explosives but in which explosives may be kept. Sections 11 and 12 enact certain provisions in favour of the occupiers of magazines and registered places; the former section enabling the occupiers of magazines and registered places to make cartridges without taking out a factory-license, and the latter enabling the occupiers of magazines to adapt or prepare explosives for use in their own mines or quarries without any such license. Section 15 imposes on the occupier of a factory or magazine the duty of making special rules for the regulation of the workmen in his factory or magazine.

8. Chapter IV relates to the sale of explosives. Section 16 prohibits explosives being hawked, sold or exposed for sale on highways or public places; section 17 prohibits the sale of an explosive to a child under 13; and section 18 prescribes the manner in which an explosive exposed for sale or sold is to be packed and labelled.

9. Chapter V treats of matters relating to the conveyance of explosives. Under section 19, the Governor General in Council may make rules as to the packing of explosives for conveyance. Under section 20, the Local Government may make rules to regulate the conveyance, loading, unloading and keeping of explosives within a port; and section 21 confers certain powers on the Conservator or other officer named in such rules in the event of their breach. Under section 22, Railway-administrations are directed to make rules for their own railways respectively. Under section 23, the Governor General in Council is empowered to make rules in any case in which rules under section 20 or section 22 do not apply. By section 24 the authority making rules under sections 20, 22 and 23 respectively is empowered to annex to a breach of any rule, or attempt to commit a breach of any rule, a penalty which may consist of a fine which may extend to two hundred rupees for each breach and to one hundred rupees for each day during which the breach continues, and of forfeiture of all or any part of the explosive in respect of which the breach is committed.

10. Chapter VI regulates the importation of explosives other than gunpowder, cartridges made with gunpowder, percussion-caps, fireworks, and any prescribed explosive, and prohibits their importation except under a license. The Governor General in Council is given power (section 26) to regulate all matters connected with the grant of such licenses, and the officers of sea-customs are given similar power (section 27) with regard to these explosives as they have with regard to any article on the importation of which restrictions are for the time being imposed by the law relating to sea customs.

11. Chapter VII confers special powers on the Governor General in Council to regulate or prohibit all dealings with any explosive which in the opinion of the Governor General in Council is specially dangerous to the public safety; and the officers of sea customs are given like powers with regard to any such explosive as they are given under section 27 with regard to the importation of the explosives referred to in section 25.

12. Chapter VIII (Government supervision) first provides for matters relating to inspection. The Local Government is empowered (section 29) to appoint Government Inspectors, and to make rules to assign and regulate their duties. Section 30 defines the general power of these officers as to entry, inspection, and examination of factories magazines and registered places, and the taking of samples from the occupiers. Section 31 empowers the Government Inspector to require the occupier of any factory or magazine to remedy anything connected with his factory or magazine which is in the opinion of the Inspector unnecessarily dangerous or defective, and provides for a reference to the nearest Magistrate when the occupier objects to comply with the inspector's requisition. Section 32 deals with inspection in ports and of ships, and section 33 provides for the inspection of a wharf, carriage, ship or boat on or in which an explosive is reasonably supposed by a Government Inspector or other officer to be for the purpose of or in course of conveyance.

The chapter secondly provides (section 34) for the giving of notice of accidents arising from explosion or fire occurring in or about or in connection with any factory, magazine or registered place, or any carriage, ship or boat either conveying an explosive or on or from which

an explosive is being loaded or unloaded, and (section 35) for inquiry into the cause of such accidents when necessary.

Thirdly, the chapter deals with power of search. It empowers (section 36) Government Inspectors and officers authorised by the Local Government to enter and search all places where they have reason to believe that any offence has been or is being committed with respect to an explosive, or that any explosive is in contravention of the Act, or that the provisions of the Act are not duly observed. Such searches are to be made in accordance with the Code of Criminal Procedure, and when made by any officer other than a Government Inspector are to be reported by him to his official superior within 48 hours. Section 37 gives special power to Government Inspectors and other officers to stop carriages or boats in case of emergency.

Fourthly, the chapter treats of seizure and detention of explosives. Section 38 authorizes the seizure and detention of any explosive liable to forfeiture, and section 39 gives the Local Government power to make rules to regulate such seizure and detention. Section 40 declares that the proceedings before a Magistrate with regard to any such seizure shall be commenced as soon as possible. Section 41 gives power to seize the receptacle in which the explosive was found, and section 42 to use the ship, boat, carriage, &c., in which the explosive was seized.

Lastly, the chapter (section 43) provides for the payment for samples of explosives taken by Government Inspectors or other officers under the Act.

13. Chapter IX deals with the penalties and legal proceedings.

The penalties for breaches of the provisions of the Act and the rules made under it are restricted to forfeitures and fines, and the only instance in which the Act prescribes imprisonment as a punishment is (section 53) that of resistance to a public officer.

14. With regard to legal proceedings, section 64 provides for the exemption of an occupier of a factory, magazine or registered place, and of a warehouseman, carrier or owner or master of a ship, boat, or carriage from penalty on proof of another being the real offender. Under section 65, a carrier or owner or master of a ship or boat is exempted from penalty when he is prevented from complying with the law by the act or default of the consignor or consignee of the explosive or some other person and the consignor or consignee or other person is convicted (as it is provided he may be) under the Act.

Section 66 confers a general power on Magistrates to order forfeiture in all cases in which explosives are liable to be forfeited, and provides that proceedings may be taken for the purpose only of inflicting a forfeiture The same section empowers the Court to inflict an additional fine in lieu of forfeiture of the explosive; and section 67 provides for levy of a fine imposed on the owner or master of a ship by distress of the ship.

15. Chapter X (Supplemental) provides for several miscellaneous matters. Section 68 empowers Municipal Committees to provide magazines for the use of the public; section 69 enacts certain provisions in favour of the keeping and conveyance of percussion-caps, safety-fuses for blasting, fog-signals and prescribed explosives. Section 69 exempts railway-administrations from the obligation to make rules with regard to such explosives, and empowers the Governor General in Council to exempt such explosives altogether from the Act. By section 70 the filling and conveying for private use, and not for sale, of safety-cartridges are excepted from the application of the Act. Section 71 exempts the owner or master of a ship and a carrier or warehouseman or any person in charge of a carriage from punishment when an act is done by him in breach of the provisions of the Act in a case of emergency. Section 72 contains the usual provision saving liability to civil suit or prosecution under other laws. Section 73 deals with notice and limitation of proceedings. Section 74 empowers the Governor General in Council to extend the definition of "explosive" to other explosive substances; and sections 75 and 76 treat of general matters connected with the issue and publication of notifications and rules. Under section 75, proposed rules must be published as drafts before they are finally made, and the authority that makes the rules is directed to receive and consider any criticisms or suggestions which may be made by persons interested.

CALCUTTA;
*The 1st January, 1883.*

### GOVERNMENT OF INDIA.

### LEGISLATIVE DEPARTMENT.

**ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.**

The Council met at Government House on Friday, the 5th January, 1883.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding.*
His Honour the Lieutenant-Governor of Bengal, C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Mahárájá Sir Jotíndra Mohan Tagore Bahádur, K.C.S.I.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble Rájá Siva Prasád, C.S.I.
The Hon'ble W. W. Hunter, LL.D., C.I.E.
The Hon'ble Sayyad Áhmad Khán Bahádur, C.S.I.
The Hon'ble Durgá Charan Láhá.
The Hon'ble H. J. Reynolds.
The Hon'ble H. S. Thomas.
The Hon'ble R. Miller.

### EXPLOSIVES BILL.

The Hon'ble MR. ILBERT introduced the Bill to regulate the manufacture, keeping, sale, conveyance and importation of explosives. He said that, as he found that the Bill had not been circulated among hon'ble members before last Wednesday, he proposed to postpone until the next meeting the Motion that

the Bill be referred to a Select Committee; but he should like, with the permission of the Council, to take this opportunity of explaining shortly the main provisions of the Bill. The Bill was divided into ten chapters. The first chapter contained the usual preliminary matter. It exempted from the operation of the Act Government establishments, and it contained a clause saving the operation of the Indian Arms Act. As he had said on a previous occasion, the object of the Arms Act and the object of the present Bill were entirely different, and it was desired to keep the measures as distinct from each other as possible; and, therefore, it was provided that nothing in this measure should affect any thing contained in the Arms Act. Then the Bill fixed the date on which the measure was to come into operation. It was to come into operation on a date to be fixed by notification; but power was given to make, at any time before that date, such rules as might be required for its actual working, subject to the proviso that the rules were not to come into effect until the Act itself came into effect.

Chapter II laid down the general law as to the manufacture and keeping of explosives, and prescribed the places at which they might be manufactured or kept. It was to be read subject to certain exceptions in the supplemental chapter (X).

Chapter III dealt with the licensing and registration of factories and magazines, and the registration and regulation of registered places, and conferred powers on the Local Government to make rules on all necessary matters. It would be observed that there were three classes of places to which this chapter applied, namely, factories, magazines and registered places. A factory under the Act was a place licensed for the manufacture of explosives; a magazine was a place licensed for keeping explosives; and a registered place was a place registered for the keeping of explosives. The difference between a magazine and a registered place was this. Magazines were places which were devoted exclusively to the keeping of explosives. Registered places were places like general stores or shops, which were not devoted exclusively to the keeping of explosives, but in which explosives might be kept.

This chapter would, for the present, have a very limited operation. The chapter did not apply to Government establishments, and it appeared, from returns which had been recently obtained from the Local Governments, that, if these establishments were eliminated, the number of places in British India in which explosives were manufactured was trifling. The chapter would, indeed, apply to places in which fireworks were made or kept, but he thought it right to say that there was no intention on the part of Government to interfere, by means of vexatious restrictions, with one of the most popular amusements in India. The object of the Act was simply to protect the public against danger, and, whenever it was found that the existing practice was not attended with any appreciable risk of danger to the public, it would, he presumed, not be interfered with.

Chapter IV related to the sale of explosives. It prohibited explosives being hawked, sold or exposed for sale on highways or public places; it prohibited the sale of an explosive to a child under thirteen; and it prescribed the manner in which an explosive exposed for sale or sold was to be packed and labelled.

Next, Chapter V treated of matters relating to the conveyance of explosives; it empowered the Governor General in Council to make rules as to the packing of explosives; it empowered the Local Governments to make rules to regulate the conveyance, loading, unloading and keeping of explosives within ports, and it directed Railway-administrations to make rules for their own railways. Moreover, it gave supplementary powers to the Governor General in Council to make rules for matters not provided for by the rules framed under the powers last mentioned.

Chapter VI regulated the importation of certain explosives, and prohibited their importation except under a license. The Governor General in Council was

given power to regulate all matters connected with the grant of these licenses, and the officers of Sea Customs were given similar powers with regard to these explosives as they had with regard to any article on the importation of which restrictions were placed by the law for the time being relating to Sea Customs.

Then came Chapter VII, which conferred special powers on the Governor General in Council to regulate or prohibit all dealing with any explosives which, in the opinion of the Governor General in Council, were specially dangerous to the public safety.

Chapter VIII was headed "Government Supervision," and it provided for the appointment, and defined the powers, of Government Inspectors and other similar officers, giving them powers of search and detention in certain cases. It also provided for the giving of notices of accidents arising from explosion or fire in or about any factory, magazine or other place where explosives might happen to be kept.

Chapter IX dealt with penalties and legal proceedings. The penalties for breaches of the provisions of the Act and the rules made under it were restricted to forfeitures and fines, and the only instance in which the Act prescribed imprisonment as a punishment was that of resistance to a public officer.

A supplemental chapter (X) provided for several miscellaneous matters, of which there was only one to which he need draw special attention. Those who had studied the Bill would have seen that, although it appeared to be somewhat long and complicated, it was, in fact, a skeleton measure. What it substantially did was to confer upon different authorities power to make rules relating to a number of different matters. The Government was obliged to adopt this form of legislation in consequence of the great variety of places and circumstances to which the Act would apply, and the necessity for making the Act elastic in order to make it workable. The result was, that the sting of the measure would lie, not in the Act itself, but in the rules made under the Act; and, that being so, they were bound to provide the same kind of opportunity for criticising the rules made under the Act as was given for criticising the Act itself. He had endeavoured to do this by section 75 of the Bill, which ran as follows:—

"Every authority having power to make rules under any section of this Act other than section fifteen or section twenty-nine shall, before making the rules, publish a draft of the proposed rules for the information of persons likely to be affected thereby.

"The publication shall be made, in the case of rules made by the Governor General in Council, in such manner as may, in his opinion, be sufficient for giving information to persons interested, and, in the case of rules made by any other authority, in the prescribed manner.

"There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration."

It would be seen that this section gave general effect to the policy to which he had referred on a recent occasion. He need add no more than this, that, as the Bill was simply an empowering Bill, and as it was important that there should be no unnecessary delay in making the rules which might be found necessary, he should probably ask the Council to take the Bill into consideration and pass it before the end of the Calcutta session. Therefore, he hoped that those who were interested in the measure would give the Council the benefit of their criticisms and suggestions at as early a date as possible.

## CHUTIÁ NÁGPUR ENCUMBERED ESTATES ACT, 1876, AMENDMENT BILL.

The Hon'ble SIR STEUART BAYLEY introduced the Bill to amend the Chutiá Nágpur Encumbered Estates Act, 1876, and moved that it be referred to a Select Committee consisting of the Hon'ble Messrs. Ilbert and Reynolds and the Mover. He said that he had explained the grounds upon which this Bill was rendered necessary at a previous meeting, and, as its provisions were very simple, he thought he need not take up the time of the Council any further by going over the same ground again.

The Motion was put and agreed to.

The Hon'ble SIR STEUART BAYLEY also moved that the Bill and Statement of Objects and Reasons be published in the *Calcutta Gazette* in English and in such other languages as the Local Government might think fit.

The Motion was put and agreed to.

## CENTRAL PROVINCES LOCAL SELF-GOVERNMENT BILL.

The Hon'ble MR. CROSTHWAITE presented the further Report of the Select Committee on the Bill to make better provision for Local Self-government in the Central Provinces.

The Council adjourned to Friday, the 12th January, 1883.

D. FITZPATRICK,
*Secretary to the Government of India,*

## SUMMARY OF THE WEATHER CHARACTERISTICS OF THE RECENT RAINY SEASON (MAY TO OCTOBER) 1882.

*Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department, No. 1 Met., dated Calcutta, the 6th January 1883.*

### Meteorology.

READ the following Summary of the weather characteristics of the recent rainy season (May to October 1882), which has been submitted by the Meteorological Reporter to the Government of India :—

*Summary of the weather from May to October 1882.*

The warm dry weather, usually characteristic of May in Northern India, was interrupted in the first part of the month by considerable oscillations of temperature, due to falls of rain accompanying local storms. These oscillations were particularly noticeable in Bengal on the 5th, over the whole of Northern India between the 9th and 12th, and in the Punjab on the 19th. After this, the storm ceased, the temperature increased, and a dry hot period set in which lasted till the beginning of June, during which, temperatures of 100° and upwards at 10 A. M. were recorded at several stations in the Punjab and the Gangetic provinces; the highest, 109°, at Dera Ismail Khan.

At the same time barometric pressure was also subject to great oscillations over Northern India. It fell in the early days of the month, but the fall was succeeded by a steady rise which, by the 9th, brought the pressure up to an abnormal height; at which point it remained with some slight oscillations, till past the middle of the month. The earliest notice of the approach of the monsoon was the report of heavy rain at Cochin and Colombo on the 19th, and a telegram of the same date from Mangalore to the effect that the monsoon was apparently setting in. From this date onward, the current gradually advanced up the Peninsula; on the 20th it was reported from Mercara, and 18 inches of rain fell at Calicut; on the 22nd the rains set in in Burma, and easterly winds were felt over Northern India; and by the 29th were established up to the Punjab.

On the average of the month, the temperature was some degrees above the normal at Quetta and over the greater part of the Punjab; but elsewhere, with very few exceptions, it was below. The humidity of the atmosphere was below the mean almost everywhere. But although at a majority of the stations the total fall of rain was also below the average, over a large part of the North-Western Provinces, Bengal, and more particularly in the south of the Peninsula, there was more or less excess of rain, the low average humidity notwithstanding.

The first days of June were marked by a severe gale of wind at Bombay, accompanied by 16·5 inches of rain, and dark gloomy weather all along the west coast, denoting the burst of the monsoon. But while the westerly branch of the monsoon was blowing strongly across the Peninsula, and producing an excessive precipitation on the west coast and in the Deccan, and more especially in Coorg, the Bengal branch was feeble, and heavy rain was restricted to the coasts of Arakan and Pegu up to the 12th, when heavy continuous rain fell in Lower Bengal. In Central India and the Upper Provinces, general rain set in about the same date; but cloudy weather, with occasional storms, had prevailed throughout the earlier part of the month in the North-Western Provinces and the Punjab.

After this fall of rain, the pressure gradually increased in the North-Western Provinces and the Punjab, and a break in the rains commenced in the Punjab and speedily extended to the south-east over Rajputana, the Bombay Presidency, Central India, Orissa and Western Bengal. On the 21st rain was general over Bengal, Assam, and Burma, owing to a small cyclonic storm which appeared over the Bay.

A comparison of the monthly mean results shows that the temperature was again above the average in the Punjab, but below it in nearly all other parts of India. The dampness of the air, on the contrary, was generally above the mean. The rainfall returns show that there was a deficiency of rain over the Punjab, Rajputana, Sind, and Gurjat. Elsewhere it was in excess, particularly so at Mercara, where it exceeded the mean by 35 inches.

With the beginning of July, the rains recommenced. On the 12th, two small cyclones appeared—one over Western Rajputana, which subsequently passed to the north-west; the other over Bengal, which, after remaining stationary for a day or two, also passed north-westward, and gave rather heavy rain to parts of Bengal and the North-Western Provinces From this time, until almost the close of the month, the monsoon current continued to blow steadily and with considerable force, on the Bombay coast; while over the head of the Bay of Bengal, a succession of small cyclonic vortices were formed and passed westward or north-westward occasioning heavy rain in the interior.

Except in Assam and Bengal, the temperature of the month was generally low, and the humidity above the average. The rainfall also was considerably in excess, except in the two provinces above specified. At Mercara, the excess over the general average was as much as 59 inches.

The beginning of August was marked by weather conditions similar to those of July. Small cyclonic vortices were formed, and the pressure in Northern India was reduced to much below the mean. The monsoon blew strongly on the west coast, and rain was general, except in the Punjab. On the 5th or 6th a break in the rains set in in Rajputana, Central India, and the western divisions of the North-Western Provinces, which lasted till about the 20th. During this period the barometer was generally high, and the wind from the north-west throughout North-Western India. On the 19th, however, a small cyclonic depression formed over the head of the Bay, and like that which ended the similar break in the rains of August 1880, moved westward across the country, bringing rain over Northern and Central India. From this time till the close of the month, the pressure oscillated unsteadily from day to day, and the weather was cloudy and rainy, but there were no changes of importance.

On the mean of the month the temperature was below the average, though not so generally as in the previous month. The humidity was slightly excessive in parts of the North-Western Provinces, Rajputana, and the south of the Peninsula, but deficient elsewhere; and the rainfall followed the same general rule, the regions of excessive fall being the lower parts of the North-Western Provinces, Upper Bengal, and the southern districts of Madras. At Mercara, however, conditions had changed, and the rainfall was below the mean.

In September, a succession of cyclonic vortices traversed the country from the Bay of Bengal. The first appeared on the coast of the Northern Circars on the morning of the 3rd and on the 4th lay between Vizagapatam and Nagpur, occasioning general though not heavy rain. On the 5th it was lost in a general and brisk decrease of pressure, which occurred over the whole of India. On the 6th and 7th a fresh disturbance formed over the head of the Bay of Bengal, and on the 8th advanced westwards past Gopalpur, towards Nagpur. On the 11th the centre was a little to the north of Neemuch, whence it passed on to the north of Jacobabad and disappeared on the 15th. In the meantime a fresh vortex had appeared on the 14th off the Northern Circars, and on the 15th was approaching the coast between False Point and Masulipatam. During the next two days it travelled *very slowly* northward towards Cuttack, occasioning cloudy skies and heavy rain in its neighbourhood; but on the 19th it had disappeared. After this for a few days the weather remained, on the whole, fine: but on the 25th a general fall of the barometer took place, and a fresh depression appeared over the Bay. It continued in that position till the 29th, when it advanced over Orissa, and on the 30th lay over Chutia Nagpur. It occasioned a considerable amount of cloud and rain within the regions affected by it, but even before its appearance the sky had become cloudless in the Punjab and North-Western Provinces and continued so till the close of the month.

The monthly summaries show that, for the first time in the six months under review, the temperature was generally above the mean in Northern India, but that, in the south, it was still below it. The dampness of the air was in excess in the Punjab, but deficient elsewhere, and the rainfall was generally above the average in the Punjab and variable elsewhere.

The weather of the first few days of October was determined by the depression formed at the end of the preceding month, and which broke up on the 5th. A few days of fine clear weather followed, but on the 10th the barometer fell over the whole of India and Burma, on the 11th and 12th bad weather was evidently brewing over the south-west of the Bay, and by the 13th it was plain that a small cyclone was travelling northward along the coast of the Northern Circars, and between one and two hundred miles distant from it. On the 14th the storm centre was approaching the Orissa coast; on the 15th it lay near Cuttack, and heavy rain was falling in Orissa and Bengal, and on the 16th near Burdwan, heavy rain continuing. On the 17th, the storm centre was rapidly dispersing, after having occasioned exceedingly heavy rain in Darjeeling and its neighbourhood. This dispersion was followed by a general increase of pressure, bringing light winds and fair weather to most parts of the country, except the Coromandel coast. On the 26th a large area of low pressure was slowly formed over the Bay and the south of India, causing easterly winds over Burma, north-easterly winds over Bengal and the north of the Bay and north-westerly winds on the Coromandel coast. As the low pressure over the Bay became more marked, the atmosphere round the Bay became damper, the sky cloudy, and some rain fell.

The returns for the whole month show that temperature was below the general average of past years in Madras and Burma, but above it in all other parts of India, particularly the Punjab and North-Western Provinces. The humidity of the atmosphere was above the mean in Bengal, the North-Western Provinces and some parts of Madras and Mysore, but below it elsewhere; thus agreeing exactly with the rainfall, which shewed an excess at Madura, Cochin and Mercara, as well as in Bengal and the North-Western Provinces, and a deficiency elsewhere.

The returns for the whole six months show that, on the whole, the season was rather warmer than usual in the northern parts of the Punjab and North-Western Provinces, but that elsewhere the temperature was below the average. The highest mean temperature was 93·5° at Jacobadad, the lowest 75·7° at Belgaum. The rainfall was subject to many local variations, but on the whole amounted to that of a good average season. The most remarkable case of excess was in Coorg. At Mercara the fall was not less than 100 inches above the average, or nearly double. The regions of most decided deficiency were Eastern Bengal, the Madras coast, and the Umballa and Lucknow districts.

---

ORDERED, that the Summary be printed in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.

# REVENUE AND AGRICULTURAL DEPARTMENT.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 9th JANUARY 1883.

GENERAL REMARKS.—Rain has fallen in two districts of the Madras Presidency and in three districts of the North-Western Provinces and Oudh. There has also been slight rain in a few districts of the Punjab and at Jubbulpore, Gowhati, and Sutna. Elsewhere there has been no rain to report during the past week.

Agricultural prospects are fair throughout the country. In the Punjab, however, rain is still much wanted for the crops in most of the districts. In two districts of the North-Western Provinces and Oudh some injury has been done to mustard by the *mahee* insect, and in parts of Ratnagiri in the Bombay Presidency locusts are reported to have caused some damage to the crops.

In the Madras Presidency harvest operations are progressing with an outturn below average in three districts. The harvesting of the rice crop in Coorg still continues. In the Bengal Presidency the crop has been nearly all gathered in except in some of the low-lying districts.

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Jan. 10th)** | | |
| Bellary | | Standing crops generally good; harvest paddy, dry grains, tobacco, and sugarcane, yield average |
| Kurnool | | Standing crops good; cattle disease in parts. |
| Ganjam | | Standing crops, dry grains and sugarcane thriving; fever and small-pox continues; cholera and cattle disease in one taluk. |
| Kistna | | Standing crops in parts affected by blight and grubs, elsewhere doing well; harvest paddy and dry grains, outturn below average; fever and cattle disease prevail, small-pox in parts; water 2 feet over anicut. |
| Chingleput (Madras) | | Standing crops generally good; harvest paddy, &c., outturn below average |
| Coimbatore | | Standing crops good, harvest paddy and dry grains, outturn average, fever, small-pox, cholera, and cattle disease in parts. |
| Tanjore | ·15 (average of 1 station.) | Standing crops generally good; harvest paddy and *ragi*, yield below average; cholera in parts. |
| Madura | | Standing crops generally fair, cholera in parts. |
| Malabar | | Harvest second crop paddy commenced; fever and cholera in parts; small-pox slight. |
| Travancore | ·09 | Paddy ripening, fever prevails; no rain except in Tanjore and Travancore. |
| | | *General Remarks.*—General prospects good. |
| **Bombay—(Jan. 10th).** | | |
| Kurrachee | | River at Kotri on 5th 1 inch lower than on same date last year; small-pox in Karachi city, 15 cases, 3 deaths; fever in nine talukas; cattle disease in five talukas, wheat, red rice, and *bajri* in Karachi 24, 32, and 32 lbs, in Sehwan 32, 32, and 48 lbs., in Sakro 16, 34, and 46 lbs., and in Sajawal 38, 41, and 44 lbs. per rupee respectively. |
| Hyderabad | | *Rabi* crops fair; rain desirable; cattle disease in two, small-pox in three, and fever in nine talukas; wheat 25, *bajri* 39, *jowari* 48, red rice 28, and white rice 22 lbs. per rupee. |
| Ahmedabad | | Standing crops healthy; small-pox in Dhandhuka; wheat 29 and *bajri* 32 lbs per rupee. |
| Baroda | | Standing *kharif* and *rabi* crops doing well; sugarcane-pressing continues in the Naosari division; public health good; *bajri* 31½ and rice 26 lbs. per British rupee. |
| Surat | | *Rabi* crops thriving; *jowari* being cut; fever in Pardi; *jowari* 40 and *nagli* 57 lbs. per rupee. |
| Nasik | | Weather a little muggy and said to be unfavourable for *rabi* crops that have been thriving up to this time; wheat 25½, *bajri* 36, and rice 23½ lbs. per rupee. |
| Colaba (Bombay) | | Average abnormal temperature, 4° warm from 3rd to 5th and 2° warm from 6th to 9th; vapour in air slightly in excess of normal; abnormal wind southerly and weak. |
| Poona | | Crops thriving; *bajri* 44 and *jowari* 56 lbs. per rupee, in Poona *bajri* 41 and *jowari* 46 lbs. per rupee. |
| Ahmednagar | | *Rabi* crops generally good; *bajri* maximum 60 lbs. per rupee in Parner, minimum 42 in Akola; *jowari* maximum 72 lbs. in Parner, minimum 40½ lbs. per rupee in Sheogaon. |
| Sholapore | | Reaping of early crops continue; *rabi* crop generally good; *jowari* 71 lbs. 26 tolas, and *bajri* 56 lbs. 32 tolas per rupee. |
| Dharwar | | Weather chilly; harvesting of early crops continues; exotic cotton suffering from blight in five and wheat in two talukas, other late crops good; cholera continues in Gadag, one case fatal; fever and cattle disease in four talukas; rice minimum 26 and *jowari* 52 lbs. per rupee. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Kanara . . . | . . . . | Sowing for second crop in progress; rice plants springing up in Karwar Taluka; sugarcane harvest on coast; garden produce, healthy; fever subsiding, common rice in Karwar 13 seers per rupee, in district average 15½ seers per rupee; weather fair and cold. |
| Rajkot . . . . | . . . . | General health fair; weather warm; cholera continues but slightly in Navanagar; *bajri* 29 and *jowari* 36 lbs per rupee. *General Remarks.—Rabi* crops doing well; some destruction of crops by locusts reported in parts of Ratnagiri; fever, small-pox, and cattle disease in a few places. |
| **Bengal—(Jan 9th)** | | |
| Chittagong . . . | *Nil* | Weather seasonable; harvesting of *amun* continues; winter crops doing well; cholera in the town and station; cattle disease in Chakaria. |
| Dacca . . . . | *Nil* | Harvesting of *amun* paddy continues, yield average; prospects of winter crops good; cutting of sugarcane continues; public health generally good, except in Manekgunge sub-division, where a good deal of fever and some cholera are reported. |
| 24-Pergunnahs (Alipore) | *Nil* | Harvesting of late rice going on, yield estimated at about from 12 to 14 annas; *rabi* crops doing well, price of common rice stationary; public health good, except in some scattered parts of the district, where cholera is reported. |
| Moorshedabad . . | *Nil* | Harvesting of *amun* continues, *rabi* crops doing well; public health on the whole good. |
| Rajshahye . . . | *Nil* | Prospects of crops favourable; cholera still reported from parts of the district |
| Burdwan . . . | *Nil* | Harvesting of *amun* continues; prospects of sugarcane good; and of *rabi* indifferent; fever prevalent; cholera reported in some localities. |
| Rungpore . . . | *Nil* | Prospects of standing crops good; harvesting of *amun* not yet completed; cholera prevalent in Gaibanda sub-division, and has extended to Chilmari in Kurigram sub-division |
| Bhagalpur . | *Nil* | Prospects of *rabi* crops good; rice harvest continues, generally the outturn has been fair. |
| Purneah . . | *Nil* | Late rice reaped, prospects of *rabi* crops good; public health improving. |
| Patna . . . | *Nil* | Prospects of *rabi* crops continue favourable; poppy and cotton growing well; cutting of sugarcane being pushed on, public health good |
| Durbhunga . . . | *Nil* | Rice crop being harvested; *rabi* and tobacco crops continue favourable, prices stationary; fever in a few places south of district, otherwise public health fair. |
| Hazaribagh . . . | *Nil* | Weather cold and cloudy since 8th; *rabi* crops doing well; prices unchanged; general health good |
| Cuttack . . . . | *Nil* | Cutting of late rice not completed; gathering of *rabi* commenced, public health good. *General Remarks*.—There has again been no rain in any part of the province, but in some districts it is reported that clouds have appeared during the latter part of the week; the rice crop has been mostly gathered in; the harvesting still continues in some low-lying districts; all cold-weather crops are generally reported to be in a very satisfactory condition, in Burdwan alone the crops are said to be indifferent; fever and cholera though decreasing, are still prevalent in some places; small-pox continues to be reported from Singbhoom and Manbhoom. |
| **N.-W. Provinces and Oudh—** | | |
| Benares (Jan. 9th) | No rain | Weather seasonable; *aghani* rice cut; no sickness, prices steady |
| Allahabad ( „ 10th) | Average fall of ·60 over district. | The rain has been of great advantage to *rabi* crops; prospects as good as possible; prices stationary; health good. |
| Gorakhpur ( „ 8th) | . . . . | Heavy dews; crops promising; health good; prices steady. |
| Jhansi ( „ 8th) | . . . . | Weather cloudy; *rabi* crops promise well; a fall of rain would be very beneficial; prices stationary; small-pox of a mild type reported in three purganas; cattle disease continues. |
| Agra ( „ 9th) | No rain | Weather cloudy; well irrigation continues; insects in *bijhar* and *sarson* reported in one pergunnah; small-pox in three pergunnas; general health good; prices stationary. |
| Bareilly ( „ 8th) | . . . . | Rain wanted; everything normal. |
| Meerut ( „ „ ) | . . . . | Rain still hangs off, though threatening; no damage yet; health good, supplies sufficient; prices stationary. |
| Kumaon ( „ „ ) | No rain | Sky cloudy; public health good, except that typhus continues in two or three villages; cattle disease continues; prices slightly risen, rain urgently wanted. |
| Lucknow ( „ „ ) | . . . . | Rain urgently needed for *rabi* crops; prospects favourable; general health good, but small-pox prevalent in the city; prices rising; weather cloudy. |
| Partabgarh ( „ „ ) | Rain on 9th | *Rabi* promises exceedingly well; irrigation in progress; the rain which has fallen will be beneficial, especially to mustard attacked by *makee* insect; prices almost stationary; health good. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **N.-W. P. & Oudh**—*contd.* | | |
| Sitapur (Jan. 8th) | . . . . . | Weather cloudy during the week, but no rain; prospects fair; small-pox abating; prices steady. |
| Fyzabad ( „ „ ) | No rain | Irrigation going on; prospects good; *sarson* injured by *mahee* insect; health good; prices steady. |
| Rae Bareli ( „ „ ) | . . . . . | Weather cloudy during last two days; rain much wanted; health of men and cattle good; prices stationary. |
| Cawnpore ( „ „ ) | Slight showers | Weather cloudy; prospects fair; health good; prices stationary. |
| Farukhabad ( „ 9th) | . . . . . | Prospects fair; prices steady; sky cloudy; rain much wanted. |
| | | *General Remarks.*—Rain has fallen in Allahabad, Cawnpore, and Partabgarh; weather cloudy in Lucknow, Rai Bareli, Sitapur, Aligarh, Meerut, Kumaon, and Jhansi; general health good and prices normal. |
| **Punjab**—(Jan. 9th) | | |
| Delhi . . . . | . . . . . | Rain wanted; health good; harvest prospects fair; prices fluctuating. |
| Hissar . . . . | . . . . . | Rain much wanted; small-pox still prevalent in Rohtak, health good elsewhere; prices fluctuating. |
| Umballa . . . | . . . . . | Health good; *rabi* crops suffering for want of rain; prices of food grains stationary. |
| Jullundur . . . | Slight rain | Health good; prices stationary. |
| Amritsar . . . | . . . . . | Rain wanted; health good; *rabi* sowings completed; prices stationary. |
| Lahore . . . . | Slight rain in places | Health and harvest prospects good. |
| Ferozepore . . . | Slight fall in places | Health and harvest prospects good |
| Sialkot . . . . | . . . . . | Rain much wanted; health good; prices stationary. |
| Rawalpindi . . . | Slight rain | Cattle disease continues in Murree tahsil, and seasonal fever prevails in the district generally; prices fluctuating. |
| Peshawar . . . | . . . . . | Harvest prospects good on irrigated lands; prices rising for want of rain. |
| Mooltan . . . . | Slight rain | Health and harvest prospects good; prices stationary. |
| Dera Ismail Khan . . | . . . . . | Rain much wanted, health fair; harvest prospects good; prices steady. |
| | | *General Remarks.*—The health of the province and the prospects of the crops are generally good; rain is much wanted in most districts. |
| **Central Provinces**— | | |
| Nagpur (Jan. 10th) | . . . . . | Weather clear; *rabi* crops promise to be exceptionally good; health good; prices stationary. |
| Jubbulpore ( „ 9th) | ·03 | Weather cloudy and cool; *rabi* crops in very good condition; prospects favourable; health good; wheat 19 seers per rupee. |
| Saugor ( „ 8th) | . . . | Weather cloudy; crops excellent; health good, prices steady. |
| Seoni ( „ 9th) | . . . . | Weather cloudy and warm; threshing of rice progressing; *rabi* crops and health good; rice 19 seers per rupee. |
| Hoshangabad ( „ 9th) | . . . . . | Weather cloudy and cool; *rabi* crops doing well; fever prevalent; wheat 16 seers per rupee. |
| Raipur ( „ 6th) | . . . . | Weather cool and pleasant; threshing of *kharif* crops in progress, outturn reported to be better than last year; *rabi* crops doing well; slight cattle disease; health good; prices stationary |
| Sambalpur ( „ 4th) | . . . . . | Weather cool; prospects of crops good; health good; rice 56 seers per rupee |
| Khandwa ( „ 9th) | . . . . . | Weather cloudy; small-pox reported; prospects of crops good; wheat 16 seers per rupee. |
| | | *General Remarks.*—Slight clouds occasionally, but weather generally cool and clear; threshing and winnowing of *kharif* crops progressing outturn expected to be good, *rabi* crops in good condition; public health good; prices steady. |
| **British Burma**— | | |
| (Jan. 6th) | | |
| Akyab . . | *Nil* | Twenty deaths from cholera in one township, otherwise public health good; slight cattle disease in one township; reaping nearly finished. |
| Rangoon . . . | *Nil* | One death from cholera, otherwise public health good; crops progressing. |
| Passein . . . | *Nil* | Four deaths from cholera in town and six in district, otherwise public health good; slight cattle disease in three townships; crops nearly reaped. |
| Prome . . . | *Nil* | Public health good; reaping progressing. |
| Amherst (Moulmein) . | *Nil* | Five cases of cholera in district, otherwise public health good both in Moulmein and district; 209 deaths of cattle reported from one township; reaping completed in Moulmein and nearly finished in district. |
| Toungoo . . . | *Nil* | Fourteen deaths from cholera in district, otherwise public health good. |
| | | *General Remarks.*—Some cholera in Akyab and Thonegwa districts and cattle disease in Amherst, otherwise public health and health of cattle good; reaping nearly finished; crops good. |
| **Assam**— | | |
| Gauhati (Jan. 9th) | ·21 | Weather seasonable; nights and mornings cool and foggy; reaping of *sali* paddy nearly over; public health good. |
| Sylhet . ( „ 10th) | *Nil* | Harvesting of *amun* nearly over; transplanting of *boro* paddy continues; cold-weather crops promising; cholera and small-pox still reported. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Assam—*contd.*** | | |
| Cachar . (Jan. 10th) | *Nil* | Weather seasonable and cool; reaping of *sali* crops nearly finished; three deaths from cholera reported from Hailakandi; common rice 21 $\frac{8}{16}$ seers per rupee. |
| Dibrugarh ( „ „ ) | *Nil* | Weather cold; *sali dhan* crop gathered; mustard is doing well; cholera abating in the Sadr sub-division. |
| **Mysore and Coorg—(Jan. 10th)** | | |
| Bangalore . . . | . . . . | Crops in good condition; prospects favourable. |
| Mysore . . . . | . . . . | Crops in good condition; prospects favourable. |
| Mercara . . . . | . . . . | Picking of coffee and harvesting of rice still continue; price of food-grains falling; health good, except in Nanjarajapatna taluk where fever prevails. |
| | | *General Remarks.*—Crops in good condition throughout the Mysore State; the cultivation of *vaisakh* paddy progressing favourably; harvesting of *kartik* paddy, horse-gram, areca-nut, &c., continues; prospects good; public health fair; prices unaltered. |
| **Berar and Hyderabad—(Jan. 10th)** | | |
| Amraoti . . . . | . . . . | Threshing of *juari* continues; *rabi* crops promising; wheat 16, *juari* 26 seers per rupee. |
| Akola . . . . | . . . . | Cotton-picking finished; *rabi* prospects good. |
| Hyderabad . . . | . . . . | Standing crops thriving; cholera almost disappeared in two taluks cattle disease prevails; prices: wheat 16$\frac{1}{2}$, course rice 11, white *juari* 24$\frac{1}{2}$, yellow *juari* 31 and *tur* 25$\frac{1}{2}$ seers per current sicca rupee. |
| **Central India States—(Jan. 10th)** | | |
| Indore . . . . | *Nil* | Weather cloudy; health and prospects good. |
| Morar (Gwalior) . . | . . . . | Health and prospects good; weather seasonable. |
| Sutna . . . . | Slight rain | Weather cloudy. |
| Neemuch . | . . . . | Weather cold and seasonably cloudy; health good; *kharif* crops doing well. |
| Goona . . . . | . . . . | Weather cloudy; health and prospects good. |
| Bhopal . . . . | . . . . | Weather cool; health good. |
| Nowgong . . | . . . . | *Rabi* prospects favourable; prices steady; health good. |
| Manpur . . . | . . . . | Weather clear and cold; prospects good. |
| **Rajputana—** | | |
| Abu (Jan. 10th) | . . . . | Weather cold; health good. |
| Sirohi ( „ 7th) | . . . . | Tanks and wells fairly full; health good; prospects fair. |
| Marwar ( „ 5th) | . . . . | Only a week's water in tanks; wells almost full; prospects good; fever to some extent prevails. |
| Harowti ( „ 8th) | . . . . | Crops as yet thriving, but rain urgently wanted; slight rise in prices; weather cloudy; health excellent. |
| Jhallawar ( „ 3rd) | . . . | Weather mild; health and prospects good. |
| Ajmere ( „ 9th) | No rain | Weather cloudy; health good. |
| Jeypore ( „ „ ) | . . . . | Weather cloudy; prospects favourable, but rain needed; health good; prices falling. |
| Ulwur ( „ „ ) | . . . . | Crops coming on nicely, but rain wanted; weather cloudy; health good. |

C. P. C.

*Page 53.*

*Section 106.*

*Rule 1.*

*Prefix the following to the Rule :—*

"Except as provided in Rules 1 A and 1 B,"

*Page 54.*

*Insert the following as Rules 1 A and 1 B :—*

1 A.—Officers in the Survey of India of rank not lower than that of Assistant Surveyor shall cease to be in employment on attaining the age of fifty-five years, unless specially permitted by the Secretary of State, in the interests of the public service, to remain in the Department for a further definite period.

1 B.—After the age of fifty-five years a Civil Engineer, in the Public Works Department, or a Civilian in the Accounts Branch of that Department, shall not be appointed either substantively or in an officiating capacity to a grade other than that to which he may be attached at the time, nor permitted to continue in any grade, whether substantively or in an officiating capacity, to which he has been attached for five years and upwards, unless in any special case sanctioned by the Secretary of State. Nor can such an officer claim to retain any office for a longer period than may have been specially fixed by the Government of India (or Madras or Bombay, as the case may be) at the time of his appointment to the office.

C. P. C.

*Pages 54 and 55.*

*Section 106.*

*Rules 6 and 7.*

*Substitute the following for the Rules and the Note under Rule 6 :—*

6 (*a*).—After the age of fifty-five years no Military or Naval Officer shall be appointed to a new office in civil employment, whether substantive or officiating, nor, except in special cases sanctioned by the Secretary of State, shall he be permitted to retain any such office which he has held for five years and upwards. Provided that a military officer employed in the Public Works Department cannot claim to retain any such office for a longer period than may have been specially fixed by the Government of India (or Madras or Bombay, as the case may be) at the time of his appointment to the office.

[NOTE.—This rule should be strictly enforced, unless the retirement of any officer should be considered by the Government under which he is serving to be injurious to the public interest. [*Secretary of State, No. 106, dated 30th August 1873*)]

6 (*b*).—The undermentioned officers cease to be in civil employment on attaining the age of fifty-five years :—

(i) Military Officers in the Survey of India, unless specially permitted by the Secretary of State, in the interests of the public service, to remain in the Department for a further definite period;

(ii) Brigade Surgeons or Surgeons-Major, who entered the service on or after the 13th January 1860; and

(iii) All Warrant Officers, except Warrant Medical Officers who on being reported to be qualified after examination as to fitness, shall be retained for a further period of three years.

*Meteorological Reporter to Government of India.*

### THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

**Terms of subscription, payable annually in advance.**

| | Without Postage. | With Postage. |
|---|---|---|
| For the CALCUTTA SERIES . | R35 | R37-8 |
| „ MADRAS SERIES . | „ 8 | „ 9 |
| „ BOMBAY SERIES . | „ 8 | „ 9 |
| „ ALLAHABAD SERIES . | „ 8 | „ 9 |
| Complete set . . . | „45 | „47-8 |

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

| | | |
|---|---|---|
| For a Part of the CALCUTTA SERIES . | R. | 8 |
| „ „ MADRAS SERIES . | „ 1 | 0 |
| „ „ BOMBAY SERIES . | „ 1 | 0 |
| „ „ ALLAHABAD SERIES | „ 1 | 0 |
| Complete set . . . . . | „ 4 | 0 |

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA ;
MESSRS. THACKER AND CO., BOMBAY ;
MESSRS. HIGGINBOTHAM AND CO., MADRAS ;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY ;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

*Orders and Subscriptions for 1883 should be at once remitted.*

### THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at R375 a set.

☛ The following books may be purchased from the Office of Superintendent of Government Printing, India, No. 166, Dhurrumtollah Street, for private use only, which should be stated in the requisition.

No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every Rupee's worth of stamps, for discount in exchanging them for cash. Service labels or Court Fee stamps are not received.

Books required for the public service cannot be supplied on payment; they are only issued on the authority of the Department to which the indenting officer is subordinate. Applications for them

should be made through the Local Government under which the applicant serves.

**New Number.**

*An Act to make better provision for local self-government in the Central Provinces.*

Preamble.

WHEREAS provision has been made by the Central Provinces Land-revenue Act, 1881, for the appointment of mukaddams for the several villages in the territories administered by the Chief Commissioner of the Central Provinces; and

XVIII of 1881.

Whereas provision has been made in the settlement-records of the districts in those territories for the levy of rates for the maintenance of roads, schools and the district post, and it is proposed that the Government shall, from time to time, assign certain sums, or the income accruing from certain sources, for expenditure on objects tending to promote the welfare and improvement of the inhabitants of each of those districts;

It is hereby enacted as follows:—

*Preliminary.*

Short title.

1. This Act may be called the Central Provinces Local Self-government Act, 1883.

Local extent.

It shall extend only to the territories for the time being administered by the Chief Commissioner of the Central Provinces; and

Commencement.

it shall come into force at once.

Definitions.

2. In this Act—

"Assistant Commissioner" includes an Extra Assistant Commissioner in any district where there is no Assistant Commissioner:

"Financial year" means the year commencing on the first day of April:

"Village" includes any tract of land which, at the last settlement of that land, has been recognized as a village, or which the Chief Commissioner may, from time to time, declare to be a village for the purposes of the Central Provinces Land-revenue Act, 1881; and

XVIII 1881.

"Mukaddam" means the executive headman of a village appointed under that Act.

*Formation of Local Administrative Areas.*

Aggregation of villages in circles and groups for purposes of local self-government.

3. (*1*) The Chief Commissioner shall, by order in writing, for the purposes of the local self-government of each district, aggregate the several villages thereof in circles and the circles in groups.

(*2*) There shall be excluded from the circles and groups formed under this section such portions of the district as are for the time being included in the limits of a military cantonment or of a town having a municipal committee.

(*3*) The Chief Commissioner may, from time to time, by order in writing, vary any order made under this section.

*Constitution of Local Administrative Bodies.*

Establishment of local boards for groups and of district councils for districts.

4. There shall be established for each group of circles a local board having authority over that group, and for each district a district council having authority over the entire district, except such portions thereof as are for the time being included in the limits of a military cantonment or of a town having a municipal committee.

Constitution of local board.

5. The local board for a group of circles shall consist of—

(*a*) representative members, one or more for each circle, being the mukaddam or mukaddams of a village or villages within that circle;

(*b*) representatives, one or more, of mercantile classes or professions, resident within the area comprised in the group, and elected by, or appointed on behalf of, those classes or professions; and

(*c*) such person or persons, if any, not exceeding in number one-third of the board, as the Chief Commissioner may from time to time appoint.

Constitution of district council.

6. The district council of a district shall consist of—

(*a*) representatives of groups of circles within the district, one or more for each group, being a member or members of, and elected by, the local board for that group;

(*b*) representatives, one or more, of mercantile classes or professions, resident within the district, and elected by, or appointed on behalf of, those classes or professions; and

(*c*) such person or persons, if any, not exceeding in number one-third of the council, as the Chief Commissioner may from time to time appoint.

Power to set aside election or remove member in case of conviction of offence.

7. (*1*) If a person convicted by a criminal Court of an offence the commission of which in the opinion of the Chief Commissioner shows him to be unfit to be a member of a local board or district council is elected as such member, the Chief Commissioner may declare his election void.

(*2*) If a member of such a board or council is so convicted of any such offence, the Chief Commissioner may declare his office to be vacant.

Incorporation of district council.

8. Every district council shall be a body corporate by the name of the district council of its district,

shall have perpetual succession and a common seal, with power to acquire and hold property, both moveable and immoveable, to transfer any moveable property, and, with the previous approval in writing of the Deputy Commissioner, any immoveable property, held by it, and to contract and to do all other things necessary for the purposes of its constitution, and may sue and be sued in its corporate name.

*Duties of District Councils and Local Boards.*

Matters to be administered by board and council.

**9.** The following matters shall, subject to such exceptions as the Chief Commissioner may, from time to time, by order in writing make, be under the control and administration of the district council and of the local boards within the areas subject respectively to their authority :—

(*a*) The construction, repair and maintenance of roads and other means of communication :

(*b*) The management, maintenance and visiting of schools hospitals, dispensaries, markets, rest-houses, saráís and other public institutions, and the construction and repair of all buildings connected with these institutions :

(*c*) The construction and repair of public wells, tanks and water-works, the supply of water from them and from other sources, and the preservation from pollution of water for drinking and cooking purposes :

(*d*) The planting and preservation of trees on public ground :

(*e*) The establishment and maintenance of relief-works in time of famine or scarcity :

(*f*) The establishment and management of pounds, including, where the Cattle-trespass Act, 1871, is in operation, all the functions of the Local Government and the Magistrate of the District under sections four, five, six, seven, twelve, fourteen and seventeen, and clause (*a*) of section eighteen, of that Act :

1 of 1871.

(*g*) The management of such public ferries as may be entrusted to their charge under section 7 A of the Northern India Ferries Act, 1878, as amended by this Act :

XVII of 1878.

(*h*) Any other local works or measures likely to promote the health, comfort or convenience of the public, and

(*i*) The maintenance of any building, or other property, vested under this Act in the district council.

*Relations of Local Boards to District Councils.*

Duties of local board.

**10.** (*1*) A local board as the agent of, and subject to the control of, the district council, shall, within the area subject to its authority, have the control and administration of, and be responsible for, all the matters specified in section nine except such of those matters as the district council may think fit to take under its direct control and administration, and such as the Chief Commissioner may have excepted by order under section nine.

(*2*) It shall be the duty of the district council to enforce the responsibility imposed on a local board by sub-section (1).

Reports, estimates and accounts to be submitted by board to council.

**11.** Every local board shall submit annually to the district council of its district, on or before such date as the council may appoint in this behalf, a statement of the requirements, and an estimate of the probable expenditure, of the board for the coming financial year, and a report of its proceedings, and an account of its receipts and expenditure for the past financial year, and shall also submit to the council such other reports, if any, as the council may, from time to time, require.

Limits on expenditure of local board.

**12.** A local board shall not incur expenses or undertake liabilities, to any amount exceeding the limit imposed by the district council of its district.

Power for council to reverse or vary resolution of board.

**13.** A district council may, by a majority of two-thirds of its whole number, reverse or vary any resolution of a local board for an area within its district.

Power for council to provide for performance of duty in default of board.

**14.** (*1*) If the local board makes default in the performance of any duty imposed on it by or under this Act, the district council may, by order in writing, fix a period for the performance of the duty.

(*2*) If the duty is not performed within that period, the council may appoint some person to perform it, and may provide for the expenses of, and incidental to, its performance out of the funds appropriated to or for the purposes of the local board.

Power to declare local boards independent.

**15.** (*1*) The Chief Commissioner may from time to time, by notification in the official Gazette, declare any local board established under this Act to be an independent board, and may in like manner cancel such notification.

(*2*) A local board so declared shall, while the notification is in force, so far as may be, have within the area subject to its authority, the powers, and perform the duties, of a district council under this Act, and shall cease to be the agent of, and under the control of, the district council.

*School Committees.*

Appointment of school committees.

**16.** (*1*) Every district council, and every local board as the agent of, and subject to the control of, its District Council, may from time to time appoint school committees for the several schools under its control and administration, and shall as far as may be practicable conduct the management of any school for which such a committee has been appointed through that committee.

(2) All school committees existing within the area subject to the authority of any district council or local board at the time that council or board comes into existence shall be deemed to have been appointed under this section.

*Joint Committees.*

Joint committee of two or more local boards.

**17.** (1) A local board may, from time to time, concur with any other local board or boards for an area or areas in the same district, in appointing, out of their respective bodies, joint committees for any purpose in which they are jointly interested, and in delegating to any such committee any power which might be exercised by either or any of the local boards, and in framing and modifying regulations as to the proceedings of any such joint committee.

(2) If any dispute arises between two or more local boards acting under this section, the decision thereon of the district council of their district shall be final.

Joint committee of two or more district councils.

**18.** (1) A district council may, from time to time, concur with any other district council or district councils in appointing, out of their respective bodies, joint committees for any purpose in respect of which they are jointly interested, and in delegating to any such committee any power which might be exercised by any or either of the district councils, and in framing and modifying regulations as to the proceedings of any such joint committee.

(2) If any dispute arises between two or more district councils acting under this section, the decision thereon of the Commissioner, if the councils are in the same division, or, if they are not in the same division, of the Chief Commissioner, shall be final.

*Conduct of Business.*

Chairman.

**19.** (1) Every district council and local board shall, from time to time, elect one of its members to be chairman for one financial year at all meetings at which he is present.

(2) If the chairman so elected dies, resigns or becomes incapable of acting, the council or board shall elect another of its members to be chairman for the period during which the person so dying, resigning or becoming incapable would have been entitled to continue in office, and no longer.

(3) An election under the foregoing provisions of this section shall not be valid until it is approved, in the case of the chairman of a local board, by the Commissioner of the division, and, in the case of the chairman of a district council, by the Chief Commissioner.

(4) If when any meeting is held the office of chairman is vacant or the chairman is absent from the meeting, the members present shall appoint one of their number to be chairman thereat.

Regulations as to meetings and proceedings.

**20.** (1) Every district council and local board may, from time to time, make regulations as to the time and place of its meetings, the conduct of proceedings at meetings, and the appointment, powers and proceedings of committees:

(2) Provided that every regulation made under this section must be consistent with this Act and with any rules made by the Chief Commissioner under this Act.

*Officers and Servants.*

Employment of officers and servants.

**21.** (1) Every district council may employ such officers and servants as may be necessary and proper for the efficient execution of its duties and may assign to them such pay, leave allowances, gratuities and pensions as it thinks fit.

(2) A local board may employ such officers and servants, and may assign to them such pay, leave allowances, gratuities and pensions, as the district council of its district thinks requisite and sufficient.

(3) In the case of an officer lent by the Government, the council or board may contribute to any leave allowance, gratuity, or pension, which he may become entitled to in accordance with the rules for the time being in force.

(4) If, in the opinion of the Commissioner,

(a) the number of persons employed by a council or board under this section, or the pay, allowances, gratuities or pensions assigned by the council or board to those persons, or to any particular person, is or are excessive, or

(b) any such person is unfit for his employment,

the council or board shall, on the requirement of the Commissioner, reduce the number or remuneration, or, as the case may be, dismiss the unfit person.

*Vesting of Property.*

Power to vest property in district council.

**22.** The Chief Commissioner may, from time to time, by notification in the official Gazette, direct that any property, moveable or immoveable, which is vested in Her Majesty and is situate in the Central Provinces, shall vest in any district council; and thereupon that property shall vest in that council for the purposes of this Act, subject to all rights over, and all debts, liabilities and obligations (if any) affecting, that property.

*Finance.*

Constitution, custody and application of district fund.

**23.** (1) There shall be formed for each district a fund to be called the district fund, and there shall be placed to the credit thereof—

(a) the net proceeds (after deducting the expenses of collection) of all rates levied in accordance with settlement-records in that district for the maintenance of roads or schools;

(*d*) such portion (if any) of the surplus of the rates so levied for the maintenance of the district post as the Chief Commissioner may from time to time assign in this behalf;

(*e*) the surplus accruing in that district under section eighteen of the Cattle-trespass Act, 1871; I of 1871.

(*d*) the proceeds of public ferries payable into the district fund of that district under section 7A of the Northern India Ferries Act, 1878, as amended by this Act; XVII of 1878.

(*e*) all sums assigned, from time to time, by the Chief Commissioner for expenditure on local works in that district, under section five of the Central Provinces Additional Rates Act, 1878, section seventeen of the Northern India Ferries Act, 1878, or any enactment amending either of those Acts; I of 1878. XVII of 1878.

(*f*) all such rents and profits accruing from nazul property in that district as the Chief Commissioner may, from time to time, direct to be paid to the district council;

(*g*) all sums contributed to the fund by the Government, local bodies, or private persons; and

(*h*) all sums received by the district council in the execution of this Act.

(2) The district fund shall be vested in the district council, and the balance standing to the credit of the fund shall be kept in the Government treasury of the district.

(3) The district fund shall be applicable to the payment, in whole or in part, of the charges and expenses incidental to the several matters specified in sections nine and twenty-one, within the area subject to the authority of the district council, and, with the sanction of the Chief Commissioner, outside of that area, and also to the following purposes:—

(*a*) the payment of school inspectors and normal school teachers appointed and controlled by the Government and employed in the district, and the provision of scholarships and prizes for schools in the district;

(*b*) the payment of subordinate medical officers (including vaccinators) appointed by the Government and employed in the district; and

(*c*) the expenses attending the audit of the accounts of the district council and of the local boards within the district.

**Provided that the amount expended from the district fund in any financial year on primary education shall not be less than the estimated net proceeds for that year of the rates levied in the district in accordance with the settlement-records for the maintenance of schools.**

(4) When a local board has been declared independent under section fifteen, such portion of the district fund as the Chief Commissioner may from time to time fix in this behalf shall, during its independence, be annually set apart and placed at its disposal, and shall, for the purposes of this Act, be treated as a separate district fund.

Annual estimates of income and expenditure.

**24.** (1) Every district council shall appoint a finance committee consisting of not less than three of its number.

(2) Every district council shall, on or before the prescribed day in each year, hold a meeting at which the finance committee shall submit to the council, in such form as the Chief Commissioner may, from time to time, by rule prescribe, an estimate of the income and expenditure of the council for the next financial year.

(3) The district council shall consider the estimate, and may provisionally approve of it with or without modification.

(4) The district council shall, on or before the prescribed day, cause a copy of the estimate as provisionally approved by it to be sent to the Deputy Commissioner.

(5) The Deputy Commissioner may object to the estimate on the ground that any expenditure on salaries, works or otherwise, proposed therein, appears to him to be unnecessary or excessive, or that any particular contained therein appears to him to be erroneous, defective or improper.

(6) If the Deputy Commissioner so objects, he shall signify his objections in writing to the district council; if he does not so object, he shall signify his approval in like manner.

(7) When the Deputy Commissioner signifies, under sub-section (6), objections to an estimate, the district council shall consider his objections, and either modify the estimate so as to remove them, or refer the estimate with the statement of objections, through the Deputy Commissioner, to the Commissioner, and the Commissioner shall signify to the district council his approval of the estimate, with or without such modifications as may be needed to remove the objections wholly or in part as he thinks fit.

(8) When the Deputy Commissioner or Commissioner has signified his approval of an estimate, or the district council has modified an estimate so as to remove the Deputy Commissioner's objections, no expenditure which is not provided for in the estimate as approved or modified shall be incurred during the year to which the estimate relates without the previous sanction of the Commissioner.

(9) "Prescribed day," for the purposes of sub-section (2) or sub-section (4) of this section, means such day as the Chief Commissioner may, from time to time, by rule prescribe for the purposes of that sub-section.

(10) When the Deputy Commissioner is a member of the district council, the Commissioner shall

take the place of the Deputy Commissioner for the purposes of this section, and the reference under sub-section (7) shall be to the Chief Commissioner.

Annual accounts and audit.

**25.** Accounts of the receipts and expenditure of every district council shall be made up to the last day of every financial year, in such form as the Chief Commissioner, from time to time, prescribes, and shall be examined and audited as soon as may be after the end of each financial year by such persons as the Chief Commissioner, from time to time, appoints in this behalf.

Inspection of estimates and accounts.

**26.** The district council shall cause a copy of every estimate provisionally or finally approved under section twenty-four, and of every account made up under section twenty-five, to be kept at its office; and any person may at all reasonable times inspect any such estimate or account.

Publication of abstract of accounts.

**27.** An abstract of every annual account of a district council, showing the income of the district fund under each head of receipts, the charges for establishment, the works undertaken, the sums expended on each work, and the balance, if any, of the fund remaining unspent, shall be prepared by the district council in such form as the Chief Commissioner from time to time prescribes, and published annually in the English and Vernacular official Gazettes.

*Control.*

Deputy Commissioner's power of supervision.

**28.** (*1*) The Deputy Commissioner of a district shall have power to supervise the proceedings of the district council, and of every local board, joint committee, or school committee in the district, and in exercise of that power may (among other things)—

(*a*) enter on and inspect, or cause to be entered on and inspected, any immoveable property occupied by the council, board or committee, or any work in progress under its direction;

(*b*) call for and inspect any document which may be for the purposes of this Act in the possession or under the control of the council, board or committee; and

(*c*) require the council, board or committee to furnish such statements, accounts and reports as he thinks fit.

(*2*) Where a joint committee is appointed by the district councils of several districts, the Deputy Commissioner of any of those districts may exercise a like power in respect of the proceedings of that committee; but if any difference arises between two or more Deputy Commissioners acting under this sub-section, it shall be referred, when the districts are in the same division, to the Commissioner, and, when the districts are not in the same division, to the Chief Commissioner, whose decision shall be final.

(*3*) The power given under this section to a Deputy Commissioner in respect of a local board or school committee may, with the sanction of the Chief Commissioner, be delegated by him to a subordinate not below the rank of an Extra Assistant Commissioner.

(*4*) When the Deputy Commissioner is a member of the district council, the powers given to him under this section shall, in respect of that council, vest in the Commissioner.

Power to suspend execution of orders, &c.

**29.** (*1*) If, in the opinion of the Deputy Commissioner, the execution of any order or resolution of a district council, local board, joint committee, or school committee, or the doing of any act which is about to be done, or is being done, in pursuance of or under cover of this Act, is likely to cause injury or annoyance to the public, or to any class or body of persons, or to lead to a breach of the peace, he may, by order in writing, suspend the execution or prohibit the doing thereof within his district.

(*2*) When a Deputy Commissioner makes any order under this section he shall forthwith forward to the Commissioner a copy of the order, with a statement of the reasons for making it; and it shall be in the discretion of the Commissioner to rescind the order, or to direct that it continue in force, with or without modification, permanently, or for such period as he thinks fit.

(*3*) The Commissioner shall forthwith submit to the Chief Commissioner a report of every case occurring under this section, and the Chief Commissioner may rescind or modify any order made therein, and make in respect thereof any other order which the Commissioner could have made in respect of the same.

Extraordinary powers of Deputy Commissioner in case of emergency.

**30.** (*1*) In cases of emergency the Deputy Commissioner may provide for the execution of any work, or the doing of any act, which a district council or local board is empowered to execute or do, and the immediate execution or doing of which is in his opinion necessary for the service or safety of the public, and may direct that the expense of executing the work or doing the act, with a reasonable remuneration to the person appointed to execute or do it, shall be forthwith paid by the district council.

(*2*) If the expense and remuneration are not so paid, the Deputy Commissioner may make an order directing the person having the custody of the balance of the district fund to pay the expense and remuneration, or as much thereof as is possible, from that balance.

(*3*) The Deputy Commissioner shall forthwith report to the Commissioner every case in which he uses the powers given to him by this section.

Power to provide for performance of duties in default of district council.

**31.** (*1*) When the Chief Commissioner is informed, on complaint made or otherwise, that a district council has made default in performing any duty imposed on it by or under this Act, the Chief Commissioner, if satisfied after due inquiry that the district council has been guilty of the alleged default, may, by an order in writing, fix a period for the performance of that duty.

(*2*) If that duty is not performed within the period so fixed, the Chief Commissioner may appoint some person to perform it, and may direct that the expense of performing it, with a reasonable remuneration to the person appointed to perform it, shall be forthwith paid by the district council.

(*3*) If the expense and remuneration are not so paid, the Chief Commissioner may make an order directing the person having the custody of the balance of the district fund to pay the expense and remuneration, or as much thereof as is possible, from that balance.

Power to supersede council or board in case of incompetency, default or abuse of powers.

**32.** (*1*) If a district council or local board is not competent to perform, or persistently makes default in the performance of, the duties imposed on it by or under this Act or otherwise by law, or exceeds or abuses its powers, the Chief Commissioner may, with the previous approval of the Governor General in Council, by an order published, with the reasons for making it, in the local official Gazette, declare the council or board to be incompetent or in default, or to have exceeded or abused its powers, as the case may be, and supersede it for a period to be specified in the order.

(*2*) When a district council or local board is so superseded, the following consequences shall ensue:

(*a*) All members of the council or board shall, as from the date of the order, vacate their offices as such members;

(*b*) All powers and duties of the council or board may, during the period of supersession, be exercised and performed by such person or persons as the Chief Commissioner from time to time appoints in that behalf;

(*c*) Where a council is superseded, all property vested in it shall, during the period of supersession, vest in Her Majesty.

(*3*) On the expiration of the period of suspension specified in the order, the council or board shall be re-established by appointment or election, and the persons who vacated their offices under clause (*a*) shall not be deemed disqualified for appointment or election.

Powers of Commissioner.

**33.** In all matters connected with this Act, the Commissioner shall have and exercise the same authority and control over the Deputy Commissioners subordinate to him, as he has and exercises over them in the general and revenue administration.

*Rules.*

Power of Chief Commissioner to make rules as to district councils, local boards and school committees.

**34.** The Chief Commissioner may, from time to time, make rules consistent with this Act and with reference (if necessary) to the varying circumstances of different local areas—

(*a*) as to the qualifications, mode and time of election or appointment, term of office, and remuneration and allowances (if any) of members of district councils and local boards and as to the filling of casual vacancies in such councils and boards, and as to the number of the representative members for each circle or group of circles, and as to the number of the representatives of the mercantile classes or professions, to be elected or appointed to each local board or district council;

(*b*) as to the appointment, powers and duties of school committees, the term of office of members of such committees and the mode of removing them;

(*c*) as to the conduct of proceedings of district councils, local boards and school committees, including the fixing of a quorum, the giving of the casting vote in cases of equal division, the minimum number of meetings to be held and the maximum interval between successive meetings, the formation of committees other than school committees and the delegation of powers to such committees;

(*d*) as to the mode of entering into and executing contracts and transfers of property on behalf of district councils, and the authority on which money may be paid from the district fund;

(*e*) as to the appointment and payment of auditors of the accounts of district councils and local boards;

(*f*) as to the apportionment of the district fund between the general purposes of the district and the purposes of particular parts of the district, and the appropriation of funds raised in a particular area to the purposes of that area; and

(*g*) generally, for the guidance of district councils, local boards, school committees and Government officers, in all matters connected with the administration of this Act and for settling their relations to one another.

Procedure for making rules under section 34.

**35.** The Chief Commissioner shall, before making any rules under section thirty-four, publish in such manner as may in his opinion be sufficient for giving information to persons interested, a draft of the proposed rules together with a notice specifying a date at or after which the draft will be taken into consideration; and shall, before making the rules, receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

*Exceptional Provision.*

**36.** If the circumstances of any district or part of a district are, in the opinion of the Chief Commissioner, such that any of the provisions of this Act are unsuited thereto, he may, by order in writing, except the district or part from the operation of those provisions; and thereupon those provisions shall not apply to the excepted district or part until again applied thereto by a subsequent order of the Chief Commissioner.

Power under special circumstances to except districts from operation of Act.

*Supplemental Provisions.*

**37.** Where any land is required for the purposes of this Act, the Chief Commissioner may, on the request of the district council, proceed to acquire it under the provisions of the Land Acquisition Act, 1870; and, on payment by the district council of the compensation awarded under that Act, the land shall vest in the district council.

Acquisition of land.

X of 1870.

**38.** If any member, officer or servant of a district council, local board, or joint committee appointed under this Act is, otherwise than with the permission in writing of the Commissioner, directly or indirectly interested in any contract made with that council, board or committee, he shall be deemed to have committed an offence under the Indian Penal Code, section 168.

Penalty on member, officer or servant being interested in contracts made with council, board or committee.

XLV of 1860.

**39.** (*1*) All rules and orders made by the Chief Commissioner under this Act shall be published in the official Gazette both in English and in such native languages as the Chief Commissioner may direct.

Publication of rules and orders.

(*2*) The publication in the official Gazette of a rule purporting to be made by the Chief Commissioner under section thirty-four shall be conclusive evidence that it has been made as required by section thirty-five.

**40.** The several district councils and local boards under this Act shall come into existence at such time as the Chief Commissioner, by order, appoints in that behalf.

Time for councils and boards coming into existence.

*Rates payable under Settlement-record.*

**41.** (*1*) All rates for the maintenance of roads, schools or the district post, for the payment of which provision has been made in any settlement-record previous to the passing of this Act, shall be deemed to have been legally imposed, and shall be recoverable as if they were arrears of land-revenue payable directly to Government and due on the land in respect of which they are payable.

Confirmation and recovery of existing rates and accounts of same.

(*2*) An account of the gross receipts and of the charges (if any) of collection of all such rates in each district shall be kept by the Deputy Commissioner of that district, and shall be annually rendered by him to the district council of that district.

**42.** The Chief Commissioner may, from time to time, by notification in the official Gazette,

Powers of Chief Commissioner with respect to rates.

(*a*) prescribe in what instalments, and at what times, the rates referred to in section forty-one shall be payable, and make rules for their collection by village-officers or others; and

(*b*) exempt any land from liability to pay the whole or any part of any such rate, and vary or cancel any such exemption.

*Amendment of the Northern India Ferries Act, 1878.*

**43.** After section seven of the Northern India Ferries Act, 1878, the following shall be inserted, namely:—

New section to follow section 7 of Act XVII of 1878.

XVII of 1878.

"7A. The Chief Commissioner of the Central Provinces may direct that any public ferry wholly or partly within the area subject to the authority of a district council or local board in any district in those provinces, be managed by that council or board, and may further direct that all or any part of the proceeds from such ferry be paid into the district fund of that district;

In Central Provinces management may be vested in district council or local board;

and proceeds paid into district fund.

and thereupon such ferry shall be managed, and such proceeds or part thereof shall be paid, accordingly."

**44.** In section six of the same Act, after the words "section seven," and in section seventeen of the same Act, after the words "section seven," where they first occur, the following shall be inserted, namely:—"and section 7A."

Amendment of sections 6 and 17 of same Act.

## PART V.

## Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

### LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th January, 1883, and was referred to a Select Committee:—

### No. 1 OF 1883.

*A Bill to amend the Chutiá Nágpur Encumbered Estates Act, 1876.*

WHEREAS it is expedient to amend the Chutiá Nágpur Encumbered Estates Act, 1876; It is hereby enacted as follows:—

Preamble.

I of 1876.

1. Act XII of 1877 (*an Act to amend the Chutiá Nágpur Encumbered Estates Act, 1876*) is hereby repealed.

Repeal of Act XII of 1877

2. To section 4 of the Chutiá Nágpur Encumbered Estates Act, 1876, the following shall be added, namely:—

Addition to Act VI of 1876, section 4.

"and also in or towards the repayment, either before or after the liquidation of such debts and liabilities, of any loan received from the Government by the manager under this Act".

3. (*1*) In section 12 of that Act, for the first clause the following shall be substituted:—

Amendment of section 12 of same Act.

"When all the debts and liabilities mentioned in the schedule referred to in section eleven, and the amount of any loan received from the Government under section eighteen, together with the interest (if any) due thereon, have been paid and discharged", and

(*2*) in the second clause of the same section, for the word "six" the word "twelve" shall be substituted.

4. (*1*) In section 18 of that Act, after the words "as may appear expedient" the following shall be inserted, namely:—

Amendment of section 18 of same Act.

"or by borrowing money from the Government at such rate of interest as appears reasonable to the Local Government", and

(*2*) in the last clause of the same section, for the word "six" the word "twelve" shall be substituted.

### STATEMENT OF OBJECTS AND REASONS.

THE Chutiá Nágpur Encumbered Estates Act, 1876, omits to provide for the recovery by the manager, under the scheme for the management of the estate, of a loan made by the Government for the payment of the debts. It consequently would be open to the proprietor, when the scheduled debts had been paid off, to demand, under section 12 of the Act, the release of the estate, although any such loan made by the Government had not been repaid.

2. No such loan has as yet been made by the Government, but as it is possible that such loans may be made, it is proposed to amend the Act so as to secure the detention of the estate under management until the amount of any such loan that may have been made has been paid off with interest. This is provided for by certain amendments made, in sections 4, 12 and 18 of the Act, by sections 2, 3 and 4 of the present Bill.

3. The second sub-section of section 4 of the Bill merely supplies an omission, apparently the result of an oversight, in the amending Act XII of 1877.

Under section 12 of the principal Act, as it originally stood, six months from the publication of the order of management was the period within which the Commissioner was permitted to abandon the management, and as difficulties might arise if the management was abandoned after the manager had exercised his power of mortgaging, the last clause of section 18 provided that the power to mortgage should not be exercisable until after the expiration of the same period. The amending Act of 1877 altered the period fixed by section 12 to twelve months, but left that fixed by section 18 unchanged. The amendment now proposed makes the period in section 18 the same as that in section 12, namely, twelve months.

4. It is proposed, as a matter of convenience, to repeal the amending Act of 1877 and incorporate its single provision in the new one.

*The 22nd December, 1882.*

(*A*).—*Licensing and Regulation of Factories.*

10. Power of Local Government to make rules as to licensing and regulation of factories.
11. Provision in favour of occupiers of magazines and registered places making cartridges.

SECTIONS.

12. Provision in favour of occupiers of magazines adapting or preparing explosives for use in their own mines or quarries.

(*B*).—*Licensing and Regulation of Magazines.*

13. Power of Local Government to make rules as to licensing and regulation of magazines.

(*C*).—*Registration and Regulation of Registered Places.*

14. Power of Local Government to make rules as to registration and regulation of registered places.

(*D*).—*Supplemental Provisions.*

15. Duty of occupier to make special rules for regulation of workmen in his factory or magazine.

CHAPTER IV.

SALE OF EXPLOSIVES.

16. Sale of explosives on highways or public places prohibited.
17. Sale of explosives to children prohibited.
18. Explosives to be sold in cases closed and labelled.

CHAPTER V.

CONVEYANCE OF EXPLOSIVES.

19. Power of Governor General in Council to make rules as to packing of explosives.
20. Power of Local Government to make rules regulating the conveyance, loading, unloading and keeping of explosives in ports.
21. Power on breach of rule to require ship, boat, carriage or explosive to be dealt with in conformity with rule.
22. Duty of railway-administration to make rules regulating the conveyance, loading, unloading and keeping of explosives on its railway.
23. Power of Governor General in Council to make rules for the conveyance, loading, unloading and keeping of explosives in certain cases.
24. Penalties which may be annexed to breach of rules under sections 20, 22 and 23.

SECTIONS.

CHAPTER VI.

IMPORTATION OF EXPLOSIVES.

25. Importation of certain explosives prohibited except under license.
26. Power of Governor General in Council to make rules as to such importation.
27. Powers of Customs officers.

CHAPTER VII.

SPECIALLY DANGEROUS EXPLOSIVES.

28. Power of Governor General in Council to prohibit the manufacture, keeping, importation, conveyance and sale of specially dangerous explosives.

CHAPTER VIII.

GOVERNMENT SUPERVISION.

(*A*).—*Inspection.*

29. Appointment and duties of Government Inspectors.
30. Powers of Government Inspectors.
31. Notice by Government Inspector to remedy dangerous practice.
32. Inspection in ports and of ships.
33. Inspection of wharf, carriage, ship or boat with explosives in transit.

(*B*).—*Accidents.*

34. Notice to be given of accidents.
35. Inquiry into accidents.

(*C*).—*Power of Search.*

36. Power of Government Inspector and certain other officers to search for explosives.
37. Power of Government Inspector and certain officers to stop, enter, inspect and examine carriages or boats in case of emergency.

(*D*).—*Power of Seizure and Detention.*

38. Seizure and detention of explosives liable to forfeiture.
39. Power of Local Government to make rules to regulate seizure and detention of explosives.
40. Proceedings before Magistrate to be commenced as soon as practicable.
41. Power to seize receptacles.
42. Power to use ship, boat, carriage, &c., in which the explosives are seized.

(*E*).—*Samples.*

43. Payment for samples of explosives.

CHAPTER IX.

PENALTIES AND LEGAL PROCEEDINGS.

44. Penalty for illegal manufacture of explosives.
45. Penalty for illegal keeping of explosives.
46. Penalty for breach of rules for regulation of factories.
47. Penalty for breach of rules for regulation of magazines.
48. Penalty for breach of rules for regulation of registered places.
49. Penalty for illegal sale of explosives in public places.

SECTIONS.

50. Penalty for selling explosives to children.
51. Penalty for affixing false name to receptacle containing explosives.
52. Penalty for breach of rules as to packing of explosives.
53. Penalty for obstructing conservator or other person.
54. Penalty for breach of provisions as to importation of an explosive, or of the provisions of an importation license.
55. Penalty for importing or selling specially dangerous explosives in contravention of notification.
56. Penalty for conveying specially dangerous explosives in contravention of notification.
57. Penalty for vexatious entries, searches and seizures.
58. Penalty on, and removal of, trespassers.
59. Penalty on persons committing act tending to cause explosion or fire in or about factories or magazines.
60. Occupier to put up notices warning persons of liability under last two sections.
61. Penalty for trespass, &c., on Government manufactory or store.
62. Power to arrest without warrant persons committing dangerous offences.
63. Penalty for pulling down, injuring or defacing notices.
64. Exemption of occupier, &c., from penalty on proof of offence having been committed by another person.
65. Exemption of carrier or owner or master of ship where consignor, &c., is in fault.
66. Provisions as to forfeiture.
67. Distress of ship or boat.

CHAPTER X.

SUPPLEMENTAL.

68. Provision of magazine by municipal committee.
69. Provisions in favour of the keeping and conveyance of percussion-caps, safety-fuzes for blasting, fog-signals and prescribed explosives.
70. Exemption of safety-cartridges for private use.
71. Saving for owner or master of ship, carrier or others in case of emergency.
72. Saving as to liability under other law.
73. Notice and limitation of proceedings.
74. Extension of definition of "explosive" to other explosive substances.
75. Procedure for making publication and confirmation of rules.
76. Issue and publication of notifications.

SCHEDULE.

ENACTMENTS REPEALED.

*A Bill to regulate the manufacture, keeping, sale, conveyance and importation of Explosives.*

WHEREAS it is expedient to regulate the manufacture, keeping, sale, conveyance and importation of explosives; It is hereby enacted as follows:—

Preamble.

## CHAPTER I.

### PRELIMINARY.

Short title.

**1.** (*1*) This Act may be called the Indian Explosives Act, 1883.

Local extent.

(*2*) It extends to the whole of British India.

Cf. 38 Vic., c. 17, s. 97.]

Saving for manufacture, keeping, sale, conveyance or importation by Government

**2.** Save as provided in section sixty-one, nothing in this Act shall apply to the manufacture, keeping, sale, conveyance or importation of any explosive by order of the Government, or by any person employed under the Government in the execution of this Act or as keeper of a magazine, artizan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer under the Indian Volunteers' Act, 1869, in the course of his employment or duty as such.

XX of 1869.

Saving of Indian Arms Act, 1878.

**3.** Nothing in this Act shall affect the provisions of the Indian Arms Act, 1878.

XI of 1878.

Commencement.

**4.** (*1*) This Act shall come into force on such day as the Governor General in Council, by notification in the *Gazette of India*, appoints.

(*2*) But any notification, order or rule, and any appointment to an office or grant of authority, may be made under this Act at any time after the passing thereof, but shall not take effect until the Act comes into force.

Repeal of enactments.

**5.** On and from the day on which this Act comes into force the Acts mentioned in the first column of the schedule to this Act shall be repealed to the extent mentioned in the third column thereof.

Limitation of application of Madras and Bombay Municipal Acts.

**6.** Nothing in section 322 of Madras Act V of 1878, or in section 225 of Bombay Act III of 1872, shall be deemed to apply to an explosive.

Definitions.

**7.** In this Act, unless there is something repugnant in the subject or context,—

(*1*) "explosive"—

38 Vic., c. 17, s.]

(*a*) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powders, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above-mentioned or not, used or manufactured with a view to produce a practical effect by explosion, or a pyrotechnic effect; and

(*b*) includes fog-signals, fireworks, fuzes, rockets, percussion-caps, detonators, cartridges, ammunition of all descriptions, and every adaptation or preparation of an explosive as above defined:

[38 Vic., c. 17, s. 105.]

(*2*) "manufacture" includes the process of dividing into its component parts, or otherwise breaking up or unmaking, any explosive, or making fit for use any damaged explosive, and the process of re-making, altering or repairing any explosive:

[38 Vic., c. 17, s. 108.]

(*3*) "occupier" includes any number of persons and a body corporate, and, in the case of any manufacture or trade, includes any person carrying on that manufacture or trade:

[*ib.*]

(*4*) "master" includes every person (except a pilot or harbour-master) having for the time being command or charge of a ship; and, in reference to any boat belonging to a ship, means the master of the ship; and, in reference to any other boat, includes every person having for the time being command or charge of that boat:

[New.]

(*5*) "factory" means a place licensed under this Act for the manufacture of an explosive:

[38 Vic., c. 17, s. 108.]

(*6*) "magazine" means a place licensed under this Act for the keeping of an explosive, and includes any ship or other vessel licensed for that purpose:

[New.]

(*7*) "registered place" means a place registered under this Act for keeping an explosive:

[38 Vic., c. 17, s. 108.]

(*8*) "warehouseman" includes all persons owning or managing any warehouse, store, wharf or other place in which goods are deposited:

[*ib.*]

(*9*) "carrier" includes all persons carrying goods or passengers for hire by land or water:

[New]

(*10*) "port" means any port, or any part of a navigable river or channel, in which the Indian Ports Act, 1875, is for the time being in force:

XII of 1875.

[Cf. Act IV of 1879, s. 3.]

(*11*) "railway" means any railway, whether it is used for the public conveyance of passengers or goods or not, and includes—

(*a*) a railway under construction;

(*b*) all lands within the fences or other boundary-marks prescribed under section 52 of the Indian Railway Act, 1879;

IV of 1879.

(*c*) all lines of rail, sidings or branches worked over for the purposes of, or in connection with, a railway;

(*d*) all stations, offices, warehouses, fixed machinery and other works constructed for the purposes of, or in connection with, a railway; and

(*e*) all vessels and rafts used for the purpose of carrying on the traffic of a railway:

[Cf. Act IV of 1879, s. 3.]

(*12*) "railway-administration" means, in the case of a railway worked by Government or a

Native State, the manager of the railway, and, in the case of a railway worked by a company or private individual, the company or individual:

[38 Vic., c. 17, s. 108.] (13) "wharf" includes any quay, landing-place, siding or other place at which goods are landed, loaded or unloaded:

[ib.] (14) "carriage" includes any carriage, waggon, cart, truck, vehicle or other means of conveying goods or passengers by land, in whatever manner the same may be propelled:

[ib.] (15) "ship" includes every description of vessel used in sea-navigation, whether propelled by oars or otherwise:

[ib.] (16) "boat" means every vessel, not a ship as above defined, which is used in navigation in any inland water or any port, whether propelled by oars or otherwise:

[New.] (17) "import" means to bring into British India by sea or land:

Cf. Act VIII of 1881, s. 3.]

[38 Vic., c. 17, s. 108.] (18) "prescribed" means prescribed from time to time by notification of the Governor General in Council:

[ib.] (19) the expression "safety-cartridges" means cartridges for small arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges:

[New.] (20) "Magistrate" means, in the Presidency-towns, a Presidency Magistrate, and elsewhere, a Magistrate of the first class, and includes also any Magistrate whom the Governor General in Council or the Local Government may, by notification, appoint to discharge in any local area the functions of a Magistrate under this Act.

## CHAPTER II.

### GENERAL LAW AS TO MANUFACTURE AND KEEPING OF EXPLOSIVES.

[38 Vic., c. 17, s. 4.] **8.** The manufacture of an explosive shall not, nor shall any process of that manufacture, be carried on except at a factory for that explosive:

Prohibition of manufacture of explosives except at factory.

Provided that nothing in this section shall apply—

(a) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale; or

(b) to the making of any part of an explosive where that part is not itself an explosive and no explosive is used in making it.

[38 Vic., c. 17, s. 5.] **9.** An explosive shall not be kept except—

Prohibition of keeping of explosives except in factory, magazine or registered place.

(a) in the factory in which it is manufactured, or

(b) in a magazine for that explosive, or

(c) in a place registered under this Act for keeping that explosive:

Provided that this section shall not apply—

[38 Vic., c. 17, s. 40 (4).] (a) to a person keeping for his private use, and not for sale, an explosive to an amount not exceeding in the same place the prescribed amount, or

(b) to the keeping of an explosive by a carrier or other person for the purpose of conveyance, when the explosive is being conveyed or kept in accordance with the rules under this Act with respect to the conveyance of explosives.

## CHAPTER III.

### FACTORIES, MAGAZINES AND REGISTERED PLACES.

*(A).—Licensing and Regulation of Factories.*

**10.** (1) The Local Government may make rules as to the licensing and regulation of places as factories for the manufacture of explosives.

[Cf. 38 Vic., c. 17, ss. 6 to 10, & ss. 12, 13 & 26.]

Power of Local Government to make rules as to licensing and regulation of factories

(2) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(a) the authority by which licenses may be granted;

(b) the fees to be charged for licenses, and the other sums (if any) to be paid for expenses by applicants for licenses;

(c) the manner in which applications for licenses are to be made, and the matters to be specified in such applications;

(d) the form in which, and the conditions on and subject to which, licenses are to be granted;

(e) the period for which licenses are to remain in force;

(f) the renewal of licenses and the fee to be paid for their renewal;

(g) the alteration of the terms of licenses by the grant of amending licenses, and the fee to be paid for an amending license;

(h) the devolution and determination of licenses;

(i) the situation, construction, materials and fittings of factories;

(j) the conditions on and subject to which the manufacture, or any process in, or work connected with, the manufacture, of an explosive is to be carried on in any factory;

(k) the descriptions of explosives which may be kept in a factory, and the conditions and restrictions subject to which they may be so kept;

(l) the manner of carrying out repairs in factories; and

(m) the restricting of the employment of persons under the age of sixteen years in factories or in certain parts thereof.

[38 Vic., c. 17, s. 46.]

Provision in favour of occupiers of magazines and registered places making cartridges.

**11.** The occupier of a magazine or registered place shall not be required by this Act or the rules under this Act to take out a factory-license by reason that, in connection with the magazine or place, he fills, for sale or otherwise, any cartridge for small arms with the explosive for the keeping of which the magazine or place is licensed or registered: provided that he observes such rules as the Local Government may make in this behalf.

[38 Vic., c. 17, s. 47.]

Provision in favour of occupiers of magazines adapting or preparing explosives for use in their own mines or quarries.

**12.** The occupier of a magazine shall not be required by this Act or the rules under this Act to take out a factory-license by reason that, in connection with the magazine, he, by filling cartridges, making charges, drying, sifting, fitting or otherwise, adapts or prepares the explosive for the keeping of which the magazine is licensed, for use exclusively in his mine or quarry, or in some excavation or work carried on by him or under his control: provided that he observes such rules as the Local Government may make in this behalf.

*(B).—Licensing and Regulation of Magazines.*

[38 Vic., c 17, ss. 15 to 19 (relating to stores).]

Power of Local Government to make rules as to licensing and regulation of magazines.

**13.** (*1*). The Local Government may make rules as to the licensing and regulation of places as magazines for the keeping of explosives.

(*2*) Rules under this section may, among other matters, provide for all or any of the matters for which rules under clauses (*a*) to (*i*), both inclusive, and clauses (*k*) to (*m*), both inclusive, of section ten may provide in the case of factories.

*(C).—Registration and Regulation of Registered Places.*

[Cf. 38 Vic., c. 17, ss. 21 and 22.]

Power of Local Government to make rules as to registration and regulation of registered places.

**14.** (*1*) The Local Government may make rules as to the registration and regulation of places for the keeping of explosives.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(*a*) the manner in which places may be registered, the period for which registration is to be valid, and the manner in which registration may be renewed;

(*b*) the fees to be paid for registration and renewal of registration;

(*c*) the situation and nature of places which may be registered, the manner in which an explosive is to be kept in those places, and the maximum amount of an explosive which may be so kept; and

(*d*) the descriptions of explosives which may be kept together in the same registered place, and the conditions and restrictions subject to which they may be so kept.

*(D).—Supplemental Provisions.*

[38 Vic., c. 17 ss. 11 and 19.]

Duty of occupier to make special rules for regulation of workmen in his factory or magazine.

**15.** (*1*) Every occupier of a factory or magazine shall make special rules for the regulation of the persons managing or employed in or about his factory or magazine, with a view to secure the observance therein of this Act and the rules under this Act, and the safety and proper discipline of those persons and the safety of the public.

(*2*) The occupier may, and, if required by the Local Government, shall, make rules, repealing, altering or adding to any special rules made under this section.

(*3*) Any rule under this section may contain a provision that any person committing a breach of it shall be punished with fine which may extend to twenty rupees.

(*4*) A rule made under this section shall not take effect until it has been confirmed by the Local Government and notified to the persons managing or employed in or about the factory or magazine in such manner as the Local Government from time to time directs.

## CHAPTER IV.

### SALE OF EXPLOSIVES.

[38 Vic., c. 17 s. 30.]

Sale of explosives on highways or public places prohibited.

**16.** An explosive shall not be hawked, sold or exposed for sale on any highway, street, public thoroughfare or other public place.

[38 Vic., c. 17 s. 31.]

Sale of explosives to children prohibited.

**17.** An explosive shall not be sold to any child apparently under the age of thirteen years.

[38 Vic., c. 17 s. 32 and s. 40 (8).]

Explosives to be sold in cases, closed and labelled.

**18.** Every explosive, exceeding in amount the prescribed amount, shall, when publicly sold or exposed for sale, be in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosive from escaping, and (except when the explosive is sold to any person employed by or on the property occupied by the vendor for immediate use in the service of the vendor or on that property) the outermost receptacle containing the explosive shall have affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the name of the explosive, with the addition of the word "explosive."

## CHAPTER V.

### CONVEYANCE OF EXPLOSIVES.

[38 Vic., 17 s. 33.] c.

Power of Governor General in Council to make rules as to packing of explosives.

**19.** The Governor General in Council may make rules to regulate the packing of explosives for conveyance, and may by those

rules provide for the nature of the packages, cases, bags, canisters or other receptacles in which an explosive is to be contained.

[38 Vic., c. 17, s. 34.]

Power of Local Government to make rules regulating the conveyance, loading, unloading and keeping of explosives in ports.

**20.** (*1*) The Local Government may make rules to regulate the conveyance, loading, unloading and keeping of explosives within any port.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say :—

[Sub-section 1. Cf. Act XII of 1875, s. 7 (*a*).]

(*a*) the notice to be given in the case of ships and boats having any explosive on board within the port ;

[38 Vic., c. 17, s. 34, sub-section 2.]

(*b*) the navigation and place of mooring of those ships and boats ;

[Sub-section 3.]

(*c*) subject to the rules as to packing made under section nineteen, the mode of stowing and keeping an explosive on board any such ship or boat, and of giving notice, by brands, labels or otherwise, of the nature of the package containing the explosive ;

[Sub-section 4.]

(*d*) the description, construction, fitting-up and licensing of the ships, boats or carriages to be used for the conveyance of an explosive, and the licensing and dress of the persons having charge thereof ;

[Sub-section 5.]

(*e*) the prohibition of the conveyance of one explosive with another explosive or any articles or substances, or in passenger-ships, boats, trains or carriages, or the subjection of that conveyance to conditions and restrictions ;

[Sub-section 6.]

(*f*) the prohibition, in cases where the loading or unloading of an explosive within the limits of the port appears to be specially dangerous to the public, of loading or unloading within those limits, and the fixing of the times and places at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded, or conveyed at one time or in one ship, boat or carriage ;

[Sub-section 7.]

(*g*) the mode of, and the precautions to be observed in, conveying an explosive, and in the loading or unloading any ship, boat or carriage conveying an explosive, and the time during which the explosive may be kept during the conveyance, loading or unloading ;

[Cf. Act XII of 1875, s. 7, (*c*), ss. 28, 29, 30, 31 and 32.]

(*h*) the fixing the cases in which an explosive is to be taken out of a ship for the purpose of being deposited, the places in which the explosive so taken out is to be deposited, the appointing of an officer to receive the explosive, and the manner in which, and the conditions on and subject to which, the explosive is to be deposited in and removed from those places

(*i*) the times at which lights or fires are to be allowed or not allowed on board the ships or boats having an explosive on board, or at which a Police-officer or other person authorized in this behalf by the conservator of the port is to be on board them ; [38 Vic., c. 17, s. 34, sub-section 8.]

(*j*) the publication and supply to the public of copies of these rules ; [Sub-section 9.]

(*k*) the enforcing the observance of this Act and the rules under this Act both by the officers of the port and also by other persons when within the limits of the port ; and [Sub-section 10.]

(*l*) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger. [Sub-section 11.]

Power on breach of rule to require ship, boat, carriage or explosive to be dealt with in conformity with rule

**21.** (*1*) In the event of any breach of a rule under section twenty, in the case of any ship, boat, carriage or explosive, whether there has or has not been any conviction for the breach, the conservator of the port or other officer named in the rules, or any person acting under the orders of the conservator, may cause the ship, boat, carriage or explosive, at the expense of the owner thereof, to be removed to such place or otherwise dealt with in such manner as may be in conformity with the rule.

(*2*) All expenses incurred in the removal may be recovered in like manner as a fine under this Act.

Duty of railway-administration to make rules regulating the conveyance, loading, unloading and keeping of explosives on its railway.

**22.** (*1*) Every railway-administration shall make rules to regulate the conveyance, loading, unloading and keeping of explosives on its railway. [Cf. 38 Vic., c. 17, s. 35.]

(*2*) The railway-administration may, and, if required by the Governor General in Council, shall, make rules repealing, altering or adding to any rules made under this section.

(*3*) Rules under this section may provide for all or any of the following among other matters, that is to say :—

(*a*) the notice to be given of the intention to send an explosive for conveyance on the railway ; [Sub section 1.]

(*b*) subject to the rules as to packing made under section nineteen, the mode of stowing and keeping an explosive for conveyance, and of giving notice by brand, labels or otherwise of the nature of the package containing the explosive ; [Sub-section 2.]

(*c*) the description and construction of carriages, ships or boats to be used in the conveyance of an explosive ; [Sub-section 3.]

(*d*) the prohibition of the conveyance of one explosive with another explosive or with any articles or substances or in passenger- [Sub-section 4.]

trains, carriages, ships or boats, or the subjection of that conveyance to conditions and restrictions;

[Sub-section 3.] (*e*) the places and times at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded or conveyed at one time or in one carriage, ship or boat;

[Sub-section 3.] (*f*) the precautions to be observed in conveying an explosive and in loading and unloading the carriages, ships or boats used in the conveyance of an explosive, and the time during which the explosive may be kept during that conveyance, loading and unloading;

[Sub-section 3.] (*g*) the enforcing the observance of this Act and the rules under this Act by its servants and agents, and also by other persons when on the railway; and

[Sub-section 3.] (*h*) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger.

[Cf. 38 Vic., c. 7, s. 37] **23.** (*1*) The Governor General in Council may make rules to regulate the conveyance, loading, unloading and keeping of explosives in any case in which rules made under section twenty or section twenty-two do not apply.

Power of Governor General in Council to make rules for the conveyance, loading, unloading and keeping of explosives in certain cases.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

[Sub section 1.] (*a*) the description and construction of the carriages to be used in the conveyance of an explosive;

[Sub-section 2.] (*b*) the prohibition of the conveyance of one explosive with another explosive or with any articles or substances, or in passenger-carriages, or the subjection of that conveyance to conditions and restrictions;

[Sub-section 3.] (*c*) the places and times at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded, or conveyed at one time and in one carriage;

[Sub-section 4.] (*d*) the precautions to be observed in conveying an explosive and in loading and unloading the carriages used in that conveyance, and the time during which the explosive may be kept during that conveyance, loading and unloading;

[Sub-section 5.] (*e*) the publication and supply to the public of copies of these rules; and

[Sub-section 6.] (*f*) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger.

(*3*) For the purpose of any mode of conveyance which is not a conveyance by land, this section shall be construed as if ship and boat were included in the term "carriage".

[Cf. 38 Vic., c. 17, ss. 34, 35 & 37.] **24.** The authority making any rule under section twenty, section twenty-two or section twenty-three may annex to any breach or attempt to commit a breach of the rule the following penalties, which may be imposed on such persons and graduated in such manner as may be deemed just, according to the gravity of the offence, and according as it may be a first, second or other subsequent offence, that is to say:—a fine which may extend to two hundred rupees for each breach and to one hundred rupees for each day during which the breach continues, and forfeiture of all or any part of the explosive in respect of which, or being in the carriage, ship or boat, or train of carriages, ships or boats, as the case may be, in respect of which, the breach of the rule has taken place.

Penalties which may be annexed to breach of rules under sections 20, 22 and 23

## CHAPTER VI.

### IMPORTATION OF EXPLOSIVES.

[38 Vic., c. 17, s. 40 (9).] **25.** Dynamite or gun-cotton or any explosive (other than gunpowder, cartridges made with gunpowder, percussion-caps, fireworks and any prescribed explosive) shall not be imported except under a license, and in the manner and to the extent permitted by that license.

Importation of certain explosives prohibited except under license.

[38 Vic., c. 17, s. 40 (9) (*b*).] **26.** (*1*) The Governor General in Council may make rules to regulate the grant of licenses required under section twenty-five.

Power of Governor General in Council to make rules as to such importation.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(*a*) the officers by whom, the form in which and the terms and conditions as to the composition and quality of the explosive, the unloading, landing, transhipment, delivery and conveyance thereof, and the protection of the public from danger, on and subject to which licenses may be granted;

(*b*) the period for which licenses are to continue in force and the persons for whom licenses are to be available; and

(*c*) the fees to be paid for licenses.

[38 Vic., c. 17, s. 40 (9) (*c*).] **27.** The officers of sea customs at every port shall have the same power with respect to any explosive to which section twenty-five applies and the ship containing that explosive as they have for the time being with respect to any article on the importation of which restrictions are imposed by the law relating to sea customs and the ship containing the same; and the enactments for the time being in force relating to sea customs or any such article or ship shall apply accordingly.

Powers of Customs officers.

## CHAPTER VII.

### SPECIALLY DANGEROUS EXPLOSIVES.

[38 Vic., c. 17, s. 43: Cf. Act XI of 1878, s. 10.]

Power of Governor General in Council to prohibit the manufacture, keeping, importation, conveyance and sale of specially dangerous explosives.

**28.** (*1*) Notwithstanding anything in this Act or in the rules under this Act, the Governor General in Council may, by notification—

(*a*) regulate or prohibit, either altogether or except under a license, and to the extent and in the manner permitted by that license, the manufacture, keeping, importation, conveyance and sale, or any of them, of any explosive which is of so dangerous a character that, in the opinion of the Governor General in Council, it is expedient for the public safety to issue such a notification; and

(*b*) cancel any notification under this section.

[38 Vic., c. 17, s. 43.]

(*2*) The officers of sea customs at every port shall have the same power with respect to any explosive with regard to which a notification has been issued under this section and the ship containing the explosive as they have for the time being with respect to any article the importation of which is prohibited or regulated by the law relating to sea customs and the ship containing the same; and the enactments for the time being in force relating to sea customs or any such article or ship shall apply accordingly.

## CHAPTER VIII.

### GOVERNMENT SUPERVISION.

#### (*A*).—*Inspection.*

[38 Vic., c. 17, s. 53: Cf. Act XV of 1881, s. 3.]

Appointment and duties of Government Inspectors.

**29.** (*1*) The Local Government may, in its discretion, by notification appoint such persons as it thinks fit to be Inspectors for the purposes of this Act, and suspend or remove any person so appointed.

(*2*) The persons so appointed shall, within such local area as the Local Government may from time to time direct, exercise the powers and perform the duties conferred and imposed by this Act and the rules under this Act on an Inspector.

(*3*) Every such Inspector (in this Act referred to as a Government Inspector) shall be deemed a public servant within the meaning of the Indian Penal Code, and shall be officially subordinate to such authority as the Local Government may, from time to time, indicate in this behalf.

XLV of 1860.

(*4*) The Local Government may make rules assigning and regulating the duties of Government Inspectors under this Act.

[38 Vic., c. 17, s. 55.]

Powers of Government Inspectors.

**30.** (*1*) A Government Inspector shall, within the local area for which he is appointed, make such examinations and enquiries as may be necessary to ascertain whether this Act and the rules under this Act are complied with, and may for that purpose—

(*a*) enter, inspect and examine any factory or magazine and every part thereof, at all times by day and night, but so as not to unnecessarily impede or obstruct the work in the factory or magazine, and make enquiries as to the observance of this Act and the rules under this Act, and as to all matters and things relating to the safety of the public or of the persons employed in or about the factory or magazine;

(*b*) enter, inspect and examine any registered place, and every part thereof, in which any explosive is kept or is reasonably supposed by him to be kept, at all reasonable times by day; and

(*c*) require the occupier of any factory, magazine or registered place which he is entitled under this section to enter, or any person employed by the occupier therein, to give him samples of any explosive or ingredients of an explosive therein, or of any substance therein, the keeping of which is restricted or regulated by or under this Act or the rules under this Act, or of any substance therein which he believes to be an explosive, or such ingredients or substance.

(*2*) The occupier of every factory, magazine or registered place referred to in this section, his agents and servants, shall furnish the means required by the Inspector as necessary for any entry, inspection, examination or inquiry under this section.

[38 Vic., c. 17, s. 56.]

Notice by Government Inspector to remedy dangerous practice.

**31.** (*1*) If in any matter (not provided for by any express provision of this Act or of the rules under this Act) a Government Inspector finds that any factory or magazine, or any part thereof, or any thing or practice therein or connected therewith, is unnecessarily dangerous or defective, so as in his opinion to tend to endanger the public safety or the bodily safety of any person, the Inspector may require the occupier of the factory or magazine to remedy the same.

(*2*) Where the occupier objects to comply with a requisition under this section, he may, within one month from the date of the requisition, apply to any Magistrate within the local limits of whose jurisdiction the factory or magazine is, for a decision in the matter; and the decision of the Magistrate shall be final.

(*3*) If the occupier does not apply to a Magistrate as provided by sub-section (2), he shall be bound to comply with the requisition of the Inspector.

(*4*) No person shall be precluded by any contract from doing such acts as may be necessary to comply with a requisition or decision under this section, and no person shall be liable under any

contract to any penalty or forfeiture for doing any such act if he gave notice of the contract to the Inspector at or before the time at which the Inspector made the requisition, or to the Magistrate before his decision was given.

[38 Vic., c. 17, s. 68 (b).]

Inspection in ports and of ships.

**32.** (*1*) The Local Government may, by notification, order any person acting as an Inspector or otherwise for the purpose of the Acts relating to merchant shipping for the time being in force to inquire into the observance of this Act or the rules under this Act in any port or in the case of any ship, and generally to act in that port and with respect to ships as a Government Inspector under this Act.

(*2*) Each person so ordered shall, while the order is in force, have for that purpose the same powers and authorities as he has under the Acts in pursuance of which he was originally appointed Inspector, and also the powers and authorities of a Government Inspector under this Act and the rules for the time being in force under it.

(*3*) The Local Government may revoke any order under this section.

[38 Vic., c. 17, s. 75.]

Inspection of wharf, carriage, ship or boat with explosives in transit.

**33.** Any Government Inspector, or any officer who may by name or in right of his office be authorized by the Local Government in this behalf, may, if he has reasonable cause to suppose an explosive to be for the purpose of or in course of conveyance on or in the wharf, carriage, ship or boat of any carrier, or of the occupier of any factory or magazine or of the importer of any explosive, enter, inspect and examine at any time the wharf, carriage, ship or boat for the purpose of ascertaining whether the provisions of this Act or the rules under this Act with respect to the conveyance, loading, unloading and importation of an explosive are complied with, but so as not to unnecessarily obstruct the work or business of the carrier, occupier or importer.

(*B*).—*Accidents.*

38 Vic., c. 17, s. 63. M. Act IV of 1879, s. 6.]

Notice to be given of accidents.

**34.** Whenever there occurs in or about, or in connection with, any factory, magazine or registered place, or any carriage, ship or boat, either conveying an explosive, or on or from which an explosive is being loaded or unloaded,—

(*a*) any accident by explosion or by fire attended with loss of human life or serious injury to person or property, or

(*b*) any such accident of a description usually attended with such loss or injury, or

(*c*) any accident of any other description which may be prescribed in this behalf,

the occupier of the factory, magazine or registered place, or the master of the ship or boat, or the person in charge of the carriage, as the case may be, shall forthwith give notice thereof to the nearest Magistrate.

[38 Vic., c. 17, s. 66.]

Inquiry into accidents.

**35.** (*1*) If in any such case an inquiry into the cause of the accident appears to the Magistrate to whom notice has been given under section thirty-four to be necessary, the Magistrate may either himself make the inquiry or direct a Government Inspector or a Magistrate subordinate to himself to make the inquiry.

(*2*) Any Magistrate or Government Inspector making an inquiry under this section shall, for the purposes of conducting the inquiry, have all the powers which he would have in holding an inquiry into an offence under the Code of Criminal Procedure. X of 1882.

(*C*).—*Power of Search.*

[38 Vic., c. 17, s. 73.] [Cf. Act I of 1878, s. 14.]

Power of Government Inspector and certain other officers to search for explosives.

**36.** (*1*) Where any Government Inspector, or any officer who may by name or in right of his office be authorized by the Local Government in this behalf, has reasonable cause to believe that any offence has been or is being committed with respect to an explosive in any place (whether a building or not, or a carriage, boat or ship), or that any explosive is in that place in contravention of this Act or of the rules under this Act, or that the provisions of this Act or of those rules are not duly observed in that place, the Inspector or officer may, on producing, if demanded, in the case of an Inspector, a copy of the notification appointing him, and, in the case of any other officer, of the order authorizing him, enter at any time, and, if need be, by force, that place and every part thereof, and examine the place, and search for explosives therein, and take samples of any explosive or ingredient of any explosive therein, or of any substance reasonably supposed to be an explosive or an ingredient of an explosive which may be found therein.

[Cf. Act I of 1878, s. 16.]

(*2*) All searches under this section shall be made in accordance with the provisions of the Code of Criminal Procedure. X of 1882.

[Cf. Act I of 1878, s. 21: 38 Vic., c. 38, s. 73, last para.]

(*3*) When any officer other than a Government Inspector enters and searches as by this section provided, he shall within forty-eight hours make a full report of all the particulars of the entry and search to his immediate official superior.

[38 Vic., c. 17, s. 35, paragraph 3.]

Power of Government Inspector and certain officers to stop, enter, inspect and examine carriages or boats in case of emergency.

**37.** (*1*) If any Government Inspector or any officer of any of the Departments of Excise, Police, Customs, Salt, Opium or Revenue, superior in rank to a peon or constable, has reasonable cause to suppose that any offence against this Act or the rules under this Act is being committed in respect of any carriage (not being on a railway) or any boat conveying, loading or unloading any explosive, and that the case is one of emergency, and that delay will be likely to endanger life, he may stop and enter, inspect and examine the carriage or boat, and by detention or removal thereof or otherwise take such precautions as may be reasonably necessary for removing the danger, in like

manner as if the explosive were liable to forfeiture.

[38 Vic., c. 17, s. 75, para. 4] (2) Every such officer shall, for the purposes of this section, have the same powers and be in the same position as if he were an officer authorized by the Local Government under section thirty-six to search for explosives.

*(D).—Power of Seizure and Detention.*

[38 Vic., c. 17, s. 74] Seizure and detention of explosives liable to forfeiture.

**38.** Where any Government Inspector, or any officer authorized as provided by section thirty-six, has reasonable cause to believe that any explosive or ingredient of an explosive or substance found by him is liable to be forfeited under this Act or the rules under this Act, he may seize and detain the same until a Magistrate has determined whether the same is or is not liable to be forfeited.

38 Vic., c. 17, s. 74] Power of Local Government to make rules to regulate seizure and detention of explosives.

**39.** The Local Government may make rules to regulate the seizure and detention of any explosive or ingredient of any explosive or substance under section thirty-eight, and may by those rules empower the Government Inspector or officer seizing the explosive or ingredient or substance—

(*a*) to require the occupier of the place in which it was seized (whether a building or not, or a carriage, boat or ship) to detain it in that place or in any place under the control of the occupier; or

(*b*) to remove it in such manner and to such place as will in the opinion of the Government Inspector or officer least endanger the public safety, and there to detain it, or

(*c*) in any case which appears to the Government Inspector or officer to be urgent and fraught with serious public danger, to take a sample of it and cause the rest of it to be destroyed or otherwise rendered harmless.

Cl. (2). Proceedings before Magistrate to be commenced as soon as practicable.

**40** The proceedings before a Magistrate for determining whether an explosive or ingredient of an explosive or substance is or is not liable to forfeiture shall be commenced as soon as practicable after the seizure.

Cl. (3)] Power to seize receptacles.

**41.** The receptacles containing an explosive or ingredient of an explosive or substance may be seized, detained and removed in like manner as the contents thereof.

Cl. (4)] Power to use ship, boat, carriage, &c., in which explosives are seized.

**42.** The Government Inspector or officer seizing an explosive or ingredient of an explosive or substance may use for the purposes of the removal and detention thereof any ship, boat or carriage in which it was seized, and any tug, tender, engine, tackle, beasts and accoutrements belonging to, or drawing or provided for drawing, that ship, boat or carriage, and shall pay to the owner a reasonable compensation for the use, to be determined in case of dispute by a Magistrate, and to be recovered in like manner as a fine under this Act.

*(E).—Samples.*

[38 Vic., c. 17, s. 76.] Payment for samples of explosives.

**43.** When a Government Inspector or other officer in pursuance of this Act or the rules under this Act takes samples of any explosive or ingredient of an explosive or substance, he shall pay for or tender payment for those samples to such amount as he considers to be the market-value thereof, and the occupier of the place in which, or the owner of the bulk from which, the sample was taken may recover any excess of the real value over the money so paid or tendered, and any amount so tendered, from the Inspector or other officer taking the sample, as a debt, in the Small Cause Court, or, if there is no Small Cause Court, in the Civil Court having jurisdiction.

## CHAPTER IX.

### PENALTIES AND LEGAL PROCEEDINGS.

[38 Vic., c. 17, s. 4] Penalty for illegal manufacture of explosives.

**44.** If an explosive is manufactured in contravention of section eight, or of a notification under section twenty-eight—

(*a*) the explosive and all the ingredients of the explosive, which may be found either in or about the place at which the explosive is manufactured, or in the possession, or under the control, of any person convicted under this section, shall be liable to be forfeited; and

(*b*) the person manufacturing the explosive shall be punished with fine which may extend to one thousand rupees for each day on which he so manufactures.

[38 Vic., c. 17, s. 5] Penalty for illegal keeping of explosives.

**45** If any explosive is kept in contravention of section nine, or of a notification under section twenty-eight—

(*a*) all the explosives found in the place at which the explosive is kept shall be liable to be forfeited, and

(*b*) the occupier of that place, and also any person guilty of keeping the explosive, shall each be punished with fine which may extend to one rupee for each pound of the explosive so kept.

[38 Vic. c. 17 s. 10; but cf. s. 9 as to amount of penalty.] Penalty for breach of rules for regulation of factories.

**46.** In the event of a breach in any factory of any of the rules under section ten for the regulation of factories—

(*a*) the explosive or ingredients thereof with respect to which, or being in any building or machine with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend in the case of a first breach to five hundred rupees, and in the case of any subsequent breach to one thousand rupees, and to five hundred rupees in addition for each day during which the breach continues.

[38 Vic., c. 17, s. 17, which relates to stores.]

**47.** In the event of a breach in any magazine of the rules for the regulation of magazines under section thirteen, or of any rules under section eleven or section twelve—

Penalty for breach of rules for regulation of magazines.

(*a*) the explosive with respect to which, or being in the magazine when, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend in the case of a first breach to one hundred rupees, and in the case of any subsequent breach to one hundred rupees in addition for each day during which the breach continues.

[38 Vic., c. 17, s. 22.]

**48.** In the event of a breach in any registered place of the rules for the regulation of registered places under section fourteen, or of any rules under section eleven—

Penalty for breach of rules for regulation of registered places.

(*a*) the explosive with respect to which, or being in any house, building, place, safe or receptacle with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend to one rupee for each pound of the explosive with respect to which, or being at the place in which, the breach was committed.

[38 Vic., c. 17, s. 30, 32.]

**49.** If any explosive is hawked, sold or exposed for sale in contravention of section sixteen or section eighteen—

Penalty for illegal sale of explosives in public places.

(*a*) the explosive which is so exposed for sale, and any explosive found in the possession of any person convicted under this section, shall be liable to be forfeited; and

(*b*) the person hawking or selling the explosive, or exposing it for sale, shall be punished with fine which may extend to twenty rupees.

[38 Vic., c. 17, s. 31.]

**50.** Whoever sells an explosive in contravention of section seventeen shall be punished with fine which may extend to fifty rupees.

Penalty for selling explosives to children.

[38 Vic., c. 17, s. 40 (8).]

**51.** If the name of the explosive affixed to the outermost receptacle containing an explosive is materially false, the person selling the explosive or exposing it for sale shall be punished with fine which may extend to five hundred rupees.

Penalty for affixing false name to receptacle containing explosives.

[38 Vic., c. 17, s. 33.]

**52.** In the event of a breach of any rules as to the packing of explosives under section nineteen—

Penalty for breach of rules as to packing of explosives

(*a*) the explosive with respect to which the breach is committed shall be liable to be forfeited; and

(*b*) the person guilty of the breach shall be punished with fine which may extend to two hundred rupees.

[17 & 18 Vic. c. 7, s. 40 (6) (*c*); Cf. Indian Penal Code, 186.]

**53.** Whoever resists the conservator, or other officer named in the rules under section twenty, or any person acting under the orders of the conservator, when causing any ship, boat, carriage or explosive to be removed under section twenty-one, shall be punished with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both.

Penalty for obstructing conservator or other person.

[38 Vic., c. 17, s. 40 (*d*).]

**54.** In the event of a breach of the provisions of section twenty-five with respect to the importation of an explosive, or of the provisions of a license to import an explosive granted under section twenty-six—

Penalty for breach of provisions as to importation of an explosive or of the provisions of an importation-license.

(*a*) the explosive with respect to which, or being in any ship or boat with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the owner and master of the ship or boat, and the licensee or person to whom the explosive is delivered, shall each be liable to a fine which may extend in the case of a first offence to one thousand rupees, and in the case of any subsequent offence to two thousand rupees.

[38 Vic., c. 17, s. 48.]

**55.** If any explosive is imported or sold in contravention of a notification under section twenty-eight—

Penalty for importing or selling specially dangerous explosives in contravention of notification.

(*a*) the explosive shall be liable to be forfeited;

(*b*) the owner and master of the ship in which the explosive is imported shall each be punished with fine which may extend to five rupees for every pound of the explosive brought in the ship; and

(*c*) the person selling and the person buying the explosive shall each be punished with fine which may extend to five rupees for each pound of the explosive sold.

**56.** If any explosive is conveyed in contravention of a notification under section twenty-eight—

Penalty for conveying specially dangerous explosives in contravention of notification.

(*a*) the explosive shall be liable to be forfeited; and

(*b*) the master of the ship or boat or the person in charge of the carriage in which the explosive is conveyed, as the case may be, shall be punished with fine which may extend to five rupees for each pound of the explosive so conveyed.

[Cf. Act 1 of 1878, s. 18.]

**57.** Any Government Inspector or officer authorized under section thirty-three or section thirty six, or referred to in section

Penalty for vexatious entries, searches and seizures.

thirty-seven, who—

(*a*) without reasonable ground of suspicion enters or searches, or causes to be entered or searched, any building, carriage, boat or ship, or

(*b*) vexatiously and unnecessarily seizes the property of any person on the pretence of seizing or searching for any explosive or other thing liable to be forfeited under this Act or the rules under this Act,

shall for every such offence be punished with fine which may extend to five hundred rupees.

[38 Vic., c. 17, s. 77.]

**58.** Whoever enters without permission or otherwise trespasses on any factory or magazine, or the land immediately adjoining thereto which is occupied by the occupier of that factory or magazine, shall be punished with fine which may extend to fifty rupees, and may be forthwith removed from the factory, magazine or land by any Police-officer, or by the occupier of the factory or magazine, or by any agent or servant of, or other person authorized by, the occupier.

Penalty on, and removal of, trespassers.

[38 Vic., c. 17, s. 77, para. 2.]

**59.** Whoever, other than the occupier of, or a person employed in or about, a factory or magazine is found committing any act which tends to cause explosion or fire in or about a factory or magazine shall be punished with fine which may extend to five hundred rupees.

Penalty on persons committing act tending to cause explosion or fire in or about factories or magazines.

[38 Vic., c. 17, s. 77, para. 3.]

**60.** The occupier of every factory or magazine shall put up in some conspicuous place or places a notice or notices warning all persons of their liability to penalties under the last two foregoing sections; but the absence of a notice or notices shall not exempt a person from punishment under those sections.

Occupier to put up notices warning persons of liability under last two sections.

[38 Vic., c. 17, s. 97, proviso.]

**61.** Whoever enters without permission, or otherwise trespasses on, any place in the occupation of the Government where any explosive is manufactured or stored, or the land immediately adjoining thereto in the occupation of the Government, or of the officer or person in charge of that place, and any person found committing any act tending to cause explosion or fire in or about any such place, shall be liable to the like penalty, and may be removed and arrested in like manner, as if the place were a factory or magazine to which this Act applies.

Penalty for trespass, &c., on Government manufactory or store.

[38 Vic., c. 17, s. 78.]

**62.** Whoever is found committing any act for which he is punishable under this Act or the rules under this Act, and which tends to cause explosion or fire in or about any factory, magazine, railway or port, or any carriage, ship or boat, may be apprehended without a warrant by a Police-officer, or by the occupier of, or the agent or servant of, or other person authorized by the occupier of, that factory or magazine, or by any agent or servant of, or other person authorized by, the railway-administration or conservator of the port, and be removed from the place where he is arrested, and conveyed as soon as conveniently may be before a Magistrate.

Power to arrest without warrant persons committing dangerous offences.

[38 Vic., c. 17, s. 82.]

**63.** Whoever without due authority pulls down, injures or defaces any notice, copy of rules or document when affixed in pursuance of this Act or of the rules under this Act, shall be punished with fine which may extend to twenty rupees.

Penalty for pulling down, injuring or defacing notices.

[38 Vic., c. 17, s. 87.]

**64.** (*1*) Where any offence under this Act or the rules under this Act, for which the occupier of any factory, magazine or registered place is liable to a penalty or forfeiture, has in fact been committed by some other person, that other person shall be punished with fine which may extend to two hundred rupees.

Exemption of occupier, &c., from penalty on proof of offence having been committed by another person.

(*2*) Where any occupier is liable under this Act or the rules under this Act to a penalty or forfeiture for an offence committed by some other person, the occupier shall be exempt from the penalty or forfeiture on proving that he had supplied proper means and issued proper orders for the observance, and used due diligence to enforce the observance, of this Act and the rules under this Act, and that the offence in question was actually committed by some other person without his connivance, and, if the actual offender is alive, that he has taken all practicable means in his power to prosecute the offender to conviction.

[38 Vic., c. 17, s. 87, para. 4.]

(*3*) The occupier or other accused, when charged in respect of any offence committed by another person, may, if he think fit, be examined as a witness in the case.

[38 Vic., c. 17, s. 87, para. 5.]

(*4*) Where any offence under this Act for which any warehouseman, or carrier, or the owner or master of any ship, boat or carriage is liable to a penalty or forfeiture, has in fact been committed by some other person, this section shall apply in like manner as if the warehouseman, carrier, owner or master were such an occupier as in this section mentioned.

[38 Vic., c. 17, s. 88.]

**65.** Where a carrier, or an owner or master of a ship or boat, is prevented from complying with this Act or the rules under this Act by the wilful act, neglect or default of the consignor or consignee of the explosive, or other person, or by the improper refusal of the consignee or other person to accept delivery of the explosive, the consignor, consignee or other person, who is guilty of that wilful act, neglect, default or refusal shall be liable to the same penalty to which the carrier, owner or master is

Exemption of carrier or owner or master of ship where consignor, &c., is in fault.

liable for a breach of this Act or those rules; and his conviction shall exempt the carrier, owner or master from any penalty or forfeiture under this Act or those rules.

[38 Vic., c. 17, s. 26]

**Provisions as to forfeiture.**

**66.** (*1*) In any case in which any explosive or ingredient of an explosive or any substance is liable to be forfeited under this Act or the rules under this Act, the convicting Magistrate may direct the whole or any part of the explosive, ingredient or substance, together with the receptacles containing the explosive, ingredient or substance to be forfeited.

[38 Vic., c. 17, s. 29, para. 2]

(*2*) Where any explosive or ingredient of an explosive or any substance is alleged to be liable under this Act or the rules under this Act to be forfeited, proceedings may be instituted in the Court of any Magistrate, within the local limits of whose jurisdiction the explosive, ingredient or substance is, against the owner of the explosive, ingredient or substance, for the purpose only of enforcing the forfeiture, and, where the owner is unknown or cannot be found, the Magistrate may cause a notice to be published in such manner as he thinks fit stating that, unless cause is shown to the contrary at the time and place named in the notice, the explosive, ingredient or substance will be forfeited, and if cause is not so shown, the Magistrate, after hearing the owner or any person on his behalf (if present), may order all or any part of the explosive, ingredient or substance to be forfeited

[38 Vic., c. 17, s. 30, para 1]

(*3*) Where a Court before whom a person is convicted of an offence against this Act or the rules under this Act has power to order a forfeiture of any explosive or ingredient of an explosive or any substance owned by, or found in the possession or under the control of, that person, the Court may, if it thinks fit, in lieu of ordering a forfeiture of that explosive, ingredient or substance sentence that person, in addition to any other punishment, to a fine which may extend to such sum as appears to the Court to be the value of the explosive, ingredient or substance.

[38 Vic., c 17, s. 25.] [Cf. Act XXI of 1875, s 23.

**Distress of ship or boat**

**67.** Where the owner or master of a ship or boat is adjudged to pay a fine for an offence committed with or in relation to that ship or boat, the Court may, in addition to any other power it may have for the purpose of compelling payment of the fine, direct it to be levied by distress and sale of the ship or boat, and the tackle, apparel and furniture thereof, or so much thereof as is necessary.

## CHAPTER X.

### SUPPLEMENTAL.

[38 Vic., c. 17, s. 72]

**Provision of magazine by municipal committee.**

**68.** (*1*) When any municipal committee satisfies the Local Government that the erection of a magazine by the committee either within or without the limits of the municipality would conduce to the safety of the public within the limits of the municipality, and would not be injurious to the public without those limits, the Local Government may grant to that municipal committee a license under this Act for a magazine.

(*2*) The municipal committee may, for the purpose of any license under this section, acquire any land or right over land, or appropriate any land or right belonging to it, and acquire or build a magazine, and may maintain and manage the magazine, and may charge for the use by persons of the magazine such reasonable sums as it may, from time to time, with the approval of the Local Government, fix.

(*3*) The amount of all sums charged, and the amount of all expenditure incurred, for the purposes of this section by any municipal committee shall respectively be credited to, and paid from, the municipal fund. [Cf. Act XIII of 1880, s. 28]

(*4*) When any land is required by a municipal committee for the purposes of this section, if the municipal committee cannot agree with the owner for the purchase thereof, the Local Government may, on the request of the municipal committee, proceed to acquire it under the provisions of the Land Acquisition Act, 1870, and, on payment by the municipal committee of the compensation awarded under that Act, the land shall vest in it for the purposes of this section. [Cf. Act XV of 1879, s. 13 Act XV of 1874, s. 39] X of 1870.

(*5*) In this section "municipal committee" includes a municipal corporation or a body of municipal commissioners constituted by or under the provisions of any enactment for the time being in force. [Cf Act XI of 1881, s. 2.]

**Provisions in favour of the keeping and conveyance of percussion caps safety fuzes for blasting, fog signals and prescribed explosives**

**69** (*1*) A person shall not be required by this Act or the rules under this Act to take out a license or to register any premises for the keeping of percussion-caps, or safety-fuzes for blasting, or fog-signals kept by any railway-administration for use on the railway of that railway-administration, or any prescribed explosive. [38 Vic., c. 17, s. 30.]

(*2*) It shall not be obligatory on a railway-administration making rules under section twenty-two to make any rules with respect to the conveyance, loading, unloading or keeping of any explosive to which this section applies.

(*3*) The Governor General in Council may, by notification, exempt any explosive to which this section applies, or any description thereof, from any other of the provisions of this Act or from any of the rules under this Act, or may declare that a license shall be required for the keeping of any explosive to which this section applies, or any description thereof, or that rules shall be made with respect to the loading, unloading, conveyance or keeping thereof.

**Exemption of safety-cartridges for private use.**

**70.** Nothing in this Act or in the rules under this Act shall apply to the filling or conveying for private use, and not for sale, of any safety-cartridges to the amount allowed by this Act or those rules to be kept for private use. [38 Vic., c. 17, s. 41.]

[38 Vic, c. 17, s. 100.]

**71.** Nothing in this Act or the rules under this Act shall render liable to any penalty or forfeiture the owner or master of any ship or boat, or any carrier or warehouseman, or the person having charge of any carriage, for any act done in breach of this Act or those rules, if he proves that, by reason of stress of weather, inevitable accident or other emergency, the doing of that act was under the circumstances necessary and proper.

Saving for owner or master of ship, carrier and others in case of emergency.

[38 Vic, c. 17, s. 102.]

**72.** Nothing in this Act or the rules under this Act shall—

Saving as to liability under other law.

(*a*) exempt, save as is in this Act or those rules expressly provided, any person from any suit which might, but for the provisions of this Act or those rules, have been brought against him; or

(*b*) prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act or those rules, or from being liable under that other law to any other or higher punishment or penalty than that provided by this Act or those rules: provided that no person shall be punished twice for the same offence.

[New: Ct. Act VIII of 1878, s. 136: Act XI of 1878, s. 33.]

**73.** No proceeding other than a suit shall be commenced against any person for anything done in pursuance or in alleged pursuance of this Act or of the rules under this Act until at least one month's previous notice in writing of the intended proceeding and of the cause thereof has been given to him, nor after the expiration of three months from the accrual of that cause.

Notice and limitation of proceedings.

[38 Vic., c. 17 s. 104.]

**74.** The Governor General in Council may, by notification, declare that any substance which appears to the Governor General in Council to be specially dangerous to life or property, by reason either of its explosive properties, or of any process in the manufacture thereof being liable to explosion, shall be deemed to be an explosive within the meaning of this Act and of the rules under this Act; and the provisions of this Act and of those rules (subject to such exceptions, limitations and restrictions as may be specified in the notification) shall accordingly extend to that substance in like manner as if it were included in the term "explosive" in this Act.

Extension of definition of "explosive" to other explosive substances.

**75.** (*1*) Every authority having power to make rules under any section of this Act other than section fifteen or section twenty-nine, shall, before making the rules, publish a draft of the proposed rules for the information of persons likely to be affected thereby.

Procedure for making, publication and confirmation of rules.

(*2*) The publication shall be made, in the case of rules made by the Governor General in Council, in such manner as may in his opinion be sufficient for giving information to persons interested, and in the case of rules made by any other authority, in the prescribed manner.

(*3*) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(*4*) The authority shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified

(*5*) A rule made under this Act by a Local Government or railway-administration shall not take effect until it is confirmed by the Governor General in Council.

(*6*) Every rule made under this Act by a Local Government and confirmed by the Governor General in Council shall be published in the local official Gazette.

(*7*) Every rule made under this Act by a railway-administration and confirmed by the Governor General in Council, and every rule made under this Act by the Governor General in Council, shall be published in the *Gazette of India*

(*8*) The publication in the local official Gazette, or, as the case may be, in the *Gazette of India*, of a rule purporting to be made under this Act, shall be conclusive evidence that it has been duly made, and, if it requires confirmation, that it has been duly confirmed.

(*9*) All powers to make rules conferred on any authority by this Act may be exercised from time to time as occasion requires.

**76.** (*1*) Save as provided in section four, all powers to issue notifications conferred by this Act on the Governor General in Council or the Local Government may be exercised from time to time as occasion requires.

Issue and publication of notifications

(*2*) A notification issued by the Governor General in Council or the Local Government under this Act shall not take effect until it has been published in the *Gazette of India* or the local official Gazette, as the case may be.

## THE SCHEDULE.

(*See section 5.*)

ENACTMENTS REPEALED.

(*a*) *Acts of the Governor General in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| XIII of 1856 ... | For regulating the police of the towns of Calcutta, Madras and Bombay. | Sections seventy to seventy-four (both inclusive). |
| XXI of 1857 ... | To make better provision for the order and good government of the station of Howrah. | Sections eighteen and nineteen. |
| XII of 1875 ... | The Indian Ports Act, 1875 ... | Section seven, clause (*o*), and sections twenty-eight to thirty-four (both inclusive). |

(*b*) *Acts of the Governor of Fort St. George in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| VIII of 1867 ... | To incorporate the police of the town of Madras with the general police of the Madras Presidency, to extend the jurisdiction of the Town Police Magistrates, and to amend and consolidate the provisions of Act XIII of 1856 and of Act XLVIII of 1860. | Sections forty-five to forty-nine (both inclusive). |
| V of 1878 ... | The City of Madras Municipal Act, 1878. | In section three hundred and twenty-two, the words "gunpowder manufactory, manufactory of fire-works," and the words "explosive or." |
| I of 1880 ... | For regulating the storing, sale and packing for conveyance of gunpowder. | The whole Act. |

(*c*) *Acts of the Governor of Bombay in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| III of 1872 ... | To provide for the management of the municipal affairs of the city of Bombay and to make better provision for the conservancy and improvement of the city and for the levying of rates, taxes and other income therein. | In section two hundred and twenty-five, the words "gunpowder manufactory, manufactory of fireworks," and the words "explosive or." |
| VI of 1873 ... | Bombay District Municipal Act ... | In section sixty-nine, the words "manufactory of gunpowder or fireworks" and the words "explosive substances or." |

(*d*) *Acts of the Lieutenant-Governor of Bengal in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| II of 1866 ... | To provide for the better regulation of the police within the suburbs of the town of Calcutta. | Sections thirty-four to thirty-eight (both inclusive). |
| IV of 1866 ... | To amend and consolidate the provisions of Act XIII of 1856 and Act XLVIII of 1860. | Sections fifty-seven to sixty-one (both inclusive). |
| V of 1876 ... | Bengal Municipal Act, 1876 ... | In section two hundred and eighty-five, the words "or explosive substance." |
| V of 1879 ... | The Jute Warehouse and Fire-Brigade Act, 1879. | In section twenty-one, the words "or manufacture." |

## STATEMENT OF OBJECTS AND REASONS.

1. The object of this Bill is to provide a comprehensive law regulating the manufacture, keeping, sale, conveyance and importation of explosives throughout British India. The matter was first brought to the notice of the Government in connection with an application made by the agents of Nobel's Explosives Company, Limited, for permission to import dynamite manufactured by the Company. The Government of Bombay, to whom the application was made, referred the question to a Committee, which reported that the expediency of allowing the importation into that Presidency of dynamite and other preparations of nitro-glycerine was doubtful. The Government of Bombay forwarded a copy of this report to the Government of India with a request that the importation of preparations of nitro-glycerine might be prohibited until further notice by a notification under the Sea Customs Act. Before complying with this request the Government of India thought it well to consult the Governments of Madras and Bengal. In reply, both Governments expressed an opinion that the importation of these explosives should not be forbidden. The Government of Bengal further submitted a draft set of rules to regulate the importation, package, transport and storage of dynamite and similar substances, together with a report which had been prepared by a Committee appointed by the Lieutenant-Governor to consider the entire subject. This Committee, while recommending that the draft rules should be published as rules under the Indian Arms Act, 1878, suggested the enactment of a comprehensive Imperial Act of a similar nature to the English Explosives Act, 1875 (38 Vic., c. 17), which would in a convenient and compendious Code deal with the subject of explosives in its entirety and furnish the public, as well as Government officials, with an easy means of ascertaining their duties, responsibilities and powers respecting articles which by their inflammable, explosive or dangerous nature imperil the public safety.

2 It appears to the Government of India that it would be an abuse of the powers conferred by the Indian Arms Act, 1878, to make rules of the nature of those submitted by the Bengal Committee under that Act. There are, no doubt, powers conferred by the Indian Arms Act which might, at first sight, seem to authorise the making of such rules; but the object to which such rules are directed is altogether different from that of the Act. The object of the Arms Act was to enable the Government more effectually to prevent arms and ammunition (which term under section 4 includes gun-cotton, dynamite, lithofracteur and other fulminating substances) from getting into the hands of persons who would make a bad use of them. In other words, the main object of that Act was to *restrict* the possession of arms and ammunition. But the main object of the rules prepared by the Bengal Committee is not restrictive. Their object is to *protect* the public against the dangerous nature of the explosives to which they relate by regulating all dealings with those explosives. If they are restrictive, it is only so far as is necessary to carry out their protective object. Under these circumstances, it appears to the Government that the proposed rules could not properly be published under the Indian Arms Act, 1878.

3. Nor does it appear that there is any other enactment, as the law at present stands, under which rules of the nature of those prepared by the Bengal Committee can be issued. Under the existing law, the only enactments relating to this subject are to be found in various fragmentary provisions, dealing with gunpowder and fireworks only, which are in force in the Presidency-towns and in certain municipalities and ports. It appears to the Government that it is unsatisfactory that the law should be in this state at a time when dynamite and other compounds of nitro-glycerine are rapidly taking the place of gunpowder in all works where blasting in necessary. Already these explosives have been used to a considerable extent in connection with various works undertaken both by the Government and by private enterprize throughout India; and it is only natural to suppose that, as their superiority to gunpowder becomes more widely known, their use will increase.

4. Under these circumstances, the suggestion of the Committee that an Act drawn on the model of the English Explosives Act, 1875, and dealing comprehensively with the whole subject of explosives, should be added to the Indian Statute-book, recommends itself to the Government of India, as being the only satisfactory method of treating the subject. Accordingly the present Bill has been prepared. It embodies such of the provisions of the English Act as are in the opinion of the Government necessary in this country. In addition to the omission from the Bill of certain provisions of the English Act, the Bill further differs from that Act in that, in accordance with the well-recognized principle of Indian legislation, it confers power on the Local Governments to provide by means of rules, adapted to the varying local circumstances of the provinces under their administration, for many points for which there are specific provisions in the body of the English Act.

5. The Bill is divided into ten chapters.

Chapter I (Preliminary) contains the usual preliminary matter. Section 2 saves from the Act the manufacture, packing, sale, conveyance or importation of explosives by the Government, and section 3 saves the provisions of the Indian Arms Act, 1878. Under section 4, the Act will not come into force until after the publication of a notification by the Governor General in Council; but, in order to prevent the inconvenience which would arise if the Act were brought into force before the notifications, rules, orders and appointments necessary for its efficient working had been made, sub-section (2) gives power to make these at any time after the passing of the Act, though they are not to take effect until the Act comes into force. By section 5 and the schedule are repealed the enactments which at present deal with the subject-matter of

the Bill, with the exception of the Indian Arms Act, 1878, and the provisions to be found in the Andaman and Nicobar Islands Regulation, 1876. The provisions of the former Act relating to explosives have been left unrepealed for the reasons which have led the Government of India to decide that the rules framed by the Bengal Committee cannot be passed under it, namely, because the objects of the Act and of the Bill are different. The provisions of the Andaman and Nicobar Islands Regulation, 1876, have not been repealed because, considering the peculiar nature of that settlement, it seems inconvenient to interfere with any of the rules which are at present contained in that Regulation. Though the proposed Act will extend to the Andamans, its provisions will be practically a dead-letter in those islands.

6. Chapter II lays down the general law as to the manufacture and keeping of explosives prescribing the places at which an explosive may be manufactured or kept. It is to be read subject to certain exceptions in the Supplemental Chapter (X).

7. Chapter III deals with the licensing and regulation of factories and magazines, and the registration and regulation of registered places, and confers power on the Local Government to make rules on all necessary matters. A factory under the Act is a place licensed for the manufacture of an explosive; a magazine is a place licensed for the keeping of an explosive; and a registered place is a place registered for the keeping of an explosive. Magazines differ from registered places in that the former are places devoted exclusively to the keeping of explosives and the receptacles for or tools or implements for work connected with the keeping of explosives, whilst the latter are places, *e.g*, general stores or shops, not devoted exclusively to the keeping of explosives but in which explosives may be kept. Sections 11 and 12 enact certain provisions in favour of the occupiers of magazines and registered places; the former section enabling the occupiers of magazines and registered places to make cartridges without taking out a factory-license, and the latter enabling the occupiers of magazines to adapt or prepare explosives for use in their own mines or quarries without any such license. Section 15 imposes on the occupier of a factory or magazine the duty of making special rules for the regulation of the workmen in his factory or magazine.

8. Chapter IV relates to the sale of explosives. Section 16 prohibits explosives being hawked, sold or exposed for sale on highways or public places; section 17 prohibits the sale of an explosive to a child under 13; and section 18 prescribes the manner in which an explosive exposed for sale or sold is to be packed and labelled.

9. Chapter V treats of matters relating to the conveyance of explosives. Under section 19, the Governor General in Council may make rules as to the packing of explosives for conveyance. Under section 20, the Local Government may make rules to regulate the conveyance, loading, unloading and keeping of explosives within a port; and section 21 confers certain powers on the Conservator or other officer named in such rules in the event of their breach. Under section 22, Railway-administrations are directed to make rules for their own railways respectively. Under section 23, the Governor General in Council is empowered to make rules in any case in which rules under section 20 or section 22 do not apply. By section 24 the authority making rules under sections 20, 22 and 23 respectively is empowered to annex to a breach of any rule, or attempt to commit a breach of any rule, a penalty which may consist of a fine which may extend to two hundred rupees for each breach and to one hundred rupees for each day during which the breach continues, and of forfeiture of all or any part of the explosive in respect of which the breach is committed.

10. Chapter VI regulates the importation of explosives other than gunpowder, cartridges made with gunpowder, percussion-caps, fireworks, and any prescribed explosive, and prohibits their importation except under a license. The Governor General in Council is given power (section 26) to regulate all matters connected with the grant of such licenses, and the officers of sea-customs are given similar power (section 27) with regard to these explosives as they have with regard to any article on the importation of which restrictions are for the time being imposed by the law relating to sea customs.

11. Chapter VII confers special powers on the Governor General in Council to regulate or prohibit all dealings with any explosive which in the opinion of the Governor General in Council is specially dangerous to the public safety; and the officers of sea customs are given like powers with regard to any such explosive as they are given under section 27 with regard to the importation of the explosives referred to in section 25.

12. Chapter VIII (Government supervision) first provides for matters relating to inspection. The Local Government is empowered (section 29) to appoint Government Inspectors, and to make rules to assign and regulate their duties. Section 30 defines the general power of these officers as to entry, inspection, and examination of factories, magazines and registered places, and the taking of samples from the occupiers. Section 31 empowers the Government Inspector to require the occupier of any factory or magazine to remedy anything connected with his factory or magazine which is in the opinion of the Inspector unnecessarily dangerous or defective, and provides for a reference to the nearest Magistrate when the occupier objects to comply with the inspector's requisition. Section 32 deals with inspection in ports and of ships, and section 33 provides for the inspection of a wharf, carriage, ship or boat on or in which an explosive is reasonably supposed by a Government Inspector or other officer to be for the purpose of or in course of conveyance.

The chapter secondly provides (section 34) for the giving of notice of accidents arising from explosion or fire occurring in or about or in connection with any factory, magazine or registered place, or any carriage, ship or boat either conveying an explosive or on or from which

an explosive is being loaded or unloaded, and (section 35) for inquiry into the cause of such accidents when necessary.

Thirdly, the chapter deals with power of search. It empowers (section 36) Government Inspectors and officers authorised by the Local Government to enter and search all places where they have reason to believe that any offence has been or is being committed with respect to an explosive, or that any explosive is in contravention of the Act, or that the provisions of the Act are not duly observed. Such searches are to be made in accordance with the Code of Criminal Procedure, and when made by any officer other than a Government Inspector are to be reported by him to his official superior within 48 hours. Section 37 gives special power to Government Inspectors and other officers to stop carriages or boats in case of emergency.

Fourthly, the chapter treats of seizure and detention of explosives. Section 38 authorizes the seizure and detention of any explosive liable to forfeiture, and section 39 gives the Local Government power to make rules to regulate such seizure and detention. Section 40 declares that the proceedings before a Magistrate with regard to any such seizure shall be commenced as soon as possible. Section 41 gives power to seize the receptacle in which the explosive was found, and section 42 to use the ship, boat, carriage, &c., in which the explosive was seized.

Lastly, the chapter (section 43) provides for the payment for samples of explosives taken by Government Inspectors or other officers under the Act.

13. Chapter IX deals with the penalties and legal proceedings.

The penalties for breaches of the provisions of the Act and the rules made under it are restricted to forfeitures and fines, and the only instance in which the Act prescribes imprisonment as a punishment is (section 53) that of resistance to a public officer.

14. With regard to legal proceedings, section 64 provides for the exemption of an occupier of a factory, magazine or registered place, and of a warehouseman, carrier or owner or master of a ship, boat, or carriage from penalty on proof of another being the real offender. Under section 65, a carrier or owner or master of a ship or boat is exempted from penalty when he is prevented from complying with the law by the act or default of the consignor or consignee of the explosive or some other person and the consignor or consignee or other person is convicted (as it is provided he may be) under the Act.

Section 66 confers a general power on Magistrates to order forfeiture in all cases in which explosives are liable to be forfeited, and provides that proceedings may be taken for the purpose only of inflicting a forfeiture. The same section empowers the Court to inflict an additional fine in lieu of forfeiture of the explosive; and section 67 provides for levy of a fine imposed on the owner or master of a ship by distress of the ship.

15. Chapter X (Supplemental) provides for several miscellaneous matters. Section 68 empowers Municipal Committees to provide magazines for the use of the public; section 69 enacts certain provisions in favour of the keeping and conveyance of percussion-caps, safety-fuses for blasting, fog-signals and prescribed explosives. Section 69 exempts railway-administrations from the obligation to make rules with regard to such explosives, and empowers the Governor General in Council to exempt such explosives altogether from the Act. By section 70 the filling and conveying for private use, and not for sale, of safety-cartridges are excepted from the application of the Act. Section 71 exempts the owner or master of a ship and a carrier or warehouseman or any person in charge of a carriage from punishment when an act is done by him in breach of the provisions of the Act in a case of emergency. Section 72 contains the usual provision saving liability to civil suit or prosecution under other laws. Section 73 deals with notice and limitation of proceedings. Section 74 empowers the Governor General in Council to extend the definition of "explosive" to other explosive substances; and sections 75 and 76 treat of general matters connected with the issue and publication of notifications and rules. Under section 75, proposed rules must be published as drafts before they are finally made, and the authority that makes the rules is directed to receive and consider any criticisms or suggestions which may be made by persons interested.

### GOVERNMENT OF INDIA.

### REVENUE AND AGRICULTURAL DEPARTMENT.

#### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 16th JANUARY 1883.

GENERAL REMARKS.—There has been slight rain in the Madras and Bengal Presidencies, in the Punjab, Central Provinces, Assam, and in the Central India States. In the North-Western Provinces and Oudh, the rainfall, although moderate, shows an improvement over that of the week preceding, and has been more or less distributed throughout the country. In the Bombay Presidency, British Burma, the Nizam's Territories, and in Rajputana, there has been no rain to report during the past week.

Agricultural prospects are generally good or fair throughout the country. But rain is still much wanted in most districts of the Punjab, and more is also needed for the *rabi* crop in the North-Western Provinces and Oudh. The partial destruction of crops by locusts in Ratnagiri in the Bombay Presidency still continues, and some damage to the winter crops by insects is also reported from two districts of the Bengal Presidency.

In the Madras Presidency and in Mysore and Coorg, harvesting, chiefly of rice, is still in progress; in British Burma and Bengal the rice harvest has nearly closed. In the Central Provinces and Northern India the ordinary autumn crops are off the ground and are being threshed, and the cutting of sugarcane is in progress.

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Jan. 17th)** | | |
| Bellary . . . . | . . . . | Standing crops generally good; harvest paddy, dry grains, tobacco, and sugarcane, yield average. |
| Kurnool . . . | . . . . | Standing crops in good condition; cattle disease in parts. |
| Ganjam . . . | . . . . | Standing crops, dry grains and sugarcane thriving; harvest paddy one taluk; fever and small-pox continue; cholera and cattle disease in one taluk. |
| Kistna . . . . | . . . . | Standing crops in parts affected by grubs, elsewhere fair; harvest paddy and *ragi*, outturn below average; fever and cattle disease prevail; small-pox in parts; water three feet over anicut. |
| Chingleput (Madras) . | ·30 (average of one station.) | Standing crops generally good; harvest paddy, outturn below average; small-pox and cattle disease in parts. |
| Coimbatore . . . | . . . . | Standing crops good; harvest paddy and dry grains, outturn average; fever, small-pox, cholera, and cattle disease in parts. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras** - *contd* | | |
| Tanjore | ·23 (average of four stations.) | Standing crops good ; harvest paddy and *ragi*, yield below average ; cholera prevails in parts. |
| Madura | ·30 (average of one station.) | Standing crops generally fair ; harvest paddy and dry grains ; cholera in parts. |
| Malabar | | Harvest second crop paddy continues ; fever and cholera in parts. |
| Travancore | | Harvest commenced ; fever and small-pox continue. |
| | | *General Remarks.*—No rain except in Tanjore, Chingleput, Madura ; general prospects good. |
| **Bombay—(Jan. 17th).** | | |
| Kurrachee | *Nil* | River at Kotri on 14th 3 feet 1 inch lower than on same date last year ; fever in 10 talukas ; 11 fresh cases of small-pox in Karachi City since last report, disease also in Sehwan and Kotri talukas ; cattle disease in five talukas ; wheat, red rice, and *bajri* in Karachi 24, 32, and 33 lbs., in Manjhand 26, 40, and 46 lbs., in Ghorabari 20 and 44 lbs., and in Jati 20 and 36 lbs. per rupee respectively. |
| Hyderabad | *Nil* | *Rabi* crops fair ; small-pox continues in three talukas ; wheat 25, *bajri* 39, *jowari* 48, red rice 28, and white rice 22 lbs. per rupee. |
| Ahmedabad | | Standing crops healthy ; small-pox in Dhandhuka ; wheat 28 and *bajri* 32 lbs. per rupee. |
| Baroda | | Sowing of *rabi* crops completed, except in Kadi division, where it is still in progress ; harvesting of late *kharif* crop in progress ; public health good ; *bajri* 31½ and rice 26 lbs. per British rupee. |
| Surat | | *Rabi* crops thriving ; *jowari* and cotton being removed ; *jowari* 40 and *nagli* 57 lbs. per rupee. |
| Nasik | | Weather continues muggy, but has not harmed *rabi* crops ; wheat 24, *bajri* 36, and rice 23½ lbs. per rupee. |
| Colaba (Bombay) | | Average abnormal temperature 3° warm ; vapour in air slightly in excess of normal ; wind normal on 10th, afterwards abnormal ; wind southerly and weak. |
| Poona | | *Rabi* crops good ; *bajra* 44 and *jowari* 55 lbs. per rupee, in Poona *bajri* 39 and *jowari* 46 lbs. per rupee. |
| Ahmednagar | | *Rabi* crops generally good ; *bajri* maximum 57 lbs. per rupee in Sangamner, minimum 45 lbs in Kopargaon ; *jowari* maximum 72 lbs. per rupee in Parner, minimum 54 lbs. in Nevasa. |
| Sholapore | | Crops generally good ; *jowari* 73 lbs. 3 tolas and *bajri* 57 lbs 19 tolas per rupee. |
| Dharwar | | Early crops being harvested ; cotton suffering from blight in seven, and wheat in four talukas ; other late crops good ; 3 deaths from cholera in Gadag, fever in four, and cattle disease in one taluka ; rice minimum 26 and *jowari* 45 lbs. per rupee. |
| Kanara | | Sowing for second crop continues ; sugarcane harvest on coast ; fever in two talukas ; general health good ; common rice in Karwar 13 seers per rupee, in district average 15 seers per rupee. |
| Rajkot | | Weather cold ; general health good ; cholera continues slightly in Navanagar, and has also appeared in Morvi from 6th instant ; *bajri* 28 and *jowari* 34 lbs. per rupee. |
| | | *General Remarks.—Rabi* crops doing well ; partial destruction of crops by locusts in Ratnagiri continues ; fever, small-pox, and cattle disease in a few places. |
| **Bengal—(Jan 16th)** | | |
| Chittagong | *Nil* | Weather bright and cold ; state and prospects of crops fair ; harvesting of *amun* paddy nearly over ; cholera and cattle disease continue ; prices somewhat risen. |
| Dacca | *Nil* | Harvesting of *amun* paddy nearly completed ; prospects of winter crops good. |
| 24-Pergunnahs (Alipore) | *Nil* | Harvesting of late rice and sugarcane going on and yield from the former estimated at about 12 to 14 annas ; *rabi* crops doing well ; price of common rice stationary ; fever and cholera much abated ; general health of people good. |
| Moorshedabad | *Nil* | Harvesting of *amun* paddy going on ; *rabi* crops doing well ; average price of rice 22 seers per rupee ; public health generally good, except a few cases of cholera in thana Mirzapur. |
| Rajshahye | *Nil* | Weather cloudy ; prospects of crops favourable ; cholera still reported from parts of district. |
| Burdwan | *Nil* | *Amun* harvest nearly over ; prospects of sugarcane good ; *rabi* crops indifferent ; fever prevalent ; cholera lingers, small-pox in thana Selimabad. |
| Rungpore | *Nil* | Weather seasonable, occasionally cloudy and foggy ; prospects of crops favourable ; cholera still prevalent in certain parts of district. |
| Bhagalpur | *Nil* | New rice 25 seers and 4 chuttacks per rupee ; prospects of crops good, though some damage to mustard crop by caterpillars is heard of ; general health good. |
| Purneah | *Nil* | Weather excellent ; prospects of crops continue good ; late rice being harvested ; *rabi* crops thriving ; common rice 24 seers per rupee ; health improving. |
| Patna | ·59 | Prospects of *rabi* crops good ; harvesting of winter rice continues ; mustard, *khasari* pulse, and barley said to have been damaged to some extent by insects in Barh subdivision ; cutting of sugarcane continues ; public health good. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| Durbhunga . . . | ·15 | Threshing of paddy going on; *rabi* crops promising; public health fair; prices stationary. |
| Hazaribagh . . . | ·1 | Weather clear and cold; the slight rain during the week was beneficial to the standing crops; public health good. |
| Cuttack . . . . | *Nil* | Reaping of *sarud* still continues; *rabi* crops being harvested; common rice sells at from 22 to 30 seers per rupee; public health good. |
| | | *General Remarks.*—More or less rain fell in some of the districts during the week, benefiting the standing crops; harvesting of late rice nearly completed, except in some lowlying districts where it still continues; winter crops generally in a satisfactory condition, though some damage by insects reported from Bhagalpur and Barh subdivision; fever and cholera, though abating, still reported to be prevalent in some places, small-pox has appeared in thana Selimabad in Burdwan. |
| **N.-W. Provinces and Oudh—** | | |
| Benares (Jan. 16th) | Benares . . ·70<br>Chandauli . ·80<br>Gangapur . ·80 | Mustard slightly damaged by rain; health good; prices steady. |
| Allahabad ( „ 17th) | Slight rain in 5 tahsils. | All crops flourishing and irrigation entirely ceased; prices falling slightly; general health good. |
| Gorakhpur ( „ 15th) | . . . . | Cloudy weather during beginning of week but fine afterwards; *kharif* which has been reaped, up to average; *rabi* promising; prices stationary. |
| Jhansi ( „ 15th) | Slight showers on the 9th and 10th. | *Rabi* promises well; rain would be exceedingly beneficial to the standing crops; prices fluctuating; small-pox amongst children continues; cattle disease of a mild type continues in three villages of pargana Jhansi. |
| Agra ( „ 16th) | No rain | Weather cloudy from time to time; crops promising well; irrigation going on; small-pox in four parganas; general health good; prices slightly fallen. |
| Bareilly ( „ „ ) | ·30 | More rain is still required; prospects still very fair. |
| Meerut ( „ „ ) | Slight rain | Rain has been beneficial; health good; prices stationary; supplies sufficient; more rain needed. |
| Kumaon ( „ „ ) | . . . . | Rain urgently wanted, *rabi* suffering from want of it; health good, except that there is still typhus in some villages; cattle disease continues; prices slightly rising. |
| Lucknow ( „ „ ) | . . . | Rain urgently needed for *rabi* crops; prices stationary; prospects favourable; small-pox continues in the city. |
| Partabgarh ( „ „ ) | Rain on 9th | The rain has done great good to the *rabi* crops, which promise exceedingly well; weather again clear; irrigation has ceased in Kunda tahsil; *sarson* injured by *mahee*; prices slightly fluctuating; no sickness. |
| Sitapur ( „ „ ) | . . . . | Cloudy weather, but no rain, which is much wanted for unirrigated lands; supplies ample; prices nearly stationary. |
| Fyzabad ( „ „ ) | No rain | Crops promising; irrigation in progress; public health good; prices steady. |
| Rae Bareli ( „ „ ) | Sadr . . ·20<br>Digbijaiganj . ·10<br>Dalmau . . ·70<br>Salon . . 1·10 | *Rabi* prospects good; health of men and cattle good; prices almost stationary. |
| Cawnpore ( „ „ ) | Average rainfall ·40 | The rain has been beneficial to crops, but more is wanted; health good; prices nearly stationary. |
| Farukhabad ( „ „ ) | . . . . | Prospects fair; prices steady; sky alternately clear and cloudy; rain much wanted. |
| | | *General Remarks.*—Moderate rain fell in 11 districts, but more is wanted; mustard slightly damaged in Benares and *sarson* in Partabgurh; small-pox continues in Lucknow City, in four parganas, in Agra and in Jhansi; slight cattle disease in Kumaon and Jhansi; general health good; prices steady except in Kumaon and Saharanpur, where there has been a rise. |
| **Punjab—(Jan. 16th)** | | |
| Delhi . . . | Slight rain | Health good; harvest prospects improving; prices almost stationary. |
| Hissar . . . . | . . . . | Rain much wanted; small-pox in Rohtak decreasing, health elsewhere good; prices stationary. |
| Umballa . . . | . . . . | Health good; *rabi* crops suffering for want of rain; prices of wheat, *bajra*, and gram rising, of other food-grains stationary. |
| Jullundur . . . | Slight rain | Health good; prices falling. |
| Amritsar . . . | Slight rain | Health good; *rabi* prospects fair; prices stationary. |
| Lahore . . . . | . . . . | Health and harvest prospects good; prices fluctuating. |
| Ferozepore . . . | . . . . | Rain much wanted; health good; harvest prospects fair; prices almost stationary. |
| Sialkot . . . . | Slight rain | Health good; prices stationary. |
| Rawalpindi . . . | Slight rain | Cattle disease continues in the Murree tahsil and seasonal fever in the district generally; slight rise in prices. |
| Peshawar . . . | . . . . | Harvest prospects good; prices falling; rain much wanted. |
| Mooltan . . . . | . . . . | Rain wanted; health and harvest prospects good; prices stationary. |
| Dera Ismail Khan . . | . . . . | Rain much wanted; health improving; harvest prospects good; prices steady. |
| | | *General Remarks.*—The general health of the province continue good; rain much wanted in most districts; harvest prospects fair. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Central Provinces—** | | |
| Nagpur (Jan. 17th) | . . . . | Weather seasonable; crops continue good; no epidemic; prices stationary. |
| Jubbulpore ( „ 16th) | ·17 | Weather cloudy at times; prospects of *rabi* crops good; health good; wheat 20 seers per rupee. |
| Saugor ( „ 15th) | ·5 | Weather occasionally cloudy; crops excellent; health good; prices steady. |
| Seoni ( „ 16th) | . . . . | Weather warm and cloudy; prospects of *rabi* favourable; prices stationary. |
| Hoshangabad ( „ „ ) | . . . . | Weather cloudy and cool; prospects of crops good; few cases of small-pox, but public health good; wheat 16 seers per rupee. |
| Raipur ( „ 13th) | . . . . | Weather cloudy; threshing of *kharif* crops continues; slight cattle disease; health good; rice 32 seers per rupee. |
| Sambalpur ( „ 11th) | . . . . | Weather cloudy; prospects of crops and health good; rice 55 seers per rupee. |
| Khandwa ( „ 16th) | . . . . | Weather clear and pleasant; *rabi* crops thriving; small-pox reported; prices stationary. |
| | | *General Remarks.*—Weather cool and cloudy with slight rain in a few districts; threshing of *kharif* crops progressing; reports continue to be favourable as to condition of *rabi* crops; public health good; prices unchanged. |
| **British Burma—** (Jan. 13th) | | |
| Akyab . . . . | *Nil* | Three deaths from small-pox and seven from cholera in district; otherwise public health good; slight cattle disease; reaping nearly finished. |
| Rangoon . . . | *Nil* | Two deaths from cholera; otherwise public health good; reaping finished. |
| Bassein . . . | *Nil* | Three deaths from cholera in town and two in district, otherwise public health good; reaping nearly over. |
| Prome . . . | *Nil* | Three deaths from cholera in district, otherwise public health good; reaping going on. |
| Amherst (Moulmein) . | *Nil* | Thirty-four cases of cholera reported from district, otherwise public health both in Moulmein and district good; reaping almost finished, yield good. |
| Toungoo . . . | *Nil* | Three deaths from cholera in town and three in district, otherwise public health good. |
| | | *General Remarks*—Public health good except in parts of Hanthwaddy, Thonegwa, and Amherst districts, where a good many deaths from cholera have occurred; crops good; reaping nearly over. |
| **Assam—** | | |
| Gauhati (Jan. 16th) | ·05 | Weather seasonable; harvesting of *sali* paddy nearly over; public health good |
| Sylhet . ( „ 17th) | . . . . | *Sali* and *aman* crops harvested; prospects of winter crops, sugarcane and linseed good; cholera reported from Sunamganj and Karimganj. |
| Cachar . ( „ „ ) | *Nil* | No change in weather; reaping of *sali* crops finished; 7 deaths from cholera reported from Halia Kandi; common rice $21\frac{5}{16}$ seers per rupee. |
| Dibrugarh ( „ „ ) | 0·14 | Weather cold and seasonable; mustard promises well; public health good. |
| **Mysore and Coorg—** (Jan. 17th) | | |
| Bangalore . . . | . . . . | Crops in good condition; harvest operations continue; prospects fair. |
| Mysore . . . . | . . . . | Crops in good condition; harvest operations continue; prospects fair. |
| Mercara . . . | *Nil* | Coffee-picking continues, outturn generally short; no market for native coffee; harvesting of rice still in progress; slight fall in price of food grains; health good except in parts of Nanjarajapatna taluk. |
| | | *General Remarks.*—Crops in the province in good condition; cutting of sugarcane commenced; harvest operations continue active; prospects favourable; public health satisfactory; no material change in prices. |
| **Berar and Hyderabad-** (Jan. 17th) | | |
| Amraoti . . . . | . . . . | *Rabi* crops in good condition; wheat 16 and *jowari* 26 seers per rupee. |
| Akola . . . . | . . . . | *Rabi* crops progressing favourably. |
| Hyderabad . . . | . . . . | *Rabi* crops flourishing; sowing of *tabi* crops continues; cholera still prevailing; cattle disease ceased; prices—wheat $16\frac{3}{4}$, coarse rice 11, white *jowari* $25\frac{1}{2}$, yellow *jowari* $32\frac{1}{4}$, and *tur* $25\frac{1}{2}$ seers per halli sicca rupee. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Central India States—** (Jan. 17th) | | |
| Indore | | Weather seasonable; health and prospects good |
| Morar (Gwalior) | | Health and prospects good; weather seasonable. |
| Sutna | ·54 | Health and prospects good. |
| Neemuch | | Weather somewhat cloudy; crops thriving; public health good. |
| Goona | | Crops and health good; wheat 23 seers per rupee. |
| Bhopal | | Weather cool; crops and public health good. |
| Agar | | Health and prospects good. |
| Nowgong | ·26 | *Rabi* prospects favourable; prices steady; health good. |
| **Rajputana—** | | |
| Abu (Jan. 17th) | | Weather mild; health good. |
| Sirohi ( „ 14th) | | Wells full; health good; prospects fair. |
| Marwar ( „ 12th) | | About one week's water in tanks; wells almost full; fever to some extent prevails; prospects good. |
| Harowti ( „ 15th) | | *Rabi* outlook still good; weather cloudy; days hot; health good. |
| Jhallawar ( „ 10th) | | Weather cloudy; health and prospects good. |
| Ajmere ( „ 16th) | | Fever prevalent; cold increasing. |
| Jeypore ( „ „ ) | | Prospects favourable; rain needed; prices stationary; health good |

Executive Engineer, Meerut Division reports that there was a very full demand for the standing sugar crop, and that this prevented progress in new irrigation, as the area under sugarcane is nearly 43,000 acres.

Executive Engineer Rohilkhand Canal reports that there was no rain, and that there was a fair demand for rabi crops.

No remarks from other Divisions.

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

### ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Friday, the 12th January, 1883.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Mahárájá Sir Jotíndra Mohan Tagore Bahádur, K.C.S.I.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble Rájá Siva Prasád, C.S.I.
The Hon'ble W. W. Hunter, LL.D., C.I.E.
The Hon'ble Sayyad Áhmad Khán Bahádur, C.S.I.
The Hon'ble Durgá Charan Láhá.
The Hon'ble H. J. Reynolds.
The Hon'ble H. S. Thomas.
The Hon'ble R. Miller.

### CENTRAL PROVINCES LOCAL SELF-GOVERNMENT BILL.

The Hon'ble MR. CROSTHWAITE moved that the Reports of the Select Committee on the Bill to make better provision for local self-government in the Central Provinces be taken into consideration.

The Motion was put and agreed to.

The Hon'ble Mr. CROSTHWAITE also moved that to clause (*a*), section 34 of the Bill, the following words be added, namely:—

"and as to the number of the representative members for each circle or group of circles, and as to the number of the representatives of the mercantile classes or professions, to be elected or appointed to each local board or district council;".

He said that the amendment was merely a verbal one. The Committee had thought that the section as worded sufficiently provided for the determination of the number of members for each circle or group, and for the number of representatives of the mercantile classes, by the Chief Commissioner. But, as there seemed to be a little doubt on the subject, they thought it better to make the matter clear by adding the words which he had read to clause (*a*) of section 34.

The Motion was put and agreed to.

The Hon'ble Mr. CROSTHWAITE also moved that the Bill, as amended, be passed. He said:—

"In asking the Council to pass this Bill, I think it necessary to take the opportunity of explaining the plan and the principles on which it has been framed more fully than I have yet done, with the object of making the intention of those who have framed the law clear and intelligible to those who will have to work it. I wish to premise my remarks by reminding the Council and

the public that this Bill is intended for the Central Provinces only; that it is not intended to be a model for other Governments to follow; and that, in framing it, we have looked exclusively to the condition and needs of the Provinces to which it applies.

"The first thing we had to settle was the constitution of the boards and councils. We began by recognising the principle that the village is the unit of all administration in this part of India. Whether in the management of the revenue, the police or education, nothing much can be done unless there is an organisation, minute and spreading enough to reach and deal with each individual village. Under the ancient system of the country, each village managed its own affairs; and although there is little trace in the Central Provinces—which, compared with other parts of India, are distinctly a new country—of those complicated village-communities which still thrive in Northern India, yet the system of village-management was, until a comparatively recent date, complete. Every village had its headman or patél, who, without having any greater rights in the land than the other villagers, acted as their guide, agent and leader. By the Mahrátha revenue-system, under which the village-community was jointly responsible for the whole revenue, and all details of assessment were left to the villagers themselves, the people were forced to act together under their headmen, and to arrange their own affairs.

"During the later period of the Mahrátha power, and in the earlier years of British rule, the headman became a contractor and farmer of the revenue. Still he remained a distinct power in the village, and retained somewhat of his official character. Under the terms of our last settlements, he has, in most cases, become the owner of the land; and, if it were not for the provisions of the Central Provinces Revenue Act, which was passed in 1881, his position and duties as headman would be in danger of becoming merged and lost in his newer and larger character of landowner.

"The provisions of the Revenue Act enable the Government to select in every village one of the resident landowners, or, if the landowners are absentees, some suitable resident, to be the mukaddam, as he has been called in that Act, or headman of the village; and this mukaddam, both in the manner of his appointment and in the duties required of him, represents the patél of forty or fifty years ago as nearly as the change in his relations to the villagers, caused by the creation of a proprietary right in the soil, will permit.

"Believing that the scheme of self-government will have much greater vitality if it can be founded on some indigenous institution, which the people can understand and are accustomed to, we decided on taking the village and the mukaddam or headman as the basis of our scheme and building up from this foundation.

"The nomination of the mukaddams is a matter outside this Bill, and I presume that, under the provisions of the Revenue Act, each village already has its mukaddam. The first step, then, for the enforcement of the present measure, is to arrange the villages into circles, the size of which will depend on a variety of circumstances, and may be varied from time to time; the next to choose, or to allow the mukaddams themselves to choose, a representative mukaddam for each circle. These representative mukaddams will form the hearts of the local boards.

"By this plan, which, I may perhaps be allowed to say, has been adopted at my suggestion, several advantages are gained. First, we secure to the board the advantage of local knowledge of all parts of the area under its jurisdiction; secondly, without directly choosing the electors, we obtain a manageable constituency or electoral body, to which we may be able to leave the choice of members; thirdly, we get, as members of the board, the men who can best aid us in the execution of small local works; and fourthly, we connect the boards intimately with every village, and secure the presence in every village of a person who is represented on the board, who may look forward to becoming a member of the board, and who may fairly be expected to aid the board in the

performance of its duties, and in the course of time will, I hope, come to regard himself as part and parcel of the governing body of the country.

"To this scheme it has been objected that the mukaddam is not a representative of the villagers, who are mostly his tenants, and whose interests are not identical with his.

"To this, I reply that the cesses which make up the greater part of the fund at the disposal of the local boards and district councils are paid by the owners of land, and that it is right, therefore, that those owners should be largely represented. Secondly, I do not think that, in the matter of the duties which the local boards will have to administer, the interests of the two classes—landlords and tenants—are divergent. Anything which tends generally to the wealth of the country benefits both classes. In educational matters, the landlords are perhaps inclined to be retrogressive, but hardly more so than the peasantry themselves; and, as I will show hereafter, we have taken precautions against any tendency to neglect primary education. Lastly, it is practically impossible at present to have a system of election under which each village should elect its own representative. As it is, I believe we are going quite as far as anything that has been done in England in the way of making the local boards representative bodies: and at present, while I think that it is in every way a good thing to take this step, I think also it is inexpedient to go further. When the people are ready for more, they will make themselves heard.

"After the appointment or the election of the representative mukaddams, the next step is to select members to represent the professional, mercantile or trading classes. The number of such representatives must vary with the character of the population in each locality. We have, therefore, left it to the Chief Commissioner to decide how many of these representatives there shall be.

"The method of election or appointment is also left to the Local Administration. I conceive that it will probably be convenient at first to appoint some of the leading chaudhrís or trade-masters, and that hereafter the election of the representatives may be entrusted to them.

"It has been represented to the Select Committee by my friend the Hon'ble Rájá Siva Prasád that clause (*b*) of section 4 is so worded as to exclude traders resident within a municipal area from sitting on local boards. It will be noticed that this criticism does not apply to clause (*b*) of section 5. On a district council, traders who reside within municipalities may sit. The intention in excluding municipal residents from local boards is to prevent the predominance of urban interests and to maintain the rural character of the boards. The head-quarters of a sub-division are generally at or within a municipality, and the largest bankers generally reside there. If these bankers were eligible, they would certainly be elected, and the tendency would be to give an undue influence to the residents at the head-quarters, which, I think, has been a very common fault in the existing committees.

"The larger traders can, whenever it is advisable, be nominated by the Government.

"The third element in the board is the Government nominees. In clause (*c*), section 4, power is given to the Chief Commissioner to appoint members equal in number to one-third of the board. This power has been taken for several reasons. In the first place, it appears the best method of dealing with the question of official members. It leaves considerable discretion to the Chief Commissioner, who may appoint no official members, or may appoint as many as one-third of the whole board. Secondly, it enables the Chief Commissioner to appoint persons of eminence who may not be eligible or may not have been elected under the other clauses—a large non-resident landowner for example. Thirdly, it will enable the Chief Commissioner to secure to some extent the representation of an influential minority, say (to take a case not probable in the Central Provinces) of a large body of European planters.

"With what I have already said, there will be no difficulty in understanding the constitution of the district councils, as laid down in section 6 of the Bill. They are intended to represent and to unite the local boards, and to be controlling and consultative, rather than executive bodies, which, while

leaving most of the executive work to the local boards, will have the power of executing under their own immediate supervision large and important works affecting the whole district. The relation of the local boards to the district councils is one of subordination, especially in financial matters. We are of opinion that no other relation is possible at present, but no doubt every care will be taken by the district councils to refrain from unnecessary interference, and to leave local boards to manage their own affairs. As the district council will not meet very frequently, and as a majority of two-thirds of the whole council is required in order to overrule a board, there need not be much apprehension of constant or vexatious meddling.

"I apprehend that the council and the boards will work very much through committees. To attain success, this appears to be the best plan. There will be a financial committee, an engineering committee and a committee for education.

"We have found in the Central Provinces a system of this kind already in force for the management of schools, and at the request of my friend Mr. Colin Browning, the very able Director of Education in the Central Provinces, who in a quiet, unostentatious manner has done very signal service to the cause of education in that part of India, we have recognised the existing school committees and given them a place in the Bill (section 16). As the history of these committees shows what has been done, and suggests what can be done, by working through the people themselves, I will read what Mr. Browning says about them :—

"'Every Government school, of whatever kind,—whether middle class or primary,—has a school committee. Each school committee consists of not less than four members. They are usually nominated by the Deputy Commissioner. The school committee members are asked to visit their school once a month collectively, and one individual member, chosen by rotation, visits, or should visit, the school weekly. The school committee members sometimes examine the boys; but the members are often illiterate and unable to examine the scholars. Still, they see those that are present, inquire regarding absent boys, settle matters of discipline, and arrange within certain limits what rate of fee scholars shall pay, and what boys shall be free scholars. The school committees are especially useful in providing suitable accommodation for their schools and in repairing school-houses. Several schools have adopted a certain uniform. This uniform the school committees give to the poorer boys at their own expense. School committees are indispensable for the proper conduct of schools. They not only represent our wishes to the people, but the wishes of the people to us. It is often by their influence that many scholars attend school.'

"Mr. Browning adds that the great use of school committees is undeniable. I need only add that they are entirely unpaid, and that the number of gentlemen serving on these committees is between three and four thousand. This is certainly a fact that affords great encouragement to those interested in the success of the present measure.

"Turning now to the conduct of business, it will be seen that the election of a chairman has, as we explained in our former report, been left to the members of the local bodies. The Hon'ble Rájá Siva Prasád (of whose valuable advice we have lately had the advantage) urged the Select Committee to leave the boards and councils free to elect an outsider to the chair. There may, doubtless, be advantages in this plan; but I think the result would be this, that, the election of the District Officer being possible, the boards would naturally cling to him, and we should have much trouble in getting them to exert their own powers and to walk alone. I do not think this would be a fair way of working the experiment at the outset.

"Under the Bill as it stands, there is nothing to prevent a weak board, mistrustful of its own powers, from asking the Government to nominate an official whom it may appoint as its chairman. But the strain is not put upon it of passing over or refusing to elect an influential official, who, if eligible, would certainly be proposed for election. The way in which the Bill will work is not very different from the plan which Sir A. Lyall proposes to follow in the North-West. He proposes to let the members of the board meet and decide for themselves whether they will elect their own chairman from among them-

selves, or leave the appointment to the Government. In the latter case, the District Officer will ordinarily be appointed.

"The control sections of the Bill are perhaps the only part of the measure which has evoked any hostile criticism. They are thought by some writers in the public Press to be too strong and to be inconsistent with the freedom or independence of local bodies.

"It is said by one writer that 'the local boards and district councils will thus be absolutely at the mercy of the Deputy Commissioner. It will be impossible for them to do anything against his wishes.'

"I do not think that the gentleman who brought this accusation could have understood this portion of the Bill. The Deputy Commissioner has a very limited power of interference.

"He can object to an estimate; but the Commissioner has to decide on his objection, and will doubtless take care to let the board or council be heard before coming to a decision. He can inspect works and call for reports, but no local body which is conscientiously doing its duty need fear enquiry. He can suspend the execution of an order or resolution, if he thinks anything is being done to cause injury or annoyance or lead to a breach of the peace, and in very extraordinary emergencies he can step in and execute a work which would properly belong to the board or council. But these powers can only be exercised subject to the check of immediate report to the Commissioner, and in some cases to the Chief Commissioner.

"The larger powers of providing for the performance of a duty in respect of which a board or council has made default can only be exercised by the Chief Commissioner; while the extreme measure of suspending a council or board in case of incompetency, default or abuse of powers can only be exercised with the approval of the Governor General in Council.

"I think, then, that such criticisms as those I have quoted are unfair, and show the inability of the writer to understand that impatience of reasonable and constitutional control is more likely to wreck the policy of extending self-government than any official interference.

"Your Excellency has already explained to the public—I think in answering an address at Lahore—that the powers of control proposed to be taken by the Government are no greater than those retained in similar matters in England. And to this it has been replied that there is public opinion in England, and that the people there are strong enough to resist official or officious interference. It is, no doubt, true that there is more danger of undue official interference in India; but, at the same time, the very weakness of the people and their want of independence renders control more necessary. And it must not be forgotten that, if there is not much strength as yet in public opinion, there is, vested in the Local Administration and in your Lordship's Government, a powerful control over the district officials which will, no doubt, secure a discreet and moderate use of the law.

"It must be remembered that the funds which are to be entrusted to these local bodies will not consist merely of local rates, but will be supplemented very largely from the Provincial revenues—in other words, from the proceeds of general taxation. It must be recollected, also, that their duties are of such a nature that the due performance of them is necessary for the wealth and prosperity of the whole country. Control, therefore, is essential; and in the provisions of this Bill I think we have safely steered between the danger of encouraging a fretting constant meddling that would degrade and disgust the boards, and that of entire abstinence from interference which would leave inexperienced boards to destroy themselves.

"As to the duties of district councils and boards, section 9 is sufficiently explicit. It has been the desire of the Select Committee to follow the wishes of the Government by giving to the boards every work on which they can be fitly employed; and, if sufficient funds are forthcoming, I do not think the energies

of our boards will be allowed to rust for lack of work. I have only to notice, in respect of the power of exception reserved to the Chief Commissioner by section 9, that this power is not given with the object of allowing him to interfere from time to time by taking special works out of the hands of the local bodies, but in order that works like railways, large provincial roads, great irrigation works and the like, which cannot profitably be administered by local authorities, may be retained under the immediate management of Government.

"And as to this matter of the duties of the boards, I anticipate that, when the officers in charge of districts realize the nature of the organization which is sought to be established and kept alive by the provisions of the measure now before the Council, they will not fail to perceive the advantage of utilizing the local boards, and the individual members of them, in many ways not laid down in the law, and quite outside of the scope of this Bill. They will seek from them information regarding the state of the people, and the agricultural conditions of the country. They will use them as mediums for explaining and making known to the people the wishes and intentions of the Government, and they will go to them for aid in all matters of local administration, including the revenue and the police. The organization which we contemplate, reaching, as it will, to every village, will, I have every hope, be found adapted to all these ends. In fact, I anticipate that, even if from want of money the energy of the board may not be fully occupied in the execution of works of improvement, it may still find ample and useful employment in many ways, and that there need be no fear of the new institutions expiring from want of occupation.

"It remains for me to say a few words as to the financial part of the scheme and the sources of supply enumerated in section 23 of the Bill. As I have already suggested, the greatest difficulty in the way of working the scheme will be the scanty supply of money. The school-cess of the whole Province is less than a lakh and a half of rupees, the road-cess is no greater; and these two cesses will form the bulk of the funds which the district councils can absolutely call their own. The area of the Provinces, excluding feudatory States, is roughly 84,000 square miles, and the population is about 10 millions. The councils must, therefore, depend in a great measure on the contributions made to the fund by the Administration. These contributions can be made, and no doubt will be made, for fixed periods of years, so that the councils will be able to adopt something better than a hand-to-mouth policy. But they cannot be of a very large amount, and the danger that I apprehend is, not that the members of the boards will neglect their duties, not that they will be controlled into a state of apathy by official meddling, but that they will find themselves helpless for want of money. I hope that this may be remedied in part by the generosity of private individuals, who wish to benefit their fellow countrymen, and who will work through the agency of the boards. We have a good deal of money in the Central Provinces, and the spirit to use it well is not wanting. At the present moment, the municipality of Jabalpur is constructing a very fine work for the supply of water to the city and cantonment, and that they have been able to do this is entirely due to the extraordinary munificence of Rao Seth Gokul Dáss, a well-known banker, who, when I was Commissioner of Jabalpur, came forward to aid us in carrying out this noble work. I am quite sure that his example will be followed by others.

"The various sources of income, which are enumerated in section 23, we have formed into a fund, in the disposal of which we have left the councils unfettered, except in one matter. It has been provided that the amount expended from the district fund in any financial year on primary education shall not be less than the estimated net proceeds for that year of the rates levied for the maintenance of schools.

"The school-cess is levied on the land, and it was intended for, and in the Central Provinces has always been duly appropriated to, rural primary schools.

"So far as regards the practice hitherto followed, this restriction on the discretion of the councils will make no change. But, on the representation of Mr. Browning, and in view of the repeated declarations made by the Secretary

of State and the Government of India as to the appropriation of this cess, we have thought it best to provide, by law, against its application to other purposes.

"The only other matter which I need notice is in connection with section 34, which empowers the Chief Commissioner to make rules for a great many matters, and I have no doubt it will be thought by some that many of these matters are very important, and ought not to have been left to rules. It is, however, of the first importance in a measure of this kind,—especially as it is in some ways a new and experimental measure,—to leave great discretion to the authorities who have the working of it, in order that they may, by practice, arrive at the best methods of giving it effect.

"Of this I am quite sure, that every endeavour will be made in framing the rules to follow the spirit of Your Lordship's policy, and that the Government may confidently rely on the loyal co-operation of every officer connected with the Central Provinces Administration in giving effect to the law.

"In conclusion, I have only to ask the Council to pass the Bill, and to express my earnest hope that it may benefit the people of the Central Provinces, and, if possible, increase that loyalty to the British Government for which they are now conspicuous."

The Hon'ble SAYYAD AHMAD KHÁN said:—"My Lord, I intend to vote in favour of the passing of this Bill, but, in explanation of my vote, I am anxious, with your Lordship's permission, to make a few observations on some features of this Bill. My Lord, I am one of those who believe that the success of local self-government will, in a great measure, depend upon the amount of independent power to be conferred upon the local boards and the district councils. Indeed, I am convinced that it may be safely laid down as a general rule, that the greater the powers conferred upon these bodies the greater will be the cordiality, earnestness and industry with which the work will be performed by the members. Holding such views, it would be only natural for me to dissent from such provisions in the Bill as are intended to authorise interference on the part of the district authorities. But, my Lord, I wish to offer no opposition, as I am aware that this Bill relates only to the Central Provinces, that those Provinces are among the least advanced parts of British India, and I feel that in this circumstance is to be found justification for exceptional treatment. There is another important matter in this Bill to which I assent with a similar qualification. I refer to the provisions in this Bill regarding the constitution of local boards and district councils. Upon this question, which appears to me to be one of the most important in the entire scheme of local self-government, there appear to be two prevalent opinions Some people think that the local boards and the district councils should consist of entirely separate sets of members; the other opinion is the one which has been adopted in this Bill in section 6, clause (*a*), which provides that the district council shall consist of 'representatives of groups of circles within the district, one or more for each group, being a member or members of, and elected by, the local board for that group.' I understand the effect of this provision to be, that, as far as clause (*a*) is concerned, none but members of local boards are to be eligible to the district councils. Now, my Lord, my knowledge of the people leads me to believe that, in such parts of India as the North-Western Provinces and Oudh, persons of social standing and respectability would not be willing to serve on local boards subject to the authority and control of the district council. And, if the local boards are to be the only bodies from which the representatives of the landed interest are to be elected for the district councils, there will be a great risk of losing the services of many men whose presence might prove of great use and valuable assistance in the work entrusted to the district councils. My own feeling is, that perhaps the best and safest rule for the constitution of the district councils would be to provide that all the members of the local boards should also be members of the district councils; in other words, to remove the distinction between the positions of members of the local boards and members of the district councils. Such a course would attract the best class of the people to serve both on the local boards and the

district councils; the local boards would discharge their duties as if they were sub-committees of the district councils; every member of the local board would have a voice in the deliberations of the district council itself; and there would be no room for those petty jealousies which will attend the election by the local board of a member for the district council. If such a provision as I have ventured to suggest were adopted, the district councils would of course be numerically larger than under the provisions of the Bill now before us; but I do not think the district councils would be too bulky for working purposes, and I am convinced that the chance of securing well-attended meetings will certainly be greater in proportion to the number of which the district council is composed. My Lord, I should have considered it my duty to have dwelt more fully on these considerations had I been prepared to oppose any provision in this Bill. But, as I have already said, I regard the Central Provinces as requiring an exceptional treatment, and in a matter of this kind it is no doubt safer to rely upon the advice of the local authorities. I am all the more unwilling to offer any definite opposition to the Bill, as under its provisions the landed interest is to be represented in the local boards by mukaddams, or executive headmen of villages, appointed under the Central Provinces Revenue Act of 1881. Such men will, no doubt, be persons of position and influence, and the remarks which I have ventured to make have, perhaps, not the same force in regard to the Central Provinces as they might have had if the Bill now before the Council related to my part of the country.

"But, my Lord, far more important than any of the points I have noticed are the provisions contained in clause (*c*) of section 5, and the corresponding clause in section 6 of the Bill. These clauses reserve to the Government the power to appoint members of the local boards and the district councils not exceeding one-third of the whole number. I regard this provision in the Bill with unqualified satisfaction, and, as this is the first occasion on which the subject of local self-government has come before the legislature, I cannot avoid expressing a hope that the provision to which I have alluded is an indication of the policy which Government intends to pursue in regard to legislation for other provinces also. How far the Government should control the constitution of local boards and district councils is a matter of principle by no means peculiar to the Central Provinces. It is, indeed, a matter which goes to the very root of the entire scheme of local self-government for which the country is indebted to your Lordship's Administration. To that noble scheme I am proud to give my hearty, though humble support, for I rejoice to feel that I have lived long enough to see the inauguration of the day when India is to learn at the hands of her rulers those principles of self-help and self-government which have given birth to representative institutions in England, and have made her great among the nations of the world. My Lord, I sincerely believe that all the intelligent classes throughout India sympathise with the feelings which I have expressed, that they feel grateful to the Government for the privileges which the scheme of local self-government will confer upon them, and that the effect of those privileges will be to enhance the popularity of the British rule, and to inspire feelings of loyalty and devotion among the vast population of British India. The more real those privileges are, the more beneficial will be the results. Having such views and feelings as these, I cannot possibly have sympathy with those who deprecate the withdrawal of Government from the direct management of local funds and local affairs; and it is natural for me to wish, as a matter of principle, that the local boards and the district councils should consist, as far as possible, of persons whom the voice of the people has elected as their representatives. But, my Lord, I feel that I am not acting inconsistently with my feelings and views in cordially supporting those provisions of this Bill which reserve to Government the power of appointing one-third of the members of the local boards and district councils. I am convinced that no part of India has yet arrived at the stage when the system of representation can be adopted, in its fullest scope, even in regard to local affairs. The principle of self-government by means of representative institutions is perhaps the greatest and noblest lesson which the beneficence of England will teach India. But, in borrowing from England the system of representative institutions, it is of

the greatest importance to remember those socio-political matters in which India is distinguishable from England. The present socio-political conditon of India is the outcome of the history of centuries of despotism and misrule, of the dominancy of race over race, of religion over religion. The traditions and feelings of the people and their present economic and political condition are in a vast measure influenced and regulated by the history of the past: the humanizing effects of the British rule have not yet demolished the remembrance of the days of strife and discord which preceded the peace brought to India by the British supremacy. India, a continent in itself, is inhabited by vast populations of different races and different creeds: the rigour of religious institutions has kept even neighbours apart: the system of caste is still dominant and powerful. In one and the same district the population may consist of various creeds and various nationalities; and, whilst one section of the population commands wealth and commerce, the other may possess learning and influence. One section may be numerically larger than the other, and the standard of enlightenment which one section of the community has reached may be far higher than that attained by the rest of the population. One community may be fully alive to the importance of securing representation on the local boards and district councils, whilst the other may be wholly indifferent to such matters. Under these circumstances, it is hardly possible to deny that the introduction of representative institutions in India will be attended with considerable difficulty and socio-political risks. In a country like England, where the distinctions of race no longer exist, where the differences of sectarianism in religious matters have been mitigated by the advance of toleration, the matter does not present such difficulties. The community of race and creed makes the English people one and the same nation, and the advance of education has rendered smaller differences wholly insignificant in matters connected with the welfare of the country at large. Christian constituencies do not object to return Jews to represent their interests in Parliament, and, indeed, for socio-political purposes, it may be said that the whole of the population of England forms but one community. It is obvious, of course, that the same cannot be said of India. The system of representation by election means the representation of the views and interest of the majority of the population, and, in countries where the population is composed of one race and one creed, it is no doubt the best system that can be adopted. But, my Lord, in a country like India, where caste distinctions still flourish, where there is no fusion of the various races, where religious distinctions are still violent, where education in its modern sense has not made an equal or proportionate progress among all the sections of the population, I am convinced that the introduction of the principle of election, pure and simple, for representation of various interests on the local boards and the district councils, would be attended with evils of greater significance than purely economic considerations. So long as differences of race and creed, and the distinctions of caste, form an important element in the socio-political life of India, and influence her inhabitants in matters connected with the administration and welfare of the country at large, the system of election, pure and simple, cannot be safely adopted The larger community would totally override the interests of the smaller community, and the ignorant public would hold Government responsible for introducing measures which might make the differences of race and creed more violent than ever. My Lord, I have dwelt upon this matter at such length in order to explain why I, a sincere admirer of the representative system, have given my cordial support to such provisions of this Bill as appear to militate against the system of election, pure and simple. Government, in reserving to itself the power of appointing one-third of the members of the local boards and district councils, is adopting the only measure which can be adopted to guarantee the success of local self-government, by securing and maintaining that due and just balance in the representation of the various sections of the Indian population which the system of election, pure and simple, would fail to achieve."

The Hon'ble MR. HUNTER said:—"My Lord, I congratulate your Lordship's Government on the passing of this Act. It is the first legislative expression of that policy of local self-government with which your Excel-

lency's name will be for ever identified in India. It is, however, only in regard to the educational sections of the Bill that I shall venture to detain the Council with a few remarks. Those sections had to accomplish two objects. They had, in the first place, to conserve the popular element in the existing educational mechanism of the Central Provinces. They had, in the second place, to guard against placing restrictions on the further development of popular instruction, or hampering the action of the Education Commission now sitting. The Bill has been carefully considered by the members of the Commission, and I have the pleasure to say, on their behalf, that it seems to accomplish both these objects. The unit of educational administration in the Central Provinces—indeed, I believe, the smallest administrative unit of any kind—is the school committee. One thousand of these useful little bodies are at present at work in those Provinces. The quotations made by the member in charge of the Bill, from the able report by my friend Mr Browning, render it unnecessary for me to describe the action of such committees. Their origin dates from the formation of the Education Department itself; and whenever a new school is established, a new school committee is appointed. There is, therefore, a widespread system of school boards in the Central Provinces—a system which has the accumulated experience of twenty years of actual work, and which has within itself the elements of a natural and necessary growth, in proportion to the spread of intelligence and education. The present Bill organises these educational administrative units into a part of a complete system of local administration. The school committees consist of not less than four members, of whom the mukaddam, or village-head, is almost always one. The Bill provides that the district council shall, as far as practicable, conduct the management of the schools through these school committees. The mukaddams, and probably other members of the school committees, will have seats in the local boards; while the local boards will be represented in the district council. The school committee is, therefore, the pre-existing unit of local administration, whence some of the most important members of the local board will be drawn; and there is a perfect chain of responsibility through the local board to the district council.

"The only other aspect of the Bill with which I shall detain the Council is in regard to educational finance. Two of the financial difficulties which arise in Indian Provinces with regard to the education of the cultivators may be stated as follow. First, the difficulty of securing that funds specially raised for primary education shall be entirely spent on primary education, to the exclusion of higher classes of schools. Second, the difficulty of securing that funds specially raised from the cultivators shall be entirely spent on the education of the cultivators, to the exclusion of the town or municipal schools The present Bill provides for the first difficulty. All funds raised for primary education in a district, although paid at first into a common fund, shall be expended solely on primary education; or rather, a sum at least equal to the educational funds raised, shall be thus spent. With regard to the second difficulty, the Bill is silent. For that difficulty does not yet arise in the Central Provinces, outside municipalities and cantonments; that is to say, within the area over which the Bill has jurisdiction. The difficulty may arise hereafter in the Central Provinces, as it has done in other parts of India; but it is so complicated by local considerations and local claims, that the Bill wisely refrains from entering on a thorny question which has not yet arisen in the particular area with which it deals. That question, however, will require a definite legislative answer in some other parts of India; and it is now receiving the attention of the Education Commission. The present Bill preserves the existing popular element in the educational system of the Central Provinces. It provides for the strict application of funds raised for primary instruction, to the purposes for which they are levied, and it in no way fetters the Education Commission in its efforts to still further develope popular education."

The Hon'ble RÁJÁ SIVA PRASÁD said:—"My Lord, after the able and lucid exposition of the principles on which the Bill is based by the

F

Hon'ble Member in charge of it, I have very little left to add. However, I am very glad to find that the Hon'ble and learned Dr. Hunter has spoken so strongly in favour of the Bill, especially so far as the education of the people is concerned, and with those remarks I fully concur. As to the self-government scheme, the whole country, from the Himalayas to Cape Comorin, has already responded in terms of unqualified approval, but I do not agree with the Hon'ble Member in charge of the Bill in the mode of the selection of chairman. The result of the limitation of power of the district councils and local boards in making selections from among themselves will be quite different from what he expects. Many good and fit Natives, who would have offered themselves as candidates for chairmanship, may not accept a membership. Still, I do not like to interfere in any way with the wishes and plans of the Local Governments. Self-government does not abolish the Local Governments, and they are, after all, the best judges in such matters."

The Hon'ble MR. ILBERT said the Council had been reminded that day that the importance of this measure consisted in its being the first attempt to embody in a legislative form the principles laid down by the Government of India in its Resolutions on the subject of local self-government, and it had been explained on a previous occasion that this circumstance was due to a mere accident. But he could not help thinking that it was a happy accident which entrusted the task of preparing and introducing and explaining this measure to a gentleman who, from his thorough knowledge of local circumstances and local requirements, and his genuine and sympathetic appreciation of Native character, was so eminently qualified to perform the task as his hon'ble friend Mr. Crosthwaite. His hon'ble friend had so fully explained the provisions of the Bill and its general objects that he had left little for MR. ILBERT to add, either for the purpose of meeting criticisms or for the purpose of removing misapprenhensions; and, of course, anything he could say would not carry with it the weight which necessarily attached to a porson who spoke with a local experience which Mr. ILBERT could not pretend to possess. He was necessarily compelled to approach this subject from an English point of view, and to look at it with the light of such knowledge as he happened to possess of the working of local representative bodies in England. But that the knowledge and experience derived from these sources was altogether inapplicable to similar institutions in India was a proposition which he was not prepared to admit. If it could not tell the Government what they were able to do or what they ought to do, it might be useful for the purpose of telling them what mistakes they ought to avoid. He had read a good many reports on the working of local representative bodies in India, and as he had read them he had often been reminded of the aphorism of Artemus Ward that "after all there is a good deal of human nature in man." What he meant was that, in spite of the enormous differences between the Englishman and the Hindu, and between England and India,—differences which no Indian statesman would be likely to minimize or overlook,—yet there were certain broad principles of policy which were as applicable here as they were applicable there, and which an Indian could not any more than an English statesman afford to disregard. One was often tempted to suspect that, where the attempts to introduce or develop self-government had failed in India, the failure might be traced to causes which would have produced the same effects in England. Suppose, for instance, that a statesman had to frame or give effect to a scheme for entrusting new or extended powers to local representative bodies in England. What would be the main considerations which he would endeavour to keep in view? In the first place, he would bear in mind that the main object of local self-government was to enlist on the side of the Central Government local knowledge and popular sympathies, and, even if he could be assured that that object could not be attained without the risk of sacrificing a certain amount of administrative efficiency, he would still be prepared to make the sacrifice. Then he would recognize the necessity of building on and developing existing institutions. Instead of creating new authorities or new machinery, he would do his best to utilise the authorities which were already in existence and the machinery with which the people were familiar. Again, he would take care

that the work which was entrusted to local bodies should be work of a kind to which they were accustomed, as to which their special knowledge and experience would be valuable and in which they would be likely to take an interest. The main function of a local representative body, especially of a local body in a rural district, was to provide in a simple way for petty local wants. These were the things about which the members of such bodies knew, about which they really cared and which they were likely to do well. If they were required to carry out works which were conceived on an Imperial or Provincial scale, they would be discredited; if they were fettered with elaborate formalities, they would be disgusted.

Then, in dealing with the question of finance, an English statesman would recognise the importance of appropriating local taxes to local purposes. The British rate-payer liked to see what became of his money, and strongly objected to its being spent outside his parish or union: if he was told that he would reap the benefit of the expenditure in an indirect manner, he was apt to be incredulous and dissatisfied. It was possible that the Indian rate-payer might be influenced by similar feelings. Then, care would be taken to leave a considerable amount of discretion to local boards, both as to the works on which the money placed at their disposal was to be spent, and as to the mode in which those works were to be carried out. Unless such discretion were given, all real responsibility for, all genuine interest in, local work was made impossible, and the body which had been called into existence for the purpose of assisting the Government with its knowledge and experience was reduced to the level of a mere collecting and spending machine.

Lastly, whilst allowing great latitude as to matters of detail, he would, as to matters of principle, reserve large and strong powers to the Central Government, taking care, of course, that these powers would not take the form of vexatious or arbitrary interference, but should be exercised with reference to general principles and for assignable reasons.

Such were among the most important of the considerations which would be applicable to any experiment in the direction of extending self-government in England; whether, and how far, like considerations were applicable to similar experiments in this country, and, if they were applicable, whether the failure of some of those experiments could in any measure be attributed to a disregard of them, he would leave to those who had more knowledge of India than himself to say.

The only one of these considerations on which he wished to touch further to-day was that which related to the matter of control, and he wished to refer to that for two reasons:—first, because, as his hon'ble friend Mr. Crosthwaite had remarked, it was the feature of the Bill which had evoked most criticism; and secondly, because it was a point on which direct appeal had been made to English precedents. Some of the official critics of the Bill seemed to have feared that its effect would be to take away Government control, whilst there was another class of critics who apparently thought that the existence of such control was incompatible with the existence of local self-government at all.

The Government of India did not share the apprehensions of the first class of critics, and they did not agree with the views of the second. Nothing was further from their intention than to place local representative bodies in a position of absolute freedom from Governmental control. What was proposed was not to remove such control, but to alter its character, to substitute for dictation from within control from without, and to take care that this control should be exercised with reference to fixed and general principles and for definite and intelligible reasons. Control in this form, so far from being incompatible with, was an essential feature of any good system of local self-government. Take, for instance, the system which prevailed in England; not a model system by any means, but a system under which a great deal of useful work was done in a very creditable manner; and consider the relations in which local bodies in that country stood to the Central Government. The most important of the local representative bodies in England were the town councils and local boards

in towns, the boards of guardians and the newly established school boards These were the bodies which, in the language of modern Acts of Parliament, were usually referred to as the "local authorities." They represented the local, as distinguished from the central, element in the Government of the country; and their most important functions were to supervise the relief of the poor, to look after schools and roads and to provide for the maintenance of the public health. In the discharge of each of these functions, their proceedings were controlled by some department of the Central Government. Thus, school boards acted under the control of the Education Department; town councils, local boards and boards of guardians, in their capacity of sanitary authorities, acted under the control of the Local Government Board. He would not refer to the relations which existed between the school boards and the Education Department, except for the purpose of remarking that the section of the present Bill giving power to suspend a district council or local board in case of default was modelled on a section of the English Elementary Education Act of 1870 (section 63), which gave a similar power to the Education Department in the case of a defaulting school board. But MR. ILBERT would take his illustrations mainly from the important Public Health Act of 1875, which regulated the powers and duties of local authorities when exercising sanitary functions. The department of the Central Government which was charged with the control of local sanitary authorities was known as the Local Government Board; but it was not a board at all in the sense of being a deliberative or consultative body—it was simply a department of the State consisting of a President and a Secretary who sit in Parliament, and change with the Government of the day, and of a large permanent staff consisting of secretaries, assistant secretaries, inspectors and other officers. If reference were made to the Public Health Act, 1875, it would be found that the powers of control and supervision which were conferred by that Act on the Local Government Board were numerous and extensive. The sanction of the Board was required for loans and leases. It regulated the terms on which money was to be borrowed and lands let out on lease. Its approval was required for all bye-laws. Its sanction was required for appointments to all offices which were not wholly paid for out of local rates. It prescribed the form in which local authorities were to keep their accounts. It appointed auditors to audit their accounts; and these auditors not only had power to check the accuracy of the figures, but were required to disallow every item of account which was contrary to law, to surcharge the same on the person making or authorising the making of the illegal payment, and to charge against any person accounting the amount of any deficiency or loss incurred by the negligence or misconduct of that person. Its inspectors were entitled to attend any meeting of the local authority. The Board might direct its officers to hold local enquiries as to the mode in which the Act was carried out, and might in appropriate cases charge the expense of the enquiry on the local rate. And lastly, if the local authority made default in the performance of its duties, the Local Government Board might take effectual steps for enforcing and securing the performance of that duty. The section which conferred that power was so important, and bore so directly on the proposals contained in the present Bill, that he would take the liberty of reading it to the Council.

Section 299 of the Public Health Act, 1875, was as follows:—

"Where complaint is made to the Local Government Board that a local authority has made default in providing their district with sufficient sewers, or in the maintenance of existing sewers, or in providing their district with a supply of water, in cases where danger arises to the health of the inhabitants from the insufficiency or unwholesomeness of the existing supply of water, and a proper supply can be got at a reasonable cost, or that a local authority has made default in enforcing any provisions of this Act which it is their duty to enforce, the Local Government Board, if satisfied, after due enquiry, that the authority has been guilty of the alleged default, shall make an order limiting a time for the performance of their duty in the matter of such complaint. If such duty is not performed by the time limited in the order, such order may be enforced by writ of mandamus, or the Local Government Board may appoint some person to perform such duty, and shall by order direct that the expenses of performing the same, together with a reasonable remuneration to the person appointed for superintending such performance, and amounting to a sum specified in the order, together with the costs of the proceedings, shall be paid by the authority in default; and any order made

for the payment of such expenses and costs may be removed into the Court of Queen's Bench and be enforced in the same manner as if the same were an order of such Court."

He made these references to English legislation for the purpose of showing that there was ample English precedent for the powers proposed to be conferred by the present Bill on the Local Government and its officers. The Government of India did not say that the precise powers which were in the present Bill were necessary or applicable under all circumstances or in all parts of India. It was enough to say that they appeared to be required in the Central Provinces, and he hoped and believed that, in the form in which they were given, they would be found to be sufficient.

The Hon'ble MR. GIBBS said:—

"At the last meeting of the Legislative Council at Simla, at which I was unfortunately not able to attend, the Hon'ble Mr. Plowden made some observations on the policy of this Bill, founded on his experience of thirty years as a member of the Civil Service, and, in the course of his speech on that occasion, he alluded to the fact that he was in my absence the senior representative of the Civil Service in the Council. I am not only the senior member here, but with the exception of one member in the Madras Presidency, I believe I am the oldest representative of the Civil Service in India; and it is in that character that I wish to make a few observations on the present occasion. My opinion of the necessity for local self-government is not an opinion recently formed or merely formed on the question being brought forward by your Lordship. I have long seen that such a necessity must arise, and that it was merely the natural outcome of that system of education which has been going on under the auspices of the British Government for between forty and fifty years. I have for many years watched the progress made by the Natives of this country to render themselves capable of taking part in the Government, and done my best to hasten on that end, whenever I had the opportunity, specially by trying, and sometimes with success, to increase the power and independence in municipalities and other local bodies in Western India. Particularly I may allude to the Municipality and Port Trust in the city of Bombay. I am sure that no true friend of the Natives of this country can hold any other opinion than that it would be for the good of the empire when the people of the country become fitted to take a more direct part in its government. This has to a certain extent been going on for many years, by the employment of so many Natives, some in important, but the majority in subordinate, official positions under Government; but the present movement is of very much greater importance than anything that has yet been attempted, for it will enable the independent gentry of the country not merely to join the Government in carrying on the administration of the Empire, but in their own individual capacity to step in and relieve the ordinary Government of much of its work.

"I feel sure that the leading people can, and will, do much to carry out the policy now proposed, but at the same time I feel equally certain that the success of that policy will depend almost as much on the District Officers and their conduct towards the boards as it will on the boards themselves. It will require judicious care and assistance, and not dictation, on the part of the District Officers to assist the gentlemen who form the boards, especially at the commencement, to carry out their onerous duties with success.

"As regards the powers of control given under the Act, I feel quite sure, although no one could be better pleased than myself to avoid such clauses, that no real friend of the people could object to such control at the first, because its real object is to ensure the success of the Act, which, without it, might, and would probably, fail. I feel quite certain, however, that, when it is found that the boards can act alone, such control will be reduced, and eventually perhaps almost entirely removed.

"As an example of what I mean, I would point to large bodies, such as some of the larger municipalities of the Bombay Presidency, and especially to the Municipal Corporation of the City of Bombay. I have no doubt that, if

any measure for amending the Acts under which those bodies work were now under consideration, the control at present insisted on might be considerably reduced and modified.

"I am aware that this is a special Bill for a special province, and, therefore, I will say nothing as to its details beyond expressing my conviction that the great local experience of the Hon'ble Member in charge will have provided for all that is possible to ensure success, and I trust most sincerely that it will prove a blessing to the province to which it applies.

"Your Excellency has been congratulated on the passing of this measure to-day; I will rest content with congratulating myself that I have had the honour and satisfaction of forming one of the Council and the Government who have initiated so far successfully the important policy of local self-government in India."

His Excellency THE PRESIDENT said:—

"I really have nothing to add to the remarks which have been made by previous speakers in the course of this discussion. The Bill before us is, as has been pointed out, a Bill relating to the Central Provinces only, and, consequently, it is framed in accordance with the special circumstances which prevail in that district.

"The Government do not put this Bill forward as a model measure which they would recommend to be followed by all the other Local Governments throughout the country. It might almost be said that the Central Provinces is one of the least advanced districts in India, to which a system of local self-government can be considered to be at all applicable. It is, therefore, natural that a measure to be applied to a district of that description should be framed in a manner which might not be suitable to the circumstances of districts of a much more advanced description, and I desire that it should be distinctly understood that this Bill relates to the Central Provinces, and the Central Provinces only. It is a measure which we have reason to believe is well suited to the circumstances and people of those Provinces, but, doubtless, many of the provisions which find a place in this Bill will not be considered by the heads of Local Governments in other parts of India either necessary or suitable for the populations under their charge. That being so, there is really very little necessity for me to make any remarks upon the details of this Bill. They have been ably explained by my Hon'ble friend Mr. Crosthwaite, and commented on with his full knowledge of such questions by my Hon'ble and learned friend Mr. Ilbert; and I do not think, therefore, that there are any matters upon which any further explanation with respect to the views, intentions and objects of the Government can be required from me.

"I will, however, make just one remark upon a single point of detail, alluded to by my Hon'ble friend who introduced this discussion. He spoke of the section of the Bill—section 34—which relates to the framing of rules by the Chief Commissioner, and he said that some persons might think that a very wide discretion was left to the Local Government in respect to the framing of those rules. Now, it is very important that all persons who have to consider Bills of this description should bear in mind that the provisions which are contained in measures which will form part of the law of the land are hard-and-fast provisions which cannot be altered without referring again to the Legislature and passing a new Act. Now, in a matter of this kind, particularly at its commencement, it is very undesirable to lay down more hard-and-fast rules than are necessary. What you want is that the system should be elastic; and that you should ascertain by practical experiment what modes of self-government are most suited to the requirements and idiosyncrasies of the people in different parts of the country; for, if you tie the hands of the Government too tight by the regulations of an Act of the Legislature, that elasticity which is so desirable in order to arrive at the system best suited to fulfil the wishes and meet the requirements of the country will be altogether lost, and the Government will find itself bound,

whether the measure is in practice found to be suitable or not, to enforce the provisions of the law, or else to go through the long and complicated process of again referring the matter to the Legislature. But those who are inclined to think that these rules are all too elastic, should bear in mind that we have, in this Bill, in fulfilment of the promise made in the Resolution of the Government, issued a short time ago, in respect to rules of this description, distinctly laid down that the rules issued under section 34 shall be published beforehand in draft and left for the consideration of the public for a certain period, in order that, if any objections are felt to them, those objections may be fairly represented to the Local Government.

"And, certainly, if ever there was a case in which we may trust implicitly that the rules which will be made—I hope speedily—under the Bill about to become law, will be those best suited to carry out the provisions of this measure in a friendly spirit towards the spread of self-government, it is this; because it is due to Mr. Morris, whose time in the Central Provinces, I regret to think, is drawing to a close, but who nevertheless will have an opportunity of making the rules under this Bill, that I should say again, what I said on the occasion of a previous discussion at Simla, that there is no civil servant in India who has shown himself, long before this question was taken up by the present Administration, more desirous of applying largely and wisely the principles of local self-government than Mr. Morris. The best thanks of the Government are due to that distinguished public servant for this part of his policy, as well as for the ability with which he has so long administered the Central Provinces over which he has been placed; and I feel the most entire confidence that, in entrusting the initiation of the system established by this Bill to his hands, we are leaving it to one who fully and heartily approves of the principles of the Government on this subject as laid down in their Resolutions on local self-government."

The Motion was put and agreed to.

## EXPLOSIVES BILL.

The Hon'ble MR. ILBERT moved that the Bill to regulate the manufacture, keeping, sale, conveyance and importation of explosives be referred to a Select Committee consisting of Lieutenant-General the Hon'ble T. F. Wilson, the Hon'ble Mr. Hope, the Hon'ble Durgá Charan Láhá, the Hon'ble Messrs. Reynolds and Miller and the Mover.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill and Statement of Objects and Reasons be published in the local official Gazettes in English and in such other languages as the Local Governments might think fit.

The Motion was put and agreed to.

The Council adjourned to Friday, the 26th January, 1883.

**No. 401.**

READ—

Letter from the Master of the Mint, Calcutta, No. 790, dated 10th October 1882, forwarding the Administration Reports of the Mints at Calcutta and Bombay for the year 1881-82.

RESOLUTION.—The amount of silver coined during the year under review was smaller than in any year since 1871-72, and, as compared with 1880-81, shows a decrease of about 206 lakhs of rupees; there was, however, an increase of nearly 149 lakhs in the net imports of silver as compared with 1880-81, and the comparatively small coinage is partly due to the fact that a great part of the silver imported was tendered to the Mint in the course of the last month of the year of report, and could not be taken up for coinage till after the close of the year. The following figures show the value in lakhs of rupees, of the net imports of silver and of the coinage for the last ten years :—

| | Net Imports. Lakhs. | Coinage. Lakhs. |
|---|---|---|
| 1872-73 | 72 | 398 |
| 1873-74 | 249 | 237 |
| 1874-75 | 464 | 490 |
| 1875-76 | 155 | 255 |
| 1876-77 | 720 | 627 |
| 1877-78 | 1,468 | 1,618 |
| 1878-79 | 397 | 721 |
| 1879-80 | 787 | 1,025 |
| 1880-81 | 389 | 425 |
| 1881-82 | 538 | 219 |

2. The value of the silver received in the Mints for coinage during the year under review, was as follows:—

| | R |
|---|---|
| Imported silver | 2,09,66,730 |
| Old silver for recoinage | 63,91,897 |
| Old Portuguese Indian coin | 9,97,034 |
| TOTAL | 2,83,55,661 |

These figures, however, do not represent the actual amount of imported silver tendered to the Mints during the year, inasmuch as a large quantity of bullion, about 84 lakhs, was held in the Mints at the close of the year on account of the Currency Department; the proportion of imports tendered for coinage was, however, small, and a large quantity of the imported silver must have found its way to Native States and Districts, chiefly in Bombay and Madras, from which the precious metals had been to some extent drained by famine: this view is supported by the fact that during the year there has been a further reduction in the receipts at the Mint of silver ornaments.

The following figures show the receipts in lakhs of rupees, of bullion of this description and of Native coin, tendered for coinage during the last five years:—

| | Native Silver Ornaments. | Native Coin. |
|---|---|---|
| | Lakhs | Lakhs |
| 1877-78 | 121 | . |
| 1878-79 | 116 | 67 |
| 1879-80 | 92 | 45 |
| 1880-81 | 10 | 2½ |
| 1881-82 | 4 | 1 |

3. Of British coin tendered for recoinage rather more than 11 lakhs were received in the Calcutta Mint and nearly 20 lakhs in the Bombay Mint; this coin consisted for the most part of shroff marked rupees collected in the District Treasuries throughout the country and remitted to the Mints for recoinage. The old Portuguese Indian coin valued at Rs. 9,97,034 was received at the Bombay Mint for coinage under the monetary convention with the Government of Portuguese India, and the value of the silver coin struck for the Goa Government during the year was Rs 9,61,786, which is included in the total coinage of the Bombay Mint.

4. The total coinage of gold, silver and copper at each Mint is shown separately for the last three years in the following table:—

| | Calcutta | | | Bombay | | |
|---|---|---|---|---|---|---|
| | 1879-80 | 1880-81 | 1881-82 | 1879-80 | 1880-81 | 1881-82 |
| COINAGE. | | | | | | |
| Tale of pieces of all kinds | 74,161,243 | 24,408,796 | 17,785,150 | 81,215,596 | 31,986,936 | 22,207,320 |
| VALUE. | Rs | Rs | Rs | Rs | Rs | Rs |
| Gold | 1,46,010 | 1,33,515 | 3,39,705 | 1,255 | | |
| Silver | 2,15,51,161 | 1,05,09,825 | 84,77,510 | 8,12,15,511 | 3,19,86,936 | 1,31,85,242 |
| Copper | 7,07,900 | 1,85,600 | 39,950 | | | 50,009 |
| TOTAL | 2,22,08,101 | 1,08,28,970 | 88,57,165 | 8,12,16,766 | 3,19,86,936 | 1,31,35,251 |

5. The increase in the coinage of gold at Calcutta is attributed by the Mint Master to a larger influx of gold than in the previous year, and to a desire to increase the balance in the bank in order to avoid the necessity of a further coinage till repairs could be done. It is observed, however, that the quantity of gold tendered to the Mints is quite insignificant in comparison with the net imports, which show a remarkable increase, as will be seen from the following figures:—

| | Net Imports Lakhs. |
|---|---|
| 1879-80 | 175 |
| 1880-81 | 365 |
| 1881-82 | 481 |

Gold is extensively used for ornaments and the increase in the imports, coupled with the large reduction, already noticed, in the value of silver ornaments tendered for coinage, may be taken as an indication of increasing wealth.

6. The falling off in the coinage of silver has taken place in both Mints, but is largest at Bombay where the greater quantity of silver is imported. The coinage at the Calcutta Mint includes Rs. 18,16,353 in small silver, chiefly one-fourth and one-eighth rupees, while that at Bombay includes Rs. 11,59,804 in British small coin, principally half-rupees, and Rs. 3,02,663 in the New Portuguese Indian small silver coin. The copper coinage during the year was comparatively insignificant, that at Calcutta consisting of single pice to the amount of Rs. 39,950 and that at Bombay of the new Portuguese Indian quarter tangas and one-eighth tangas to the amount of Rs. 50,009.

7. The Mint Masters furnish, with the report for 1881-82, an account showing the whole Revenue and Expenditure of each of the Mints for the year. This account is prepared in accordance with the instructions contained in Resolution by the Government of India in this Department, No. 3234, dated 5th October 1878. Similar accounts have already been received for each of the three preceding years, and Government is now in a position to review the financial results of the working of the Mints for a period of four years, and to consider whether any modification is required in the instructions for preparing the yearly accounts. The Resolution of 5th October 1878, already quoted, makes provision for the credit of revenue of all kinds to the Mints, and for the debit of all expenditure, direct and indirect. In these respects no change is called for, but the Governor General in Council is of opinion that the charge for interest on Capital sunk in the Mint may fairly be reduced from 4½ to 4 per cent., as that is the rate at which money can be borrowed by Government.

8. It is observed that in each year interest has been charged on a working balance of 30 lakhs of rupees for each Mint; this sum may fairly represent the minimum amount of silver which must be under treatment in the Mint, in order that the process of coining may be carried on with economy, but it is very much less than the average amount of bullion which is actually locked up in the Mints and in exchange for which Government has already given rupees. The charge for interest should not, therefore, be calculated on an assumed minimum working balance, but on the value of the silver which has actually been locked up in the Mints during the years for which the account is prepared.

9. If the corrections indicated be made, the accounts of the Mints will stand as follows:—

| | Revenue. | | Expenditure. | |
|---|---|---|---|---|
| | Calcutta. | Bombay. | Calcutta. | Bombay. |
| | Rs. | Rs. | Rs. | Rs. |
| 1878-79 . . . . . | 5,41,985 | 11,59,614 | 11,42,489 | 9,80,356 |
| 1879-80 . . . . . | 5,17,277 | 18,51,834 | 10,60,646 | 11,06,806 |
| 1880-81 . . . . . | 2,32,366 | 6,41,704 | 8,61,901 | 7,74,325 |
| 1881-82 . . . . . | 2,11,295 | 3,83,528 | 8,90,413 | 6,45,716 |
| Total . | 15,02,923 | 40,36,680 | 39,55,449 | 35,07,203 |

The total revenue of both Mints during the last four years has been Rs. 55,39,603, and the expenditure Rs. 74,62,652, showing a loss of Rs. 19,23,049, giving an average loss of Rs. 4,80,762 per annum. The revenue of the Mints is chiefly derived from the seignorage charge of 2 per cent. on silver coined.

10. In drawing up the account for the year under review, the Mint Master, Bombay, has omitted to make any charge for working balance, while the Mint Master, Calcutta, has charged interest on a working balance of Rs. 39,29,997. In future, the charge for interest should be calculated on the average balance of silver actually locked up in the Mint, and not available for other purposes, during the year, whether such silver be held on behalf of the General Treasury or of the Paper Currency Department.

11. In calculating the indirect charges, the land occupied by the Mints is valued at Rs. 12,62,200 in Bombay, and at Rs 1,11,335 only in Calcutta. The valuation of the land in the case of the Calcutta Mint appears to be too low, as the area of the land covered by the Calcutta Mint is considerable and the site is valuable. The Mint Master is accordingly requested to obtain and furnish the explanation called for on this point in the Resolution by this Department reviewing the Mint Administration Reports for 1880-81; a careful estimate should be made of the value of the Calcutta site.

12. The increase in the operative losses in the Calcutta Mint is due to the large quantity of old coin withdrawn during the year Excluding the loss on withdrawal and recoinage of worn-out and uncurrent coins, the percentage of operative losses is reported to have been as follows in each of the last four years —

| | *Calcutta* | *Bombay* |
|---|---|---|
| | (Pies per cent) | |
| *In Melting*— | | |
| 1878-79 | 18 | 5 |
| 1879-80 | 9 8 | 5 |
| 1880-81 | 9 2 | 5 |
| 1881-82 | 6 7 | 7 |
| *In Coinage*— | | |
| 1878-79 | 22 | 11 |
| 1879-80 | 17 | 13 |
| 1880-81 | 15 5 | 11 |
| 1881-82 | 9 | 7 |

13 The decrease which has been effected in the percentages both of melting and coinage losses at the Calcutta Mint is satisfactory. The increase in the melting losses at the Bombay Mint is reported by the Mint Master to be in some measure due to the newly laid floor in the Melting Department of the Mint absorbing at first more silver than the old floor The loss on coinage in the Bombay Mint, though stated by the Mint Master to be 7 pies per cent, appears, if calculated on tale of coinage, as is done in the Calcutta Mint, to amount to 11 pies per cent.; but even this figure shows a satisfactory reduction on the loss in the previous year. The Governor General in Council is glad to observe that the Mint Masters have continued, during the year under review, to give special attention to the reduction of the operative losses.

14. Under the head of salaries and establishments there is a satisfactory saving in the operative establishment at Bombay consequent on the falling-off in the coinage; but, on the other hand, the establishment charges of the Calcutta Mint continue to increase from year to year, notwithstanding the reduced coinage. The increase in the charges of the Calcutta Mint in the past year as compared with 1880-81 is, however, mainly due to the absence of the Mint Master during the year on three months' privilege leave, and to the allowances paid to his *locum tenens* having been included in the charges for direction and establishment; considering the small amount coined, it is not satisfactory that such a heavy charge as Rs. 49,197 should have been incurred for extra operative establishment, this charge being nearly three times as great as the expenditure incurred in the Bombay Mint on the same account, although the coinage at Bombay was much larger than at Calcutta It is observed that the increase in the permanent operative establishment at Calcutta appears to be mainly due to the cost of work undertaken for the Ordnance Department.

15. The sum of Rs. 1,68,071 was added during the year to the Capital expenditure on the Bombay Mint, Rs. 1,40,870 being for additional plant and Rs. 27,204 on account of construction charges. Among other improvements effected during the year are the completion of the new roof of the melting

room and the erection of the new Mint boundary wall, which clearly demarcates the entire Mint property and leaves a clear open space of ground between the buildings and the boundary wall, thus affording facilities for the detection of theft on the part of the labourers. The Capital expenditure on the Calcutta Mint during the year was Rs. 80,252, of which Rs. 77,334 were expended in placing iron roofing on the silver Mint.

16. The saving effected in the Bombay Mint during the year by the adoption of the electro-plating process of adjusting coins amounted to Rs. 2,378.

17. The amount of miscellaneous work done in the Calcutta Mint continues to be much larger than that done in the Mint at Bombay; it consists chiefly of the manufacture of stars and medals, of passes for the railways, seals for courts, and scales and weights for Government Departments.

18. A considerable quantity of cartridge metal, &c., was supplied by the Calcutta Mint to the Ordnance Department during the year, and the Governor General in Council observes with satisfaction that the Inspector General of Ordnance has reported a saving of Rs. 16·73 per cent. on the year's supply, as compared with the prices from England. His Excellency in Council also notices with pleasure the testimony borne by the Mint Master to the valuable services rendered by Messrs. Clark, Purchase and Wareham, of the Engineering Establishment of the Calcutta Mint, in connection with experimental manufacture of cartridge metal, which, except in minor points, is reported to have proved entirely satisfactory.

---

ORDERED, that this Resolution be published in the *Gazette of India* and communicated to the Mint Masters, Calcutta and Bombay.

*The 25th January 1883.*

**No. 406.**—The Governor General in Council is pleased, under the provisions of 45 and 46 Vic., Cap. 45, to notify, that the Trustees of the Provident Branch of the Bombay Civil Fund have transferred the assets and liabilities of the Provident Branch of the Bombay Civil Fund to the Secretary of State for India in Council, with effect from the 1st December 1882, and that the Secretary of State for India in Council has accepted the said transfer.

**No 407.**—With reference to Notification No. 406, dated 25th January 1883, the Governor General in Council is pleased to notify that the Secretary of State for India in Council has directed that all notifications and applications on the part of the subscribers to, or beneficiaries under, the Provident Branch of the Bombay Civil Fund, which are required or prescribed by the Rules of the said Fund, as existing on the 18th August 1882, shall, on and after the 1st December 1882, be given and made by subscribers or annuitants in England, to the Director of Funds at the India Office, and by subscribers or annuitants in India to the Accountant General, Bombay.

**No. 494.**—Mr. Arthur D. Carey, Bo. C.S., Officiating Commissioner of Northern India Salt Revenue, is confirmed in that appointment, with effect from the 1st December 1882.

*The 26th January 1883.*

**No. 499.**—In exercise of the power conferred by Section 5 of the Local Authorities Loan Act, 1879, the Governor General in Council directs that, in rule V of the rules published with Notification No. 3745, dated 8th November 1879, the words "or for permission to raise a loan" shall be, and shall be deemed to have been always, omitted, and that after the words "every such application" the words "and every application for permission to raise a loan" shall be, and shall be deemed to have been always, inserted.

**No. 505.**—Mr. F. R. Hogg, B. C. S., Director General of the Post Office of India, is allowed privilege leave for eighty-two days, with effect from the 17th February 1883.

The following appointments are made in consequence of Mr. Hogg's absence :—

Mr. H. E. M. James, Bo. C. S., Post Master General Bengal, to officiate as Director General of the Post Office of India.

Mr. J. Dillon, Comptroller Post Office, to officiate as Post Master General, Bengal.

Mr. W. Alpin, Assistant Comptroller, to officiate as Comptroller, Post Office.

F. W. PEILE, *Major-Genl., R.E.*,
*Secy. to Govt, N.-W. P. & Oudh, P. W. D.*

## PUBLIC WORKS WORKSHOPS, MADRAS.

### NOTIFICATION.

*Madras, the 25th October 1882.*

The Government propose to sell or let the whole of the workshop land, buildings, machinery, and plant; and tenders for the purchase or lease of the same will be received by the undersigned up to the 1st February 1883.

A circular giving information on the subject will be supplied on application to the undersigned.

All tenders will be submitted to the Chief Engineer, Public Works Department, who reserves the right of rejecting any or all of the tenders without assigning any reason.

W. L. C. BADDELY, *Lieut., R.E.*,
*Genl. Supdt., P. W. Workshops.*

HENRY F. BLANFORD.
*Meteorological Reporter to Government of India.*

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

**Terms of subscription, payable annually in advance.**

| | Without Postage. | With Postage |
|---|---|---|
| For the CALCUTTA SERIES . | R5 | R7-8 |
| „ MADRAS SERIES . | „ 8 | „ 9 |
| „ BOMBAY SERIES . | „ 8 | „ 9 |
| „ ALLAHABAD SERIES . | „ 8 | „ 9 |
| Complete set . . . | „45 | „47-8 |

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

| | | |
|---|---|---|
| For a Part of the CALCUTTA SERIES . | R1 | 8 |
| „ „ MADRAS SERIES . | „ 1 | 0 |
| „ „ BOMBAY SERIES . | „ 1 | 0 |
| „ „ ALLAHABAD SERIES | „ 1 | 0 |
| Complete set . . . . . | „ 4 | 0 |

Persons desiring to subscribe for or purchase the Reports, should apply to—
MESSRS. THACKER, SPINK AND CO., CALCUTTA ;
MESSRS. THACKER AND CO., BOMBAY.
MESSRS. HIGGINBOTHAM AND CO., MADRAS ;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY ;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

*Orders and Subscriptions for 1879 should be at once remitted.*

## THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at R175 a set.

☞ The following books may be purchased from the Office of Superintendent of Government Printing, India, No. 166, Dhurrumtollah Street, for private use only, which should be stated in the requisition.

No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every Rupee's worth of stamps, for discount in exchanging them for cash. Service labels or Court Fee stamps are not received.

Books required for the public service cannot be supplied on payment ; they are only issued on the authority of the Department to which the indenting officer is subordinate. Applications for them should be made through the Local Government under which the applicant serves.

*An Act to make better provision for local self-government in the Central Provinces.*

WHEREAS provision has been made by the Central Provinces Land-revenue Act, 1881, for the appointment of mukaddams for the several villages in the territories administered by the Chief Commissioner of the Central Provinces; and

Preamble.

XVIII of 1881.

Whereas provision has been made in the settlement-records of the districts in those territories for the levy of rates for the maintenance of roads, schools and the district post, and it is proposed that the Government shall, from time to time, assign certain sums, or the income accruing from certain sources, for expenditure on objects tending to promote the welfare and improvement of the inhabitants of each of those districts;

It is hereby enacted as follows:—

*Preliminary.*

1. This Act may be called the Central Provinces Local Self-government Act, 1883.

Short title.

It shall extend only to the territories for the time being administered by the Chief Commissioner of the Central Provinces; and

Local extent.

it shall come into force at once.

Commencement.

2. In this Act—

Definitions.

"Assistant Commissioner" includes an Extra Assistant Commissioner in any district where there is no Assistant Commissioner:

"Financial year" means the year commencing on the first day of April:

"Village" includes any tract of land which, at the last settlement of that land, has been recognized as a village, or which the Chief Commissioner may, from time to time, declare to be a village for the purposes of the Central Provinces Land-revenue Act, 1881; and

XVIII 1881.

"Mukaddam" means the executive headman of a village appointed under that Act.

*Formation of Local Administrative Areas.*

3. (*1*) The Chief Commissioner shall, by order in writing, for the purposes of the local self-government of each district, aggregate the several villages thereof in circles and the circles in groups.

Aggregation of villages in circles and groups for purposes of local self-government.

(*2*) There shall be excluded from the circles and groups formed under this section such portions of the district as are for the time being included in the limits of a military cantonment or of a town having a municipal committee.

(*3*) The Chief Commissioner may, from time to time, by order in writing, vary any order made under this section.

*Constitution of Local Administrative Bodies.*

4. There shall be established for each group of circles a local board having authority over that group, and for each district a district council having authority over the entire district, except such portions thereof as are for the time being included in the limits of a military cantonment or of a town having a municipal committee.

Establishment of local boards for groups and of district councils for districts.

5. The local board for a group of circles shall consist of—

Constitution of local board.

(*a*) representative members, one or more for each circle, being the mukaddam or mukaddams of a village or villages within that circle;

(*b*) representatives, one or more, of mercantile classes or professions, resident within the area comprised in the group, and elected by, or appointed on behalf of, those classes or professions; and

(*c*) such person or persons, if any, not exceeding in number one-third of the board, as the Chief Commissioner may from time to time appoint.

6. The district council of a district shall consist of—

Constitution of district council.

(*a*) representatives of groups of circles within the district, one or more for each group, being a member or members of, and elected by, the local board for that group;

(*b*) representatives, one or more, of mercantile classes or professions, resident within the district, and elected by, or appointed on behalf of, those classes or professions; and

(*c*) such person or persons, if any, not exceeding in number one-third of the council, as the Chief Commissioner may from time to time appoint.

7. (*1*) If a person convicted by a criminal Court of an offence the commission of which in the opinion of the Chief Commissioner shows him to be unfit to be a member of a local board or district council is elected as such member, the Chief Commissioner may declare his election void.

Power to set aside election or remove member in case of conviction of offence.

(*2*) If a member of such a board or council is so convicted of any such offence, the Chief Commissioner may declare his office to be vacant.

8. Every district council shall be a body corporate by the name of the district council of its district,

Incorporation of district council.

shall have perpetual succession and a common seal, with power to acquire and hold property, both moveable and immoveable, to transfer any moveable property, and, with the previous approval in writing of the Deputy Commissioner, any immoveable property, held by it, and to contract and to do all other things necessary for the purposes of its constitution, and may sue and be sued in its corporate name.

*Duties of District Councils and Local Boards.*

Matters to be administered by board and council.

**9.** The following matters shall, subject to such exceptions as the Chief Commissioner may, from time to time, by order in writing make, be under the control and administration of the district council and of the local boards within the areas subject respectively to their authority :—

(*a*) The construction, repair and maintenance of roads and other means of communication :

(*b*) The management, maintenance and visiting of schools, hospitals, dispensaries, markets, rest-houses, saráís and other public institutions, and the construction and repair of all buildings connected with these institutions :

(*c*) The construction and repair of public wells, tanks and water-works, the supply of water from them and from other sources, and the preservation from pollution of water for drinking and cooking purposes :

(*d*) The planting and preservation of trees on public ground :

(*e*) The establishment and maintenance of relief-works in time of famine or scarcity :

(*f*) The establishment and management of pounds, including, where the Cattle-trespass Act, 1871, is in operation, all the functions of the Local Government and the Magistrate of the District under sections four, five, six, seven, twelve, fourteen and seventeen, and clause (*a*) of section eighteen, of that Act :

I of 1871.

(*g*) The management of such public ferries as may be entrusted to their charge under section 7 A of the Northern India Ferries Act, 1878, as amended by this Act :

XVII of 1878.

(*h*) Any other local works or measures likely to promote the health, comfort or convenience of the public, and

(*i*) The maintenance of any building, or other property, vested under this Act in the district council.

*Relations of Local Boards to District Councils.*

Duties of local board.

**10.** (*1*) A local board as the agent of, and subject to the control of, the district council, shall, within the area subject to its authority, have the control and administration of, and be responsible for, all the matters specified in section nine except such of those matters as the district council may think fit to take under its direct control and administration, and such as the Chief Commissioner may have excepted by order under section nine.

(*2*) It shall be the duty of the district council to enforce the responsibility imposed on a local board by sub-section (1).

Reports, estimates and accounts to be submitted by board to council.

**11.** Every local board shall submit annually to the district council of its district, on or before such date as the council may appoint in this behalf, a statement of the requirements, and an estimate of the probable expenditure, of the board for the coming financial year, and a report of its proceedings, and an account of its receipts and expenditure for the past financial year, and shall also submit to the council such other reports, if any, as the council may, from time to time, require.

Limits on expenditure of local board.

**12.** A local board shall not incur expenses or undertake liabilities, to any amount exceeding the limit imposed by the district council of its district.

Power for council to reverse or vary resolution of board.

**13.** A district council may, by a majority of two-thirds of its whole number, reverse or vary any resolution of a local board for an area within its district.

Power for council to provide for performance of duty in default of board.

**14.** (*1*) If the local board makes default in the performance of any duty imposed on it by or under this Act, the district council may, by order in writing, fix a period for the performance of the duty.

(*2*) If the duty is not performed within that period, the council may appoint some person to perform it, and may provide for the expenses of, and incidental to, its performance out of the funds appropriated to or for the purposes of the local board.

Power to declare local boards independent.

**15.** (*1*) The Chief Commissioner may from time to time, by notification in the official Gazette, declare any local board established under this Act to be an independent board, and may in like manner cancel such notification.

(*2*) A local board so declared shall, while the notification is in force, so far as may be, have within the area subject to its authority, the powers, and perform the duties, of a district council under this Act, and shall cease to be the agent of, and under the control of, the district council.

*School Committees.*

Appointment of school committees.

**16.** (*1*) Every district council, and every local board as the agent of, and subject to the control of, its District Council, may from time to time appoint school committees for the several schools under its control and administration, and shall as far as may be practicable conduct the management of any school for which such a committee has been appointed through that committee.

(2) All school committees existing within the area subject to the authority of any district council or local board at the time that council or board comes into existence shall be deemed to have been appointed under this section.

*Joint Committees.*

Joint committee of two or more local boards.

**17.** (1) A local board may, from time to time, concur with any other local board or boards for an area or areas in the same district, in appointing, out of their respective bodies, joint committees for any purpose in which they are jointly interested, and in delegating to any such committee any power which might be exercised by either or any of the local boards, and in framing and modifying regulations as to the proceedings of any such joint committee.

(2) If any dispute arises between two or more local boards acting under this section, the decision thereon of the district council of their district shall be final.

Joint committee of two or more district councils.

**18.** (1) A district council may, from time to time, concur with any other district council or district councils in appointing, out of their respective bodies, joint committees for any purpose in respect of which they are jointly interested, and in delegating to any such committee any power which might be exercised by any or either of the district councils, and in framing and modifying regulations as to the proceedings of any such joint committee.

(2) If any dispute arises between two or more district councils acting under this section, the decision thereon of the Commissioner, if the councils are in the same division, or, if they are not in the same division, of the Chief Commissioner, shall be final.

*Conduct of Business.*

Chairman.

**19.** (1) Every district council and local board shall, from time to time, elect one of its members to be chairman for one financial year at all meetings at which he is present.

(2) If the chairman so elected dies, resigns or becomes incapable of acting, the council or board shall elect another of its members to be chairman for the period during which the person so dying, resigning or becoming incapable would have been entitled to continue in office, and no longer.

(3) An election under the foregoing provisions of this section shall not be valid until it is approved, in the case of the chairman of a local board, by the Commissioner of the division, and, in the case of the chairman of a district council, by the Chief Commissioner.

(4) If when any meeting is held the office of chairman is vacant or the chairman is absent from the meeting, the members present shall appoint one of their number to be chairman thereat.

Regulations as to meetings and proceedings.

**20.** (1) Every district council and local board may, from time to time, make regulations as to the time and place of its meetings, the conduct of proceedings at meetings, and the appointment, powers and proceedings of committees:

(2) Provided that every regulation made under this section must be consistent with this Act and with any rules made by the Chief Commissioner under this Act.

*Officers and Servants.*

Employment of officers and servants.

**21.** (1) Every district council may employ such officers and servants as may be necessary and proper for the efficient execution of its duties and may assign to them such pay, leave allowances, gratuities and pensions as it thinks fit.

(2) A local board may employ such officers and servants, and may assign to them such pay, leave allowances, gratuities and pensions, as the district council of its district thinks requisite and sufficient.

(3) In the case of an officer lent by the Government, the council or board may contribute to any leave allowance, gratuity, or pension, which he may become entitled to in accordance with the rules for the time being in force.

(4) If, in the opinion of the Commissioner,

(*a*) the number of persons employed by a council or board under this section, or the pay, allowances, gratuities or pensions assigned by the council or board to those persons, or to any particular person, is or are excessive, or

(*b*) any such person is unfit for his employment,

the council or board shall, on the requirement of the Commissioner, reduce the number or remuneration, or, as the case may be, dismiss the unfit person.

*Vesting of Property.*

Power to vest property in district council.

**22.** The Chief Commissioner may, from time to time, by notification in the official Gazette, direct that any property, moveable or immoveable, which is vested in Her Majesty and is situate in the Central Provinces, shall vest in any district council; and thereupon that property shall vest in that council for the purposes of this Act, subject to all rights over, and all debts, liabilities and obligations (if any) affecting, that property.

*Finance.*

Constitution, custody and application of district fund.

**23.** (1) There shall be formed for each district a fund to be called the district fund, and there shall be placed to the credit thereof—

(*a*) the net proceeds (after deducting the expenses of collection) of all rates levied in accordance with settlement-records in that district for the maintenance of roads or schools;

(*b*) such portion (if any) of the surplus of the rates so levied for the maintenance of the district post as the Chief Commissioner may from time to time assign in this behalf;

(*c*) the surplus accruing in that district under section eighteen of the Cattle-trespass Act, 1871;

(*d*) the proceeds of public ferries payable into the district fund of that district under section 7A of the Northern India Ferries Act, 1878, as amended by this Act;

78.

(*e*) all sums assigned, from time to time, by the Chief Commissioner for expenditure on local works in that district, under section five of the Central Provinces Additional Rates Act, 1878, section seventeen of the Northern India Ferries Act, 1878, or any enactment amending either of those Acts;

78.

(*f*) all such rents and profits accruing from nazul property in that district as the Chief Commissioner may, from time to time, direct to be paid to the district council;

(*g*) all sums contributed to the fund by the Government, local bodies, or private persons; and

(*h*) all sums received by the district council in the execution of this Act.

(*2*) The district fund shall be vested in the district council, and the balance standing to the credit of the fund shall be kept in the Government treasury of the district.

(*3*) The district fund shall be applicable to the payment, in whole or in part, of the charges and expenses incidental to the several matters specified in sections nine and twenty-one, within the area subject to the authority of the district council, and, with the sanction of the Chief Commissioner, outside of that area, and also to the following purposes:—

(*a*) the payment of school inspectors and normal school teachers appointed and controlled by the Government and employed in the district, and the provision of scholarships and prizes for schools in the district;

(*b*) the payment of subordinate medical officers (including vaccinators) appointed by the Government and employed in the district; and

(*c*) the expenses attending the audit of the accounts of the district council and of the local boards within the district.

Provided that the amount expended from the district fund in any financial year on primary education shall not be less than the estimated net proceeds for that year of the rates levied in the district in accordance with the settlement-records for the maintenance of schools.

(*4*) When a local board has been declared independent under section fifteen, such portion of the district fund as the Chief Commissioner may from time to time fix in this behalf shall, during its independence, be annually set apart and placed at its disposal, and shall, for the purposes of this Act, be treated as a separate district fund.

Annual estimates of income and expenditure.

**24.** (*1*) Every district council shall appoint a finance committee consisting of not less than three of its number.

(*2*) Every district council shall, on or before the prescribed day in each year, hold a meeting at which the finance committee shall submit to the council, in such form as the Chief Commissioner may, from time to time, by rule prescribe, an estimate of the income and expenditure of the council for the next financial year.

(*3*) The district council shall consider the estimate, and may provisionally approve of it with or without modification.

(*4*) The district council shall, on or before the prescribed day, cause a copy of the estimate as provisionally approved by it to be sent to the Deputy Commissioner.

(*5*) The Deputy Commissioner may object to the estimate on the ground that any expenditure on salaries, works or otherwise, proposed therein, appears to him to be unnecessary or excessive, or that any particular contained therein appears to him to be erroneous, defective or improper.

(*6*) If the Deputy Commissioner so objects, he shall signify his objections in writing to the district council; if he does not so object, he shall signify his approval in like manner.

(*7*) When the Deputy Commissioner signifies, under sub-section (6), objections to an estimate, the district council shall consider his objections, and either modify the estimate so as to remove them, or refer the estimate with the statement of objections, through the Deputy Commissioner, to the Commissioner, and the Commissioner shall signify to the district council his approval of the estimate, with or without such modifications as may be needed to remove the objections wholly or in part as he thinks fit.

(*8*) When the Deputy Commissioner or Commissioner has signified his approval of an estimate, or the district council has modified an estimate so as to remove the Deputy Commissioner's objections, no expenditure which is not provided for in the estimate as approved or modified shall be incurred during the year to which the estimate relates without the previous sanction of the Commissioner.

(*9*) "Prescribed day," for the purposes of sub-section (2) or sub-section (4) of this section, means such day as the Chief Commissioner may, from time to time, by rule prescribe for the purposes of that sub-section.

(*10*) When the Deputy Commissioner is a member of the district council, the Commissioner shall

take the place of the Deputy Commissioner for the purposes of this section, and the reference under sub-section (7) shall be to the Chief Commissioner.

Annual accounts and audit

25. Accounts of the receipts and expenditure of every district council shall be made up to the last day of every financial year, in such form as the Chief Commissioner, from time to time, prescribes, and shall be examined and audited as soon as may be after the end of each financial year by such persons as the Chief Commissioner, from time to time, appoints in this behalf.

Inspection of estimates and accounts

26. The district council shall cause a copy of every estimate provisionally or finally approved under section twenty-four, and of every account made up under section twenty-five, to be kept at its office, and any person may at all reasonable times inspect any such estimate or account.

Publication of abstract of accounts

27. An abstract of every annual account of a district council showing the income of the district fund under each head of receipts, the charges for establishment, the works undertaken, the sums expended on each work, and the balance, if any, of the fund remaining unspent, shall be prepared by the district council in such form as the Chief Commissioner from time to time prescribes, and published annually in the English and Vernacular official Gazettes.

*Control.*

Deputy Commissioner's power of supervision.

28 (*1*) The Deputy Commissioner of a district shall have power to supervise the proceedings of the district council, and of every local board, joint committee, or school committee in the district, and in exercise of that power may (among other things)—

(*a*) enter on and inspect, or cause to be entered on and inspected, any immoveable property occupied by the council, board or committee, or any work in progress under its direction,

(*b*) call for and inspect any document which may be for the purposes of this Act in the possession or under the control of the council, board or committee, and

(*c*) require the council, board or committee to furnish such statements, accounts and reports as he thinks fit.

(*2*) Where a joint committee is appointed by the district councils of several districts, the Deputy Commissioner of any of those districts may exercise a like power in respect of the proceedings of that committee, but if any difference arises between two or more Deputy Commissioners acting under this sub-section, it shall be referred, when the districts are in the same division, to the Commissioner, and, when the districts are not in the same division, to the Chief Commissioner, whose decision shall be final.

(*3*) The power given under this section to a Deputy Commissioner in respect of a local board or school committee may, with the sanction of the Chief Commissioner, be delegated by him to a subordinate not below the rank of an Extra Assistant Commissioner.

(*4*) When the Deputy Commissioner is a member of the district council, the powers given to him under this section shall, in respect of that council, vest in the Commissioner.

Power to suspend execution of orders, &c

29. (*1*) If, in the opinion of the Deputy Commissioner, the execution of any order or resolution of a district council, local board, joint committee, or school committee, or the doing of any act which is about to be done, or is being done, in pursuance of or under cover of this Act, is likely to cause injury or annoyance to the public, or to any class or body of persons, or to lead to a breach of the peace, he may, by order in writing, suspend the execution or prohibit the doing thereof within his district.

(*2*) When a Deputy Commissioner makes any order under this section he shall forthwith forward to the Commissioner a copy of the order, with a statement of the reasons for making it; and it shall be in the discretion of the Commissioner to rescind the order, or to direct that it continue in force, with or without modification, permanently, or for such period as he thinks fit.

(*3*) The Commissioner shall forthwith submit to the Chief Commissioner a report of every case occurring under this section, and the Chief Commissioner may rescind or modify any order made therein, and make in respect thereof any other order which the Commissioner could have made in respect of the same.

Extraordinary powers of Deputy Commissioner in case of emergency

30. (*1*) In cases of emergency the Deputy Commissioner may provide for the execution of any work, or the doing of any act, which a district council or local board is empowered to execute or do, and the immediate execution or doing of which is in his opinion necessary for the service or safety of the public, and may direct that the expense of executing the work or doing the act, with a reasonable remuneration to the person appointed to execute or do it, shall be forthwith paid by the district council.

(*2*) If the expense and remuneration are not so paid, the Deputy Commissioner may make an order directing the person having the custody of the balance of the district fund to pay the expense and remuneration, or as much thereof as is possible, from that balance.

(*3*) The Deputy Commissioner shall forthwith report to the Commissioner every case in which he uses the powers given to him by this section.

**31.** (*1*) When the Chief Commissioner is informed, on complaint made or otherwise, that a district council has made default in performing any duty imposed on it by or under this Act, the Chief Commissioner, if satisfied after due inquiry that the district council has been guilty of the alleged default, may, by an order in writing, fix a period for the performance of that duty.

Power to provide for performance of duties in default of district council.

(*2*) If that duty is not performed within the period so fixed, the Chief Commissioner may appoint some person to perform it, and may direct that the expense of performing it, with a reasonable remuneration to the person appointed to perform it, shall be forthwith paid by the district council.

(*3*) If the expense and remuneration are not so paid, the Chief Commissioner may make an order directing the person having the custody of the balance of the district fund to pay the expense and remuneration, or as much thereof as is possible, from that balance.

**32.** (*1*) If a district council or local board is not competent to perform, or persistently makes default in the performance of, the duties imposed on it by or under this Act or otherwise by law, or exceeds or abuses its powers, the Chief Commissioner may, with the previous approval of the Governor General in Council, by an order published, with the reasons for making it, in the local official Gazette, declare the council or board to be incompetent or in default, or to have exceeded or abused its powers, as the case may be, and supersede it for a period to be specified in the order.

Power to supersede council or board in case of incompetency, default or abuse of powers.

(*2*) When a district council or local board is so superseded, the following consequences shall ensue:

(*a*) All members of the council or board shall, as from the date of the order, vacate their offices as such members;

(*b*) All powers and duties of the council or board may, during the period of supersession, be exercised and performed by such person or persons as the Chief Commissioner from time to time appoints in that behalf;

(*c*) Where a council is superseded, all property vested in it shall, during the period of supersession, vest in Her Majesty.

(*3*) On the expiration of the period of suspension specified in the order, the council or board shall be re-established by appointment or election, and the persons who vacated their offices under clause (*a*) shall not be deemed disqualified for appointment or election.

**33.** In all matters connected with this Act, the Commissioner shall have and exercise the same authority and control over the Deputy Commissioners subordinate to him, as he has and exercises over them in the general and revenue administration.

Powers of Commissioner.

*Rules.*

**34.** The Chief Commissioner may, from time to time, make rules consistent with this Act and with reference (if necessary) to the varying circumstances of different local areas—

Power of Chief Commissioner to make rules as to district councils, local boards and school committees.

(*a*) as to the qualifications, mode and time of election or appointment, term of office, and remuneration and allowances (if any) of members of district councils and local boards and as to the filling of casual vacancies in such councils and boards, and as to the number of the representative members for each circle or group of circles, and as to the number of the representatives of the mercantile classes or professions, to be elected or appointed to each local board or district council;

(*b*) as to the appointment, powers and duties of school committees, the term of office of members of such committees and the mode of removing them;

(*c*) as to the conduct of proceedings of district councils, local boards and school committees, including the fixing of a quorum, the giving of the casting vote in cases of equal division, the minimum number of meetings to be held and the maximum interval between successive meetings, the formation of committees other than school committees and the delegation of powers to such committees;

(*d*) as to the mode of entering into and executing contracts and transfers of property on behalf of district councils, and the authority on which money may be paid from the district fund;

(*e*) as to the appointment and payment of auditors of the accounts of district councils and local boards;

(*f*) as to the apportionment of the district fund between the general purposes of the district and the purposes of particular parts of the district, and the appropriation of funds raised in a particular area to the purposes of that area; and

(*g*) generally, for the guidance of district councils, local boards, school committees and Government officers, in all matters connected with the administration of this Act and for settling their relations to one another.

**35.** The Chief Commissioner shall, before making any rules under section thirty-four, publish in such manner as may in his opinion be sufficient for giving information to persons interested, a draft of the proposed rules together with a notice specifying a date at or after which the draft will be taken into consideration; and shall, before making the rules, receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

Procedure for making rules under section 34.

*Exceptional Provision.*

Power under special circumstances to except districts from operation of Act.

**36.** If the circumstances of any district or part of a district are, in the opinion of the Chief Commissioner, such that any of the provisions of this Act are unsuited thereto, he may, by order in writing, except the district or part from the operation of those provisions; and thereupon those provisions shall not apply to the excepted district or part until again applied thereto by a subsequent order of the Chief Commissioner.

*Supplemental Provisions.*

Acquisition of land.

**37.** Where any land is required for the purposes of this Act, the Chief Commissioner may, on the request of the district council, proceed to acquire it under the provisions of the Land Acquisition Act, 1870; and, on payment by the district council of the compensation awarded under that Act, the land shall vest in the district council.

I of 1870.

Penalty on member, officer or servant being interested in contracts made with council, board or committee.

**38.** If any member, officer or servant of a district council, local board, or joint committee appointed under this Act is, otherwise than with the permission in writing of the Commissioner, directly or indirectly interested in any contract made with that council, board or committee, he shall be deemed to have committed an offence under the Indian Penal Code, section 168.

XLV of 1860.

Publication of rules and orders.

**39.** (*1*) All rules and orders made by the Chief Commissioner under this Act shall be published in the official Gazette both in English and in such native languages as the Chief Commissioner may direct.

(*2*) The publication in the official Gazette of a rule purporting to be made by the Chief Commissioner under section thirty-four shall be conclusive evidence that it has been made as required by section thirty-five.

Time for councils and boards coming into existence.

**40.** The several district councils and local boards under this Act shall come into existence at such time as the Chief Commissioner, by order, appoints in that behalf.

*Rates payable under Settlement-record.*

Confirmation and recovery of existing rates and accounts of same.

**41.** (*1*) All rates for the maintenance of roads, schools or the district post, for the payment of which provision has been made in any settlement-record previous to the passing of this Act, shall be deemed to have been legally imposed, and shall be recoverable as if they were arrears of land-revenue payable directly to Government and due on the land in respect of which they are payable.

(*2*) An account of the gross receipts and of the charges (if any) of collection of all such rates in each district shall be kept by the Deputy Commissioner of that district, and shall be annually rendered by him to the district council of that district.

Powers of Chief Commissioner with respect to rates.

**42.** The Chief Commissioner may, from time to time, by notification in the official Gazette,

(*a*) prescribe in what instalments, and at what times, the rates referred to in section forty-one shall be payable, and make rules for their collection by village-officers or others; and

(*b*) exempt any land from liability to pay the whole or any part of any such rate, and vary or cancel any such exemption.

*Amendment of the Northern India Ferries Act, 1878.*

New section to follow section 7 of Act XVII of 1878.

**43.** After section seven of the Northern India Ferries Act, 1878, the following shall be inserted, namely:— XVII of 1878.

"7A. The Chief Commissioner of the Central Provinces may direct that any public ferry wholly or partly within the area subject to the authority of a district council or local board in any district in those provinces, be managed by that council or board, and may further direct that all or any part of the proceeds from such ferry be paid into the district fund of that district;

In Central Provinces management may be vested in district council or local board;

and proceeds paid into district fund.

and thereupon such ferry shall be managed, and such proceeds or part thereof shall be paid, accordingly."

Amendment of sections 6 and 17 of same Act.

**44.** In section six of the same Act, after the words "section seven," and in section seventeen of the same Act, after the words "section seven," where they first occur, the following shall be inserted, namely:—"and section 7A."

23. Power of Governor General in Council to make rules for the conveyance, loading, unloading and keeping of explosives in certain cases.
24. Penalties which may be annexed to breach of rules under sections 20, 22 and 23.

SECTIONS.

CHAPTER VI.

IMPORTATION OF EXPLOSIVES.

25. Importation of certain explosives prohibited except under license.
26 Power of Governor General in Council to make rules as to such importation.
27. Powers of Customs officers

CHAPTER VII.

SPECIALLY DANGEROUS EXPLOSIVES.

28 Power of Governor General in Council to prohibit the manufacture keeping, importation, conveyance and sale of specially dangerous explosives.

CHAPTER VIII.

GOVERNMENT SUPERVISION.

(A) —*Inspection.*

29. Appointment and duties of Government Inspectors.
30 Powers of Government Inspectors
31 Notice by Government Inspector to remedy dangerous practice
32. Inspection in ports and of ships
33. Inspection of wharf, carriage, ship or boat with explosives in transit.

(B) —*Accidents*

34. Notice to be given of accidents
35. Inquiry into accidents

(C) —*Power of Search*

36. Power of Government Inspector and certain other officers to search for explosives.
37. Power of Government Inspector and certain officers to stop, enter inspect and examine carriages or boats in case of emergency.

(D).—*Power of Seizure and Detention.*

38. Seizure and detention of explosives liable to forfeiture
39. Power of Local Government to make rules to regulate seizure and detention of explosives
40. Proceedings before Magistrate to be commenced as soon as practicable.
41. Power to seize receptacles
42. Power to use ship, boat, carriage, &c , in which the explosives are seized

(I).—*Samples*

42. Payment for samples of explosives.

CHAPTER IX

PENALTIES AND LEGAL PROCEEDINGS

44 Penalty for illegal manufacture of explosives.
45 Penalty for illegal keeping of explosives
46 Penalty for breach of rules for regulation of factories
47. Penalty for breach of rules for regulation of magazines.
48 Penalty for breach of rules for regulation of registered places
49. Penalty for illegal sale of explosives in public places.

SECTIONS.

50. Penalty for selling explosives to children.
51. Penalty for affixing false name to receptacle containing explosives.
52. Penalty for breach of rules as to packing of explosives.
53. Penalty for obstructing conservator or other person.
54. Penalty for breach of provisions as to importation of an explosive, or of the provisions of an importation license
55. Penalty for importing or selling specially dangerous explosives in contravention of notification.
56 Penalty for conveying specially dangerous explosives in contravention of notification.
57 Penalty for vexatious entries, searches and seizures
58 Penalty on, and removal of, trespassers.
59. Penalty on persons committing act tending to cause explosion or fire in or about factories or magazines
60. Occupier to put up notices warning persons of liability under last two sections.
61. Penalty for trespass &c., on Government manufactory or store
62 Power to arrest without warrant persons committing dangerous offences
63 Penalty for pulling down, injuring or defacing notices
64 Exemption of occupier, &c , from penalty on proof of offence having been committed by another person
65. Exemption of carrier or owner or master of ship where consignor, &c , is in fault
66 Provisions as to forfeiture
67. Distress of ship or boat

CHAPTER X

SUPPLEMENTAL.

68 Provision of magazine by municipal committee
69. Provisions in favour of the keeping and conveyance of percussion-caps, safety-fuzes for blasting, fog-signals and prescribed explosives
70. Exemption of safety-cartridges for private use.
71. Saving for owner or master of ship, carrier or others in case of emergency.
72 Saving as to liability under other law.
73. Notice and limitation of proceedings.
74. Extension of definition of "explosive" to other explosive substances
75. Procedure for making publication and confirmation of rules.
76. Issue and publication of notifications

SCHEDULE.

ENACTMENTS REPEALED.

*A Bill to regulate the manufacture, keeping, sale, conveyance and importation of Explosives.*

WHEREAS it is expedient to regulate the manufacture, keeping, sale, conveyance and importation of explosives; It is hereby enacted as follows:—

Preamble.

---

## CHAPTER I.

### PRELIMINARY.

Short title.

**1.** (*1*) This Act may be called the Indian Explosives Act, 1883.

Local extent.

(*2*) It extends to the whole of British India.

[38 Vic., c. 17, s. 97.]

**2.** Save as provided in section sixty-one, nothing in this Act shall apply to the manufacture, keeping, sale, conveyance or importation of any explosive by order of the Government, or by any person employed under the Government in the execution of this Act or as keeper of a magazine, artizan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer under the Indian Volunteers' Act, 1869, in the course of his employment or duty as such.

Saving for manufacture, keeping, sale, conveyance or importation by Government.

XX of 1869.

Saving of Indian Arms Act, 1878.

XI of 1878.

**3.** Nothing in this Act shall affect the provisions of the Indian Arms Act, 1878.

Commencement.

**4.** (*1*) This Act shall come into force on such day as the Governor General in Council, by notification in the *Gazette of India*, appoints.

(*2*) But any notification, order or rule, and any appointment to an office or grant of authority, may be made under this Act at any time after the passing thereof, but shall not take effect until the Act comes into force.

Repeal of enactments.

**5.** On and from the day on which this Act comes into force the Acts mentioned in the first column of the schedule to this Act shall be repealed to the extent mentioned in the third column thereof.

Limitation of application of Madras and Bombay Municipal Acts.

**6.** Nothing in section 322 of Madras Act V of 1878, or in section 225 of Bombay Act III of 1872, shall be deemed to apply to an explosive.

Definitions.

**7.** In this Act, unless there is something repugnant in the subject or context,—

(*1*) "explosive"—

17,

(*a*) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powders, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above-mentioned or not, used or manufactured with a view to produce a practical effect by explosion, or a pyrotechnic effect; and

(*b*) includes fog-signals, fireworks, fuzes, rockets, percussion-caps, detonators, cartridges, ammunition of all descriptions, and every adaptation or preparation of an explosive as above defined:

(*2*) "manufacture" includes the process of dividing into its component parts, or otherwise breaking up or unmaking, any explosive, or making fit for use any damaged explosive, and the process of re-making, altering or repairing any explosive: [38 Vic., c. 103]

(*3*) "occupier" includes any number of persons and a body corporate, and, in the case of any manufacture or trade, includes any person carrying on that manufacture or trade: [38 Vic., c. 108.]

(*4*) "master" includes every person (except a pilot or harbour-master) having for the time being command or charge of a ship; and, in reference to any boat belonging to a ship, means the master of the ship; and, in reference to any other boat, includes every person having for the time being command or charge of that boat: [*ib.*]

(*5*) "factory" means a place licensed under this Act for the manufacture of an explosive: [New.]

(*6*) "magazine" means a place licensed under this Act for the keeping of an explosive, and includes any ship or other vessel licensed for that purpose: [38 Vic., c. 108.]

(*7*) "registered place" means a place registered under this Act for keeping an explosive: [New.]

(*8*) "warehouseman" includes all persons owning or managing any warehouse, store, wharf or other place in which goods are deposited: [38 Vic., c. 108.]

(*9*) "carrier" includes all persons carrying goods or passengers for hire by land or water: [*ib.*]

(*10*) "port" means any port, or any part of a navigable river or channel, in which the Indian Ports Act, 1875, is for the time being in force: [New.]

XII of 1875.

(*11*) "railway" means any railway, whether it is used for the public conveyance of passengers or goods or not, and includes— [Cf. Act IX of 1879, s. 3.]

(*a*) a railway under construction;

(*b*) all lands within the fences or other boundary-marks prescribed under section 52 of the Indian Railway Act, 1879; IV of 18

(*c*) all lines of rail, sidings or branches worked over for the purposes of, or in connection with, a railway;

(*d*) all stations, offices, warehouses, fixed machinery and other works constructed for the purposes of, or in connection with, a railway; and

(*e*) all vessels and rafts used for the purpose of carrying on the traffic of a railway:

(*12*) "railway-administration" means, in the case of a railway worked by Government or a [Cf. Act IX of 1879, s. 3.]

Native State, the manager of the railway, and, in the case of a railway worked by a company or private individual, the company or individual:

[Vic., c. 17, s. 108.] (13) "wharf" includes any quay, landing-place, siding or other place at which goods are landed, loaded or unloaded:

[*ib.*] (14) "carriage" includes any carriage, waggon, cart, truck, vehicle or other means of conveying goods or passengers by land, in whatever manner the same may be propelled:

[*ib.*] (15) "ship" includes every description of vessel used in sea-navigation, whether propelled by oars or otherwise:

[*ib.*] (16) "boat" means every vessel, not a ship as above defined, which is used in navigation in any inland water or any port, whether propelled by oars or otherwise:

[New.] (17) "import" means to bring into British India by sea or land:

[Act VIII of 1881, s. 3.] (18) "prescribed" means prescribed from time to time by notification of the Governor General in Council:

[Vic., c. 17, s. 108.] (19) the expression "safety-cartridges" means cartridges for small arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges:

[New.] (20) "Magistrate" means, in the Presidency-towns, a Presidency Magistrate, and elsewhere, a Magistrate of the first class, and includes also any Magistrate whom the Governor General in Council or the Local Government may, by notification, appoint to discharge in any local area the functions of a Magistrate under this Act.

## CHAPTER II.

### General Law as to Manufacture and Keeping of Explosives.

[Vic., c. 17, s.] **8.** The manufacture of an explosive shall not, nor shall any process of that manufacture, be carried on except at a factory for that explosive:

Prohibition of manufacture of explosives except at factory.

Provided that nothing in this section shall apply—

(*a*) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale; or

(*b*) to the making of any part of an explosive where that part is not itself an explosive and no explosive is used in making it.

[Vic., c. 17, s.] **9.** An explosive shall not be kept except—

Prohibition of keeping of explosives except in factory, magazine or registered place.

(*a*) in the factory in which it is manufactured, or

(*b*) in a magazine for that explosive, or

(*c*) in a place registered under this Act for keeping that explosive:

Provided that this section shall not apply—

[Vic., c. 17, s. (4).] (*a*) to a person keeping for his private use, and not for sale, an explosive to an amount not exceeding in the same place the prescribed amount, or

(*b*) to the keeping of an explosive by a carrier or other person for the purpose of conveyance, when the explosive is being conveyed or kept in accordance with the rules under this Act with respect to the conveyance of explosives.

## CHAPTER III.

### Factories, Magazines and Registered Places.

(*A*).—*Licensing and Regulation of Factories.*

**10.** (*1*) The Local Government may make rules as to the licensing and regulation of places as factories for the manufacture of explosives.

[Cf. 38 Vic. 17, ss. 10, & ss. 13 & 26.

Power of Local Government to make rules as to licensing and regulation of factories.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(*a*) the authority by which licenses may be granted;

(*b*) the fees to be charged for licenses, and the other sums (if any) to be paid for expenses by applicants for licenses;

(*c*) the manner in which applications for licenses are to be made, and the matters to be specified in such applications;

(*d*) the form in which, and the conditions on and subject to which, licenses are to be granted;

(*e*) the period for which licenses are to remain in force;

(*f*) the renewal of licenses and the fee to be paid for their renewal;

(*g*) the alteration of the terms of licenses by the grant of amending licenses, and the fee to be paid for an amending license;

(*h*) the devolution and determination of licenses;

(*i*) the situation, construction, materials and fittings of factories;

(*j*) the conditions on and subject to which the manufacture, or any process in, or work connected with, the manufacture, of an explosive is to be carried on in any factory;

(*k*) the descriptions of explosives which may be kept in a factory, and the conditions and restrictions subject to which they may be so kept;

(*l*) the manner of carrying out repairs in factories; and

(*m*) the restricting of the employment of persons under the age of sixteen years in factories or in certain parts thereof.

[38 Vic., c. 17, s. 46.]

**11.** The occupier of a magazine or registered place shall not be required by this Act or the rules under this Act to take out a factory-license by reason that, in connection with the magazine or place, he fills, for sale or otherwise, any cartridge for small arms with the explosive for the keeping of which the magazine or place is licensed or registered: provided that he observes such rules as the Local Government may make in this behalf.

Provision in favour of occupiers of magazines and registered places making cartridges.

[38 Vic., c. 17, s. 47.]

**12.** The occupier of a magazine shall not be required by this Act or the rules under this Act to take out a factory-license by reason that, in connection with the magazine, he, by filling cartridges, making charges, drying, sifting, fitting or otherwise, adapts or prepares the explosive for the keeping of which the magazine is licensed, for use exclusively in his mine or quarry, or in some excavation or work carried on by him or under his control: provided that he observes such rules as the Local Government may make in this behalf.

Provision in favour of occupiers of magazines adapting or preparing explosives for use in their own mines or quarries.

*(B).—Licensing and Regulation of Magazines.*

[38 Vic., c. 17, ss. 15 to 19 (relating to Borgs).]

**13.** *(1).* The Local Government may make rules as to the licensing and regulation of places as magazines for the keeping of explosives.

Power of Local Government to make rules as to licensing and regulation of magazines.

*(2)* Rules under this section may, among other matters, provide for all or any of the matters for which rules under clauses *(a)* to *(i)*, both inclusive, and clauses *(k)* to *(m)*, both inclusive, of section ten may provide in the case of factories.

*(C).—Registration and Regulation of Registered Places.*

Cf. 38 Vic., c. 17, ss. 21 and 22.]

**14.** *(1)* The Local Government may make rules as to the registration and regulation of places for the keeping of explosives.

Power of Local Government to make rules as to registration and regulation of registered places.

*(2)* Rules under this section may provide for all or any of the following among other matters, that is to say:—

*(a)* the manner in which places may be registered, the period for which registration is to be valid, and the manner in which registration may be renewed;

*(b)* the fees to be paid for registration and renewal of registration;

*(c)* the situation and nature of places which may be registered, the manner in which an explosive is to be kept in those places, and the maximum amount of an explosive which may be so kept; and

*(d)* the descriptions of explosives which may be kept together in the same registered place, and the conditions and restrictions subject to which they may be so kept.

*(D).—Supplemental Provisions.*

[38 Vic., ss. 11 and

**15.** *(1)* Every occupier of a factory or magazine shall make special rules for the regulation of the persons managing or employed in or about his factory or magazine, with a view to secure the observance therein of this Act and the rules under this Act, and the safety and proper discipline of those persons and the safety of the public.

Duty of occupier to make special rules for regulation of workmen in his factory or magazine.

*(2)* The occupier may, and, if required by the Local Government, shall, make rules, repealing, altering or adding to any special rules made under this section.

*(3)* Any rule under this section may contain a provision that any person committing a breach of it shall be punished with fine which may extend to twenty rupees.

*(4)* A rule made under this section shall not take effect until it has been confirmed by the Local Government and notified to the persons managing or employed in or about the factory or magazine in such manner as the Local Government from time to time directs.

## CHAPTER IV.

### SALE OF EXPLOSIVES.

[38 Vic., s. 30.]

**16.** An explosive shall not be hawked, sold or exposed for sale on any highway, street, public thoroughfare or other public place.

Sale of explosives on highways or public places prohibited.

[38 Vic., s. 31.]

**17.** An explosive shall not be sold to any child apparently under the age of thirteen years.

Sale of explosives to children prohibited.

[38 Vic., s. 32 and s. (8).]

**18.** Every explosive, exceeding in amount the prescribed amount, shall, when publicly sold or exposed for sale, be in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosive from escaping, and (except when the explosive is sold to any person employed by or on the property occupied by the vendor for immediate use in the service of the vendor or on that property) the outermost receptacle containing the explosive shall have affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the name of the explosive, with the addition of the word "explosive."

Explosives to be sold in cases, closed and labelled.

## CHAPTER V.

### CONVEYANCE OF EXPLOSIVES.

[38 Vic., s. 33.]

**19.** The Governor General in Council may make rules to regulate the packing of explosives for conveyance, and may by those

Power of Governor General in Council to make rules as to packing of explosives.

rules provide for the nature of the packages, cases, bags, canisters or other receptacles in which an explosive is to be contained.

Power of Local Government to make rules regulating the conveyance, loading, unloading and keeping of explosives in ports.

**20.** (*1*) The Local Government may make rules to regulate the conveyance, loading, unloading and keeping of explosives within any port.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say :—

(*a*) the notice to be given in the case of ships and boats having any explosive on board within the port ;

(*b*) the navigation and place of mooring of those ships and boats ;

(*c*) subject to the rules as to packing made under section nineteen, the mode of stowing and keeping an explosive on board any such ship or boat, and of giving notice, by brands, labels or otherwise, of the nature of the package containing the explosive ;

(*d*) the description, construction, fitting-up and licensing of the ships, boats or carriages to be used for the conveyance of an explosive, and the licensing and dress of the persons having charge thereof ;

(*e*) the prohibition of the conveyance of one explosive with another explosive or any articles or substances, or in passenger-ships, boats, trains or carriages, or the subjection of that conveyance to conditions and restrictions ;

(*f*) the prohibition, in cases where the loading or unloading of an explosive within the limits of the port appears to be specially dangerous to the public, of loading or unloading within those limits, and the fixing of the times and places at which an explosive is to be loaded or unloaded; and the quantity to be loaded or unloaded, or conveyed at one time or in one ship, boat or carriage ;

(*g*) the mode of, and the precautions to be observed in, conveying an explosive, and in the loading or unloading any ship, boat or carriage conveying an explosive, and the time during which the explosive may be kept during the conveyance, loading or unloading ;

(*h*) the fixing the cases in which an explosive is to be taken out of a ship for the purpose of being deposited, the places in which the explosive so taken out is to be deposited, the appointing of an officer to receive the explosive, and the manner in which, and the conditions on and subject to which, the explosive is to be deposited in and removed from those places

(*i*) the times at which lights or fires are to be allowed or not allowed on board the ships or boats having an explosive on board, or at which a Police-officer or other person authorized in this behalf by the conservator of the port is to be on board them ;

(*j*) the publication and supply to the public of copies of these rules ;

(*k*) the enforcing the observance of this Act and the rules under this Act both by the officers of the port and also by other persons when within the limits of the port ; and

(*l*) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger.

Power on breach of rule to require ship, boat, carriage or explosive to be dealt with in conformity with rule.

**21.** (*1*) In the event of any breach of a rule under section twenty, in the case of any ship, boat, carriage or explosive, whether there has or has not been any conviction for the breach, the conservator of the port or other officer named in the rules, or any person acting under the orders of the conservator, may cause the ship, boat, carriage or explosive, at the expense of the owner thereof, to be removed to such place or otherwise dealt with in such manner as may be in conformity with the rule.

(*2*) All expenses incurred in the removal may be recovered in like manner as a fine under this Act.

Duty of railway-administration to make rules regulating the conveyance, loading, unloading and keeping of explosives on its railway.

**22.** (*1*) Every railway-administration shall make rules to regulate the conveyance, loading, unloading and keeping of explosives on its railway.

(*2*) The railway-administration may, and, if required by the Governor General in Council, shall, make rules repealing, altering or adding to any rules made under this section.

(*3*) Rules under this section may provide for all or any of the following among other matters, that is to say :—

(*a*) the notice to be given of the intention to send an explosive for conveyance on the railway ;

(*b*) subject to the rules as to packing made under section nineteen, the mode of stowing and keeping an explosive for conveyance, and of giving notice by brand, labels or otherwise of the nature of the package containing the explosive ;

(*c*) the description and construction of carriages, ships or boats to be used in the conveyance of an explosive ;

(*d*) the prohibition of the conveyance of one explosive with another explosive or with any articles or substances or in passenger-

trains, carriages, ships or boats, or the subjection of that conveyance to conditions and restrictions;

[Sub-section] (*e*) the places and times at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded or conveyed at one time or in one carriage, ship or boat;

[Sub-section] (*f*) the precautions to be observed in conveying an explosive and in loading and unloading the carriages, ships or boats used in the conveyance of an explosive, and the time during which the explosive may be kept during that conveyance, loading and unloading;

[Sub-section] (*g*) the enforcing the observance of this Act and the rules under this Act by its servants and agents, and also by other persons when on the railway; and

[Sub-section] (*h*) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger.

[Cf. 38 Vic., c. 17, s. 37.]

**23.** (*1*) The Governor General in Council may make rules to regulate the conveyance, loading, unloading and keeping of explosives in any case in which rules made under section twenty or section twenty-two do not apply.

Power of Governor General in Council to make rules for the conveyance, loading, unloading and keeping of explosives in certain cases.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

[Sub section 1.] (*a*) the description and construction of the carriages to be used in the conveyance of an explosive;

[Sub-section 2.] (*b*) the prohibition of the conveyance of one explosive with another explosive or with any articles or substances, or in passenger-carriages, or the subjection of that conveyance to conditions and restrictions;

[Sub-section 3.] (*c*) the places and times at which an explosive is to be loaded or unloaded, and the quantity to be loaded or unloaded, or conveyed at one time and in one carriage;

[Sub-section 4.] (*d*) the precautions to be observed in conveying an explosive and in loading and unloading the carriages used in that conveyance, and the time during which the explosive may be kept during that conveyance, loading and unloading;

[Sub-section 5.] (*e*) the publication and supply to the public of copies of these rules; and

[Sub-section 6.] (*f*) generally the protection, whether by means similar to those above-mentioned or not, of persons or property from danger.

(*3*) For the purpose of any mode of conveyance which is not a conveyance by land, this section shall be construed as if ship and boat were included in the term "carriage".

[Cf. 38 Vic., c. 17, ss. 34, 35 & 37.]

**24.** The authority making any rule under section twenty, section twenty-two or section twenty-three may annex to any breach or attempt to commit a breach of the rule the following penalties, which may be imposed on such persons and graduated in such manner as may be deemed just, according to the gravity of the offence, and according as it may be a first, second or other subsequent offence, that is to say:—a fine which may extend to two hundred rupees for each breach and to one hundred rupees for each day during which the breach continues, and forfeiture of all or any part of the explosive in respect of which, or being in the carriage, ship or boat, or train of carriages, ships or boats, as the case may be, in respect of which, the breach of the rule has taken place.

Penalties which may be annexed to breach of rules under sections 20, 22 and 23.

---

## CHAPTER VI.

### IMPORTATION OF EXPLOSIVES.

[38 Vic., c. 17, s. 40 (9).]

**25.** Dynamite or gun-cotton or any explosive (other than gunpowder, cartridges made with gunpowder, percussion-caps, fireworks and any prescribed explosive) shall not be imported except under a license, and in the manner and to the extent permitted by that license.

Importation of certain explosives prohibited except under license.

[38 Vic., c. 17, s. 40 (9) (b).]

**26.** (*1*) The Governor General in Council may make rules to regulate the grant of licenses required under section twenty-five.

Power of Governor General in Council to make rules as to such importation.

(*2*) Rules under this section may provide for all or any of the following among other matters, that is to say:—

(*a*) the officers by whom, the form in which, and the terms and conditions as to the composition and quality of the explosive, the unloading, landing, transhipment, delivery and conveyance thereof, and the protection of the public from danger, on and subject to which licenses may be granted;

(*b*) the period for which licenses are to continue in force and the persons for whom licenses are to be available; and

(*c*) the fees to be paid for licenses.

[38 Vic., c. 17, s. 40 (9) (c).]

**27.** The officers of sea customs at every port shall have the same power with respect to any explosive to which section twenty-five applies and the ship containing that explosive as they have for the time being with respect to any article on the importation of which restrictions are imposed by the law relating to sea customs and the ship containing the same; and the enactments for the time being in force relating to sea customs or any such article or ship shall apply accordingly.

Powers of Customs officers.

## CHAPTER VII.

### SPECIALLY DANGEROUS EXPLOSIVES.

[38 Vic., c. 17, s. 43 · Cf. Act XI of 1878, s. 10.]

**28.** (*1*) Notwithstanding anything in this Act or in the rules under this Act, the Governor General in Council may, by notification—

Power of Governor General in Council to prohibit the manufacture, keeping, importation, conveyance and sale of specially dangerous explosives.

(*a*) regulate or prohibit, either altogether or except under a license, and to the extent and in the manner permitted by that license, the manufacture, keeping, importation, conveyance and sale, or any of them, of any explosive which is of so dangerous a character that, in the opinion of the Governor General in Council, it is expedient for the public safety to issue such a notification; and

(*b*) cancel any notification under this section.

[38 Vic., c. 17, s. 43.]

(*2*) The officers of sea customs at every port shall have the same power with respect to any explosive with regard to which a notification has been issued under this section and the ship containing the explosive as they have for the time being with respect to any article the importation of which is prohibited or regulated by the law relating to sea customs and the ship containing the same; and the enactments for the time being in force relating to sea customs or any such article or ship shall apply accordingly.

## CHAPTER VIII.

### GOVERNMENT SUPERVISION.

#### (*1*).—*Inspection.*

[38 Vic., c. 17, s. 53 · Cf. Act XV of 1881, s. 3.]

**29.** (*1*) The Local Government may, in its discretion, by notification appoint such persons as it thinks fit to be Inspectors for the purposes of this Act, and suspend or remove any person so appointed.

Appointment and duties of Government Inspectors.

(*2*) The persons so appointed shall, within such local area as the Local Government may from time to time direct, exercise the powers and perform the duties conferred and imposed by this Act and the rules under this Act on an Inspector.

(*3*) Every such Inspector (in this Act referred to as a Government Inspector) shall be deemed a public servant within the meaning of the Indian Penal Code, and shall be officially subordinate to such authority as the Local Government may, from time to time, indicate in this behalf.

XLV of 1860.

(*4*) The Local Government may make rules assigning and regulating the duties of Government Inspectors under this Act.

[38 Vic., c. 17, s. 55.]

**30.** (*1*) A Government Inspector shall, within the local area for which he is appointed, make such examinations and enquiries as may be necessary to ascertain whether this Act and the rules under this Act are complied with, and may for that purpose—

Powers of Government Inspectors.

(*a*) enter, inspect and examine any factory or magazine and every part thereof, at all times by day and night, but so as not to unnecessarily impede or obstruct the work in the factory or magazine, and make enquiries as to the observance of this Act and the rules under this Act, and as to all matters and things relating to the safety of the public or of the persons employed in or about the factory or magazine;

(*b*) enter, inspect and examine any registered place, and every part thereof, in which any explosive is kept or is reasonably supposed by him to be kept, at all reasonable times by day; and

(*c*) require the occupier of any factory, magazine or registered place which he is entitled under this section to enter, or any person employed by the occupier therein, to give him samples of any explosive or ingredients of an explosive therein, or of any substance therein, the keeping of which is restricted or regulated by or under this Act or the rules under this Act, or of any substance therein which he believes to be an explosive, or such ingredients or substance.

(*2*) The occupier of every factory, magazine or registered place referred to in this section, his agents and servants, shall furnish the means required by the Inspector as necessary for any entry, inspection, examination or inquiry under this section.

[38 Vic., c. 17, s. 56]

**31.** (*1*) If in any matter (not provided for by any express provision of this Act or of the rules under this Act) a Government Inspector finds that any factory or magazine, or any part thereof, or any thing or practice therein or connected therewith, is unnecessarily dangerous or defective, so as in his opinion to tend to endanger the public safety or the bodily safety of any person, the Inspector may require the occupier of the factory or magazine to remedy the same.

Notice by Government Inspector to remedy dangerous practice.

(*2*) Where the occupier objects to comply with a requisition under this section, he may, within one month from the date of the requisition, apply to any Magistrate within the local limits of whose jurisdiction the factory or magazine is, for a decision in the matter; and the decision of the Magistrate shall be final.

(*3*) If the occupier does not apply to a Magistrate as provided by sub-section (2), he shall be bound to comply with the requisition of the Inspector.

(*4*) No person shall be precluded by any contract from doing such acts as may be necessary to comply with a requisition or decision under this section, and no person shall be liable under any

contract to any penalty or forfeiture for doing any such act if he gave notice of the contract to the Inspector at or before the time at which the Inspector made the requisition, or to the Magistrate before his decision was given.

[38 Vic., c. 17, s. 58 (b).]

Inspection in ports and of ships.

**32.** (*1*) The Local Government may, by notification, order any person acting as an Inspector or otherwise for the purpose of the Acts relating to merchant shipping for the time being in force to inquire into the observance of this Act or the rules under this Act in any port or in the case of any ship, and generally to act in that port and with respect to ships as a Government Inspector under this Act.

(*2*) Each person so ordered shall, while the order is in force, have for that purpose the same powers and authorities as he has under the Acts in pursuance of which he was originally appointed Inspector, and also the powers and authorities of a Government Inspector under this Act and the rules for the time being in force under it.

(*3*) The Local Government may revoke any order under this section.

[38 Vic., c. 17, s. 75.]

Inspection of wharf, carriage, ship or boat with explosives in transit.

**33.** Any Government Inspector, or any officer who may by name or in right of his office be authorized by the Local Government in this behalf, may, if he has reasonable cause to suppose an explosive to be for the purpose of or in course of conveyance on or in the wharf, carriage, ship or boat of any carrier, or of the occupier of any factory or magazine or of the importer of any explosive, enter, inspect and examine at any time the wharf, carriage, ship or boat for the purpose of ascertaining whether the provisions of this Act or the rules under this Act with respect to the conveyance, loading, unloading and importation of an explosive are complied with, but so as not to unnecessarily obstruct the work or business of the carrier, occupier or importer.

### (*B*).—*Accidents.*

[38 Vic., c. 17, s. 63: Cf. Act IV of 1879, s. 6.]

Notice to be given of accidents.

**34.** Whenever there occurs in or about, or in connection with, any factory, magazine or registered place, or any carriage, ship or boat, either conveying an explosive, or on or from which an explosive is being loaded or unloaded,—

(*a*) any accident by explosion or by fire attended with loss of human life or serious injury to person or property, or

(*b*) any such accident of a description usually attended with such loss or injury, or

(*c*) any accident of any other description which may be prescribed in this behalf,

the occupier of the factory, magazine or registered place, or the master of the ship or boat, or the person in charge of the carriage, as the case may be, shall forthwith give notice thereof to the nearest Magistrate.

[38 Vic., c. 17, s. 60.]

Inquiry into accidents.

**35.** (*1*) If in any such case an inquiry into the cause of the accident appears to the Magistrate to whom notice has been given under section thirty-four to be necessary, the Magistrate may either himself make the inquiry or direct a Government Inspector or a Magistrate subordinate to himself to make the inquiry.

(*2*) Any Magistrate or Government Inspector making an inquiry under this section shall, for the purposes of conducting the inquiry, have all the powers which he would have in holding an inquiry into an offence under the Code of Criminal Procedure. X of 1882.

### (*C*).—*Power of Search.*

[38 Vic., c. 17, s. 73.] [Cf. Act I of 1878, s. 14.]

Power of Government Inspector and certain other officers to search for explosives.

**36.** (*1*) Where any Government Inspector, or any officer who may by name or in right of his office be authorized by the Local Government in this behalf, has reasonable cause to believe that any offence has been or is being committed with respect to an explosive in any place (whether a building or not, or a carriage, boat or ship), or that any explosive is in that place in contravention of this Act or of the rules under this Act, or that the provisions of this Act or of those rules are not duly observed in that place, the Inspector or officer may, on producing, if demanded, in the case of an Inspector, a copy of the notification appointing him, and, in the case of any other officer, of the order authorizing him, enter at any time, and, if need be, by force, that place and every part thereof, and examine the place, and search for explosives therein, and take samples of any explosive or ingredient of any explosive therein, or of any substance reasonably supposed to be an explosive or an ingredient of an explosive which may be found therein.

[Cf. Act I of 1878, s. 16.]

(*2*) All searches under this section shall be made in accordance with the provisions of the Code of Criminal Procedure. X of 1882.

[Cf. Act I of 1878, s. 21; 38 Vic., c. 17, s. 73, last para.]

(*3*) When any officer other than a Government Inspector enters and searches as by this section provided, he shall within forty-eight hours make a full report of all the particulars of the entry and search to his immediate official superior.

[38 Vic., c. 17, s. 35, paragraph 3.]

Power of Government Inspector and certain officers to stop, enter, inspect and examine carriages or boats in case of emergency.

**37.** (*1*) If any Government Inspector or any officer of any of the Departments of Excise, Police, Customs, Salt, Opium or Revenue, superior in rank to a peon or constable, has reasonable cause to suppose that any offence against this Act or the rules under this Act is being committed in respect of any carriage (not being on a railway) or any boat conveying, loading or unloading any explosive, and that the case is one of emergency, and that delay will be likely to endanger life, he may stop and enter, inspect and examine the carriage or boat, and by detention or removal thereof or otherwise take such precautions as may be reasonably necessary for removing the danger, in like

manner as if the explosive were liable to forfeiture.

[38 Vic., c. 17, s. 75, para 4.]

(2) Every such officer shall, for the purposes of this section, have the same powers and be in the same position as if he were an officer authorized by the Local Government under section thirty-six to search for explosives.

*(D).—Power of Seizure and Detention.*

[38 Vic., c. 17, s. 74.]

**38.** Where any Government Inspector, or any officer authorized as provided by section thirty-six, has reasonable cause to believe that any explosive or ingredient of an explosive or substance found by him is liable to be forfeited under this Act or the rules under this Act, he may seize and detain the same until a Magistrate has determined whether the same is or is not liable to be forfeited.

Seizure and detention of explosives liable to forfeiture.

[38 Vic., c. 17, s. 74.]

**39.** The Local Government may make rules to regulate the seizure and detention of any explosive or ingredient of any explosive or substance under section thirty-eight, and may by those rules empower the Government Inspector or officer seizing the explosive or ingredient or substance—

Power of Local Government to make rules to regulate seizure and detention of explosives.

(*a*) to require the occupier of the place in which it was seized (whether a building or not, or a carriage, boat or ship) to detain it in that place or in any place under the control of the occupier; or

(*b*) to remove it in such manner and to such place as will in the opinion of the Government Inspector or officer least endanger the public safety, and there to detain it; or

(*c*) in any case which appears to the Government Inspector or officer to be urgent and fraught with serious public danger, to take a sample of it and cause the rest of it to be destroyed or otherwise rendered harmless.

Cl. (2).

**40.** The proceedings before a Magistrate for determining whether an explosive or ingredient of an explosive or substance is or is not liable to forfeiture shall be commenced as soon as practicable after the seizure.

Proceedings before Magistrate to be commenced as soon as practicable.

Cl. (3).]

**41.** The receptacles containing an explosive or ingredient of an explosive or substance may be seized, detained and removed in like manner as the contents thereof.

Power to seize receptacles.

Cl. (4).]

**42.** The Government Inspector or officer seizing an explosive or ingredient of an explosive or substance may use for the purposes of the removal and detention thereof any ship, boat or carriage in which it was seized, and any tug, tender, engine, tackle, beasts and accoutrements belonging to, or drawing or provided for drawing, that ship, boat or carriage, and shall pay to the owner a reasonable compensation for the use, to be determined in case of dispute by a Magistrate, and to be recovered in like manner as a fine under this Act.

Power to use ship, boat, carriage, &c., in which explosives are seized.

*(E).—Samples.*

[38 Vic., c. 17, s. 76.]

**43.** When a Government Inspector or other officer in pursuance of this Act or the rules under this Act takes samples of any explosive or ingredient of an explosive or substance, he shall pay for or tender payment for those samples to such amount as he considers to be the market-value thereof; and the occupier of the place in which, or the owner of the bulk from which, the sample was taken may recover any excess of the real value over the money so paid or tendered, and any amount so tendered, from the Inspector or other officer taking the sample, as a debt, in the Small Cause Court, or, if there is no Small Cause Court, in the Civil Court having jurisdiction.

Payment for samples of explosives.

## CHAPTER IX.

### PENALTIES AND LEGAL PROCEEDINGS.

[38 Vic., c. 17, s. 4.]

**44.** If an explosive is manufactured in contravention of section eight, or of a notification under section twenty-eight—

Penalty for illegal manufacture of explosives.

(*a*) the explosive and all the ingredients of the explosive, which may be found either in or about the place at which the explosive is manufactured, or in the possession, or under the control, of any person convicted under this section, shall be liable to be forfeited; and

(*b*) the person manufacturing the explosive shall be punished with fine which may extend to one thousand rupees for each day on which he so manufactures.

[38 Vic., c. 17, s. 5.]

**45.** If any explosive is kept in contravention of section nine, or of a notification under section twenty-eight—

Penalty for illegal keeping of explosives.

(*a*) all the explosives found in the place at which the explosive is kept shall be liable to be forfeited; and

(*b*) the occupier of that place, and also any person guilty of keeping the explosive, shall each be punished with fine which may extend to one rupee for each pound of the explosive so kept.

[38 Vic. c. 17 s. 10; but cf. s. 9 as to amount of penalty.]

**46.** In the event of a breach in any factory of any of the rules under section ten for the regulation of factories—

Penalty for breach of rules for regulation of factories.

(*a*) the explosive or ingredients thereof with respect to which, or being in any building or machine with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend in the case of a first breach to five hundred rupees, and in the case of any subsequent breach to one thousand rupees, and to five hundred rupees in addition for each day during which the breach continues.

[38 Vic., c. 17, s. 17, which states to some.]

Penalty for breach of rules for regulation of magazines.

**47.** In the event of a breach in any magazine of the rules for the regulation of magazines under section thirteen, or of any rules under section eleven or section twelve—

(*a*) the explosive with respect to which, or being in the magazine when, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend in the case of a first breach to one hundred rupees, and in the case of any subsequent breach to one hundred rupees in addition for each day during which the breach continues.

[38 Vic., c. 17, s. 22.]

Penalty for breach of rules for regulation of registered places.

**48.** In the event of a breach in any registered place of the rules for the regulation of registered places under section fourteen, or of any rules under section eleven—

(*a*) the explosive with respect to which, or being in any house, building, place, safe or receptacle with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the occupier shall be punished with fine which may extend to one rupee for each pound of the explosive with respect to which, or being at the place in which, the breach was committed.

[38 Vic., c. 17, s. 30, 32.]

Penalty for illegal sale of explosives in public places.

**49.** If any explosive is hawked, sold or exposed for sale in contravention of section sixteen or section eighteen—

(*a*) the explosive which is so exposed for sale, and any explosive found in the possession of any person convicted under this section, shall be liable to be forfeited; and

(*b*) the person hawking or selling the explosive, or exposing it for sale, shall be punished with fine which may extend to twenty rupees.

[38 Vic., c. 17, s. 31.]

Penalty for selling explosives to children.

**50.** Whoever sells an explosive in contravention of section seventeen shall be punished with fine which may extend to fifty rupees.

[38 Vic., c. 7, s. 40 (8).]

Penalty for affixing false name to receptacle containing explosives.

**51.** If the name of the explosive affixed to the outermost receptacle containing an explosive is materially false, the person selling the explosive or exposing it for sale shall be punished with fine which may extend to five hundred rupees.

[38 Vic., c. 7, s.

Penalty for breach of rules as to packing of explosives

**52.** In the event of a breach of any rules as to the packing of explosives under section nineteen—

(*a*) the explosive with respect to which the breach is committed shall be liable to be forfeited; and

(*b*) the person guilty of the breach shall be punished with fine which may extend to two hundred rupees.

[17 & 18 Vic., c. 7, s. 40 (9), (*c*): Cf. Indian Penal Code, s. 186.]

Penalty for obstructing conservator or other person.

**53.** Whoever resists the conservator, or other officer named in the rules under section twenty, or any person acting under the orders of the conservator, when causing any ship, boat, carriage or explosive to be removed under section twenty-one, shall be punished with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both.

[38 Vic., c. 17, s. 40 (9) (*d*).]

Penalty for breach of provisions as to importation of an explosive or of the provisions of an importation-license.

**54.** In the event of a breach of the provisions of section twenty-five with respect to the importation of an explosive, or of the provisions of a license to import an explosive granted under section twenty-six—

(*a*) the explosive with respect to which, or being in any ship or boat with respect to which, the breach is committed, shall be liable to be forfeited; and

(*b*) the owner and master of the ship or boat, and the licensee or person to whom the explosive is delivered, shall each be liable to a fine which may extend in the case of a first offence to one thousand rupees, and in the case of any subsequent offence to two thousand rupees.

[38 Vic., c. 17, s. 49.

Penalty for importing or selling specially dangerous explosives in contravention of notification.

**55.** If any explosive is imported or sold in contravention of a notification under section twenty-eight—

(*a*) the explosive shall be liable to be forfeited;

(*b*) the owner and master of the ship in which the explosive is imported shall each be punished with fine which may extend to five rupees for every pound of the explosive brought in the ship; and

(*c*) the person selling and the person buying the explosive shall each be punished with fine which may extend to five rupees for each pound of the explosive sold

Penalty for conveying specially dangerous explosives in contravention of notification.

**56.** If any explosive is conveyed in contravention of a notification under section twenty-eight—

(*a*) the explosive shall be liable to be forfeited; and

(*b*) the master of the ship or boat or the person in charge of the carriage in which the explosive is conveyed, as the case may be, shall be punished with fine which may extend to five rupees for each pound of the explosive so conveyed.

[Cf. Act I of 1878, s. 13.]

Penalty for vexatious entries, searches and seizures.

**57.** Any Government Inspector or officer authorized under section thirty-three or section thirty six, or referred to in section

thirty-seven, who—

(*a*) without reasonable ground of suspicion enters or searches, or causes to be entered or searched, any building, carriage, boat or ship, or

(*b*) vexatiously and unnecessarily seizes the property of any person on the pretence of seizing or searching for any explosive or other thing liable to be forfeited under this Act or the rules under this Act,

shall for every such offence be punished with fine which may extend to five hundred rupees.

[38 Vic., c. 17, s. 77.]

Penalty on, and removal of, trespassers.

**58.** Whoever enters without permission or otherwise trespasses on any factory or magazine, or the land immediately adjoining thereto which is occupied by the occupier of that factory or magazine, shall be punished with fine which may extend to fifty rupees, and may be forthwith removed from the factory, magazine or land by any Police-officer, or by the occupier of the factory or magazine, or by any agent or servant of, or other person authorized by, the occupier.

[38 Vic., c. 17, s. 77, para. 2.]

Penalty on persons committing act tending to cause explosion or fire in or about factories or magazines.

**59.** Whoever, other than the occupier of, or a person employed in or about, a factory or magazine is found committing any act which tends to cause explosion or fire in or about a factory or magazine shall be punished with fine which may extend to five hundred rupees.

[38 Vic., c. 17, s. 77, para. 3.]

Occupier to put up notices warning persons of liability under last two sections.

**60.** The occupier of every factory or magazine shall put up in some conspicuous place or places a notice or notices warning all persons of their liability to penalties under the last two foregoing sections; but the absence of a notice or notices shall not exempt a person from punishment under those sections.

[38 Vic., c. 17 s. 97, proviso.]

Penalty for trespass, &c., on Government manufactory or store.

**61.** Whoever enters without permission, or otherwise trespasses on, any place in the occupation of the Government where any explosive is manufactured or stored, or the land immediately adjoining thereto in the occupation of the Government, or of the officer or person in charge of that place, and any person found committing any act tending to cause explosion or fire in or about any such place, shall be liable to the like penalty, and may be removed and arrested in like manner, as if the place were a factory or magazine to which this Act applies.

[38 Vic., c. 17, s. 78.]

Power to arrest without warrant persons committing dangerous offences.

**62.** Whoever is found committing any act for which he is punishable under this Act or the rules under this Act, and which tends to cause explosion or fire in or about any factory, magazine, railway or port, or any carriage, ship or boat, may be apprehended without a warrant by a Police-officer, or by the occupier of, or the agent or servant of, or other person authorized by the occupier of, that factory or magazine, or by any agent or servant of, or other person authorized by, the railway-administration or conservator of the port, and be removed from the place where he is arrested, and conveyed as soon as conveniently may be before a Magistrate.

[38 Vic., c. 17, s. 82.]

Penalty for pulling down, injuring or defacing notices.

**63.** Whoever without due authority pulls down, injures or defaces any notice, copy of rules or document when affixed in pursuance of this Act or of the rules under this Act, shall be punished with fine which may extend to twenty rupees.

[38 Vic., c. 17, s. 87]

Exemption of occupier, &c., from penalty on proof of offence having been committed by another person.

**64.** (*1*) Where any offence under this Act or the rules under this Act, for which the occupier of any factory, magazine or registered place is liable to a penalty or forfeiture, has in fact been committed by some other person, that other person shall be punished with fine which may extend to two hundred rupees.

(*2*) Where any occupier is liable under this Act or the rules under this Act to a penalty or forfeiture for an offence committed by some other person, the occupier shall be exempt from the penalty or forfeiture on proving that he had supplied proper means and issued proper orders for the observance, and used due diligence to enforce the observance, of this Act and the rules under this Act, and that the offence in question was actually committed by some other person without his connivance, and, if the actual offender is alive, that he has taken all practicable means in his power to prosecute the offender to conviction.

[38 Vic., c. 17, s. 87, para. 4.]

(*3*) The occupier or other accused, when charged in respect of any offence committed by another person, may, if he think fit, be examined as a witness in the case.

[38 Vic., c. 17, s. 87, para. 5.]

(*4*) Where any offence under this Act for which any warehouseman, or carrier, or the owner or master of any ship, boat or carriage is liable to a penalty or forfeiture, has in fact been committed by some other person, this section shall apply in like manner as if the warehouseman, carrier, owner or master were such an occupier as in this section mentioned.

[38 Vic., c. 17, s. 88.]

Exemption of carrier or owner or master of ship where consignor, &c., is in fault.

**65.** Where a carrier, or an owner or master of a ship or boat, is prevented from complying with this Act or the rules under this Act by the wilful act, neglect or default of the consignor or consignee of the explosive, or other person, or by the improper refusal of the consignee or other person to accept delivery of the explosive, the consignor, consignee or other person, who is guilty of that wilful act, neglect, default or refusal shall be liable to the same penalty to which the carrier, owner or master is

liable for a breach of this Act or those rules; and his conviction shall exempt the carrier, owner or master from any penalty or forfeiture under this Act or those rules.

[Cf. 38 Vic., c. 17, s. 96]

Provisions as to forfeiture.

**66.** (*1*) In any case in which any explosive or ingredient of an explosive or any substance is liable to be forfeited under this Act or the rules under this Act, the convicting Magistrate may direct the whole or any part of the explosive, ingredient or substance, together with the receptacles containing the explosive, ingredient or substance to be forfeited.

[38 Vic., c. 17, s. 89, para. 2.]

(*2*) Where any explosive or ingredient of an explosive or any substance is alleged to be liable under this Act or the rules under this Act to be forfeited, proceedings may be instituted in the Court of any Magistrate, within the local limits of whose jurisdiction the explosive, ingredient or substance is, against the owner of the explosive, ingredient or substance, for the purpose only of enforcing the forfeiture; and, where the owner is unknown or cannot be found, the Magistrate may cause a notice to be published in such manner as he thinks fit stating that, unless cause is shown to the contrary at the time and place named in the notice, the explosive, ingredient or substance will be forfeited; and if cause is not so shown, the Magistrate, after hearing the owner or any person on his behalf (if present), may order all or any part of the explosive, ingredient or substance to be forfeited.

[38 Vic., c. 17, s. 89, para 1.]

(*3*) Where a Court before whom a person is convicted of an offence against this Act or the rules under this Act has power to order a forfeiture of any explosive or ingredient of an explosive or any substance owned by, or found in the possession or under the control of, that person, the Court may, if it thinks fit, in lieu of ordering a forfeiture of that explosive, ingredient or substance, sentence that person, in addition to any other punishment, to a fine which may extend to such sum as appears to the Court to be the value of the explosive, ingredient or substance.

[38 Vic., c. 17, s. 95.] [Cf. Act XII of 1875, s. 6.]

Distress of ship or boat.

**67.** Where the owner or master of a ship or boat is adjudged to pay a fine for an offence committed with or in relation to that ship or boat, the Court may, in addition to any other power it may have for the purpose of compelling payment of the fine, direct it to be levied by distress and sale of the ship or boat, and the tackle, apparel and furniture thereof, or so much thereof as is necessary.

## CHAPTER X.

### SUPPLEMENTAL.

[38 Vic., c. 17, s. 72.]

Provision of magazine by municipal committee.

**68.** (*1*) When any municipal committee satisfies the Local Government that the erection of a magazine by the committee either within or without the limits of the municipality would conduce to the safety of the public within the limits of the municipality, and would not be injurious to the public without those limits, the Local Government may grant to that municipal committee a license under this Act for a magazine.

(*2*) The municipal committee may, for the purpose of any license under this section, acquire any land or right over land, or appropriate any land or right belonging to it, and acquire or build a magazine, and may maintain and manage the magazine, and may charge for the use by persons of the magazine such reasonable sums as it may, from time to time, with the approval of the Local Government, fix.

[Cf Act XIII of 1880, s. 23.]

(*3*) The amount of all sums charged, and the amount of all expenditure incurred, for the purposes of this section by any municipal committee shall respectively be credited to, and paid from, the municipal fund.

[Cf. Act XV of 1879, s. 13: Act XV of 1873, s. 39.]

(*4*) When any land is required by a municipal committee for the purposes of this section, if the municipal committee cannot agree with the owner for the purchase thereof, the Local Government may, on the request of the municipal committee, proceed to acquire it under the provisions of the Land Acquisition Act, 1870; and, on payment by the municipal committee of the compensation awarded under that Act, the land shall vest in it for the purposes of this section.

X of 1870.

[Cf. Act X of 1881, s. 2.]

(*5*) In this section "municipal committee" includes a municipal corporation or a body of municipal commissioners constituted by or under the provisions of any enactment for the time being in force.

[38 Vic., c. 17, s. 50.]

Provisions in favour of the keeping and conveyance of percussion-caps, safety-fuzes for blasting, fog-signals and prescribed explosives.

**69.** (*1*) A person shall not be required by this Act or the rules under this Act to take out a license or to register any premises for the keeping of percussion-caps, or safety-fuzes for blasting, or fog-signals kept by any railway-administration for use on the railway of that railway-administration, or any prescribed explosive.

(*2*) It shall not be obligatory on a railway-administration making rules under section twenty-two to make any rules with respect to the conveyance, loading, unloading or keeping of any explosive to which this section applies.

(*3*) The Governor General in Council may, by notification, exempt any explosive to which this section applies, or any description thereof, from any other of the provisions of this Act or from any of the rules under this Act, or may declare that a license shall be required for the keeping of any explosive to which this section applies, or any description thereof, or that rules shall be made with respect to the loading, unloading, conveyance or keeping thereof.

[38 Vic., c. 17, s. 41.]

Exemption of safety-cartridges for private use.

**70.** Nothing in this Act or in the rules under this Act shall apply to the filling or conveying for private use, and not for sale, of any safety-cartridges to the amount allowed by this Act or those rules to be kept for private use.

[38 Vic., c. 17, s. 100.]

**71.** Nothing in this Act or the rules under this Act shall render liable to any penalty or forfeiture the owner or master of any ship or boat, or any carrier or warehouseman, or the person having charge of any carriage, for any act done in breach of this Act or those rules, if he proves that, by reason of stress of weather, inevitable accident or other emergency, the doing of that act was under the circumstances necessary and proper.

Saving for owner or master of ship, carrier and others in case of emergency.

[38 Vic., c. 17, s. 102.]

**72.** Nothing in this Act or the rules under this Act shall—

Saving as to liability under other law.

(*a*) exempt, save as is in this Act or those rules expressly provided, any person from any suit which might, but for the provisions of this Act or those rules, have been brought against him; or

(*b*) prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act or those rules, or from being liable under that other law to any other or higher punishment or penalty than that provided by this Act or those rules: provided that no person shall be punished twice for the same offence.

[New: cf. Act VIII of 1876, s. 128: Act XI of 1878, s. 33.]

**73.** No proceeding other than a suit shall be commenced against any person for anything done in pursuance or in alleged pursuance of this Act or of the rules under this Act until at least one month's previous notice in writing of the intended proceeding and of the cause thereof has been given to him, nor after the expiration of three months from the accrual of that cause.

Notice and limitation of proceedings.

[38 Vic., c. 17 s. 104.]

**74.** The Governor General in Council may, by notification, declare that any substance which appears to the Governor General in Council to be specially dangerous to life or property, by reason either of its explosive properties, or of any process in the manufacture thereof being liable to explosion, shall be deemed to be an explosive within the meaning of this Act and of the rules under this Act; and the provisions of this Act and of those rules (subject to such exceptions, limitations and restrictions as may be specified in the notification) shall accordingly extend to that substance in like manner as if it were included in the term "explosive" in this Act.

Extension of definition of "explosive" to other explosive substances.

**75.** (*1*) Every authority having power to make rules under any section of this Act other than section fifteen or section twenty-nine, shall, before making the rules, publish a draft of the proposed rules for the information of persons likely to be affected thereby.

Procedure for making, publication and confirmation of rules.

(*2*) The publication shall be made, in the case of rules made by the Governor General in Council, in such manner as may in his opinion be sufficient for giving information to persons interested, and in the case of rules made by any other authority, in the prescribed manner.

(*3*) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(*4*) The authority shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(*5*) A rule made under this Act by a Local Government or railway-administration shall not take effect until it is confirmed by the Governor General in Council.

(*6*) Every rule made under this Act by a Local Government and confirmed by the Governor General in Council shall be published in the local official Gazette.

(*7*) Every rule made under this Act by a railway-administration and confirmed by the Governor General in Council, and every rule made under this Act by the Governor General in Council, shall be published in the *Gazette of India*.

(*8*) The publication in the local official Gazette, or, as the case may be, in the *Gazette of India*, of a rule purporting to be made under this Act, shall be conclusive evidence that it has been duly made, and, if it requires confirmation, that it has been duly confirmed.

(*9*) All powers to make rules conferred on any authority by this Act may be exercised from time to time as occasion requires.

**76.** (*1*) Save as provided in section four, all powers to issue notifications conferred by this Act on the Governor General in Council or the Local Government may be exercised from time to time as occasion requires.

Issue and publication of notifications.

(*2*) A notification issued by the Governor General in Council or the Local Government under this Act shall not take effect until it has been published in the *Gazette of India* or the local official Gazette, as the case may be.

## THE SCHEDULE.

(*See section 5.*)

### ENACTMENTS REPEALED.

(*a*) *Acts of the Governor General in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| XIII of 1856 ... | For regulating the police of the towns of Calcutta, Madras and Bombay. | Sections seventy to seventy-four (both inclusive). |
| XXI of 1857 ... | To make better provision for the order and good government of the station of Howrah. | Sections eighteen and nineteen. |
| XII of 1875 ... | The Indian Ports Act, 1875 ... | Section seven, clause (*o*), and sections twenty-eight to thirty-four (both inclusive). |

(*b*) *Acts of the Governor of Fort St. George in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| VIII of 1867 ... | To incorporate the police of the town of Madras with the general police of the Madras Presidency, to extend the jurisdiction of the Town Police Magistrates, and to amend and consolidate the provisions of Act XIII of 1856 and of Act XLVIII of 1860. | Sections forty-five to forty-nine (both inclusive). |
| V of 1878 ... | The City of Madras Municipal Act, 1878. | In section three hundred and twenty-two, the words "gunpowder manufactory, manufactory of fire-works," and the words "explosive or." |
| I of 1880 ... | For regulating the storing, sale and packing for conveyance of gunpowder. | The whole Act. |

(*c*) *Acts of the Governor of Bombay in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| III of 1872 ... | To provide for the management of the municipal affairs of the city of Bombay and to make better provision for the conservancy and improvement of the city and for the levying of rates, taxes and other income therein. | In section two hundred and twenty-five, the words "gunpowder manufactory, manufactory of fireworks," and the words "explosive or." |
| VI of 1873 ... | Bombay District Municipal Act ... | In section sixty-nine, the words "manufactory of gunpowder or fireworks" and the words "explosive substances or." |

(*d*) *Acts of the Lieutenant-Governor of Bengal in Council.*

| Number and Year. | Subject or Short Title. | Extent of Repeal. |
|---|---|---|
| II of 1866 ... | To provide for the better regulation of the police within the suburbs of the town of Calcutta. | Sections thirty-four to thirty-eight (both inclusive). |
| IV of 1866 ... | To amend and consolidate the provisions of Act XIII of 1856 and Act XLVIII of 1860. | Sections fifty-seven to sixty-one (both inclusive). |
| V of 1876 ... | Bengal Municipal Act, 1876 ... | In section two hundred and eighty-five, the words "or explosive substance." |
| V of 1879 ... | The Jute Warehouse and Fire-Brigade Act, 1879. | In section twenty-one, the words "or manufacture." |

## STATEMENT OF OBJECTS AND REASONS.

1. The object of this Bill is to provide a comprehensive law regulating the manufacture, keeping, sale, conveyance and importation of explosives throughout British India. The matter was first brought to the notice of the Government in connection with an application made by the agents of Nobel's Explosives Company, Limited, for permission to import dynamite manufactured by the Company. The Government of Bombay, to whom the application was made, referred the question to a Committee, which reported that the expediency of allowing the importation into that Presidency of dynamite and other preparations of nitro-glycerine was doubtful. The Government of Bombay forwarded a copy of this report to the Government of India with a request that the importation of preparations of nitro-glycerine might be prohibited until further notice by a notification under the Sea Customs Act. Before complying with this request the Government of India thought it well to consult the Governments of Madras and Bengal. In reply, both Governments expressed an opinion that the importation of these explosives should not be forbidden. The Government of Bengal further submitted a draft set of rules to regulate the importation, package, transport and storage of dynamite and similar substances, together with a report which had been prepared by a Committee appointed by the Lieutenant-Governor to consider the entire subject. This Committee, while recommending that the draft rules should be published as rules under the Indian Arms Act, 1878, suggested the enactment of a comprehensive Imperial Act of a similar nature to the English Explosives Act, 1875 (38 Vic., c. 17), which would in a convenient and compendious Code deal with the subject of explosives in its entirety and furnish the public, as well as Government officials, with an easy means of ascertaining their duties, responsibilities and powers respecting articles which by their inflammable, explosive or dangerous nature imperil the public safety.

2. It appears to the Government of India that it would be an abuse of the powers conferred by the Indian Arms Act, 1878, to make rules of the nature of those submitted by the Bengal Committee under that Act. There are, no doubt, powers conferred by the Indian Arms Act which might, at first sight, seem to authorise the making of such rules; but the object to which such rules are directed is altogether different from that of the Act. The object of the Arms Act was to enable the Government more effectually to prevent arms and ammunition (which term under section 4 includes gun-cotton, dynamite, lithofracteur and other fulminating substances) from getting into the hands of persons who would make a bad use of them. In other words, the main object of that Act was to *restrict* the possession of arms and ammunition. But the main object of the rules prepared by the Bengal Committee is not restrictive. Their object is to *protect* the public against the dangerous nature of the explosives to which they relate by regulating all dealings with those explosives. If they are restrictive, it is only so far as is necessary to carry out their protective object. Under these circumstances, it appears to the Government that the proposed rules could not properly be published under the Indian Arms Act, 1878.

3. Nor does it appear that there is any other enactment, as the law at present stands, under which rules of the nature of those prepared by the Bengal Committee can be issued. Under the existing law, the only enactments relating to this subject are to be found in various fragmentary provisions, dealing with gunpowder and fireworks only, which are in force in the Presidency-towns and in certain municipalities and ports. It appears to the Government that it is unsatisfactory that the law should be in this state at a time when dynamite and other compounds of nitro-glycerine are rapidly taking the place of gunpowder in all works where blasting is necessary. Already these explosives have been used to a considerable extent in connection with various works undertaken both by the Government and by private enterprize throughout India; and it is only natural to suppose that, as their superiority to gunpowder becomes more widely known, their use will increase.

4. Under these circumstances, the suggestion of the Committee that an Act drawn on the model of the English Explosives Act, 1875, and dealing comprehensively with the whole subject of explosives, should be added to the Indian Statute-book, recommends itself to the Government of India, as being the only satisfactory method of treating the subject. Accordingly the present Bill has been prepared. It embodies such of the provisions of the English Act as are in the opinion of the Government necessary in this country. In addition to the omission from the Bill of certain provisions of the English Act, the Bill further differs from that Act in that, in accordance with the well-recognized principle of Indian legislation, it confers power on the Local Governments to provide by means of rules, adapted to the varying local circumstances of the provinces under their administration, for many points for which there are specific provisions in the body of the English Act.

5. The Bill is divided into ten chapters.

Chapter I (Preliminary) contains the usual preliminary matter. Section 2 saves from the Act the manufacture, packing, sale, conveyance or importation of explosives by the Government, and section 3 saves the provisions of the Indian Arms Act, 1878. Under section 4, the Act will not come into force until after the publication of a notification by the Governor General in Council; but, in order to prevent the inconvenience which would arise if the Act were brought into force before the notifications, rules, orders and appointments necessary for its efficient working had been made, sub-section (2) gives power to make these at any time after the passing of the Act, though they are not to take effect until the Act comes into force. By section 5 and the schedule are repealed the enactments which at present deal with the subject-matter of

the Bill, with the exception of the Indian Arms Act, 1878, and the provisions to be found in the Andaman and Nicobar Islands Regulation, 1876. The provisions of the former Act relating to explosives have been left unrepealed for the reasons which have led the Government of India to decide that the rules framed by the Bengal Committee cannot be passed under it, namely, because the objects of the Act and of the Bill are different. The provisions of the Andaman and Nicobar Islands Regulation, 1876, have not been repealed because, considering the peculiar nature of that settlement, it seems inconvenient to interfere with any of the rules which are at present contained in that Regulation. Though the proposed Act will extend to the Andamans, its provisions will be practically a dead-letter in those islands.

6. Chapter II lays down the general law as to the manufacture and keeping of explosives prescribing the places at which an explosive may be manufactured or kept. It is to be read subject to certain exceptions in the Supplemental Chapter (X).

7. Chapter III deals with the licensing and regulation of factories and magazines, and the registration and regulation of registered places, and confers power on the Local Government to make rules on all necessary matters. A factory under the Act is a place licensed for the manufacture of an explosive; a magazine is a place licensed for the keeping of an explosive; and a registered place is a place registered for the keeping of an explosive. Magazines differ from registered places in that the former are places devoted exclusively to the keeping of explosives and the receptacles for or tools or implements for work connected with the keeping of explosives, whilst the latter are places, *e.g*, general stores or shops, not devoted exclusively to the keeping of explosives but in which explosives may be kept. Sections 11 and 12 enact certain provisions in favour of the occupiers of magazines and registered places; the former section enabling the occupiers of magazines and registered places to make cartridges without taking out a factory-license, and the latter enabling the occupiers of magazines to adapt or prepare explosives for use in their own mines or quarries without any such license. Section 15 imposes on the occupier of a factory or magazine the duty of making special rules for the regulation of the workmen in his factory or magazine.

8. Chapter IV relates to the sale of explosives. Section 16 prohibits explosives being hawked, sold or exposed for sale on highways or public places; section 17 prohibits the sale of an explosive to a child under 13; and section 18 prescribes the manner in which an explosive exposed for sale or sold is to be packed and labelled.

9. Chapter V treats of matters relating to the conveyance of explosives. Under section 19, the Governor General in Council may make rules as to the packing of explosives for conveyance. Under section 20, the Local Government may make rules to regulate the conveyance, loading, unloading and keeping of explosives within a port; and section 21 confers certain powers on the Conservator or other officer named in such rules in the event of their breach. Under section 22, Railway-administrations are directed to make rules for their own railways respectively. Under section 23, the Governor General in Council is empowered to make rules in any case in which rules under section 20 or section 22 do not apply. By section 24 the authority making rules under sections 20, 22 and 23 respectively is empowered to annex to a breach of any rule, or attempt to commit a breach of any rule, a penalty which may consist of a fine which may extend to two hundred rupees for each breach and to one hundred rupees for each day during which the breach continues, and of forfeiture of all or any part of the explosive in respect of which the breach is committed.

10. Chapter VI regulates the importation of explosives other than gunpowder, cartridges made with gunpowder, percussion-caps, fireworks, and any prescribed explosive, and prohibits their importation except under a license. The Governor General in Council is given power (section 26) to regulate all matters connected with the grant of such licenses, and the officers of sea-customs are given similar power (section 27) with regard to these explosives as they have with regard to any article on the importation of which restrictions are for the time being imposed by the law relating to sea customs.

11. Chapter VII confers special powers on the Governor General in Council to regulate or prohibit all dealings with any explosive which in the opinion of the Governor General in Council is specially dangerous to the public safety; and the officers of sea customs are given like powers with regard to any such explosive as they are given under section 27 with regard to the importation of the explosives referred to in section 25.

12. Chapter VIII (Government supervision) first provides for matters relating to inspection. The Local Government is empowered (section 29) to appoint Government Inspectors, and to make rules to assign and regulate their duties. Section 30 defines the general power of these officers as to entry, inspection, and examination of factories, magazines and registered places, and the taking of samples from the occupiers. Section 31 empowers the Government Inspector to require the occupier of any factory or magazine to remedy anything connected with his factory or magazine which is in the opinion of the Inspector unnecessarily dangerous or defective, and provides for a reference to the nearest Magistrate when the occupier objects to comply with the inspector's requisition. Section 32 deals with inspection in port and of ships, and section 33 provides for the inspection of a wharf, carriage, ship or boat on or in which an explosive is reasonably supposed by a Government Inspector or other officer to be for the purpose of or in course of conveyance.

The chapter secondly provides (section 34) for the giving of notice of accidents arising from explosion or fire occurring in or about or in connection with any factory, magazine or registered place, or any carriage, ship or boat either conveying an explosive or on or from which

an explosive is being loaded or unloaded, and (section 35) for inquiry into the cause of such accidents when necessary.

Thirdly, the chapter deals with power of search. It empowers (section 36) Government Inspectors and officers authorised by the Local Government to enter and search all places where they have reason to believe that any offence has been or is being committed with respect to an explosive, or that any explosive is in contravention of the Act, or that the provisions of the Act are not duly observed. Such searches are to be made in accordance with the Code of Criminal Procedure, and when made by any officer other than a Government Inspector are to be reported by him to his official superior within 48 hours. Section 37 gives special power to Government Inspectors and other officers to stop carriages or boats in case of emergency.

Fourthly, the chapter treats of seizure and detention of explosives. Section 38 authorizes the seizure and detention of any explosive liable to forfeiture, and section 39 gives the Local Government power to make rules to regulate such seizure and detention. Section 40 declares that the proceedings before a Magistrate with regard to any such seizure shall be commenced as soon as possible. Section 41 gives power to seize the receptacle in which the explosive was found, and section 42 to use the ship, boat, carriage, &c., in which the explosive was seized.

Lastly, the chapter (section 43) provides for the payment for samples of explosives taken by Government Inspectors or other officers under the Act.

13. Chapter IX deals with the penalties and legal proceedings.

The penalties for breaches of the provisions of the Act and the rules made under it are restricted to forfeitures and fines, and the only instance in which the Act prescribes imprisonment as a punishment is (section 53) that of resistance to a public officer.

14. With regard to legal proceedings, section 64 provides for the exemption of an occupier of a factory, magazine or registered place, and of a warehouseman, carrier or owner or master of a ship, boat, or carriage from penalty on proof of another being the real offender. Under section 65, a carrier or owner or master of a ship or boat is exempted from penalty when he is prevented from complying with the law by the act or default of the consignor or consignee of the explosive or some other person and the consignor or consignee or other person is convicted (as it is provided he may be) under the Act.

Section 66 confers a general power on Magistrates to order forfeiture in all cases in which explosives are liable to be forfeited, and provides that proceedings may be taken for the purpose only of inflicting a forfeiture. The same section empowers the Court to inflict an additional fine in lieu of forfeiture of the explosive; and section 67 provides for levy of a fine imposed on the owner or master of a ship by distress of the ship.

15. Chapter X (Supplemental) provides for several miscellaneous matters. Section 68 empowers Municipal Committees to provide magazines for the use of the public; section 69 enacts certain provisions in favour of the keeping and conveyance of percussion-caps, safety-fuses for blasting, fog-signals and prescribed explosives. Section 69 exempts railway-administrations from the obligation to make rules with regard to such explosives, and empowers the Governor General in Council to exempt such explosives altogether from the Act. By section 70 the filling and conveying for private use, and not for sale, of safety-cartridges are excepted from the application of the Act. Section 71 exempts the owner or master of a ship and a carrier or warehouseman or any person in charge of a carriage from punishment when an act is done by him in breach of the provisions of the Act in a case of emergency. Section 72 contains the usual provision saving liability to civil suit or prosecution under other laws. Section 73 deals with notice and limitation of proceedings. Section 74 empowers the Governor General in Council to extend the definition of "explosive" to other explosive substances; and sections 75 and 76 treat of general matters connected with the issue and publication of notifications and rules. Under section 75, proposed rules must be published as drafts before they are finally made, and the authority that makes the rules is directed to receive and consider any criticisms or suggestions which may be made by persons interested.

2. Since the Bill was circulated, several valuable suggestions have been made to us as to points in which the Indian Railway Act, IV of 1879, might be amended. We think, however, that, as the extension of Railways in this country will probably necessitate before long a general revision of that Act and the preparation of a Bill calculated to meet the growing wants of the country, it is expedient to confine ourselves to the matters with which the Bill before us is concerned, and to leave suggestions on other points to be considered when the whole of the law relating to Indian Railways is dealt with.

3. With this view we have made only such amendments in the Bill as we deemed necessary or desirable in order the better to give effect to the present intentions of the legislature. These amendments are briefly as follows:—

(1) In section 5 A (present numbering) we have enabled the Governor General in Council to appoint officers either by name or by virtue of their office to be inspecting officers under the Act.

We have drawn section 5B so as to render it unnecessary for the Governor General in Council specially to appoint an officer to inspect any particular Railway, and as it may, in some cases, be desirable that sanction should be obtained at once to the opening of a Railway, and that the inspecting officer's report should be communicated by telegraph, we have omitted the provision requiring that officer's report to be in writing.

(2) In sub-section (2) of the same section we have given the Governor General in Council power to confer, in any particular case or class of cases, on the inspecting officer the power to sanction the opening of a Railway or portion of a Railway. As the Bill was drafted, this power had to be conferred in each particular case, and we considered that it would be more convenient to enable a general power to be conferred on the inspecting officer for dealing with any particular class of cases, such as minor additions to, or extensions of, a Railway.

(3) In sub-section (3) we have reserved to the Governor General in Council a power to review any sanction given by an inspecting officer, and to cancel or modify it.

(4) To meet a case when it is desirable to sanction the opening of a line subject to conditions which are to be complied with by a Railway Administration, we have, in sub-section (4),

expressly declared that the sanction may be absolute or subject to conditions. We have accordingly provided in sub-section (5) that, when a conditional sanction is granted for the opening of a Railway and the conditions are not complied with, the sanction shall at once be deemed to be void, and that the Railway shall not be used until sanction is again obtained.

(5) To provide for the case where, after sanction has been given for the opening of a Railway, an alteration is made in it by the Administration, we have in section 5C (present numbering) prohibited the use of any portion of a Railway, so altered as to interfere with the safety of passengers, until formal sanction has been obtained for the opening of the portion for the public conveyance of passengers.

(6) In section 5D (present numbering) we have conferred upon officers appointed to inspect Railways the additional power of inspecting the rolling-stock used on a Railway, and have amended sections 5C (now 5E), 5D (now 5F) and the penal provisions contained in section 4 of the Bill accordingly.

4. We have made a few minor alterations in the Bill which do not call for special notice.

5. The Bill has been published, and we recommend that it should be passed as now amended; but first we consider, having regard to the amendments we have made, that it should be republished in the *Gazette of India*.

## No. II.

*A Bill to amend the Indian Railway Act, 1879.*

IV of 1879.

Preamble.

WHEREAS it is expedient to amend the Indian Railway Act, 1879, in manner hereinafter appearing; It is hereby enacted as follows:

Short title. Commencement.

1. This Act may be called the Indian Railway Act, 1882; and it shall come into force at once.

New sections substituted for section 5 of Act IV of 1879.

2. For section five of the said Act the following sections shall be substituted, namely:—

Railway when to be opened.

"5. A Railway, or portion or extension of, or addition to, a Railway, shall not be opened for the public conveyance of passengers until the Railway Administration has given to the Governor General in Council notice in writing of the intention of opening the same, and until the Governor General in Council has by order sanctioned the opening of the same.

Governor General in Council may appoint Inspecting-officers.

"5A. The Governor General in Council may from time to time appoint, by name or by virtue of their office, officers to be Inspecting-officers under this Act.

Sanction not to be given until after report by Inspecting-officer.

"5B. (1) The sanction referred to in section five shall not be given until an officer appointed under section 5A has, after inspection of the Railway, portion, extension or addition, as the case may be, reported to the Governor General in Council that in his opinion the opening of the same would not be attended with danger to the public using it.

"(2) Notwithstanding anything hereinbefore contained, the Governor General in Council may, in any particular case or in any particular class of cases, by special order, confer on any officer appointed under section 5A power to sanction the opening of a Railway, portion, extension or addition, if in the officer's opinion the opening of the same will not be attended with danger to the public using it.

"(3) In such case it shall not be necessary to make the report required by sub-section (1); but the Governor General in Council may by order cancel the sanction given under sub-section (2), or direct that the sanction shall be subject to such conditions as he thinks fit.

"(4) The sanction given under this section may be either absolute or subject to such conditions as the Governor General in Council, or the officer appointed under section 5A, as the case may be, thinks necessary for the safety of the public.

"(5) When sanction for the opening of any Railway, or portion or extension of, or addition to, any Railway is given subject to conditions and the Railway Administration fails or neglects to fulfil, or comply with, those conditions, the sanction shall on the failure or neglect forthwith be deemed to be void, and the Railway, or portion, or extension, or addition, as the case may be, shall not be used unless and until sanction is again obtained under this section for the opening thereof.

When alterations affecting safety of passengers are made in Railway, sanction to be again obtained for opening.

"5C. If, after a Railway has been opened as hereinbefore provided, any portion of it is so altered by the Railway Administration as to cause danger to, or affect the safety of, passengers carried thereon, the portion so altered shall not be used for the public conveyance of passengers, unless and until sanction is obtained, in accordance with the provisions of section 5B, for the opening of it.

54 & 55 Vic., c. 78, s. 43

"5D. (*1*) Every officer appointed under section 5A shall, for the purpose of the inspection, be deemed to be a public servant within the meaning of the Indian Penal Code, and shall, subject to the control of the Governor General in Council, have the following powers, namely:—

Powers of Inspector of Railways.

"(*a*) he may enter on and inspect any Railway or portion thereof which has been opened for the public conveyance of passengers, or any rolling-stock used thereon;

"(*b*) he may by an order in writing under his hand require the attendance of any Railway-servant whom he thinks fit to call before him and examine for the said purpose, and may require any such servant to answer, or furnish returns regarding, such inquiries for the said purpose as he thinks fit to make;

"(*c*) he may require and enforce the production of all books, papers and documents belonging to or in the possession of any Railway Administration which in his opinion are necessary for the said purpose.

"(*2*) Every Railway Administration whose Railway or rolling-stock is being inspected under this Act shall afford all reasonable facilities for making the inspection to the officer making it.

"5E When, after inspecting any Railway or portion of a Railway, or any rolling-stock used thereon, any officer appointed under section 5A reports to the Governor General in Council that in his opinion the use of the Railway or portion or of any specified rolling-stock will be attended with danger to the public using it, the Governor General in Council may, by order, direct that the Railway or portion be closed for the public conveyance of passengers, or that the rolling-stock so specified shall no longer be used, as the case may be.

Governor General in Council empowered to close Railway

"5F. (*1*) When a Railway or portion of a Railway has been closed under section 5E, it shall not be re-opened for the public conveyance of passengers unless and until it has been inspected, and its opening sanctioned, in accordance with the provisions of section 5B."

Re-opening of Railway

"(*2*) When the Governor General in Council has directed under section 5E that any rolling-stock shall not be used, the rolling-stock shall not be used unless and until an officer appointed under section 5A reports that it is fit for use and the Governor General in Council sanctions its use."

**3.** In section eight of the said Act, in clause (*d*), the word "and" shall be omitted, and after clause (*d*) the following clause shall be, and be deemed to have always been, inserted:—

Amendment of, and addition to, section 8.

"(*dd*) for regulating the conduct of the Railway-servants, and".

**4.** For section twenty-one of the said Act the following section shall be substituted:—

New section to be substituted for section 21 of Act IV of 1879.

"21. Any Railway Administration opening or using, in contravention of section five or section 5C, any Railway, or any portion or extension of, or addition to, a Railway, or keeping, in contravention of an order of the Governor General in Council, under section 5E, any Railway or portion thereof open, or re-opening, in contravention of section 5F, sub-section (*1*), any Railway or portion thereof, or using, in contravention of section 5F, sub-section (*2*), any rolling-stock, shall forfeit to Government the sum of one thousand rupees for every day during which the Railway, portion, extension or addition remains open or is used in contravention of any of those sections or of the order of the Governor General in Council, as the case may be, or during which the rolling-stock is used."

Penalty for opening or re-opening Railway in contravention of sections 5 and 5D, and keeping open after order under section 5C.

### REVENUE REPORT OF IRRIGATION WORKS IN RAJPUTANA FOR THE YEAR 1881-82.

Nos. 25—33 I, dated Fort William, January 23, 1883.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Letter No. 3061 S, dated 28th November 1882, from Secretary to Agent, Governor General, and Chief Commissioner, Rajputana, and its enclosures, the Revenue Report and Memorandum thereon by Officiating Chief Commissioner.

OBSERVATIONS.—The total Capital outlay on these works, including all direct and indirect charges, to the end of the year under review, amounted to R15,09,379; the gross revenue assessed on irrigation during the year to R94,511, and the total working charges to R 63,307. The net profit on the works therefore amounted to R31,204, or 2·06 per cent. on Capital outlay to the end of the year.

2. The gross revenue exceeded that of the previous year, 1880-81, by R15,077, and that of 1878-79, the highest previously recorded, by R4,294; but more than 90 per cent.* of this revenue is derived from book credits allowed for water share of land revenue and share of assessment on lands irrigated from wells dependent on the works in Ajmir and Merwara. The revenue from the large new tanks, lately constructed by the British Government, is as yet quite insignificant, amounting only to R 6,09[illegible] for 1881-82. The increase during the year was principally due to a larger supply of water in the tanks.

| | R |
|---|---|
| Water share of revenue on old and small new tanks | 62,490 |
| Share of "Chahi" assessment | 25,929 |
| | 88,419 |

3. The working expenses of the year, including indirect charges, exceeded those of the previous year by R 22,672, the increase being due to considerable repairs and improvements of old tanks.

4. Of the total Capital invested in these works, 53 per cent.† has been sunk in the large new reservoirs, which are really "Protective" works. As these works are never likely to afford any profit on Capital outlay from "direct" irrigation, and the water can be made to go much further by storing it up for the improvement of the supply in the neighbouring wells, instead of running it off for the irrigation of the crops lying immediately under the tank, the measures which have lately been taken in this direction have the full approval of the Government of India.

| | R |
|---|---|
| † Old and small new tanks | 7,09,364 |
| Large new tanks | 8,00,015 |
| | 15,09,379 |

5. The average rainfall recorded during 1881-82 was 17·64 inches in Ajmir and 20·34 inches in Merwara, but the tanks were filled during July and August 1881, during which months there were seven falls, exceeding 2 inches in 24 hours in Ajmir, and four such falls in Merwara.

6. The new tanks appear to have raised the surface level of the water in wells, within a distance of one mile, from 2 to 5 feet, and to have increased the average capacity for irrigation from 5 acres to about 5¾ acres per well.

7. A very good idea of the real value of these irrigation works is afforded by the statement of value of crops dependent upon them, which is given in paragraph 19 of Mr. Fitzgerald's excellent report. It is there shewn that crops, valued at very nearly 5 lakhs of rupees, were raised during 1881-82 by means of these tanks, of which the total capital cost amounts to only 15 lakhs of rupees.

---

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Agent, Governor General, and Chief Commissioner, Rajputana, for information and guidance.

Also that a copy of the Resolution and of the Report be forwarded to the Governments of Madras, Bombay, Bengal, North-Western Provinces and Oudh, and the Punjab, in the Public Works Department, for information.

Also that a copy of the Resolution and of the Report be forwarded to the Revenue and Agricultural Department, and to the Department of Finance and Commerce, for information.

Also that the Resolution and Memorandum by the Agent, Governor General, together with the statement of general financial results, compiled by the Examiner of Public Works Accounts, be published in the Supplement to the *Gazette of India*.

Ordered further, that a copy be forwarded to Her Majesty's Secretary of State for India for information.

H. A. BROWNLOW, *Col., R. E.*,
*Deputy Secretary to the Government of India.*

---

*Memorandum by* COLONEL *C. K. M.* WALTER, *Officiating Chief Commissioner, Ajmere-Merwara, on the Ajmere and Merwara Irrigation Revenue Report, 1881-82, dated 28th November 1882.*

The result of the working of the tanks in the year under review shows a falling-off on that of the previous year, the net revenue of the works in operation by assessment being 2·08 per cent. against 3·13 in the previous year, in excess of all charges exclusive of interest.

2. The area irrigated is 21,192 acres against 18,167 in the previous year, while the area cropped without actual irrigation, both in rear and front of the tank embankments, increased from 6,227 acres to 8,506. The total area that the tanks directly protected is 29,698 acres against 24,494 in the preceding year. The assessment includes a credit of R25,929 on account of the increase of land revenue due to tanks. Calculating that this sum represents enhanced

land revenue on 12,000 acres, the total area, the irrigation of which wholly or partially depended on the Government tanks, may be stated at 38,000 acres, which is nearly 56 per cent. of the entire area recorded at the last revenue settlement under heads Chahee (well irrigated), Talabi (tank irrigated) and Abi (submerged) in Ajmere and Merwara combined.

3. The new tanks in operation with their combined capacity of 694 million cubic feet above sluice level held on 1st November a supply of 253 million cubic feet, the loss during October having reduced it by about 40 million cubic feet. There was no irrigation of the kharif to speak of. The supply held by these tanks on the 1st April 1882 was 62 million cubic feet. Out of the quantity lost between 1st November 1881 and 1st April 1882, only about 91 million cubic feet was utilized for irrigation of single crop area of nearly 1,300 acres; the quantity used per acre was thus 70,000 cubic feet, or a depth of 1′ 7″ inclusive of loss in ducts and channels. The number of waterings varied from 3 to 5, and complete irrigation was supplied. The earliest date of irrigation for rabi was 11th October in the case of the Bulad tank, and the latest date 16th November in that of the Rajaosi. The latest up to which irrigation was given for rabi was 31st March.

4. Notwithstanding that there were showers in December and January, the quantity of water used per acre was considerably high. The quantity issued for irrigation does not appear to have been carefully recorded, nor does the information regarding the number of waterings appear to be accurate, the number having been given differently for the same area in different places. For instance, in para. 23 of the Assistant Commissioner of Ajmere's Report, the number of waterings given from Bir is stated to be three, while in the separate general statement A, classifying irrigated areas according to crops, the number is entered as five. In this statement the area watered five times from Ladpura tank is given as 104 acres, while in the statement of actually irrigated areas 77 acres, out of the 104 acres figures as cultivated in bed of the tank without irrigation.

5. The new tanks, with a capital of ₹7,05,655, inclusive of indirect charges, assisted the irrigation of crops valued at ₹31,304. The average incidence of water-rate, assessed at ₹5,726, is 18·29 per cent., maximum 39·28 and minimum 10·23.

6. The old tanks and the small new tanks, with a capital of ₹6,96,189, helped the irrigation of crops valued at Rs4,56,193, the incidence of the assessed rates amounting to Rs58,569, being nearly 13 per cent. The actual incidence ranges from 7·15 to 22·73 per cent. Jalea, the largest of the new tanks, stored the largest supply since its completion, and though an event not falling within the period under review, it may be mentioned here that during the last rain its weir discharged for several days.

7. The returns from the new tanks in operation by collections amounted to a deficit of ₹4,801, besides the interest charge amounting to ₹26,410. The returns from the old tanks and small new tanks by collections amounted to ₹23,432, or 3·4 per cent. on Capital outlay. The revenue due to the old tanks being almost wholly a part of the land revenue assessment is treated only in the Administration Accounts of the Public Works Department. It is not therefore found useful to shew returns by the direct and indirect revenue separately.

8. The working charges amounted to ₹63,307 against ₹37,963 in the previous year. Out of the total excess of ₹25,344, the share due to repairs and extensions is ₹22,604. The total expenditure under this head amounted to ₹35,448 against the limit of ₹31,000 recommended by the Irrigation Committee, and since sanctioned by the Government of India in para. 22 of their orders on the Committee's report. The above-mentioned limit includes ₹25,000 for the old tanks, but the actual expenditure of the year under review is ₹31,444. The Officiating Commissioner explains in para. 3 of his report, that a sum of ₹14,500 was utilized in carrying out certain improvements and rather extensive repairs.

9. Regarding the non-completion of the branch Bulad duct and the non-clearance of the Ladpura duct, named Gungwana, animadverted on in the Commissioner's Report; paras. 61 and 66, as well as the irrigation of the Dilwara Bir, referred to in the Assistant Commissioner of Merwara's Report, para. 5, a further enquiry will be made.

10. The establishment charges of the year under review were not adjusted in accordance with the orders of the Government of India on the Irrigation Committee's Report. Had this been done, the charge would have been lower by about ₹4,000, and the percentage of establishment charges to expenditure on works and repairs 36 instead of 49. The necessary adjustment will be carried out when preparing the Administration Accounts for the year 1882-83.

11. The report has been, as ordered by the Government of India, drawn up in the form of that of the North-Western Provinces so far as possible; the orders having been received after the year had been closed, information on all heads was not available, and the Commissioner promises that in future years the report will be more complete.

12. It appears that the water-supply of the year was generally plentiful, more so than usual; that it was fully utilized from the old tanks; and that the duty obtained from the new tanks was much lower than the circumstances appear to have permitted. The Officiating Chief Commissioner, however, notes with satisfaction that the tanks of Bulad, Bir and Jalea did not run dry before the commencement of the following rains, as much importance is set on the retention of a certain supply permanently.

## IRRIGATION BRANCH.

### ADMINISTRATIVE ACCOUNTS FOR THE YEAR 1881-82.

**No. 1.—General Abstract of Financial results, showing the estimated cost of construction of Irrigation and Navigation Works, the Capital outlay thereon, the revenue derived therefrom, the working expenses and the interest on the debit incurred in respect of those works for and to end of 1881-82.**

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 23rd JANUARY 1883.

GENERAL REMARKS.—There has been no rainfall to report in the Bombay and Bengal Presidencies, British Burma, Mysore and Coorg, and the Nizam's Territories, while what has fallen elsewhere has been slight.

The prospects of the cold-weather crops continue generally favourable. But in parts, notably in the western districts of the North-Western Provinces and Oudh, and throughout the Punjab, the absence of winter rains is telling severely on the crops on unirrigated land.

The mustard crop is reported to be doing badly in several districts of the North-Western Provinces, and in Saran, in the Bengal Presidency, it has also been much injured by blight.

Harvest operations are still progressing in the Madras Presidency, with an outturn below average in four districts. In Mysore and Coorg reaping of rice crops still continues. In British Burma and Bengal the crop has been nearly all gathered in, the average outturn in the latter province being fair. The harvesting and pressing of sugarcane continue generally throughout India.

Since the information above summarised was received, later accounts have come in showing the prevalence of cloudy weather and good rain over all the more northern and north-western parts o the country.

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Jan. 24th)** | | |
| Bellary | | Standing crops generally good; harvest paddy, dry grains, tobacco, and sugarcane, yield average. |
| Kurnool | | Standing crops in good condition; harvest horse-gram, outturn below average; cattle disease in parts. |
| Ganjam | | Standing crops dry grains, cotton, and sugarcane thriving; harvest dry grains and sugarcane, yield average; fever and small-pox continue; cholera and cattle disease in one taluk. |
| Kistna | | Standing crops affected by grubs in one taluk, elsewhere promising; harvest paddy and dry grains, outturn below average; fever and cattle disease general; small-pox increasing; water two feet over anicut. |
| Chingleput (Madras) | | Standing crops generally good; harvest paddy, yield below average; small-pox and cattle disease in parts. |
| Coimbatore | | Standing crops in good condition; harvest paddy and dry grains, yield average; fever, cholera, and cattle disease in parts. |
| Tanjore | ·10 (average of one station.) | Standing crops good; harvest paddy and *ragi*, outturn below average; cholera more generally prevalent. |
| Madura | | Standing crops generally withering in parts; harvest paddy and dry crops in parts; cholera in parts. |
| Malabar | | Harvest second crop paddy continues; fever and cholera in parts; small-pox slight. |
| Travancore | | Harvest progressing; fever and small-pox continue. |
| | | *General Remarks.* —No rain except in Tanjore; general prospects good. |
| **Bombay—(Jan. 24th).** | | |
| Kurrachee | *Nil* | River at Kotri on 20th, 2 feet 10 inches, 1 inch lower than last year; 49 cases small-pox in Kurrachi; since outbreak of disease on 3rd December, 14 deaths, 21 persons remaining sick on 19th, disease confined to Bagdadi lines, residence of Mekranis; a few cases also in Sehwan and Kotri talukas; fever in 10 talukas; harvesting of *sareh* and *jumloo* in Jati commenced; wheat, red rice, and *bajri* in Kurrachi 24, 32, and 33 lbs., in Kotri 32 and 50 lbs., in Tata 24, 38, and 44 lbs., and in Mirpur Batoro 22, 40, and 42 lbs. per rupee respectively. |
| Hyderabad | | *Rabi* crops fair; weather unseasonably mild; small-pox in Hyderabad and fever in 6 talukas; cattle disease in Kandiaro and Nowsharo; wheat 26, *bajri* 39, *jowari* 48, red rice 28, and white rice 22 lbs. per rupee. |
| Ahmedabad | | *Rabi* crops thriving; small-pox in Dhandhuka; wheat 28 and *bajri* 33 lbs. per rupee. |
| Baroda | | *Rabi* sowing completed; cotton-picking commenced; cattle disease in Kadi taluka; *bajri* 30½ to 31 lbs. and rice 26¾ lbs. per British rupee. |
| Surat | | *Rabi* crops thriving; cotton-picking continued; fever in Pardi and Mandir; 5 or 6 deaths daily from small-pox in city; *jowari* 40 and *nagli* 61 lbs. per rupee. |
| Nasik | | Weather still muggy; *rabi* crops good; cattle disease in Sinnar and Dindori talukas; wheat 25½, *bajri* 36, and rice 25 lbs. per rupee. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Colaba (Bombay) . . | . . . . . | Average abnormal temperature 3° warm, vapour in air slightly in excess of normal; wind normal, except on 18th and 19th, when abnormal wind was southerly. |
| Poona . . . . | . . . . . | *Rabi* crops good; *bajri* 45 and *jowari* 55 lbs. per rupee; in Poona *bajri* 41 and *jowari* 46 lbs. per rupee. |
| Ahmednagar . . . | . . . . . | *Rabi* crops generally good; *bajri* maximum 54 lbs. per rupee in Parner, minimum 48 lbs. in Akola; *jowari* maximum 72 lbs. per rupee in Parner, minimum 60 lbs. in Akola. |
| Sholapore . . . | . . . . . | Harvest of late crops commenced in some places; *jowari* 72 lbs. 28 tolas, and *bajri* 58 lbs. per rupee. |
| Dharwar . . . | . . . . . | Early crop harvest continues; cotton blighted in 8 and wheat in 6 talukas; other late crops good; cholera continues in Gadag, 4 out of 5 cases fatal; fever and ague in 3 talukas; cattle disease disappeared; rice minimum 26 and *jowari* 52 lbs. per rupee. |
| Kanara . . . | . . . . . | Sowing for second crop continues; sugarcane harvest on coast; garden produce healthy; fever in 2 talukas; small-pox 1 death in Sirsi; common rice in Karwar 13 seers per rupee, in district average 15¾ seers per rupee; weather fair. |
| Rajkot . . . . | . . . . . | Weather cold; general health good; cholera continues slightly in Navanagar and Morvi, it has also appeared in 3 villages of Poribandar; *bajri* 28 and *jowari* 35 lbs. per rupee. |
| | | *General Remarks.*—*Rabi* crops doing well; fever, small-pox, and cattle disease in several districts. |
| **Bengal—(Jan. 24th)** | | |
| Chittagong . . . | *Nil* | Weather fine and cold; state and prospects of crops good; harvesting of *amun* nearly finished; cholera and cattle-disease not yet ceased; several cases of small-pox reported. |
| Dacca . . . . | *Nil* | Harvesting of *amun* paddy nearly completed, yield average; winter crops doing well. |
| 24-Pergunnahs (Alipore) | *Nil* | Harvesting of late rice and sugarcane going on; outturn estimated at about from 12 to 14 annas; *rabi* crops doing well; price of common rice stationary; general health good, cholera disappearing. |
| Moorshedabad . . | *Nil* | Harvesting of *amun* still going on; outturn good where the crop has been cut; except a small area in thana Mirzapore, where cholera has broken out; public health generally good. |
| Rajshahye . . . | *Nil* | Weather cloudy, winter crops promising well; fever prevalent; cholera reported in Bagmaree thana. |
| Burdwan . . . | *Nil* | Harvesting of late rice over, average outturn about 8 annas; prospects of winter crops fair; fever prevalent; cholera lingers. |
| Rungpore . . . | *Nil* | Weather cloudy; prospects of crops favourable; cholera prevalent in some parts. |
| Bhagalpur . . . | *Nil* | Prospects of *rabi* crops good; rice harvest nearly completed, generally with a fair outturn; mustard and *kurti* being cut, former a full crop, latter rather poor. |
| Purneah . . . | *Nil* | Late rice harvested; rain would benefit *rabi* crops; public health good. |
| Patna . . . . | *Nil* | Prospects of *rabi* crops favourable; public health good. |
| Durbhunga . . . | *Nil* | Rice being thrashed; *rabi* crops promising; prices stationary; public health generally good; fever in south of district |
| Hazaribagh . . . | *Nil* | Weather cold and cloudy since 22nd; prospects of crops good; oilseeds and pulses being collected; sugarcane being pressed; general health good. |
| Cuttack . . . . | *Nil* | Reaping of late rice and *rabi* crops in progress; wheat and *dalua* rice progressing well; public health good. |
| | | *General Remarks.*—No rainfall reported from any part of the province during the week; there was a light shower in Calcutta last evening; weather generally reported to be colder than before; rice harvest almost entirely gathered in with fair outturn on an average, though it has not turned out as well in some places as was expected; harvesting and pressing of sugarcane becoming general; prospects of all cold-weather crops continue to be generally reported on very favourably; pulses and oilseeds are being gathered in some places; in Sarun mustard is said to have been much injured by blight; fever and cholera, though generally much abated, are still prevalent in some places; small-pox has appeared in a few districts. |
| **N.-W. Provinces and Oudh—** | | |
| Benares (Jan. 23rd) | No rain | Weather slightly cloudy; mustard damaged by insects; *rabi* prospects good; no sickness; prices stationary; if cloudy weather continues wheat crops will be attacked with rust. |
| Allahabad ( „ 24th) | A little rain during the week, but hardly measurable. | Crops flourishing, only a little injury to *sarson* (mustard crop); general health good, only a little small-pox of a mild type; prices stationary. |
| Gorakhpur ( „ 22nd) | . . . . | Weather bright; linseed very generally attacked by insects; staple *rabi* crops good; prices stationary. |
| Jhansi ( „ „ ) | Slight showers on the 21st. | Weather still cloudy; *rabi* prospects good; prices stationary; small-pox amongst children continues. |
| Agra ( „ 23rd) | ·30 in one pargana on 22nd instant. | Well irrigation continues; small pox in five parganas; general health good; prices almost stationary. |
| Bareilly ( „ „ ) | No rain | Weather cloudy; crops good, but rain wanted; everything else normal. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **N.-W. Provinces and Oudh** – *contd.* | | |
| Meerut (Jan. 23rd) | No rain | Rain wanted; health good; prices unchanged; supplies ample. |
| Kumaon ( „ „ ) | No rain. | No report of fatal deaths from typhus, about 8 persons died from fever, enquiry being made from what kind of fever, otherwise general health good; sky cloudy; crops on the point of being injured from want of rain; cattle disease continues; rise in prices during this week. |
| Lucknow ( „ „ ) | . . . . | Wind westerly; clouds about, but no rain; crops excellent where irrigated, poor on dry lands; prospects favourable; small-pox continues in the city. |
| Partabgarh ( „ „ ) | . . . . | Weather cloudy, but no rain; the cloudy weather may do harm to *rabi* crops; irrigation ceased; prices falling; general health good, but in two villages in Kunda tahsil slight cases of cholera. |
| Sitapur ( „ „ ) | No rain | Weather cloudy; general health good; prices on the whole stationary. |
| Fyzabad ( „ „ ) | No rain | Weather cloudy; prospects good; irrigation going on; health good; prices steady. |
| Rae Bareli ( „ 22nd) | . . . . | Cloudy weather during the last few days, but no rain; *rabi* crops except mustard looking well; no sickness among men and cattle reported; prices stationary. |
| Cawnpore ( „ 23rd) | No rain | Weather cloudy now and then; irrigation going on; prospects good; health good; prices slightly fallen. |
| Farukhabad ( „ „ ) | . . . . | Weather alternately cloudy and clear; state of crops fair, but rain greatly needed; small-pox reported as prevailing in Chibramau pargana. |
| | | *General Remarks*—Weather cloudy except in Gorakhpur; slight rain in Allahabad, Jhansi, Aligarh, and Agra; prospects good on the whole, but rain wanted especially in the up-country districts; mustard doing badly in several districts and linseed suffering from insects in Gorakhpur; general health good, but small-pox reported from Lucknow, Allahabad, Farukhabad, Agra, and Jhansi, and cholera in two villages of Partabgarh; prices on the whole stationary. |
| **Punjab—(Jan. 23rd)** | | |
| Delhi . . . . | . . . . | Health fair; small-pox in the city and district; harvest prospects good; prices almost stationary. |
| Hissar . . . . | . . . . | Rain much wanted for the *barani rabi* crops; small-pox in Rohtak decreasing; prices stationary. |
| Umballa . . . | . . . | Health good; *rabi* crops suffering from want of rain; prices of food grains stationary, of gram falling. |
| Jullundur . . . | . | Rain much wanted; health good; prices stationary. |
| Amritsar . . . | . . . . | Rain much wanted; health good; *rabi* harvest prospects fair; prices almost stationary. |
| Lahore . . . . | . . . . | Health and harvest prospects good; but rain much wanted; prices fluctuating. |
| Ferozepore . . . | . . . . | Health good; harvest prospects fair; but rain is much wanted; slight rise in prices. |
| Sialkot . . . . | . . . . | Rain wanted; health good; prices stationary. |
| Rawalpindi . . . | Slight rain in the district and 5 inches snow in Murree. | Seasonal fever in the Fatteh jang and Kahuta tehsils; cattle disease continues in the Murree tehsil; *rabi* harvest prospects good, but more rain is wanted; prices almost stationary. |
| Peshawar . . . | . . . . | Health good; rain much wanted for the *rabi* sowings; prices almost stationary. |
| Mooltan . . . . | . . . . | Health and harvest prospects good; but rain wanted; prices almost stationary. |
| Dera Ismail Khan . . | . . | Weather occasionally cloudy; health and harvest prospects fair but rain much wanted; prices steady. |
| | | *General Remarks.*—Rain is much wanted throughout the province health and harvest prospects are fair. |
| **Central Provinces—** | | |
| Nagpur (Jan. 24th) | . . . . | Weather cloudy; *rabi* prospects good; public health good; prices slightly risen. |
| Jubbulpore ( „ 23rd) | . . . | Weather cloudy; *rabi* crops in good condition; prospects favourable; health good; prices stationary. |
| Saugor ( „ 22nd) | . . . . | Weather cloudy and unfavourable to crops; slight damage caused by frost in places; health fair; prices steady. |
| Seoni ( „ 23rd) | ·20 | Weather cloudy; slight damage to *rabi* crops sown earlier, those sown later benefited; prices slightly risen. |
| Hoshangabad ( „ 23rd) | . . . | Weather cloudy and cool; prospects of crops good; an average outturn expected; fever prevalent; wheat 17 seers per rupee. |
| Raipur ( „ 20th) | . . . . | Weather slightly cloudy; threshing of *kharif* crops almost finished; *rabi* doing well; slight cattle disease; health good; prices stationary. |
| Sambalpur ( „ 18th) | . . | Weather clear; prospects of crops and health good; rice 56 seers per rupee. |
| Khandwa ( „ 23rd) | . . . . | Occasional clouds with slight rain; *rabi* prospects good; small-pox reported; wheat 16 seers per rupee. |
| | | *General Remarks.*—Weather cloudy and cool; threshing of *kharif* crops approaching completion; prospects of *rabi* crops favourable; public health good; prices stationary. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **British Burma—(Jan. 20th)** | | |
| Akyab | . . . . | Eight deaths from cholera in two townships, otherwise public health good; cattle disease slight; reaping nearly over. |
| Rangoon | . . . . | Three deaths from cholera, otherwise public health good; crops reaped. |
| Bassein | . . . . | Two deaths from cholera in town and 5 in district; otherwise public health good; slight cattle disease in one township; reaping finished in a few places. |
| Prome | . . . . | Public health good; reaping finished. |
| Amherst (Moulmein) | . . . . | Public health and health of cattle in Moulmein and district good; reaping almost finished. |
| Toungoo | . . . . | Public health good. |
| | | *General Remarks.*—With the exception of some cholera, public health good; harvest nearly over. |
| **Assam—** | | |
| Gauhati (Jan. 23rd) | *Nil* | Weather seasonable; public health good; reaping of *sali* paddy over, crop an average one; lands being broken up for *aus*. |
| Sylhet . ( „ 24th) | *Nil* | Paddy harvest outturn below the average of last three years; cholera still prevalent; prospects of winter crops good. |
| Cachar . ( „ „ ) | *Nil* | Weather cold; outturn of *sali* and *asra* crops little less than that of last year; common rice $21\frac{5}{16}$ seers per rupee; 5 deaths from cholera reported from Katigara. |
| Dibrugarh ( „ „ ) | 0·31 | Weather rainy and cold; mustard promises well; cholera reported from the Sadr sub-division. |
| **Mysore and Coorg—(Jan. 24th)** | | |
| Bangaloro | . . . | Crops in good condition; prospects favourable. |
| Mysore | . . . . | Crops in good condition; prospects favourable. |
| Mercara | . . . . | Picking of coffee nearly completed, reaping of rice crops still continues; fever prevalent in Nanjarajapatna taluk; slight fall in price of food grains during the week. |
| | | *General Remarks.*—The crops in the province are in good condition; *kartik* paddy, horse-gram, *sassamum*, *avare*, etc, are being harvested; *vysakh* paddy was sown in some places; prospects fair; slight fall in prices; *ragi* at Bangalore 34 seers per rupee, at Mysore 28 seers, at Shimoga 28 to 60 seers, and at Chitaldroog 40 to 60 seers per rupee; public health good. |

| Ulwur ( „ 24th) | . . . . | Rain wanted; health good. |

E. C. BUCK,
*Secretary to the Government of India*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

### ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Friday, the 26th January, 1883.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble T. C. Hope, C.S.I. C.I.E.
The Hon'ble Mahárájá Sir Jotíndra Mohan Tagore Bahádur, K.C.S.I.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble Rájá Siva Prasád, C.S.I.
The Hon'ble Sayyad Ahmad Khán Bahádur, C.S.I.
The Hon'ble Durgá Charan Láhá.
The Hon'ble H. J. Reynolds.
The Hon'ble H. S. Thomas.
The Hon'ble R. Miller.

### INDIAN RAILWAY ACT, 1879, AMENDMENT BILL.

The Hon'ble MR. ILBERT presented the Report of the Select Committee on the Bill to amend the Indian Railway Act, 1879.

### ELEPHANTS PRESERVATION ACT, 1879, AMENDMENT BILL.

The Hon'ble MR. GIBBS moved that the Bill to amend the Elephants Preservation Act, 1879, be taken into consideration.

The Motion was put and agreed to.

The Hon'ble MR. GIBBS also moved that, for the enacting clause of the Bill, the following be substituted, namely :—

"For section 4 of the said Act the following shall be substituted, namely :—

"'4. Every wild elephant captured, and the tusks of every wild elephant killed, by any person not licensed under this Act, shall be the property of Government.'"

Rights of Government with respect to certain elephants and tusks.

He said that, as the Bill was originally drafted, there was some doubt attaching to the enacting clause, and it was thought better to make the section perfectly clear. In consequence, the clause which he now moved to introduce was proposed to be substituted for the enacting clause of the Bill.

The Motion was put and agreed to.

The Hon'ble MR. GIBBS also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

The Council adjourned to Friday, the 2nd February, 1883.

HENRY F. BLANFORD,
*Meteorological Reporter to Government of India.*

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

**Terms of subscription, payable annually in advance.**

| | Without Postage. | With Postage. |
|---|---|---|
| For the CALCUTTA SERIES | R35 | R37-8 |
| ,, MADRAS SERIES | ,, 8 | ,, 9 |
| ,, BOMBAY SERIES | ,, 8 | ,, 9 |
| ,, ALLAHABAD SERIES | ,, 8 | ,, 9 |
| Complete set | ,,45 | ,,47-8 |

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

| | |
|---|---|
| For a Part of the CALCUTTA SERIES | R3 8 |
| ,, ,, MADRAS SERIES | ,, 1 0 |
| ,, ,, BOMBAY SERIES | ,, 1 0 |
| ,, ,, ALLAHABAD SERIES | ,, 1 0 |
| Complete set | ,, 4 0 |

Persons desiring to subscribe for or purchase the Reports, should apply to—
MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

*Orders and Subscriptions for 1878 should be at once remitted.*

## THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at R175 a set.

## List of Books for sale at the Library of the Asiatic Society of Bengal,

No. 57, PARK STREET, CALCUTTA,

AND OBTAINABLE FROM THE SOCIETY'S LONDON AGENTS, MESSRS. TRÜBNER & CO., 57 AND 59, LUDGATE HILL, LONDON, E. C.

" Consulting Engineer to Government of India for Guaranteed Railways, No. 3303, dated 15th September, 1882 [Paper No. 17].

2. Since the Bill was circulated, several valuable suggestions have been made to us as to points in which the Indian Railway Act, IV of 1879, might be amended. We think, however, that, as the extension of Railways in this country will probably necessitate before long a general revision of that Act and the preparation of a Bill calculated to meet the growing wants of the country, it is expedient to confine ourselves to the matters with which the Bill before us is concerned, and to leave suggestions on other points to be considered when the whole of the law relating to Indian Railways is dealt with.

3. With this view we have made only such amendments in the Bill as we deemed necessary or desirable in order the better to give effect to the present intentions of the legislature. These amendments are briefly as follows:—

(1) In section 5 A (present numbering) we have enabled the Governor General in Council to appoint officers either by name or by virtue of their office to be inspecting officers under the Act.

We have drawn section 5B so as to render it unnecessary for the Governor General in Council specially to appoint an officer to inspect any particular Railway, and as it may, in some cases, be desirable that sanction should be obtained at once to the opening of a Railway, and that the inspecting officer's report should be communicated by telegraph, we have omitted the provision requiring that officer's report to be in writing.

(2) In sub-section (2) of the same section we have given the Governor General in Council power to confer, in any particular case or class of cases, on the inspecting officer the power to sanction the opening of a Railway or portion of a Railway. As the Bill was drafted, this power had

to be conferred in each particular case, and we considered that it would be more convenient to enable a general power to be conferred on the inspecting officer for dealing with any particular class of cases, such as minor additions to, or extensions of, a Railway.

(3) In sub-section (3) we have reserved to the Governor General in Council a power to review any sanction given by an inspecting officer, and to cancel or modify it.

(4) To meet a case when it is desirable to sanction the opening of a line subject to conditions which are to be complied with by a Railway Administration, we have, in sub-section (4), expressly declared that the sanction may be absolute or subject to conditions. We have accordingly provided in sub-section (5) that, when a conditional sanction is granted for the opening of a Railway and the conditions are not complied with, the sanction shall at once be deemed to be void, and that the Railway shall not be used until sanction is again obtained.

(5) To provide for the case where, after sanction has been given for the opening of a Railway, an alteration is made in it by the Administration, we have in section 5C (present numbering) prohibited the use of any portion of a Railway, so altered as to interfere with the safety of passengers, until formal sanction has been obtained for the opening of the portion for the public conveyance of passengers.

(6) In section 5D (present numbering) we have conferred upon officers appointed to inspect Railways the additional power of inspecting the rolling-stock used on a Railway, and have amended sections 5C (now 5E), 5D (now 5F) and the penal provisions contained in section 4 of the Bill accordingly.

4. We have made a few minor alterations in the Bill which do not call for special notice.

5. The Bill has been published, and we recommend that it should be passed as now amended; but first we consider, having regard to the amendments we have made, that it should be republished in the *Gazette of India*.

## No. II.

*A Bill to amend the Indian Railway Act, 1879.*

WHEREAS it is expedient to amend the Indian Railway Act, 1879, in manner hereinafter appearing; (IV of 1879.)

Preamble.

It is hereby enacted as follows:

1. This Act may be called the Indian Railway Act, 1882; and it shall come into force at once.

Short title. Commencement.

2. For section five of the said Act the following sections shall be substituted, namely:—

New sections substituted for section 5 of Act IV of 1879.

"5. A Railway, or portion or extension of, or addition to, a Railway, shall not be opened for the public conveyance of passengers until the Railway Administration has given to the Governor General in Council notice in writing of the intention of opening the same, and until the Governor General in Council has by order sanctioned the opening of the same.

Railway when to be opened.

"5A. The Governor General in Council may from time to time appoint, by name or by virtue of their office, officers to be Inspecting-officers under this Act.

Governor General in Council may appoint Inspecting-officers.

"5B. (1) The sanction referred to in section five shall not be given until an officer appointed under section 5A has, after inspection of the Railway, portion, extension or addition, as the case may be, reported to the Governor General in Council that in his opinion the opening of the same would not be attended with danger to the public using it.

Sanction not to be given until after report by Inspecting-officer.

"(2) Notwithstanding anything hereinbefore contained, the Governor General in Council may, in any particular case or in any particular class of cases, by special order, confer on any officer appointed under section 5A power to sanction the opening of a Railway, portion, extension or addition, if in the officer's opinion the opening of the same will not be attended with danger to the public using it.

"(3) In such case it shall not be necessary to make the report required by sub-section (1); but the Governor General in Council may by order cancel the sanction given under sub-section (2), or direct that the sanction shall be subject to such conditions as he thinks fit.

"(4) The sanction given under this section may be either absolute or subject to such conditions as the Governor General in Council, or the officer appointed under section 5A, as the case may be, thinks necessary for the safety of the public.

"(5) When sanction for the opening of any Railway, or portion or extension of, or addition to, any Railway is given subject to conditions and the Railway Administration fails or neglects to fulfil, or comply with, those conditions, the sanction shall on the failure or neglect forthwith be deemed to be void, and the Railway, or portion, or extension, or addition, as the case may be, shall not be used unless and until sanction is again obtained under this section for the opening thereof.

"5C. If, after a Railway has been opened as hereinbefore provided, any portion of it is so altered by the Railway Administration as to cause danger to, or affect the safety of, passengers carried thereon, the portion so altered shall not be used for the public conveyance of passengers, unless and until sanction is obtained, in accordance with the provisions of section 5B, for the opening of it.

When alterations affecting safety of passengers are made in Railway, sanction to be again obtained for opening.

[34 & 35 Vic., c. 78, s. 4.]

"5D. (1) Every officer appointed under section 5A shall, for the purpose of the inspection, be deemed to be a public servant within the meaning of the Indian Penal Code, and shall, subject to the control of the Governor General in Council, have the following powers, namely:—

Powers of Inspector of Railways.

"(*a*) he may enter on and inspect any Railway or portion thereof which has been opened for the public conveyance of passengers, or any rolling-stock used thereon;

"(*b*) he may by an order in writing under his hand require the attendance of any Railway-servant whom he thinks fit to call before him and examine for the said purpose, and may require any such servant to answer, or furnish returns regarding, such inquiries for the said purpose as he thinks fit to make;

"(*c*) he may require and enforce the production of all books, papers and documents belonging to or in the possession of any Railway Administration which in his opinion are necessary for the said purpose.

"(*2*) Every Railway Administration whose Railway or rolling-stock is being inspected under this Act shall afford all reasonable facilities for making the inspection to the officer making it.

"5E. When, after inspecting any Railway or portion of a Railway, or any rolling-stock used thereon, any officer appointed under section 5A reports to the Governor General in Council that in his opinion the use of the Railway or portion or of any specified rolling-stock will be attended with danger to the public using it, the Governor General in Council may, by order, direct that the Railway or portion be closed for the public conveyance of passengers, or that the rolling-stock so specified shall no longer be used, as the case may be.

Governor General in Council empowered to close Railway.

"5F. (*1*) When a Railway or portion of a Railway has been closed under section 5E, it shall not be re-opened for the public conveyance of passengers unless and until it has been inspected, and its opening sanctioned, in accordance with the provisions of section 5B.

Re-opening of Railway.

"(*2*) When the Governor General in Council has directed under section 5E that any rolling-stock shall not be used, the rolling-stock shall not be used unless and until an officer appointed under section 5A reports that it is fit for use and the Governor General in Council sanctions its use."

3. In section eight of the said Act, in clause (*d*), the word "and" shall be omitted, and after clause (*d*) the following clause shall be, and be deemed to have always been, inserted:—

Amendment of, and addition to, section 8.

"(*dd*) for regulating the conduct of the Railway-servants, and".

4. For section twenty-one of the said Act the following section shall be substituted:—

New section to be substituted for section 21 of Act IV of 1879.

"21. Any Railway Administration opening or using, in contravention of section five or section 5C, any Railway, or any portion or extension of, or addition to, a Railway, or keeping, in contravention of an order of the Governor General in Council, under section 5E, any Railway or portion thereof open, or re-opening, in contravention of section 5F, sub-section (*1*), any Railway or portion thereof, or using, in contravention of section 5F, sub-section (*2*), any rolling-stock, shall forfeit to Government the sum of one thousand rupees for every day during which the Railway, portion, extension or addition remains open or is used in contravention of any of those sections or of the order of the Governor General in Council, as the case may be, or during which the rolling-stock is used."

Penalty for opening or re-opening Railway in contravention of sections 5 and 5D, and keeping open after order under section 5C.

R. J. CROSTHWAITE,

*Addl. Secy. to the Govt. of India.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 2nd February, 1883 :—

## No. 3 OF 1883.

*A Bill to authorize the Universities of Calcutta, Madras and Bombay to grant certain honorary degrees.*

Preamble.

WHEREAS it is expedient to amend the law relating to the granting of honorary degrees, and to give to the Universities at Calcutta, Madras and Bombay the power of granting the degree of Doctor of Laws to persons who have not undergone a previous examination;

It is hereby enacted as follows :—

Repeal of Act XXI of 1875.

1. Act No. XXI of 1875 (*an Act to authorize the University at Calcutta to grant honorary degrees*) is repealed.

Power to confer honorary degree of Doctor of Laws.

2. If the Vice-Chancellor and not less than four of the other members of the Syndicate for the time being of any of the Universities at Calcutta, Madras and Bombay recommend that an honorary degree be conferred on any person, on the ground that he is, in their opinion, by reason of eminent position and attainments, a fit and proper person to receive such a degree, and if the Chancellor of the respective University confirms the recommendation, the Chancellor, Vice-Chancellor and Fellows for the time being of the University may confer on that person the degree of Doctor of Laws, without requiring him to undergo any examination.

## STATEMENT OF OBJECTS AND REASONS.

By Acts II, XXII and XXVII of 1857, by which the Universities of Calcutta, Bombay and Madras were respectively established and incorporated, power is given to grant degrees only after examination, and Act XLVII of 1860 only extends the number and description of degrees which can be conferred, but leaves the necessity of a previous examination untouched. No Act giving power to grant honorary degrees was passed until 1875, when an Act was passed to enable the Calcutta University to confer honorary degrees. That Act enables the University to grant any honorary degree, but it is thought desirable to confine the power to the grant of the degree of Doctor of Laws, in accordance with the ordinary practice of the Universities in England. Madras and Bombay have never had power to grant honorary degrees. It is now proposed to place the Universities at all the three Presidency-towns on the same footing with regard to these degrees.

2. With this view section 1 of the proposed Bill repeals Act XXI of 1875. By the Act establishing the Universities, the power to confer degrees is granted to the Chancellor, Vice-Chancellor and Fellows, in whom, therefore, the power to grant honorary degrees is also vested by section 2 of the Bill. An honorary degree is not, however, to be granted to any person unless the Vice-Chancellor and not less than four of the other members of the Syndicate recommend the grant and the Chancellor confirms the recommendation.

GOVERNMENT OF INDIA.

### REVENUE AND AGRICULTURAL DEPARTMENT.

### REGARDING SUGAR IMPORTED FROM MAURITIUS INTO THE BOMBAY PRESIDENCY AND ITS COMPETITION WITH INDIAN SUGARS.

*Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department,—Circular No. 3 A., dated Calcutta, the 23rd January 1883.*

**AGRICULTURE.**

Read the following letters:—

Letter to the Government of Bombay, No. 615A., dated the 26th June 1882.
" Chief Commissioner, Central Provinces, No. 614A., dated the 26th June 1882.
Letter to the Secretary, Bombay Chamber of Commerce, No. 1002A., dated 23rd October 1882.

Read also replies thereto:—

Letter from the Chief Commissioner, Central Provinces, No. 2646—134, dated 19th July 1882.
Letter from the Government of Bombay, No. 6378, dated 15th September 1882.
" Secretary, Bombay Chamber of Commerce, dated 16th November 1882.

### RESOLUTION.

IN Resolution No. 505, of 30th May 1882,* on the sugar industry in India, the Government of India noticed the extent to which the Bombay Presidency is still supplied with sugar from Mauritius, despite the increasing production of Northern India and Bengal. In separate communications addressed to the Government of Bombay, to the Chief Commissioner of the Central Provinces, and to the Bombay Chamber of Commerce, the Government of India enquired what classes of sugar are mainly imported from Mauritius, whether they compete with the Indian article or are put to special uses, and to what extent the cost of Railway carriage prevents the sugar-producer of Northern India from successfully competing with the importer by sea.

* Published in the Supplement to the *Gazette of India*, dated 10th June 1882.

2. The replies of the Governments consulted, as also that of the Bombay Chamber of Commerce, have now been received, and are published for information. They show that the imports of sugar into the Presidency fall broadly into two classes: (1) refined sugars, and (2) *gur*, a compost of sugar and molasses. The first class is almost exclusively supplied by Mauritius; the second mainly by sea-board from Madras. Such *gur* as comes from Northern India competes less with the refined sugars of Mauritius than with the shipments of *gur* from Madras. The imports from Mauritius meet a distinct demand for crystallised sugars, which at present Indian manufacturers make very little attempt to supply, and therefore a reduction of railway freight, although it might enable the *gur* imported by rail to compete on more favourable terms with that coming from Madras, would not divert the trade in refined sugars from Mauritius to Northern India. Meanwhile, the demand for *gur* throughout India fully equals, it is believed, the supply, and this is probably one of the causes which retards the development of sugar refining in the Bombay Presidency and elsewhere. The area under sugarcane in the Bombay Presidency and in the Central Provinces is, however, increasing, and the time may, it is trusted, be confidently anticipated when the indigenous article will displace to a great extent the refined sugars of various qualities at present imported by sea from Mauritius and China.

---

ORDER.—Ordered that the above Resolution and the papers read in the preamble be published in the Supplement to the *Gazette of India*, and be forwarded to the Local Governments and administrations noted in the margin, for information, in continuation of the Circular from this Department, Nos. 20A—430-440, dated the 16th May 1882.

No. 614, dated Simla, the 26th June 1882.

From—T. W. HOLDERNESS, Esq., Offg. Under-Secy. to the Govt. of India,

To—The Chief Commissioner of the Central Provinces.

WITH reference to the return of sugar production in the Central Provinces furnished with your Secretary's letter No. $\frac{2824}{144}$, dated the 7th July 1879, and to paragraph 10 of the Government of India's despatch, forwarded by my endorsement No. $\frac{20A}{430-440}$, dated 16th ultimo, I am directed to invite attention to the fact that in the North-Western Provinces the average selling price of coarse sugar or *gur* is about R 5-8-0 per cwt., and to request that very early information may be given as to the selling price of *gur* imported into the Central Provinces from Northern India. The price of *gur* manufactured from sugar grown in the Central Provinces appears from the returns lately furnished by you to be considerably higher than the average market prices in the North-Western Provinces and Oudh. The object of this inquiry is, I am to explain, to ascertain to what extent the cost of railway carriage enters into the price of sugar in different parts of India.

---

No. 615, dated Simla, the 26th June 1882.

From—T. W. HOLDERNESS, Esq., Offg. Under-Secy. to the Govt. of India,

To—The Secretary to the Government of Bombay.

WITH reference to the return of sugar cultivation in the Bombay Presidency, furnished under your letter No. 1033I. of the 10th December last, and to paragraph 10 of the despatch to the Secretary of State, forwarded under my endorsement No. $\frac{20A}{430-440}$, of the 16th ultimo, I am directed to request that you will be good enough, with the permission of His Excellency the Governor in Council, to furnish this Department with very early information on the following points.

2. It is observed that the price of sugar in the Bombay Presidency is variously stated for the several districts from ₹ 7 to ₹ 17 a cwt. I am to ask whether these figures represent in all cases the price of *coarse* or undrained sugar. In the North-Western Provinces the ordinary selling price of this description of sugar, locally known as *gur*, is about ₹ 5-8 the cwt., and I am to enquire whether any information is available as to the selling price of *gur* imported into the Bombay Presidency from Northern India. I am to explain that the object of this enquiry is to ascertain to what extent the cost of railway carriage enters into the price of sugar in different parts of India.

3. I am at the same time to ask for any information available as to the quantity of sugar imported into Bombay from Mauritius, the quality of the imports, the average market price, and the classes of consumers. The Government of India would also like to know whether the Mauritius sugar competes with Indian grown sugars in the native markets of the Bombay Presidency, or whether it is mainly put to any special purpose for which Indian sugars are not adapted.

---

No. 1002, dated Simla, the 23rd October 1882.

From—F. L. PETRE, Esq., Offg. Under-Secy. to the Govt. of India,
To—The Secretary, Bombay Chamber of Commerce.

THE Government of India is anxious to ascertain how far the cost of carriage by rail enters into the price of the various sugars which are exported from the North-Western Provinces and Oudh to Bombay, as compared with the freight on competing sugars, of a nearly similar quality, imported into Bombay from Mauritius or China. It has been ascertained that the chief exports of raw sugar from the North-Western Provinces to Bombay are made from the Benares block of the railway, and the Government of India wishes to be able to compare the cost of carriage of the sugar so imported with the cost of freight for similar sugar imported from China or the Mauritius. I should be greatly obliged for any information you may be able to give me on this point, and information based on actual transactions would be specially valuable.

2. I should also be thankful for any information you may be able to give me as to the ruling prices in Bombay of the sugars imported from the North-Western Provinces and of those imported from Mauritius or China, which come most nearly into competition with the North-Western Provinces products.

---

No. 2646—134, dated Nagpur, the 19th July 1882.

From—C. W. IMBRIE, Esq., Offg. Asst. Secy. to the Chief Commr., Central Provinces,
To—The Secretary to the Government of India.

WITH reference to your letter No. 614A., dated 26th ultimo, inquiring as to the selling price of *gur* imported from Northern India, I am directed to submit a list of the prices at which *gur* is selling in the Central Provinces according to the latest information available.

These are as under:—

| | Per maund. | | Per cwt. | | |
|---|---|---|---|---|---|
| | ₹ | a. | ₹ | a. | p. |
| Saugor | 5 | 10 | 7 | 11 | 0 |
| Jubbulpore | 5 | 0 | 6 | 13 | 3 |
| Seoni | 6 | 3 | 8 | 7 | 3 |
| Betul | 6 | 0 | 8 | 3 | 0 |
| Chhindwara | 5 | 0 | 6 | 13 | 3 |
| Narsingpur | 5 | 0 | 6 | 13 | 3 |
| Hoshangabad | 6 | 0 | 8 | 3 | 0 |
| Nimar | 7 | 8 | 10 | 4 | 0 |

It will be noticed that the price increases with the distance from the North-Western Provinces by rail; and from the large importations of *gur* by the East Indian Railway, it would appear that the above prices may be taken as those at which the imported *gur* finds a sale.

No. 6378, dated Bombay Castle, the 15th September 1882.

From—J. MONTEATH, Esq., Actg. Under-Secy. to the Govt. of Bombay, Revenue Dept.,
To—The Secretary to the Government of India.

WITH reference to Mr. Officiating Under-Secretary Holderness' letter No. 615A., dated 26th June last, requesting to be furnished with early information on certain points relative to the selling price of sugar in the Bombay Presidency, &c., I am directed to forward, for submission to the Government of India, the accompanying copy of a report* by the Commissioner of Customs, Opium and Abkari, which contains the information required by the Supreme Government.

* No. 5419, dated 30th August 1882.

---

No. 5419, dated Poona, the 30th August 1882.

Report by—C. B. PRITCHARD, Esq., Commr. of Customs, Opium and Abkari, Bombay.

WITH reference to the foregoing,* the undersigned has the honour to state that when the price of sugar is quoted for various ports of the Bombay Presidency at rates ranging from R7 to R17 per cwt., some of the quotations must be for coarse undrained sugar (*gur*), others for refined sugar, and others again must be averages struck from the prices of refined and unrefined sugar. R7 is somewhat below the present average price of *gur* in the city of Bombay, while R17 fairly represents the price of refined sugar.

2. *Gur* was formerly sent in large quantities from Northern India to Bombay for Guzerat, but since the opening of the Rajputana Railway it has been sent direct, and very little if any now comes to the city of Bombay; when it used to be brought by this route, its price in Bombay ranged from R6 to R10 per cwt. *Gur* is largely imported into the city of Bombay from the Madras Presidency, from coast ports in this Presidency south of Bombay, and by land from Kolhapur. The present price of this *gur* may be quoted from R6½ to R10 per cent., but as will be seen from the following table the average declared value in the years 1879-82 was over R9 per cwt.

3. Imports of *gur* from coast ports, including Madras Presidency—

| YEAR. | Quantity. | Declared Value. |
|---|---|---|
| | Cwt. | R |
| 1879-80 | 187,238 | 17,68,021 |
| 1880-81 | 194,739 | 18,90,484 |
| 1881-82 | 185,848 | 17,43,946 |

4. The imports of Mauritius and China sugar in the same period were as follows:—

| | | 1879-80. | 1880-81. | 1881-82. |
|---|---|---|---|---|
| | *Mauritius.* | | | |
| Sugar, refined | Cwts. | 504,553 | 742,892 | 602,967 |
| | R | 82,03,073 | 1,19,34,726 | 95,41,495 |
| „ unrefined | Cwts. | 1,293 | 2,229 | 1,218 |
| | R | 4,768 | 8,921 | 4,601 |
| | *China.* | | | |
| Sugarcandy | Cwts. | 24,488 | 27,911 | 26,507 |
| | R | 5,85,999 | 6,50,528 | 5,72,821 |
| Sugar, soft, refined | Cwts. | 52,849 | 112,882 | 89,465 |
| | R | 8,74,990 | 18,75,432 | 14,72,318 |

* *Sic* in orig.

5. In addition to the above there have been importations of refined sugar to the following extent:—

| | | 1879-80. | 1880-81. | 1881-82. |
|---|---|---|---|---|
| From Calcutta | Cwts. | 98,075 | 27,387 | 30,265 |
| | ₹ | 14,93,788 | 4,48,087 | 4,86,490 |
| From Coast Ports | Cwts. | 17,460 | 3,811 | 16,425 |
| | ₹ | 1,48,310 | 63,389 | 2,43,426 |

6. Of the imports from Mauritius only, a very small portion is *gur*. This is inferior in quality to Indian *gur*, its present selling price ranging from ₹3-2 to ₹3-12 per cwt. Four qualities of refined Mauritius sugar are recognized in the Bombay market. Prices during 1881-82 may be quoted at from ₹18-8 for the first to ₹14-4 for the fourth quality; at present the prices are from ₹16-12 to ₹13 per cwt.

7. The prices of China refined sugar (soft) in 1881-82 may be quoted at from ₹15 to ₹17-10 per cwt., present prices ranging from ₹14-8 to ₹17. The price of China sugarcandy was from ₹20 to ₹25 per cwt. in the year 1881-82, present prices ranging from ₹20 to ₹22 per cwt.

8. It is not practicable to separate the re-exports of Mauritius sugar from Bombay from the aggregate re-exports of sugar of all kinds. The total re-exports are stated below:—

*Re-exports to Foreign Countries, chiefly Persia, Turkey in Asia, Arabia, Zanzibar, Mozambique, Ceylon and Aden.*

| | | 1879-80. | 1880-81. | 1881-82. |
|---|---|---|---|---|
| Sugar, refined | Cwts. | 48,296 | 109,443 | 69,843 |
| | ₹ | 8,26,849 | 19,37,816 | 12,37,024 |
| ,, unrefined | Cwts. | 155 | . . . . | . . . . |
| | ₹ | 1,575 | . . . . | . . . . |

*Re-exports to Coast Ports, chiefly to Karachi and the Cutch and Kattywar Ports.*

| | | 1879-80. | 1880-81. | 1881-82. |
|---|---|---|---|---|
| Sugar, refined | Cwts. | 207,971 | 293,542 | 234,004 |
| | ₹ | 34,49,117 | 49,99,854 | 39,67,512 |
| ,, unrefined | Cwts. | 933 | 1,094 | 345 |
| | ₹ | 10,943 | 4,135 | 4,082 |

9. The Hindus formerly had a prejudice against Mauritius refined sugar on account of the use of blood in the refining process, but this prejudice has been overcome or forgotten, and Mauritius sugar is now used by all sections of the community. Mauritius sugar cannot be said to be used for any special purposes to the exclusion of Indian sugar, but it is preferred for the purpose of making sweetmeats, being found when boiled down to be more free from foreign substances than Indian sugar.

Dated Bombay, the 16th November 1882.

From—D. WATSON, Esq., Acting Secretary to the Bombay Chamber of Commerce,

To—The Officiating Under-Secretary to the Government of India.

I HAVE the honour to acknowledge the receipt of your letter No. $\frac{1007 A.}{12-21}$ of 23rd ultimo, asking particulars of the cost of freight on sugar from Mauritius

and China to this port, as compared with the rates charged by the railways for the carriage of Indian sugar from the North-Western Provinces to Bombay.

In reply, I am requested by the Committee of the Chamber to say that sea-freights are of course liable to considerable fluctuation, but that the average cost of carrying one bag of sugar, weighing 1 cwt. 2 qrs. from Mauritius to Bombay, may be taken at 10 annas, while from China to Bombay it may be taken at ₹ 1-9. The average fluctuations are, we believe, from 8 to 12 annas from Mauritius, and ₹ 1-6 to ₹ 1-12 from China, while in both cases I give you the medium rate. The present charges by railway for the same weight of bag from the several stations on the other side of India are, I understand, as follows:—

| By rail from | ₹ | a. | p. |
|---|---|---|---|
| Benares to Bombay | 3 | 2 | 8 |
| Allahabad to Bombay | 2 | 13 | 6 |
| Mirzapore „ | 3 | 0 | 2 |
| Delhi „ | 4 | 3 | 0 |
| Lucknow „ | 3 | 6 | 2 |

The prices at present ruling here for the different sorts of sugar are as follows:—

*Bengal.*

| | | | | |
|---|---|---|---|---|
| Casi | No. 1 | ₹ 24 | per | 168 lbs. |
| „ | „ 2 | „ 22—23 | „ | „ |
| „ | „ 3 | „ 20—21 | „ | „ |
| „ | „ 4 | „ 18-8 to 19-4 | „ | „ |
| Domo | | „ 15—18 | „ | „ |
| Khujooria | „ „ | „ 17—18 | „ | „ |

Cossipore refined crystals ₹17 per cwt.

*Mauritius.*

| | | | | | |
|---|---|---|---|---|---|
| Small white dry crystals, | Nos. 1 to 3, | ₹ 16-12 | to 15-12 | per | 112 lbs. |
| Large „ | „ | „ „ 17 | to 15-8 | „ | „ |
| Soft white | „ | „ „ 15 | to 13-8 | „ | „ |

*China.*

| | | | |
|---|---|---|---|
| No. 1 | ₹ 5-8 to 5-10 | per | 28 lbs. |
| „ 2 | „ 4-8 to 5 | „ | „ |

The Committee are informed that the chief advantage which the Mauritius sugars have over the Indian sugars is that they are much more highly crystallised, which makes them more suitable for native confectionery of all kinds. In preparing sweetmeats the sugar has to be washed, and in this process, in its present form, the Indian sugar wastes about 5 per cent. more than the Mauritius. China sugar is not highly crystallised, but it is whiter and sweeter than the Indian sugar, and consequently commands a comparatively higher price.

The Committee are informed that the Cossipore Sugar Factory at Calcutta is the only factory on the Mauritius system whose produce is known in this market. It is of a highly crystallized character, but being manufactured from inferior dates and not from the usual canes, it is said to be deficient in sweetness or saccharine matter, consequently it does not command as good a price as the Mauritius sorts. The quantity, however, of this description of Cossipore sugar sent here is very insignificant.

ALEXANDER IZAT,
*Offg. Under Secretary.*

FORT WILLIAM,
*1st February 1883.*

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 30th JANUARY 1883.

GENERAL REMARKS.—During the week under report there has been abundant rain in the North-Western Provinces and Oudh and a good deal has also fallen in the Punjab, where it was badly wanted. Rain in varying quantities has also fallen in most parts of the Bombay and Bengal Presidencies, in the Central Provinces, Assam, Rajputana, and in the Central India States. In the Madras Presidency it has fallen in three districts only. In British Burma, Mysore and Coorg, and the Nizam's territories there has been no rainfall to report.

With the more or less general rain which has fallen during the past week, agricultural prospects have improved everywhere.

In Bengal the rice harvest still continues in some places, and in British Burma and Coorg it has closed. The coffee crop in Coorg has turned out much below estimate, and the prices have fallen heavily in the home market.

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Jan. 31st)** | | |
| Bellary | ·07 (average of one station.) | Standing crops generally good; harvest paddy, dry grains, tobacco, and sugarcane, outturn average; cholera in one taluk. |
| Kurnool | | Standing crops in good condition; harvest dry grains, yield below average; cattle disease in parts. |
| Ganjam | ·33 (average of three stations.) | Standing crops dry grain, cotton, and sugarcane thriving; harvest paddy and red grain, outturn average; fever and small-pox and cattle disease continue. |
| Kistna | | Standing dry crops affected by grubs and blight in parts, elsewhere promising; harvest paddy and dry grains, yield below average; small-pox prevalent; fever more general; cattle disease abating; water 1 foot over anicut. |
| Chingleput (Madras) | | Standing crops in good condition; harvest paddy, outturn below average; small-pox and cattle disease in parts. |
| Coimbatore | | Standing crops in good condition; harvest paddy and dry grains, outturn average; fever, cholera, and cattle disease in parts. |
| Tanjore | | Standing crops good; harvest paddy and *ragi*, yield below average; cholera increasing and severe. |
| Madura | | Standing crops withering in parts; harvest paddy and dry crops; cholera in parts. |
| Malabar | ·15 (average of one station.) | Harvest second crop paddy progressing, outturn fair; fever and cholera in parts; small-pox slight. |
| Travancore | | Harvest progressing; fever and small-pox continue. |
| | | *General Remarks.*—No rain, except in Ganjam, Bellary, and Malabar; general prospects good. |
| **Bombay—(Jan. 31st).** | | |
| Kurrachee | Slight showers of rain at Kurrachee, Sehwan, and Manjhand. | Weather colder; river very low on 28th, 2 feet 8 inches, being 1 foot less than on corresponding date last year; 8 fresh cases of small-pox in Karachi during week, 3 deaths, total to 24th 57 cases, 17 deaths, remaining sick 24, 5 cases in Sehwan; cattle disease in 5 talukas; wheat, red rice, and *bajri* in Karachi 24, 32, and 33 lbs., in Dadu 32, *nil*, and 48 lbs., in Sakro 16, 34, and 46 lbs., and in Jati 20, 36, and 40 lbs. per rupee, respectively. |

T. W. HOLDERNESS,
*Offg. Under-Secretary to the Govt. of India.*

## FOREIGN DEPARTMENT.

### NOTIFICATIONS.—JUDICIAL.

*Fort William, the 5th February, 1883.*

**No. 292 I.**—Whereas the Governor-General in Council has and exercises full jurisdiction within those portions of the land forming the Bangalore Branch of the Madras Railway (including the land occupied as stations, out-buildings, and for other purposes connected with the Railway), which lie within the territories of His Highness the Maharaja of Mysore: In exercise of this jurisdiction, and of the powers conferred by Sections 4 and 5 of Act XXI of 1879 (the Foreign Jurisdiction and Extradition Act, 1879), and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to issue the following Notification:—

1. All laws for the time being in force in the Civil and Military Station of Bangalore shall be deemed to be in force in the aforesaid land.

2. All Courts having for the time being jurisdiction within the Civil and Military Station of Bangalore, shall exercise the same jurisdiction within the aforesaid land.

3. The administration of the Police within the aforesaid land shall be vested in the Superintendent of Police for the time being for the Civil and Military Station of Bangalore, who shall exercise within the aforesaid land the same Police powers as he may exercise for the time being within the Civil and Military Station of Bangalore, in subordination to the same authorities as he may, when exercising these powers, be for the time being subordinate to within the said Civil and Military Station.

*The 9th February 1883.*

**No. 319 I.**—The Governor General in Council is pleased to declare that the Regulations, published below, shall have force in the Civil and Military Station of Bangalore, with effect from this date.

*A Code of Regulations relating to the appointment of Municipal Commissioners for the Municipal limits of the Civil and Military Station of Bangalore and the management of its Municipal affairs, and to make better provision for the Police, conservancy and improvement of the said Civil and Military Station and to enable the said Commissioners to levy taxes tolls, town duties, and rates therein.*

#### PRELIMINARY.

1. The Regulations published in Notification of the Foreign Department, No. 51 J, dated 31st March 1871 and amended by Notification No. 8 G.J, dated 28th April 1881, shall cease to have any effect within the Civil and Military Station o Bangalore, except in so far as the said Regulation repealed Acts XIV of 1856 and XVIII of 1864.

Repeal of Regulations.

Provided that—

(*a.*) Any sum of money due, or which may become due under the aforesaid Regulations, in so far as they apply to such portions of the Cantonment of Bangalore, as are included within the Civil and Military Station of Bangalore, or under any other lawful authority, may be levied, and recovered by the Municipal Commissioners under these Regulations; and

(*b.*) All taxes now levied under due authority within the Civil and Military Station of Bangalore may continue to be levied under these Regulations unril those taxes are revised or annulled; and

(*c.*) All unfinished contracts made or entered into with the Municipal Commissioners of the Cantonment of Bangalore and all now existing claims against those Municipal Commissioners, in so far as such contracts and claims relate to the tract comprised within the limitf of the Civil and Military Station of Bangalore, shall have and take effect and be recoverable, and may be proceeded on and enforced in the same manner as if these Regulations had not been passed.

2. The following words and expressions in these Regulations shall have the meanings hereby assigned to them, unless there be something in the subject or context repugnant to such construction:—

Interpretation.

The expression "Municipal limits" means the limits at present known or for the time being fixed by the Resident in Mysore by Notification in the Official Gazette, as the Municipal limits of the Civil and Military Station of Bangalore.

Municipal limits.

The expression "The Municipal Commissioners" and "The Commissioners" mean the persons for the time being appointed by the Resident in Mysore to conduct the affairs of the Municipality of the Civil and Military Station of Bangalore under these Regulations.

Municipal Commissioners.

The expression "the late Commissioners" means the Commissioners appointed for the Cantonment of Bangalore under the Regulations of 1871.

Late Commissioners.

"Building" means any house, hut, shed, or roofed inclosure, whether used for the purpose of a human habitation or otherwise.

"Building."

"Street" means any road, street, square, court, alley, or passage, whether a thoroughfare or not, over which the public have a right of way and any roadway over a public bridge or causeway, within such parts of the Civil and Military Station of Bangalore as may from time to time be specially defined by the Commissioners with the sanction of the Resident in Mysore, and the expression "in or near any street" designates any place within such defined parts of the Civil and Military Station.

"Street"

"In or near any Street."

"Road" means any road or thoroughfare over which the public have a right of way, or any roadway over a public bridge or causeway, not being within the parts so specially defined.

"Road."

"Land" includes also buildings, fields, plantations, and gardens, however, and on whatever tenure held or occupied.

"Land"

"Owner" means the person for the time being receiving the rent of the land or premises, or in charge o

"Owner."

of the animal or thing, in connection with which the word is used, whether on his own account, or as agent, or trustee, for any other person, or who would so receive the rent if the land or premises were let to a tenant: Provided that no person receiving the rent of land or premises as agent for another person, shall be liable to make any outlay, by these Regulations required to be made by the owner of the land or premises, in excess of the amount of the funds of the owner which he may have in his possession; nor shall he be subject to any penalty, if he can prove that he has made the outlay required to the extent of such funds.

"Retail."

"Retail," as applied to dealers in wine, spirits, and beer, shall mean the sale at one time by any such dealers of any quantity not exceeding two imperial gallons or one dozen quart bottles.

*The Corporation of the Municipal Commissioners for the Civil and Military Station of Bangalore.*

Municipal Division and appointment of Commissioners.

3. For the purposes of these Regulations the Civil and Military Station of Bangalore shall be divided into as many Divisions as the Resident in Mysore may determine, and for each Division two persons residing within the limits of that Division shall subject to the provisions of Section 5, be, from time to time, appointed by the Resident in Mysore to be Commissioners. Provided that, if at any time it shall so be determined by the Resident, the appointment of Commissioners shall be according to classes of the inhabitants of the Civil and Military Station instead of according to Divisions; and in that case the classes to be represented, the number of Commissioners to be appointed for each class, and the total number of Commissioners shall be fixed by the Resident. Such persons shall each hold office for three years, subject to removal by the Resident for misconduct or neglect of duty, and shall be eligible for reappointment. The said Commissioners and the President appointed under Section 11 of these Regulations shall be styled "The Municipal Commissioners for the Civil and Military Station of Bangalore," and shall by that name be a body corporate, and have perpetual succession, and by that name shall sue and be sued.

Ex-Officio Members.

4. In addition to the Members appointed as aforesaid, the Resident shall have power to appoint by Notification in the official Gazette Ex-Officio Municipal Commissioners, provided that the number of such Ex-Officio Members shall not be more than one-third of the total number of the Commissioners.

Appointment of Commissioners by the Resident or by election.

5. If at any time it appears to the Resident *in* Mysore to be advisable, he may, in the place of himself appointing Commissioners under Section 3, direct the appointment by election of Municipal Commissioners for carrying out the purposes of these Regulations. The persons so appointed shall continue in office for two years or until their successors are appointed and shall be eligible for re-appointment. When the Resident directs the appointment to be by election, he may fix the time and manner of the election and the qualification of the electors, and generally may make such rules as he thinks fit for regulating the election. The Resident may from time to time remove any of the Municipal Commissioners so appointed, who desires to be discharged or refuses or becomes incapable to act, or who is convicted of an offence punishable under the Indian Penal Code with imprisonment for a term not less than six months. The Resident may also, if he thinks fit, on the recommendation of the Municipal Commissioners, add to their number, and fill up cause to be the filled up by election vacancies occurring among them. Every Member so appointed shall have the same powers and be subject to the same liabilities and vacate his office, and be eligible for re-appointment as if he had been originally appointed a Member under Section 3 of these Regulations.

Removal of Municipal Commissioners.

Commissioners to have and use a Common Seal.

6. The Municipal Commissioners shall have, and use a Common Seal on which their corporate name shall be engraven in legible characters in the English language, and which shall be in the custody of the President. All contracts entered into by them in respect of any sum exceeding one hundred rupees shall be in writing, and shall be sealed with the Common Seal of the Commissioners, and shall also be signed by the President and three of the Commissioners. All such contracts shall be varied or discharged in a similar manner.

All the property and rights of action of the present Municipal Commissioners vested in the new Municipal Commissioners.

7. All lands, buildings, works, and hereditaments, utensils, materials, books, plans, maps, papers, effects, securities, and moneys, whether derived under the Regulations of 1871, or otherwise, and all other property, moveable and immoveable, of what nature or kind soever, and all interest therein, whether vested, contingent, or in remainder, which shall, on the date on which these Regulations take effect, be vested in or held in trust for the late Commissioners, or which would have been vested in, or held in trust for the late Commissioners, but for the passing of these Regulations, and all such estate and interest of and in the same respectively, as shall on that date be or would have been vested, in or held in trust for the late Commissioners or any of them, with all rights of way and other rights and easements now used and enjoyed by the late Commissioners, shall, on and from the date when these Regulations come into operation, so far as such properties, estates, interests, rights and easements are comprised within or appertain to the tract comprised within the limits of the Civil and Military Station of Bangalore, be vested in or held in trust for the Municipal Commissioners appointed under these Regulations and their successors; and all persons who shall then owe any money to the late Commissioners or to any person on their behalf, shall pay so much of it as may have reference to the tract now designated the Civil and Military Station of Bangalore to the Municipal Commissioners appointed under these Regulations or as they shall direct, and all moneys which shall be then due, and owing by, or recoverable from, the late Commissioners, shall so far as they relate to the tract above mentioned, be paid by, or be recoverable from, the Municipal Commissioners appointed hereunder; and all contracts, agreements, mortgages, bonds, covenants and securities made or entered into before these Regulations came into operation, to, with or in favor of, or by, or for the

late Commissioners, or any previous Municipal Commissioners for the Cantonment of Bangalore or any of them, or any person on behalf of the late Commissioners in so far as they relate to the tract above mentioned, and all rights of action and suit arising out of contract or otherwise, shall take effect, and may be proceeded on and enforced, as far as circumstances will admit, in favor of, by, against, and with reference to the Municipal Commissioners appointed hereunder, in such manner as the same would have taken effect, and might have been proceeded on and enforced in favor of, by, against, and with reference to the late Commissioners, or any of them, if these Regulations had not been passed.

Action, &c., by or against Commissioners not to abate, &c.

**8.** No suit, prosecution, or other proceeding whatsoever, commenced or carried on either by or against the late Commissioners previously to the coming into operation of these Regulations shall, in so far as it relates to the tract now designated the Civil and Military Station of Bangalore, abate or be discontinued or prejudicially affected by these Regulations, but shall continue and take effect, both in favor of and against the Municipal Commissioners appointed hereunder, in the same manner in all respects as the same would have continued and taken effect in relation to the late Commissioners, or any of them, if these Regulations had not been passed; and all decrees and orders made, and all fines and penalties imposed and incurred, respectively, previously to the coming into operation of these Regulations, shall and may be enforced, levied, recovered, and proceeded for; and all administrative proceedings commenced previously to the coming into operation of these Regulations shall and may be continued, proceeded with and completed, in so far as they relate to the tract above mentioned, in such or the like manner as if these Regulations had not been passed, the Municipal Commissioners appointed hereunder being, in reference to the matters aforesaid, in all respects substituted for the late Commissioners.

*The Municipal Funds.*

What shall constitute the Bangalore Civil and Military Station Municipal Fund.

**9.** All moneys received by the Municipal Commissioners of the Civil and Military Station of Bangalore by virtue of these or any other Regulations, all fines, fees and penalties paid to or levied by them under these Regulations, and all moneys which may be assigned by the Resident in Mysore for purposes of conservancy or improvement in the said Civil and Military Station shall constitute a fund to be called the Bangalore Civil and Military Station Municipal Fund, and shall, together with all property of what nature or kind soever which may become vested in the Commissioners of the Civil and Military Station of Bangalore, be under the direction, management and control of the Commissioners in the manner hereinafter provided.

Where the funds shall be lodged, and how drawn against.

**10.** All moneys received by the Municipal Commissioners in respect of the Municipal Funds, and all fines, fees and penalties levied by them or their Officers under these Regulations, shall be lodged with the Branch of the Madras Bank established at Bangalore or in the Public Treasury, as may hereafter be appointed by the Resident in Mysore. All expenses to be incurred and paid for under these Regulations by the President of the Municipal Commission as hereinafter appointed, under these Regulations, shall be discharged out of the Municipal Funds; and all orders or cheques against the said Funds shall be signed by the President, and it shall be lawful for the said Bank or Treasury to pay all orders or cheques against the said Funds which are signed as aforesaid.

*Municipal Officers.*

Appointment of an Executive Officer for the purposes of these Regulations.

**11.** The entire executive power and responsibility for the purposes of these Regulations shall be vested in an Officer who shall be appointed by the Resident and who shall be removable from office at the pleasure of the Resident, and all executive acts which are hereinafter directed to be done by the Municipal Commissioners shall, unless the contrary intention expressly appears from the context, be done by that Officer. Provided that nothing in this Section shall prevent any act of that Officer being overruled by the Municipal Commissioners present at any Meeting.

Designation and remuneration of the Executive Officer.

**12.** The said Officer shall be styled the "President of the Municipal Commission for the Civil and Military Station of Bangalore." He shall receive such allowances out of the Municipal Funds to be raised under these Regulations as shall, from time to time, be fixed by the Government.

Appointment of Executive Engineer, Collector of Municipal Taxes, and Sanitary Inspector.

**13.** The Resident in Mysore shall appoint an Executive Engineer, a Collector of Municipal Taxes, and a Sanitary Inspector, who shall receive out of the Municipal Funds such allowances as may be fixed by the Resident in Mysore. Such Officers shall be removable at the pleasure of the Resident in Mysore.

The Resident to grant leave of absence, &c., to Municipal Officers.

**14.** The Resident in Mysore may grant such leave of absence to any of the officers appointed under the three last preceding Sections as he shall think fit; and in any case in which leave of absence shall be granted to any such officers, the Resident in Mysore may appoint some person to act in the place of such officers, or may make such arrangements for the carrying on the duties of such officers during their absence on leave, as shall to him seem proper. The Resident shall, out of the funds applicable to the purposes of these Regulations, direct the payment to any such officers as aforesaid of such allowances, during absence on leave, as shall to him seem proper. Provided that no greater expenditure from the said funds shall be in any case incurred on the whole by reason of any allowance paid under this Section than would have been incurred had no leave been granted.

President of the Municipal Commission to appoint Officers.

**15.** The President of the Municipal Commission for the Civil and Military Station of Bangalore may, from time to time, appoint all such officers other than those mentioned in Sections 12 and 13 as the Municipal

Commissioners shall think necessary and proper to assist in the execution of these Regulations and may from time to time remove any of such officers and appoint others in their place; and, out of the funds applicable to the purposes of these Regulations, may pay such salaries, not exceeding three hundred rupees per month, to the said officers respectively, as the Commissioners shall think reasonable. Provided that no person shall be appointed to, or removed from, any office, under this Section, the monthly salary of which exceeds one hundred and fifty rupees, without the sanction of the Municipal Commissioners.

Penalty on officers, &c., being interested in contracts, &c.

**16.** *Clause I.*—No President, Commissioner, officer or servant appointed under these Regulations shall be in any wise concerned or interested in any contract or work made with, or executed for, the Commissioners. If any President, Commissioner, officer or servant be so concerned or interested, he shall be incapable of afterwards holding or continuing in any office or employment in or under the Commission, and shall forfeit the sum of five hundred rupees, which may be recovered by suit, by any person, with full cost of suit. Provided that no person, being a shareholder of any Joint Stock Company established by, or under the provisions of, any Act of Parliament, or of the Government of India, or of the Governor of Fort Saint George in Council, or by Charter, shall be prevented from being employed as President of the Municipal Commission, Commissioner, officer, or servant, by reason of any contract between such Company and the Commissioners, or of any work executed by such Company.

Penalty on officers, &c., taking unauthorized fees.

*Clause II.*—If any person employed in or under the Commission not being a public servant within the meaning of Section 21 of the Indian Penal Code, shall accept or obtain or agree to accept, or attempt to obtain from any person, for himself, or for any other person, any gratification whatever, other than legal remuneration, as a reward for doing or forbearing to do any official act, or for showing or forbearing to show, in the exercise of his official functions, favor or disfavor to any person, or for rendering or attempting to render any service or disservice to any person, with the Commissioners, or with any public servant, or with the Resident in Mysore as such, he shall be punished in the manner provided by Section 161 of the Indian Penal Code.

Commissioners to provide offices.

**17.** The Municipal Commissioners of the Civil and Military Station of Bangalore shall provide and keep an Office within the Civil and Military Station for the transaction of business.

*Mode of Transacting Business.*

Time for holding Meetings.

**18.** There shall be twelve Ordinary Meetings in every year at which the Municipal Commissioners shall meet for the transaction of general business; and it shall be necessary to give notice of the business to be transacted at such meetings. The Ordinary Meetings shall be held during the first week of every month or such days as shall seem expedient to the President of the Municipal Commission. Notice of the business to be transacted at such Meetings shall be published in one or more of the local English and Vernacular newspapers published in Bangalore, at least seven days before the Meeting.

President to submit Statement of Receipts and Disbursements at each Meeting.

**19.** At each of the said Ordinary Meetings, the President shall submit to the Meeting a statement of the receipts and disbursements on account of the Municipal Fund for the previous month, and such statement, with a copy of Minutes of the proceedings of the Meeting, shall be forwarded to the Resident in Mysore, and shall be placed at the conveyance of the Press.

Special Meetings may be called.

**20.** The President of the Municipal Commission may, whenever he thinks fit, and shall upon a written requisition signed by any five Commissioners, call a Special Meeting of the Commissioners. Previously to any such meeting being held, at least seven days' clear notice specifying the time and place of such intended meeting and the purpose for which it is to be held, shall be given by advertisement in one or more of the local English and Vernacular newspapers published in Bangalore.

What business to be transacted at Meetings.

**21.** No business shall be brought before, or transacted at, any meeting other than the business specified in the notices given under Sections 18 and 20; provided always, that any Commissioner may submit to a meeting any Resolution beyond the matters mentioned in the notice given of such meeting, if he shall have given previous notice of his intention to do so, by leaving a copy of the Resolution at the Office of the Commissioners, to be published in one or more of the local English newspapers published in Bangalore, not less than four days before the said meeting.

All questions to be decided at Meetings by majority of votes.

**22.** All acts authorized or required to be done by the Commissioners and all questions which may come before them for decision, shall, save as is herein otherwise provided be done and decided by a majority of the Commissioners present and voting at any Ordinary or Special Meeting before which the matter may be brought.

Who to preside at Meetings of the Municipal Commissioners.

**23.** The President of the Municipal Commission shall preside at every such Meeting, and shall have a second or casting vote in all cases of equality of votes. In the absence of the President, otherwise than on leave under Section 14, the Commissioners present at any meeting shall choose some one of their number to preside, who shall for that meeting have all the power of the President. The President of any meeting at which a quorum of the Commissioners shall be present may, with the consent of the meeting, adjourn the meeting from time to time and from place to place; but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which such adjournment took place.

What shall constitute a quorum.

**24.** No business shall be transacted at any meeting unless a quorum of Commissioners be present, that is to say, unless at least six

Commissioners be present at an Ordinary Meeting, and unless at least twelve Commissioners be present at a Special Meeting: Provided always that, if at any meeting of the Commissioners, there shall not be a sufficient number of Commissioners present to form a quorum, the President (whether he be the President of the Municipal Commission or not) shall adjourn the meeting to such convenient time and place as he shall think fit; and the business which would have been brought before the original meeting, had there been a quorum present, shall be brought before, and disposed of by, the adjourned meeting in the usual manner, whether there be a quorum of Commissioners present at such adjourned meeting or not.

Commissioners may appoint Committees.

25. It shall be lawful for the Municipal Commissioners from time to time to appoint from among their own number such and so many Committees consisting of such number of persons as they may think fit for the purpose of inquiring into and reporting upon any matter connected with the improvement and conservancy of the Civil and Military Station of Bangalore. Provided that the proceedings of every such Committee shall be submitted to the Municipal Commissioners.

Minutes of Proceedings of Commissioners to be kept and to be open for inspection.

26. Minutes of the proceedings of all meetings of the Commissioners shall be drawn up and fairly entered in a book to be kept for that purpose, and shall be signed by the President after each meeting; and the said Minutes shall, at all reasonable times, be open at the Office of the Commissioners to the inspection of any Commissioner without charge, and of any other person on payment of a fee of eight annas.

Mode of contracting by and on behalf of the Commissioners.

27. The President of the Municipal Commission may, on behalf of the Commissioners, and with their previous approval obtained at a Meeting Ordinary or Special, enter into contracts, in manner hereinbefore provided, with any person for the execution of any works directed or authorised by these Regulations to be done by the Commissioners, or for any other things necessary for the purposes of these Regulations.

*Estimates of Income and Expenditure, and Audit.*

The President to submit an Annual Budget of Income and Expenditure to the Commissioners.

28. At an Ordinary Meeting of the Commissioners of the Municipality to be held under these Regulations in the month of February in each year, the President of the Municipal Commission shall lay before the Commissioners a budget or estimate, prepared by him, of the income and expenditure of the Municipality for the year commencing on the 1st April then next succeeding, in such detail and form as the Commissioners shall, from time to time, by order passed at an Ordinary Meeting, direct. Provided always that such budget shall be completed and printed and a copy thereof sent by post or otherwise to each of the Municipal Commissioners, and published in one or more of the local English and Vernacular newspapers published in Bangalore, at least seven days prior to the meeting before which the budget is to be laid.

Budget of the expenditure.

29. The budget shall show what expenditure it is proposed to incur during the period to which it relates, and the manner in which it is proposed to meet such expenditure.

Revision and passing of estimates.

30. It shall be in the discretion of the Commissioners to pass, or to reject, or to modify, all or any of the items entered in the budget: Provided that no modifications are made which are inconsistent with the provisions of these Regulations.

Estimate to be sanctioned by the Resident in Mysore.

31. The budget, after being passed by the Municipal Commissioners, shall be submitted to the Resident in Mysore, and it shall be competent to the Resident to pass, or to reject, or modify all or any of the items entered in the estimate: Provided that no modification shall be made inconsistent with the provisions of these Regulations.

Supplemental Budget to be submitted by President whenever necessary.

32. It shall be lawful for the President of the Municipal Commission at any time to prepare a supplemental budget, which shall be submitted for the sanction of the Municipal Commissioners and of the Resident in Mysore in the manner provided by Sections 30 and 31 of these Regulations: Provided always, that such supplemental budget shall be completed and printed and a copy thereof sent by post or otherwise to each of the Municipal Commissioners, and published in one or more of the English and Vernacular newspapers published in Bangalore, at least seven days prior to the meeting before which it is to be laid.

Accounts to be audited and examined.

33. The Commissioners shall, as soon after the first day of April in every year as may be practicable, prepare a detailed statement, showing the nature and amount of the receipts and disbursements on account of the Municipal Fund for the past year, and also report of their proceedings during that year; and such statement and report shall be printed and published for general information. The accounts of the Municipal Commissioners shall be audited annually by such person or persons as the Resident in Mysore shall appoint.

*Levy of Taxes, Tolls, and Rates.*

Taxes, tolls, and rates leviable.

34. It shall be lawful for the Municipal Commissioners, with the approval of the Resident in Mysore and sanction of the Government of India, to levy within the limits of the Municipality for the purposes of these Regulations, taxes on carriages, carts, horses and other animals at rates not exceeding those described in Schedule A to these Regulations annexed; or fees upon the registration of carts; or tolls on carriages, carts, and animals entering the Municipal limits; or a tax upon arts, professions, trades, or callings; or a tax upon the sale of spirituous and intoxicating liquors or town duties or rates which may consist of a rate not exceeding ten per cent. on houses, buildings, lands, according to the annual value thereof. It shall be lawful for the Commissioners, with the approval of the Resident in Mysore and with the sanction of the Government of India,

as aforesaid, to raise the funds required for the purposes of these Regulations from all or any one or more of the above sources, as they shall decide. The Commissioners may exempt in whole or in part from the payment of any rate or tax under these Regulations, any person or class of persons who, by reason of poverty, may be unable to pay the same. The rates denoted in Schedule A shall be, from time to time, published in one or more of the English and Vernacular newspapers published in Bangalore.

No tax, &c., to be paid for period for which payment has already been made.

**35.** No tax, rate, toll, fee or assessment shall be payable under these Regulations for any period for which payment of the same shall have been made under the Regulations of 1871 or those Regulations as amended by Foreign Department Notification No. 8 G. J., dated 28th April 1881, or other due authority.

*Taxes on Carriages and on Horses and other Animals.*

Taxes on carriages, &c., to be levied as provided for.

**36.** If it shall be determined by the Municipal Commissioners with the approval of the Resident in Mysore and the sanction of the Government of India, as aforesaid, to levy, for the purposes of these Regulations, taxes on carriages, horses and other animals, such taxes shall be levied as provided in Sections 37 to 43 of these Regulations.

Tax on carriages, horses, &c.

**37.** A tax, at a rate not exceeding the rates specified in Schedule A to these Regulations annexed, shall be imposed upon every carriage, horse, mule, ass, dog, bull, bullock, male buffalo, camel and elephant kept within the Civil and Military Station of Bangalore, and shall be payable in advance. Provided that this section shall not apply to, or include, gun-carriages, or ordnance carts or waggons; cavalry horses or horses of the Mounted Police, horses being chargers of Military Officers, carriages, carts, horses, mules or bullocks belonging to or employed in the service of the British or the Mysore Government or to the Municipal Commission; or vehicles kept for sale and not used for any other purpose, if the property of, and kept by, *bonâ fide* dealers in such vehicles.

Exemptions from tax on carriages and animals.

Owners of carriages, &c., to take out license.

**38.** CLAUSE I.—The owner or person having the charge of every carriage, horse, mule, ass, dog, bull, bullock, male buffalo, camel or elephant, kept within the Civil and Military Station of Bangalore, shall within one month from the date on which the sanction of the Government of India, in Section 36 mentioned, shall have been published in the local newspapers and thenceforward within sixty days from the 1st day of April and 1st day of October in each year, send to the Office of the Commissioners a statement in writing signed by him, containing a description of the vehicles and animals liable to the tax, for which he desires to take out a license. The owner shall, at the same time, pay to the Municipal Commissioners the half-yearly taxes payable by him, according to the rates given in Schedule A to these Regulations annexed. Any person becoming possessed, between the 1st day of April and the 1st day of October, or between the first day of October and the 1st day of April of a carriage or animal so kept, shall, within sixty days of becoming so possessed, send to the Office of the Municipal Commissioners a similar statement together with full amount payable for the then current half-year according to the said schedule. Provided always that no person shall be liable to be taxed under this section for any carriage or animal which shall have been in his possession for sixty days only, or any less period in any half-year; or for any carriage or animal he may have on hire and for which this tax has already been paid.

Penalty for keeping a carriage, &c., without having a license.

CLAUSE II.—If the owner or person having the charge of any carriage or animal so kept as aforesaid shall not have duly taken out a license under the last preceding section, he shall, on conviction before a Magistrate, be fined the full amount payable by him in respect of such carriage or animal and such further sum not exceeding twenty rupees as the Magistrate may direct; and he shall be liable to a further penalty of five rupees for every day after conviction during which he shall neglect to take out such license.

On payment of the tax the President to give a license.

**39.** On receiving the amount of the taxes as aforesaid, the President of the Municipal Commission or some person duly authorized by him in that behalf, shall give to the person paying the same a license for each of the vehicles and animals for the period in respect of which the money is received. The owner of every carriage and animal aforesaid, who shall have received a license for the same, shall, at all reasonable times during the said period, be bound, under a penalty in default thereof not exceeding five rupees, to produce such license when called upon to do so by the President of the Municipal Commission, or any person duly authorized in writing by him to demand its production.

Carriages kept for hire to bear a registration number.

**40.** All carriages kept for the purpose of being let out for hire by the day or trip shall be registered; and shall bear a registration number in such manner as the Municipal Commissioners shall direct; and any owner of such carriage who shall fail to affix the registration number assigned to such carriage, shall be liable to a fine not exceeding ten rupees.

The President may compound for carriages with livery stable-keepers and others.

**41.** The President of the Municipal Commission at his discretion may compound for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages or animals aforesaid for hire, for a certain sum to be paid for the carriages or animals so kept by such persons, in lieu of the taxes specified in Schedule A.

Carriages, &c., with the Civil and Military Station although owned by persons not residing therein, liable to the tax.

**42.** Whenever the owner of a carriage or animal, as aforesaid, kept for the time being in premises situated within the Civil and Military Station of Banaglore, shall not reside in the said Civil and Military Station, the tax due for such carriage or animal shall be recoverable from the person in whose premises it is for the time being kept.

List of persons licensed under Section 38 to be entered in a Book.

**43.** The Commissioners shall from time to time cause to be prepared and entered in distinct columns in a book to be kept at the Office of the Commissioners and to be open to the inspection of any person who shall apply for leave to inspect the same, a list of the persons who during the then current period of six months shall have received a license under Section 38 of these Regulations and of the vehicles and animals in respect of which they may have paid.

*Registration of Carts and other Vehicles without springs.*

Registration of carts, &c., to be made as provided for.

**44.** If it shall be determined by the Municipal Commissioners with the approval of the Resident in Mysore and the sanction of the Government of India to levy, for the purposes of these Regulations, fees for the registration of carts and other wheeled vehicles without springs, such registration shall be made and fees levied as provided in Sections 45 and 46 of these Regulations.

Registry and numbering of carts, &c.

**45.** Every cart and other wheeled vehicle without springs kept within the Civil and Military Station of Bangalore shall be registered in the Office of the Commissioners with the name and residence of the owner, and shall bear the number of such registration in such manner as the Commissioners shall direct. Provided that this section shall not apply to, or include, gun-carriages, ordnance carts or wagons, and other carts the property of, or employed by, the British or the Mysore Government; or conservancy carts, or other such vehicles belonging to, or employed by, the Commission.

Fee for registration.

**46.** The registration of carts and other vehicles under the last preceding section shall be made and the numbers assigned half-yearly, upon such days as the President of the Municipal Commission shall notify; and such fee as he shall fix, not exceeding two Rupees, shall be paid for each registration. Any person becoming possessed, between the first day of April and the first day of October, or between the first day of October and the first day of April, of any such cart or other vehicle which has not been registered for the then current half-year, shall within fifteen days of becoming so possessed, register the same; and the President shall grant registration in every such case, on payment of the fee for the current half-year. When any registered cart or other vehicle is transferred within any half-year, it shall be registered anew in the name of the person to whom it has been transferred; and a fee not exceeding four Annas shall be paid for every such last-mentioned registration. The register of carts, and other wheeled vehicles without springs, shall be open to public inspection at all reasonable times without charge.

Penalty for failing to register, &c.

**47.** Any person being the owner or having the charge of any carriage, cart, vehicle, or animal, liable, under these Regulations, to taxation or registration, who shall without lawful excuse fail to pay such tax and fees as may be due in respect of the same, or any sum which he may have contracted to pay under any composition made with the President of the Municipal Commission, or who shall fail to apply for such registration within the time appointed by these Regulations for such payments or registration; or who, being the owner or in charge of any registered cart, carriage or other vehicle, shall fail to affix thereto the proper registration number in such manner as the Municipal Commissioner may direct, shall be liable on conviction to a fine not exceeding twenty Rupees, and to a further penalty of five Rupees for every day after conviction during which he shall neglect to take out such license.

*Tolls on Carriages and Animals entering the Station.*

Tolls and carriages, &c., to be levied as provided for.

**48.** If it shall be determined by the Municipal Commissioners, with the approval of the Resident in Mysore and the sanction of the Government of India as aforesaid, to levy, for the purposes of these Regulations, tolls on carriages, carts, and animals entering the Municipal limits, such tolls shall be levied as provided in Sections 49 to 56 of these Regulations.

Tolls to be levied on carriages, carts, and animals entering the Municipal limits.

**49.** Tolls, at the rates mentioned in Schedule B, annexed to these Regulations, shall be levied upon all carriages, carts, horses, and other animals entering the Municipal limits within which the same are imposed, and the President of the Municipal Commission may construct toll-bars and gates, and gate-keepers' stations, at such places as may be approved of by the Municipal Commissioners; and may place the collections of such tolls under the management of such persons as may appear to him proper, or may farm out the same; and shall frame Bye-Laws for the guidance of such Toll Collectors subject to the approval of the Municipal Commissioners; and all persons employed in the management and collection of such tolls shall be liable to the same responsibilities as would attach to them if employed in the collection of any assessment or tax under these Regulations. Provided that this section shall not apply to carriages, carts, and animals, the property of, or employed by, the British or the Mysore Government or the Municipal Commission or licensed or registered by the said Commission; and provided also, that no more than one payment of toll shall be demanded for and in respect of any carriage, cart, or animal, in any one period of twenty-four hours counted from midnight to midnight.

In case of non-payment of toll, vehicle, &c., may be seized.

**50.** In case of non-payment of any such toll on demand, the officers appointed to collect the same may seize any carriage or animal on which it is chargeable or any part of its burden of sufficient value to defray the toll; and if any toll, together with the cost arising from such seizure, remains undischarged for forty-eight hours, the President of the Municipal Commission may sell the property seized for discharge of the toll and all expenses occasioned by such non-payment, seizure, and sale. Any surplus that may remain shall be returned on demand, if made within six months, but not otherwise, to the owner of the property. After seizure of the property as aforesaid, the President shall forthwith issue a notice which shall be posted up

at the Office of the Municipality that, after the expiration of two days, exclusive of Sunday, he will sell, at such place as he may state in the notice the property by auction. Provided that, if at any time before the sale has actually begun, the person whose property has been seized, shall tender to the President, or other officer appointed by him, the amount of all expenses incurred, and of the toll payable by such person, the President shall forthwith release the property seized.

Troops, Government Stores, Police, &c., exempt.

**51.** No tolls shall be paid for the passage of Troops, and Military or other stores and equipages belonging to the British or the Mysore Government on their march, or of Military, Civil, or Police Officers of either Government on duty, or of any person or property in their custody; but no other exemption from payment of the tolls levied under these Regulations shall be allowed.

The President may compound with persons living outside the Municipal limits for a payment in lieu of tolls.

**52.** It shall be lawful for the President of the Municipal Commission to compound with persons living outside the Municipal limits for a sum to be paid annually or half-yearly, in lieu of all tolls payable under the provisions of these Regulations in respect of carriages, carts, or animals entering the Municipal limits, and the President shall issue licenses for such carriages, carts, or animals; and, while such licenses shall remain in force, such carriages, carts, and animals shall be exempt from all tolls, as aforesaid, upon entering the Municipal limits; provided always that such composition shall include all the carriages, carts, and animals possessed by the person compounding.

Police to assist Toll Collectors.

**53.** In all cases of resistance to the lawful authority of the Toll Collectors, all Police Officers shall be bound to assist the Toll Collectors, when required, and, for that purpose, they shall have the same power which they have in the exercise of their ordinary Police duties.

Illegal collection of tolls.

**54.** Every person, other than persons appointed to collect the tolls under these Regulations, who shall levy or demand any toll, and also every person who shall unlawfully or extortionately demand or take any other or higher toll than the lawful toll, or, under color of these Regulations, seize or sell any property, knowing such seizure and sale to be unlawful, or in any manner extort money or any valuable thing from any person under color of these Regulations, shall be deemed to have committed the offence of cheating, or extortion, as the case may be, and shall be liable to such punishment as is prescribed for those offences respectively, by the Indian Penal Code.

Table of tolls to be exhibited.

**55.** A table of the tolls authorized to be taken at any toll gate or station, legibly written or painted in English words and figures, and in the Tamil, Kanarese, and Hindustani languages, shall be put up in a conspicuous place near such gate or station.

*Tax on Arts, Professions, Trades or Callings, and Liquor Licenses.*

Tax on arts, &c., and on the sale of spirituous or intoxicating liquors.

**56.** If it shall be determined by the Municipal Commissioners, with the approval of the Resident and the sanction of the Government of India, as aforesaid, to levy, for the purposes of these Regulations, a tax on arts, professions, trades and callings, or a tax on the sale of spirituous or intoxicating liquors, or both, such tax or taxes shall be levied as provided in Sections 57 to 62 of these Regulations.

Every person to register his calling and take out certificate, and pay an annual sum.

**57.** Every person who shall within the Civil and Military Station of Bangalore exercise any of the arts, professions, trades, or callings specified in Schedule C to these Regulations annexed, shall cause his name to be registered in the Office of the Municipal Commissioners and shall take out a certificate of such annual registration. Every person required to take out a certificate shall pay for the same such annual sum as is in the said Schedule C mentioned. Provided that such annual sum shall be payable in two equal half-yearly instalments on or before the first day of June, and on or before the first day of December in each year. No such certificate shall be delivered until the payment of the first half-yearly instalment to which the person applying for such certificate shall be liable.

Every place for sale of spirituous liquor to be registered.

**58.** On and after the day when these Regulations shall come into operation, every retail dealer in spirituous or intoxicating liquors shall cause each separate place of business used by him for such sale to be registered annually in the Office of the Municipal Commissioners, and shall take out a separate certificate of registration annually for each such place of business, and shall pay for every such certificate such annual sum as is specified in Schedule C-2 to these Regulations annexed.

President to determine the classes.

**59.** The President of the Municipal Commission shall determine under which of the classes mentioned in Schedules C and C-2 respectively to these Regulations annexed, every person or liquor-shop liable to be taxed shall be registered, and shall from time to time declare what are to be considered bazars or markets within the meaning of these Regulations. Provided that every person dissatisfied with his classification under this section, may apply to the President for a revision of such classification; and in disposing of such applications, the President shall be assisted by one or more of the Commissioners who shall by preference be summoned from the Division in which the applicant resides, or in which he carries on his business. The President shall issue a summons to the Commissioner or Commissioners, naming the day and hour at which his or their attendance is required. The Commissioner or Commissioners so summoned shall be bound to attend, and shall be each entitled to a fee not exceeding ten rupees for each day's attendance. Provided also, that the decision shall be the decision of the President.

Appeals to be heard by President with the assistance of one or more of the Commissioners.

Certificate to specify date, name, and amount.

**60.** Every certificate of registration under Section 57 or 58 shall be granted by the President of the Municipal Commission, or by some person duly authorized by him in that behalf, and shall specify the date of the grant thereof, the name of the person to whom the certificate is granted and the sum paid for such certificate.

Date until which certificate to have effect.

**61.** Every certificate of registration which shall be granted before the 31st December in each year shall have effect and continue in force from the day of the date thereof until the said 31st December, and every such certificate which shall be granted upon or at any time after that date, shall expire on the 31st December, next after the day of the granting thereof.

Penalty for trading without having registered.

**62.** If any person shall exercise his art, profession, trade or calling, or shall carry on the retail sale of spirituous or intoxicating liquors within the Civil and Military Station of Bangalore for the space of two months in any one calendar year without having duly caused his name to be registered and taken out a certificate of registration as required by Sections 57 and 58, he shall be liable, on conviction before any Magistrate, to a penalty not exceeding three times the amount which in the judgment of such magistrate would have been payable by such person in respect of a certificate duly taken out as aforesaid for the entire year.

*Rates on Houses, Buildings and Lands.*

Rates on houses, &c., to be levied as provided for.

**63.** If it shall be determined by the Municipal Commissioners, with the approval of the Resident in Mysore and the sanction of the Government of India, as aforesaid, to levy, for the purposes of these Regulations, rates on houses, buildings and lands according to the annual value thereof, such rates shall be levied as provided in Sections 64 to 77 of these Regulations.

Rates on all houses, buildings, and lands in the Civil and Military Station.

**64.** An annual rate not exceeding five per centum of their annual value shall be imposed by the Commissioners for the general purposes of these Regulations other than lighting and water-supply, upon all houses, buildings and lands in the Civil and Military Station of Bangalore and shall be assessed in the manner hereinafter described: Provided that it shall be at the option of the President of the Municipal Commission, in lieu of such rate, to levy upon any lands unappropriated to any building or premises, or upon any native huts with their appurtenances, such fixed annual rate as may be authorized by the Resident in Mysore. Any rate levied under this section shall be due and payable by the owners of the said houses, buildings, lands, and huts respectively, from and after the end of the first quarter of the year. The President shall exempt from assessment any house, building, or land, the annual value whereof is less than fourteen Rupees, if the same be the sole rateable property of the owner.

Proviso.

Exemption of buildings used for Military purposes and Public Worship.

**65.** Buildings and land exclusively used for Military purposes, buildings ordinarily used as places of public worship and public Government and Municipal Offices, shall not be liable to any rate under the last preceding section.

Remission on account of vacant houses.

**66.** When any house shall have been vacant for sixty consecutive days during any year, the President of the Municipal Commission shall remit so much not exceeding one-half of the rate of that year as may be proportionate to the number of days the said house may have remained unoccupied: Provided that the owner of such house, or his agent, shall have given to the President notice in writing of the vacancy thereof and that the amount of rate to be remitted shall be calculated from the date of the delivery of such notice.

Annual value of houses, buildings, and lands how to be ascertained.

**67.** The estimated gross annual rent at which houses, buildings, and lands liable to the rate or rates imposed under these Regulations upon houses, buildings, and lands according to the annual value thereof, might reasonably be expected to let from year to year, shall, for the purposes of the rates leviable under these Regulations, be held and deemed to be the annual value of such houses, buildings and lands. The value of a house or building so estimated shall not include the value of any machinery contained therein.

Annual value to be assessed by the Commissioners.

**68.** The annual value at which lands, houses, buildings, or huts, with their appurtenances, are to be assessed, or the area on which they are to be rated under these Regulations, shall be fixed by the President assisted by two of the Commissioners; and such lands, houses, buildings, and huts, with their appurtenances, shall be assessed or rated upon the value of the area so fixed.

Value assessed, owner's name, &c., to be entered in a book.

**69.** The annual value assessed or the area fixed by the Commissioner as hereinbefore provided shall be entered in a book to be kept at the Office of the Commissioners, wherein shall also be written in distinct columns the name of the owner of the property; or, if the occupier and not the owner is the person liable to pay the rate, the name of the occupier, designation of the property, either by name, or number, sufficient to identify the same, together with the name of the street or division in which such property is situate, and the amount of the rate assessed or fixed thereon.

Valuation now standing in the book of the Municipal Commissioners to be taken as the first under these Regulations till new one be made.

**70.** The annual value to which lands, houses, buildings, or huts, with their appurtenances are assessed at the date of these Regulations coming into operation, shall stand as entered in the books of the Municipality, and shall be taken to be the first valuation made under these Regulations, until such time as the Commissioners shall have caused a new valuation to be made under Section 68 of these Regulations.

Owner or occupier how to be designated, if his name be unknown.

**71.** When the name of the owner or occupier is not known, it shall be sufficient to designate him in the said book, and also in any notice or other proceeding under these Regulations, as the "Owner" or the "Occupier" of the property on which the rate is assessed, without further description.

Public notice of valuation and measurement to be given.

**72.** When the valuation and measurement of any of the Divisions of the Civil and Military Station of Bangalore shall have been completed, the President of the Municipal Commission shall give public notice thereof, and of the place where the said book containing the valuation and measurement and the rate assessed, or a copy of the said book may be inspected, by advertisement in one or more of the local English and Vernacular newspapers published in Bangalore, also by placards posted up in conspicuous places throughout such Division of the Town: and the person in whose custody such book may be shall permit every person claiming to be the owner or occupier of property included in the assessment or measurement, or the agent of such owner, or occupier, to inspect the book, and to make extracts therefrom without payment of any fee; and every person who does not claim to be such owner or occupier, to inspect and make extracts in like manner, on payment of a fee of one Rupee.

Notice of time of revising assessment.

**73.** The President of the Municipal Commission shall, at the time and in the manner in the preceding section mentioned, give public notice of a day, not being less than fifteen days from the publication of such notice, when he will proceed to revise the said valuation or measurement and assessment and in all cases in which any property is for the first time assessed, or in which the valuation or measurement of any property previously assessed is increased, shall give special notice thereof to the owner or occupier of such property. All applications for revision of such valuation or measurement and assessment shall be made to the President by application in writing left at the Office of the Commissioners three days before the day fixed in the said public notice for the revising of the said valuation or measurement and assessment; and, upon hearing such applications, the President shall make such amendments, if any, in the said assessment and in the said book as he shall think proper.

Appeals to be heard by President with the assistance of one or more of the Commissioners.

**74.** Every application preferred under the previous section shall be heard by the President of the Municipal Commission with the assistance of three or more of the Commissioners, of whom one shall, by preference, be summoned from the Division in which the house to be assessed is situated. The President shall issue a summons to the Commissioner or Commissioners, naming the day and hour at which his or their attendance is required. The Commissioner or Commissioners so summoned should be bound to attend, and shall be each entitled to a fee not exceeding ten rupees for each day's attendance. Provided always, that the decision shall be the decision of the President.

After revision the amendments to be authenticated by seal of the Commissioners.

**75.** After the applications have been inquired into, and after the revision of the valuation, or measurement, and assessment has been completed, the amendments, if any, made in the said book shall be authenticated by the seal of the Commissioners, and the President at the same time shall certify that no valid objection has been made to the valuation and assessment in the said book entered, except in the case in which amendments have been made as shown therein; and thereupon, and subject to such alterations and amendments as may thereafter be duly made, the rate so assessed shall be deemed to be the rate for the year for which the assessment is made, and this period shall be calculated from the commencement of the year in which such revision has been carried out.

Rate assessed to be deemed the rate for one year.

Alteration or amendment of assessment.

**76.** Provided always, that the President may at any time amend the said book, by inserting therein the name of any person whose name ought to be so inserted, or by inserting any property liable to the rate, after giving notice to such person as may be interested in the making of the amendment, of a day not being less than fifteen days from the date of the service of such notice, when such amendment is to be made, or striking out the name of any person or any property not liable to the rate, or reducing the amount of the rate, without notice; and if any amendment shall be made in cases where notice is required, the same shall be deemed to have been made on the expiration of fifteen days after service of the said notice: and any person interested in such amendment may appeal, by application in writing, to the President, left at the Office of the Commissioners three days before the day fixed in the said notice for such amendment.

New assessment book need not be prepared every year.

**77.** It shall not be necessary to prepare a new book every year, but the Commissioners may adopt the valuation or measurement and assessment contained in the book for the past year, with such alterations as may, in particular cases, be deemed necessary, as the valuation or measurement and assessment for the year next following. Provided always that public notice of such valuation or measurement and assessment shall be given in the manner prescribed in Section 72 of these Regulations, and the provisions of that and the four following sections shall be applicable to the said valuation or measurement and assessment, and to the book or books in which it is contained. Provided also, that it shall be lawful for the Resident in Mysore from time to time to require the President of the Municipal Commission to make a new valuation under Section 68 of these Regulations.

Proviso.

*Appeals.*

Hearings of appeals.

**78.** Appeals against any rate, toll or tax, assessed or demanded by the Commissioners under the previous provisions of these Regulations, shall be heard and determined by the Magistrate of the Civil and Military Station of Bangalore unless such Magistrate is the President of the Municipal Commission in which case such appeals shall be heard and determined by the Civil

ing shall give to the President notice thereof in writing, and shall accompany such notice with a plan showing the levels at which the foundation and lowest floor of such building are proposed to be laid, by reference to some level ascertained under the direction of the President; and whoever fails to give such notice shall be liable to a penalty not exceeding fifty Rupees.

President to signify approval or otherwise within one month.

**148.** Within one month after receiving such notice, the President shall signify his approval of the proposed levels, or, if he disapprove thereof, he shall fix other levels in lieu thereof within the same time.

Building erected without notice, or contrary to provisions of these Regulations, may be altered by the President.

**149.** If such building be begun or made without sending such notice and plan, or at any levels different from those fixed by the President within the said month, or in any other respect contrary to the provisions of these Regulations, the President may, if necessary, cause such building to be altered or demolished, as the case may require, and the expenses thereby incurred shall be paid by the person failing to comply with the provisions aforesaid and shall be recoverable as hereinafter provided.

If President fails to signify approval, &c., within one month, parties may proceed without.

**150.** If the President fails to signify in writing his approval or disapproval of the levels shown on such plan as aforesaid, and to fix other levels, within one month after receiving such notice and plan as aforesaid, the person giving such notice may, notwithstanding anything hereinbefore contained, proceed to erect or restore the building therein referred to, according to the levels shown on such plan, provided that such erection or restoration be otherwise in accordance with the provisions of these Regulations.

Throwing rubbish into sewers.

**151.** Whoever throws or puts, or permits his servants to throw or put any earth, dirt, ashes, garden, kitchen, or stable refuse or any broken glass, or earthenware, or other rubbish, or (until suitable sewers shall be provided) any night-soil, into any sewer or drain, belonging to the Commissioners, or into any drain communicating therewith, shall be liable to a penalty not exceeding fifty Rupees for each offence.

Latrines and Urinals.

**152.** The Commissioners shall provide and maintain in proper and convenient situations, so as not to create a nuisance, common latrines and urinals, and shall cause the same when provided to be kept in order, and to be daily cleansed, and the owner or occupier of every building standing on and surrounded by land of area exceeding ¼ an acre shall provide a good and sufficient latrine in a convenient place within such area for the use of the servants and persons employed in or about such building, and shall keep the same in a clean and proper manner, and, in default, such owner or occupier shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees, for every day after conviction of such offence during which the offence shall continue.

Licensing of public latrines.

**153.** The President may license, for any period not exceeding one year, such latrine for public use, as he, from time to time, may think proper; and whoever keeps any public latrine without such license, or having a license for a public latrine, suffers the same to be in a filthy or noxious state, or neglects to employ proper means for cleaning the same, shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees, for every day after conviction for such offence during which the offence shall continue.

Neglecting to enclose and roof a private privy.

**154.** The owner or occupier of any building having a privy on his premises shall have such privy shut out by a sufficient roof and wall or face from the view of persons passing by or residing in the neighbourhood. Every owner or occupier who shall omit to comply with, or shall commit any breach of any of the provisions of this section shall be liable to a penalty not exceeding ten Rupees a day for each day of default or breach.

Branch drains, privies to be under the control of the Commissioners and to be kept in good order by owners.

**155.** All branch drains, as well within as without the lands or buildings to which they belong, and the privies and cesspools in or near any street, shall be under the survey and control of the Commissioners, and shall be altered, repaired and kept in proper order at the costs and charges of the owners of the lands and building to which the same belong, or for the use of which they are constructed or continued; and if the owner of any land or buildings to which any such drain, privy or cesspool belongs, neglects during eight days after notice in writing for that purpose, to alter, repair, and put the same in good order, in the manner required by the President, the President may cause such drain, privy, or cesspool to be altered, repaired, and put in good order, and the expense thereby incurred shall be paid by the owner, and shall be recoverable as hereinafter provided.

If the owners neglect, President may cause to be done, and charge the owners with expenses.

Penalty for persons making or altering drains contrary to the order of the President.

**156.** If any such drain, privy, or cesspool, be constructed after these Regulations come into operation, without the consent in writing, or contrary to the directions of the President, or if any person constructs, rebuilds, or unstops any drain, privy, or cesspool which has been ordered by him to be demolished or stopped up, or not to be made, every person so doing shall be liable to a penalty not exceeding fifty Rupees, and the President may cause such amendment or alteration to be made in any such drain, privy, or cesspool, as he thinks fit, and the expense thereof shall be paid by the person by whom such drain, privy, or cesspool was improperly constructed, re-built, or unstopped and shall be recoverable from him as hereinafter provided.

Inspection of drains, privies and cesspools.

**157.** The President, or any officer appointed by him for that purpose may inspect any such drain, privy or cesspool, and, for that purpose at any time between sunrise and sunset after twelve hours' notice in writing to the occu-

pier of the premises to which such drain, privy, or cesspool is attached, may enter upon any lands and building with such assistants and workmen as are necessary, and cause the ground to be opened where he may think fit, doing as little damage as may be; and if upon such inspection, it appears that the drain, privy or cesspool is not in good order and condition, or that it has been constructed after these Regulations come into operation contrary to the provisions thereof, the expenses of such inspection shall be paid by the persons to whom such drain, privy, or cesspool may belong, and shall be recoverable as hereinafter provided; but if the drain, privy, or cesspool be found to be in proper order and condition, and not to have been constructed in violation of the provisions of these Regulations, the President or Officer as aforesaid shall cause the ground to be closed and made good as soon as may be; and the expenses of opening, closing and making good such drain, privy, or cesspool shall, in that case, be defrayed by the Commissioners, provided always that nothing hereinbefore, contained shall authorize an entry into the zenanas, or private apartments appropriated to the females of Hindu and Musalman families for the purpose of such inspections, until a reasonable time has been allowed for such inmate to retire.

Proviso.

President, in default of owner or occupier, may execute works and recover expenses.

**158.** Whenever, under the provisions of these Regulations, any work is required to be executed by the owner or occupier of any building or land, and default is made in the execution of such work, the President, whether any penalty is or is not provided for such default, may cause such work to be executed, and the expense thereby incurred shall be paid by the person by whom such work ought to have been executed, and shall be recoverable as hereinafter provided.

Power to levy charges on occupier who may deduct the same from his rent.

**159.** If the defaulter be the owner of the building or land, the President may, by way of additional remedy, whether any action or proceeding has been brought or taken against any such owner or not, require the payment of all or any part of the expenses payable by the owner for the time being from the person who then or at any time thereafter occupies the building or land under such owner, and, in default of payment thereof by such occupier on demand, the same may be levied by distress of the movable property of such occupier, and every such occupier shall be entitled to deduct, from the rent payable, so much as is so paid by, or recovered from, him in respect of any such expenses.

Occupier not to be liable for more than the amount of rent due.

**160.** No occupier of any building or land shall be liable to pay more money in respect of any expenses charged by these Regulations on the owner thereof than the amount of rent due from him for the premises in respect of which such expenses are payable, at the time of the demand made upon him, or which, at any time after such demand has accrued, may become payable by him, unless he neglect, or refuse upon application made to him for that purpose, by the President, truly to disclose the amount of his rent, and the name and address of the person to whom such rent is payable; but the burden of proof that the sum demanded of any such occupier is greater than the rent which was due by him at the time of such demand or which has since accrued, shall be upon such occupier; provided further, that nothing herein contained shall be taken to affect any special contract made between any such owner or occupier respecting the payment of the expenses of any such works as aforesaid.

Occupier in default of owner may execute works and deduct expenses from his rent.

**161.** Whenever default is made by the owner of any building or land in the execution of any work required by the President to be executed, the occupier of any such building or land may cause such work to be executed, and the expenses thereof shall be paid to him by the owner, or the amount may be deducted out of the rent from time to time becoming due from him to such owner.

Proceedings in case of occupier opposing the execution of these Regulations.

**162.** If the occupier of any building or land prevent the owner thereof from carrying into effect, in respect of such building or land any of the provisions of these Regulations, after notice of his intention so to do has been given by the owner to such occupier, the President, upon proof thereof, may give an order in writing requiring such occupier to permit the owner to execute all such works with respect to such building or land as may be necessary for carrying into effect the provisions of these Regulations, and if, after the expiration of eight days from the date of the order, such occupier continue to refuse to permit such owner to execute such works, such occupier shall, for every day during which he so continues to refuse, be liable to a penalty not exceeding fifty Rupees, and every such owner, during the continuance of such refusal, shall be discharged from any penalties to which he might otherwise have become liable by reason of default in executing such works.

Public tanks, &c., vested in the Commissioners.

**163.** All public tanks, reservoirs, cisterns, wells, aqueducts, tunnels, pipes, pumps, and other water-works existing at the time these Regulations come into operation, or afterwards made, laid, or erected, and whether made, laid, or erected at the cost of the Commissioners or otherwise, and all bridges, buildings, engines, works, materials, and things connected therewith or appertaining thereto, and also any adjacent land (not being private property or the property of Government) appertaining to any public tank, shall be vested in, and belong to the Commissioners.

Construction and maintenance of works for supply of water.

**164.** The Commissioners shall cause all existing public tanks, reservoirs, cisterns, wells, aqueducts, conduits, tunnels, pipes, pumps, and other water-works used for the supply of water to the inhabitants, or other purposes mentioned in these Regulations to be continued, maintained, and supplied with water; or they shall substitute other works and shall cause them to be maintained and supplied with water; and the Commissioners may, with the sanction of the Resident in Mysore, from time to time, construct aqueducts and lay pipes, for bringing water into Municipal limits and may provide any number of new tanks, reservoirs, cisterns, wells and other water-works for the purpose aforesaid.

Fouling water by bathing. Washing animals or things, &c. Throwing rubbish, &c.

**165.** Whoever, except as permitted by the Commissioners under Section 167, shall bathe in any stream, tank, reservoir, well, cistern, conduit or aqueduct belonging to the Commissioners, or washes, or causes to be washed therein, any horse, dog, or other animal, or any wool, cloth, or wearing apparel, or any utensils for cooking or other purposes, or leather, or the skin of any animal, or other foul or offensive thing; or throws, puts, or casts or causes to enter therein any animal, or any gravel, stone, dust, or rubbish, or any dirt, filth, or other noisome or offensive matter or thing; or causes or suffers to run, drain, or to be brought thereinto, the water of any sink, sewer, drain, engine or boiler, or any other unwholesome or offensive liquid matter or thing belonging to him, or flowing from any building or from any ground occupied by him, or does anything whatsoever whereby any such water shall be in any degree fouled or corrupted, shall be liable to a penalty not exceeding fifty Rupees for each offence.

Allowing drains, &c., to flow.

Water fouled by offensive trades.

**166.** Whoever being the proprietor of any gas-works, or being engaged or employed in the manufacture or supply of gas, or being the occupier or proprietor of any place where an offensive trade or manufacture is carried on, wilfully does any act connected with the said business, whereby the water in any stream, tank, reservoir, well, cistern, conduit, or other water-works belonging to the Commissioners, is fouled or corrupted, shall be liable to a penalty not exceeding one thousand Rupees, and to a further penalty not exceeding five hundred Rupees for every day while the offence is continued, after twenty-four hours' notice in writing from the President in that behalf; and the President may, after twenty-four hours' notice in writing, lay open and examine any pipes, conduits, and works belonging to such persons, and if, upon such examination, it appears that the water has been fouled or corrupted by anything proceeding from, or contained in, the pipes, conduits, or works examined, the expenses of such examination shall be paid by the person to whom such pipes, conduits, or works belong, or under whose management or control they may be, and be recoverable from him as hereinafter provided; but if it appear that the water has not been so fouled or corrupted, then such expenses, and all damages occasioned by the examination, shall be paid by the Commissioners.

Commissioners may set apart bathing place.

**167.** The Commissioners may, at their discretion, set apart any public place, or any part of the large tanks or of the strand of any run (not being private property), for the purpose of being used as a bathing place; and may also provide or set apart a sufficient number of convenient tanks for the inhabitants to bathe in; and may also set apart tanks or reservoirs or runs of water for washing animals or clothes, or for any other purpose connected with the health, cleanliness and comfort of the inhabitants.

Power to require unwholesome tanks on private premises to be cleansed or drained.

**168.** It shall be lawful for the President to require, by notice in writing, the owner of any premises to cleanse any private tank and to drain off and remove any waste or stagnant water within any such premises which may appear to be injurious to health or offensive to the neighbourhood; and if such owner refuse or neglect to comply with such requisition during eight days from the service thereof, the President, his officers and workmen may enter such premises and do all necessary acts for all or any of the purposes aforesaid as he shall think fit, and the expenses incurred thereby shall be paid by the owner of such premises so making default, and shall be recoverable as a debt due to the Commissioners.

Power to drain off and cleanse stagnant pool in open place.

**169.** The President shall, from time to time as he thinks fit, cleanse, fill up, or drain all receptacles of stagnant water, not being within any private enclosure, which shall appear to him likely to prove injurious to the health of the inhabitants, whether such receptacles be the private property of any person, or otherwise.

Commissioners in executing works to provide roads, &c., where existing ones are injured.

**170.** The Commissioners, in executing any works directed or authorized by these Regulations to be made, shall provide and make, at the expense of the Municipal Funds, a sufficient number of convenient ways, water-courses, drains, and channels, in the place of such as may be interrupted, injured, or rendered useless, by reason of the execution of such works, and, in case of any difference arising between the Commissioners and the persons affected thereby, such difference shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Commissioners breaking up street to restore the same with all convenient speed.

**171.** When the pavement or surface of any street, or road, or when any sewer or drain, shall be opened or broken up by the Commissioners, their officers or servants, they shall, with all convenient speed, complete the works on account of which the same shall have been broken up, and fill in the ground and make good the pavement and surface and the sewer or drain so opened, or broken up, and carry away the rubbish occasioned thereby, and shall, in the meantime, cause the place, where such pavement or surface shall be so opened, or broken up, to be fenced and guarded and sufficiently lighted during the night.

Situation of gas and water pipes to be altered at the expense of the Commissioners.

**172.** If the President deems it necessary, for the purposes of these Regulations, to raise, sink, or otherwise alter the situation of any water-pipe or gas-pipe, or other water-works or gas-works laid in any of the streets, he may, from time to time by notice in writing, require the person to whom any such pipes or works belong, or under whose control they may be, to cause forthwith, or as soon as conveniently may be, any such pipes or works to be raised, sunk, or otherwise altered in position, in such manner as the President directs: Provided that such alteration be not such as permanently to injure such works, or to prevent the water or gas from flowing as freely and conveniently as before; and the expenses attending such raising, sinking, or altering, and full compensation for the damage done thereby, shall be paid by the Commissioners,

as well to the persons to whom such pipes or works belong as to all other persons. And if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

If owner, &c., neglect to make alterations, the President may cause the same to be made.

**173.** If the persons to whom any such pipes or works belong, or under whose control they may be, do not proceed forthwith or as soon as conveniently may be after the receipt of such notice, to cause the same to be raised, sunk, or altered in such manner as the President requires, the President may cause such pipes or works to be raised, sunk, or altered as he may think fit. Provided that such works be not permanently injured thereby, or the water or gas prevented from flowing as freely and conveniently as before.

Boards to be set up during repairs.

**174.** Every person intending to build or take down any building, or to alter or repair the outward part of any building, where any street or footway will be obstructed or rendered inconvenient by means of such works, shall, before beginning the same and having first obtained a license in writing from the President so to do, cause sufficient boards or fences to be put up, in order to separate the building, where such works are being carried on, from the street or footway, and shall continue such board or fence standing and in good condition, to the satisfaction of the President, during such time as the public safety or convenience requires, and shall cause the same to be sufficiently lighted during the night; and every such person, who begins to build or to take down or alter, or repair any building contrary to the provisions of this section, or who without license erects or sets up any board, scaffolding or fence whatsoever, or who, being licensed, fails to put up such fence or board, or to continue the same standing, and in good condition as aforesaid, during the time aforesaid, or who does not, while the said boards or fences are standing, keep the same sufficiently lighted during the night, or who does not remove the same when directed by the President, within eight days, shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees for every day while the offence is continued after twenty-four hours' notice from the said President.

Bars to be erected across streets during repairs, and light placed at night.

**175.** The President shall, during the construction or repair of any of the streets, sewers, or drains vested in the Commissioners, take proper precaution for guarding against accidents, by shoring up and protecting the adjoining houses and shall cause such bars, chains, or posts to be fixed across or in any of the streets, to prevent the passage of carriages, carts, or other vehicles, cattle or horses, while such works are carried on, as to him shall seem proper; and the President shall cause any sewer, drain or other works in streets, during the construction or repair thereof, to be sufficiently lighted and guarded during the night; and whoever takes down, alters, or removes any of the said bars, chains or posts, or extinguishes any light, without the authority or consent of the President, shall be liable to a penalty not exceeding fifty Rupees.

Penalty for not lighting deposits of building materials or excavations.

**176.** No person shall deposit any building materials, or make a hole in any street, without the permission of the President; and when such permission is granted to any person, he shall, at his own expense, cause such materials, or such hole, to be sufficiently fenced and enclosed, until the materials are removed, or the hole is filled up or otherwise made secure, and shall cause the same to be sufficiently lighted during the night; and whoever deposits materials, or makes a hole, without such permission, or fails to fence, or enclose, and light such materials, or hole, or does not remove such materials or fill up such hole when the permission has been withdrawn, shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees, for every day while the offence is continued after twenty-four hours' notice from the President.

Dangerous places to be repaired or enclosed.

**177.** If any building, tank, well or hole, or other place, whether on public or private ground be, for want of sufficient repair, protection, or enclosure, dangerous to human beings, it shall be lawful for the President to require, by notice in writing, the owner or occupier of the said premises to cause the same to be repaired, protected, or enclosed, so as to prevent danger therefrom; and if he shall refuse or neglect to comply with such requisition within twenty-four hours, or shall fail to complete the same with due diligence, he shall be liable to a penalty not exceeding fifty Rupees for each offence, and a further penalty not exceeding ten Rupees for each day of delay; and it shall be lawful for the President to cause the said premises to be repaired, protected, or enclosed, and do all necessary acts for all or any of the purposes aforesaid, as he shall think fit, and the expenses incurred thereby shall be recoverable as hereinafter provided.

*Regulation of Offensive Trades and of Burial and Burning Grounds.*

No place shall be used as a slaughter-house or market, without a license from the President.

**178.** No place shall be used as a slaughter-house or as a market for the sale of butcher's meat, dead poultry, fish, or vegetables, within the limits of the Civil and Military Station of Bangalore, unless a license in writing for the use thereof as such has been obtained from the President, who is hereby empowered, at his discretion, from time to time, to grant and withdraw or revoke such licenses; and whoever, without such license, or after notice of its withdrawal or revocation, uses as a slaughter-house, or as a market for the sale of butcher's meat, dead poultry, fish, or vegetables, any place within the limits of the Civil and Military Station of Bangalore shall be liable to a penalty not exceeding two hundred Rupees, and to a penalty not exceeding fifty Rupees for every day after the conviction for such offence during which the said offence is continued. Provided that an appeal against the President's refusal to grant such license, or against his withdrawal or revocation thereof, shall lie to a Magistrate in the manner provided by Section 78 for appeals against assessment. Provided that if such Magistrate is the President of the Municipal Commission, the appeal shall be heard and determined by the Civil Judge of the Station.

**179.** The Commissioners shall, from time to time, provide a sufficient number of places for the purposes of being used as slaughter-houses and public markets.

Commissioners to provide slaughter-houses, &c.

**180.** Every owner of a market, or of any slaughter-house, within the limits of the Civil and Military Station of Bangalore, shall cause such drains and cess-pits to be made therein as shall be considered sufficient by the President, and if required so to do by the President shall cause all the floors and drains to be paved with stone and burnt-brick or to be metalled with gravel, and shall also cause a supply of water to be provided, sufficient for keeping such market or slaughter-house in a clean and wholesome state; and if such owner, after notice in writing given to him by the President, that such market or slaughter-house is defective in any of the said particulars, and requiring him to remedy the defect specified within not less than thirty days, makes default therein, he shall be liable to a penalty not exceeding fifty Rupees for every day during which such default is continued.

Markets, slaughter-houses, &c., to be properly drained.

**181.** Whoever, for the purpose of sale, slaughters, cuts up, or skins any sheep, goat, or pig, or any cattle, at any place within the limits of the Civil and Military Station of Bangalore, other than in a licensed slaughter-house, shall be liable to a penalty not exceeding twenty Rupees for each animal.

Penalty for slaughtering, except at a slaughter-house.

**182.** It shall be lawful for any Magistrate, on the application of the Commissioners or any of their officers, setting forth that there is just cause to believe that any animal or article which is or has been rendered or has become noxious or unfit for use as food or drink for man is in the possession of any person for the purpose of being used, or sold or offered, or exposed for sale within the limits of the Civil and Military Station of Bangalore as food or drink for man, to grant a warrant to enter upon the premises of such person and to search for and seize such animal or article; and if it appear to the said Magistrate, upon the evidence of a competent person, that the same is noxious or unfit for such use, he shall order such animal or article to be forfeited and disposed of in such way as to him shall seem proper.

Sale of unwholesome food or drink.

**183.** The Commissioners, or any person appointed by them for that purpose, may, at all reasonable times, with or without assistants, enter into and inspect any market, building, shop, stall or place used for the sale of butcher's meat, poultry, fish, fruit, or vegetables, or as a slaughter-house, and may examine any animal, carcass meat, poultry, game, flesh, fish, fruit, or vegetables which may be therein, and in case any animal, carcass meat, poultry, game, flesh, fish, fruit, or vegetables appear to be intended for the food of man and to be unfit for such food, may seize and order the same to be destroyed or to be so disposed of as to prevent its being exposed for sale or used for food; and if it appear to a Magistrate, upon the evidence of a competent person, that such animal, carcass meat, poultry, game, flesh, fish, fruit, or vegetables was unfit for the food of man, the owner thereof, or the person in whose possession the same was found, shall be liable to the penalty provided by Section 273 of the Indian Penal Code. If the Magistrate shall be of opinion that the article so destroyed was fit for the food of man, he shall make an order upon the Commissioners to pay to the owner such amount as the said Magistrate shall consider to have been the fair value of the article.

Power to Commissioners to enter and inspect slaughter-houses, shops, &c., and to seize unwholesome articles exposed for sale.

**184.** The owner or occupier of every place within the limits of the Civil and Military Station of Bangalore used at the time these Regulations come into operation for any of the following purposes, namely, for melting tallow, or for boiling offal or blood, or as a soap, camphor, or oil-boiling house, or as an oil mill or press, or as a dyeing house or yard, or as a tannery, or as a brick pottery or lime kiln, or as a paper manufactory, or as any other manufactory or place of business, from which any offensive or unwholesome smell arises, or as a gunpowder manufactory, manufactory of fireworks, place of storing explosive or combustible materials or of any place which is used for any purposes which are calculated to be dangerous to life, health or property, or as a yard or depôt for hay, straw, timber, firewood, coal, or fuel, shall within three months after these Regulations come into operation, whether the same be kept for sale or otherwise, register the same at the office of the Commissioners in a book to be kept by them for that purpose; and whoever after the expiration of the said three months and after eight days' notice from the President, uses any such place without the same being registered, shall be liable to a penalty not exceeding one hundred Rupees for every day during which the offence is continued.

Offensive and dangerous trades and depôts existing before passing of these regulations to be registered.

**185.** If it be shown to the satisfaction of the President that any place registered under the preceding section is a nuisance to the neighbourhood or injurious to health, he may give notice to the occupier to discontinue within one month the use of the place, or to use it in such a manner only as the President may in writing direct; and whoever, after the expiration of the time so fixed, shall use such place, or permit it to be used, in violation of the terms of the notice, shall be liable to a penalty not exceeding two hundred Rupees for every day during which it shall be so used.

Power of President in respect of place of noxious trades which may be public nuisances.

**186.** No place shall be newly used within the limits of the Civil and Military Station of Bangalore for any of the purposes mentioned in Section 184 except under a license from the President, who is hereby empowered, at his discretion, from time to time, to grant, withdraw, or revoke such license; and whoever, in violation of this section, uses any such place for such purpose, without a license, or after its withdrawal or revocation, shall be liable to a penalty not exceeding five hundred Rupees, and a penalty not exceeding fifty Rupees for every day after the conviction for such offence during which the said offence is continued.

Penalty for newly establishing such trades or depôts without license.

**187.** The Commissioners may, if they think fit, cause a survey and measurement to be made of every burial ground and every place used as such; and every such place, and every burning ground now existing shall be registered by the owner or the person having the control thereof, or, if there be no owner or person authorized to control the same, by order of the Commissioners, in a book to be kept by them for that purpose; and whoever, after the expiration of the said time knowingly buries or burns, or causes, procures, or suffers to be buried or burned, any corpse in or on any ground not so registered as a burial or burning ground, shall be liable to a penalty not exceeding one hundred Rupees.

Burial and burning grounds to be registered.

**188.** No vault or grave shall be made within the walls of, or underneath any church or chapel, or other place of public worship built within the limits of the Civil and Military Station of Bangalore after these Regulations come into operation, and no burial or burning ground, whether public or private, shall be opened, made, or formed, within the said limits after these Regulations come into operation, otherwise than by, or under the authority of the Resident in Mysore, without a license describing the extent and boundaries thereof, first obtained from the President, who is hereby empowered, at his discretion, from time to time, to grant such licenses; and whoever shall bury or burn, or cause, permit or suffer to be buried or burned, any corpse in any vault, grave, or burial or burning ground, opened, made, or formed without such license, or contrary to the terms thereof, or in any public or private place, shall be liable to a penalty not exceeding five hundred Rupees.

No vault or burial or burning place henceforth to be constructed without leave of the President.

**189.** If upon the evidence of any competent person, the President with the sanction of the Resident in Mysore, shall certify, in manner hereinafter provided, that any burial ground or place of burial, or any place used for the burning of corpses, within the limits of the Civil and Military Station of Bangalore, is in such a state as to be dangerous to the health of persons living in the neighbourhood thereof, or that any church or other place of public worship within the said limits is dangerous to the health of persons frequenting the same, by reason of the state of the vaults or graves within the walls of or underneath the same, or in any churchyard or burial ground adjacent thereto, and shall also certify that a fitting place for interment or burning, as the case may be, exists within a reasonable distance and is available, it shall not be lawful, after a time not less than two months to be named in such certificate, to bury or burn, or permit or suffer to be buried or burned, any corpses in, upon, within or under the ground, church, or place of worship to which the certificate relates, except in so far as may be allowed by such certificate, and whoever after due publication of such certificate as hereinafter provided, buries or burns, or causes, permits, or suffers to be buried or burned, any corpse contrary to this enactment, shall be liable to a penalty not exceeding two hundred Rupees. Provided always, that every such certificate shall be published in one or more of the English and Vernacular newspapers published in Bangalore, and that a transmission there of in the Vernacular language chiefly in use shall, in the case of a burial of burning ground, the affixed conspicuously on some part of the said ground.

President to issue certificates prohibiting the use of improper burial and burning places.

Proviso.

**190.** The Commissioners shall, from time to time, out of the Municipal Funds, with the sanction of the Resident in Mysore, provide fitting places to be used as burial or burning grounds.

Commissioners shall provide places to be used as burial or burning grounds.

*Rights of Entry and Powers in reference to Works.*

**191.** The Commissioners shall, for the purposes of these Regulations, have power, by themselves or their Officers, between sunrise and sunset, to enter into and upon any building or land, as well for the purpose of making any survey or inspection which they may be entitled to make, as for the purpose of executing any work authorized by these Regulations to be executed by them, without being liable to any legal proceedings or molestation whatsoever on account of such entry or of anything done in any part of such building or land in pursuance of these Regulations. Provided that except when herein otherwise provided, the Commissioners, or their Officers, shall not enter upon any building or land which may be occupied at the time, unless with the consent of the occupier thereof, without previously giving the said occupier twenty-four hours' notice of their intention to do so.

Power to enter upon lands for the purposes of these Regulations.

Proviso.

**192.** The Commissioners, or their Officers, or servants, may enter upon the land of any person adjoining to, or being within the distance of one hundred yards of any works by these Regulations authorized to be made for the purpose of depositing upon such land, any soil, gravel, sand, lime, brick, stone or other materials, or for any other purposes connected with the formation of the said works, without making any previous payment, tender, or deposit, doing as little damage as may be in the exercise of the several powers hereby granted to them, and making compensation for such temporary occupation or temporary damage of the said land, to the owner and occupier thereof from time to time, and as often as any such temporary occupation shall be taken or such temporary damage done, and making compensation to the owner also, for the permanent injury (if any) to such land; and if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses. Provided that before the Commissioners make any such temporary use as aforesaid of the land adjoining or lying near to the said works, they shall give seven days' notice of such their intention to the owners and occupiers of such land, and, if required, shall set apart, by sufficient fences, so much of the land as shall be required, to be used as aforesaid, from the other land adjoining thereto.

Power to Commissioners to enter on lands adjacent to works.

Proviso.

Penalty for obstructing persons employed by the Commissioners in their duty.

**193.** Whoever at any time obstructs or molests the Commissioners, or any person employed by the Commissioners, or any person with whom they have contracted under the provisions of these Regulations in the performance and execution of their or his duty, or of anything which they are respectively empowered or required to do by virtue or in consequence of these Regulations, or removes any mark set up for the purpose of indicating any level or direction necessary to the execution of any work authorized by these Regulations, shall be liable to a penalty not exceeding two hundred Rupees, or, in the discretion of the Magistrate before whom he is convicted, to rigorous or simple imprisonment for any term not exceeding two months.

Powers to be exercised by the Commissioners when constructing drains, aqueducts, &c., without the Town.

**194.** For the purpose of laying pipes or constructing aqueducts for bringing water into the Civil and Military Station of Bangalore from any place without the limits thereof, or for the purpose of making dams, sewers, or drains to communicate with, or empty themselves into any public sewer, lake, stream, canal, or watercourse without the said limits, it shall be lawful, whenever a plan for laying any such pipes or constructing any such dam, aqueduct, sewer, or drain, shall have been approved by the Resident in Mysore for the Commissioners and their Officers, with such assistants as they may require, to exercise in the laying of such pipes and construction of such dam, aqueduct, sewer, or drain, throughout the line of country through which the said pipes, aqueduct, sewer, or drain are to run, all the powers which by these Regulations it is lawful for them to exercise within the limits of the said Civil and Military Station, and which may be necessary for the laying of such pipes or the construction of such dam, aqueduct, sewer, or drain, without being subject to any action or molestation whatever for so doing; and it shall also be lawful for the Magistrate of the District, through which the said pipes, aqueduct, sewer, or drain are to run, to exercise in respect thereof the like power and jurisdiction within the limits of his own district, as it is by these Regulations lawful for a Magistrate to exercise in respect of any work to be executed by the Commissioners within the limits of the Civil and Military Station as aforesaid.

*Lighting and Water-supply.*

Assessment of lighting rate.

**195.** It shall be lawful for the Commissioners to assess upon the occupiers of all buildings, tenements and premises within the limits of these Regulations, an annual lighting rate not exceeding one per centum upon the annual value thereof.

Supply of water.

**196.** The Commissioners may cause to be laid down in each street, lane, and thoroughfare of the Civil and Military Station of Bangalore, or in any division or portion thereof, sufficient mains and pipes for the supply of water in such street, lane, or thoroughfare, and may also erect in every such street, lane, and thoroughfare, sufficient and convenient stand-pipes for the gratuitous use of the rate-payers. The said stand-pipes shall be so placed that there shall not be a greater interval than one hundred yards between any such stand-pipes, and such stand-pipes shall at all times be kept charged with water.

Notification of supply being complete.

**197.** When the Commissioners shall have carried out a system for the supply of water to the Civil and Military Station as aforesaid, or to any division or portion thereof, including such convenient mains and stand-pipes as aforesaid, and such system shall in the judgment of the Commissioners be complete, the Commissioners shall, with the sanction of the Resident in Mysore, declare by Notification published in one or more of the English and Vernacular newspapers published in Bangalore, that the supply is complete within the said Civil and Military Station or any such division or portion thereof.

Water-rate may be assessed.

**198.** After it has been so notified as aforesaid that the water-supply in any district has been completed, it shall be lawful for the Commissioners to assess a rate upon all occupied buildings and premises within such district. The said rate shall not exceed two per centum upon the annual value of the said buildings and premises.

Householder entitled to supply of water for domestic use.

**199.** Every householder assessed to, and paying the water-rate, shall be entitled to have, free of further charge or assessment in respect of the same, a supply of water from the mains and pipes of the Commissioners for the domestic use of himself and his household.

Communication pipes, &c., to be made of required dimensions and at expense of householder.

**200.** Every person assessed to, and paying the water-rate, shall be entitled to lay down communication pipes from the mains and pipes of the Commissioners for bringing into his house a proper and sufficient supply of water for domestic purposes. The communication pipes leading the water from the mains and pipes of the Commissioners into the house of any rate-payer, and the pipes and works within the house connected therewith, shall be of such character, dimensions, and material, as the said Commissioners, or their proper officer in their behalf, shall fix and approve, and shall be made and constructed at the expense of the person requiring the same.

What are domestic purposes.

**201.** A supply of water for domestic purposes shall not include a supply of water for horses or for washing carriages where such horses or carriages are kept for sale or hire, or a supply for any trade, manufacture, or business, or for fountains, or for any ornamental or mechanical purpose.

Supply for business.

**202.** It shall be lawful for the Commissioners to supply water, at a rate not exceeding one Rupee for every two thousand gallons supplied, for other than domestic purposes, and for trade, manufacturing, business, ornamental or mechanical purposes. Provided the person requiring such supply make application to the Commissioners in writing, specifying the purpose for which such supply is required, and the quantity likely to be consumed. And the Commissioners may thereupon, subject to

such charges or rates as may be agreed upon between themselves and the person so requiring such supply not exceeding the rate aforesaid, lay down or allow to be laid down, the necessary communication pipes and works, of such dimensions and character as may be agreed upon between the Commissioners and person requiring such supply, or in the absence of such agreement as may be fixed by the Commissioners.

Communication pipes, &c., must be made to satisfaction of Surveyor.

**203.** The communication pipes and works leading water from the mains and pipes of the Commissioners into any building or premises, must in all cases be executed subject to the inspection and to the satisfaction of the Surveyor or other officer to be appointed in that behalf by the said Commissioners. Such communication pipes and works may be made by the servants and workmen of the Commissioners, upon such terms as may be agreed upon between the Commissioners and the person requiring the supply, or subject to such charges as may be fixed by the Commissioners; and it shall be lawful for the Commissioners to require the amount necessary for the execution of such works to be paid or deposited before such works are executed, and such charges and expenses shall be recoverable in the same way as the water-rate.

Sufficient supply of pure water to be kept.

**204.** The Commissioners shall at all times keep and maintain in their pipes and mains a sufficient supply of pure water for the use of the rate-payers, and for the other purposes for which supply is required; and shall at all times, between the hours of five in the forenoon and eight in the afternoon, maintain a pressure of water in the pipes and mains sufficient to raise the water in all buildings and places in which the same may be introduced.

Water may be cut off on neglect to pay the rate.

**205.** If any person supplied with water shall neglect to pay the water-rate at any of the times of payment thereof, or shall waste or misuse the water supplied to him, the Commissioners may stop the water from flowing into the premises in respect of which such rate is payable, or in which such waste or misuse has occurred, by cutting off the pipe to such premises, or by such means as the Commissioners may think fit, and may recover the expenses of cutting off the water from such person

Damaging works or obstructing or diverting water.

**206.** Whoever shall wilfully or carelessly break, injure, or open any lock, cock, main, or pipe, belonging to, or under the management or control of, the Commissioners, or constructed, or continued or maintained under these Regulations, or shall unlawfully flush, draw off, divert, or take water from any water-works belonging to the Commissioners or under their management or control, or from any water or streams by which such water-works are supplied, shall, for every such offence, forfeit a sum not exceeding 50 Rupees, and a further penalty not exceeding 20 Rupees for each day during which the offence is continued after written notice in that behalf.

Application of rates and moneys received from the supply of water.

**207.** All rates and moneys collected, received, or recovered for or in respect of the supply of water, or the execution of works, and all penalties or forfeitures connected therewith, or in any respect relating to the water-supply, shall be applied by the said Commissioners in defraying the expense of making and maintaining the said water-works, in paying the interest of money borrowed for the said water-works, and in the liquidation of debts incurred connected therewith, or for some other purpose connected with the supply of water; and if any surplus should remain thereafter, then the same shall be applied in reduction of the rates assessed for the supply of water.

Assessment may be on owner in certain cases.

**208.** Wherever any building or tenement is divided into flats, rooms, or portions in the occupation of different tenants, and also in the case of all buildings or tenements, the annual value whereof is less than one hundred Rupees, it shall be lawful for the Commissioners to assess the owner or landlord of such building or tenement, although he does not himself occupy the same, and to recover from him the rates imposed thereon for lighting and water, respectively.

Rates for lighting and water-supply.

**209.** The rates for lighting and water-supply shall be ascertained, fixed, and collected in the manner and shall be payable at the times provided by Sections 63 to 90 of these Regulations, both inclusive.

*Registration of Births and Deaths, and taking of a Census.*

Commissioners to keep a Register of births and deaths and appoint Registrars.

**210.** The Commissioners shall keep in their Office a register of all births and deaths within the limits of the Civil and Military Station of Bangalore, and for this purpose they shall divide the said Civil and Military Station into such and so many districts as they shall think fit, and for every such district they shall appoint a person to be Registrar of Births and Deaths within such district.

Every Registrar to live in his district; list of Registrars to be published, &c.

**211.** Every Registrar shall reside within the district of which he is Registrar, and shall cause his name with the addition of "Registrar of Births and Deaths" for the district for which he shall be so appointed, to be placed in some conspicuous place on or near the outer door of his own dwelling-house; and the Commissioners shall cause to be printed and published a list containing the name and place of abode of every Registrar of Births and Deaths in the Civil and Military Station.

Commissioners to have Register Books prepared and numbered.

**212.** The Commissioners shall cause to be prepared and printed a sufficient number of register books for making entries of all births and deaths which may take place in the Station, according to the forms prescribed in Schedules K and L to these Regulations annexed, and the page of such book shall be numbered progressively from the beginning to the end.

Registrar to inform himself of, and register, births and deaths.

**213.** Every Registrar shall inform himself carefully of every birth and of every death which shall happen in his district after these Regulations come into operation; shall learn and register, as soon as conveniently may be after

the event, without fee or reward, the particulars required to be registered, according to the forms in the said Schedules K and L respectively, touching every such birth and every such death, as the case may be, which shall not have been already registered, every such entry being made in order from the beginning to the end of the book.

Information of births to be given within one week.

**214.** The father or mother of every child born within the limits of the Civil and Military Station of Bangalore, or in case of the death, illness, absence, or inability of the father and mother, some person who was present at, or in attendance during the childbirth, shall, within one week next after the day of every such birth, give information to the Registrar of the district according to the best of his or her knowledge and belief, of the several particulars hereby required to be known and registered touching the birth of such child. Any person whose duty it shall be to give information to a Registrar under this section, and who shall refuse or neglect to give such information, shall be liable to a penalty not exceeding fifty Rupees for each offence.

Information of death how to be given.

**215.** Some one of the persons present at the death or in attendance during the last illness of every person dying within the limits of the said Civil and Military, Station or in case of the death, illness, inability or default of all such persons, the occupier of the building or tenement, or in case the occupier be the person who shall have died, some inmate of the building or tenement in which such death shall have happened, shall, within eight days next after the day of such death, give information to the Registrar of the district according to the best of his or her knowledge or belief, of the several particulars hereby required to be known and registered touching the death of such person. It shall also be the duty of every person who is conducting or performing the funeral ceremonies of any person who has died within the limits of the said Civil and Military Station when required, to furnish to the Registrar, or to any person authorized by him, such information as he may possess in relation to the said several particulars. Any such person who shall neglect or refuse to give such information, shall be liable to a penalty not exceeding fifty Rupees.

Person giving information to sign the Register

**216.** Every person by whom the information contained in any register of births or deaths under these Regulations shall have been given, shall, if he can write, sign in the register his name, description, and place of abode, and if he cannot write, shall put his mark in the register to his name, description, and place of abode; and no such registration shall be deemed to be complete or of any effect until such person shall have so signed or put his mark to it.

Enumeration of inhabitants.

**217.** At such time and in such manner as shall be directed, from time to time, by the Commissioners with the sanction of the Government, an enumeration shall be made of the persons who at the time of making such enumeration shall be within the limits of the Civil and Military Station of Bangalore: Provided always, that one clear month previous to such enumeration being commenced notice of the intention to make the same, with the date or dates upon or within which it is intended to be made, and all other necessary particulars, shall be published in one or more of the English and Vernacular newspapers published in Bangalore.

Commissioners to superintend the enumeration

**218.** The Commissioners shall superintend the taking of such enumeration, and shall appoint such Enumerators and make such arrangements generally as may seem to them necessary for the purpose of such enumeration, and all expenses incurred in respect of such enumeration shall be defrayed out of the Municipal Funds.

Delivery of Schedules and Returns.

**219.** Each Enumerator or other subordinate officer appointed under these Regulations shall, agreeably to his instructions, leave at each building or place of residence within his district, four days at least before the time appointed for the collection of the completed returns or census, a blank schedule or return, to be of such form and containing such particulars as the Resident in Mysore may approve, to be duly filled up and signed by the owner, tenant, or principal occupants of the said building or place of residence.

Occupier of building, &c., to furnish required information

**220.** Any person wilfully neglecting or refusing correctly to fill up and affix his signature or mark to any such schedule or return so left at his place of residence, or who shall neglect or refuse to return the same to the Enumerator or other officer when called upon so to do, or to furnish the necessary information to an Enumerator to fill up the same for him, if he do not know how to write, shall be liable to a penalty not exceeding two hundred Rupees, and may also be detained in custody until he shall have correctly filled up and signed, or affixed his mark to the said schedule or return: Provided that it shall be the duty of the Enumerator, if required, to fill up all schedules or returns for those who are unable to write.

Proviso.

Occupier to amend returns if found defective.

**221.** Any Enumerator or other subordinate officer employed in the collection of such schedules or returns, if he shall find any of the same defective, or in any respect improperly filled in, shall return the same to the occupant of the building or residence to which they relate; together with a written or printed notice requiring that the same be duly filled in or amended within a specified period not less than twenty-four nor more than forty-eight hours, and if such occupant shall then fail so to fill in or amend any such schedule or return, he shall, on conviction, be liable to a fine not exceeding one hundred Rupees, and may also be detained in custody until he shall correctly fill in or amend the said schedule or return.

Military Officers and certain other, if required, to act as Enumerators.

**222.** Any Military Officer or any person in charge of a lunatic asylum, hospital, or prison, or of any public or private charitable or scholastic institution, or any keepers of hotels or lodging-houses, shall, if required, act as Enumerators for the purpose of taking account of persons under their command or abiding in their houses, on the night immediately preceding the day to be appointed for the making of such enumeration. Every person so required to

act as an Enumerator shall receive and conform to all instructions in writing which may be issued to him by the Commissioners in that behalf.

Returns of houseless persons.

**223.** The Commissioners shall obtain by such ways and means as shall appear to them best adapted for the purpose, and as shall be sanctioned by the Government, returns of the particulars required by these Regulations, with respect to all houseless persons and all persons who, during the said night preceding the day to be appointed for the making of such enumeration, were on outdoor night duty, or for any other reasons were not abiding in any house of which account is to be taken by the Enumerators.

*Powers to make Bye-laws.*

Commissioners empowered to make Bye-laws.

**224.** It shall be lawful for the Commissioners from time to time to make Bye-laws, and to repeal, alter and amend the same subject to the confirmation hereinafter mentioned, for the guidance and control of persons employed by them, and for the management and conduct of the places described in Sections 136, 178, 184, 185 and 190, and for preserving order and cleanliness in the Station and for carrying out any of the purposes of these Regulations. Provided that no such Bye-law shall be repugnant to any law in force, and that no penalty for any one infringement of such Bye-law shall exceed twenty Rupees, and that in the case of a continuing infringement [illegible] from the President of such infringement.

Bye-laws to be confirmed.

**225.** No Bye-law or alteration of a Bye-law shall have effect until the same is confirmed by the Resident in Mysore.

Notice of confirmation.

**226.** No Bye-law or alteration of a Bye-law shall be confirmed until the same has been published in one or more of the English and Vernacular newspapers published in Bangalore at least five times, nor till the space of one month has elapsed since the date of the first publication, during which period a copy of such proposed Bye-law shall be kept at the Office of the Commissioners, and all persons may, at any time between eleven o'clock in the morning and five o'clock in the afternoon, inspect such copy without fee or reward.

Publication of Bye-laws.

**227.** Such Bye-laws, when confirmed, shall be published in one or more of the English and Vernacular newspapers published in Bangalore, and copies thereof shall be painted and placed on boards which shall be hung up in some conspicuous part of the Office of the Commissioners.

Bye-laws to be judicially noticed.

**228.** All Courts and Magistrates shall take judicial notice of such Bye-laws, when the same shall have been confirmed and published as aforesaid.

Existing Bye-laws to continue in force till repealed.

**229.** All Bye-laws in force at the time when these Regulations come into operation, shall be deemed to be made under these Regulations.

*General Provisions.*

Publication of Penalties.

**230.** The Commissioners shall publish short particulars of the several offences for which any penalty is imposed by these Regulations, or by any Bye-laws made under these Regulations, and of the amount of every such penalty, and shall cause such particulars, in the English, Tamil, Kanarese and Hindustani languages, to be painted or placed on boards which shall be hung up in some conspicuous part of the Office of the Commissioners.

Power to summon persons liable to taxation, &c.

**231.** It shall be lawful for the Commissioners to summon the owner or occupier of any place which is liable to taxation, registration, or inspection, or which requires to be licensed under these Regulations, or in respect of which they are authorised to do any act, or to make any order; or the owner of any article or animal liable to taxation or registration, or the agent or servant of such owner or occupier, and examine him, or to require him to make a return in writing, in respect of any matter relating to such place, article, or animal upon which they may require information for the purposes of these Regulations.

Power to inspect places, articles or animals.

**232.** It shall be lawful for the Commissioners, their officers, and servants, at any time between sunrise and sunset to enter into or upon any land or building for the purpose of inspecting any place, animal, or thing which is liable to taxation, registration, or inspection, or which should be licensed under these Regulations, or any place which is supplied by the Commissioners with water or gas, or through which water or gas pipes may run, or for the purpose of making any survey, or of executing, repairing, or inspecting any work, or of doing any other act authorised by these Regulations to be done by the Commissioners. Provided that the Commissioners, their officers, and servants shall not enter into any apartment occupied by any woman, unless with the consent of such woman; without giving to the occupier of the house six hours' notice of their intention to do so.

Penalty for obstructing Municipal Officers in the discharge of their duty.

**233.** Whoever shall, without lawful excuse, obstruct, molest, or hinder the Commissioners, or any of their officers or servants, not being public servants within the meaning of Section 21 of the Indian Penal Code, in doing any act authorized by these Regulations to be done by the Commissioners, shall be liable to a fine not exceeding two hundred Rupees.

Service of summonses, &c.

**234.** Every bill, schedule, notice, or summons required or authorized by these Regulations to be served upon any person shall, if practicable, be served personally, upon the person to whom it is addressed, or, if he cannot be found, it may be served upon some adult male member of his family living with him; or if no such member of his family be found, then such bill, schedule, notice, or summons shall be held to be duly served if it be affixed to some conspicuous part of the house in which such person shall have

last resided: Provided that, if the President shall know the place of residence of such person, and such place shall be beyond the Municipal limits, the President shall send a copy of such bill, schedule, notice, or summons to such person at that place by post; and any bill, schedule, notice, or summons so sent by post shall be held to be duly served.

Commissioners may direct prosecutions.

**235.** The Commissioners may direct any prosecution for any public nuisance whatsoever and may order proceedings to be taken for the recovery of any penalties and for the punishment of any persons offending against the provisions of these Regulations; and if judgment shall be given against the defendant, the Magistrate may award the Commissioners their full costs; but on failure of conviction, the expenses of such prosecution or other proceeding, and any costs awarded to the defendant by the Magistrate shall be paid out of the Municipal Funds. But nothing in this section shall be held to hinder any person from publicly prosecuting any other person for any nuisance.

Regulations not to affect nuisances at common law.

**236.** Nothing in these Regulations shall be construed to render lawful any act or omission on the part of any person which is, or but for these Regulations would by law be, deemed to be a nuisance, nor to exempt any person guilty of [illegible] who secution or action in respect [illegible] the building or [illegible] have happened, [illegible] the day of such Commissioners, or their officers, or [illegible] acting under the direction of the Commissioners for any thing done or intended to be done under the powers of these Regulations until the expiration of one month next after notice in writing shall have been delivered or left at the Office of the Commissioners or at the place of abode of such person, explicitly stating the cause of action and the name and place of abode of the intended plaintiff, and of his Attorney or Agent in the cause, and upon the trial of any such action, the plaintiff shall not be permitted to go into evidence of any cause of action, except such as is stated in the notice so delivered, and unless such notice be proved, the Court shall find for the defendant, and every such action shall be commenced within three months next after the accrual of the cause of action, and not afterwards; and if any person to whom any such notice of action is given shall, before action is brought, tender sufficient amends to the plaintiff, such plaintiff shall not recover in any such action when brought, and if no such tender shall have been made, it shall be lawful for the defendant in such action, by leave of the Court where such action shall be pending, at any time before issue joined, to pay into Court such sum of money as he shall think fit and thereupon, such proceedings shall be had as in other cases where defendants are allowed to pay money into Court.

**237.** [illegible]

No action to be brought against Commissioners or their Officers until after one month's notice of cause of action.

Power to make compensation out of the Municipal Funds.

**238.** The Commissioners may, on a resolution to that effect passed by them at a meeting, make compensation, out of the Municipal Funds, to all persons sustaining any damage by reason of the exercise of any of the powers vested in the Commissioners, their officers, or servants, under and by virtue of these Regulations.

Fees for licenses, &c.

**239.** When any license or registration is granted under the provisions of Sections 136, 178, 184 or 190 of these Regulations authorizing the use of any place for any of the purposes therein described, and when permission is given under Section 112 for making any temporary erection, or under Section 127 for putting up any projection, the Commissioners may charge a fee for such license, registration, or permission; and the rates of the fees to be so charged shall be, from time to time, adjusted by the Commissioners with the sanction of the Resident in Mysore; Provided that no such fee shall exceed the sum of one hundred Rupees. When permission or license is given for the temporary occupation of any ground belonging to the Commissioners under the provisions of Sections 174 and 176, the Commissioners may charge rent for such ground, according to the time the occupation may continue. Provided that all licenses, permissions, or registrations hitherto granted under any law hereby repealed, shall be valid and continue in force for the purposes of these Regulations.

**240.** In all cases where any damages or ex- [illegible] ator or other officer when called upon so to do, or to furnish the necessary information to an Enumerator to fill up the same for him, if he do not know how to write, shall be liable to a penalty not exceeding two hundred Rupees, and may also be detained in custody until he shall have correctly filled up and signed, or affix- [illegible] lawful for the said Court [illegible]

Method of proceeding before the Civil Court.

the application of either party, to summon the other party to appear before them, at a time and place to be named in such summons, and every such summons shall be served by delivering the original or a copy thereof to the person summoned, or by leaving the same at his usual or last known place of abode with some adult member or servant of his family. Upon the appearance of the parties, or in the absence of any of them, upon proof of due service of the summons, it shall be lawful for such Court to hear and determine such questions, and, for that purpose, to examine such parties or any of them, and their witnesses, on oath, and the costs of every such inquiry shall be in the discretion of such Court who shall determine the amount thereof.

Recovery of damages by distress.

**242.** If the amount of damages, costs, or expenses ascertained in the manner above described, be not paid by the party liable to pay the same within seven days after demand, such amount may be recovered, under a warrant of one of the said Magistrates, by distress and sale of the goods and chattels of such party, and the overplus arising from the sale thereof, after satisfying such amount and the costs of the distress and sale, shall be returned on demand, if made within twelve months, but not otherwise, to the party whose goods shall have been distrained.

**243.** Instead of proceeding by distress and sale and in case of failure to realize by distress the whole or any part of any expenses, charges or damages awarded under the provisions of these Regulations, the Commissioners may sue the person liable to pay the same in any Court of competent jurisdiction.

Commissioners may sue in any competent Court instead of realizing by or on failure of distress.

**244.** Every prosecution under these Regulations in cases not otherwise provided for, shall be taken before a Magistrate with full powers having jurisdiction in the place in which the offence was committed. Any fine or penalty which may be imposed under these Regulations or under any Bye-laws in force, may be levied in the manner prescribed by Section 307 of the Code of Criminal Procedure.

Recovery of fines and penalties.

**245.** The Magistrate by whom any fine or penalty is imposed by virtue of these Regulations may award any portion, not being more than one-half thereof, to the informer, and shall order the remainder or, if he make no award to the informer, the whole of such fine or penalty to be paid to the Commissioners, to be by them applied to the purposes of these Regulations.

How fines and penalties are to be applied.

**246.** No person shall be liable to any fine or penalty under these By[illegible] one infringement of such Bye-law shall exceed twenty Rupees, and that in the case of a continuing infringement [illegible] from the President of such infringement.

No person liable to fine [illegible]

**225.** No Bye-law or alteration of a Bye-law shall have effect until the same is conf[illegible]

Bye-laws to be confirmed.

**247.** If, through any act, neglect, or default on account whereof any person shall have incurred any penalty imposed by these Regulations, any damage to the property of the Commissioners shall have been committed by such person, he shall be liable to make good such damage, as well as to pay such penalty; and the amount of such damage shall, in case of dispute, be determined by the Magistrate by whom the party incurring such penalty shall have been convicted; and on non-payment of such damage on demand, the same shall be levied by distress, and such Magistrate shall issue his warrant accordingly.

Damage to the Commissioners' property to be made good in addition to penalty.

**248.** It shall be the duty of all Police Officers to give immediate information to the Commissioners or to their officers of any offence committed contrary to the provisions of these Regulations, or the Bye-laws made in pursuance of Section 224 of these Regulations. Any Police Officer may arrest any person committing in his view any offence against any of the provisions of these Regulations, if the name and address of such person be unknown to him, and if such person decline to give his name and address, or if the Police Officer in question shall have reason to doubt the accuracy of such name and address, such person may be detained at until his name and address shall ined.

Police Officers to report offences to Commissioners, and to arrest unknown offenders.

Power to inspect places, articles or ani- for the purpose of thing which itle. inspect

lations may be cited as the Bangalore Municipal Regulations of 1883.

*Secretary to the Government of India.*

---

## DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS.

*Fort William, the 9th February 1883.*

**No. 732.**—The following Addenda and Corrigenda to the Codes of the Financial Department are published for general information :—

CIVIL PENSION CODE.

PAGE 37.

*Section 81.*

*Substitute the following for this Section :—*

81.—Service paid from an Excluded Local Fund does not qualify; but this Rule shall not be held to prohibit the grant and payment of pensions under the general Rules of this Code by the authorised administrators of any such Fund. The Government is in no way responsible for the sanction or continuance of such pensions, and no standing order for their payment may be issued to or received by any Government Treasury.

[NOTE.—Sections 125 to the end of the Code do not apply to these pensions. Nor does Rule 1 under Section 82 apply to an Excluded Local Fund.]

*Section 83.*

*For the word "a" substitute "an Incorporated." And in Rule 1, between the words "from" and "Local" in the second line, insert "Incorporated."*

**No. 769.**—The rate of exchange for the adjustment of Financial transactions between the Imperial and Indian Governments for the year 1883-84 has been fixed by the Secretary of State for India, with the concurrence of the Lords Commissioners of the Treasury, at one shilling and seven pence three farthings (1*s.* 7¾*d.*) the rupee.

D. M. BARBOUR,
*Secretary to the Government of India.*

HENRY F. BLANFORD,
*Meteorological Reporter to Government of India.*

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

**Terms of subscription, payable annually in advance.**

| | Without Postage. | With Postage |
|---|---|---|
| For the CALCUTTA SERIES . | R35 | R37-8 |
| ,, MADRAS SERIES . | ,, 8 | ,, 9 |
| ,, BOMBAY SERIES . | ,, 8 | ,, 9 |
| ,, ALLAHABAD SERIES . | ,, 8 | ,, 9 |
| Complete set . . . | ,,45 | ,,47-8 |

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

| | | |
|---|---|---|
| For a Part of the CALCUTTA SERIES . | R3 | 8 |
| ,, ,, MADRAS SERIES . | ,, 1 | 0 |
| ,, ,, BOMBAY SERIES . | ,, 1 | 0 |
| ,, ,, ALLAHABAD SERIES | ,, 1 | 0 |
| Complete set . . . . . | ,, 4 | 0 |

Persons desiring to subscribe for or purchase the Reports, should apply to—
MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

*Orders and Subscriptions for 1878 should be at once remitted.*

## THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at R375 a set.

☞ The following books may be purchased from the Office of Superintendent of Government Printing, India, No. 166, Dhurrumtollah Street, for private use only, which should be stated in the requisition.

No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every Rupee's worth of stamps, for discount in exchanging them for cash. Service labels or Court Fee stamps are not received.

Books required for the public service cannot be supplied on payment; they are only issued on the authority of the Department to which the indenting officer is subordinate. Applications for them should be made through the Local Government under which the applicant serves.

*Royal 8vo, half calf.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 9th February, 1883, and is hereby promulgated for general information :—

## ACT No. III OF 1883.

*An Act to repeal Act XXVII of 1854.*

Preamble.

WHEREAS Act XXVII of 1854 (*to amend the law relating to the Názim of Bengal*) provides for the service and execution of processes within the precincts of the palace of the Názim at Murshidábád, through the Superintendent of the affairs of the Nizámat, or other officer discharging like functions;

And whereas by an indenture dated the first day of November, 1880, and made between His Highness Sayyad Mansúr Alí, Nawáb Názim of Bengal, of the first part, the Secretary of State for India in Council of the second part, and certain other persons of the third part, the Nawáb Názim of Bengal has, for certain valuable considerations in the indenture mentioned, relinquished and retired from the Nizámat and Súbahdárí of Bengal, Bihár and Orissa, and his position as Názim and Súbahdár of Bengal, Bihár and Orissa, and his right as Nawáb Názim for the time being to the authority, dignities, stipend, pay, allowances, properties, privileges and rights thereof, or in any wise thereunto annexed or appertaining or therewith enjoyed, and all right and title to interfere or intermeddle hereafter in any way, directly or indirectly, with anything concerning the said Nizámat and Súbahdári;

And whereas, in consequence of the arrangements made by the said indenture, the office of Superintendent of the affairs of the Nizámat has been abolished, and there will in future be no officer discharging the like functions, and it is therefore expedient to repeal Act XXVII of 1854; It is hereby enacted as follows :—

Repeal of Act XXVII of 1854.

1. Act XXVII of 1854 is repealed.

„ Consulting Engineer to Government of India for Guaranteed Railways, No. 3303, dated 15th September, 1882 [Paper No. 17].

2. Since the Bill was circulated, several valuable suggestions have been made to us as to points in which the Indian Railway Act, IV of 1879, might be amended. We think, however, that, as the extension of Railways in this country will probably necessitate before long a general revision of that Act and the preparation of a Bill calculated to meet the growing wants of the country, it is expedient to confine ourselves to the matters with which the Bill before us is concerned, and to leave suggestions on other points to be considered when the whole of the law relating to Indian Railways is dealt with.

3. With this view we have made only such amendments in the Bill as we deemed necessary or desirable in order the better to give effect to the present intentions of the legislature. These amendments are briefly as follows:—

(1) In section 5 A (present numbering) we have enabled the Governor General in Council to appoint officers either by name or by virtue of their office to be inspecting officers under the Act.

We have drawn section 5B so as to render it unnecessary for the Governor General in Council specially to appoint an officer to inspect any particular Railway, and as it may, in some cases, be desirable that sanction should be obtained at once to the opening of a Railway, and that the inspecting officer's report should be communicated by telegraph, we have omitted the provision requiring that officer's report to be in writing.

(2) In sub-section (2) of the same section we have given the Governor General in Council power to confer, in any particular case or class of cases, on the inspecting officer the power to sanction the opening of a Railway or portion of a Railway. As the Bill was drafted, this power had

to be conferred in each particular case, and we considered that it would be more convenient to enable a general power to be conferred on the inspecting officer for dealing with any particular class of cases, such as minor additions to, or extensions of, a Railway.

(3) In sub-section (3) we have reserved to the Governor General in Council a power to review any sanction given by an inspecting officer, and to cancel or modify it.

(4) To meet a case when it is desirable to sanction the opening of a line subject to conditions which are to be complied with by a Railway Administration, we have, in sub-section (4), expressly declared that the sanction may be absolute or subject to conditions. We have accordingly provided in sub-section (5) that, when a conditional sanction is granted for the opening of a Railway and the conditions are not complied with, the sanction shall at once be deemed to be void, and that the Railway shall not be used until sanction is again obtained.

(5) To provide for the case where, after sanction has been given for the opening of a Railway, an alteration is made in it by the Administration, we have in section 5C (present numbering) prohibited the use of any portion of a Railway, so altered as to interfere with the safety of passengers, until formal sanction has been obtained for the opening of the portion for the public conveyance of passengers.

(6) In section 5D (present numbering) we have conferred upon officers appointed to inspect Railways the additional power of inspecting the rolling-stock used on a Railway, and have amended sections 5C (now 5E), 5D (now 5F) and the penal provisions contained in section 4 of the Bill accordingly.

4. We have made a few minor alterations in the Bill which do not call for special notice.

5. The Bill has been published, and we recommend that it should be passed as now amended; but first we consider, having regard to the amendments we have made, that it should be republished in the *Gazette of India*.

*The 25th January, 1883.*

## No. II.

*A Bill to amend the Indian Railway Act, 1879.*

IV of 1879.

Preamble.

WHEREAS it is expedient to amend the Indian Railway Act, 1879, in manner hereinafter appearing; It is hereby enacted as follows:

Short title. Commencement.

1. This Act may be called the Indian Railway Act, 1882; and it shall come into force at once.

New sections substituted for section 5 of Act IV of 1879.

2. For section five of the said Act the following sections shall be substituted, namely:—

Railway when to be opened.

"5. A Railway, or portion or extension of, or addition to, a Railway, shall not be opened for the public conveyance of passengers until the Railway Administration has given to the Governor General in Council notice in writing of the intention of opening the same, and until the Governor General in Council has by order sanctioned the opening of the same.

Governor General in Council may appoint Inspecting-officers.

"5A. The Governor General in Council may from time to time appoint, by name or by virtue of their office, officers to be Inspecting-officers under this Act.

Sanction not to be given until after report by Inspecting-officer.

"5B. (1) The sanction referred to in section five shall not be given until an officer appointed under section 5A has, after inspection of the Railway, portion, extension or addition, as the case may be, reported to the Governor General in Council that in his opinion the opening of the same would not be attended with danger to the public using it.

"(2) Notwithstanding anything hereinbefore contained, the Governor General in Council may, in any particular case or in any particular class of cases, by special order, confer on any officer appointed under section 5A power to sanction the opening of a Railway, portion, extension or addition, if in the officer's opinion the opening of the same will not be attended with danger to the public using it.

"(3) In such case it shall not be necessary to make the report required by sub-section (1); but the Governor General in Council may by order cancel the sanction given under sub-section (2), or direct that the sanction shall be subject to such conditions as he thinks fit.

"(4) The sanction given under this section may be either absolute or subject to such conditions as the Governor General in Council, or the officer appointed under section 5 A, as the case may be, thinks necessary for the safety of the public.

"(5) When sanction for the opening of any Railway, or portion or extension of, or addition to, any Railway is given subject to conditions and the Railway Administration fails or neglects to fulfil, or comply with, those conditions, the sanction shall on the failure or neglect forthwith be deemed to be void, and the Railway, or portion, or extension, or addition, as the case may be, shall not be used unless and until sanction is again obtained under this section for the opening thereof.

When alterations affecting safety of passengers are made in Railway, sanction to be again obtained for opening.

"5C. If, after a Railway has been opened as hereinbefore provided, any portion of it is so altered by the Railway Administration as to cause danger to, or affect the safety of, passengers carried thereon, the portion so altered shall not be used for the public conveyance of passengers, unless and until sanction is obtained, in accordance with the provisions of section 5B, for the opening of it.

[34 & 35 Vic., c. 78, s. 4.]

"5D. (1) Every officer appointed under section 5A shall, for the purpose of the inspection, be deemed to be a public servant within the meaning of the Indian Penal Code, and shall, subject to the control of the Governor General in Council, have the following powers, namely:—

Powers of Inspector of Railways.

"(*a*) he may enter on and inspect any Railway or portion thereof which has been opened for the public conveyance of passengers, or any rolling-stock used thereon;

"(*b*) he may by an order in writing under his hand require the attendance of any Railway-servant whom he thinks fit to call before him and examine for the said purpose, and may require any such servant to answer, or furnish returns regarding, such inquiries for the said purpose as he thinks fit to make;

"(*c*) he may require and enforce the production of all books, papers and documents belonging to or in the possession of any Railway Administration which in his opinion are necessary for the said purpose.

"(*2*) Every Railway Administration whose Railway or rolling-stock is being inspected under this Act shall afford all reasonable facilities for making the inspection to the officer making it.

"5E. When, after inspecting any Railway or portion of a Railway, or any rolling-stock used thereon, any officer appointed under section 5A reports to the Governor General in Council that in his opinion the use of the Railway or portion or of any specified rolling-stock will be attended with danger to the public using it, the Governor General in Council may, by order, direct that the Railway or portion be closed for the public conveyance of passengers, or that the rolling-stock so specified shall no longer be used, as the case may be.

Governor General in Council empowered to close Railway.

"5F (*1*) When a Railway or portion of a Railway has been closed under section 5E, it shall not be re-opened for the public conveyance of passengers unless and until it has been inspected, and its opening sanctioned, in accordance with the provisions of section 5B.

Re-opening of Railway

"(*2*) When the Governor General in Council has directed under section 5E that any rolling-stock shall not be used, the rolling-stock shall not be used unless and until an officer appointed under section 5A reports that it is fit for use and the Governor General in Council sanctions its use."

3. In section eight of the said Act, in clause (*d*), the word "and" shall be omitted, and after clause (*d*) the following clause shall be, and be deemed to have always been, inserted:—

Amendment of, and addition to, section 8.

"(*dd*) for regulating the conduct of the Railway-servants, and".

4. For section twenty-one of the said Act the following section shall be substituted:—

New section to be substituted for section 21 of Act IV of 1879.

"21. Any Railway Administration opening or using, in contravention of section five or section 5C, any Railway, or any portion or extension of, or addition to, a Railway, or keeping, in contravention of an order of the Governor General in Council, under section 5E, any Railway or portion thereof open, or re-opening, in contravention of section 5F, sub-section (*1*), any Railway or portion thereof, or using, in contravention of section 5F, sub-section (*2*), any rolling-stock, shall forfeit to Government the sum of one thousand rupees for every day during which the Railway, portion, extension or addition remains open or is used in contravention of any of those sections or of the order of the Governor General in Council, as the case may be, or during which the rolling-stock is used."

Penalty for opening or re-opening Railway in contravention of sections 5 and 5D, and keeping open after order under section 5C

R. J. CROSTHWAITE,

*Addl. Secy. to the Govt. of India.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 2nd February, 1883:—

## No. 3 OF 1883.

*A Bill to authorize the Universities of Calcutta, Madras and Bombay to grant certain honorary degrees.*

Preamble.

WHEREAS it is expedient to amend the law relating to the granting of honorary degrees, and to give to the Universities at Calcutta, Madras and Bombay the power of granting the degree of Doctor of Laws to persons who have not undergone a previous examination;

It is hereby enacted as follows:—

Repeal of Act XXI of 1875.

1. Act No. XXI of 1875 (*an Act to authorize the University at Calcutta to grant honorary degrees*) is repealed.

Power to confer honorary degree of Doctor of Laws.

2. If the Vice-Chancellor and not less than four of the other members of the Syndicate for the time being of any of the Universities at Calcutta, Madras and Bombay recommend that an honorary degree be conferred on any person, on the ground that he is, in their opinion, by reason of eminent position and attainments, a fit and proper person to receive such a degree, and if the Chancellor of the respective University confirms the recommendation, the Chancellor, Vice-Chancellor and Fellows for the time being of the University may confer on that person the degree of Doctor of Laws, without requiring him to undergo any examination.

## STATEMENT OF OBJECTS AND REASONS.

BY Acts II, XXII and XXVII of 1857, by which the Universities of Calcutta, Bombay and Madras were respectively established and incorporated, power is given to grant degrees only after examination, and Act XLVII of 1860 only extends the number and description of degrees which can be conferred, but leaves the necessity of a previous examination untouched. No Act giving power to grant honorary degrees was passed until 1875, when an Act was passed to enable the Calcutta University to confer honorary degrees. That Act enables the University to grant any honorary degree, but it is thought desirable to confine the power to the grant of the degree of Doctor of Laws, in accordance with the ordinary practice of the Universities in England. Madras and Bombay have never had power to grant honorary degrees. It is now proposed to place the Universities at all the three Presidency-towns on the same footing with regard to these degrees.

2. With this view section 1 of the proposed Bill repeals Act XXI of 1875. By the Act establishing the Universities, the power to confer degrees is granted to the Chancellor, Vice-Chancellor and Fellows, in whom, therefore, the power to grant honorary degrees is also vested by section 2 of the Bill. An honorary degree is not, however, to be granted to any person unless the Vice-Chancellor and not less than four of the other members of the Syndicate recommend the grant and the Chancellor confirms the recommendation.

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[First publication]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th February, 1883 :—

## No. 4 OF 1883.

*A Bill to amend the law in force in the Little Cocos Island and Preparis Island.*

WHEREAS the Little Cocos Island and Preparis Island have been transferred to the administration of the Chief Commissioner of British Burma, and attached to the Hanthawaddy District of the Pegu Division of British Burma;

And whereas the Little Cocos Island, when subject to the administration of the Chief Commissioner and Superintendent of the Andaman and Nicobar Islands, formed portion of a Scheduled district under the Scheduled Districts Act, 1874, and was subject to the operation of the Andaman and Nicobar Regulation, 1876;

XIV of 1874.

III of 1876.

And whereas it is expedient that the law in force in the Little Cocos Island and in the Preparis Island should be the same as that in the Hanthawaddy District of the Pegu Division of British Burma;

It is hereby enacted as follows :—

Short title and commencement.

1. This Act may be called the Little Cocos and Preparis Islands Laws Act, 1883 : and it shall come into force on the passing thereof.

Declaration of laws to be in force in Little Cocos and Preparis Islands.

2. All enactments which, on the twenty-ninth day of November, 1882, were in force in the Hanthawaddy District of the Pegu Division of British Burma, shall be deemed to have come into force in the Little Cocos and Preparis Islands on that day; and all enactments which, on that day, were in force in those Islands and not in that District shall be deemed to have been repealed on and from that day in those Islands.

Provision as to pending proceedings.

3 All proceedings commenced before any authority in those Islands before the twenty-ninth day of November, 1882, and still pending, shall be disposed of by such authority as the Chief Commissioner of British Burma may direct, and, save as directed in this section, shall be carried on as if this Act had not been passed.

Withdrawal of Little Cocos Island from Andaman and Nicobar Islands Regulation, 1876, and Scheduled Districts Act, 1874

4. On and from the twenty-ninth day of November, 1882, the Little Cocos Island shall be deemed to have been removed from the operation of the Andaman and Nicobar Islands Regulation, 1876, and to have ceased to be a Scheduled district.

## STATEMENT OF OBJECTS AND REASONS.

THE Little Cocos Island formed a portion of the territories administered by the Chief Commissioner of the Andaman and Nicobar Islands, and, as such, a portion of a Scheduled District under Act XIV of 1874; the Andaman and Nicobar Islands being a district named in Part VIII of Schedule I of that Act.

2. For administrative purposes it was thought advisable to transfer this Island to the Administration of the Chief Commissioner of British Burma, and to attach it to the District of Hanthawaddy in British Burma. It is, therefore, necessary to withdraw the Little Cocos Island from the operation of the Scheduled Districts Act and of the Andaman and Nicobar Islands Regulation, 1876, and to make the laws in force there the same as those in force in the district of Hanthawaddy. Preparis Island, which was only nominally included in the territories administered by the Chief Commissioner of the Andamans, and which is not a portion of a Scheduled District, has also been attached to the Hanthawaddy District in British Burma, and it is expedient therefore to have the same laws in force in Preparis Island as in the Hanthawaddy District.

3. These objects are effected by sections 2, 3 and 4 of the Bill, the change of the law being made to take effect from the date on which the Islands were transferred to British Burma.

## HOME DEPARTMENT.

### CORRESPONDENCE RELATING TO THE EDUCATION OF EUROPEAN AND EURASIAN CHILDREN IN INDIA.

No. 2 / 56—66

*Extract from the Proceedings of the Government of India, in the Home Department (Education),—under date Fort William, the 8th February* 1883.

READ again—

Home Department Resolution No. 8, dated the 8th October 1881, reviewing the subject of the education of European and Eurasian children in India, and appointing a Committee to prepare a draft Code for regulating the grant of Government aid to European and Eurasian schools.

Despatch from Her Majesty's Secretary of State for India, No. 27, dated 23rd February 1882, approving of the proposals set forth in the foregoing Resolution.

Letter No. 4461, dated the 20th July 1882, from A. W. Croft, Esq., submitting the draft Code drawn up by the Committee appointed in the said Resolution, together with an Explanatory Report.

Home Department letter No. 484, dated the 20th September 1882, thanking the Committee and inviting them to re-consider certain points in the draft Code.

Letter No. 2, dated 22nd December 1882, from A. W. Croft, Esq., in reply to the foregoing, with revised copy of the draft Code.

## RESOLUTION.

IN paragraph 22 of the Resolution of the 8th October 1881, the Governor General in Council appointed a Committee* to draft a Code for regulating the conduct of European education in the Bengal Presidency so far as this is dependent upon Government support. The Committee were instructed to consider, in accordance with the general principles laid

*President:*

* A. W. Croft, Esq., Director of Public Instruction, Bengal

*Members:*

The Venerable Archdeacon Baly.

The Very Reverend Father Van Impe, Rector of St. Xavier's College.

The Reverend J. Robertson, Principal of the Free Church College, Calcutta, and late Principal of the Doveton Institution.

that if the proposed rates were applied to existing primary and middle schools, the additional expenditure, if any, that would fall on Government, would not at the outset exceed 10 per cent. The case of high schools is considered in a later paragraph.

Means adopted to obtain the opinion of experts.

5. The standards of examination which we proposed to adopt were sent to the Directors of Public Instruction in the different provinces to which the Code is intended to apply, as well as to the managers of all European schools in those provinces, with the object of obtaining an expression of their views upon our proposals. We also took the opportunity of consulting those educational officers from Bombay and Madras who were present in Calcutta during the cold weather as members or the Education Commission. The majority of those whom we consulted approved entirely of the standards proposed, and all were willing to accept them with modifications. Of the many valuable suggestions that we received, the most important have been adopted. In the Central Provinces, indeed, it was represented that the standards were uniformly too high; but on a careful examination of those proposed by the Inspector General of Education, we found that the main difference lay in the introduction of an initial standard of examination below that which we have adopted as standard I. We hold, however, to the opinion that no advantage is likely to result from the individual examination of children at so early a stage of their school career. For children at that stage, we are of opinion that grants should be determined solely by attendance, organization, and discipline; and we have accordingly proposed in their case a higher rate of attendance grant.

The mode of introducing the Code.

6. We are unanimously of opinion that if the Code in its present form is approved by His Excellency the Governor-General in Council, it should not be brought into full operation immediately. We recommend that, in the first two years, the schools should be examined under the proposed standards by an Educational officer specially deputed to that duty, and the amounts that would be earned under the Code recorded for future guidance; but that during that period no change should be made in the grants now enjoyed by the schools. The information obtained during this period of transition will enable the Education Department to determine the sufficiency and suitability of the rates here tentatively proposed, and to modify them in any way that experience may show to be necessary; while the schools will have time allowed them to work up to the proposed standards. The revised rates may then be finally introduced, and grants made to schools in strict accordance with them; with the possible modification, should such a course be found desirable, that in the third year half the grants should be made on the old, and half on the new system, the full introduction of the Code being postponed to the fourth year. This appears to us to be the only satisfactory method of removing the uncertainty that must otherwise attend the introduction of the new system, and of securing that "no avoidable harm is done to existing schools." In the words of the Resolution (paragraph 19), "the system must be introduced gradually, with such temporary modifications and adaptations as will enable all really sound institutions to bear the change without injury. As time goes on and the standard of education rises, the conditions of the grants may be modified and made more stringent."

7. Having thus explained our view of the practical value of the scheme which we have the honour to submit, we now proceed to explain in detail the principles by which we have been guided and the methods by which we propose to give effect to them.

The definition of the term "European."

8. We have adopted, with a few verbal modifications, the definition of the term "European" given in the note appended to paragraph 6 of the Resolution. We anticipate, however, that there will be difficulty in applying the definition to particular cases. We were at first disposed to recommend that the term should be applied only to those children whose parents (or one of whose parents) use a European language as a vernacular; but on reconsideration we found that, apart from the general difficulty of applying such a test, it might have the effect of excluding from the benefits of the Code a certain number of children, specially those of unknown parentage, in free schools and orphanages, for whom the Gov-

ernment of India intended that provision should be made. On the other hand, it should be understood that the definition, as it now stands, does not clearly exclude such classes as the "Feringhis" of Chittagong, the "Portuguese" of Bombay, or the Indo-Chinese of Calcutta, who can hardly be regarded as having been contemplated in the Resolution. These classes would be largely, if not entirely, eliminated by the application of the language test.

The scope of the resolution.

9. As explained in the Resolution (paragraph 19), "the chief object to be kept in view is the provision of greater facilities for the education of the poorer classes of European children." This is to be secured by a more equitable distribution of grants-in-aid, by the award of scholarships, and by providing a larger supply of efficient teachers; and the only conditions laid down (paragraph 18) are (1) that the system shall be one of strict religious neutrality; (2) that all schools which give a sufficient and suitable secular education shall be eligible for aid; (3) that aid shall be given on the system of payment-by-results; and (4) that every aided institution shall be freely open to the inspection of the Government educational officers.

The conscience clause.

10. The Resolution does not appear to contemplate any application of the principle of religious neutrality beyond requiring that no school shall be disqualified for a grant-in-aid because of the religious denomination to which it belongs. This would probably be sufficient for all practical purposes in these places in which schools suited to the various denominations actually exist, but it does not meet the case of those places in which there is room for only one or two schools, and in which, therefore, children of one denomination will have to attend schools of another. In the last-mentioned case it appears to us only reasonable that an institution aided by the State should be subject to a conscience clause; and the existence of such a clause in all aided institutions will probably tend to give increased facilities for education. We have therefore recommended (article 5) that every aided institution shall be conducted in accordance with a conscience clause similar to that which is enforced in every public elementary school in England and Scotland, and in every Irish National school. We do not recommend that the managers of every aided school should be required to give facilities, on the school premises, for the religious instruction of scholars whose parents object to that given in the school. In schools established wholly or for the most part by Government such facilities might well be required, as is the case in the "vested" schools of Ireland; but a school built mainly by voluntary subscriptions, like the "non-vested" schools, must in fairness be left in this respect entirely under the control of its managers. We think it sufficient that no scholar shall be required to attend any religious service, or to receive any religious instruction, against the expressed wish of his parents or guardians. But to give greater prominence to the principle of religious neutrality, as well as to make it clear that grants are given only on account of "a sufficient and suitable secular education," we have inserted in article 6 the declaration that no grant is given for or in respect of any instruction in religious subjects. A similar declaration will be found in article 7 (*a*) of the English and Scotch Codes. We have reason to believe that the proposed conscience clause will be generally acceptable.

The eligibility of all schools that give a sufficient and suitable secular education.

11. The principle of the eligibility of all schools that fulfil the condition of giving a sufficient and suitable secular education is enunciated in the Resolution in connection with the requirement of religious neutrality, and appears to us to have been intended to prevent the exclusion of any school on religious grounds, rather than to secure the inclusion of all schools that satisfy the condition. However this may be we are of opinion that the principle should not be adopted without limitations of a somewhat stringent character. There are certain schools which, owing to their high rate of fees or the possession of substantial endowments, are, or ought to be, independent of Government support; and in view of the strong tendency in this country to lean as much as possible on Govern-

Exceptions. Schools with a large income from fees or endowments.

ment, we think it desirable that such schools should be excluded from the operation of the Code. We have, therefore, introduced into article 6 the limitation that no grant shall be made in respect of any school, the income of which from all sources is sufficient, in the opinion of the Education Department, to maintain it in efficiency. But as it is evident that there are high schools which may require aid in varying degrees, we have provided in article 40 that such schools shall not receive the full grants to which they would otherwise be entitled under the Code, but only such a proportion of the full grants as the Department may think necessary in order to maintain them in thorough efficiency. We admit that we are not entirely satisfied with this method of fixing the grants to high schools, the working of which may not be free from difficulty; but after careful consideration of the arguments adduced in the next paragraph, we have found ourselves compelled to introduce some such condition as this, on account of the large amounts that might otherwise be claimed by flourishing schools in Calcutta, which stand in no real need of such assistance. Under the conditions of a fixed total grant for European education, the admission of such schools to the full benefit of the Code could only have the effect of largely reducing the amount available for grants to small and poor schools, and of developing high education at the expense of primary and middle.

The corresponding limitation in the English and Scotch Codes is that, in any school receiving aid, the ordinary fee for instruction must not exceed nine pence a week (English Code, article 4; Scotch Code, article 6 *d*); but with our present information we are unable to recommend the introduction of a fee limit.

Objection to the proposed method of determining grants to high schools.

12. One of our number is unable to concur in the recommendation of this mode of determining the grants to high schools, and desires to place his views on record, so that they may be taken into consideration in the final settlement of the question. Exception is taken to the proposed method, because it introduces a principle that has been carefully excluded in determining the grants to primary and middle schools. Grants earned by the latter are limited only by their income from all other sources (article 38); grants to high schools are similarly limited, but are finally determined by expenditure (article 40). The question of efficiency need not be considered in this connection, as that is equally secured by either method. But it is contended that the principle of basing grants on expenditure has a tendency to encourage and develope small schools, by making it possible to maintain schools with a comparatively small number of scholars; and that it fails to supply the stimulus to the formation of large schools which is secured by allowing a grant to increase with the income from other sources, that is, practically, with the number of scholars. A more serious objection is that the want of any uniform rule as to the rate of expenditure in the different high schools will cause great difficulty, and probably much uncertainty, in its application. This principle regulates the present grants to colleges in Lower Bengal, and in one case it has necessitated the substitution of estimated for actual expenditure. It will be practically impossible to obviate this awkward result in the case of Roman Catholic schools, the establishments of which, as a rule, provide only a subsistence allowance for their teachers. The full force of this objection may be seen by comparing the tuitional expenditure of such schools as Bishop Cotton's School, Simla, the Naini Tal Diocesan School, St. George's College, Mussoorie, the Allahabad High School, and St. Francis de Sales' School, Nagpore, in which the monthly expenditure varies from R14-12-5 to R3-13-4 for each scholar. The application of this principle will also cause grave irregularities in the rates of the grants allowed to the various schools. If carried out on the basis of actual expenditure, it will seriously reduce the grants to most Roman Catholic high schools; and if the expensive establishments of many of the hill schools are admitted to be necessary, it will allow these schools to draw full grants, while it reduces the grants to schools of precisely the same class in Calcutta. The principle therefore, it is urged, practi-

cally subsidises hill schools as opposed to Calcutta schools. If high schools were opened, as they should be, only where a number of scholars sufficient to justify the expense could be collected, the principle would be found to subsidise hill schools as opposed to schools in the plains, and thus to be inconsistent with the principle laid down in paragraph 15 of the Resolution. If it is contended that the proposed method is needed in order to secure the grants necessary for the maintenance of all high schools outside Calcutta, it is replied that these schools have been unnecessarily multiplied, that they have been opened at places where there is not a sufficient amount of local support, and that the supposed necessity is the direct result of the principle objected to, which facilitates the multiplication of small schools. The method proposed in the Code does not recognise the superior merit of either self-denial or success; it discourages a successful school, and encourages one that is less successful. It must thus tend to create uncertainty and dissatisfaction, and as the Department is not likely to allow any discussion of the reduction adopted for a particular school, this tendency will be greatly increased in any disputed case. In short, the proposed method leaves the present anomalies and inequalities in the mode of aiding high schools practically untouched, and affords no prospect of a final settlement of the question. If the condition of a fixed total grant for European education makes it impossible to admit all high schools to the benefits of the Code, it is contended that it would be more just and reasonable to adopt some method of eliminating schools that are intended for the better classes, and therefore charge high fees. The most direct method of securing this is to insist on a fee limit, as in England and Scotland, and to refuse grants to any school in which the monthly boarding fee exceeds R24, and the monthly tuition fee exceeds R2 in the primary, R4 in the middle, and R6 in the high department. If the amount to which high schools would thus be entitled should still absorb too large a proportion of the total grant, a further reduction might be secured by cutting off grants for attendance, as less necessary in those schools, and allowing grants for passes alone. This method would secure uniformity in all aided schools, and by tending to reduce high fees would give greater facilities for the education of the children of the poorer classes. Schools for the higher classes may be left to themselves, as in England and Scotland. But whatever method is finally adopted, it is contended that until fuller information is obtained than is at present available, it would be better to continue the present mode of aiding high schools than to introduce an exceptional method based on an uncertain principle.

Unnecessary schools.

13. We are all agreed in thinking that, where there are more schools than can reasonably be expected to be maintained in efficiency, the interests of education require that there should be some means of reducing their number; and when there is a tendency to multiply small schools for any purpose, denominational or other, an effort should be made to check this tendency. This is partly secured in England and Scotland by article 7 (*b*) of their Codes; but as the purpose we have in view is somewhat wider, we recommend that the limitation should be expressed as in article 6 (*c*) of the draft Code:—"No grant is made for or in respect of any schools which the Department declares to be unnecessary, or unsuited to the requirements of the locality." This limitation is all the more important in view of article 6 (*d*), which fixes the minimum of scholars constituting a school at 12.

Private adventure schools.

14. Further, we are of opinion, though on this point we have been unable to arrive at a unanimous conclusion, that as in England and Scotland, no school carried on with a view to private profit should be eligible for aid under the Code, and accordingly we have introduced this limitation into article 13(*b*), which corresponds to article 17(*b*) of the English and Scotch Codes. Its introduction is held to be justified, partly by the practice prevailing in other countries, but mainly by the considerations that efficient schools of this class can hardly be said to exist in India; that the majority of those that do exist have acted prejudicially to the interests of education by preventing the establishment of more efficient

schools; and that the recognition of them in the Code would only increase this tendency, and thus help to defeat the great purpose of providing facilities for the extension of efficient education. On the other hand, it is contended that the proposed limitation excludes good and bad alike; that it may prevent the opening of schools by private persons in some stations in which there is at present no school, and in which there is little probability of a school being opened at an early date under the management of a committee; and that it seems to traverse the principle laid down in paragraph 18 of the Resolution, that Government "will not insist on any particular form of management." But those of us who support the view which has been embodied in the Code are so deeply impressed with the mischievous tendency of such schools as a rule, with the impropriety and impolicy of giving Government aid to what is a purely private adventure, and with the necessity of enforcing in every possible way the principle that schools, if aided by Government, must be carried on with exclusive reference to the interests of the scholars, that notwithstanding the considerations above adduced, we cannot recommend the recognition of any school conducted with a view to private emolument or profit. To give full effect to that principle, indeed, no teacher should be allowed to be a manager of the school in which he is employed; but this regulation would interfere so seriously with the arrangements of some of the best schools, that it would be impossible to enforce its adoption in every case. We recommend that, except with the consent of the Department, teachers should not be allowed to be members of the committee of management (article 11 *b*), which should in every case consist of at least three members (article 12). We have also added the condition that the income of every aided school must be applied solely to educational purposes recognised by the Department (article 14 *c*). These last two provisions will be governed by the admission or the exclusion of private adventure schools.

Teachers as managers.

As, however, the opinions of the Committee are equally divided on the question of admitting private adventure schools to the benefits of the Code, we have thought it advisable to enter upon a fuller statement of the grounds for supporting or opposing that policy.

15. In the first place, it not contended that inefficient and unnecessary private adventure schools ought to be placed under the Code. Nor, again, is it contended that an efficient and necessary private adventure school, which is carried on at a profit, or allows its principal teacher an income, after payment of all expenses, equal to the salary which he might fairly claim if the school were under a committee of management, should be entitled to claim a grant. The only condition, therefore, under which a private adventure school, being both efficient and necessary, can claim a grant, is that its income does not suffice to maintain the proper standard of efficiency, unless the principal teacher, who is its proprietor, carries it on at a loss to himself. Those of us whose opinion is now being stated think it doubtful whether such a school exists, or is hereafter likely to exist, in the Presidency of Bengal. But admitting the supposition that under the operation of the Code such schools may be called into existence, and also allowing the justice of aiding them, we are decidedly of opinion that the aid given should be given under the regulation of the Code which places the school under a committee of management, the principal teacher and his assistants (if any) becoming thenceforth their salaried officers. Our grounds for this opinion are as follows:—

Conditions under which private adventure schools could be recognised.

(1.)—It is impossible for the Department to exercise the regular supervision and control which the school would have under a local committee of management. The Inspector makes one visit of inspection, and at most one or two visits of surprise, during the year. The school accounts are inspected only once a year. But a school under a local committee is frequently visited by one of the members, or by the secretary of the committee; its accounts and attendance registers are made up, examined, and checked monthly; the recovery of un-

Better supervision under a committee.

paid fees is more easily made; and complaints made by parents more satisfactorily settled by a committee of management than by a teacher carrying on the school for his own profit.

Greater independence.

(2.)—A teacher of a school under a committee of management occupies a much more independent position towards his scholars and their parents than the teacher of a private adventure school. In private adventure schools, children are often withdrawn on unfounded charges of unjust or severe punishment, or for having been put down in their class, or because other children are thought unduly favoured, or on account of a private disagreement, entirely unconnected with the school, between the teacher and the parents. The proprietor and teacher of a private adventure school has to keep the parents in good humour, and he cannot enforce either strictness of discipline, or regularity and punctuality in payment and attendance. Every one acquainted with the working of European schools in India, especially in the smaller stations, knows to what an extent these evils exist even when there is a committee of management. But in this case they are greatly kept in check, and are sooner corrected, by the influence which the managers can bring to bear upon the parents.

Larger income and greater efficiency.

(3.)—Schools under a committee of management are maintained, not by fees alone, but also by local grants and voluntary contributions, wherever such are needed. Private adventure schools are without this source of income, and therefore can fulfil the conditions of the Code (if they can fulfil them at all) only in an inferior degree, and at a higher cost to the parents of their scholars. Further, the teacher of a private adventure school has too strong a pecuniary interest to get the most out of the school with the least possible expenditure, since it comes out of his own pocket. His assistants, if he has any, have lower salaries and lower qualifications than those of schools conducted by a committee, and in the smaller Indian stations he has to charge higher fees than many of the parents can afford to pay. But the committee of a school under management has neither the same necessity nor the same strong individual interest to attain the maximum of income from fees and the minimum of expenditure; it is therefore able both to lower the fees to the level of the means of the parents, and to maintain a higher standard of efficiency.

Teachers unlikely to object.

(4.)—The teacher of a private adventure school carried on at a loss—the only case in which a private adventure school can be brought under the Code—would not, it may be presumed, object to place his school under a committee of management. As the salaried officer of a committee responsible to public opinion, and subject to the supervision of the Department, his income would be at least as large, and much less precarious. Refusal could only arise when there was a dislike to inspection and control, which would also make the teacher unwilling to put his school under the Code at all. We cannot recall the case of any salaried teacher in a school under a committee, who, without some special and personal reason, has given up his position to undertake a private adventure school; nor of any teacher of a private adventure school who has not been willing to exchange it for a salaried teachership (principal or assistant) in a school under management.

Private schools unnecessary in large stations.

16. We have assumed above, for the sake of the argument, that private adventure schools which are both efficient and necessary may be called into existence under the operation of the Code. We must, however, express our conviction that this assumption rests on exceedingly doubtful grounds. For instance, in all the larger stations of the Presidency, no private adventure schools are any longer needed. Calcutta, Allahabad, Lahore, Cawnpore, Lucknow, Agra, Jubbulpore, Nagpore, Simla, Murree, Naini Tal, Darjeeling, Mussoorie, are already supplied with sufficient and suitable schools of a public character for European children of the middle and lower classes, except, indeed, those of the pauper class. If a private adventure school were now started in any one of these stations, and

were to apply for a grant under the Code, the application must be rejected on the ground that the school is 'unnecessary,' unless indeed the school was established only for pauper children who could find admission into none of the existing schools. But pauper education is a field of enterprise which the teacher of a private adventure school is unlikely either to enter or to succeed in.

Unlikely to arise in small.

In smaller stations, now without schools, but with a sufficient number of European children of school-going years, it is true that a private adventure school could not be excluded from the benefit of the Code as 'unnecessary.' Yet the fact that schools of this class in such stations have been shortlived and conspicuously inefficient; and, on the other hand, the fact that every school which has had, or promises to have any permanence, and approaches to any degree of efficiency, is and has been under a committee of management; are strong arguments for concluding that there is a cause of failure inherent in private adventure schools, which prevents both their permanency and their efficiency, and therefore for discouraging their establishment. This cause is simply that it will never pay any man or woman with the qualifications of a good teacher to establish or maintain them.

Improvement of such schools under the Code doubtful.

17. It is contended, however, that private adventure schools may become profitable and efficient if they are admitted to the benefit of the Code,—not, perhaps, as efficient as they would be under a committee of management, but efficient enough to justify Government in paying them for such education as they can supply. It certainly may happen that in the smaller mofussil stations there may be an absence of united effort on the part of the residents to establish a school, and for such stations a private adventure school may be thought better than none. But this case will, in our opinion, be better dealt with by the local Governments, as provided in article 31 or 36 of the Code, than by encouraging the establishment of schools which, during the time of their existence, will impart (as we believe) an inferior education, while they may bar the way to better. For, even admitting all that the advocates of the opposite view can claim, we hold the possible exclusion of a moderately good school in isolated cases (for such cases will admittedly be rare) to be a lesser evil than the encouragement offered to the indifference or supineness of residents in the smaller stations, if aid is given to schools which, but for that provision, might soon give place to better.

Again, as regards the possibility of profit, it will be remembered that the grant is not a net gain to a school, but involves a very considerable expenditure in fulfilling the conditions on which it is given. The receipt of a grant does not involve any great addition to income, since most private adventure schools are so poorly equipped and conducted, that to carry them on under the regulations of the Code would very largely reduce the net profit to be derived from the grant. For all these reasons, we are opposed to the extension of the grant-in-aid system to any school which is conducted as a private adventure school. We do not think the Resolution requires the inclusion of such schools.

Arguments for not excluding private adventure schools as such.

18. On the other hand, some of us hold that article 13 (*b*), which excludes private schools as such, is inconsistent with the principles laid down in paragraph 18 of the Resolution. This consideration, however, need not be insisted on, as we have been directed to submit reasoned opinions. Taking the arguments adduced in support of the disputed article, some of us contend that they are inconclusive. It is evident that general arguments applicable only to a majority of private schools cannot logically be applied to particular cases, which in common fairness must be dealt with according to their individual merits. It is also evident that arguments for excluding private schools on the ground that they are inefficient, or unnecessary, or unsuited to particular localities; are either irrelevant to article 13 (*b*) or, if relevant, prove that it is superfluous; for every such case will be completely met under the ordinary operation of the examination tests and of articles 6 (*c*, 13 (*c*), *d*, *e*, and *f*) and 39. Similarly, any

contention that private adventure schools are unlikely to arise goes to prove that is it unnecessary to insist on specially excluding them. The real question at issue is, whether an efficient private school should be excluded from the benefits of the Code simply because it is carried on with a view to private emolument. The argument for their exclusion asserts that such schools can hardly be said to exist in India; but as a matter of fact some of them, *e.g.*, the Calcutta High School and D'Cruz's Bengal Academy, have proved their efficiency by their success at the University examinations, and notwithstanding the detailed statement which has been laid before us by one of our number, it is not clear that some of those which now exist are not fairly efficient. At all events, this point cannot fairly be settled without a thorough and detailed application of the tests provided in the Code, and a fair comparison of these with other European schools. The argument from the practice prevailing in other countries loses much of its force when it is noted that these countries are well supplied with public schools, properly so called, whereas in India all the schools for Europeans, with the single exception of the Kurseong Government school, are really private, though only a few are private adventure schools. In our opinion, any argument that can be adduced for aiding an efficient denominational school can with equal justice be urged in favour of an efficient private adventure school of the same class. It has been stated, further, that the majority of these schools have prevented the establishment of more efficient schools, that their recognition would tend to strengthen this mischievous tendency, and that their exclusion is necessary in order to enforce the principle that aided schools must be carried on with exclusive reference to the interests of the scholars. These considerations are far too general to be safely applied to individual cases. It is admitted, however, that difficulties of the kind referred to may arise in connection with private adventure schools, as they have arisen, and may again arise, in connection with denominational schools; but they are at best matters of detail, which may be safely left to the ordinary working of the Code under the Education Department. Certainly, efficient schools cannot fairly be charged with exerting a prejudicial influence on the interests of education, or with neglecting the interest of their scholars; and it is contended that any mischievous tendency which private adventure schools may show is much more likely to be checked by bringing them under the Code than by excluding them from its operation. Even in the supposed case in which a moderately good private adventure school stands in the way of the establishment of a more efficient school of a less private character, it is open to the Department, as soon as satisfactory evidence is adduced, to declare the existing school unsuited to the locality under article 6 (*e*), and encourage the establishment of the proposed new school. In such a case it would be, to say the least, very remarkable if the indifference and supineness of parents should induce them to sacrifice the interests of their children by persisting in sending them to a school which the reports of the Department show to be less efficient than another equally convenient school. The argument that the pecuniary interests of the teacher of a private adventure school must tend to make him reduce his expenditure on the school to the lowest possible point compatible with efficiency, is irrelevant in any case in which the tests of efficiency are satisfied, and this is the only case under discussion. If it is suggested that private adventure schools must charge high fees, facts can be quoted to show that, in some cases at least, the fees charged in them have been 25 per cent. under those charged in other schools that are eligible for aid under the Code. But the suggestion has little force in view of the fact that no free limit is proposed in the Code. The only remaining argument for the exclusion of these schools is based on the impropriety and impolicy of giving Government aid to what is a purely private adventure. It would probably be difficult to support this contention as a general proposition, or as a portion of an argument which admits the propriety of aiding denominational schools; but the question really turns on the extent to which the private adventure provides a public advantage, and as efficient private schools must be admitted to do this, the impropriety and impolicy of aiding them is not evident. The argument has no force except in the case in which the school shows a surplus after affording reasonable salaries to those employed

in it. It is well known that denominational schools do not as a rule show such a surplus; and if the salaries of ₹500 or ₹700 (with a house) paid to the head-masters of some aided denominational schools be regarded as reasonable, it is difficult to see how any question of excessive profit could ever arise. Those who would exclude private adventure schools practically admit that the objection on the score of profit has no foundation in fact. The small number of such schools in India, and their want of permanence, go to prove that they have not been profitable; but in any case excessive profit is fully met by articles 6 *f* and 40.

Arguments for the recognition of private adventure schools.

19. Passing now to more direct arguments for allowing private adventure schools to come under the Code, we note at the outset that no special provision is required to secure this; all that is needed is that they should be examined and reported on by the Department, and that those which are found to satisfy the various tests should, as in the case of other efficient schools, be allowed to claim grants. In this way the Department will obtain a full and trustworthy report on each case, and be enabled to take action on ascertained facts; inefficient and unnecessary or unsuitable schools will be condemned, while any school that may be found efficient will be recognised as doing a public service, instead of being placed in a position that may reasonably suggest a grivance. The recognition of those schools has also the advantage of securing for the Department an opportunity of obtaining a more complete acquaintance with the means and methods of European education in India than can be expected if such schools are excluded. Again, the great object of Government is to secure efficient instruction for every European child; and as a means of securing this, it is proposed to aid schools that give a sufficient and suitable secular education. For this purpose it is a matter of little importance whether the school in which the child is efficiently instructed is private or public; the point of real importance is to see that the work is actually done, and if this is secured, there is neither impropriety nor impolicy in allowing an efficient private school to earn the same grant as is allowed to an efficient denominational school of the same class. The form of management is at best a question of machinery, which should never be permitted to usurp the place of the great object aimed at by Government. "Free trade" in education is the only consistent policy, unless Government is prepared to take the work entirely into its own hands. Further, it should be noted that, according to the report of the Committee of Enquiry, dated the 15th May 1880, schools of this class were alone available for Europeans at 11 mofussil stations, and were in existence at several other stations, as well as in Calcutta. Some of them, however, were not private adventure schools; but no detailed information is given with regard to them. The majority of them may have been very inefficient, as not a few denominational schools also appear to have been; but the latter are expected to improve under the operation of the Code, and a similar hope may reasonably be entertained with regard to the former. The contention that private adventure schools are unnecessary in large stations, because these are supplied with sufficient and suitable schools of a public character, rests on exceedingly uncertain grounds. In Calcutta, for example, the statement cannot be admitted, if due regard be had to distance, the climate, and the rate of fees. An efficient private adventure school, with upwards of 150 scholars and a low scale of fees, is a stubborn fact that cannot be disposed of by the assertion that the school is, or ought to be, unnecessary. It is not impossible, nor even improbable, that similar cases may arise in some of the larger towns in the plains; and as regards hill stations, local necessity is of little importance whether the school is private or otherwise. At all events it is wiser policy to await the development of facts. Private adventure schools afford a means, though it may not be the best, for the extension of educational facilities; and unless there is some probability of other schools being established at an early date to take their place, the proposed exclusion of private schools must tend to circumscribe the efforts of Government to bring about such an extension. It is doubtful how far Government can directly undertake the work at present, and if the suggested application of article 31 be made in favour of denominational schools, the exclusion of private adventure schools may be

impolitic, as tending to force all European children into denominational schools. The proposal to overcome the difficulty by extending the operation of article 36, labours under the grave objection that it would remove children from the immediate care of their parents and guardians at a very tender age. It has been suggested also that efficient private adventure schools might be admitted to the benefits of the Code, if they were placed under the charge of a committee in terms of article 12, the teacher, who is really the proprietor, becoming a salaried officer; and this proposal is supported by a statement of reasons for preferring a school under a committee. Were general arguments of the kind adduced regarded as relevant to a discussion of individual cases, it would be easy to construct a counter-statement of probabilities; but it is more important to observe that the Code lays down no condition as to the mode of appointing a committee, and that at present it is impossible to devise satisfactory conditions. The suggested transfer will be either a fact or a fiction; if it is a fact, the private adventure school is not recognised in any form; if it is a fiction, the school may indeed be recognised, but in a way that evidently encourages dishonesty. The latter case has not been found to be imaginary in England; and the danger of such a development adds force to the contention that no antecedent conditions as to the form of management should be laid down, but that the Department should be left free to recognise any efficient school, denominational or other, whatever form of management it may have. It might still further be urged that the recognition of private adventure schools, by opening up a field for an independent career, would encourage capable men to adopt the profession of teacher; while the operation of the Code might be entirely relied on to remedy defects and check abuses. The probability that such cases will not arise is of no avail against facts, if they should arise; and Government can well afford to wait for and watch the facts. If they do not arise nothing is lost; if they do, something may be gained. In any case it is urged that, whatever may be the final decision as to private adventure schools, they should not be excluded from the operation of the Code until they are fully examined and reported on, and that they should in the meantime be allowed to earn grants under the ordinary rules, as appears to have been the case hitherto in at any rate one instance.

No probationary period for schools.

20. The English Code (article 7 N. B. 2*a*) provides that no grant shall be made to any school for the first twelve probationary months. In view of the large number of stations in India which at present have no school for European children, we think that the great object of the Resolution will be best secured by requiring no probationary period before a school may receive a grant. We therefore recommend (article 18) that if any school has, at the time of the Inspector's first visit, been open for less than a year, it shall receive a proportionate amount of the grants payable to schools that have been open for a whole year. This provision will reduce the initial difficulty usually experienced in establishing schools in India, and stimulate efforts towards a speedy supply of the pressing want of European schools. In no case, however, should a grant be given for any period prior to the date of application.

Grants determined by results.

21. The third leading principle mentioned above, *viz.*, that all aid shall be given on the system of payment-by-results, has been applied to every grant proposed in the Code, with some slight exceptions which, we trust, will commend themselves to His Excellency the Governor General in Council. The grants for attendance and instruction in day and night schools, the grants for pupil teachers and training colleges, and the grants for scholarships, are in every case determined by results alone, and we have provided for reducing and even for entirely withholding them when the Department is dissatisfied with the results. Building grants are to be determined by the circumstances and requirements of each locality, and by the suitability of the proposed school as tested by these.

Grants to boarding establishments.

22. It may be doubtful whether the grant recommended in the case of boarding schools (article 35) is covered by the terms of paragraph 18 of the Resolution; but it depends

while in article 28, the case of a scholar who fails to pass by the full standard is provided for in such a way that no instruction grant can be earned twice in the same subject.

Grant for organisation, discipline, &c.

50. The grant for the completeness of educational appliances and for discipline is regulated by article 21 (*c*), which provides on this account a maximum yearly grant of R3 for each scholar, an amount which will only be given in cases of exceptional merit. This is intended as a substitute for the 'special merit' grant recently proposed in England; and, when taken in connection with the reduction provided for in article 39, will give a sufficiently wide range for the discrimination of schools. Clauses (*a*) and (*b*) of the same article offer grants for singing and for drill or gymnastics.

Mode of paying the grant.

51. The mode of paying the grants is explained in articles 29 and 30. At his annual visit, the Inspector will calculate the amount to which the school is entitled according to the proposed rates for the year then ended, and this amount is to be paid to the school, less the amount of any provisional grants that it may have received from Government during the year. Article 18 provides for a proportionate reduction in the case of a school that has not held the prescribed number of meetings at the time of the Inspector's visit. The method of provisional grants has been proposed in reference to the Indian custom of paying salaries monthly, and with the object of enabling the managers to carry on the school during the following year. We recommend that provisional grants should be paid monthly, for both instruction and attendance. The former has been fixed at one-twelfth of the full amount earned for instruction during the previous year, according to the Inspector's report; the latter at one-twelfth of the yearly rate for attendance, for every scholar in average daily attendance during the month for which the bill is drawn. If a school has not been open for a full year, the provisional grants for the second year are to be calculated on a corresponding principle (article 29, *note*). The proposed method of payment will facilitate the introduction of the new system of grants, and will undoubtedly prove a boon to the schools, without involving any serious risk of loss to Government. If the standard of education rises, as under the Code we hope it will, every good school ought to have a balance in its favour at the close of the year; but if this should not be the case, article 30 provides that any deficit shall be made good by deduction from the provisional grants payable in the following year or otherwise.

Night-schools.

52. We do not anticipate that there will be any great demand for grants to night-schools; but some schools of this class already exist in connection with the railway workshops, and others may be established in some of the larger towns. They are required only for those who cannot attend a day-school, and therefore we propose that the managers of any night-school applying for a grant should be required to certify that the scholars admitted to it are "beneficially and necessarily" employed during the day (article 32). We further propose that these schools should be confined to Standards I—VII, and that primary night-schools should earn grants only in elementary subjects, and middle night-schools in elementary, and at most in two class subjects (article 33 *e* and *f*). These recommendations are based mainly on the small amount of time that can be devoted to instruction in such schools. Primary night-schools will probably be found only in the larger towns; middle night-schools may be established in connection with large workshops, especially for the benefit of apprentices who enter the workshop at an early age, and desire to carry on their education. The need of primary night-schools should gradually disappear under the operation of the Code.

Grants to night-schools.

53. We have adopted a considerably higher limit, as to both the number of school meetings and the number of attendances, than that prescribed in the English and Scotch

Codes. In England and Scotland the limit is determined by the consideration that night-schools can be held with advantage only during winter. In India there can be no hardship in requiring them to meet three times a week for rather more than half the year, and in requiring each scholar to be present at 50 meetings of one hour each. The instruction grants for night-schools are fixed at the same rates as those for day-schools: but the attendance grant is a uniform grant of R4 in primary schools, and of R3 in middle schools, for every scholar in average attendance throughout the school year (article 33).

54. To European schools established by Government, as contemplated in paragraph 21 of the Resolution, the provisions of the Code will apply as fully as to any aided school. The salary of the teachers will be governed, partly at least, by ordinary departmental rules; but it would be desirable to enforce in any such rules the condition that a part of the salary should be determined by the results of examination. Care would, it may be presumed, be taken to prevent an excessive proportion of the amount set apart for European education being given to such schools.

Scholar's register.

55. To enable the Inspector to trace easily the school history of each scholar, it is provided that, on his admission to a school, he shall deposit with the principal teacher a "scholar's register," showing his age, attendance, and proficiency at every stage (article 42), and certifying, in the case of his being transferred from one school to another, that he has been transferred with the consent of the managers of the former school (article 22, *note* 3). The "scholar's register" is intended to serve the same purpose as the "child's school book" in England and Scotland, and much care will be needed in order to render it thoroughly effective. As far as possible, a certificate of age should be required; a mere declaration by a parent or guardian has not been found to work well in England and Scotland. If sufficient care is taken, the "scholar's register" may become a powerful check on any tendency to too frequent transfers. The form proposed for the "scholar's register" is given in Appendix I of the Code.

Number of teachers.

56. We have not proposed any definite rule as to the number of teachers to be employed in a school. It would not be difficult to lay down such a rule on abstract principles; but we think it better that this question should be deferred until some experience has been gained of the working of the schools under the Code, and the scholars have been classified on a uniform system. We therefore suggest that it should in the meantime be left to the Education Department to determine whether the staff of teachers in any school applying for a grant is sufficient (article 13 *e*); and to enable the Department to do so, that every application should state the class of the school, the number of scholars in each standard, and the names and qualifications of the teachers (article 7 *a*, *b*, and *d*). As a large number of the schools that are likely to come under the Code are conducted on the continental method of having a separate teacher for each class, we might have suggested a limit for the number of scholars in a class; but probably it is advisable that this, too, should be left for future regulation. The only point on which we have insisted is that the staff, as to number and qualifications, shall be approved by the Department, and that no teachers shall be recognised in day-schools except certificated teachers or pupil-teachers.

Registers and accounts.

57. A complete record of the working of each school is provided for in articles 43—46. The principal teacher is required to make a weekly entry in the log-book, showing the visits of managers, the admission or withdrawal of scholars, the progress of the various classes, changes in the staff, and other facts relating to the school or its teachers; and no entry once made in the log-book may be removed or altered except by a subsequent entry. All changes in the staff must be at once reported to the Department for sanction, otherwise the school does not satisfy the conditions of article 13 (*e*), and cannot receive a grant. Records of the daily attendance of scholars must be made regularly, and accounts of income and expenditure must be kept by the managers, regularly audited, and

submitted to the Department annually (article 14 *b*). The Education Department will thus be provided with complete information as regards every school.

Accommodation.

58. We have laid down limits of accommodation for both day and boarding schools. In the former we require that an area of 12 square feet shall be provided in each class-room for every scholar in average daily attendance, and that this limit shall be raised to 16 square feet if more than one class is taught in the same room at the same time (article 13 *c*). This is practically twice the area required by the English and Scotch Codes; but it is necessitated by the conditions of climate in India, which render the maintenance of effective discipline much more difficult than in England or Scotland. We have ascertained that the area specified is already provided in most of the more efficient schools. In boarding schools we recommend that an effort should be made to regulate the sleeping space allotted to each boarder, by requiring in every case a certificate from some competent medical authority that it is sufficient for the purposes of health. But we are of opinion that the space assigned to each boarder should not be less than 40 square feet and 400 cubic feet if he is under 12 years of age, or 48 square feet and 480 cubic feet if he is above 12. We are aware that the space allotted to each boarder in some boarding schools is considerably less than this; but we are strongly of opinion that the interests of good health and thorough discipline in the dormitories cannot be properly secured with a smaller space than that recommended by us.

Reduction of grants.

59. The total amount of the grants proposed for the maintenance of schools in Chapter II, Sections II—IV, may be reduced by an amount varying from one-tenth to one-half for faults of instruction, discipline, or registration on the part of the teacher, or (after six months' notice) for failure on the part of the managers to provide efficient instruction or proper apparatus, or to remedy any serious defect in the premises (article 39). The total amount of the grant may also be reduced by the excess of the attendance and instruction grants (articles 20, 21, 22, 26 and 27) above the income of the school from all sources other than Government grants (article 38). The reduction clause in the English and Scotch Codes (article 32 *a*), corresponding to article 38, is limited by the condition that the grant shall not be reduced below 17*s*. 6*d*. for every scholar in average attendance throughout the year; but the circumstances of the schools that are likely to come under the Code are so varied that we are unable to recommend the adoption of any minimum below which the grant shall not be reduced. It appears to us to be a sound principle that the amount of Government aid should not, except in extraordinary cases, exceed the amount contributed from private sources, including fees; and we understand that this principle is regularly applied to grants-in-aid at present. In any case, the article as it stands allows the income of a school from sources other than Government to be doubled; and we are of opinion that this will be found sufficient for all practical purposes, until, if it should be thought necessary to adopt a minimum, fuller information may supply the data for a satisfactory decision. The operation of the article will, however, be seriously modified, if not neutralised, unless steps are taken to separate boarding and tuition fees, which in many schools are at present charged in one consolidated fee. We ought also to explain that, in our judgment, the grant for pupil-teachers, as indicated by the place assigned to it (article 50), should not for the present be brought under the operation of the article on reduction, as is the case in the English and Scotch Codes. That is a reasonable course when the pupil-teacher system has been thoroughly established: the case is entirely different in India, where the system will need every advantage that can reasonably be allowed to it in order to secure its speedy and successful adoption. The reduction of the grant to high schools has been already referred to.

Scholarships.

60. Proceeding now to the subject of scholarships (Chapter VII), we propose that only two grades should be recognized: one adapted to scholars who are reading in Standard IV,

and are therefore preparing to leave the primary school or department; the other adapted to those who are reading in Standard VII, and are therefore preparing to leave the middle school or department. The scholarships are termed respectively primary and middle; the former being open to all scholars who are under 11 years of age, the latter to all who are under 14. The primary scholarships are of the value of ₹5 a month, and are tenable for three years in a middle school or department; the middle scholarships are of the value of ₹8 a month, and are tenable for two years in a high school if the scholar elects to read for the final examination of Schedule I, or for five years in a technical school, if the scholar prefers a technical education. The scholarships are open to any candidate, wherever educated; but we propose that no scholarship should be tenable in any school unless it is certified by the Department as efficient, and is therefore open to inspection. This is the course followed with regard to scholarships tenable in schools for natives. The limits of age have been so fixed that a capable and deserving boy may earn a scholarship at each stage of his school course, reaching the Entrance Examination at 16; after which his requirements are sufficiently provided for by the ordinary college scholarships. In accordance with paragraph 20 of the Resolution, we have restricted scholarships to boys; but there is nothing in the Code to prevent girls from competing at the examination, *honoris causâ*. The scholarships are to be awarded entirely by competitive examination, marks being assigned on the scale proposed in article 107. We propose that the schools shall, for the purposes of this examination, be arranged in circles or groups; that a certain number of scholarships shall be assigned to each circle; that the examination shall be held simultaneously at selected centres towards the close of the year; and that the managers of every school shall be at liberty to send to the examination as many candidates as they think proper. We further propose that a scholarship may be transferred from one school to another with the sanction of the Department, and should be liable to reduction or forfeiture in cases of misconduct, continued absence, or failure to pass by the prescribed standards. We have proposed the grouping of schools in circles, partly in order to secure a satisfactory distribution of scholarships, but chiefly in order to meet difficulties likely to arise from the dependence of the school year on the date of the Inspector's visit. The Inspector would probably visit all the schools in a circle about the same time; but he could hardly arrange to visit all the schools in a province within a period that would make a simultaneous scholarship examination a fair comparative test.

Technical scholarships.

61. The provision that a middle scholarship may be held in a technical school is in accordance with the suggestion made in paragraph 20 of the Resolution, that a certain number of scholarships should be reserved for lads desirous of receiving technical instruction. Further facilities of the same kind might be secured by offering scholarships, tenable in technical institutions of a higher class, to candidates passing the final examination from high schools. In Lower Bengal some provision of this kind already exists, in connection with the Government Engineering College at Sheebpore, near Calcutta. In addition to a similar privilege enjoyed by 40 native students, 30 European and Eurasian apprentices of the "mechanical apprentice" class are boarded and educated in that institution on payment of a monthly charge of ₹5; the extra cost, amounting to ₹15 a month, being defrayed by Government. Twenty stipends of ₹10 and of ₹6 a month, tenable for a year and a half during the last (or purely practical) portion of the course, are also awarded to those apprentices, European and native, who have made the best use of their time in the earlier portion. Ten special scholarships of ₹10, ₹15, and ₹20, open to Europeans as well as to natives, are awarded, on the result of the Entrance Examination, to students intending to join the engineer class of the college. Four graduate scholarships of ₹50, and ten of ₹30 each, are also awarded to those European and native students of the college who pass with the greatest credit at the final University examination for engineers. They are tenable for one year, provided that the students are continuously employed during that period in practical work.

General statement of provisions with regard to teachers.

62. We proceed to explain our recommendations with regard to the teachers that are to be recognised in schools under the Code. The Resolution refers to the difficulty that is likely to "arise in applying the system of payment-by-results from the want at present of properly trained teachers in many schools" (paragraph 19), and directs us to devote special attention to the introduction of an efficient pupil-teacher system (paragraph 24). We have made provision for a thorough classification of the teachers at present employed in the schools (Chapter IV), for securing that those who are hereafter employed shall be properly qualified (Chapter IV), and for developing what will, we trust, form an efficient pupil-teacher system (Chapter III).

Teacher recognised in the Code.

63. The Code recognises none but certificated teachers and pupil-teachers on the staff of any day-school; but other persons may be employed in a night-school with the approval of the Department (article 13*e*). The assistant teachers recognised in article 79 of the English and Scotch Codes are, we think, properly placed among certificated teachers (articles 60, 61, 70, and 71). The stipendiary monitors recognised in the English and Scotch Codes (article 70 *i* and *k*) can hardly be regarded as efficient teachers, and therefore are not recognised in this Code. If the system which we propose should not meet every case that may arise, we do not think it would be more likely to do so by accepting as teachers children of 12 years of age, who have passed the examination in reading, writing, and arithmetic by Standard IV.

Certificates.

64. We recommend that there should be three grades of certificates, determined partly by examination and partly by service, and that there should be a strict limitation as to the position for which any certificate qualifies its holder (article 57). Our recommendations in the latter respect are more elaborate than the provisions of the English and Scotch Codes; but as the range of education in the schools, and, consequently, of the qualifications required in the teachers, is much wider than in England and Scotland, where secondary education has not been brought under the Code, we think it is fairer to the teachers, and will be more conducive to the interests of education, that the certificates should be more strictly defined.

Provisional certificates.

65. Putting aside for the present the arrangements for pupil-teachers, which will be explained separately, we propose that in determining the certificate to which any applicant is entitled the Department shall be guided by the examinations he has passed and the training he has had as a teacher; and that, if the latter has been too short to give assurance of his fitness, he shall undergo probation for a longer or shorter period, receiving in the meantime a provisional certificate of the grade to which he is entitled by examination. This provisional certificate consists in entering his name in a register kept for such cases by the Education Department; and with the limitation stated in article 57 (*d*), it qualifies the teacher for holding the position to which he would be entitled under a permanent certificate of the same grade.

Examinations.

66. The ordinary examinations for teachers' certificates should ultimately be those held in connection with training colleges, as in England and Scotland; but in the absence of such colleges we propose that the Department should avail itself as far as possible of the University examinations. This affords a convenient test of qualifications for regulating the various grades of certificates; and at the same time secures a greater degree of simplicity and uniformity in the educational system than could otherwise be attained. Moreover, in the case of high schools it is eminently desirable that the principal teacher should have received a University training; and we have accordingly proposed that no certificate of the highest grade should be granted to any one (except as provided in article 67)

who is not a graduate. For the present, the First Examination in Arts may be accepted as serving the same purpose in the case of female teachers. It may be observed that, under the regulations of the Calcutta University, a teacher can be admitted to any examination without going through a course of study in an affiliated college.

Probation.

67. We propose that in all cases, except those provided for in articles 79 and 80, a longer or shorter period of probation should be required as a condition of obtaining a permanent certificate of any grade. This period consists of service with credit (article 60, *note*) for a certain number of years, during which the Inspector will report annually upon the work of the teacher. An unfavourable report from the Inspector will render the teacher liable to a further year of service. This secures that the probation shall be undergone in a school open to inspection. We assume as a general rule that, for certificates of the same grade, the higher the qualifying examination the shorter the period of probation should be; and that for certificates of different grades, the higher the grade the longer the probation. When training colleges are established, the period of probation for certificates of the lower grades may fitly conclude with an examination on school management, similar to that which students in training colleges will have to pass (Schedule III).

General statement of the scheme for awarding certificates.

68. Taking the case of male teachers, we may state our scheme briefly as follows:—The Entrance examination with three years' probation, or the First Arts examination with probation for two years, qualifies for a permanent third grade certificate (articles 61 and 62); two years' service with credit under that certificate, with further probation for two years after passing the First Arts examination, or three years' service with credit after obtaining a degree from a University of the United Kingdom or India, qualifies for a permanent second grade certificate (articles 63 and 64); and three years' service with credit under the latter certificate, with two years' further probation after graduating, qualifies for a permanent first grade certificate (article 65). To meet special cases, *e.g.*, the case of teachers specially brought to India to take charge of high schools, we propose that the Department should be empowered to give provisional certificates of the first grade to any graduate of a University of the United Kingdom who is over 25 years of age, but that this certificate should be made permanent only after three years' service with credit.

The scheme for female teachers is parallel to this, but the highest examination required is the First Examination in Arts.

Cases specially provided for.

69. Cases which are not directly included in the foregoing statement are separately provided for. For example, no reference is made in that statement to teachers holding certificates from the Education Department of the United Kingdom, nor does it provide for the case of the great majority of teachers in the schools connected with the Church of Rome. These and similar cases are provided for by the general rule laid down in article 58, it being understood that the Department is at liberty to require candidates for certificates to undergo examination if that should be deemed necessary.

Classification of present teachers.

70. The classification of the teachers at present employed in the schools will be secured by the rules laid down in articles 67 to 69 and 75 to 77. We propose to recognise the principal teacher of a high school as entitled on application to a first grade certificate, provided that the school is efficient, and that the teacher has been in charge of it for the three years immediately preceding the date of application. Shorter service will entitle the candidate to a provisional first grade certificate, which shall be made permanent on the completion of the period of three years, provided that the Inspector reports favourably of the school. Corresponding provision is made for the principal teachers of middle schools. Teachers

holding a lower position will receive provisional certificates, to be determined in each case by age, character, qualifications, and period of service, provided that the candidate is an efficient teacher serving in an efficient school. We propose that these clauses should be in force only for two years after the Code comes into operation. This will afford ample time to any one who wishes to apply for a certificate.

Teachers passing through a training college.

71. It will be observed that, in dealing with the case of teachers passing through a training college, we attach great importance to the training which a candidate may have had as a pupil-teacher; and that we regard such training as a reason for reducing some of the periods of probation which we have required in the case of other candidates for certificates. This course appears to us to be not only reasonable in itself, but also fitted to secure for the training colleges their legitimate place in the system of European education.

Objections to the scheme.

72. It is not unlikely that doubts may be felt whether our proposals will work satisfactorily when brought to the test of practice, especially in view of the high qualifications that we demand, and the small number of Europeans who prosecute their studies beyond the Entrance examination. And it may appear also that, as pupil-teachers are to be introduced only into "the larger elementary schools" (paragraph 19 of the Resolution), and as the only other teachers we recognise in day-schools are certificated teachers (article 13 *e*), we exact too much in practically requiring all the teachers of primary schools to have passed the Entrance examination. We admit that these objections have force, and that if carried out very stringently, our proposals might perhaps seriously injure some schools. But we regard the scheme as laying down the lines on which any permanent progress in European education must be made. The conditions required in the case of high and good middle schools are certainly attainable, and are not higher than those required in the corresponding schools for natives. And if the conditions are somewhat stringent in the case of primary schools, it must be remembered that these are precisely the schools that suffer most from inefficient management, and that one of the first steps for their improvement must be to secure for them a more efficient class of teachers. Much caution will, no doubt, be required on the part of the Inspector to prevent any avoidable harm during the period of transition; present teachers should not be rashly removed; the better prospects that teachers will have under the operation of the Code will probably induce larger numbers than hitherto to qualify themselves for employment. Certainly, the qualifications prescribed are not in themselves too high, nor are they higher than the parents and guardians of the scholars generally desire. Our proposals will also, we trust, give a much needed stimulus to the demand for higher education among Europeans in India. It would be a great mistake to limit our proposals by the results of the very unsatisfactory system which we desire to replace.

Pupil-teachers: conditions of engagement.

73. The scheme which we propose for the introduction of the pupil-teacher system is drawn up on the lines of that now in force in England and Scotland. We require that the candidate for employment shall be 14 years of age; shall have passed Standard VI; shall produce certificates of health, physical fitness, character, and conduct; and shall satisfy the Inspector that he possesses aptitude for teaching. The school in which he is employed must be thoroughly efficient, and likely to be maintained during the period of an engagement duly entered into between the candidate and the managers (article 47). The pupil-teacher is to be under engagement for three years, in the first of which he shall be required to teach in the school classes for two hours a day, and in the last two years for three hours; and he shall receive throughout his engagement an hour's special instruction each day, from a teacher holding a certificate of the first or second grade (article 49). The candidate must be approved by the Department; but the Department, though it prescribes the form of agreement (Appendix II), is in no way a party to his engagement (article 48). At the end of each year of

his engagement, he must be presented to the Inspector for examination in the subjects prescribed in Schedule II, producing on each occasion the certificates prescribed in Note (1) appended to that Schedule; and if he passes in the compulsory subjects prescribed for that examination, the grant specified in article 50 will be paid on his account, he himself receiving one-half of the whole amount earned, in addition to the salary specified in his agreement. This grant, however, may, on the report of the Inspector, be reduced by an amount not exceeding one-third (article 51). If the pupil-teacher fails to pass in the compulsory subjects, he must be presented again for examination by the same standard (article 52); and if he fails a second time in these subjects or in the art of teaching, he shall cease to be recognised as a pupil-teacher (article 53), and therefore can form no part of the staff of an aided school (article 13 *e*). We have provided in Appendix II for a new memorandum of agreement on change of managers; but this provision would, as we are advised, be unnecessary in the case of any school registered under Act XXI of 1860, or incorporated under Act VI of 1882 (section 26). We think it very desirable that every school under a committee should register or incorporate itself under one or other of these Acts, not only for the reason above given, but also because it would in that case have a legal status for the recovery of debts. The registration, we desire to point out, would be much facilitated if it could be effected without the payment of any fee.

Reasons for preferring a short engagement and a comparatively small amount of work.

74. We have recommended a much shorter period of engagement than that recognised in England and Scotland, and have also materially reduced the amount of time to be devoted to teaching. At the outset, a longer period of engagement would probably act as a deterrent both to the candidates and to their parents and guardians; but apart from this, we regard a three years' engagement as quite sufficient to secure satisfactory results, and we depend mainly on the subsequent training and periods of probation to develope fully the skill of the teacher. The limitation of the amount of work to be done by the pupil-teacher is based on the conviction that the permanent interests of education as well as the personal interests of the pupil-teacher are seriously prejudiced by the practice of requiring him to teach for five hours a day. A boy or a girl of 15 has not the strength required for this, and in addition for a vigorous prosecution of the studies prescribed. If the pupil-teacher's strength is overtaxed by teaching, his studies suffer, and he is less likely to turn out a good teacher. We believe too that if we were to require a full day's teaching, and thus to prevent the pupil-teacher from joining the higher classes during any part of the day, we should find it exceedingly difficult to establish the system. And we understand that, even in the far more favourable climate of England and Scotland, experience points very decidedly to the necessity of shortening the time that pupil-teachers must devote to teaching. It should be noted too that the diminution of the time spent in teaching has enabled us to insist on a higher standard of qualification.

The rates proposed for pupil-teachers.

75. The rates which we have proposed in article 50 are very much higher than those that now prevail in England and Scotland, but they are really lower in the aggregate than those that were allowed during the period in which the pupil-teacher system was being established. They are no doubt very liberal; but we do not think they are more liberal than is necessary for giving the system an opportunity of establishing itself. In fixing the relative proportions of the rates, we have endeavoured to emphasize the great importance of the art of teaching, and the necessity of regular and well marked progress in it. The provision of article 51 will be specially valuable in carrying out this principle, by reducing the grant when the pupil-teacher does not show complete efficiency; and the provision that he himself is to receive half the amount of the grants earned should stimulate his application to study.

Prospects of the proposed pupil-teacher system.

76. The foregoing remarks show that we are not insensible to the difficulties of establishing an efficient pupil-teacher system. The few prizes that are within the reach

SECTION III.—*Examinations.*

88. Every student admitted to a training college under the conditions specified in article 87, who has been in residence for eight months of the year, and who has spent in that year at least 75 hours under proper supervision in the practising school, shall be presented at the close of the year for examination by the standards fixed, for first and second year students respectively, in Schedule III.

89. The yearly examinations will be conducted by the Department. After each examination the names of the successful candidates will be arranged in two divisions, the first in order of merit, the second in alphabetical order.

90. The place taken by each student in the examination will be recorded on the certificates granted by the Department under articles 79, 80.

SECTION IV.—*Grants.*

91. The managers of a training college shall be entitled to a grant of Rs. 750 for each student passing the annual examination in the first division, and of Rs. 500 for each student passing in the second division.

92. On the recommendation of the Inspector, a grant not exceeding Rs 100 may be made on account of a student who fails to pass the annual examination; but this grant will not be made more than once for the same student

93. The managers shall receive monthly a provisional grant of Rs 35 for each student on the rolls during that month.

94. After the annual examination, the managers shall receive the amounts payable under articles 91 and 92, less the amounts actually paid under article 93.

If the amounts paid under article 93 exceed the amounts payable under articles 91 and 92, the excess shall be deducted from the first or (at the discretion of the Department) any subsequent grants payable in the following year under article 93, or be otherwise refunded to the Department.

95. The amounts specified under article 91 will not be payable on account of any student who has resided for less than eight months during the year.

Exceptions to this rule may, at the discretion of the Department, be made in special cases, provided that no grant will be payable for any student who has resided for less than six months, or who has spent less than 75 hours under proper supervision in the practising school In the case of students so excepted, a reduction not exceeding Rs 200 will be made in the amount of the grant.

## CHAPTER VI.

BUILDING GRANTS.

96. Grants may be given under this Chapter to managers of schools, in aid—

(*a*) of erecting, enlarging, or furnishing school buildings;
(*b*) of executing extensive repairs;
(*c*) in special cases, of paying off debts incurred in erecting or enlarging school buildings.

*Note.*—Expenditure in the purchase of buildings may be treated as expenditure on the erection of buildings

97. Except in the case provided for in article 96 (*c*), no grant shall be made in consideration of former expenditure on school buildings

98. For the purposes of this Chapter local Governments will divide stations into three classes:—

A.—Stations in which the maximum grant shall not exceed one-half of the total cost
B.—Stations in which the maximum grant shall not exceed two-thirds of the total cost.
C.—Stations in which, from the fluctuating number of European children, the erection of permanent school buildings is undesirable In these stations the amount actually paid as rent will be considered in determining the special grants that may be allowed under article 31.

99. Before a grant is sanctioned for the erection of school buildings, the Department must be satisfied—

(*a*) that the European population of the locality is sufficiently large to render the existence of the school necessary, and to give a reasonable probability of its permanence;
(*b*) that the school is suited to the requirements of the locality;
(*c*) that the school is likely to be maintained in efficiency;
(*d*) that the site, plans, estimates, and specifications are suited to the school, and the title and trust deeds in due form.

100. The trust deed must declare the building to be granted in trust for school purposes only. It must also provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school.

*Note.*—This article does not preclude the managers from using the building for other purposes when not required for the purposes of the school

101. The grant is not paid until—

(*a*) a report is received from the Executive Engineer, Public Works Department, certifying that the building has been completed in accordance with the sanctioned plans and specifications;

(*b*) a certificate is received from the managers, setting forth that the funds in their hands will, when added to the grant, be sufficient to meet all claims and to close the account; and

(*c*) the trust deed is duly registered, and a copy lodged with the Department.

102. The trustees must undertake to refund the amount of the grant if the building ceases to be used as a school within three years from the date of payment.

103. All applications for grants must be submitted to the Department not later than the 1st of October in any year.

## CHAPTER VII.

### Scholarships.

104. Scholarships are of two grades, primary and middle; the number of each grade will be determined by the local Government. Boys only are eligible for scholarships, which will in every case be awarded after a competitive examination.

105. Primary scholarships are of the value of Rs. 5 a month, and are tenable for three years in a middle school, or in the middle department of a high school. Middle scholarships are of the value of Rs. 8 a month, and are tenable for two years in a high school, or for five years in a technical school. Scholarships are tenable only in schools recognised by the Department as efficient.

106. Candidates for primary scholarships must be under 11 years of age, and for middle scholarships under 14 years of age, at the date of examination. The selection of the candidates from each school shall be left to the managers of the school.

107. The examination for primary and middle scholarships shall comprise the subjects of Standards IV and VII respectively Marks shall be awarded to the several subjects of examination as follows:—

*Primary Scholarships.*

| | | | |
|---|---|---|---|
| English .. | Grammar and Composition ... ... | 100 | 200 |
| | Explanation of passages ... ... | 50 | |
| | Dictation ... ... ... | 50 | |
| Arithmetic ... ... ... ... | | | 200 |
| Geography ... ... ... ... | | | 100 |
| | Total ... | | 500 |

*Middle Scholarships.*

| | | |
|---|---|---|
| English, including Grammar and Composition ... ... | | 250 |
| Second Language ... .. ... ... | | 150 |
| History ... ... ... ... ... | | 75 |
| Geography . ... ... ... ... | | 125 |
| Arithmetic ... ... ... ... ... | | 125 |
| Geometry and Algebra ... ... ... ... | | 200 |
| Elementary Science ... ... ... ... | | 75 |
| Total ... | | 1,000 |

108. For the purposes of this Chapter, each province will be divided into circles, and a certain number of scholarships allotted to each circle, to be competed for by candidates from schools situated in that circle. In November of each year (or some other month to be fixed by the Department), the examination shall be held simultaneously at certain centres previously selected. The examination papers shall be the same for all centres.

109. A scholarship may be reduced or withdrawn in cases of misconduct, of continued absence, or of failure to pass by the prescribed standards.

110. A scholarship may be transferred from one school to another with the sanction of the Department.

## CHAPTER VIII.

### Revision of the Code.

111. Subject to the confirmation of the Governor General in Council, the local Government may cancel or modify any articles of this Code, or may introduce new articles.

112. The schedules and notes appended to the Code shall have the same effect as the articles of the Code, and shall be subject to the provisions of article 111.

## SCHEDULE I.

# STANDARDS OF EXAMINATION (PRIMARY).

| Subjects. | Lower Division. | | Upper Division. | |
|---|---|---|---|---|
| | Standard I. | Standard II. | Standard III. | Standard IV. |
| | **Elementary Subjects.** | | | |
| (1) Reading* ... | To read a short paragraph from a book not confined to words of one syllable.<br>*Accuracy of pronunciation to be considered.* | To read a short paragraph from an elementary reading-book. | To read a passage from a more advanced reading-book, or stories from English or Indian history.<br>*Spelling to be tested.* | To read a short passage of prose or poetry from a more advanced reading-book. |
| (2) Writing† ... | To copy in manuscript characters a line of print; to write from dictation a few common words. | To write a passage of not more than three lines from the same book, slowly read over once, and then dictated word by word.<br>*Before examination, the passage shall be read over again.*<br>Copy-books to be shown. | To write six lines from one of the reading-books of the standard, slowly read over once, and then dictated a few words at a time.<br>Copy-books to be shown, with improved writing. | To write eight lines from a reading-book slowly read over once, and then dictated in sections.<br>Copy-books to be shown, with improved writing. |
| (3) Arithmetic‡ | Notation and numeration up to 1,000. Simple addition and subtraction of numbers of not more than three figures. In addition, not more than five lines to be given. Multiplication table to 6 × 16. | Notation and numeration up to 100,000. The first three simple rules, and division by numbers not exceeding 12 Multiplication table to 12 × 16. Anna table to 100 annas | The four simple rules. Addition and subtraction of English and Indian money. Multiplication table to 16 × 16. Pence table to 120 pence. | A.—The compound rules, and reduction in all weights and measures of common use.<br>B (for boys only).—Easy examples of G. C. M. and L. C. M. Easy fractions, with denominators not over 20. |
| | **Class Subjects.** | | | |
| (4) English ... | To recite 10 lines of easy poetry, and to know their meaning. | To recite 20 lines of poetry, and to know their meaning.<br>To point out nouns and verbs in the passages read or written. | To recite with intelligence and expression 30 lines of poetry.<br>To point out nouns, verbs, adjectives, adverbs, and personal pronouns in the passages read or written. | To recite 40 lines of poetry, and to explain the words and allusions.<br>Easy parsing; to point out the subject and predicate in a simple sentence; to form simple sentences illustrating the use of the parts of speech named in Standard III. |
| (5) Needlework‖ (for girls only) | Hemming; plain knitting with two needles. | Seaming; knitting with two needles, plain and purled rows alternately. | Frilling and pleating; plain knitting with four needles. | Stitching and sewing on strings; knitting with four needles, plain and purled rows alternately. |
| (6) Geography | ..... | To name the points of the compass in the school room, and on a local or district map. Explanation of simple geographical terms by reference to a map. | The outlines of the geography of India by book and map.<br>To draw on the slate a ground-plan of the school-room, showing the position of the furniture. | The outlines of the geography of Asia, and of the British Isles, by book and map.<br>To draw a ground-plan of the school compound and the principal objects in it, with its approaches. |
| (7) Object Lessons. | Common objects; colour. | Common objects; their colours, shapes, and uses. | Habits and uses of domesticated animals. | General comparison of animals, vegetables, and minerals; common substances used in arts and manufactures. |

*N.B.*—The clauses in italics apply to all succeeding standards.

* Reading with intelligence will be required in all the standards, and increased fluency and expression in successive years. In Standard III and upwards, two sets of reading-books should be provided, of which one should be historical or biographical. The Inspector may examine in any of these books, and may test the intelligence of the reading by questions on the meaning of what is read.

† The writing of Standards I and II may be on slates or paper, at the discretion of the Inspector; in Standards III and upwards it must be on paper.

‡(*a*) The Inspector may examine scholars in arithmetic in any standard lower than that in which they are presented, and in mental arithmetic suited to their respective standards. The object of the exercise in mental arithmetic is to encourage dexterity and correctness in computation; and to anticipate, by means of rapid and varied oral practice with small numbers, the longer problems which have to be worked out in writing. Such exercises should from the first deal with concrete as well as with abstract numbers.

(*b*) In those schools in which arithmetic is taught up to the fourth standard in a different order from that here defined, the subjects in the first three standards may, with the previous sanction of the Inspector, be so arranged accordingly.

§ No grant will be given for a class-subject in any standard unless in boys' schools English, and in girls' schools needle-work, is taken up.

‖ In each standard a simple garment must be shown containing the stitches required in that and lower standards.

## SCHEDULE I.

# STANDARDS OF EXAMINATION (MIDDLE).

| Subjects. | Standard V. | Standard VI. | Standard VII. |
|---|---|---|---|
| | | ELEMENTARY SUBJECTS. | |
| (1) Reading | To read a passage from a more advanced book. Allusions to be explained in the case of passages previously read. *Reading may be tested by passages from a newspaper, or from a book not comprised in the school course.* | To read a passage from a more advanced reading-book. Allusions to be explained in the case of passages previously read. | To read a passage from Shakspeare or Milton, or from a standard history of England or India. |
| (2) Writing | To write from memory the substance of a short story read out twice; spelling, hand-writing, and correct expression to be considered. (At the discretion of the Inspector, dictation may be substituted for the story.) Copy-books to be shown. | To write a short narrative or letter; spelling, hand-writing, and composition to be considered Copy-books and exercise-books to be shown. | To write a letter or narrative, or a short essay on some subject comprised in the school course for the year Exercise-books to be shown. |
| (3) Arithmetic. | | | |
| A.—For boys | Vulgar fractions (simple); proportion (simple); practice. *Progressive exercises in mental arithmetic.* | Vulgar and decimal fractions; proportion; interest. | Discount and stocks; exchange; averages and percentages; the metric system. |
| B.—For girls | G. C. M. and L. C. M; vulgar fractions (simple); proportion (simple). *Progressive exercises in mental arithmetic.* | Vulgar fractions; proportion; practice; decimals (simple). | Vulgar and decimal fractions; proportion; interest. |
| | | CLASS SUBJECTS * | |
| (4) English | To recite 60 lines of poetry or 30 lines of prose, and to explain the allusions. | To recite 80 lines of poetry or 40 lines of prose from a standard writer, and to explain the allusions. | To recite 100 lines from Shakspeare or Milton, or 50 lines of prose from a standard writer, and to explain the allusions. |
| | To parse and analyse a simple sentence, and to know the method of forming English nouns, adjectives, and verbs from each other. | To parse and analyse a short complex sentence, and to know the meaning and use of Latin prefixes in the formation of English words. | Grammar and analysis of sentences. Prefixes and terminations; easy derivations from Latin and Greek. |
| (5) Needle-work (for girls only). | Herring-boning, and marking on coarse material; knitting socks or stockings; plain darning and mending stockings; patching old garments. | Gathering; stroking; setting-in; sewing on buttons and button-holing; knitting a full sized stocking; improved darning and mending; cutting out plain under-garments. | Running tucks; whipping; setting-on frills; marking on finer materials; knitting a stocking with thickened heels; Swiss darning; cutting out any garment which can be made by children at this standard. |
| (6) Geography (including physical geography). | The outlines of the geography of Europe; special knowledge of the geography of India. To draw outline maps of the British Isles and India. Latitude and longitude; day and night. | The outlines of the geography of the world; special knowledge of the geography of the British Isles; maps of the great continents, of the British Isles (with greater detail), and of India; showing ranges of mountains, rivers, principal towns, and railways. General circumstances which determine climate; the seasons. | Special knowledge of European geography, with maps of the several European countries, showing the principal towns, rivers, and ranges of mountains. General arrangement of the planetary system; phases of the moon. |
| (7) History | The outlines of the history of India (British period). | The outlines of the history of India from Akbar. The outlines of the history of England from Elizabeth to Victoria. | The outlines of the history of India from the Mogul period, and of England from the Norman conquest. |

*N.B.*—The clauses in italics apply to all succeeding standards.

* No grant will be given for a class-subject in any standard, unless in boys' schools English, and in girls' schools needle-work is taken up.

## MIDDLE—*continued.*

| Subjects. | Standard V. | Standard VI. | Standard VII. |
|---|---|---|---|
| (8) Mathematics.* | (1) Geometry; Euclid to I, 21 | (1) Geometry; Euclid to the end of Book I.<br>(2) Algebra; addition, subtraction, and multiplication. | (1) Geometry; Euclid, Books I and II.<br>(2) Algebra; the first four rules, resolution into factors, H. C. D. and L. C. M. |
| (9) Elementary science.† | (*a*) General comparison of the chief divisions of the animal kingdom; *or* (*b*) gravitation, weight, and specific gravity. | (*a*) Distribution of animals; the races of mankind; *or* (*b*) the common pump, barometer, and thermometer; pulleys and levers. | (*a*) The build of the human body; names, positions, and functions of the organs of alimentation, circulation, and respiration; *or* (*b*) elementary properties of light and heat; construction of the steam-engine. |
| | **Special Subjects.** | | |
| (10) An Indian vernacular.‡ | (1) To read and translate into English a passage selected by the Inspector from the book or portion of the book read during the year. | (1) Improved reading and translation into English. Translation into the vernacular of short and easy sentences selected by the Inspector. | (1) To read and translate a passage from a book not comprised in the school course. To translate, in writing, a short passage from an easy English reader. |
| | (2) To write the letters of the alphabet, and words of one or two syllables. | (2) To write, from the dictation of the teacher, an easy passage from the book or portion of the book read during the year. | (2) To write, from the dictation of the Inspector or teacher, a passage from a book not comprised in the school course. |
| | (3) Inflections of nouns and regular verbs. | (3) Inflections; easy syntax. | (3) Grammar. |
| (11) A European language. | *A.—Latin.*<br>Grammar to the end of regular verbs. Translation of easy sentences into English. | *A.—Latin.*<br>Irregular verbs and leading rules of syntax. Knowledge of a first reading-book; translation of simple English sentences. | *A.—Latin.*<br>Grammar; Cæsar de Bello Gallico, Book I. Somewhat longer sentences to be translated from English. |
| | *B.—French or German.*<br>Grammar to the end of regular verbs. Ten pages of an easy reader. To write from dictation a few common words. | *B.—French or German.*<br>Inflexions and easy syntax. Improved reading and translation. Twenty pages of a conversation book approved by the Inspector. Dictation. | *B.—French or German.*<br>Grammar: reading and translation of a text-book approved by the Inspector. Oral translation of easy sentences, with tolerable correctness of pronunciation. Easy letter-writing. |
| (12) Botany§ | Characters of the root, stem, leaves, and parts of the flower, illustrated by specimens of common flowering plants. The phenomena of the movements of plants by twining, climbing, and catching hold of objects by tendrils or other contrivances. | The phenomena of the ripening of the flower into fruit. The various forms of fruits, and the structure of seeds, *e.g.*, a bean, and a grain of wheat or rice. The various contrivances to effect distribution. The phenomena of germination. The comparison of a fern and a moss with a flowering plant. | Structure of wood, bark, and pith; cells, vessels, and tissues Functions of the stem, root, and leaves. The food of plants, and the manner in which a plant grows. The elements of classification according to natural characters, illustrated by familiar plants. |
| (13) Drawing. | Easy outlines (free-hand), straight and curved. | More difficult outlines. Shading. | Easy linear perspective, and drawing from models. |

* In girls' schools mathematics may be taken up as a special subject.

† Instruction in the science subjects should be given mainly by experiment and illustration. If these subjects are taught to children by definition and verbal description only, such instruction will not be accepted as qualifying for a grant.

‡ An Indian vernacular may be taken as a class or as a special subject, the decision resting with the Department in the case of each school.

§ The instruction in botany shall be given, as far as possible, with the object of cultivating the scholar's powers of observation.

SCHEDULE I.

## STANDARD OF EXAMINATION (HIGH).

### (FINAL EXAMINATION.)

| For Boys only. | For Girls only. |
|---|---|
| *Compulsory Subjects.* | |
| 1. English :—The matriculation standard, with the addition of a manual of English literature | 1. The same. |
| 2. French *or* German. | 2. The same. |
| 3. Arithmetic and Book-keeping. | 3. Arithmetic. |
| 4. Mathematics :—Algebra as far as quadratic equations ; Wilson's Geometry, Books I—V (new edition); Mensuration. | 4. Elementary Physics, or a third language (French *or* German). |
| 5. Political Economy. Commercial Geography. | 5. A general sketch of European History. General and Physical Geography. |
| *Optional Subjects.* | |
| 6. Mechanical Drawing .. .. | 6. Free-hand Drawing. |
| 7. Elementary Physics ... .. | 7. Music (as in the final examination for pupil teachers, Schedule II). |
| 8. Elementary Chemistry ... | 8. Botany. |

## SCHEDULE II.

## STANDARDS OF EXAMINATION FOR PUPIL TEACHERS.

| Subjects of Examination. | End of first year. | End of second year. | End of third year. |
|---|---|---|---|
| | | Compulsory Subjects. | |
| 1. English, including reading, writing, grammar, composition, and the explanation of passages. | 1. Standard VII of Schedule I. | 1. Recapitulation of the subjects of the first year, with the addition of a manual of English literature. | 1.* The matriculation standard, with the addition of a manual of English literature. |
| 2. A second language, namely, Latin or an Indian vernacular. | 2. Ditto ... ... | 2. A selected portion of the matriculation course for the following year. | 2.* The matriculation standard. |
| French or German (*for girls only.*) | Ditto ... | A course prescribed by the Department. | |
| 3. History and Geography. | 3. Ditto ... ... | 3. Recapitulation. A selected portion of the matriculation course in physical geography. | 3.* The matriculation standard. |
| 4. Mathematics :— (*a*) Arithmetic. (*b*) Geometry and Algebra. | 4. Ditto ... ... | 4. (*a*) The whole (*b*) Euclid, Book III; Algebra, to simple equations. | 4.* (*a*) The whole. (*b*) The matriculation standard. |
| *or* (*b*) Needlework (*for girls.*) | Ditto ... | (*b*) To cut out and make parts of any plain garment in common use. Knitting. | (*b*) The same. |
| | | Optional Subjects. | |
| 1. Music ... ... | Notation; the treble and bass staves, and the relation between them. Time, simple common and simple triple The scales, major and minor, with the intervals (major and minor, perfect or other) found in both. | 1. Notation; the alto and tenor staves, and their relation to the treble. Time, compound common and compound triple. Chromatic intervals of the minor scale. Transposition from one key to another, and from one variety of time to another (as from $\frac{3}{2}$ to $\frac{3}{4}$). | 1. Classification of intervals, as perfect and imperfect, consonant and dissonant. Resolution of individual dissonant intervals. Rudiments of harmony; positions of chords, progression, inversion, discord of the dominant seventh in its direct form only. |
| 2. Drawing ... ... | 2 Standard VII of Schedule I. | 2. Linear perspective and drawing from models. | 2. The same; blackboard drawing. |
| 3. An Indian vernacular (if not taken up for the second language). | 3. Ditto ... ... | 3. A selected portion of the matriculation course for the following year. | 3. The matriculation standard. |
| | | Art of Teaching. | |
| | To teach a class to the satisfaction of the Inspector. | The same, and to show increased skill in instruction and discipline. To write notes of a lesson on some common object. | The same. To answer questions on the methods of teaching reading, writing, and arithmetic. The form of school registers, the mode of keeping them, and of making returns from them. |

*Note* (1)—At the end of each year's course, the following certificates must be presented before admission to the examination :—

1. A certificate from the medical officer of the school that the pupil teacher has not suffered any failure of health likely to incapacitate him for the profession of a teacher.
2. A certificate of good conduct from the managers.
3. A certificate of punctuality, diligence, obedience, and attention to duty from the principal teacher.

*Note* (2).—Pupil teachers who have passed the Entrance examination of the University will not be examined in the subjects marked. *

## SCHEDULE III.

## TRAINING COLLEGES FOR MEN.

### Subjects of Examination.

### I.—Reading and Repetition from Memory.

*First Year.*

To read with distinct utterance, due attention to punctuation, and just expression.

Each student must have learned at least 200 consecutive lines of poetry from one of the works appointed for the year in English Literature, some of which he will be called upon to repeat at the annual examination of the Training College.

*Second Year.*

Candidates will be expected to show improvement in the higher qualities of reading, such as expression, modulation of voice, and the correct delivery of long or involved sentences.

Each student must have learned at least 100 consecutive lines of poetry and 100 consecutive lines of prose from the works appointed in English Literature, and will be called upon to repeat some part at the annual examination of the Training College.

### II.—Penmanship.

*First Year.*

1. To write a specimen of the penmanship used in setting copies in text hand and small hand.
2. To write a passage from dictation.

*Second Year.*

As in the first year, but defects more severely visited with loss of marks. Also, to set copies upon the black-board.

*Note.*—In examining the papers of the candidates attention will be paid to the character of the handwriting and the accuracy of the spelling.

### III.—School Management.

*First Year.*

1. To answer questions on the best methods of instruction in reading, spelling, writing, arithmetic, and other common subjects of elementary education, both generally and with special reference to the development of the intelligence of children.
2. To answer questions on the art of oral teaching generally.
3. To write notes of a lesson for a primary school, and to teach a class.

*Second Year.*

1. To teach a class in the presence of the Inspector, in any standard up to VII.
2. To answer questions in writing on the following subjects:—
   (*a*) The different methods of organising an elementary school.
   (*b*) The form of school registers, the mode of keeping them, and of making returns from them.
   (*c*) The mode of teaching geography, history, and grammar, both generally and with special reference to the development of the intelligence of children.
3. To answer questions on the principles of education.

### IV.—English Literature, Grammar, and Composition.

(Text-books in prose and poetry will be appointed from year to year.)

*First Year.*

1. To answer questions on the language, style, and subject-matter of the books appointed for the year.
2. To turn into prose a passage of poetry taken from one of the appointed text-books; or
   To write an essay on a given subject.
3. Précis writing.

*Second Year.*

1. To answer questions on the language, style, and subject-matter of the books appointed for the year.
2. To turn into prose a passage of poetry.
3. To write an essay on a given subject.

## V.—Geography.

*First Year.*

1. The elements of geography, mathematical and physical.
2. To draw a map of the four quarters of the globe, of each country in Europe, and of India (those of England and India in greater detail).
3. The physical and political geography of Europe.
4. The physical and political geography of India in detail.

*Second Year.*

1. The geography, physical, political, and commercial, of Great Britain and its dependencies.
2. To draw maps readily and correctly upon the black-board.

## VI.—History.

*First Year.*

1. General outlines of English history.
2. General outlines of Indian history.
3. The history of India; British period in greater detail.

*Second Year.*

1. General outlines of the history of Greece and Rome.
2. Elementary questions on Political Economy.

## VII.—Mathematics.

*First Year.*

1. Arithmetic, including mental arithmetic
2. Algebra, as far as the theory of quadratic equations.
3. Geometry; easy problems on the geometry of the point, straight line, and circle. (Wilson, Books I—III; edition of 1881.)
4. Mensuration of plane surfaces, including the theory of surveying with the chain.

*Second Year.*

1. Algebra, as far as the binomial theorem.
2. Geometry; easy problems in the geometry of the point, straight line, and circle, including proportion. (Wilson, Books I—V; edition of 1881.)
3. Plane Trigonometry, as far as the solution of triangles.

## VIII.—A Second Language (Latin or an Indian Vernacular.)

*First Year.*

1. Passages for translation into English from two books to be named beforehand. Questions on grammar and idiom.
2. Easy passages of English to be translated into the second language.

*Second Year.*

1. Passages for translation into English from two books to be named beforehand. Explanation of passages; questions on grammar and idiom.
2. Translation of a passage from an author not previously named.
3. Translation from English into the second language.

*Note.*—The foregoing eight subjects are compulsory. Any of the following may also be presented.

## IX.—Music.

*First Year.*

1. Notation; the treble and bass staves and the relations between them.
2. Time; simple common and simple triple.
3. The scales, major and minor, with the intervals (major and minor, perfect or other) found in both, and the chromatic intervals found in the latter.
4. Transposition from one key to another and transcription from one variety of time to another (as from $\frac{4}{4}$ to $\frac{3}{4}$).

*Second Year.*

1. Notation; the alto and tenor staves, and their relations to the treble and bass.
2. Time; compound common and compound triple.
3. Classification of intervals, as perfect and imperfect, consonant and dissonant.
4. Resolution of individual dissonant intervals.
5. Rudiments of harmony, positions of chords, progression, inversion, discords by suspension (on fundamental basses only), the discord of the dominant seventh (in its direct form only).

### X.—Drawing.

*First Year.*

Free-hand drawing, from copies and models.

*Second Year.*

Practical geometry, perspective, and projections.

### XI.—A Third Language.

1. For candidates who have taken Latin:—an Indian Vernacular, French, German, or Greek.
2. For candidates who have taken an Indian Vernacular:—Latin, French, German, or Greek.

Subjects of examination in the first and second year as under VIII.

### XII.—Physics.

The subjects of the First Arts Course of the Calcutta University.

## TRAINING COLLEGES FOR WOMEN.

### Subjects of Examination.

### I.—Reading and Repetition from Memory.

*First Year.*

To read with distinct utterance, due attention to punctuation, and just expression.

Each student must have learned at least 200 consecutive lines of poetry from some work selected by the authorities of the College, with the approval of the Inspector; a part of which she will be required to repeat at the annual inspection of the Training College.

*Second Year.*

Candidates will be expected to show improvement in the higher qualities of reading, such as expression, modulation of voice, and the correct delivery of long or involved sentences.

Each student must have learned, in addition to what she has learned in the first year, at least 100 consecutive lines of poetry and 100 consecutive lines of prose from works selected by the authorities of the College, with the approval of the Inspector; and she will be required to repeat some part at the annual inspection of the Training College.

### II.—Penmanship.

*First Year.*

1. To write a specimen of the penmanship used in setting copies in text hand and small hand.
2. To write a passage from dictation.

*Second Year.*

As in the first year, but defects more severely visited with loss of marks. Also to set copies upon the black-board.

*Note.*—In examining the papers of the candidates, attention will be paid to the character of the handwriting and the accuracy of the spelling.

### III.—School Management.

*First Year.*

1. The methods and principles of elementary teaching, both generally and with special reference to the development of the intelligence of children.
2. To write notes of a lesson for a primary school, and to teach a class.
3. To answer questions on the form of school registers, the mode of keeping them, and of making returns from them.
4. Special questions on the following subjects will be inserted in the papers for those candidates who desire to obtain special certificates as teachers of infants:—
   (*a*) The method of teaching infants and of conducting an infant school.
   (*b*) Notes of object lessons, such as common domestic processes, functions of the human body; common plants, animals, and minerals, their appearance and use.

*Second Year.*

1. To teach a class in the presence of the Inspector.
2. To answer questions in writing on the following subjects :—

(*a*) The different methods of organizing an elementary school.
(*b*) The form of school registers, the mode of keeping them, and of making returns from them.

IV.—English Literature, Grammar, and Composition.

(Text-books in prose and poetry will be appointed from year to year.)

*First Year.*

1. To answer questions in the language, style, and subject-matter of the books appointed for the year.
2. To turn into prose a passage of poetry taken from one of the appointed text-books; or
To write an essay on a given subject.
3. Précis writing.

*Second Year.*

1. To answer questions on the language, style, and subject-matter of the books appointed for the year.
2. To turn into prose a passage of poetry.
3. To write an essay on a given subject.

V.—Geography.

*First Year.*

1. The elements of geography, mathematical and physical
2. To draw a map of the four quarters of the globe, of each country in Europe, and of India (those of England and India in greater detail).
3. The physical and political geography of Europe.
4. The physical and political geography of India in detail.

*Second Year.*

1. The physical, political, and commercial geography of Great Britain and its dependencies.
2. To draw maps readily and correctly upon the black-board.

VI.—History.

*First Year.*

1. General outlines of English history.
2. General outlines of Indian history.
3. The history of India, British period in greater detail.

*Second Year.*

A special period of English history.

VII.—Arithmetic.

The whole subject, with special reference to the methods of teaching it.

VIII.—Needle-work.

*First Year.*

1. To cut out and make parts of any plain garment in common use.
2. Knitting.

*Second Year.*

Domestic needle-work in all its branches.

IX.—Domestic Economy.

*First Year.*

1. Rules for the preservation of health.
2. Clothing.
3. Food, and its preparation.

*Second Year.*

In addition to the subjects of the first year:—
4. Household accounts and management.
5. Sick-room management.

*Note.*—The foregoing nine subjects are compulsory. Any of the following may also be presented.

## X.—Music.

*First Year.*

1. Notation; the treble and bass staves, and the relation between them.
2. Time; simple common and simple triple.
3. The scales, major and minor, with the intervals (major and minor, simple or other) found in both, and the chromatic intervals found in the latter.
4. Transposition from one key to another, and transcription from one variety of time to another (as from $\frac{4}{4}$ to $\frac{3}{4}$.)

*Second Year.*

1. Notation; the alto and tenor staves, and their relations to the treble and bass.
2. Time; compound common and compound triple.
3. Classification of intervals, as perfect and imperfect, consonant and dissonant.
4. Resolution of individual dissonant intervals.
5. Rudiments of harmony; positions of chords, progression, inversion, discords by suspension (on fundamental basses only); the discord of the dominant seventh (in its direct form only).

## XI.—Drawing.

*First Year.*

Free-hand drawing, from copies and models.

*Second Year.*

Perspective; landscape drawing.

## XII.—Second Language. (French, German, Latin, or an Indian Vernacular.)

*First Year.*

1. Passages for translation into English from two books to be named beforehand. Questions on grammar and idiom.
2. Easy passages of English to be translated into the second language.

*Second Year.*

1. Passages for translation into English from two books to be named beforehand. Explanation of passages; questions on grammar and idiom.
2. Translation of a passage from an author not previously named.
3. Translation from English into the second language.

## XIII.—Mathematics

*First Year.*

1. Algebra, as far as simple equations.
2. Geometry; the first two books of Euclid.

*Second Year.*

In addition to the subjects of the first year—
1. Algebra; ratio and proportion.
2. Geometry; the third and fourth books of Euclid.

## APPENDIX II.

### I.—FORM OF MEMORANDUM OF AGREEMENT (ARTICLE 47*c*).

MEMORANDUM OF AGREEMENT between [1] _____

_____

_____

hereinafter called *the Managers*, on behalf of the Managers of the _____ School, and [2] _____ hereinafter called *the Surety*, the [3] _____ of [4] _____ hereinafter called *the pupil-teacher*.

The Managers, for themselves, their executors, administrators, and assigns agree with the Surety, h— [5] executors, administrators, and assigns as follows:—

1. The Managers agree to engage the pupil teacher to serve under a certificated teacher, during the usual school hours, in keeping and teaching the said school for two hours daily during the first year, and for three hours daily during the remainder of the engagement. Sunday is expressly excluded from this engagement.

2. This engagement shall begin on the first day of [6] _____ 18—, and, subject to the proviso in paragraph 5, shall end on the last day of [7] _____ 18—; [8] but if the pupil-teacher shall, with the consent of the other parties hereto, pass the Entrance examination of the Calcutta University next preceding the last mentioned date, this engagement may end on the 31st day of the month of December next following such examination, provided the pupil teacher then enters a training college.

3. The pupil teacher shall be paid as wages [9] _____ per [10] _____ in the first year, and this sum shall be increased by _____ per [10] _____ in each subsequent year of the engagement; but such increase may be stopped, at the discretion of the Managers of the said school for the time being, for the unexpired remainder of any year after receipt of notice from the Department that the pupil teacher has failed to pass the examination or to fulfil the other conditions required of a pupil teacher, according to the standard of the preceding year, as prescribed in the articles of the Code of the Department applicable to the case.

4. The Managers shall also pay to the pupil teacher one-half of the amount received from the Department on his account under the provisions of article 50 of the said Code. This payment shall be over and above all payments made as wages under paragraph 3 of this agreement.

5. *Provided* always, that if the pupil teacher fails to pass an examination for any year as specified in paragraph 3 of this agreement, this engagement shall, on the application of the Managers and with the consent of the Department, end on the last day of _____ 18—.[11]

When this engagement is so extended, the course of study and the wages of the pupil teacher in the remainder of the year succeeding that in respect of which the pupil teacher failed, shall be the same as in the last mentioned year; and that year shall not be reckoned in calculating any payment to be made under paragraph 7 of this agreement.

6. The pupil teacher, while the school is not being held, shall receive without charge, from a teacher holding a certificate of the first or second grade, special instruction for at least one hour a day. Such special instruction, and any instruction in secular subjects given to the pupil teacher during school hours, shall be in the subjects in which the pupil teacher is to be examined during this engagement pursuant to the said articles.

7. The pupil teacher shall be liable to dismissal without notice for idleness, disobedience, or immoral conduct of a gross kind respectively; and this engagement shall be terminable on either side by a written notice of six months, or in lieu of such notice by the payment on either side of a sum equal to half the wages payable under paragraph 3 to the pupil teacher for the year in which the engagement is terminated; such payment to be recoverable as a debt by the party entitled to receive it, and to be over and above the settlement of all other accounts between the parties.

8. The pupil teacher enters into this engagement freely and voluntarily on h— [12] own part and with the privity and consent of the Surety.

9. [13] The Surety agrees with the said managers, their executors, administrators, and assigns to clothe, feed, lodge, and watch over the pupil teacher during the continuance of this engagement in a manner befitting the same

Signed [14] this _____ day of _____ 18____.

_____ in presence of _____

_____ in presence of _____

_____ in presence of _____

*N.B.*—1. This memorandum must be executed *by all the parties named in it*, viz.:—

Managers.
Surety.
Pupil teacher.

[1] Names, &c., in full of a quorum of the Managers.

[2] Name, &c., in full of father or other Surety of the pupil-teacher.

[3] Father, or as the case may be.

[4] Name in full of the pupil-teacher.

[5] His or her.

[6] The month defined by article 8.

[7] Preceding month.

[8] Three full years.

[9] The sum to be inserted must be fixed at the discretion of the parties, having in view the local rate of wages, and the advantages of the school as a place wherein to learn the business of a teacher.

[10] Month, or as the parties may agree.

[11] One year later than the second date in paragraph 2.

[12] His or her.

[13] This paragraph may be modified if the pupil teacher is treated as a boarder.

[14] All the parties named must sign, but need not do so together. Each signature should be written in a separate line, and must be attested by that of a witness who sees it made. The same witness may attest more than one signature.

2. If it be executed with blanks still remaining in it, they cannot legally be filled up afterwards except as part of a new agreement requiring a new stamp

3. The memorandum when executed should be deposited with the school papers article 43 (*d*). The Surety should have either an executed duplicate (which requires a second stamp) or a certified copy. The agreement exists only between the persons who sign it. If any of them are changed (*by removal of managers or otherwise*) a new agreement in the following form should be executed.

---

## II.—FORM OF NEW AGREEMENT ON CHANGE OF MANAGERS.

[1] The *Surety* in the existing memorandum.

[2] The Managers in the original memorandum and the executors of any of them who are deceased.

[3] The name, description, and address of the new Manager or Managers.

[4] The name, description, and address of the present Managers, excluding such as will be no longer Managers, and including the new Manager or Managers.

MEMORANDUM OF AGREEMENT between[1] _____

within and hereinafter described as *the Surety*;[2] _____

_____

the persons within described as *the Managers*;[3] _____

_____

and[4] _____

_____

hereinafter described as *the Managers*.

1. The said Surety and the said[5] _____

_____

hereby mutually rescind the within written Agreement, and agree that the same shall be henceforth determined, and of no further force as regards the future.

2. The said Surety and the said Managers hereby mutually agree to adopt and enter into an Agreement in the same words and to the same effect as the within written Agreement for the unexpired term thereof; and that the like obligation and responsibility shall exist and be of force between them in like manner and to all intents and purposes as if the name of the said[6] _____

had been inserted therein and signed thereto, instead of the name of the said[5] _____

_____

[5] The new Manager or Managers

[6] Deceased or outgoing Managers.

Signed[7] this _____ day of _____ 18__,

_____ in the presence of _____

_____ in the presence of _____

_____ in the presence of _____

[7] All the parties named must sign, but need not do so together. Each signature should be written in a separate line, and must be attested by that of a witness who sees it made. The same witness may attest more than one signature.

*N.B.*—This memorandum must be executed *by all the parties named in it*, viz.:—

Managers.
Surety.
Pupil teacher.

If it be executed with blanks still remaining in it, they cannot legally be filled up afterwards, except as part of a new agreement requiring a new stamp.

---

## III.—FORM FOR CANCELLING ENGAGEMENT OF PUPIL TEACHERS.

*To be endorsed on the original Memorandum.*

The within written Memorandum of Agreement is cancelled by the undersigned parties, being the same parties by whom it was executed.

Witness our hands, this _____ day of _____ 18__.

_____

_____

No. 484, dated Simla, the 20th September 1882.

From—A. MACKENZIE, Esq., C.S., Secretary to the Government of India, Home Dept.,

To—A. W. CROFT, Esq., President of the Committee on European and Eurasian Education.

I AM directed to acknowledge receipt of your letter No. 4461 of the 20th July 1882, submitting the Report of the Committee appointed under the Resolution of the Government of India in the Home Department, No. 8 of the 8th October 1881, together with a draft Code for regulating the conduct of European education in the Bengal Presidency. In reply, I am to convey to you, and to the gentlemen associated with you on the Committee, the cordial thanks of the Governor General in Council for the admirable Code and very complete Report submitted to Government. His Excellency in Council feels especially indebted to the non-official members of the Committee for the ungrudging manner in which they consented to give up to this work so much of their valuable time; and he trusts that they may have the satisfaction of finding their labours productive of real and lasting benefit to that section of the community on whose behalf they were undertaken. The ready way in which you yourself, already burdened with heavy official duties, accepted the task of presiding over and assisting the deliberations of the Committee, is highly appreciated by the Government of India. Thanks are also due to Messrs. Garrett and Nash, whose services are referred to in paragraph 86 of the Committee's Report.

2. The Governor General in Council heard with great regret of the death of the Very Reverend Father VanImpe, one of the members originally appointed to the Committee, and he is now much grieved to learn that that sad event was in all probability hastened by the devotion with which that gentleman entered upon the work, of which the outcome is now before Government.

3. The Governor General in Council has carefully considered the Report and draft Code, and hopes shortly to be able to publish, for the information and guidance of the Local Governments, the orders of the Government of India upon the important subject with which the Committee had to deal.

Taken as a whole, the Code appears to be complete in itself, and well calculated to find acceptance not only with the Local Governments, but also with those who are directly engaged in the work of European education. There are, however, one or two minor points in which the Government of India feel disposed to modify to some extent the proposals adopted by the Committee, but before finally accepting these modifications, they consider it due to the members to consult further with them as to the best mode of giving effect to the wishes of Government.

4. The first point is that discussed in paragraphs 11 and 12 of the Report. The Governor General in Council, while altogether concurring in what is said in the former paragraph regarding the propriety of limiting the application of the grant-in-aid system in the case of high schools, which owing to large fees or substantial endowments ought to be independent of State aid, is not altogether satisfied with the manner in which this limitation is regulated under Rule 40 of the Code. The arguments advanced in paragraph 12 of the Report against the proposal to determine the grants in such cases by reference to expenditure, appear to His Excellency in Council to carry great weight. He would wish the Committee to re-consider this matter, and endeavour to devise some means of regulating the grants which shall not take away all stimulus to improvement of income. It has been suggested, for instance, that it would be better to omit Rule 40 entirely, and to add to Rule 38 a clause providing that "the amount earned may be reduced by the department to a maximum representing *any lower proportion of the said income* of the school, when it appears that this can be done without detriment to the efficient maintenance of the school."

5. The proposals regarding night schools (paragraphs 52 and 53 of the Report,—Rules 32 and 33 of the Code) appear to the Governor General in Council rather too limited in scope. The Government of India would be glad

to encourage a higher standard of study in such schools for lads engaged in trades. The Committee may be able to modify the Rules slightly so as to provide for this.

6. So again as regards scholarships, some provision appears desirable, as suggested by the Committee, for the grant of scholarships to boys in high schools to be held in Colleges of technical instruction. It would be well to suggest the amount of these in the rules, as the arrangements in force in connection with Seebpore may not be known to Local Governments outside Bengal.

7. In respect of the qualifications of teachers, discussed in paragraphs 62 to 72 of the Report, the Governor General in Council is disposed to think that too great prominence is given to University qualifications, and that the rules in the Code are unnecessarily complicated. I am to suggest, for the consideration of the Committee, whether they might not be recast and simplified, so as to provide for the grant of certificates to teachers—

(1) who, on the Code coming into operation, have been rendering successful service for a certain number of years, and satisfy the Inspectors of their competence to teach up to the standard required;

(2) who pass an examination to be held by the department for each grade of certificate required, or produce proof of educational requirements equivalent to this standard;

(3) who hold certificates from home;

(4) who produce qualifications as pupil teachers, or

(5) who have passed through training colleges.

The certificates given under (1), (3) and (5) might probably be 'permanent;' those under (2) and (4) 'provisional.'

The subject is one upon which the Government of India would be ready to defer to the final conclusions of the Committee, but the rules as they stand appear open to criticism on the grounds stated, and the Governor General in Council hopes the Committee may see their way to simplifying them on some such plan as that above suggested. The demand for University qualification appears particularly doubtful in the case of female teachers.

8. I am to request that the Committee may be moved to consider the foregoing points at a very early date, and to make any modifications in the draft Code that they may eventually consider desirable.

---

No. 2, dated Calcutta, the 22nd December 1882.

From—A. W. CROFT, Esq., President of the Committee on European Education,

To—The Secretary to the Government of India, Home Department.

I HAVE the honour to acknowledge the receipt of your letter No. 484, dated Simla, the 20th September 1882, conveying the views of His Excellency the Governor General in Council on the Draft Code for regulating the conduct of European education in the Bengal Presidency, and referring certain points for the further consideration of the Committee.

2. The Committee are requested to consider—(1) a suggestion for regulating the grants to high schools in certain cases by reference to income; (2) the encouragement of a higher standard of study in night schools; (3) the definition of the value of scholarships to be held in colleges of technical instruction; (4) the simplification of the rules for granting certificates to teachers. All these points have received the careful consideration of the Committee, and I have now to submit the results of their deliberation.

3. With regard to the first suggestion, that some means should be devised of so regulating the grants in the case of certain flourishing schools as not to

remove all stimulus to improvement of income, it seems to the Committee desirable to enter into some general explanation of the relative importance of the three considerations of efficiency, income, and expenditure, in determining the amount of grants-in-aid. It will of course be admitted that the most important determining element is that of efficiency. This is the governing principle of the Draft Code, subject to the single limitation (article 38) that the amount of the grant is not to exceed the income of the school from all other sources. In the special cases which are referred to in article 40, and equally in those to which article 6 (*f*) is intended to apply, a further consideration, that of expenditure, is by implication involved. Under article 6 (*f*) a school is not entitled to a grant if its income from all other sources is sufficient, in the opinion of the Department, to maintain it in efficiency. The "opinion of the Department" must be guided in such cases by a comparison of the income of the school with its necessary expenditure. Similarly, in applying article 40, or any method of reduction that may be substituted for that of the article, it would be necessary for the Department to make the same comparison of income and expenditure, in order to settle the preliminary question whether any reduction at all should be enforced. Thus considerations of expenditure are, as it appears to the Committee, equally involved both in article 40 and in that which, in the 4th paragraph of your letter, is proposed as a substitute for it.

4. A further but separate question is the amount of reduction to be made, and the method of effecting it. The amount of reduction in other words, the fraction to be applied, under article 40, to each school to which that rule may be held to be applicable—will necessarily vary according to the estimated necessities of the school. This will consequently demand a much closer and more detailed comparison of income and expenditure than was necessary in order to determine the preliminary question whether article 40 (or any similar rule of reduction) should be enforced at all. The Committee venture to submit that such detailed comparison would be required in precisely the same degree, whether under article 40, or under the addition to article 38 which is proposed in substitution of it. In either case the object of applying the fraction would be the same, namely, to reduce the amount earned under the ordinary rules to an amount not more than enough to maintain the school in efficiency. Under one method this is to be effected by applying a variable fraction directly to the amount earned; under the other by applying a variable fraction to the income of the school. Under both alike the value of the fraction could be determined only by a comparison of the income of each school with the expenditure adjudged to be necessary for the maintenance of an efficient establishment; and the fraction would therefore be determined in each particular instance by the financial circumstances of the school.

5. It is admitted that the determination of the fraction in each case will present elements of difficulty. This difficulty could be removed only by fixing the fraction once for all in the Code, and applying it alike to all schools which might be declared liable to reduction, without regard to their varying financial condition. We do not, however, understand that such was the intention of His Excellency in Council; nor do we think that the time has yet come for the adoption of this method. We have therefore assumed that the fraction is to be settled by the Department from time to time, say for a term of three or five years, with reference to the financial circumstances of each school.

6. Such being the case, it remains to be considered what method of reduction should be applied. The Committee have considered with great care and in all its bearings the suggestion made in the 4th paragraph of your letter. That suggestion is, in effect, that in the case of those schools to which a reduced grant is to be given, the amount of the grant shall be determined by, and shall vary with, the income of the school, and not with the amount that might be claimed by the school under the ordinary rules, as proposed in article 40 of the Draft Code. It is clear that, under such a mode of determining the grant, the schools would have an immediate and strong incentive to increase their income; and it

may be readily admitted that the larger the income, the greater will generally be the efficiency of the school. But the Committee would beg to submit that there are other elements in the case which need consideration. The proposed change does not appear to give enough prominence to the question of efficiency, as determined by the results of examination. For, in every case to which the rule would apply, the amount that the school could earn in attendance and instruction grants would be greater than the maximum grant allowed by the rule; and the school would, therefore, always receive this maximum grant. In other words, the grant to the school would be a fixed fraction of its income, whatever the result of the examination might be. If the income of the school remained the same, or varied slightly from year to year, no improvement, and equally no deterioration, in the efficiency of the teaching, would have any effect upon the amount of the grant. True, the two conditions of income and efficiency are generally found to vary in a direct and not in an inverse ratio; and thus, it may be urged, the end will be attained whichever be adopted as the determining condition. But though increase of income follows increased efficiency, it does not follow it so directly that it can be adopted with equal advantage as the measure of the grant. To make our meaning clear by an example:—A high school in Calcutta has a fee-income, say, of Rs. 1,800 a month; and its unreduced earnings under the Code would amount to Rs. 600 a month, and could hardly, at the worst, fall below Rs. 400 a month. The Department, after consideration of the circumstances of the school, decides that it can be maintained in efficiency with a grant of Rs. 200 a month, and accordingly applies, under article 40, the fraction $\frac{1}{3}$. Under the stimulus of the system of payment introduced by the Code, the normal earnings of the school rise in successive years to Rs. 750 and Rs. 900; and it accordingly receives a grant for those years of Rs. 250 and Rs. 300. In this way a direct and strong incentive is applied, tending to increase the efficiency of the school; since increased efficiency at once makes itself felt in the amount of the grant. But if the income of the school be taken as the standard, and with the same object as before, one-ninth of the income be taken as the fraction, the school would gain no profit from its increased efficiency. It would doubtless become more popular, and would thus gain in the amount of its fee-receipts; but the gain would be slow, and could under no circumstances be expected to advance at such a rate as to make up to the school the amount it would earn, as above explained, under article 40. And at the same time, since the school at its worst would, *ex hypothesi*, earn more by the results of examination than the amount judged to be necessary for its requirements, no reduction in efficiency would directly affect the grant. No doubt any tendency to deterioration would be in a great measure checked by the publicity of the Inspector's reports and the emulation of rival schools; but the Committee think it highly desirable that, for the present at least, schools should not be deprived of that additional incentive to exertion which lies in the direct dependence of the grant on the quality of the work turned out.

7. The position will probably be made clearer if the Committee explain what are the circumstances of those schools to which alone, so far as they are able to judge, any rule of reduction would now, at any rate, be likely to apply. The schools in question are St. Xavier's and the Doveton in Calcutta. The fee-income of St. Xavier's is Rs. 1,750 a month, and its probable earnings under the Code would be approximately Rs. 675 a month. The fee-income of the Doveton School is Rs. 2,100 a month, and its probable earnings Rs. 600. Each receives from Government a fixed grant of Rs. 200 a month, and with this assistance it is found that they can maintain themselves in efficiency. It is doubtful whether under a strict application of article 6 (*f*), these schools would be eligible for grants; but if they were admitted, and if it be assumed, for the sake of illustration, that under article 40 the fraction fixed on for each was one-third, the grants claimable by the two schools would be Rs. 225 and Rs. 200 a month respectively; and would rise or fall yearly, within moderate limits of variation, in direct proportion to the number of scholars, and to the efficiency of each school as tested by examination. The Committee are disposed to believe that in present circumstances such a mode of determining the grant would be both satisfactory in itself, and also acceptable to the schools concerned.

8. It is true that there is and can be no fixed rule by which to determine what is the cost of an establishment necessary for the efficient maintenance of a school of any class; and this difficulty presents itself in a striking light in the two schools just named. But the Committee would submit that considerations of expenditure must arise under any system whatever, in which it is necessary to determine what grant is required in order to maintain a school in efficiency. The only way to avoid it is to give to each school the full amount that it can earn under the Code; and this, however desirable it may be, is incompatible with the condition of a total grant of limited amount, as laid down by the Government of India in paragraph 23 of their Resolution.

9. The Committee have had under consideration another suggestion which they think deserving of mention, though they are unable to recommend its adoption. It has been suggested that the difficulty might be met by some such addition to article 38 as the following:—"If in the opinion of the Department a school does not require the full grants specified in Sections II and III, the total amount earned may be reduced to a sum representing a proportion of the said income of the school, provided always that this reduction does not bring the grant for each scholar who satisfies the prescribed conditions below one-fourth of the ordinary rates." This is an adaptation of article 114 of the new English Code, and might be worked so as to affect both income and efficiency; but it leaves the "proportion" indefinite, and it also appears to lack simplicity.

10. It should, however, be stated that article 40 and the proposed modifications of article 38 are alike open to the objection that, as a school advances in efficiency and success, and therefore may be held to require less help from Government, it will, nevertheless, receive a larger grant. Perhaps the only satisfactory way of meeting this difficulty will be found in the imposition of a fee-limit; and the Committee are inclined to think that some adaptation of the principle laid down in the English Code may be found to be quite feasible. For instance, it has been suggested that for article 40 the following might be substituted:—"If in a school the ordinary monthly fee for tuition from each scholar exceeds Rs. 2, Rs. 4, or Rs. 6 in the primary, middle, or high department respectively, the Department may reduce the amount earned under Sections II and III by 25 per cent. for every rupee of that excess, provided always that this reduction does not bring the total annual grant for each scholar in average attendance throughout the year below Rs. 6." The Committee, however, feel that with the information at their command they cannot at present make any definite recommendation as to a fee-limit; and they are by no means of opinion that the limits above suggested are those that would be suited to the circumstances of all schools throughout Bengal, though they would probably cover the two exceptional cases to which reference has been made. They therefore think it better for the present to adopt the simpler, though somewhat exceptional, method embodied in article 40. That article is not proposed as expressing the judgment of the Committee as to the ultimate mode of determining the grants to high schools; it is merely a provisional method of getting over an admitted difficulty. Regarding it, therefore, in the light of a temporary expedient affecting at most only two schools, the Committee are agreed in preferring it to the alternative suggested in paragraph 4 of your letter. It appears to them to have the merit of greater simplicity, and to be equally fitted to secure efficiency. The temporary character of the article might be indicated by a note limiting its operation to three (or five) years from the date on which the Code comes into force.

11. In paragraph 5 of your letter the Committee are requested to modify the rules applying to night schools, so as to encourage a higher standard of study in them. We have therefore substituted the following for article 33 of the Code:—

33. The rules for grants to day schools (Section II) shall apply also to night schools, with the following changes:—

(*a*) By a "full school meeting" is meant a period of not less than one hour of secular instruction.

(*b*) The number of full school meetings in the year must be not less than 80, and of full attendances qualifying for an instruction grant not less than 50.

(*c*) The attendance grants shall be at one-third of the rates prescribed in article 20.

(*d*) The number of class and special subjects to be taught in each school shall be determined by the Inspector. For the purpose of calculating the grants all such subjects shall be treated as special subjects.

(*e*) Any scholar who has passed by Standard V may, with the sanction of the Inspector, substitute for the full course prescribed for day schools, a special course consisting of arithmetic and one or more of the following subjects :—

Mathematics, Elementary Science, Drawing } of Standards VI and VII.

Mathematics, Mechanical Drawing, Elementary Physics, Elementary Chemistry } of Standard B.

To such scholars the provisions of article 24 (*a*) shall not apply.

12. We do not recommend any change in the number or length of the school meetings. The number of meetings actually held in the schools with which we are acquainted is less than the number required; but we are of opinion that satisfactory results can be obtained only by an increase in the time given to teaching.

13. In clause (*d*) of revised article 33 we have practically repeated article 13 (*d*) in a different form. In all night schools the construction of a suitable time-table presents great difficulties, owing to the limited time that can be devoted to teaching. We therefore think that the managers should have the assistance of the Inspector in framing a proper course of study.

14. In 33 (*e*) we have provided for a bifurcation of studies above Standard V. At this stage, scholars in night schools will have the option either of continuing their general studies, leading up eventually to the University examination, or of entering upon a special course of elementary scientific training, bearing more or less directly upon their daily occupations. We believe that the latter course will be found specially suited to the requirements of those schools (and they are the only night schools known to exist in India), in which the majority of the scholars are apprentices in railway or other workshops. The former course will probably be found better adapted to schools in large towns, where the scholars are employed in offices during the day. If schools of this class are hereafter established, it may be found desirable to provide for a special course of commercial training in them. We trust that these modifications will meet the views of His Excellency the Governor General in Council.

15. In paragraph 6 of your letter it is suggested that provision should be made for the grant of scholarships to boys in high schools, to be held in Colleges of technical instruction; and that the value of these scholarships should be inserted in the Code. The Committee would beg to point out that, though the institution of such scholarships is eminently desirable, the rules for the award of them do not appear to come within the sphere of the Code. At present all scholarships, whether technical or other, that are awarded on the results of the University Entrance Examination, the final standard of high schools, are open to Europeans and Natives alike; and it does not appear desirable to make any distinction between these two classes of scholars. Additional scholarships might, perhaps, be provided for scholars passing by Standard B of high schools, who, not having passed the Entrance Examination, would be ineligible for scholarships under the existing rules; but we are of opinion that the terms on which they are given should be published in the rules of the Colleges in which they are made tenable, rather than in the Code. We would also point out that the rules for the award of scholarships in the Seebpore Engineering College, the only technical College in Bengal, have already been referred to in our report (paragraph 61). It may be added that in any College affiliated to the University, all candidates for a degree must under existing regulations have passed the Entrance Examination; though students are occasionally admitted to the full course of instruction in a technical College without aiming at a University degree.

16. The last point referred to the Committee for consideration is the simplification of the rules for granting certificates to teachers. We have carefully

considered the suggestions made in paragraph 7 of your letter, and in accordance with them have added the following note to article 58 :—

In administering this article, it shall be in the power of the Department to hold examinations for the purpose of testing the qualifications of applicants for certificates.

With this addition to the Code, provision is made for all the five cases referred to in your letter.

17. The rules in Chapter IV appear somewhat complicated, but we believe they are not unnecessarily so. By an addition to article 69, noted below, six of the rules (articles 67, 68, 69, 75, 76, and 77) are declared to be in their nature temporary, and they may be struck out of the Code after it has been in operation for two years. The remaining articles in Sections II and III of that Chapter will probably be very much simplified, if not altogether cancelled, when training colleges have been established, and have proved themselves capable of turning out a sufficient number of trained teachers. At present we are unable to recommend any simplification of the rules; since we consider it a matter of great importance that, at the outset, they should be as definite and comprehensive as possible, in order that teachers may know exactly under what conditions they will be entitled to certificates.

18. With reference to the opinion expressed in the 7th paragraph of your letter, that too great prominence has been given to University qualifications, we beg to express our belief that it will ultimately be found advantageous to require every teacher to undergo a course of instruction in a training College At the same time, we would venture to submit that, until such Colleges are established on a sure basis of efficiency, the University Examinations appear to be the most suitable, if not the only satisfactory, means of testing the qualifications of teachers. The University system of examination is well known; its certificates are highly valued, and would probably carry more weight with the public than any granted after a departmental examination. The new courses in Arts prescribed by the University afford, the Committee believe, a guarantee of sound knowledge, and of a fairly high standard of general culture, in those who may hereafter pass its examinations. These qualifications may not indeed counterbalance the want of a special training adapted to the calling of a teacher; yet, until the means for such special training exist, they supply, the Committee believe, the best attainable substitute; and meanwhile, the knowledge that University degrees and the certificates granted by a training College are equally recognised by Government as qualifying for the profession of a teacher, may serve to mark the importance which Government attaches to that profession, and thus to facilitate and hasten the establishment of training Colleges. We may, however, point out that we have provided for those cases in which candidates for certificates are unable to appear at the University Examinations, by giving the Department power to hold examinations for such certificates. This provision will render University certificates in the case of female teachers unnecessary; but at the same time it appears desirable to the Committee to hold out some inducement to female students to enter the University, by giving them the prospect of a useful and honourable career.

19. In addition to what has been stated above in paragraphs 11 and 16, the Committee have made the following alterations in the Draft Code :—

(1) The following note has been added to article 31 :—

This grant shall not be taken into account in making reductions under Section V.

(2) The note to article 38 has been omitted, and the following substituted :—

In calculating the income of the school under this article, boarding fees shall not be included.

(3) The words "in the same school" have been expunged from article 60, and the following note has been added :—

Service in more than one school will not be recognised by the Department, unless the transfer has been made with the sanction of the Inspector.

(4) The words "at any time within two years from that date" have been omitted from article 69, and the following note added :—

All applications for certificates under Articles 67, 68, 69, 75, 76, and 77 must be made within two years from the date on which this Code comes into operation.

20. A copy of the Code in which the foregoing alterations have been inserted is submitted herewith.

GOVERNMENT OF INDIA.

# REVENUE AND AGRICULTURAL DEPARTMENT.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 6th FEBRUARY 1883.

GENERAL REMARKS.—Slight rain has fallen in several districts of Bengal, as well as in Sindh and in most parts of the Madras Presidency. Elsewhere there has been scarcely any rain worth noting.

Oil-seed crops have been somewhat damaged in Bengal by wet weather, and in two districts of the North-Western Provinces by blight and insects. In the Cawnpore and Agra districts, and in a few places in the Bombay Presidency, some injury has been caused by frost. In the Punjab some districts need more rain. On the whole, however, agricultural prospects are generally good throughout the country, and have been much improved by the recent rain.

Harvest operations are still progressing in the Madras Presidency with an outturn which promises on the whole to be an average one. In Coorg the threshing of rice continues. In the Bombay Presidency, the Berars and the Nizam's Territories the harvest of winter crops has commenced.

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Feb. 7th)** | | |
| Bellary | . | Standing crops generally in good condition; harvest paddy, dry grains and sugarcane, outturn average. |
| Kurnool | . | Standing crops generally in good condition; harvest dry grains, yield below average; cattle disease in parts. |
| Ganjam | ·42 (average of three stations) | Standing crops *cumbu* cotton and sugarcane thriving; harvest horse-gram, outturn average; fever, small-pox, and cattle disease continue. |
| Kistna | ·58 (average of one station.) | Standing crops paddy and dry crops affected by grubs and blight in parts, elsewhere promising; harvest paddy and dry grains, yield about average; small-pox and fever continue; water one foot over anicut. |
| Chingleput (Madras) | . | Standing crops in good condition; harvest paddy, outturn below average; small-pox in parts. |
| Coimbatore | . | Standing crops in good condition; harvest paddy and dry grains, outturn average; fever, cholera, and cattle disease in parts. |
| Tanjore | ·28 (average of six stations.) | Standing crops in good condition; harvest paddy and *ragi*, yield below average; cholera continues. |
| Madura | ·28 (average of two stations.) | Standing crops withering in parts; harvest paddy and dry crops; cholera in parts. |
| Malabar | 1·20 (average of one station.) | Harvest second crop paddy, yield fair; fever and cholera in parts; small-pox slight. |
| Travancore | ·90 | Harvest progressing; fever and small-pox continue. |
| | | *General Remarks.*—No rain in Bellary, Kurnool, Chingleput, and Coimbatore; general prospects good. |
| **Bombay—(Feb. 7th).** | | |
| Kurrachee | Showers of rain general in the district during week ending 29th January.<br>Mandora ·55<br>Tatta ·16<br>Mugalbhin ·30<br>Keti Bandar ·62 | River low on 4th, 2 feet 4 inches against 3 feet 5 inches on corresponding date last year; small-pox increasing in Karachi; 64 fresh cases, 7 deaths from 25th January to 3rd February, 64 patients remaining sick on latter date, 1 case in Sehwan also, and 2 in Sajawal; fever in 10 talukas; cattle disease in 4 talukas; wheat, red rice, and *bajri* in Karachi 24, 32, and 34 lbs. per rupee, in Sehwan 32, 38, and 48 lbs., in Ghorabari 20, 44, and 44 lbs., and in Shahbandar 22, 44, and 46 lbs. per rupee respectively. |
| Hyderabad | Rain of 14th very unevenly distributed.<br>Hyderabad ·92<br>Mirpur ·78<br>Dehra Mohbat ·50<br>Guni ·46<br>Badin ·30<br>Shahdadpur ·25<br>Tando A'dam ·24<br>Sakrand ·21<br>Hala ·15<br>Tando Alahyar ·12<br>Tando Bago ·10<br>Moro, fair showers.<br>Naushahro, few drops.<br>Kandiaro, *nil.* | Frosts have since done great damage to *rabi* crops; small-pox in Hyderabad, Moro, and Naushahro; fever and colds general, but of mild type; cattle disease in Kandiaro and Badin; wheat 26, *bajri* 40, *jowari* 48, red rice 28, and white rice 22 lbs. per rupee. |
| Ahmedabad | . | *Rabi* crops thriving; small-pox in Dhandhuka; wheat 29 and *bajri* 32 lbs. per rupee. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Baroda | | *Rabi* crops in good condition; cotton-picking in progress; public health generally good; common rice 27 and *bajri* 30¼ lbs. per British rupee. |
| Surat | | Cotton-picking continued; slight small-pox in city; *jowari* 39 and *nagli* 52 lbs. per rupee. |
| Nasik | | Weather very muggy again; *rabi* harvest commenced; fever in Dangi villages; wheat 25½, *bajri* 36, and rice 25 lbs. per rupee. |
| Colaba (Bombay) | | Average abnormal temperature 2° cool from 31st to 2nd, afterwards 1° warm; vapour in air largely in defect of normal from 31st to 2nd; normal from 3rd to 5th, and in excess of normal on 6th; wind normal except on 31st and 1st, when abnormal wind was northerly. |
| Poona | | Reaping of *rabi* crops commenced; *bajri* 44 and *jowari* 59 lbs. per rupee; in Poona *bajri* 37 and *jowari* 48 lbs. per rupee. |
| Ahmednagar | | *Rabi* crops generally good; harvesting of *rabi* in progress; *bajri* maximum 54 lbs. per rupee in Parner, minimum 45 lbs. in Kopargaon; *jowari* maximum 72 lbs. in Parner, minimum 52 lbs. in Sheogaon; cattle disease in Karjat. |
| Sholapore | | Reaping of *rabi* crops commenced; *jowari* 73 lbs. 4 tolas and *bajri* 57 lbs. 6 tolas per rupee. |
| Dharwar | | Harvesting of early crops nearly completed, and that of wheat just commenced; wheat blighted in 5 and cotton in 9 talukas; other late crops good; fever in 3 talukas; no cattle disease; rice minimum 26 and *jowari* 52 lbs per rupee. |
| Kanara | | Second crop rice plants healthy; weeding and transplanting; sugarcane harvest on coast; small-pox in Sirsi; fever in 2 talukas; common rice in Karwar 14 seers per rupee, in district average 15½ seers per rupee. |
| Rajkot | | Weather cold; general health good; cholera continues slightly at Navanagar and Morvi; *bajri* 29 and *jowari* 3 , lbs. per rupee. |
| | | *General Remarks.*—Rain in Sind; *rabi* crops injured by frost in a few places; harvesting of *rabi* commenced generally; fever, small-pox, and cattle disease in several districts. |
| **Bengal—(Feb. 6th).** | | |
| Chittagong | *Nil* | Weather cold till 3rd instant, since which seasonable; prospects of crops fair; rain would be beneficial; prices somewhat higher; cholera and cattle disease still continue. |
| Dacca | 0·02 | Prospects of winter crops satisfactory; *boro* paddy being sown; cutting of sugarcane continues. |
| 24-Pergunnahs (Alipore) | *Nil* | Harvesting of late rice and sugarcane nearly finished, yield estimated at from 12 to 14 annas; *rabi* crops doing well; price of common rice stationary; public health good; cholera and fever have much abated. |
| Moorshedabad | 0·07 | *Amun* still being harvested in some places; winter crops doing well, except that damage by insects to peas and linseed is reported from Jungipore sub-division; cholera prevalent in thanas Shahanagore and Manullabazar. |
| Rajshahye | *Nil* | Weather cold; prospects of crops generally favourable; outturn of rice crop an average one; general health fair. |
| Burdwan | 0·07 | Weather very cold; cold-weather crops being reaped; prospects tolerable; public health fair. |
| Rungpore | 0·01 | Prospects of crops favourable; cholera still prevalent in south of district. |
| Bhagalpur | 0·14 | Prospects of crops favourable; rain generally beneficial. |
| Purneah | 0·05 | Prospects of crops good; public health improving. |
| Patna | *Nil* | Winter rice harvested; prospects of *rabi* crops good; public health good. |
| Durbhunga | *Nil* | In the east late rain benefited wheat and barley, but partly injured mustard and linseed; prices stationary; public health generally good. |
| Hazaribagh | *Nil* | Weather cold and clear; prospects of cold-weather crops good; a few cases of small-pox reported; general health good. |
| Cuttack | *Nil* | Reaping of late rice nearly completed; *rabi* being gathered; public health good. |
| | | *General Remarks.*—Slight rain again reported this week from many districts, and an enormous fall of snow from Darjeeling; the weather has become very cold since the rain; the cold-weather crops generally continue to do very well, but in some places some of these crops, particularly oil-seeds, have been somewhat damaged by rain and cloudy weather; in parts of Behar oil-seeds and poppy are said to have been a good deal spoilt; harvesting of late rice still continues in a few parts, and that of sugarcane is proceeding; *boro* or spring rice being sown; fever and cholera, though still prevalent in some places, have generally abated; sporadic cases of small-pox reported from a few districts. |
| **N.-W. Provinces and Oudh—** | | |
| Benares (Feb. 6th) | No rain | Mustard much damaged by insects; health good; prices falling slightly. |
| Allahabad ( „ 7th) | No rain | Weather very cold with strong west wind; prospects excellent; health good; prices nearly stationary. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **N.-W. P. & Oudh**—*contd* | | |
| Gorakhpur (Feb. 5th) | . . . . | Dry weather and west wind; crops little injured by late storm, and promise well; prices stationary. |
| Jhansi ( „ „ ) | . . . . . | The late fall of rain has greatly benefited *rabi* crops, and no damage was done by the hail; wheat in ear and gram in flower; prices fluctuating; health generally good; cattle disease of a mild form continues. |
| Agra (Feb. 6th) | No rain | *Arhar* slightly injured by frost; small-pox in five parganas; general health good; prices steady. |
| Bareilly ( „ „ ) | No rain | Weather cold; health good; *rabi* crops excellent. |
| Meerut ( „ „ ) | . . . . | Weather clear and cold; occasional attacks of small-pox still reported; prices of barley and gram fallen one seer; crops flourishing. |
| Kumaon ( „ „ ) | . . . . | Weather fine; crops much better; general health good; cattle disease continues; prices unchanged. |
| Lucknow ( „ „ ) | . . . . | The recent rain has been beneficial to crops; prospects good; prices almost stationary; public health good; small-pox in Lucknow city abating. |
| Partabgarh ( „ „ ) | No rain | Crops promise well; prices steady; health good; a few cases of small-pox reported in Kunda tahsil. |
| Sitapur ( „ „ ) | . . . . | Weather clear with strong west wind; very cold now; rain of last week has improved prospects; general health good; small-pox still reported in tahsils Biswan and Misrik; prices almost stationary. |
| Fyzabad ( „ „ ) | No rain | Prospects good; sugarcane in mill; public health good. |
| Rae Bareli ( „ 5th) | . . . . | Prospects of *rabi* crops good; mustard greatly injured; health of men and condition of cattle good; prices almost stationary. |
| Cawnpore ( „ 6th) | No rain | Prospects good; slight damage to *arhar* and gram from frost; general health good; prices nearly stationary. |
| Farukhabad . . . | . . . . | Crops much improved by late rain; health of people fair; steady. |
| | | *Summary.*—No rain during the week; there has been much damage to mustard in Benares and Rae Bareli, while *arhar* and gram have been slightly damaged by frost in Cawnpore and Agra, small-pox is abating in Lucknow city, and a few cases are reported in Partabgarh, Sitapur, Agra, and Meerut, but general health and prospects are good. |
| **Punjab**—(Feb. 6th) | | |
| Delhi . . . . | . . . . | Small-pox continues in the city and district; harvest prospects good; slight rise in prices. |
| Hissar . . . . | . . . . | Health good; harvest prospects much improved; prices falling |
| Umballa . . . | . . . . | Health good; harvest prospects much improved; but more rain wanted; prices stationary. |
| Jullundur . . . | . . . . | Health good; prices steady. |
| Lahore . . . . | . . . . | Health and harvest prospects good; prices stationary. |
| Ferozepore . . . | . . . . | Health and harvest prospects good; prices stationary. |
| Sialkot . . . . | . . . . | Health and harvest prospects good; prices falling. |
| Rawalpindi . . . | ·20 | Cattle disease continues in the Murree tahsil; and fever in the Fatteh jang tahsil; *rabi* harvest prospects good; prices almost stationary. |
| Peshawar . . . | . . . . | Health and harvest prospects good; prices stationary. |
| Mooltan . . . . | . . . . | Health and harvest prospects good; slight fall in prices. |
| Dera Ismail Khan . . | . . . . | More rain wanted; health and harvest prospects fair; prices steady. |
| | | *General Remarks.*—The harvest prospects throughout the province have much improved through the good fall of rain in the previous week, but more rain is still wanted in some districts; the general health is good. |
| **Central Provinces**— | | |
| Nagpur (Feb. 7th) | . . . . | Weather clear; prospects and public health good; prices falling. |
| Jubbulpore ( „ 6th) | . . . . | Weather clear and cold; *rabi* crops thriving and in good condition; prospects favourable; health good; prices unchanged. |
| Sangor ( „ 5th) | . . . . | Weather clear; health good; prices steady. |
| Seoni ( „ 6th) | . . . . | Weather cold; *rabi* crops promising; prices falling. |
| Hoshangabad ( „ „ ) | . . . . | Weather clear and cold; *rabi* crops in good condition; health good; wheat 15 and rice 11 seers per rupee. |
| Raipur ( „ 3rd) | . . . . | Weather cloudy and cold; prospects good; fever and cattle disease slightly prevalent; rice 31 and wheat 26 seers per rupee. |
| Sambalpur ( „ 1st) | ·21 | Weather cloudy; prospects and health good. |
| Khandwa ( „ 6th) | . . . . | Weather chilly and windy; *rabi* being reaped; small-pox prevalent; wheat 16 and rice 15 seers per rupee. |
| | | *General Remarks.*—Weather clear and cold; *rabi* crops thriving; prospects favourable; small-pox prevailing in some districts; prices easy. |
| **British Burma**—(Feb 3rd) | | |
| Akyab . . . . | . . . | One death from cholera in town and six in district; otherwise public health good; reaping finished. |
| Rangoon . . . | . . . . | Public health good. |
| Bassein . . . | . . . . | Three deaths from cholera in town, eight in district; otherwise public health good. |
| Prome . . . | . . . . | One death from cholera in town; otherwise public health good. |

| Presidency or Province and District. | Rainfall for week preceding. | State of agricultural prospects. |
|---|---|---|
| **British Burma—*contd.*** | | |
| Amherst (Moulmein) | | Sixteen cases of cholera reported from district; otherwise public health good, both in Moulmein and district; seventeen deaths of cattle reported from one township; otherwise public health good. |
| Toungoo | | Two deaths from small-pox reported from one township; otherwise public health good. |
| | | *General Remarks.*—Excepting some cholera, public health good. |
| **Assam—** | | |
| Gauhati (Feb. 6th) | No rain | Weather seasonable; public health good; lands being ploughed for *aus*. |
| Sylhet ( „ 7th) | *Nil* | State and prospects of crops generally good; cholera reported from Habiganj and South Sylhet. |
| Cachar ( „ „ ) | *il* | Weather unusually cold; reaping of winter crops not yet completed; common rice 24½ seers per rupee; public health good. |
| Dibrugarh ( „ „ ) | ·27 | Weather fine; mustard doing well; small-pox reported from north Lakhimpur Sub-Division. |
| **Mysore and Coorg—** (Feb. 7th) | | |
| Bangalore | | Crops in good condition; season prospects favourable; health good; rice 11⅝, *ragi* 34, and horse-gram 30¼ seers per rupee. |
| Mysore | | Crops in good condition; season prospects favourable; health good; prices about the same as in Bangalore. |
| Mercara | | Threshing of rice crop continues; no improvement in prospects of coffee planters; prices of food-grains falling; fever prevalent in parts of South Coorg and Nanjarajapatna taluk. |
| | | *General Remarks.*—Public health good and prospects of season favourably reported from all districts; pasturage and water-supply ample; *ballar* horse-gram and *harka* sugarcane, paddy, &c., harvested; prices rule easy. |
| [redacted]r and Hyderabad— | | |
| Amraoti (Feb. 7th) | | Reaping of *rabi* crops continued; wheat 16 and *jowari* 26 seers per rupee. |
| Akola | | *Rabi* crops thriving; prospects good. |
| Hyderabad ( Feb. 8th ) | | Reaping of *rabi* crops continues; *tabi* crops thriving; fever in some places; no cattle disease; prices—wheat 16¼, coarse rice 11, white *juari* 24¾, yellow *juari* 31 and *tur* 25¾ seers per halli sicca rupee. |
| **Central India States—** (Feb. 7th) | | |
| Indore | | Weather slightly warmer; health good; prospects favourable. |
| Morar (Gwalior) | | Weather seasonable; health and prospects good. |
| Sutna | | Weather cold; prospects good. |
| Neemuch | | Weather seasonable; crops doing well; public health good. |
| Goona | | Crops and health good; wheat 22 seers 8 chittacks per rupee. |
| Bhopal | | Weather cool; crops and public health good. |
| Agar | | Health and prospects good. |
| Nowgong | ·02 | *Rabi* prospects favourable; prices steady; health good. |
| Manpur | | Health and prospects good. |
| **Rajputana—** | | |
| Abu (Feb. 7th) | | Weather cold; health good. |
| Sirohi ( „ 4th) | | Weather much warmer; *kharif* crops promising extremely well; wells full; health good. |
| Malwar (Feb. 2nd) | | All tanks empty; water obtained from wells; health and prospects good; prices rising; cold intense. |
| Jhallawar (Jan. 31st) | 4·4 | Hail in parts; weather very cold. |
| Ajmere (Feb. 6th) | No rain | Health good; prospects excellent. |
| Jeypore ( „ 6th) | No rain | Crops looking well; prices stationary; health good. |
| Ulwur ( „ „ ) | | Frost has damaged to some extent gram and *arhar* crops; cattle disease reported in two tahsils, and small-pox in three; wheat 19½, barley 30, and gram 29½ seers per rupee. |

E. C. BUCK,
*Secretary to the Government of India.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

### ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Friday, the 2nd February, 1883.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding.*
His Honour the Lieutenant-Governor of Bengal, C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Mahárájá Sir Jotíndra Mohan Tagore Bahádur, K.C.S.I.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble Rájá Siva Prasád, C.S.I.
The Hon'ble W. W. Hunter, LL.D., C.I.E.
The Hon'ble Durgá Charan Láhá.
The Hon'ble H. J. Reynolds.
The Hon'ble H. S. Thomas.
The Hon'ble G. H. P. Evans.
The Hon'ble R. Miller.

### CRIMINAL PROCEDURE CODE, 1882, AMENDMENT BILL.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to amend the Code of Criminal Procedure, 1882, so far as it relates to the exercise of jurisdiction over European British subjects. He said:—"The effect of the existing law on this subject is summed up in a section of the new Criminal Procedure Code (443), which directs that

"'No Magistrate, unless he is a Justice of the Peace, and (except in the case of a Presidency Magistrate) unless he is a Magistrate of the first class and an European British subject, shall inquire into or try any charge against an European British subject.'

"Now, there is no restriction on the nationality of a Presidency Magistrate; Natives of India may hold, and have held, that office. The result of the law, therefore, is that, within the limits of the Presidency-towns, jurisdiction over European British subjects may be exercised by any person who happens to be a Presidency Magistrate, whether he is a European British subject or not; but that, outside these limits, in any part of the Mufassal, that jurisdiction cannot be exercised by any of Her Majesty's Magistrates, however complete may have been his training—however long may have been his judicial experience—however high may be his rank in the service—unless he happens to be a European British subject.

"Such is the existing law, and it was settled in this form in the year 1872, after a very remarkable debate, which resulted in a very remarkable division. The Select Committee on the Bill which afterwards became law as the Criminal Procedure Code of 1872 had adopted a resolution in which they recorded their opinion 'that the jurisdiction of Magistrates and Sessions Judges who are Justices of the Peace might with advantage be extended in the case of European British subjects.' It will be observed that there was nothing in the resolution which implied that the exercise of this jurisdiction in future was to be confined to persons who are themselves European British subjects. Such a limitation was,

however, inserted in the Bill as finally settled by the Committee; but, when it was brought before the Legislative Council, Sir Barrow Ellis (I shall take the liberty of referring to him and others by the titles which they now bear) moved an amendment which would have had the effect of striking out the limitation. It would appear that the limitation to which he objected had in fact been introduced in pursuance of some kind of bargain or compromise between members of the Committee holding different opinions on the subject. Repeated references were made in the course of the debate to the existence of this compromise. Thus, Mr. Chapman, whilst expressing his agreement with much that had fallen from Sir Barrow Ellis, said that he felt himself unable to support the amendment for the very plain and conclusive reason that he, as member of the Select Committee, considered himself bound to adhere to the pledge he had given to the European community that, under the altered law, an Englishman should retain his privilege of being tried by an Englishman. Again, Mr. Inglis said that he did not intend to go into the question on its merits, as he considered that he was bound by the terms of the recommendation which he had signed with other members of the Committee. My eminent predecessor, Sir James Stephen, who was in charge of the Bill, declared in the most emphatic terms that he could not undertake to justify on principle the terms of a compromise. And Sir J. Strachey, who also supported the proposals, admitted that the provisions of the Bill represented a compromise which was open to criticism of every kind. The amendment moved by Sir Barrow Ellis was put to the vote, and was lost on a division by a majority of 7 to 5. But the minority on the division included the majority of the Executive Council. It consisted of the then Viceroy, Lord Napier of Murchistoun, the then Lieutenant-Governor of Bengal, Sir G. Campbell, his immediate successor, Sir R. Temple, the then Commander-in-Chief, Lord Napier of Magdala, and Sir Barrow Ellis. Each of these distinguished members of the Government of India not only voted but spoke in support of Sir Barrow Ellis's amendment and against the proposals that are embodied in the existing law. And I shall make no apology for quoting today some of the arguments which they used, and some of the opinions which they expressed.

"Sir Barrow Ellis said that, in making the invidious distinction which was now proposed, if we excluded any Justices of the Peace from the exercise of certain powers, we were really casting a stigma on the whole educated Native population of India. He might also urge that there would be considerable inconvenience in having such a distinction. But he preferred to put it on the broad ground that, if you had Native Covenanted Civil Servants, you ought not to bar them from exercising the powers of a Civil Servant, among which powers is the jurisdiction of a Justice of the Peace over European British subjects, By Act II of 1869 Natives might be appointed Justices of the Peace, and on what ground, he would ask, was it proposed to restrict their powers as Justice of the Peace?

"Sir George Campbell was of opinion that the Council should adhere to the decision which had been come to by the passing of Act II of 1869, namely, that a Justice of the Peace must be either a European British subject or a Covenanted Civil Servant. To reopen that question, and to limit the powers that might be exercised by any Justices who were Covenanted Civil Servants, appeared to His Honour to be somewhat invidious, and would be, as it were, setting themselves against the policy hitherto pursued. Viewing the matter in that light, he should be inclined to vote for the motion before the Council.

"The Commander-in-Chief said that the Native members of the Covenanted Civil Service having been to Europe, having become acquainted with European feelings, ideas and customs, and having qualified themselves to take their places with European members of the Civil Service, His Excellency would frankly accept them as real members of the Covenanted Civil Service, and allow them to exercise all the functions which the European members exercised.

"Lord Napier of Murchistoun said that his vote would be given in conformity with the opinion which had been expressed by the Commander-in-Chief. His Excellency thought that the restriction would embody a stigma on the

Native community in general. It was equivalent to stating that, under no circumstances, as far as the administration of the law was concerned, could the Native attain to that degree of impartiality and courage which would justify the Government in reposing in his hands the power of trying European British subjects. He thought that by the restriction we, in effect, said to the European—'You are not to be tried in the Mufassal by the agency by which you are tried in the High Courts and in the Courts of the Magistrates in the Presidency-towns with the general approval and sanction of the European and Native communities.' It was saying, in effect, that the Native who had attained to the position of a Sessions Judge was not competent to try a European British subject, but that he might try him when he became a Judge of the High Court and sat beside a European Judge. His Excellency could not but help thinking that there was practically no greater disparity in permitting these Native Civil Servants to try a European British subject, than in permitting Native Justices in the Presidency-towns to try him. There appeared to His Excellency to be no such broad distinction whatever between the conditions of society and of public opinion in this respect between the Presidency-towns and the Mufassal. There were now a great number of public-spirited men and a great deal of public spirit all over the provinces. Communications by rail, the dissemination of newspapers both in English and the Vernacular, and a great variety of other circumstances had destroyed that distinction which formerly existed between the Presidency-towns and the Mufassal. His Excellency did not himself consider that there was the slightest possibility that, in the rare case of a Civil and Sessions Judge trying a European British subject in the Mufassal, there would be an abuse of justice.

"Sir Barrow Ellis said that he desired to add his testimony to the efficiency with which Native Magistrates had performed their duties in the Presidency-towns, in the administration of justice to both Europeans and Natives, and he had no hesitation in saying that they had performed their duties with as much credit and efficiency as the European Magistrates. And, if they had done that, he saw no reason why Natives in the position of Covenanted Civil Servants or Sessions Judges should not be equally competent to administer justice to the European in the Mufassal. His Hon'ble friend Mr. Stephen had remarked that in this matter we were not to consult the feelings of the Judge, but of those who were to be subjected to the jurisdiction. In answer to that, Mr. Ellis would say that he saw no reason why that which did not hurt the feelings of Europeans in the Presidency-towns should hurt them in the Mufassal.

"And, finally, Sir Richard Temple said he thought that the inference was undeniable that, if the Natives were eligible to all the great offices of the administration, it seemed improper and unreasonable to say that they should not sit as Judges over Europeans in the Mufassal for offences of the trivial nature over which it was proposed to give Justices of the Peace cognizance.

"However, as I have said, these views, though they commended themselves to the majority of the Executive Council, did not commend themselves to the majority of the legislature, and the amendment proposed by Sir Barrow Ellis was lost.

"It was not to be expected that a decision which avowedly proceeded on the terms of a compromise, and against which such a formidable weight of official authority was arrayed, should be accepted as a permanent settlement of the question. It has not been so accepted. Whenever proposals have been made for amending the Criminal Procedure Code, the attention of the Government has been directed to the anomalous position in which Native members of the Covenanted Civil Service have been left by the legislation of 1872. In the early part of last year, Mr. Gupta, a Native member of the Bengal Civil Service, submitted to the Lieutenant-Governor of Bengal a note in which he pointed out that the existing law, if maintained, would give rise to an invidious distinction, and to very practical inconveniences in the case of those Natives of the country who might expect in course of time to attain to the position of a District Magistrate or of a Sessions Judge. I may add that the anomalous nature of the present arrangements could not be better illustrated than by Mr. Gupta's own case. He officiated for some time as Presidency Magistrate here in

Calcutta, and, while so officiating, he had, under the law as it stands, full powers over European British subjects, even in comparatively serious cases, and exercised those powers to the satisfaction of the Local Government and the public. On his removal to a more responsible appointment in the interior, he ceased to be qualified to deal with even the most trivial cases affecting Europeans. Mr. Gupta's proposal was that the law should be amended by extending the jurisdiction over European British subjects to Natives of this country holding the office of a District Magistrate or of a Sessions Judge, and he suggested that the amendment might be made in the Bill which has since become law as the Criminal Procedure Code of 1882. However, that Bill had then nearly reached its final stage, and it was obvious that a question which was of such importance and difficulty, and about which it would be impossible to take action without consulting both Local Governments and the Secretary of State, could not with propriety be raised at so late a stage of the discussion on the Bill. In this, as in other matters, the Government had, as was pointed out last year by my friend Major Baring, to choose between, on the one hand, passing the new Code, with the amendments which had been generally accepted,—amendments which were of considerable importance,—or, on the other hand, postponing the Code, with all its improvements of form and substance, until all possible amendments of the law had been got together and considered.

"Of these two courses, the Government adopted—and, I think it will be generally agreed, wisely adopted—the latter, taking care, however, to make it clear that, whilst re-enacting, for the purpose of consolidation, certain provisions of the existing law, they were not to be considered as expressing an opinion that these provisions might not with advantage be amended.

"This was Sir Ashley Eden's own view, and accordingly he postponed the submission of Mr. Gupta's note to the Government of India until the new Criminal Procedure Code had become law. But, when he did submit it, he accompanied it with a strong expression of opinion as to the expediency of altering the law in the direction indicated by Mr. Gupta. He remarked that, as a question of general policy, it seemed to him right that Covenanted Native Civilians should be empowered to exercise jurisdiction over Europeans as well as over Natives who are brought before them in their capacity as Criminal Judges. Now that Native Covenanted Civilians might shortly be expected to hold the office of District Magistrate or Sessions Judge, it was also, as a matter of administrative convenience, desirable that they should have the power to try all classes of persons brought before them. Moreover, if this power was not conferred upon Native members of the Civil Service, the anomaly might be presented of a European Joint Magistrate who is subordinate to a Native District Magistrate or Sessions Judge being empowered to try cases which his immediate superior cannot try. Native Presidency Magistrates within the Presidency-towns exercised the same jurisdiction over Europeans that they do over Natives, and there seemed to be no sufficient reason why Covenanted Native Civilians, with the position and training of District Magistrate or Sessions Judge, should not exercise the same jurisdiction over Europeans as is exercised by other members of the service.

"For these reasons, Sir Ashley Eden was of opinion that the time had arrived when all Native members of the Covenanted Civil Service should be relieved of such restrictions of their powers as are imposed on them by Chapter XXXIII of the new Code of Criminal Procedure, or when at least Native Covenanted Civilians who have attained the position of District Magistrate or Sessions Judge should have entrusted to them full powers over all classes, whether European or Native, within their jurisdiction.

"Before taking any further action in the matter, the Government of India considered it desirable to ascertain the views of Local Governments and Administrations as to the expediency of the amendments suggested by Sir Ashley Eden; and accordingly they addressed a circular letter to the several Local Governments, inviting a confidential expression of opinion on those suggestions. The result was remarkable. There was an overwhelming consensus of opinion that some change in the law was required, and that the time had come for removing the present absolute bar on the investment of Native Magis-

trates in the interior with powers over European British subjects. As to the precise extent to which the law should be modified, there was, as might naturally be expected, some difference of opinion; but it was generally admitted that a Native Civilian in the position of a District Magistrate or Sessions Judge should have equal powers with his European colleagues, and there was a very strong body of opinion that there should be no distinction made between Native and European members of the Covenanted Civil Service at any step in respect of their judicial powers, provided that they were individually found qualified to exercise those powers.

"Under these circumstances, it has become abundantly clear that the existing law cannot be maintained, and the only question which we have to consider is not whether the law should be altered, but how it should be altered. In approaching this question, there is one consideration of which we must not lose sight, and of which it is not likely that we should lose sight, and that is, that this is a subject with respect to which it is eminently undesirable to avoid constant tinkering of the law. The settlement arrived at in 1872 may not have been satisfactory,—I do not myself think that it was satisfactory,—but, such as it was, we should not be justified in reopening this difficult question unless we saw our way to a solution which should be, I will not say final—for nothing in legislation is absolutely final—but which should contain in itself the elements of stability and durability. Can we find any such solution? If we look the question fairly in the face, and endeavour to realise distinctly the object at which we ought to aim and the facts with which we have to deal, I think that we can. As to the object at which we ought to aim, there will be no difference of opinion. It is simply the effectual and impartial administration of justice. And as to the facts with which we have to deal, no one who has studied the statistics and reports of the cases involving charges against European British subjects can fail to be struck with two things—first, that, as compared with the great mass of ordinary criminal business, they are exceptionally rare, and secondly, that they are exceptionally troublesome and difficult. To what conclusion do these two peculiarities point? They appear to me to show that, in the interests of the effectual and impartial administration of justice, it is not necessary, and that, in the same interests, it is not desirable, to clothe all Magistrates indiscriminately with the power of dealing with these cases. As we are justified in excluding from the jurisdiction of inferior Magistrates as such the cognizance of the graver classes of offences, so we should be justified in excluding from their jurisdiction the cognizance of a class of offences the trial of which, from the circumstances under which they are ordinarily committed, presents features of exceptional difficulty. It involves no disrespect to the magisterial or judicial office to say that an officer who may be fully competent to dispose of a common case of theft or assault may not be competent to dispose of a class of cases which, as will be admitted by all impartial persons, are apt to put an exceptionally severe strain on the judicial qualities of tact, judgment, patience and impartiality. We are, therefore, I conceive, fully justified, on principles of general applicability, in confining the jurisdiction exercisable in this particular class of cases to a specified class of Magistrates; and the further question which we have to determine is, how this class is to be defined. My answer is, that the line ought to be drawn with reference to the presumable fitness of the Magistrate, and with reference to that alone, and that we ought not to base any difference which we may think fit to make between particular classes of Magistrates on race distinctions, which are as invidious as they are unnecessary.

"These are the principles by which we have been guided in framing the proposals which I am now asking leave to lay before the Council. We are of opinion that the time has come when the settlement which was arrived at in 1872 may with safety, and ought in justice, to be reconsidered; we are of opinion that, if this question is re-opened, it ought to be settled on a permanent and stable foundation; and, finally, we are of opinion that no change in the law can be satisfactory or stable which fails to remove at once and completely from the Code every judicial disqualification which is based merely on race distinctions.

"Accordingly, we propose to amend the law, first, by repealing the words which confine the exercise of jurisdiction over British subjects to persons who are European British subjects themselves; secondly, by declaring that every District Magistrate and Sessions Judge shall be, by virtue of his office, a Justice of the Peace, and, as such, capable of exercising jurisdiction over European British subjects; and thirdly, by empowering Local Governments to invest with the office of Justice of the Peace, and consequently with jurisdiction over European British subjects, any person who, being either

(*a*) a member of the Covenanted Civil Service,

(*b*) a member of the Native Civil Service constituted under the statutory rules,

(*c*) an Assistant Commissioner in a non-regulation province, or

(*d*) a Cantonment Magistrate,

is for the time being invested with the powers of a Magistrate of the first class, and is, in the opinion of the Lieutenant-Governor, fit to be entrusted with those further powers. We propose to make no distinction in the law between European and Native officers. We consider that the care exercised in the selection of officers for the Covenanted Service, both in Regulation and Non-Regulation Provinces, together with the subsequent training that they receive, warrants our amending the law in the manner proposed. As a fact, no officer would be eligible until he had passed all the departmental examinations and been in training long enough to show the superior authorities whether he would be likely to use any powers conferred on him with proper discretion. These proposals will completely remove from the law all distinctions based on the race of the Judge. The limitations remaining on the jurisdiction of particular classes of Magistrates will be based, not on any difference of race, but simply on differences of training and experience.

"These, then, are our proposals. I repeat that, in making them, the only object which we have in view is to provide for the impartial and effectual administration of justice. It is by that test that we desire our proposals to be tried. If they are tried by that test, I am not without a confident hope that they will commend themselves both to the European and to the Asiatic subjects of Her Majesty as reasonable and just."

The Hon'ble MR. EVANS said that he was not well acquainted with the rules of debate in the Council, but wished to know whether the principle of this measure should be debated on this occasion, when leave was asked to introduce a Bill, or whether the measure should be debated at a later stage. Most of the non-official members of the Council were in the same position as himself, and had heard today, for the first time, what the proposed measure was. It was, no doubt, one which had been often debated and was a vexed question. As had been pointed out, it was settled by a compromise in 1872, and MR. EVANS would also point out that there was nothing which was more dear to any man, and more especially to an Englishman, than his liberty, and nothing which he was more jealous of than any change in the tribunal which could deprive him of that liberty in a moment. He might also point out that, when an Englishman came into a tropical country, a sentence of imprisonment on him in certain seasons and places meant almost certain death. He did not propose now to discuss the principles of the settlement which it was now proposed to come to. He thought that the able speech in which it was introduced and the grave matters which were set forth in it deserved full consideration, and he did not think he would be justified in propounding any views of his own on the subject at once. But time should be given to the non-official community, considering that the question of the tribunal was one of the greatest importance—far greater than any question concerning the law of property and other such matters. Under these circumstances, he would ask His Lordship if he considered it was convenient to debate the principle of the Bill on the motion for leave to introduce it, then that the motion should be postponed so as to give time to the non-official English community in India, which was scattered far and wide in the various provinces, to make their voices heard, or, at any rate, that it should be postponed today, as he felt he could not give full consideration to it that day.

His Excellency THE PRESIDENT said :—"Nobody is pledged in the smallest degree by the introduction of this or any other Bill, and it would be obviously very unfair that Hon'ble Members of Council should be called upon to express an opinion on the principle of a Bill which they have not seen. Nothing could be more lucid than the statement made by my hon'ble and learned friend who proposes to introduce the Bill, but, until the Bill itself is in the hands of the public, it would be unfair both to them and to the Government that any opinion should be expressed upon it, or that any discussion should take place upon the measure in this Council.

"No one knows better than my hon'ble and learned friend Mr. Evans how difficult it is to understand a Bill, even with the clearest explanations of its provisions, until you have the Bill itself before you; and the public are sometimes perhaps a little too much inclined to criticise by anticipation measures of which they know nothing and have seen nothing; and I myself should not be in the smallest degree inclined to give any sort of encouragement to a procedure which, as I have said, is unfair both to the Government and to the public.

"I need not, I am sure, say that the Government has no desire to push this matter forward without giving full time for its consideration.

"The proper occasion, I think, for discussing the principle of the Bill will be on its reference to a Select Committee.

"I look upon that stage of the procedure as standing in the place of what is called 'the second reading' in Parliament at home. In the House of Lords, a Bill is often brought in and put on the table without saying a word; in the House of Commons, this is not the case, but the occasions on which discussions arise on the introduction of a Bill are rare, and debate on the principle of the measure takes place on the second reading.

"What I would, therefore, suggest would be that leave should now be given to bring in this Bill; that it should be brought in at the next meeting of the Council, and then published; and that due time should be given, before the motion is made for its reference to a Select Committee, in order to enable Members of Council to consider it when they receive it in print, and to be prepared to discuss it fully after they have acquired a perfect knowledge of its provisions."

MAHÁRÁJÁ SIR JOTÍNDRA MOHAN TAGORE having asked permission to address the Council on the subject of the Bill, His Excellency the President remarked :—

"Although, according to strict rule, the Mahárájá has lost his turn for speaking, I am sure that this Council would wish me to give him leave to address them. And, in doing so, I should like to take the opportunity of expressing the great regret I feel that this, I believe, is the last occasion on which we shall have the presence in the Council of our hon'ble colleague Mahárájá Sir Jotíndra Mohan Tagore. During the long period of his service in the Legislative Council, the Mahárájá has distinguished himself by his fairness, his enlightened views and his remarkable courtesy towards all the Members of this Council.

"The Government of India have derived very great advantage from the presence of my hon'ble friend in the Council, and it is a source of deep regret to me that the fair rule of giving a chance to others to take their place in this Council, and, therefore, of not unduly prolonging the presence in it of any one particular member, added to the Mahárájá's own desire to be relieved of duties which clash with his other engagements, have necessitated his retirement, and occasioned the great loss to the Council which must result from his absence from it."

The Hon'ble MAHÁRÁJÁ SIR JOTÍNDRA MOHAN TAGORE said :—"My Lord, I have listened with great interest to what has been said by my hon'ble and learned colleague opposite, and, as this may be the last occasion, as Your Lordship has observed, on which I shall have the honour of addressing this Council, I beg leave to take this opportunity of offering, on behalf of my countrymen, their grateful thanks to Your Excellency for redeeming the promise, which was held out to them during the last session of the Council, to amend that portion of the Criminal Procedure Code which relates to the trial of British-born subjects. Although it is impossible to say anything with regard to the details of the Bill before it is in-

troduced, the very fact that something will be done now to remove the anomaly which has been a source of standing complaint with my countrymen from a very long time is in itself a matter for congratulation. Knowing the broad and statesman-like views which have always characterised Your Lordship's government, we have every reason to hope that legislation in this direction will be of a piece with those other great measures of reform,—among which I may name the repeal of the Vernacular Press Act, and the Act which, for the first time, has introduced the principle of self-government in this country,—which we feel sure will mark Your Lordship's administration as an epoch in the annals of British India; and I am free to confess, my Lord, that, on this closing day of my humble career in this Council, I feel an honest pride that I have had the good fortune to occupy a seat here while these great measures have been either passed or initiated under the auspices of Your Excellency's liberal government.

"And I take this opportunity, my Lord, to tender my own most hearty and grateful thanks for the very kind manner in which Your Excellency has been pleased to speak of my humble services in this Council."

The Motion was put and agreed to.

## UNIVERSITIES DEGREES BILL.

The Hon'ble MR. GIBBS introduced the Bill to authorize the Universities of Calcutta, Madras and Bombay to grant certain honorary degrees, and moved that it be circulated for the purpose of eliciting opinion thereon.

He said the short history of the measure was this. In the Bill which became law a short time ago for the establishment of the University in the Panjáb, permission was given to that University to confer certain honorary degrees. It would also be in the recollection of the Council that an Act conferring power on the University of Calcutta to grant honorary degrees generally was passed in 1875 very hurriedly through the Council, to confer the honorary degree of Doctor of Laws on His Royal Highness the Prince of Wales. Under that Act the University also, some short time afterwards, conferred a similar distinction on three eminent scholars, two of whom were Natives, namely, Rajendralál Mitter, K. M. Banerjí and Monier Williams. Some time after, the Secretary of State addressed a despatch to Government, asking them to abstain from conferring these honorary degrees. It seems, however, to the Government of India that the time has now arrived when the Universities in this country have attained to a status and position which would warrant this power being exercised by them; and the Calcutta University, on being unofficially consulted, was of opinion that the measure which the Government proposed to introduce was one worthy of acceptance. It would repeal the Act of 1875 and limit honorary degrees being conferred by the University of Calcutta, as well as by other Universities, to that of Doctor of Laws, which was generally the honorary degree conferred by the older Universities of Oxford, Cambridge and Dublin; and, in accordance, he had now to introduce the Bill, leave to do which was obtained in Simla, to grant this power to the Universities of Calcutta, Madras and Bombay, the two latter of which did not hitherto possess it.

The Motion was put and agreed to.

The Hon'ble MR. GIBBS also moved that the Bill and Statement of Objects and Reasons be published in the *Fort St. George Gazette*, the *Bombay Government Gazette* and the *Calcutta Gazette* in English and in such other languages as the Local Governments might think fit.

The Motion was put and agreed to.

## LITTLE COCOS AND PREPARIS ISLANDS LAWS BILL.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to amend the law in force in the Little Cocos Island and Preparis Island. He said that these two islands, as members of the Council might be aware, lay to the north of the Andáman group, between that group and the projection of land which was formed by the mouths of the Irrawaddy. The Little Cocos Island used to form

a portion of the territories administered by the Chief Commissioner of the Andamans and the Nicobars, and, as such, was a portion of the scheduled districts contained in the Scheduled Districts Act. For administrative purposes, it was thought advisable a short time ago to transfer the Island to the administration of the Chief Commissioner of British Burma, and to attach it to the District of Hanthawaddy, in British Burma. It was considered necessary to withdraw the Little Cocos Island from the operation of the Scheduled Districts Act, and to make the law the same as in that portion of British Burma. These objects would be effected by the present Bill, and it would take effect retrospectively from the date from which they were transferred to the administration of the Chief Commissioner of British Burma. But, considering the nature of the population of the Islands, he did not think that a retrospective measure would involve any serious risk of interfering with vested rights. He had turned for information on this subject to a copy of the *Gazetteer* of Dr. Hunter, from which high authority he learnt that the inhabitants of Little Cocos, at the date when the *Gazetteer* was published, consisted of a few wild pigs and a good many birds. But he had just been informed by His Excellency the Commander-in-Chief that there were also a lighthouse-keeper and eleven chaprásís.

The Motion was put and agreed to.

## NIZÁMAT ACT REPEAL BILL.

The Hon'ble MR. ILBERT also presented the Report of the Select Committee on the Bill to repeal Act XXVII of 1854.

## AGRICULTURAL LOANS BILL.

The Hon'ble MR. CROSTHWAITE moved that the Hon'ble Rájá Siva Prasád and the Hon'ble Mr. Thomas be added to the Select Committee on the Bill to consolidate and amend the law relating to loans of money for agricultural improvements.

The Motion was put and agreed to.

The Council adjourned to Friday, the 9th February, 1883.

GOVERNMENT OF INDIA.

# LEGISLATIVE DEPARTMENT.

## ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Friday, the 9th February, 1883.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Major the Hon'ble E. Baring, R.A, C.S.I, C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble Rájá Siva Prasád, C.S.I.
The Hon'ble W. W. Hunter, LL.D, C.I.E.
The Hon'ble Durgá Charan Láhá.
The Hon'ble H. J. Reynolds.
The Hon'ble H. S. Thomas.
The Hon'ble G. H. P. Evans.
The Hon'ble R. Miller.
The Hon'ble Kristo Dás Pál, Rai Bahádur, C.I.E.

### NEW MEMBER.

The Hon'ble Kristo Dás Pál, Rai Bahádur, took his seat as an Additional Member.

### NIZÁMAT ACT REPEAL BILL.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to repeal Act XXVII of 1854 be taken into consideration. He said that the object of the Bill was to repeal formally an Act which, in consequence of arrangements recently made with the Nawáb Názim of Bengal, had become unworkable. The Bill was approved by the Local Government; it had been duly published in the *Calcutta* and *Bengálí Gazettes*, and the Council had received no objections or suggestions for amendment. Under these circumstances, the Committee recommended that the Bill be passed in the form in which it was introduced.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill be passed.

The Motion was put and agreed to.

### CRIMINAL PROCEDURE CODE, 1882, AMENDMENT BILL.

The Hon'ble MR. ILBERT also introduced the Bill to amend the Code of Criminal Procedure, 1882, so far as it relates to the exercise of jurisdiction over European British subjects. He said that the step which he was then taking was purely formal. He would not invite the Council to discuss the principle of the Bill until full time had been given for its consideration by the outside public.

## LITTLE COCOS AND PREPARIS ISLANDS LAWS BILL.

The Hon'ble MR. ILBERT also introduced the Bill to amend the law in force in the Little Cocos Island and Preparis Island, and moved that it be circulated for the purpose of eliciting opinion thereon.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill and Statement of Objects and Reasons be published in the *British Burma Gazette* and the *Andaman and Nicobar Gazette* in English, and in such other languages as the Local Governments might think fit.

The Motion was put and agreed to.

The Council adjourned to Friday, the 16th February, 1883.

## PART I.

### Government of India Notifications, Appointments, Promotions, &c.

### LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

*Fort William, the 6th February, 1883.*

**No. 3.**—ERRATUM.—In the thirteenth line of section 444 of the Code of Civil Procedure (Act XIV of 1882), *for* "sum" *read* "same."

---

**No. 4.**—The following amendments of the Rules for the Conduct of the Legislative Business of the Council of the Governor General received the assent of His Excellency the Governor General on the 16th February, 1883, and are hereby promulgated for general information:—

IN exercise of the power conferred by the Indian Councils Act, 1861, section 18, the following amendments of the Rules made on the 11th day of February, 1873, have been made by the Council of the Governor General assembled for the purpose of making Laws and Regulations at the meeting held on the 16th day of February, 1883, and have received the assent of the Governor General:—

(1.) After Rule 17 the following shall be inserted, namely:—

"17A. The Council may, at any time after leave to introduce a Bill has been granted, direct that the Bill be published in such manner as the Council thinks fit."

(2.) In the fourth paragraph of the 24th Rule the word "and" shall be omitted, and to that paragraph the following shall be added, namely:—

"and the date on which the publication has taken place, or, where publication in more than one Gazette or in more than one language is ordered, the date on which the publication in each such Gazette and each such language has taken place."

(3.) To the 24th Rule the following paragraphs shall be added, namely:—

"When the Committee recommend the republication of a Bill which was originally ordered by these Rules or by the Council to be published in more than one Gazette or in more than one language, they shall, in the absence of anything to the contrary in their report, be taken to recommend that the Bill be republished in every such Gazette and every such language.

"If the Committee are of opinion that it is unnecessary to republish the Bill in any such Gazette or in any such language, they shall, in their report, state the grounds of their opinion."

(4.) After the 29th Rule the following shall be inserted, namely:—

"29A. Notwithstanding anything in the foregoing Rules, it shall be in the discretion of the President, when a motion that a Bill be taken into consideration has been carried, to submit the Bill, or any part of the Bill, to the Council section by section. When this procedure is adopted, the President shall call each section separately, and when the amendments relating to it have been dealt with, shall put the question 'that this section, or (as the case may be) this section as amended, stand part of the Bill.'"

R. J. CROSTHWAITE,
*Addl. Secy. to the Govt. of India.*

## HOME DEPARTMENT.

NOTIFICATIONS.—ESTABLISHMENTS.

*Fort William, the 15th February 1883.*

**No. 41.**—Mr. C. E. Bernard, C.S.I., Chief Commissioner of British Burma, has been granted furlough for ten months, with effect from the 1st March 1883, or from any subsequent date on which he may avail himself of it.

**No. 43.**—APPOINTMENT.—Mr. C. H. T. Crosthwaite, C.S., to officiate as Chief Commissioner of British Burma during the absence of Mr. C. E. Bernard, C.S.I., or until further orders.

**No. 46.**—The services of Mr. J. C. Arbuthnot, Assistant Magistrate and Collector, Hazaribagh, are placed at the disposal of the Chief Commissioner of Assam.

MEDICAL.

*The 13th February 1883.*

**No. 72.**—The services of Surgeon-Major W. Jackson are replaced at the disposal of the Military Department, with effect from the forenoon of the 16th January 1883, the date on which he was relieved of the duties of Civil Surgeon at Mooltan.

ARCHÆOLOGY.

*The 13th February 1883.*

**No. 25.**—APPOINTMENT.—Mr. J. F. Fleet, of the Bombay Civil Service, to be Epigraphist to the Government of India, with effect from the 17th January 1883.

JUDICIAL.

*The 14th February 1883.*

**No. 216.**—The Honorable C. D. Field, a Judge of the High Court of Judicature at Fort William in Bengal, has obtained furlough for eight months, with effect from the 12th March 1883, or from any subsequent date on which he may avail himself of it.

FORESTS.

*The 15th February 1883.*

**No. 158** *F.*—Mr. M. H. Ferrars, Deputy Conservator of Forests in British Burma, who has been deputed to the charge of the forests of Port Blair and the Nicobars, is appointed to be *ex-officio* an Assistant Superintendent in that Settlement, with effect from the date on which he may assume charge of his duties, and until further orders.

*The 16th February 1883.*

**No. 161** *F.*—Consequent on the return from furlough of Lieutenant-Colonel W. J. Seaton, M.S.C., Conservator of Forests of the 1st Grade, in charge of the Tenasserim Circle in British Burma, the following officers will revert to the substantive appointments indicated opposite their names, with effect from the 29th January 1883:—

Captain E. S. Wood, Officiating Conservator of Forests, 1st Grade, Oudh,—to Conservator of Forests, 2nd Grade, Oudh.

Major G. J. VanSomeren, M.N.I., Officiating Conservator of Forests, 2nd Grade, and Assistant Comptroller General (Forests),—to Conservator of Forests, 3rd Grade, and Assistant Comptroller General (Forests.)

Mr. E. P. Popert, Officiating Conservator of Forests, 3rd Grade, in charge of the Tenasserim Circle in British Burma,—to Deputy Conservator of Forests, 2nd Grade, British Burma.

A. MACKENZIE,
*Secretary to the Government of India.*

## REVENUE AND AGRICULTURAL DEPARTMENT.

NOTIFICATION.—SURVEYS.

*Fort William, the 15th February 1883.*

**No. 61—41-2** *S.*—The following officiating appointments in the Geological Survey of India are sanctioned, with effect from the dates mentioned:—

Mr. R. D. Oldham, Assistant, 3rd Grade, to officiate in the 2nd Grade, from the 14th June 1881, *vice* Mr. T. W. H. Hughes, officiating in the 1st Grade.

Mr. P. N. Bose, Assistant, 3rd Grade, to officiate in the 2nd Grade, from the 2nd March 1882, *vice* Mr. R. Lydekker, on leave.

Mr. T. H. D. LaTouche, Assistant, 3rd Grade, to officiate in the 2nd Grade, from the 8th June 1882, *vice* Mr. T. W. H. Hughes, on leave.

E. C. BUCK,
*Secretary to the Government of India.*

## FOREIGN DEPARTMENT.

NOTIFICATIONS.—JUDICIAL.

*Fort William, the 10th February, 1883.*

**No. 426** *G.*—Whereas His Highness the Maharaja Sindia has granted to the British Government full jurisdiction within those portions of lands forming the Sindia State Railway (including the lands occupied by stations, out-buildings, and for other purposes connected with the Railway) which lie within the territories of the Gwalior State; in exercise of such jurisdiction, and of the powers conferred by Sections 4 and 5 of Act XXI of 1879 ("the Foreign Jurisdiction and Extradition Act, 1879"), and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to issue the following Notification in supersession of Notifications of the Government of India in the Foreign Department, No. 64 I.J., dated the 28th May, 1880, and No. 89 I.J., dated the 14th April, 1881:—

1. The Cantonment Magistrate of Morar for the time being shall exercise the powers of a District Magistrate as described in Act X of 1882 ("the Code of Criminal Procedure") within the aforesaid portions of land. Provided that in any case in which the complainant, if any, and all the accused persons are not British subjects, it shall be in the discretion of the said Cantonment Magistrate to decline to exercise the powers hereby conferred on him.

2. The Resident at Gwalior and the Agent to the Governor-General for Central India shall respectively exercise the powers of a Court of Session and of a High Court, as described in Act X of 1882, in respect of all offences over which jurisdiction can be exercised by the said Cantonment Magistrate within the aforesaid portions of land.

3. The administration of the Police within the aforesaid portions of land is hereby delegated to the person for the time being holding the office of Assistant Inspector-General of Railway Police in the North-Western Provinces, who, subject to the control of the Cantonment Magistrate of Morar, shall exercise within the aforesaid portions of land all such police powers as may be exercised by a District Superintendent of Police under any law for the time being in force in British territory.

4. The Assistant Inspector-General of Railway Police in the North-Western Provinces for the time being shall exercise within the aforesaid portions of land, in subordination to the Cantonment Magistrate of Morar, the powers of a Magistrate of the second class, as described in Act X of 1882. Provided that in any case in which the complainant, if any, and all the accused persons are not British subjects, it shall be in the discretion of the said Assistant Inspector-General of Railway Police to decline to exercise the powers hereby conferred on him.

**No. 427** *G.*—Whereas His Highness the Maharaj Rana of Dholpur has granted to the British Government full jurisdiction within those portions of the Sindia State Railway (including the lands occupied by stations, out-buildings, and for other purposes connected with the Railway) which lie within the territories of the Dholpur State; in exercise of such jurisdiction, and of the powers conferred by Sections 4 and 5 of Act XXI of 1879 ("the Foreign Jurisdiction and Extradition Act, 1879"), and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to issue the following Notification, in supersession of the Notifications of the Government of India in the Foreign Department, No. 67 I.J., dated the 28th May, 1880, and No. 93 I.J., dated the 14th April, 1881:—

1. The Political Agent for the time being in Dholpur shall exercise the powers described in Sections 30 and 34 of Act X of 1882 ("the Code of Criminal Procedure"), and the powers of a District Magistrate as described in the same Act, within such portions of the aforesaid lands as are situated within the limits of the Dholpur State. Provided that in any case in which the complainant, if any, and all the accused persons are not British subjects, it shall be in the discretion of the said Political Agent to decline to exercise the powers hereby conferred upon him.

2. The Sessions Judge of Agra and the High Court of the North-Western Provinces shall respectively exercise the powers of a Court of Session and of a High Court, as described in Act X of 1882, in respect of all offences over which jurisdiction can be exercised by the Political Agent in Dholpur within the whole of the aforesaid lands.

3. The administration of the Police within the aforesaid lands shall be delegated to the person for the time being holding the office of Assistant Inspector-General of Railway Police in the North-Western Provinces, who, in subordination to the Political Agent in Dholpur, shall exercise within the aforesaid lands the same police powers as may be exercised by a District Superintendent of Police under any law for the time being in force in British territory.

4. The Assistant Inspector-General of Railway Police in the North-Western Provinces for the time being shall exercise within the aforesaid lands, in subordination to the Political Agent in Dholpur, the powers of a Magistrate of the 2nd class, as described in Act X of 1882. Provided that in any case in which the complainant, if any, and all the accused persons are not British subjects, it shall be in the discretion of the said Assistant Inspector-General of Railway Police to decline to exercise the powers hereby conferred upon him.

*The 14th February, 1883.*

**No. 371** *I.*— Under Section 8 of Act XV of 1872, the Governor-General in Council is pleased to appoint the Reverend J. A. Northrop, Missionary of the Methodist Episcopal Church, to be Marriage Registrar in respect of all places within the territories of Mysore, including the Civil and Military Station of Bangalore, and under Section 9 of the said Act the Governor-General in Council is pleased to license him to grant certificates of marriage between Native Christians within the said territories.

---

MILITARY.

*The 14th February, 1883.*

**No. 466** *G.*—Surgeon H. N. V. Harington, Indian Medical Service, Madras, is appointed to officiate as Medical Officer of the Meywar Bheel Corps, with effect from the date of assuming charge.

---

POLITICAL.

*The 13th February, 1883.*

**No. 453** *G.*—Subject to the confirmation of Her Majesty's Government, the Governor-General in Council is pleased to recognize the appointment of Mr. W. F. Halliday as Consular Agent for the United States of America at Chittagong, *vice* Mr. C. C. Ellis, resigned.

**No. 459** *G.*—With reference to Foreign Department Notification, No. 1559 G., dated the 20th December, 1882, the recognition by the Government of India of the appointment of Mr. J. Brandenburg as Acting Consul for Germany at Bombay, during the absence of Mr. C. Kapp, has been confirmed by Her Majesty's Government.

GENERAL.

*The 10th February, 1883.*

It is with feelings of deep regret that the Governor-General in Council announces the death, on the evening of the 8th instant, from cholera, of HIS EXCELLENCY the NAWAB SIR SALAR JUNG, G.C.S.I., the Regent and Minister of the Hyderabad State.

By this unhappy event, the British Government has lost an enlightened and experienced friend; HIS HIGHNESS the NIZAM a wise and faithful servant; and the Indian community one of its most distinguished representatives.

C. GRANT,
*Secretary to the Government of India.*

## DEPARTMENT OF FINANCE AND COMMERCE.

### NOTIFICATIONS.

*Fort William, the 16th February 1883.*

**No. 796.**—Major G. J. Van Someren having been appointed to officiate as Assistant Comptroller General, Forest Branch, assumed charge of his duties, after noon, on the 2nd February 1883.

**No. 849.**—In exercise of the powers conferred by Section 35 of the Court Fees Act, 1870, and in supersession of Notification in this Department, No. 3681, dated 20th October 1881, the Governor General in Council remits, in the whole of British India, the fees payable under clause (*a*), paragraph 4, and clause (*b*), paragraph 2 of Article 1, Schedule II, annexed to the said Act, on applications for orders for the payment of deposits in cases in which the deposit does not exceed Rs. 25 in amount: provided that the application is made within three months of the date on which the deposit first became payable to the party making the application.

**No. 883.**—Whereas under the terms of Notification in the Department of Finance, No. 3646, dated 13th November 1880, the Municipality of Chiplun in the Ratnagiri District, in the Bombay Presidency, has paid into the Chiplun Treasury the sum of Rs. 150 as composition for the stamp duty chargeable on a sum of Rs. 30,000, which that Municipality was authorised to borrow and which has been raised by the issue of 300 debentures of Rs. 100 each, such debentures being numbered consecutively from 1 to 300, and bearing date the 1st February 1883.

Therefore in exercise of the powers conferred by Section 8 of the Indian Stamp Act, 1879, the Governor General in Council has exempted the above-mentioned debentures from any stamp duty with which they might otherwise be chargeable whether on issue, renewal, or sub-division.

Drill Havildar Gujadher to be Jemadar, *vice* Dhurm Sing Thappa, invalided; Color Havildar Gujbahadoor to be Jemadar, *vice* Buddrie Sing Allay, invalided,—1st November, 1882.

## RETIREMENTS.

**No. 95.**—Major Francis Richard Arabin Brown Constable, Bengal S.C., is permitted to retire from the service, subject to Her Majesty's approval.

## SPECIAL.

**No. 96.**—The Most Hon'ble the Viceroy and Governor General in Council is pleased to order the publication of the following despatch from the Right Hon'ble the Secretary of State for India, forwarding copies of the votes of thanks agreed to by both Houses of Parliament in relation to the recent naval and military operations in Egypt :—

*Despatch from the Secretary of State for India,—No. 30, dated the 18th January, 1883.*

I have much pleasure in forwarding copies of the votes of thanks agreed to by both Houses of Parliament in relation to the recent naval and military operations in Egypt, and I request that they may be made known to the troops which were despatched from India to take part in that campaign.

From Horse Guards, 16th November, 1882.
To Horse Guards, 22nd November, 1882, No. M-9022.

Copies of a letter from General Lord Wolseley, G.C.B., G.C.M.G., enclosing copies of these votes, and of the reply addressed to him by the Military Secretary at this Office, are also transmitted herewith.

HORSE GUARDS, WAR OFFICE,
*16th November, 1882.*

SIR,—In transmitting to you the accompanying votes of thanks in relation to the recent naval and military operations in Egypt which were agreed to by both Houses of Parliament on the 26th October last, I have the high satisfaction to request that you will be so good as to move the Marquis of Hartington to cause the same to be made known to the troops which were despatched from India to take part in the campaign.

I have already communicated to Major-General Sir H. T. Macpherson, V.C., K.C.B., the sense of the Houses of Parliament of "the energy and "gallantry with which he has executed the "services he has been called upon to perform."

I have, &c.,
(Sd.) G. J. WOLSELEY,
*Adjutant-General.*

*To the Military Secretary, India Office.*

INDIA OFFICE,
No. M-9022. *22nd November, 1882.*

SIR,—I am desired by the Marquis of Hartington to acknowledge your letter of the 16th November, 1882, transmitting copies of the votes of thanks in relation to the recent naval and military operations in Egypt which were agreed to by both Houses of Parliament on the 26th October 1882, and requesting that they may be made known to the troops which were despatched from India to take part in the campaign.

2. In reply I am to inform you that the Secretary of State for India in Council will have the highest gratification in forwarding the vote

of thanks to the Government of India, in order that they may be made known to those troops of the Indian Army who took part in those operations in Egypt which, under your command, have recently been crowned with such brilliant success.

I have, &c.,

(Sd.) ALLEN JOHNSON, *Major-General,*
*Military Secretary.*

*To General Sir Garnet Wolseley, G.C.B., G.C.M.G.*

---

HOUSE OF LORDS.

*Die Jovis, 26° Octobris, 1882.*

*Resolved, Nemine Dissentiente, by the Lords Spiritual and Temporal in Parliament assembled,*

That the Thanks of this House be given to Admiral Sir Frederick Beauchamp Paget Seymour, Knight Grand Cross of the Most Honourable Order of the Bath, for the distinguished skill and ability with which he planned and conducted the attack on the Fortifications of Alexandria and the naval operations in the Suez Canal, which aided materially in the suppression of the Military rebellion against the authority of His Highness the Khedive.

*Resolved, Nemine Dissentiente,*

That the Thanks of this house be given to General Sir Garnet Joseph Wolseley, Knight Grand Cross of the Most Honourable Order of the Bath, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, for the distinguished skill and ability with which he planned and conducted the Military operations in Egypt which resulted in the Victory of Tel-el-Kebir, the occupation of Cairo, and the complete suppression of the Military rebellion against the authority of His Highness the Khedive."

*Resolved, Nemine Dissentiente,*

That the Thanks of this House be given to—

General Sir John Miller Adye, Knight Commander of the Most Honourable Order of the Bath;

Vice-Admiral William Montagu Dowell, Companion of the Most Honourable Order of the Bath;

Lieutenant-General George Harry Smith Willis, Companion of the Most Honourable Order of the Bath;

Lieutenant-General Sir Edward Bruce Hamley, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Companion of the Most Honourable Order of the Bath;

Major-General Sir Archibald Alison, Baronet, Knight Commander of the Most Honourable Order of the Bath;

Rear-Admiral Sir William Nathan Wrighte Hewett, V.C., Knight Commander of the Most Honourable Order of the Bath;

Rear-Admiral Sir Francis William Sullivan, Knight Commander of the Most Honourable Order of the Bath, Companion of the Most Distinguished Order of Saint Michael and Saint George;

Rear-Admiral Anthony Hiley Hoskins, Companion of the Most Honourable Order of the Bath;

Major-General His Royal Highness Arthur, Duke of Connaught, Knight of the Most Noble Order of the Garter, Knight of the Most Ancient and Most Noble Order of the Thistle, Knight of the Most Illustrious Order of Saint Patrick, Knight Grand Commander of the Most Exalted Order of the Star of India, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George;

Major-General William Earle, Companion of the Most Exalted Order of the Star of India;

Major-General Sir Henry Evelyn Wood, V.C., Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Knight Commander of the Most Honourable Order of the Bath;

Major-General Gerald Graham, V.C., Companion of the Most Honourable Order of the Bath;

Major-General George Byng Harman, Companion of the Most Honourable Order of the Bath;

Major-General Drury Curzon Drury-Lowe, Companion of the Most Honourable Order of the Bath;

Major-General Sir Herbert Taylor Macpherson, V.C., Knight Commander of the Most Honourable Order of the Bath;

and to the other Officers and Warrant Officers of the Navy, Army, and Royal Marines, including Her Majesty's Indian Forces, both European and Native, for the energy and gallantry with which they executed the services they have been called upon to perform.

*Resolved, Nemine Dissentiente.*

That this House doth acknowledge and highly approve the gallantry, discipline, and good conduct displayed by the Petty Officers, Non-commissioned Officers, and Men of the Navy, Army, and Royal Marines, and of Her Majesty's Indian Forces, European and Native; and also, the cordial good feeling which animated the United Force.

*Ordered, by the Lords Spiritual and Temporal in Parliament assembled,*

That the Lord Chancellor do communicate the said Resolutions to Admiral Sir Frederick Beauchamp Paget Seymour, and General Sir Garnet Joseph Wolseley, respectively, and that they be requested by the Lord Chancellor to communicate the same to the several Officers referred to therein.

---

HOUSE OF COMMONS.

*Thursday, 26th October, 1882.*

*Resolved, Nemine Contradicente,*

That the Thanks of this House be given to Admiral Sir Frederick Beauchamp Paget Seymour, Knight Grand Cross of the Most Honourable Order of the Bath, for the distinguished skill and ability with which he planned and conducted the attack on the Fortifications of Alexandria and the Naval operations in the Suez Canal, which aided materially in the suppression of the Military rebellion against the authority of His Highness the Khedive.

*Resolved, Nemine Contradicente,*

That the Thanks of this House be given to General Sir Garnet Joseph Wolseley, Knight Grand Cross of the Most Honourable Order of the Bath, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, for the distinguished skill and ability with which he planned and conducted the Military operations in Egypt which resulted in the Victory of Tel-el-Kebir, the occupation of Cairo, and the complete suppression of the Military rebellion against the authority of His Highness the Khedive.

*Resolved, Nemine Contradicente,*

That the Thanks of this House be given to—

General Sir John Miller Adye, Knight Commander of the Most Honourable Order of the Bath;

Vice-Admiral William Montagu Dowell, Companion of the Most Honourable Order of the Bath;

Lieutenant-General George Harry Smith Willis, Companion of the Most Honourable Order of the Bath;

Lieutenant-General Sir Edward Bruce Hamley, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Companion of the Most Honourable Order of the Bath;

Major-General Sir Archibald Alison, Baronet, Knight Commander of the Most Honourable Order of the Bath;

Rear-Admiral Sir William Nathan Wrighte Hewett, V.C., Knight Commander of the Most Honourable Order of the Bath;

Rear-Admiral Sir Francis William Sullivan, Knight Commander of the Most Honourable Order of the Bath, Companion of the Most Distinguished Order of Saint Michael and Saint George;

Rear-Admiral Anthony Hiley Hoskins, Companion of the Most Honourable Order of the Bath;

Major-General His Royal Highness Arthur, Duke of Connaught, Knight of the Most Noble Order of the Garter, Knight of the Most Ancient and Most Noble Order of the Thistle, Knight of the Most Illustrious Order of Saint Patrick, Knight Grand Commander of the Most Exalted Order of the Star of India, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George;

Major-General William Earle, Companion of the Most Exalted Order of the Star of India;

Major-General Sir Henry Evelyn Wood, V.C., Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Knight Commander of the Most Honourable Order of the Bath;

Major-General Gerald Graham, V.C., Companion of the Most Honourable Order of the Bath;

Major-General George Byng Harman, Companion of the Most Honourable Order of the Bath;

Major-General Drury Curzon Drury-Lowe, Companion of the Most Honourable Order of the Bath;

Major-General Sir Herbert Taylor Macpherson, V.C., Knight Commander of the Most Honourable Order of the Bath;

and to the other Officers and Warrant Officers of the Navy, Army, and Royal Marines, including Her Majesty's Indian Forces, both European and Native, for the energy and gallantry with which they executed the services they have been called upon to perform,

*Resolved, Nemine Contradicente,*

That this House doth acknowledge and highly approve the gallantry, discipline, and good conduct displayed by the Petty Officers, Non-commissioned Officers, and Men of the Navy, Army, and Royal Marines, and of Her Majesty's Indian Forces, European and Native; and, also, the cordial good feeling which animated the United Force.

*Ordered,*

That the said Resolutions be transmitted by Mr. Speaker to Admiral Sir Frederick Beauchamp Paget Seymour and General Sir Garnet Joseph Wolseley; and that they be requested to communicate the same to the several Officers and to the Men referred to therein.
